NO LARGE LOSS.

Commissioner Olney Confident the School Fund Will Not be Seriously Impaired.

HARTFORD, Conn., Aug. 15.—The Hon. Jeremiah Olney, commissioner of the school fund, was seen Tuesday by a representative of The Courant, who asked him about the recent difficulties resulting from the flight of E. L. Gunn of Lima, O. Mr. Olney said that the matter was in the hands of able and active attorneys, who, if he should make public the details, would be hampered in their work of protecting the state's interests. For this reason the commissioner wisely decided that he should make no public statement at present.

During the investigations made since Mr. Olney's dispatches from Lima were printed in "The Courant," no new complications have developed that materially change the situation, and there is no reason for him to alter his previous declaration that he does not look for any large loss to the state, in spite of Gunn's dishonesty.

A full statement of the school fund affairs in relation to Gunn has been laid before Governor Morris by Mr. Olney and Chief Clerk Spencer, showing him in detail what action has been taken and what future course has been decided upon, which apparently met his approval. The governor gave the commissioner valuable suggestions, which, Mr. Olney said, would be cheerfully observed, where practicable.

It has already cropped out in the New Haven papers that Governor Morris does not expect that the state will meet any very serious loss, and he talks as an intelligent lawyer after full possession of the facts.

The fact is that there are so many safeguards about the fund, as now managed, that, in spite of Gunn proving himself a rascal, his opportunity for cheating in this direction was very limited.

Mr. Olney is not disturbed by the agitation that has taken place in some excited newspapers, for he knows what the situation is and has faith in the common sense of the average Connecticut citizen. His administration of the school fund will be judged by its results.

Alleged Infringement of Electric Patents.

NEW HAVEN, Conn., Aug. 15.—Deputy United States Marshal Leveridge today served papers in a suit against the Winchester Avenue Railroad company, brought by the Thompson-Houston Electric company of Boston, through their attorneys, Betts, Atterbury, Hyde & Betts of 120 Broadway, New York, for damages and profits for use of apparatus alleged to be patented by the plaintiffs. The suit is returnable to the United States district court on the September return day. This is the fourth suit for alleged infringement of patents which has been brought against the defendants during the past four months. Similar suits, in all cases, have been brought against the Westinghouse Electric and Manufacturing company of Pittsburg, and this company will defend in all suits, because the Winchester Avenue Railroad company are using apparatus made by this company.

Daughters of Late Hiram Camp Appeal From Probate Court.

NEW HAVEN, Conn., Aug. 15.—The daughters of the late Hiram Camp of this city have filed an application in the probate court praying that an appeal to the superior court be taken from the probating of the will, and the application was granted today. The ground on which the appeal was taken, and which will be made the basis of the contest, is that undue influence was used with the testator in the making of the will upon the part of various benevolent institutions which were given liberally of the deceased's property. It appears that the institutions in interest would receive, if the provisions of the will were carried out, one-third of the property. The estate is valued at about $170,000, an amount far greater than was at first supposed would be disposed of in this manner. The institution named in Mr. Camp's will were the American Sunday-school association of Moody's Northfield seminary, Northfield, Mass., and a number of local charitable organizations.

Safety Pin in a Baby's Mouth.

ANSONIA, Conn., Aug. 15.—While Mrs. George Machtershaimer of Birmingham was leaning over the cradle in which her 6-months-old baby was lying this morning, a safety pin dropped from her dress into the baby's open mouth and quite a distance down its throat. Drs. Shelton and Barry were sent for and by the utmost care they were able to get the pin out before it had worked its way beyond reach.

Wages Cut 15 Per Cent.

ANSONIA, Conn., Aug. 14.—Wilkinson Bros. & Co. of Shelton, paper manufacturers, now making government postal cards, notified their employes yesterday of a cut in wages of 15 per cent. The cut is to take effect on that day, it being necessary to do that or shut down. The men are satisfied, as they have implicit confidence in the concern. This is the first cut in wages in this vicinity.

Ericbell & Co. of Shelton settled the attachment suit of the Consolidated road today and the factory resumed.

JUDGE BARBOUR STILL FREE.

Mr. Eberle Hesitates Before Prosecuting Him Criminally.

HARTFORD, Conn., Aug. 15.—Prosecuting Attorney Eberle has not yet acted on the charges of assault preferred by Reporter George B. Thayer of The Courant against Judge Barbour and Officer Karon Maloy, for ejecting him from the police court room. Mr. Eberle's position in the matter is a delicate one, and he is moving cautiously. He will announce his decision in a few days, and it will then be known if the judge and the policeman are to be arraigned on a criminal charge.

The city charter vests the power of criminal trials in the police court, and if Mr. Eberle decides to prosecute Judge Barbour, the case will be tried before Judge Bill. This makes a big opening for possibilities. Judge Bill might send Judge Barbour up for thirty days, and then Judge Barbour might send Judge Bill up for thirty days, too, for contempt. All lawyers agree that an assistant judge would be guilty of contempt in sending up his superior.

Silver Purchases.

WASHINGTON, Aug. 15.—The acting director of the mint bureau today announced that the treasury department had yesterday as the result of the counter-offer of $0.7325 an ounce, purchased 230,000 additional ounces of silver, which with the 60,000 ounces purchased at the same price earlier in the day, make the total purchases for yesterday 290,000 ounces. The offers amounted to 303,000 ounces. The total purchases thus far this month aggregate 1,786,000 ounces.

CONGRESSIONAL PROCEEDINGS.

In the Senate.

WASHINGTON, Aug. 15.—Mr. Gordon (dem.) of Georgia has introduced a bill to suspend for six months the operation of the law taxing the notes of the state banks 10 per cent. He prefaced its reading with a statement in which he claimed that the passage of his bill (if not a panacea for existing ills) would stop the panic in 15 days. It would, he said, allow the Savannah banks to issue notes sufficient to move the whole cotton crop, of which that city is the central port. The bill was referred to the finance committee.

Mr. Hoar (rep.) of Massachusetts addressed the senate on the Vest resolution.

At the close of Mr. Hoar's speech a discussion started as to the question of the responsibility for the demonetization of silver. Finally, after an executive session, the senate adjourned.

In the House.

Mr. Blanchard, (La.) speaking in favor of free coinage, expressed his opinion that if the republican platform meant anything, not twenty republicans would vote for the Wilson bill. The Chicago platform, he said, had declared for the repeal of the Sherman law, and had declared for bimetallism. That portion ought to be carried out on a single bill and on a bimetallic standard. If the friends of silver yielded to gold they yielded that which nothing but revolution could regain.

Mr. Grosvenor (rep., Ohio) said that it was unfortunate that the president in his message had seen fit to first appeal to partisanship and to unjustly proclaim to the people that the present perils of the country grew out of the legislation of the republican party. He read the message of President Buchanan to congress in 1857, and he intimated that President Cleveland had been guilty of plagiarism in his recent message to congress. Mr. Cleveland, he said, might have stated that the unemployed men in this country today numbered millions, and there were more idle in the country today than there had been since 1861. Very little of the present trouble could be traced to the Sherman act.

Mr. Snodgrass (Tenn.) said he could not vote for the Wilson bill. It attacked but one sentence of the Sherman act and did not carry out the intention of the Chicago platform. The cry of the people was for more money, and the best way to secure that end was to provide for free coinage of silver.

A SENSATION AT BARRE, VT.

Evidence Sufficient to Warrant the Arrest of Leading Citizens.

BARRE, Vt., Aug. 15.—There is another sensation here. Miss Aurora Flint of West Randolph was brought here from the Mary Fletcher hospital in Burlington, the last of June, in a critical condition, suffering from blood poisoning, and died July 3, at Riverside hotel, being interred in Barre cemetery.

While ill here she was attended by Drs. Fiske and Lance of Montpelier and J. W. Jackson of Barre. Nothing excited suspicion at the time of her death, but since then State Attorney Stowe has been asked to investigate the case of the blood poison, which has resulted in the supreme court judges sending Doctors A. P. Grinnell, dean of the Burlington medical college, and J. H. Lindsley here last night to exhume the body. They reached here late last night, being joined by State's Attorney Stowe, E. N. Goss of Chelsea and Dr. J. W. Jackson of this city. The body was exhumed at midnight and given a rigid examination, lasting three hours.

The physicians left town before morning to avoid suspicion, but it is reported on the best authority that they secured evidence sufficient to warrant the arrest of a certain physician and leading citizen of West Randolph for criminal malpractice and probable manslaughter.

An investigation shows that early in June the young lady was taken ill at the home of a West Randolph citizen, and it is alleged that an operation was performed which caused her to be sent to the Mary Fletcher hospital, where she laid at the point of death for two weeks, when she was sent here and placed under the care of the above named physicians at Riverside hotel.

POMONA FIELD MEETING.

First of a Series in Connecticut Held at Roseland Park.

An enthusiastic Pomona grange meeting, composed of Quinebaug and New London county Pomonas, was held Monday at Henry C. Bowen's Roseland park, Woodstock. The meeting was the first of a series of Pomona field meetings to be held in various parts of the state this week.

The exercises were in charge of C. H. Potter, lecturer of Quinebaug Pomona, who, with S. O. Bowen, D. A. Lyman, B. C. Patterson, Lewis J. Wells and George Austin Bowen, occupied the morning session with impromptu speeches.

The key for the afternoon exercises was "Progression," the subject being discussed by L. A. Healey, master of Quinebaug Pomona; E. J. Hempstead, chaplain of New London county Pomona; Mrs. Joseph Hall of Colchester, Mrs. Alonzo Towle of New Hampshire, Hon. John C. Higgin, master of the Delaware state grange; Lewis J. Wells, Woodstock; Mrs. Joseph Hall, Colchester, and George Austin Bowen, master of the Connecticut state grange.

The other meetings will be held at Quinsnic lake on Tuesday, Rockville on Wednesday, at Pawcatt Park, New Haven, on Thursday, at White Oaks, New Britain, and at Winsted on Friday, with the same corps of speakers.

IN THE AMERICAN SPORTING FIELD.

Grand Circuit Races at Rochester—Bicycling at Milwaukee.

WORCESTER DRIVING PARK.

Happy Doctor Wins Second Money in the 2.40 Class—Summaries.

WORCESTER, Mass., Aug. 15.—The August meeting of the Worcester Driving Park company opened under very favorable conditions this afternoon, the weather being good, the races well contested and the attendance larger than on any previous day. It was the disastrous day for the backers of the favorites, who lost heavily on Addie L. and Hortense in the first two races. They then plunged on Tiny B. in the last race and pulled out a little, as she won her race in straight heats.

The following are the summaries:

2.40 class, trot, purse $[illegible], divided, with $25 additional for fifth [illegible].

Addie, b. m.	1	1	1
Happy Dr., b. g.	2	3	3
Cuckoo, b. m.	3	2	5
Mamie, J., c. m.	5	4	4
Addie L., b. m.	6	5	6
Amelia, b. m.	4	6	6

Time, 2.31, 2.30¾, 2.30¾.

2.30 class, pace, purse $300, divided.

By Wilkes, b. g., Stone	2 1 2 1 1
Hortense, blk. m.	1 2 1 3 3
Humming Bird, c. m., Swan	dis.
Charlie P., g. g.	dis.

Time—2.20¾, 2.22¼, 2.22, 2.22, 2.22.

2.27 class, pace, purse $300, divided.

Tiny B., b. m.	1	1	1
Jingo Jim, br. g.	3	2	2
Bunlor, bl. m.	2	4	4
Marguerite, b. m.	5	3	3
Grace, b. m.	4	5	5

Time, 2.23¾, 2.24¼, 2.23¼.

At Rochester Driving Park.

ROCHESTER, N. Y., Aug. 15.—Two thousand people attended the opening of the grand circuit races at the Rochester driving park this afternoon. The quality of the sport was fair.

The first race was for two-year-olds eligible to the 2.25 class. Directors Flower was the favorite and winner. Queen Allah took the second heat, but the Flower was never headed in the next heat. There were five starters in the 2.26 trot and four of them were so evenly matched that none sold a favorite in the early betting. After S. J. had captured the first heat, Sabine took the next three. In the second heat the mare reduced her mark by three and one-quarter seconds. Hal Braddon captured the 2.30 pace in straight heats. He was booked a winner. Summaries:

Two-year-old trotter eligible to the 2.35 class; purse, $2,000.

Director's Flower, b. f., by Director	1	2	1
Queen Allah, ch. f., by Almonarch	2	1	2
Red Bud, b. c.	3	3	3
Chris Lang, br. c.	4	4	4

Time—2.30¼, 2.28¼.

2.26 class, trotters; purse, $5,000.

Sabanaw, b. m., by Sable Wilkes, dam by Legrande; J. A. Goldsmith	[illegible]
S. J., ch. g., by Warwick	1 [illegible]
Charlie C., blk. g.	[illegible]

Maud B., cr. m.	4	4	4
Phillipa Wilkes, b. f.	5	5	5

Time, 2.15¾, 2.14, 2.15¼.

BICYCLE EVENTS.

Finishing Day of the International Races at Milwaukee.

MILWAUKEE, Wis., Aug. 15.—Good races and lots of excitement marked the finishing day of the international race at International park here today.

Zimmerman captured the half mile open, the mile open and one mile international. The contest for second place in these events aroused the most interest.

In the one mile open three men finished behind the champion at dead heats. Banker being at the pole, Bode in the center and Gitnens on the outside. The judges gave the decision in favor of Bode.

Dernberger was second to Zimmerman in the half mile open pushing right along only half a length to the rear. A. D. Kennedy won the mile 2.40 class race. Five thousand people attended the meet.

Meeting of Directors of Consolidated Road.

NEW HAVEN, Conn., Aug. 15.—The directors of the Consolidated road, held a meeting in New York today, to discuss the financial situation so far as it relates to the company's interests. President Clark was desirous of talking over the situation with the directors and deciding on some policy in regard to the extensive improvements the road is making.

Tonight Mr. Clark said: "It is true that the directors of the road held a special meeting today to consider the situation growing out of the general business depression of the country. The depression has not yet materially affected the business of the company and it will continue to afford the same facilities in train service. There was no definite conclusion arrived at, but power was given to the officers to curtail train service or disbursements for construction at their discretion, if found necessary later on."

ROLLING THE BALLS.

The National Croquet Tournament Opened—Good Playing Tuesday.

All day Tuesday and far into the night the National Croquet association grounds on the Rockwell lot resounded with the whack of mallet and ball. The tournament games began promptly at 8 o'clock, and never was the organization favored with more propitious weather.

Among the early morning arrivals was Gus Maurer, the "Jersey Lily," a famous croquet expert who sustained his reputation for brilliancy of execution and wonderful shots in his opening games. Apgar of Trenton, and Bryant of Northampton, are expected today.

The longest game of the day and one of the longest on record, was that of Smith and Farnsworth, who fought for five hours, the former finally finishing victor.

Young Willie Knecht, who has mounted to the first division, may be a surprise. Two years ago Willie was unknown as a croquet player in the National association, but without a defeat he captured first prize in the third division. This gave him a place last year in the second division, where, after a hard struggle, he managed to win first place. For brilliancy of execution and wonderful shots he is an apt pupil of that king of fancy shots, Prof. Jacobus. His play follows that of his master, and his rapidity is excelled only by Maurer, who holds the championship for time limit games.

Prof. Jacobus has won the championship but once, but he has been second more than half a dozen times, and probably his average record equals or excels that of any other player. Botsford of New York was champion once. He is admitted to have the most delicate stroke of any of the champions for fineness of touch to his games. Although not having played for some three or four years he excelled even the veterans Johnson and Jacobus.

Assemblyman Strong, until he and Johnson met last year, had not lost a game and was considered the coming champion, but the Pennsylvanian lowered his colors.

Johnson needs practice to play his game and this year he has been much embarrassed for time. He is sergeant-at-arms of the Philadelphia common council, and, added to that, has just recently commenced a new business enterprise in the City of Brotherly Love. With the time which these occupations call for, he has been forced to curtail his croquet recreation. As a result he is not in his usual condition. This is Greenslit's second year in the leading contests.

Young Edward Strong of New London is playing a strong game in second division. This is his first year in the tournament.

During the day Tuesday the grounds and delegates were photographed by Mr. G. W. Phillips of the Electric Light Co.

The association has not yet adopted the rubber cushion which makes the grounds at Cottage City, Martha's Vineyard, excel those of the National association, but it is thought that within a few years its grounds, to conform with the standard requirements, will have the rubber cushion surrounding it. All the players agree that with it croquet approaches billiards in its scientific possibilities.

As it costs over $60 to fit one ground with the rubber cushion, the clubs representing the association keep the cushion a hard-wood stringer, and thus save a great deal of expense and money for their respective clubs. The cost of putting a single croquet ground in proper condition and keeping it thus during a whole season is about the price of a billiard table, and the expense, therefore, to those who indulge in the scientific game of croquet, as played under the rules of the National association, make it a somewhat costly sport.

The tournament games will be played tonight. Mr. Barnum of the committee of arrangements promises to have all the tournament games finished by Friday night.

The annual meeting of the National Croquet association was held in the club house on the grounds at 7.30 o'clock Tuesday evening. President Bishop presided and there were twenty-four delegates present. Secretary Jacobus called the roll of clubs, and followed by reading his report of the last meeting, which was approved.

The report of Treasurer Jacobus disclosed a balance of 24 cents in the treasury. The report was referred to the finance committee.

President Bishop appointed Dr. Knecht and Messrs. Baldwin and Davenport a committee on nominations for officers, who retired.

Mr. Barnum of Danbury, chairman of the committee of arrangements, said that the only innovation this year was the abolishing of the fourth division, otherwise the rules were to be abided by. This action was approved by the meeting.

Mr. Johnson, of the committee on rules and grounds, reported that there was some dissatisfaction over the present mode of scoring in the games. After some discussion, on motion of Prof. Jacobus, the matter was laid on the table.

The committee on nominations then announced the following selections:

President, G. C. Strong of New London.

Vice presidents, William Holden of Leominster, Mass., Gus Maurer of Keyport, N. J., and Charles Greenslit of Philadelphia.

Secretary and treasurer, E. C. Butler of Middletown.

Corresponding secretary, H. G. Fay of New York.

At his request Mr. Butler's name was withdrawn, and that of his brother D. D. Butler was substituted. The list was then unanimously approved.

Mr. Fay, chairman of the building committee, reported the erection of the substantial structure in which they were gathered. The indebtedness incurred was $645. Of this amount cash on hand was $375, and $115 more was pledged. The sum now due was $155. The report was accepted, and Prof. Jacobus made a stirring appeal for funds.

On motion of D. Knecht, Messrs. Johnson, Dickey and E. C. Butler were appointed a delegation to move to secure the needed amount of bonds, to report at the adjourned meeting.

Prof. Jacobus moved the appointment of a committee on necrology to adopt resolutions on the death of C. C. Bliss, an enthusiastic croquetist and member of the building committee. President Bishop appointed the Rev. Dr. Germond, Dr. Knecht and Mr. Baldwin.

Mr. Johnson made an attack on the Norwich club for alleged neglect of the association's balls, claiming that two of the eight sets had been demolished since the last tournament. Messrs. Bilbrough and Fay spoke in the same vein.

The Norwich members refuted this statement, claiming that the balls were carefully cared for and that all damage was sustained during the meet by association players.

Mr. Johnson amended a former motion, by proposing that a committee be appointed, consisting of the association president and two Norwich club members to ascertain their respective property and look to its proper usage. The motion was unanimously approved and Messrs. Meech and Dickey were put on the committee.

On motion of Mr. Adamson a hearty and unanimous vote of thanks was extended to Messrs. Meech and others of the Norwich club for gratuitous and untiring work in grading the courts.

Mr. Johnson explained that his non-appearance was due to business engagements over which he had no control. He regretted that he had been unable to direct the work.

The meeting then adjourned subject to the call of the president.

The score at the close of play last night was as follows:

First Division.

	Lost.	Won.
Maurer, Keyport, N. J.	[illegible]	3
Greenslit, Philadelphia	[illegible]	3
Dickey, Norwich	1	3
Johnson, Philadelphia	[illegible]	1
G. C. Strong, New London	2	1
Jacobus, Springfield, Mass.	1	1
Germond, New York	1	[illegible]
Bishop, Norwich	3	1
Knecht, Keyport, N. J.	[illegible]	[illegible]

Second Division.

	Lost.	Won.
Fay, New York	1	1
Baldwin, Danbury	1	1
D. Butler, Middletown	1	1
D. C. Butler, Middletown	1	3
E. Strong, New London	1	[illegible]
Meech, New London	[illegible]	1
Brewer, Norwich	[illegible]	[illegible]
Chafrant, Wilmington	[illegible]	1
Mansfield, Asbury Grove, Mass.	[illegible]	[illegible]
Apgar, Trenton	[illegible]	[illegible]
Vesey, Wilmington	1	[illegible]

Third Division.

	Lost.	Won.
Davenport, Northampton	1	1
Dr. Knecht, Keyport, N. J.	1	[illegible]
Jobes, Leominster	[illegible]	[illegible]
Barrett, Northampton	[illegible]	[illegible]
Farnsworth, Leominster	1	[illegible]
Hickman, Wilmington	[illegible]	3
Adamson, Philadelphia	[illegible]	[illegible]
Holden, Leominster	1	[illegible]
Smith, Middletown	[illegible]	1
Crawford, Asbury Grove, Mass.	[illegible]	1

BUFFALO GRAIN ELEVATOR BURNED

Valued at $750,000—Had a Capacity 1,200,000 Bushels

12 BUILDINGS DESTROYED.

The Loss on Which is About $65,000—Total Loss $800,000.

BUFFALO, N. Y., Aug. 15.—The Coatsworth elevator, situated on Michigan and Ganson streets, having a capacity of 1,200,000 bushels and valued at three-quarters of a million dollars, was totally destroyed by fire at 4 o'clock this morning. About a dozen frame structures, mostly saloons and dwellings, were also burned.

The fire started shortly after 3 o'clock in the tower, and the flames, being out of reach of the firemen, spread to every part of the roof and then worked their way downward. The Kellogg elevator and a big lumber yard were on fire several times, but the flames were extinguished before gaining any great headway. At 4.20 o'clock the elevator building fell in, and the sheet of flame being thus lowered and fanned by a high wind jumped to a row of seventeen small buildings on the west side of Michigan street, ten or a dozen of which were destroyed. The loss on these is about $25,000. The total loss is estimated at $800,000 and is fairly well covered by insurance.

The Winners in Tuesday's Run of N. Y. Yacht Club.

NEW BEDFORD, Mass., Aug. 15.—A little of the old Gerry weather seems to have visited the New York Yacht club in eastern waters, which has been a delightful change from the Long Island end of the cruise.

The run today was void of particular interest to the general public, owing to the fact that the prospective cup defender, Vigilant, was alone in her class. The winners today were schooners Constellation, Volunteer, Ariel; sloops Katrina, Queen Mab, Wasp and Vigilant.

The course for tomorrow's run to Newport is 27 miles from Clark's point light to Brenton's reef lightship, leaving Hen and Chickens light on the starboard hand in passing.

Commissioner Blount and the New Chinese Minister Arrive.

SAN FRANCISCO, Cal., Aug. 15.—Among the passengers on the steamship Gaelic, which arrived this morning, were James H. Blount, American minister to Hawaii, and Mr. Yang, the new Chinese minister to the United States.

LOCAL NOTICES.

Dobson for sale cheap.

Position granted to do housework.

See advertisement of "Help Wanted."

A. C. Worth unloads car No. 4 of Delaware peaches today.

Welcome A. Smith has the Fleur De Lis and a full line of fancy crackers.

Pitcher & Maine call attention to the Union cash registers displayed in Smith Brothers' crockery window.

The office of the Norwich Business college will be open from 9 30 to 2.30 to receive applicants for membership.

Cranston & Co. are closing out some nice croquet sets at reduced prices. Also a very superior set for a dollar.

Go directly to Smith & Gilbert's to find what you want in negligee shirts, bathing suits, sweaters, leather belts, etc.

E. P. Turner offers good rates for ten days at the World's fair, including tickets to Chicago and return. See advertisement.

Frank A. Bill is bound to close out his summer shoes, and to do it has reduced the prices enough to insure their clearance.

Now is the time to set out strawberry plants. Edward A. Smith will deliver fine healthy plants at your home or at the express office.

Pillsbury Best Flour is so well known in the kitchens of this country that it is only necessary to show the brand to insure a sale. Smith, Norman & Co., Hartford, are the millers' agents.

T. E. McClenathan has a dozen duck Infants' hats left, and they are going cheap. Children's caps and trimmed hats have struck bottom to close. Call at the store and get the bargains.

In a hot day a dish of ice cream tastes very nice after dinner or in the evening. Reid's ice cream, sold by N. D. Sevin & Son, keeps solid one hour without ice—just long enough to take home to dinner.

B. Gotthelf & Co. publish a few blue items in their advertisement today which will make the patrons of that store anything but blue if low prices are considered. They will have a true blue letter sale, which means the biggest kind of bargains, the particulars of which can be found in the advertisement.

Today Porteous & Mitchell are going to make things hustle in the shirt waist line. It's only for a day, but it will be a lively day. Some lots will last only an hour. Only two of a kind to a customer, so if you want more take the whole family and make each member a customer. Never will see another such a chance. See advertisement.

A Prompt Answer.

A sales clerk at one of the counters at the remnants sale at Brainerd & Armstrong's factory was asked by a lady what the remnants on her counter could be used for. Without an instant's hesitation she answered:

"The art satin is used for sofa pillows, table covers, party bags, photo cases, mantle drapery, door drapery, bed covers, child's carriage robes, fire screens, and art embroidery purposes in general.

The silk sheeting, figured terry and the counterpane goods can be used for the same purposes.

NORWICH AND VICINITY.

Temporary Repairs Made.

Trains began running Monday noon over the temporary bridge which the New York & New England railroad company has built over the river at Blackstone, Mass., to replace the one burned last week. The Norwich & Worcester trains arrive in this city nearer schedule time in consequence.

WORSHIPPING IN THE GROVE.

Tuesday's Religious Services—The Campers Increasing Daily.

INTERESTING DISCOURSES.

Notes of the Camp—Treasurer Hewitt's Report for Year Ending Aug. 1.

WILLIMANTIC CAMP GROUNDS, Aug. 15. The bell for six o'clock prayer meeting echoed noisily through the grove this morning, and the early beams of a hot August sun filtered down through the glossy leaves upon a goodly number of worshipers, led in their fervent morning petitions by Brother Nichols of Stafford Springs, who selected as the scriptural lesson the narration of Paul's conversion.

At 8 o'clock services were held in most of the church houses; and from that hour on the grove resounded with melodious songs, as one little band after another gathered for prayer and praise.

At 10 o'clock the general meeting was held in the circle, Mr. E. Wheeler conducting the singing. On the stand with Elder Tirrell were the following clergymen: Smith of Putnam, Ashley of Voluntown, Ayers of Uncasville, Allen of Norwich, Jackson of Jewett City, Pearce of Old Mystic, Foster of East Hampton, Brayley of Glendale, Bridgeford of Danielsonville, McVey of Burnside, Tragaskis of Manchester, Peck of Turnerville, Betts of East Glastonbury, Kidder of Mystic, and Tabor of South Manchester, Bell of Colchester.

After the reading of the hymn by the Rev. Mr. Jackson, the scriptural lesson from Luke iv. and v. was read by the Rev. A. A. Kidder of Mystic, and the divine blessing was invoked by the Rev. John Pearce of Old Mystic. Mr. Tirrell announced a young people's meeting in the chapel at 6 p. m., when Brother Prener of Moosup would conduct the services.

The Rev. Mr. Foster of East Hampton delivered the formal discourse of the morning from Jude 24, "Unto Him that is able to keep you from falling, and to present you faultless before the presence of His glory, with exceeding joy." Drawing a parallel between the cholera and other scourges of former and recent years and the terrible inroads of sin, the sickness and sorrow and pain and death, the fruits of man's first disobedience, he pointed out, citing Paul to the Romans, that natural evil is the effect of moral evil. There is in the world a disease worse than mortal ills—the scourge of sin, universally prevalent, not only hereditary but contagious. It is not alone an earthly disease, for even the angels fell by it; it's nature, its root is the falling away from the Holy Spirit, the life-giving principle. Man's spirit rebelling against God's spirit is soon surrendered to self. The process of recovery implies a denial of self, a return to God; the soul is restored by the remedy of repentance toward God and faith in Christ. The Great Physician alone is able to keep from falling, and, where there is proper Christian growth, will present his children faultless at the last.

Evangelist Johnson thought that just now in the world there is more religion lived than enjoyed. The bugbear of duty impels too many people to exterior religious observances, while the heart is cold. Religious life is often warped by injudicious church members. The new birth should bring delight in duties, an enjoyment constant and unremittent.

The altar service was omitted, and benediction by the Rev. George H. Bates of Rockville closed the services.

At one o'clock an interesting children's meeting conducted by Mrs. Reed of New London was held in the tabernacle. An hour later a good sized congregation assembled for the regular meeting. The Rev. James Baker of Gurleyville read from Timothy II. and prayer was offered by the Rev. G. H. Bates.

Reading of the hymn by the Rev. W. O Gordier of Portland and its spirited singing by the choir preceded the afternoon sermon by the Rev. Mr Kidder of Mystic, its text I. Peter iii., 15: "Sanctify in your hearts Christ our Lord." It was an earnest exposition of the obligation resting upon preachers, and equally upon every Christian, to work earnestly to bring souls to a knowledge of Christ. Stress was laid upon the personal responsibility of even the unsaved.

The Rev. Mr. Johnson spoke upon the necessity of love, and prayers and personal testimonies brought the meeting to a close.

In the evening the Rev. W. C. Newell of Moodus spoke with acceptance upon "The Rejected Christ," choosing as his text John i, 10 and 11.

Notes of the Camp.

Mr. Eugene Morgan, Misses Jennie Yeomans and Jennie Franklin are at the Central Methodist house.

Misses Mary Bidwell and Winnie E. Howe are at at the East Main street house.

The Rev. G. H. Bates and daughter Lottie of Rockville spent Tuesday at the camp ground.

Treasurer J. P. Hewitt's report for the year ending Aug. 1 shows the receipts to have been $1,533 90 and the expenses $1,511 51, leaving a balance in the treasury of $22 39.

It is said that the attendance this year is considerably smaller than at previous meetings.

Mrs. Evelyn McCann of Talman street arrived at the grounds Tuesday.

Mr and Mrs. Frank Davis and daughter of Thames street, are occupying their cottage here.

Among the most attractive cottages and grounds are those of Mr. W. O. Turner of Turnerville, whose handsome ferns and thrifty plants are admired by all visitors. Mr. Turner has been a cottage owner upon the camp grounds for upwards of a score of years.

The annual meeting of the executive committee will be held on Wednesday, and that of the stewards on Friday at 1 p. m.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

TOBACCO CROP DAMAGED.

Will Be a Complete Failure Unless the Drouth is Soon Broken.

The drouth is such that it now threatens the tobacco throughout the Connecticut river valley. Unless there comes a speedy and soaking rain, there is danger that the crop will be ruined. It has promised well, in spite of the ragged work wrought by hail in parts of East Hartford and perhaps one or two other localities, which has ruined some fine fields, and fair prices are assured if the crop can be secured in good shape. But it is a damaged crop, in any event, now—owing to this hard drouth—and what remains of it will be lost, mostly, unless rain comes very soon.

The tobacco crop in that part of Connecticut is worth, probably, $700,000, after all allowances for hail and drouth. A saving rain now would save that aggregate sum to the tobacco growers of Hartford county—and that would mean a great difference in the condition of things for the next fall and winter hereabouts.

This tobacco is from the Cuba seed. No other, or almost no other, is sown now by our Connecticut growers. The plants from the Cuba seed have, of course, a smaller leaf than those grown from seed that was grown here, but the quality is so vastly better that it pays to use Cuba seed every time.

THE OLD LAW STANDS.

An Attempted Repeal of the "Disclosure" Act Which Does Not Repeal.

The late general assembly passed the following law, entitled "Chapter CCXIII."

"Section 3,106 of the general statutes is hereby repealed."

The marginal note beside this reads:

"One arrested as intoxicated need not disclose."

Section 3,105 of the general statutes is the old "disclosure" law that required a person who had been arrested for intoxication to disclose where he got his liquor. So far so good. But that section 3,105 is among the statutes of the 1888 revision. Now it happens, says The Hartford Courant, that in 1889 the legislature passed a new disclosure law which superceded that of 1888, and so the legislature of 1893, when it repealed section 3,105, repealed a law already dead and the "disclosure" law still holds. The law is on the statute books hale and hearty.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Sent to the Reform School.

Ambrose A. Osborne, the twelve-year-old son of Henry A. Osborne of the West Side, was presented in the city court Tuesday morning for stealing $1.50 from the pocket of Edwin F. Pratt, a carpenter, while the latter was at work in the Mount Pleasant school house last week. Officer Stanley exhorted a confession from the lad, and it was decided to place him in the Meriden reform school during his minority. Capt. Burdick took young Osborne to Meriden on the 10.55 train.

Timely Handbooks.

CROQUET: Official rules of the game as adopted by the National American Croquet association. American Sports Publishing company, 241 Broadway, New York.

ATHLETES' GUIDE: American Sports Publishing company, 241 Broadway, New York.

LAWN TENNIS, by O. S. Campbell. American Sports Publishing company, 241 Broadway, New York.

STREET IN CAIRO: An illuminated pamphlet descriptive of the street in The Midway Plaisance. In addition to letter press it has six pretty water-colored plates. Published by the Egypt-Chicago Exposition company, Chicago.

OUT-DOORS: In illuminated covers. Contains papers upon "Lawn Tennis", "Yachting," "Cycling," "Foot Ball," "Base Ball," "Horsemanship," "Rowing" and "Canoeing." Published by the Pope Manufacturing Co., Boston.

LATEST MAP AND INDEX OF WESTERN CONNECTICUT, AND OF EASTERN CONNECTICUT, with population of towns and cities. Invaluable as a pocket guide for wheelmen or travelers. George H. Walker & Co., 160 Tremont street, Boston, Mass.

VIRTUALLY PROHIBITIVE.

Restrictions Around the Sale and Use of Oleomargarine.

The act concerning imitation butter, popularly known as the oleomargarine law, passed by the recent general assembly in amendment of the existing statute, requires the dairy commissioner to provide all signs prescribed under the statute. These are of three kinds: Denoting place of sale, to be placed over or next the main entrance of premises where the oleomargarine is sold, to be affixed to each side of the wagon, from which sold or delivered, and to be affixed to the tub containing the imitation butter.

Oleomargarine or any kind of imitation butter must not now be colored to resemble butter, and will therefore now appear of a dyspeptic shade of white. The restrictions placed about the sale, delivery and use of oleomargarine, together with the absence of attractive coloring and the heavy United States license imposed, have already had the effect of making the article unpopular with dealers and retailers. So far but six retailers and one wholesaler have obtained licenses in this state. The annual license fee to retailers is $48, wholesalers $480. It is probable that with the advent of cool weather more licenses will be applied for, as they can be obtained for six months, but the rigid enactment of the general assembly is virtually prohibitive.

The general assembly increased the salary of the deputy dairy commissioner to $1,200 per annum and not exceeding $300 for expenses.

THE ASPINOOK COMPANY.

The Great Dam in Jewett City Nearing Completion—Notes of the Work.

The season of anxiety with regard to the Aspinook company's dam in Jewett City is passed. The foundation fastened to solid work is in and should the predicted flow come it would work no injury. Both the east and west abutments are nearly done and mason work on the head gates are going on. The brick work of the machine shop is done and that on the largest of the three buildings to be connected with the main structure is well under way.

Everything has been favorable from the first. An immense amount of excavation was deemed necessary in order to put the buildings where water is most used so far below the level of the dam that pumping would be unnecessary and thus great future expense be saved. In a few days the shovelers will strike the tail-race and then it will begin to look like seeing the end.

The great company of workmen are exceedingly well behaved. They occasionally appear on the Jewett city streets, but always set a good example to citizens by sobriety and quietness.

The Italians are making a good thing of it. It is said that in their own country eighteen cents a day is the highest wages paid for common labor. Here they get at least six or seven times that, and their board costs them not far from twelve cents a day, so that a few years in the sand pits here will make them "millionaires" when they return to their sunny, if poverty-stricken, Italy.

IN BOSTON MARKETS.

Prices for Butter This Week Very Irregular.

AMOUNT NOW IN TRADE IS SMALL.

Fruit Market is Very Busy—New Kinds Coming in Daily.

BOSTON, Aug. 15.—Prices for butter were somewhat irregular this week. The quantity of strictly fine butter now in trade is quite small, and if this case should continue, there will undoubtedly be a raise in the cost of such. Best Northern creamery is sold nowhere less than [illegible]. Fine western is worth 21 cents in spruce tubs. No 2 creamery is offered at 18 to 20 cents, while good New York and Vermont dairy sells for about the same figure. On the whole the market seems stronger this week. The demand at Boston is increasing, and as the supply is decreasing, a rise in prices may be seen at any time. Of course large amounts are at present in cold storage, but these will not be moved at the present quotations.

The Fruit Market

Is now very busy. New kinds are coming in almost daily, notable among these are apples, pears and peaches. Native Astrachan and Williams apples are here and most of the fruit stands have them. As yet the consumer is not buying largely, but by the bushel they cost $1.50. Green pie apples are here in crates at 30 cents to $1. Jersey Nyacks pippin is quoted at $2.50 a barrel.

The hot, dry weather which prevailed up to a week ago played havoc with the late blueberries, and today it is hard to find a crate of full solid berries in the market. Eight to 9 cents a quart is all that any of these will bring. While the drought injured the blueberry the blackberry continued to flourish under the same conditions, and some fine fruit is on the market as a result. Prices for these remain very good, 14 to 15 cents being the figure. Raspberries are about gone and a few left are worth 15 to 18 cents a quart.

Both white and yellow peaches are coming in large quantities from Delaware and Maryland. Among the consignments poor fruit is often seen while some growers put large and small fruit in the same packages. This practice is wrong and dealers will not pay a reasonable price for such. According to the quality prices take a wide range and quotations go anywhere from 85 cents to $1 a basket. Of the early Southern grapes Delawares and Niagaras bring $3 to $4 for crates of six baskets, while southern Bartlett pears bring $3 a barrel.

Vegetables.

The recent heavy rains while greatly needed by the market grower proved disastrous to some of his field crops. Melons and tomatoes suffered considerably. Prices for some of the leading vegetables are as follows: Cucumbers are a little lower, $1.25 to $1.50 per 100, now. Beets, in bushel boxes, are 50 cents to $1. Cabbages are in good demand and bring a good price, $4 to $5 per 100, a slight drop from a week ago. Cauliflower is handled in boxes at 75 cents to $1.25 per box. The white flat turnips bring 75 to 90 cents per bushel-box, and the Rutabaga $1 per barrel. Parsley is lower this week, 25 cents per bushel. Lettuce, in boxes, is quoted at 25 to 38 cents. Spinach is 40 to 50 cents. Native tomatoes are 2 1-2 cents per pound; in bushel-boxes, $1 to $1.25 may be obtained if smooth and fair.

String beans bring $1 to $1.25 per bushel and the wax variety, 60 to 75 cents. Carrots topless in boxes 75 cents to $1. Radishes per dozen are [illegible] cents. Native onions per bushel are $1. Summer squash is $3 per 100; marrow squash is worth $1 to $1.25 per barrel. Good, well filled Crosby corn in boxes brings 75 cents to $1. Celery, in three dozen bunches is $1. Egg plant brings $2.50 per dozen. Peas are this week quoted at $1.50 to $1.75 per bushel.

The Quotations.

BEEF—The beef market is reported firmer and higher. Some of the salesmen are returning sales of cattle that figure [illegible], others say that they can get but [illegible]. Quotations are very firm at: Choice fancy steers, [illegible]; prime, [illegible]; good, [illegible]; light, [illegible]; extra heavy hinds, [illegible]; good, [illegible]; light, [illegible]; heavy fores, [illegible]; light, [illegible]; backs, [illegible]; rattles, [illegible]; chucks, [illegible]; rounds, [illegible]; rumps, [illegible]; rumps and loins, [illegible]; short ribs, [illegible]; loins, [illegible].

HAY—The market on hay is quiet, with straw steady. Millfeed is well held: Good to choice hay, [illegible]; choice to fancy, [illegible]; good, [illegible]; fair to good, [illegible]; eastern choice, [illegible]; poor to good, [illegible]; eastern swale, [illegible]; rye straw, new, [illegible]; oat straw, [illegible]; sack spring bran to arrive, [illegible]; sack winter, [illegible]; sack middlings, [illegible]; cottonseed meal, [illegible] to arrive and [illegible].

OATS—The position of oats is very steady, with clipped to arrive at a wide range, some being quoted at [illegible] and up to [illegible], according to weight and shipping conditions. The spot market is very steady, with sales of new new clipped at [illegible]. The quotations are firm at: Clipped, [illegible]; fancy, [illegible]; No. 2 white, [illegible]; No. 3 white, [illegible]; clipped, mixed, nominal, [illegible].

LAMB AND MUTTON—Muttons and lambs are in fair supply, with a fair trade. Good veals are not plenty: Choice spring lambs, [illegible]; common to good, [illegible]; poor and ordinary, [illegible]; Brightons, [illegible]; yearlings, [illegible]; muttons, [illegible]; choice heavy Brightons, [illegible]; choice eastern veals, [illegible]; common to good, [illegible]; Brightons and fancy, [illegible].

BUTTER—There is still a firm market on butter, but the trade is not very lively; Western creamery, [illegible]; firsts, [illegible]; imitation creamery, [illegible]; factory, [illegible]; northern creamery, extra, [illegible]; northern dairy, [illegible]; eastern creamery, extra, [illegible]. These are prices for round lots. Jobbing lots and fancy lots cost more.

POTATOES—Potatoes are firmer, and better prices were realized. Sweet potatoes are more plenty, and the market is easier at: Rhode Islands, [illegible]; natives, [illegible]; Jerseys, [illegible]; sweets will at [illegible] for ordinary to good, and at [illegible] per bbl for the best.

CORN—Corn is very firm, with Chicago No. 2 yellow, to arrive, at [illegible], and No. 3 yellow [illegible]. The spot market is also firmer, with very small offerings. Quotations are at: Steamer yellow, [illegible]; No. 3 yellow, [illegible]; steamer mixed, [illegible].

CHEESE—Cheese is steady, with trade quiet at: Northern full creams, [illegible]; fair to good, [illegible]; western choice, [illegible]; fair to good, [illegible]; sage [illegible]. Liverpool is quoted at [illegible] for white and [illegible] for colored.

PORK—There is not much change to note in pork provisions. The packers note a quiet trade, with no change in prices. They are killing only a small output of hogs.

EGGS—Eggs are quiet, with quotations at: Western, [illegible]; Michigan, [illegible]; provincial, [illegible]; eastern and northern, [illegible].

MEAL—The cornmeal market is very firm, with bag meal at [illegible], and barrel meal at [illegible].

SCRAMBLING FOR WORK.

Preference Given to Americans on Denver's City Sewers.

DENVER, Aug. 15.—Work was begun on the city sewers yesterday, and for a time a riot seemed a certainty, so eager were the men to get work. By daylight workmen began to appear on the spot. By 7 o'clock there were fully [illegible] men scattered about each anxious to be hired.

There were several hundred Italians in the crowd, and threats were heard against them on all sides. The general expression was that if the foreigners secured work in preference to hungry American citizens and men who had families a riot would ensue.

Fortunately there was no violence. About 7 o'clock a team was driven up with a load of picks and shovels, and immediately there was a rush and a scramble to see who would be the first to get hold of a tool of some kind and get to work. In the pulling and hauling that ensued some of the men were pretty roughly handled. Several Italians got hold of picks and shovels, but they were not permitted to go to work.

The men who got the tools at once started to work, although time had not been called. The foreman stretched his line for the course of the sewer, and scarcely had the cord been drawn taut when picks and shovels were moving and the dirt began to fly. Never before in the history of Denver was there such eagerness for work.

After the confusion had ceased at 8 o'clock [illegible] men were counted at work in the trench. Three of them were Italians, but they were men who had taken out their naturalization papers and who have families in the city.

Although the wages for labor is only $1.50 per day, smiles were seen on the faces of those who had been fortunate enough to get work.

MAKING CONVERTS.

Mormon Elders in Attleboro Taking Gentiles Into the Fold.

NORTH ATTLEBORO, Mass., Aug. 15.—Joseph Smith and Bishop Kelly of the Mormon church are holding services in Bacon's grove. The meetings are largely attended and many converts are being made.

Elder Smith is 60 years of age, of tall and commanding figure, with a long, white beard, which gives him the air of a patriarch. His home is in Lamoni, Ia. He is the spiritual head of the church, while Bishop Kelly is the temporal head. Elder Smith preached twice yesterday. He is a fine preacher and a good solo singer. The Mormon believers call him the father of the church.

The Mormon meetings are attracting a great deal of attention, and the Tabernacle at Bacon's grove is crowded nightly. They will be continued during the week, and will hold over next Sunday.

LEMONS PROHIBITED.

United States Authorities Taking Precautions Against the Cholera.

WASHINGTON, Aug. 15.—Dr. Wyman, surgeon general of the marine hospital service, Sunday night cabled Surgeon Young at Naples as follows:

"Wire whether Italian immigration is stopped. If not, wire recent and expected departures from all ports with details."

Surgeon Young yesterday replied: "Companies have suspended for the present. Weser sails Sept. 15, Werra from Genoa Aug. 22; Fulda, Sept. 8. Some fruiters from near by are expected to sail shortly. As near as I can ascertain the condition is improving."

The reference to the sailing of fruit vessels caused Dr. Wyman to cable Surgeon Young that the importation of lemons would be prohibited here.

Brewing Company Will Resume.

MILWAUKEE, Aug. 15.—Assignee Herman P. Obermann filed his report of the assets and liabilities of the Obermann Brewing company yesterday. The assets aggregate $605,664, and the liabilities $337,941. The company feels confident of adjusting matters so as to be able to resume business in a short time.

Cholera Spreading in Italy.

ROME, Aug. 15.—Official statistics as to the cholera in Italy show that during the week ending Aug. 10 there were in Naples 269 cases of the disease and 121 deaths. On the Island of Capri, 20 miles from Naples, there were during the same period 14 cases and eight deaths. The disease is spreading to other coast towns.

Three Thousand Men Idle.

APPLETON, Wis., Aug. 15.—Thirty out of 45 paper machines in the Fox River valley from Neenah to De Pere are shut down. It is only the smaller machines that are running. Three thousand men are left idle by the shutdown.

Lack of Currency Did It.

ATTICA, Ind., Aug. 15.—Lack of currency caused the Citizens' National bank to close its doors yesterday. The assets are $125,000; liabilities, $60,000. Depositors will be paid in full.

Queen Victoria is Well.

LONDON, Aug. 15.—A report that the queen had been stricken with paralysis is false. Not a whisper is heard in court circles that she is ailing in any way.

Beverly's Population.

BEVERLY, Mass., Aug. 15.—The town's correct population according to the recent canvass is 13,111.

NEWS IN BRIEF.

There is an epidemic of typhoid fever at St. Louis.

Creedon defeated Greggains in 15 rounds at Roby, Ind.

The Spanish government has authorized a loan to pay Cuba's debt.

Thirty-five New England postoffices were robbed during the past three months.

The Vigilant beat the Jubilee and Colonia in the run to Vineyard Haven, Mass.

A 4-year-old child in Newton, Mass., drank a quantity of soldering acid, but may recover.

The 27th annual reunion of the Thirty-third Massachusetts regiment was held at Lowell, Mass.

The Thompson church trial at Brockton, Mass., is not likely to be concluded before Thursday evening.

It is believed that Louis L. Norton, supposed to have been drowned near New Haven, was murdered.

Captain Coleman of the Metropolitan line steamer H. F. Dimock reports having run down an unknown schooner.

The body of Daniel H. Sunderland was found in the Quidneck reservoir, near Washington, R. I. He had been missing since Aug. 8, was 73 years old and of unsound mind.

Trains have begun running over the temporary bridge which the New York and New England Railroad company has built over the river at Blackstone, R. I., to replace the one burned.

INQUEST CONCLUDED.

McCarthy Murder Just as Much a Mystery as Before.

ATTLEBORO, Mass., Aug. 15.—The McCarthy inquest at Taunton has been concluded. The testimony at the secret session cannot be obtained, but the officials admit that none was given warranting any criminal proceedings, although the case is left open.

That McCarthy was murdered there is little doubt around here. In all probability the deed was done with a hardwood stick which has figured in the case, his clothing changed, and then his body was thrown into the pond.

There are some circumstances not positively proved, but now being investigated which place the crime nearer than some people think, and account for some of the difficulties in the case.

There will either be a reopening soon, or the matter will drop into the list of unsolved crimes.

The oyster has no head and therefore no brain. It can neither see nor hear. Its nerves originate near its mouth, which has four flat, triangular lips. The oyster's heart is beneath its liver.

HOOD'S SARSAPARILLA

Rich Red Blood

Is the natural result of taking Hood's Sarsaparilla. Mrs. Mary F. Towns, of Niantic, Conn., author of a very beautiful volume of poems, entitled "Sacred Songs," says, "I find that for feeling of deadness of the limbs, constipation and poor circulation of the blood,

Hood's Sarsaparilla

has no rival. I have been troubled severely with a fibroid tumor, besides seven fatty tumors on my left arm. My blood was in very poor condition, watery and deficient in color. Since taking Hood's Sarsaparilla I have good rich, red blood, and do not bloat as I used to.

Hood's Sarsaparilla Cures

Hood's Sarsaparilla has proved its merit to me as it will to all who take it fairly."
N. B.—Be sure to get HOOD'S

HOOD'S PILLS act easily, yet promptly and efficiently, on the liver and bowels. 25c.

The Bulletin.

The Queen of the Season.

The summer girl's in vogue again down by the wave lapped shore,
Clad in soft lawns and broad straw hats and ribbons, lace, galore.
She smiles on every man that comes, she beams upon the boys
And never seems to lose at all her wondrous equipoise.

She walks upon the sandy beach the while the [illegible]
And says the things to Tommy Hicks she said last night to Brown.
She gives young Jinks a deal of hope, and Tompkins feels that he,
From what she says, alone can fill her heart with [illegible].

Young Brokely's manly bosom with a [illegible]
To note the lovelight in her eyes while [illegible]
Which from the heated city he that day has brought to her,
Just as, indeed, that self same light makes Wilkins' pulses stir.

And in the ballroom every night she waltzes with Jack Vane
As if she never, never hoped to dance the [illegible] again.
Though later on the hotel porch she glances at [illegible]
As though she thought that he alone of all men was divine.

Such trifling with these manly hearts seems very wrong, but then
We must remember Brown and Hicks et al. are summer men.
And this is by no means their first short visit to the shore.
Each knows her well, for each has met the summer girl before.

—New York Mercury.

A WIDOW'S WALK.

The Marquise de Beauminois had mourned sufficiently for a gouty and unreasonably jealous husband. She had recently laid aside her weeds and begun a neuvaine, when an order from the king enjoined her to lodge a captain and his squadron, which had been sent to clear the country of an audacious band of brigands.

The young widow submitted with good grace. While the dragoons had free access to the pantry, she did the honors of her table for their chief, the Duc de Merval. Dom Marouflot, the chaplain of the chateau, acted as chaperon.

One evening the duke was talking and drinking in the large wainscoted room, where he was playing chess with Dom Marouflot. The marquise, who wore an exceptionally elegant toilet, was asking herself for the thousandth time that week, "Do I really love him?" and, though she reflected seriously, her question remained unanswered.

"That Gillon is a clever bandit!" growled the captain between two games. "For two weeks we have scoured the country, and still he slips through our fingers. I have decided to search for him tomorrow with the whole squadron."

"Gillon is not an ordinary brigand," continued the duke; "they say he is educated, courteous and even gallant upon occasion."

As the marquise drew her chair nearer to the table where the two men were sitting, the captain began to tease her.

"What a serious countenance, madame! I fear my stories about brigands have so frightened you that you will not dare to venture two steps in the park this evening."

Dom Marouflot looked at the clock and said: "It is the hour for your neuvaine, madame. I will ring for the servants to escort you."

"No, no, it is needless!" replied the marquise, piqued by the duke's sarcasm. "I shall go to the chapel alone. I wish to prove to Captain Merval that women are not such cowards as he believes."

The old chapel was at the farther end of the park. Once out of the house the marquise began to regret her bravado. Mme. Beauminois' mind was filled with the stories she had heard concerning Gillon—"the man in the mask," as the old women of the country called him. Under her fine satin corsage her heart beat so loudly she could almost hear it.

At last she reached the chapel, and entering knelt and said her prayers a little more quickly than usual. Then she rose and went toward the door.

Suddenly she stopped and caught her breath. A masked man was standing near the holy water vessel. As she saw that he remained motionless and in a respectful attitude, she took courage and advanced.

The man dipped his fingers in the holy water and held them out to her. She did not dare to refuse the stranger's offer, and, thanks to a ray of moonlight that filtered through a stained glass window, she remarked that he had a very beautiful hand.

A little reassured, she made a sign of the cross and left the chapel.

She had scarcely taken 10 steps before the unknown man rejoined her, and she started at hearing a voice which she thought she recognized, although it was singularly softened.

"Will you allow me to offer you my arm, madame? Some accident might befall you alone in this great park at such an hour."

He had such a courtly bearing that the marquise felt perfectly safe.

As they crossed an opening bathed in moonlight, she examined her companion more closely. His mask left the lower part of his face uncovered. Not only did she believe that it was not the first time she had heard this voice, but it seemed to her that it was the same blond mustache which had lightly touched her hand each evening in a discreet kiss. The masked man had therefore almost the same voice, mustache and figure as the duke.

He had disguised himself to frighten her. This discovery gave her a great desire to laugh, and she leaned upon his arm with more confidence. Finding the adventure a pleasant one, she resolved to play her part of the courageous woman seriously so long as it should please the duke to remain a brigand.

Besides, what a fine occasion to learn under cover of jocularity the duke's real sentiments!

"Do you often go out alone like this, my pretty [illegible]"

"Yes, M. Mask, all alone, just like this."

"Do you not know that Gillon and his band are running about the country?"

"Yes, I know it."

"Are you not afraid of brigands?"

"That depends upon the brigand."

"Myself, for example."

"Are you a real brigand?"

"Alas, yes, fair lady," he said in a melancholy tone.

"Indeed," replied the marquise. "I am sorry for you, but you do not frighten me a bit. Quite the contrary."

The stranger had such a grateful, tender and eloquent look that the young woman was touched. She would never have believed that the duke's eyes could express so much as that.

"Would it be indiscreet, beautiful princess, to ask why you went to the old chapel?"

"I went to finish my neuvaine."

"A neuvaine! And for what reason?"

"Guess."

"Are you married, my queen?"

"I have been, but"——

"Ah! I understand. You were offering up vows for the end of your widowhood."

"Perhaps that is it."

Without another word he began to press a series of kisses upon the marchioness' taper fingers.

Her hesitation increased the enemy's boldness, and when she thought of drawing away her hand he had already abandoned it for a skirmish where the kisses closed her eyes.

Suddenly she escaped from her imprisonment and noticed that his eyes were fixed upon the brilliant diamond she wore upon her little finger.

"Do you want a pledge of pardon for your boldness," she said; "here it is." And putting her whole soul into a last, playful smile she added: "It is a talisman that will aid you in returning to the right path, my dear brigand. Remember that I should prefer to see you dead rather than unfaithful or a felon."

At these words, lightly uttered, the masked man showed extraordinary emotion. Then, with reverence this time, he kissed the lady's hand and disappeared.

When she entered the house, she found the duke and Dom Marouflot at the chess table. The duke was so absorbed that he did not even turn his head as she came into the room. She thought that really she was in the presence of a consummate actor.

She leaned over his shoulder as he was moving a knight and suddenly turned pale—the duke had no ring on his finger!

The poor marquise passed a restless night.

Toward morning she had scarcely closed her eyes when she was awakened by the sound of gunshots, followed by the noise of galloping horses.

The duke at the head of his dragoons was returning to the chateau. He had alighted and was taking off his pistols when the marquise appeared.

"It's all over," he called out to her. "I brought down Gillon with a single shot. We had hardly got outside the park gate before the idiot came to us. He threw himself between our horses' legs, so to speak. And for fear that I might not recognize him he cried out: 'I am Gillon! Kill me!'

"He kneeled down 10 steps from me. When he saw me aim my pistol at him, he raised his hand in the air and held up something brilliant; then he cried out again, but I don't know what he said, for the report of my pistol drowned his voice.

"He fell, and one of my men picked up the brilliant thing he held in his hand. If you want it, here it is. It shall be your part of the booty. But there is a little blood on it."

The duke handed a beautiful diamond to the marquise. Recognizing her ring, she turned deathly pale, and suddenly she read clearly in her heart. She had never loved the duke, and now she detested him.—From the French.

French Imitation Pearls.

The best grade of French imitation pearls cannot be distinguished from real ones, even by the most expert jewelers, unless the string is handled, when the difference in weight becomes apparent, the real pearl being heavier than an imitation one.

An American lady who herself owned valuable jewels once told me that she and her husband were shown on one occasion by her Parisian jeweler a cluster of strings of pearls, half of which were real and the other half imitation, and they were requested to point out the real ones. They both inspected the pearls long and with the most minute care, and finally indicated their choice. The gentleman had indeed fixed upon a string of genuine ones, but the lady, though she continually wore and had had in her possession for years a magnificent necklace of real pearls, forfeited her claim for discrimination by picking out one of the imitation ones.

The very finest of the French imitation pearls are expensive, costing from $10 to $15 a string. Oddly enough, the longer they are kept the better they become, as the passage of years lends a yellow tinge to the wax, which causes the pearls to look at once more lustrous and more real. The pearls prepared for embroideries, dress trimmings, etc., are merely small beads filled with wax and lack the careful shaping, as well as the inner coating of fish scale liquid that make the pearls manufactured for necklaces and earrings so perfectly deceptive.—Ladies' Home Journal.

Fashion's Gold Tipped Shoes.

In this year of 1893 gold, yellow, shining, heartless metal, mother of murders and temptress to terrible privations, the yellow root of red evil, holds sway. In the silver age we had combs and brushes, buckles, toilet cases, picture frames and other stuff gleaming with the paler metal. It wasn't rich enough for the blood of New York. Gold has not displaced it here in the metropolis, but triumphantly flaunts itself above it.

A little time ago the satin slipper with silver filagree toe and heel tip was quite good enough for any one. But it only cost from $20 to $40. Society insisted on something more expensive, and now New York's swell set rest satisfied as they poke their gold tipped toes from beneath Worth afternoon "creations." The gold tipped shoes are only for house wear. You don't see 'em on Broadway. Their use is to make poor callers envious, than which there can be no greater happiness.

This is but one instance. The men are as bad or worse, for a pair of gold tipped shoes at $150 are at least visible, and a pair of $75 gold suspender buckles haven't even that merit. The only use for them is to show that one can stand the pace.

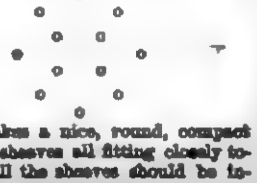
The extravagance of wealthy people in small personal expenditures has grown out of all proportion. Trifles and trinkets cost fortunes, good pictures by American artists go begging, and authors of good books trim their cuffs.—New York Cor. Pittsburg Dispatch.

FARM, FIELD AND GARDEN.

HOW TO SHOCK GRAIN.

A Convenient Plan Described by a Successful Farmer—Why Thresh the Oats?

Not more than one man in a dozen knows how to shock grain properly. Not a little grain is lost in the field solely because it is not properly shocked. When the binding is done by machines, the sheaves are larger than when the binding is done by hand, and not so many should be put in a shock, especially as they are more compact than sheaves hand bound. An Illinois farmer, John M. Stahl, says in The Country Gentleman that four of them should be set up, one at each corner of a square, all inclined about 15 degrees toward a common center. The most convenient way is to set them up as two pairs. Against each pair set a sheaf. Then at each side set three sheaves. The butts of the sheaves will be in this position:



This makes a nice, round, compact shock, the sheaves all fitting closely together. All the sheaves should be inclined slightly toward a common center. When all have been set, throw your arms around them and draw the tops close together. For cap sheaves select long, flat sheaves. Lay the first cap sheaf across the direction of the prevailing winds. Then lay the second cap sheaf across this, with the top toward the prevailing winds. Placed in this position the cap sheaves will not be nearly so likely to be blown off as when the top sheaf is laid at a right angle to or its butt toward the prevailing winds. When the top sheaf is placed, place one [illegible] near the top and the other near the [illegible] and put considerable weight on them. This will fit the sheaf closer to the shock and prevent rain from blowing under the cap sheaves. An important point in shocking is to set the bundles down hard in the stubble. The butt of the bundle and the stubble will interlace, and the effect is to anchor the bundle in place.

One of the things that Mr. Stahl does not understand is why so many farmers thresh their oats they intend to feed to their horses and calves. He says: "The grain and the straw are complementary, and when unthreshed oats are run through the cutter they make a splendid feed. Another advantage in thus feeding is that the grain and the straw are masticated together, and we have in the stomach of the animal that intimate commingling of grain and bulky feed which is best for digestion. The straw is better utilized if fed this way than when threshed, the waste of chaff is much less, and the expense of threshing is saved. Oats to be fed this way should be cut four or five days earlier than is the common practice.

"If the weather is dry, the straw may be quite a little green when cut, especially if the binding is done by hand. If the shocking is well done, the grain will cure nicely in the field. Of course if the air and the ground are full of moisture it is not advisable to cut so early. The straw of the early cut oats is better for feed, containing more nourishment and being more easily digested, and the feeding value of the grain is not reduced in the least. Some fear that if oats are cut before the straw is thoroughly ripened the feeding value of the grain will be reduced, but such is not the case, and the earlier we cut the less the chance of the grain being lodged by a storm and the work of harvesting being much increased, if indeed a part of the crop is not lost."

Poultry Houses.

If the fancier has ranging space for his flock, it is not important that he build or provide very extensive quarters for a few dozen fowls. A small house wherein 25 adult birds can be comfortably sheltered may be a lean to or shed 10 or 12 by 20 feet in dimensions. If they have a yard run outside of this twice or thrice as large, they will do very well. If their range is unlimited, so much the better.

A fowlhouse that may be made convenient, useful and complete for a small flock of birds calls for few absolute requisites that any man cannot arrange who is able to use a saw and a hammer handily. This we give as a general direction.

But in each case, if we are called upon to advise in detail, we must first know clearly what the inquirer wishes to do, how his premises are situated, how much spare room he has for houses and yards, how many fowls he intends to keep and how many varieties he wishes to provide for, what he inclines to breed fowls for—whether for market or for fancy purposes—etc.

Meanwhile we answer that for a score of fowls only very limited shelter is needed, provided the premises are kept clean. The house may be put up at a few dollars' cost for lumber and a few days of labor. But it will be found more important that the stock should have their liberty more than half the year to run in the open air. And if this can be accorded them during the other 6 months in the 12, 20 or 26 chickens can be kept in very narrow quarters.

Beets at the Pennsylvania Station.

Several standard varieties of beets were sown in the garden April 20, and when two inches high were thinned to four inches. As the roots became of a marketable size they were pulled and sold. There was practically no difference in the earliness of the following varieties: Eclipse, Edmand's Early Turnip, Bassano, Philadelphia Early, Philadelphia Perfection and Burpee's No. 4. Burpee's No. 4 is an attractive beet with a crisp solid flesh colored very dark purple in rings, alternating with lighter rings in the cross section. The root is round with a strong tap root.

Whitewash made with skimmilk instead of water is durable out of doors. An ounce of glue to every two gallons, dissolved and put in the hot wash, makes it still more permanent.

The four New England states of Maine, New Hampshire, Vermont and Massachusetts lead the country in the number of bushels of potatoes produced per acre, the average for the four states being over 100 bushels an acre, which is attained by no other state except [illegible] Washington, which promises to [illegible] one of the finest potato grow[illegible] of the world.

VENTILATING HIVES.

In the Honey Season, When the Days Are Hot and Combs Are Melting Down.

E. S. Mead, an Ohio apiarian and correspondent of the Ohio Farmer, writes that he has always had more or less trouble every season with combs melting down and causing the bees to leave the hive. Swarms that are hived on empty combs and extracting supers often break down, especially if they are set in the sun. In the majority of his frames the combs are not wired in, but built from "starters." He is not sure but that it is more economical in the end to have combs built from full sheets of foundation that have been firmly braced by line wire. He has never had any trouble with such combs, but the cost is considerably more than when built from "starters." He says:

"Some of my hives are exposed to the sun, and when large swarms are placed on unwired combs they are very apt to break down unless well ventilated or shaded. Extracting supers are still worse, for when the combs are nearly filled with honey and break it makes a very nasty, dauby mess. By giving thorough ventilation we can overcome this trouble to a great extent. I often raise the hive about one-half inch from the bottom board, and also raise the cover. This gives a direct draft clear through the hive. Generally it will be sufficient to raise the cover only. Sometimes during heavy windstorms they will blow off unless a weight is put on them. I have had colonies get quite a drenching by the cover getting blown off, but never could see that it did them any injury, as they can quickly dry themselves.

"On a warm day we can always see quite a number of bees at the entrance rapidly moving their wings. Evidently they are trying to create a current of air through the hive, perhaps for two purposes—to ripen newly gathered honey and to keep the hive at the proper temperature. I have seen statements where the writer thought they were young bees testing their wings. It may be, but I think the main objects are to ripen honey and ventilate the hive. They are much more noticeable in strong colonies than in weak ones, and the strong ones generate much more heat. I have my bees in the shade when convenient and also ventilate them. There is no danger in chilling the brood or making the wax too cold for them to work unless the weather is very cool. This applies to the honey season only, or when the weather is pretty warm, and not for spring or fall treatment."

Agricultural Value of Marl.

The chief agricultural value of marl lies in the fact that it supplies lime to the soil. Carbonate of lime—the form in which it exists in marl—is not caustic and cannot therefore injure vegetation nor destroy organic matter in the soil, as an overapplication of freshly burnt lime is apt to do. Carbonate of lime is dissolved by the carbonic acid of rainwater and becomes plant food. It also acts beneficially in freeing other constituents, rendering them available. It is principally of service, however, in favoring the development of those micro-organisms of the soil which convert nitrogenous material into soluble nitrates—the condition or form of nitrogen which plants can use and convert into their tissues. So much so is this the case that soils otherwise rich do not yield maximum crops if lime is wanting or deficient in quantity. Fertile soils always contain lime. Experience corroborates science in the value of the application of lime or marl to soils rich in humus. The beneficial action of lime and marl on plastic clays as well as on peat and sandy soils is also well known.—Ottawa Experiment Farm.

Charcoal For Fowls.

We have found charcoal a very excellent thing to furnish our poultry with. It may be given in a powdered state, mixed with the soft meal feed, and a little pulverized sulphur at the same time may be added to advantage. But the very best way to supply this is to burn an ear or two of corn (upon the cob), charring it to blackness and throwing it before them. They will devour every kernel, and so supply themselves with a grateful and healthy substance that sweetens the crop and serves as an admirable tonic to the stomach, according to the editor of The Poultry Yard, who adds: "At this season of the year the above recommendation will be found a valuable hint to poultry men. Hens about ready to lay will devour this prepared charcoal eagerly, and the increased freshness and redness of their combs afterward evince the efficacy of this allowance. For a month or six weeks in the early breeding season, nothing is better than this for laying hens, given them daily."

Agricultural News and Notes.

Put the straw stack up so that the straw will not be wasted. You will find in the course of the winter that it is good for a great variety of uses. We have even known farmers who at harvest time did not consider it worth saving who were glad enough to use it for feeding before the winter was over, says The Prairie Farmer.

At the Kansas experiment station they tried turning cattle on rank growing wheat for a little time in April, with the result of an average loss of three bushels of grain per acre.

Apples will be a small crop. Peaches promise to be abundant. Grapes are in fine condition, with some injury from rot and rosebugs in various localities.

The tobacco acreage returned to the department of agriculture is placed at 96.6 per cent of the area devoted to this crop last year. Condition stands at 93.

The government statistician gives the acreage of corn as 103.3 compared with last year, an increase of some 2,000,000 acres, while the condition is computed at 93.2 against only 81.1 in 1893 and 92.8 in 1891.

The acreage devoted to potatoes this year will be 101.1 per cent of that of last year. The percentage of condition is 91.0 for the whole country.

Things That Are Said.

Windmills for farm use are most frequent in those sections where agriculture has reached the highest development.

[illegible] weevil may be destroyed by [illegible] of carbon in an open [illegible] grain in the quantity [illegible] hundredweight of [illegible] to the vapor for [illegible] it to the air.

BIGNESS AND SENSE.

NOT ALL INTELLECTUAL PEOPLE ARE COMPANIONABLE.

The Art of Entertaining Should Be Studied by Many People Who Think They Are Treading the Higher Planes of Life. Loving Children.

Bigness is not the same as size, at least not always, and it is not to be estimated by weight. "The people," says a generous woman, "whom I most dread as guests are those who have no capacity for small pleasures." I, too, have the same trouble. John has a bulky friend who never plays a game or romps with children, and I do not know what to do with him. When we go out to play croquet, he stalks up and down with his arms crossed under his coattails and has not the least interest in our sport. Then John has to leave us and go off to discuss the resurrection of the body or settle some other high and mighty problem that neither of them knows anything about.

John doesn't like it, but he feels the obligations of a host—and, as for me, I don't think any guest ought to disrupt a family and become a distracting element. Why can't the man get off his horse and try to see what other folks need and like? This is all the worse because, if we propose a walk, he sees nothing to interest him; doesn't notice the trees or the flowers and strikes in with a disputatious tirade about Dr. Briggs or the higher criticism. When theology runs dry, he goes into politics, and we must discuss tariff and silver or be impolite. I like hospitality. It makes me miserable when I cannot be sure of pleasing my guest. I simply have to wish that Edward Knox would stay away.

Women as a rule are made up for smaller things, and it very much pleases me that Emerson decides genius to be capacity for small things. But I know a few women who are terrible characters to get on with. Mrs. Jane Geary comes in to talk over the last book by a woman author. A pleasant topic this. But how unutterably silly this wise woman is when she tries to please children—for she really tries. Think of asking a 7-year-old if she knows "what the analysis" of candy is. When she walks with me, she pokes a hollyhock and calls it a geranium.

I do not know whether the ancients meant the sun and its rays when they talked about Samson and his long tresses of hair, and I do not much care. But Samson was and is interesting for this reason: He was a physical prodigy, with a gentle capacity for very human feelings. He could be cajoled into a frolicsome mood and was terrible only when he must be. David is a better sample of the great big body full of small and pleasant ways. "I," said a certain great preacher, "learned my first love for the childlike of my brave father, who never despised small things, and then I learned the same lesson of Jesus. I am a Christian because real Christianity is greatness in small things."

One of Jules de Glouvet's novels, "The Woodman," saves its hero, who is a poacher and always ready for killing and eating and little else, by means of a little child. The child kills out the man's furious passions, and the sight of the little one converts him to a new sort of life. That is the mission, is it not, of our children to keep us from growing old and hard in our emotions? But what can a woman do with visitors who either frankly say they do not like children, or who manifestly are very indifferent to them? It becomes a necessity at once to create two households, to keep the children busy somewhere while we attend to our guests.

We are all fond of trifling discoveries. We like our rambles in the woods and glens to find new flowers. John gets as excited as one of the boys when he finds a rare flower. We talk it over, and it is added to some one's herbarium with pride. Indeed I cannot see that there is any other way of making life very enjoyable or livable even but by the trifles. The Japanese Romeos make love by calling on the object of affection, carrying in one hand a flowerpot with a pet plant. We ought, I believe, to cultivate these simple ways. Those who cannot be happy without noise, display and excitement are on the road to being incapable of happiness at all.

Dr. Bremer says: "Basing my assertion on my private practice and at St. Vincent's, I will say that the boy who smokes at 7 will drink whisky at 14, take to morphine at 20 or 26 and wind up with cocaine or other narcotics at 30 or soon after." Above all things have a homely way of living, so childlike, simple, fresh, that you will never be blase or any of your household lose the capacity for being pleased. I have heard of dead moral natures and of intellectual powers arrested in the way of development and have seen cases of both sorts, but there is quite as much danger of loss of faculty for pleasure.

I went to church yesterday and heard a clever discourse on the Christian obligation of loving. The preacher said to us, "Just love, only don't love yourself—that is all there is to the law of religion." But I do not believe that preacher was doing anything more than retailing wares he had bought in the lump and did not know anything about, for he went on with illustrations of all sorts to emphasize and explain love, but all his examples were of a showy sort. The real Christian love is in trifles of the commonest sort. The grandest exhibition of bigness is in doing small favors. There is something wonderful in a big man's arms. The habit of taking a man's arm is the finest little exhibition of honor a woman could have bestowed. Your arm, sir, is stout and full of soul. It is the very ideal of defense and protection. You give it to me, and if I have confidence that your soul is as muscular as your body I take the arm. Woman gives the hand; man gives the arm. But it is not all arms that are worth taking.—Mary E. Spencer in St. Louis Globe-Democrat.

A Falling Out.

"'Alas, how easily things go wrong.
A sigh too much or a kiss too long,'
So wrote the poet," said Mrs. C.
"And 'tis true to nature, it seems to me.
Your daughter May, if I've heard aright,
And her beau fell out on the lawn last night."
"'Twas nothing serious. I'm glad to say—
My daughter mentioned the fact today—
Though whoever told you has told it well,
But you see it was out of a hammock they fell."
—New York Press.

FOR THE LADIES.

REDUCTION
in Ladies' Suits and Shirt Waists.

We have a few of our First and Second Quality of Ladies' Serge Suits which we will close at the following prices: $6.00 and $7.95. We guarantee them to be the best VALUE EVER offered in Norwich. We have also a few wash and other suits that we have marked very low. Our Fine Shirt Waists we have marked less than cost, as they must be sold.

Ladies' Navy Blue and Black Blazers regardless of cost to close, at

A. McJENNETT'S, 44 Main St.

JUST RECEIVED.
Another lot of those Down Spreads and Sofa Pillows at the Bouquet Millinery and Fancy Goods Parlors, No 3 Lower Broadway. We also carry a full line of B. and A. Wash silk, Art Threads, Fringes, and everything pertaining to Fancy Work
STAMPING AND PINKING A SPECIALTY.
Everything in the Millinery line will be sold regardless of cost.

NORWICH MORNING BULLETIN.
Established 1858.
NORWICH WEEKLY COURIER.
Established 1796.

Subscription rates, MORNING BULLETIN—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At [illegible] it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted [illegible].

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE NORWICH BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to secure postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Wednesday August 16 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

BETTER TIMES.

The public is earnestly hoping and praying for better times. The improvement in currency circulation suggests that the hoarders have begun to put out their money cautiously. This indicates an improvement in public confidence. In this vicinity among dealers small currency is plentier than it was last week, and there is a more cheerful outlook for future transactions.

Better times can only be brought about by the personal endeavor of all who have money, and are doing business. Those depositors who have hundreds of dollars hidden away in old stockings and holes in the ground are in greater danger of losing their money every day than if they had let it remain at interest in the bank, which in their fright and folly they disowned.

There is no doubt that the one hundred and thirty-one millions of dollars drawn out of the banks of the country by scared depositors is slowly getting back again to these institutions. By their fright these depositors have made a loss of over a million and a quarter in interest, and many [illegible] and many shut downs have resulted from their action.

The comptroller of the currency says that over five millions in currency have been issued from the comptroller's office since August 1st, and nearly seven millions more have been ordered, and twenty millions in gold have been ordered from abroad, which he thinks ought to be sufficient to relieve a condition largely attributable to unreasoning fear.

If the people pull together the politicians will get left before they conclude their debates.

THE ADVANTAGES OF CROQUET.

The editor of The Providence Journal, when he writes of "The Advantages of Croquet," shows more familiarity with the side issues of the game, than with the scientific shots. He evidently has played loose croquet in his time, and still cherishes a memory of the magnificent opportunities the game afforded for "a harmless flirtation on the croquet ground."

But the maiden is not in these modern croquet clubs, and therefore the exquisite opportunities of which he writes are not such as they used to be. The summer girl does not find in the game, as she sits fanning herself along the borders of the grounds anything to fascinate or charm her. The young man is too much taken up with mathematical calculations and a desire to produce billiard-table effects, to remember the handkerchief signals, to recall and recite pleasing stories, or to be charmingly entertaining.

It is the fellow and the maiden who go to see the croquet giants play in the evening who have the opportunity to improve the social advantages which used to be so charming when hoops and women were in the game, but which now are relegated to the settees along the edges of the grounds.

If the editor of The Journal will come to Norwich and see the prize games, he will find that the olden time "prize" is not in it; and that will probably inspire him to return to Providence and write upon "The disadvantages of croquet in scientific form."

INCREASED FARES.

Telegrams have been sent over the country that the cheap rates of fare to Chicago are to cease with the close of this month. The announcement should be regarded with suspicion, as it may be merely a scheme to increase travel rather than an indication of a genuine intent of the competing roads. There is no reason why the fare to Chicago should be raised, but there is every reason why it should be kept down. It is for the interest of the exposition and the railroads to have cheap fares until the fair closes. Higher fares mean an estoppel of the travel from the eastern states, and a loss to the roads and to the fair. People need an inducement to go from this region to Chicago, and the cheap fares have proven an incentive to many. If the fares go up those intending to go later will remain at home and save their money. The people are not going to lose by such a business [illegible].

The New York Recorder asserts "A dutiful wife is more precious than a beautiful jag!"

ANOTHER SUSPENDED PENSIONER.

Lewis D Corbin of Hartford, a veteran pensioner, 61 years old and in a debilitated condition, who draws $8 a month, is among Hoke Smith's suspended. He was a member of Co. A, 46th Mass. He participated in the battle of Kingston, Goldsboro, Batchelder's Creek, and in the attack upon Newberne at the Red House. When he enlisted he was a noted athlete, excelling in physical activity and endurance any man in the regiment. In February, 1863, he was compelled to wade a branch of the Trent river near Newberne, and then remain all night in the cold, bleak, wintry weather on picket duty in his wet clothes. He dates his disabilities from that night's exposure. The Courant notes that Mr. Corbin voted the democratic ticket last fall and is now reflecting upon the friendship for the old soldiers displayed by the present administration.

AUGUST METEORS.

The earth has for several days been passing through the August belt of meteors, and the star-gazers who have been looking for them have enjoyed quite a treat. These shooting stars have not been so numerous as they have been in some years, but on Sunday morning the police saw a large one coursing across the sky which they describe as having been as large as a cannon-ball and having a fiery tail like a comet. It is said to have been the most brilliant meteor that has been seen from Norwich for several years. These meteors will soon cease to be in sight, and the earth will roll along till November when more meteoric showers will be due, and may confidently be expected.

EDITORIAL COMMENT.

One hundred representatives are registered to talk upon the silver issue. These congressmen must be cautious or they will start a cyclone.

Amos Cummings knows an old fossil when he sees one. He calls Representative Bland "the vermiform appendix of the democratic party."

Senator Stewart thinks the people need educating and says "the senate means to take a year to educate them!" Those unruly servants may fool themselves, but they cannot fool their masters, the people.

Wind cannot take the place of currency, but if the hundred congressmen booked to talk on the silver issue keep up a continuous blowing for two weeks we are not sure that all the windmills in the country will not start up.

William Waldorf Astor is an adopted citizen of England. He asserts "that a rich man is better treated, more comfortable and has a better time in England than in this country." The workingman cannot make such a claim.

Monday one of the most notable meetings ever held in this country assembled in Northfield. Despite the stringency of the money market thirty-five thousand dollars was pledged in thirty-five minutes, toward building of a new auditorium there.

A contemporary writes at some length to tell "Why wheat is down." It strikes us it's down because everything else is down except the democratic party. Pretty soon everything else will rise, and the democratic party will go down. It's the old game of "See-Saw."

When it comes to gold France is the best equipped commercial nation. She has over three hundred and fifty millions, or as much as England, Germany, Belgium, Spain and the Netherlands, or within five millions of one-half the gold held by six European nations. No wonder she can wear her hat tilted on one side, thumb her nose at Johnny Bull, make faces at Bismarck, and put Siam in her pocket.

The way some papers speak of the Sherman silver bill impresses one that it is a galvanic battery, for they feel sure that its unconditional repeal "will electrify the world;" but when other papers tell "how it has shrunk values the world over," one cannot help thinking it must be entirely composed of alum and water. If it only had alum and water enough in it to shrink the time conceded for debate upon it, it would be a blessing to the country.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NEW MAGAZINES.

The REVIEW OF REVIEWS for August furnishes abundant reading for those who like to keep in step with the times. In the Progress of the World department there are thirty-seven timely and entertaining articles, and there are as many more papers under the head of "Leading Articles of the Month." There is a great variety of portraits of distinguished men, and interesting illustrations; and the other departments are all well filled. Published 13 Astor place, New York.

LEND A HAND for August presents the following table of contents: "The International Congress," "The Need of Training Schools for a New Profession," "Science and Philanthropy," "Responsibility Toward Child Life," "Prohibition in Maine," "Col. Richard F. Auchmuty," "The Fourth of July on Boston Common," "Poor in Boston," and "The Prophecy of the Chief." J. Stilman & Co., publishers, Boston.

The current number of LITTELL'S LIVING AGE presents to its readers articles entitled "The Interstellar Ether," "At the Sign of the Eagle," "The Craving for Fiction," "Lady Mary Wortley Montagu," "Animal Heat and Physiological Calorimetry" and "Balmoral Stories of the Royal Family." Published by Littell & Co., No. 31 Bradford street, Boston.

VOICE OF THE PRESS.

The Democratic Ratio.

The ratio between congressional talk and congressional action is just about forty-five to one.—Washington Post.

The Ohio Micawber.

Neal of Ohio has long been the "willin'" Micawber of the democratic party. He will now see something "turn up," and it will be Neal's toes.—[Chicago Inter Ocean.

A Very Long Time at That.

Tariff reform, according to Mr. Cleveland, is a good thing which, like whisky, will be all the better for lying in the cellar a considerable time.—[Kansas City Journal.

Encouraging Foreign Industries.

"Mary had a lamb"—but that was prior to the election of Grover Cleveland. Grover's crowd will raise all their lambs in Australia or South America.—[Chicago Inter Ocean.

How It Comes.

St. Louis is having what looks like an epidemic of typhoid fever, but hastens to say that it is not the fault of the Missouri river water. Perhaps the doctors should investigate the beer. Typhoid comes oftener from what is drunk than what is washed in.—[New York Press.

Are They With 'Em?

Of course there is a howl from the suspended pensioners. But why should that be considered as in any way significant, as some of the republican organs are trying to make it appear? Did anybody expect that the suspended pensioners would not howl?—[Louisville Courier-Journal.

Frankly!

When the president described the so-called Sherman law as "a truce between the advocates of free silver coinage and those intending to be more conservative," he gave exactly the explanation which has been made in the republican papers, and vehemently contradicted by the more narrow democratic press.—[Boston Journal.

Good Evidence of Earnestness.

Bro. Moody's Bible conference up in Northfield has come to a close, and it has been a most successful gathering. Although Northfield is a quiet country town, the attendance at the sessions of the conference has been large and the meetings inspiring with both Moody and Sankey at the helm. The fact that $10,000 was contributed at these meetings for work elsewhere is pretty good evidence of their earnestness.—[Boston Herald.

The Brute!

The Rev. Mr. Moore of Noblesville, Ind., has made himself disliked by the ladies of his congregation. In a recent sermon he said, "God made the earth in six days and then rested; then he made man and rested again; then he made woman, and," the pastor added, smiling as he said, "since that time neither God nor man has had a rest." Several ladies have withdrawn from the church and a disruption is imminent.—[Hartford Times.

Be Careful!

"I sympathize somewhat with Mr. Cleveland in the feeling that he has, that too much is said about business interests threatening this, or business interests promising that; and yet, as our friends have been out of power for thirty years, and have not had the duty thrust upon them to deal with business interests, I want to give them this word of warning, that business interests have, like the wasp, a business end, and they had better be careful how they fool with it."—[Chauncey Depew.

It Revived Their Appetites.

Mr. Cleveland's re-election has served at least one good turn. It has revived the famous whitebait dinners of the Cobden club at Greenwich. There was a time when the noble lords and rich manufacturers who make up this organization had a very poor appetite for their repast, and when the McKinley tariff was enacted the dinners were totally abandoned. But, in anticipation of the good things coming, these little social gatherings of disinterested philanthropists have been re-established.—[Boston Journal.

The oldest railroad in France runs between Paris and Havre. It was built more than half a century ago.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

To get relief from indigestion, biliousness, constipation or torpid liver without disturbing the stomach or purging the bowels, take a few doses of Carter's Little Liver Pills, they will please you.

Twenty Years' Experience.

C. D. Fredricks, the well-known photographer, 770 Broadway, New York, says: "I have been using ALLCOCK'S POROUS PLASTERS for 20 years, and found them one of the best of family medicines. Briefly summing up my experience, I say that when placed on the small of the back ALLCOCK'S PLASTERS fill the body with nervous energy, and thus cure fatigue, brain exhaustion, debility and kidney difficulties. For women and children I have found them invaluable. They never irritate the skin or cause the slightest pain, but cure sore throat, coughs, colds, pains in side, back or chest, indigestion and bowel complaints."

Palpitation of the heart, nervousness, tremblings, nervous headache, cold hands and feet, pain in the back, and other forms of weakness are relieved by Carter's Iron Pills, made specially for the blood, nerves and complexion.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

We recommend Carter's Iron Pills to every woman who is weak, nervous and discouraged; particularly those who have thin, pale lips, cold hands and feet, and who are without strength or ambition. These are cases for which Carter's Iron Pills are specially prepared, and this class cannot use them without benefit. Valuable for men also. In metal boxes, at 50 cents. Sold by druggists or sent by mail. See advertisement elsewhere.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with vitality necessary to insure their health. The pneumogastric nerve may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc. The long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are [illegible] [illegible].

Physicians generally fail [illegible] the importance of this fact [illegible] organ itself instead of [illegible] trouble. The noted [illegible] Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Sold by N. D. Sevin & Son and Lee & Osgood. 5 may16wfmaw

GOING VERY SLOW.

Senate Will Await Action of House on Silver.

STEERING COMMITTEE GIVES UP.

Senator Lodge Heard from—Discussion of Rights of Appointed Senators.

WASHINGTON, Aug. 15.—It is now positively stated that until the house has finally acted upon the proposition to repeal the purchasing clause of the Sherman act the senate will do nothing in that direction. The steering committee has ceased its efforts to steer for the present.

Whether the Democrats in the senate can finally get together on common ground is a matter about which there is more or less conjecture. "Why is there any necessity for such action? Why should we endeavor to unite on a proposition to kill a thing that is already dead?" said a member of the steering committee yesterday, and he continued: "Everybody knows the Sherman law cannot be repealed unconditionally."

The course of debate in the senate indicates the conclusion reached by the committee, inasmuch as it starts out with everything favorable for a

Two Weeks' Desultory Discussion

consisting of set speeches on finance and the rights of members to their seats.

The senate had an opportunity today of measuring the oratorical abilities of the junior senator from Massachusetts, Henry Cabot Lodge. Mr. Lodge, after the routine morning business called up and addressed the senate upon the resolution offered by him last Tuesday instructing the committee on finance to report a bill for the unconditional repeal of the Sherman act. It is not likely that any vote will be taken on the resolution. It will remain on the table, and will not be pressed to a vote.

The question of the right of Mr. Lee Mantle to a seat in the senate from the state of Montana under the governor's appointment was taken up, and (under the notice given by Mr. Hoar yesterday) was kept open before the senate, to the exclusion of all other business except that pertaining to the morning hour.

The Decision of the Montana Case

Will govern the two like cases from the states of Washington and Montana; so that the question is one of great importance, even in its possible relation to the silver issue.

"The numerous speculations about changes in the chairmanships of the house committees cannot have any foundation in fact," said Mr. Springer meditatively. "I have Speaker Crisp's word for it that he has not discussed the matter with any one, consequently the newspaper gossip on the subject must originate with interested parties or their friends. Besides, there is another element in the matter that is lost sight of. No more committees can be named until we have adopted our rules. The [illegible] has not yet decided what committees it will authorize. It may conclude to abolish some, to consolidate others, or to create new committees. All this has to be decided yet. Under the rule we have adopted as to the silver debate, the committee on rules cannot even bring the question up, except by unanimous consent, until we have disposed of the silver question."

The latest proposition called out by the financial stringency is that the

United States Shall Guarantee

the depositors in the national banks, under certain conditions. A bill has been prepared, and will probably be introduced by Mr. Hunton of Virginia, which enacts as follows:

Sect. 1—Every national bank existing and doing business at the date of the passage of this act shall, as soon as practicable thereafter, report in writing its true financial condition to the secretary of the treasury, and, if found by said secretary to be in a solvent condition, deposits thereafter made in such bank in good faith in due course of business by persons not officers of the bank, nor stockholders in the corporation doing the banking business, shall be, and they are hereby, guaranteed by the United States to be paid to the depositors, or their lawful assigns, or transferees when drawn by draft or check, but no person shall be allowed to overdraw his account in any manner.

Sec. 2.—To indemnify the United States from loss by reason of the guarantee given and made in the first section of this act, an annual tax is hereby levied on all deposits hereafter made in the banks described in this act, equal to one-fourth of 1 per cent. of said deposits, the said tax shall be paid to the secretary of the treasury on the last day of each month of the year on the deposits of that month.

IN THE HOUSE.

Silver Debate Resumed by Representative Hutcheson of Texas.

WASHINGTON, Aug. 15.—After prayer and the reading and approval of the journal (before a small attendance of members) Mr. Burrows (Rep.) of Michigan offered a resolution giving Charles E. Belknap the right to contest the seat of George F. Richardson from the Fifth district of Michigan.

Mr. Richardson (the sitting member) asked that the resolution be laid over until tomorrow and it was so ordered.

The silver debate was then resumed, Mr. Hutcheson (Dem.) of Texas concluding his remarks, begun yesterday, in favor of the free coinage of silver.

Voorhees' Bill Reported.

WASHINGTON, Aug. 15.—The senate finance committee agreed to favorably recommend the bill authorizing national banks to issue circulation to the par of their bonds, and Chairman Voorhees reported it to the senate for action. Immediate action was objected to by Senator Cockrell.

WATCHING UNCLE SAM.

English House of Commons Keeping an Eye on Silver Legislation.

LONDON, Aug. 15.—In the house of commons yesterday Robert L. Everett (Liberal) asked that the house, in view of the fact that a bill for the free coinage of silver at the rate of 24 to 1 had been introduced in the senate of the United States, declared that the time was opportune for Great Britain and the United States to establish a durable par basis for gold and silver.

Mr. Gladstone replied that the bill referred to by Mr. Everett in no way represented the views of the United States government.

Its introduction therefore could not form a suitable opportunity for communication with the American government, apart from the question whether the passage of such a bill by the congress of the United States would justify the opening of communications.

CHOLERA IN RUSSIA.

Figures Show the Disease to Be Much Severer Than Last Year.

ST. PETERSBURG, Aug. 15.—The intensity of the heat has caused a sudden increase of the cholera epidemic in the infected Russian cities.

In Moscow there were 27 fresh cases and 16 deaths yesterday. The official returns, although understating the mortality from the cholera, show that the epidemic is much severer than in 1892.

In Nijni Novgorod the cholera has appeared in most virulent form. In the week ending Sunday, the fresh cases there number 280; the deaths 105.

At Rostoff, 22 miles from the mouth of the Don, there have been 116 fresh cases and 50 deaths in the last week.

LEOMINSTER ALL RIGHT.

Taxpayers Come Forward and Furnish Means to Keep Wheels Moving.

LEOMINSTER, Mass., Aug. 15.—For [illegible] days past Town Treasurer Joslin has been worried over his inability to raise money to pay the town's running expenses. Saturday he advertised for loans upon which 6 per cent per annum would be paid.

No sooner had this condition of affairs become known than several heavy taxpayers came to the front with offers to anticipate the legal day of payment.

As a consequence there has been a decided loosening in the town's financial condition, and the authorities now see their way clear to keep the wheels of government moving.

Arrested and Released.

NEW YORK, Aug. 15.—The Herald's Panama special says: General Francisco Ruiz, formerly leader of the liberal party of the isthmus, was arrested by the Panama police just as he was about to board a ship and leave the country. It was suspected that he was going on a political mission, but the papers found in his possession failed to confirm those suspicions and Ruiz was released. A frightful yellow fever epidemic now prevails in Amapala, Honduras.

Another Body Found.

BOSTON, Aug. 15.—At an early hour this morning the police boat Patrol picked up the body of a man floating in the harbor at the end of Lewis wharf. The body was that of a man about 40 years of age, with sandy hair and mustache. It was dressed in a dark frock coat, dark pantaloons and lace shoes. The body was not badly decomposed, and had probably been in the water but a few hours. No foul play suspected.

Bank Will Pay in Full.

PORTLAND, Ore., Aug. 15.—D. P. Thompson, the receiver of the suspended Portland savings bank, filed his inventory in the circuit court yesterday afternoon. This inventory shows the total assets to be $3,014,000, liabilities, $2,475,000. The receiver states that if the bank is not crowded by creditors, it will pay in full in a short time.

Residences Broken Into.

IPSWICH, Mass., Aug. 15.—The residences of Joseph Nason and S. H. Harris were broken into early this morning. They entered the Nason residence through a side window. From his pocket they took his watch and what money he had. In another room they took another watch and $5. The burglars stole $14 from the residence of Mr. Harris.

Bartholdt For Repeal.

ST. LOUIS, Aug. 15.—Congressman Bartholdt, in reply to an inquiry from the secretary of the merchants exchange, wires that he will vote for and use his influence in favor of immediate and unconditional repeal of the silver purchase act. He thinks the vote will be delayed and a compromise will be the result.

From the Poorhouse to the Grave.

BOSTON, Aug. 15.—Dora Dolan, aged 60, formerly an inmate of the Malden poorhouse, visited a friend, Mrs. Sullivan of 87 Henry street, Charlestown, last evening, and retired in apparent good health. This morning when one of the family went to awaken her the aged woman was found dead in bed.

Bank President In Trouble.

BALLINGER, Tex., Aug. 15.—W. T. Buchanan, president of the Coke County and Sutton County banks, that suspended a few days ago, was arrested here yesterday by Sheriff J. T. Campbell, charged with embezzlement.

Public Confidence Upset.

BUENOS AYRES, Aug. 15.—The present cabinet crisis has caused general uneasiness. The repeated changes of ministry has upset public confidence and the political situation in this city is especially alarming. Menacing crowds gathered yesterday in the public squares and, at several points in the suburbs. Troops were brought to the city yesterday afternoon and evening in anticipation of popular disturbances. Public buildings are doubly guarded.

Discharged a Thousand Men.

SAN FRANCISCO, Aug. 15.—The Southern Pacific company has discharged 1000 men working on the new road between Santa Margarita and San Louis Obispo, in the southern part of the state, which, it is said, will reduce the monthly expenses of the Pacific Improvement company, an adjunct of the Southern Pacific company fully $25,000.

Homestead Strike Officially Off.

PITTSBURG, Aug. 15.—The strikers at the Union iron mills of Carnegie, who quit work a year ago last July, to aid the Homesteaders, met last night and declared the strike off. The mills have been in operation ever since, and not more than 30 men attended the meeting, the others having left the city or accepted non-union places.

New World's Fair Commissioner.

MANCHESTER, N. H., Aug. 15.—Hon Charles W. Holts of Nashua, judge of the municipal court of that city, and one of the most popular and gifted lawyers in southern New Hampshire, has been nominated as World's fair commissioner in place of George F. Page of Concord, resigned.

Christian Workers at Hebronville.

ATTLEBORO, Mass., Aug. 15.—The Christian workers are now encamped in Hebronville. There is a large number of people on the grounds, and about 25 cottages are occupied. Rev. A. A. Hoyt of Boston is in charge of the camp.

Car Sealer Instantly Killed.

SALEM, Mass., Aug. 15.—William Dody night freight car sealer in the yard of the Boston and Maine road in this city, was struck by a train at midnight and instantly killed. He was 45 years of age and leaves a wife and son.

Dedham Has a Firebug.

DEDHAM, Mass., Aug. 15.—The barn and carriage house of Mrs. Silas D. Bacon on High street were burned early this morning. Loss, $900; insured. Cause incendiary. An attempt was made to burn the barn of George L. Fuller on Berry street, Dedham Center. The fire was discovered by Mr. Fuller in season to extinguish it.

PULPIT AND PEW.

Churches have had surpliced choirs since the eleventh century.

The archbishop of Canterbury receives a salary of $75,000 a year. Next to the queen, he occupies the position of the head of the church.

There is a church at Kirkwood, Ga., owned by Presbyterians, with a Methodist pastor, and the seats were originally owned by Baptists and donated by Episcopalians.

DECISION REACHED.

Bering Sea Tribunal Hands Down Its Finding.

FIVE POINTS AGAINST UNCLE SAM.

American Arbitrators Say They Are Satisfied.

PARIS, Aug. 15.—The decision of the Behring sea tribunal of arbitration was handed down at 11:07 o'clock this morning.

The five points of article 6 are decided against the United States.

A close season is established, to begin May 1 and continue until July 31. This close season shall be observed both in the North Pacific ocean and Behring sea.

A protected zone is established, extending for 60 miles around the islands.

Pelagic sealing is allowed outside the zone in Behring Sea from Aug. 1.

The use of firearms in sealing is prohibited.

The American arbitrators have expressed their satisfaction with the text of the decision.

Baron de Courcel, after the decision was rendered, thanked the arbitrators for the close and intelligent attention they had brought to bear upon the case.

Lord Hannan and Senator Morgan, in replying to the president of the tribunal, acknowledged his courtesy and hospitality.

The American arbitrators believe that the regulations decided upon by the tribunal mean practically the end of pelagic sealing, and that they are better than were heretofore offered to the United States by Great Britain as a settlement of the questions involved.

AWAITING FULL TEXT.

Washington Idea of What the Tribunal Has Decided.

WASHINGTON, Aug. 15.—The secretary of state has received cable advices from Paris which, in general terms, confirm the bulletin that the decision of the arbitration tribunal on all points involving exclusive jurisdiction over Behring sea has been rendered against the United States. That is to say, the tribunal has decided:

1. That Russia did not assert and exercise exclusive jurisdiction in Behring sea and on the seal fisheries therein prior to the cession of Alaska to the United States;

2. That consequently Great Britain never conceded any such rights to Russia.

3. That Behring sea was not included in the phase Pacific ocean as used in the treaty of 1825 between Great Britain and Russia; and

4. Consequently no exclusive rights of jurisdiction over Behring sea and over the seal fisheries therein passed to the United States with Alaska under the treaty of 1867.

The inference is that it is under the last of the five points submitted to arbitration by article six of the treaty that the concessions as to a close season, a 60-mile protected zone, and the prohibition of the use of firearms apply.

This fifth point was the one on which greatest stress was laid in argument by the United States counsel.

It raised the question whether the United States had any right of protection on property in the fur seals frequenting the islands of Behring sea outside the three mile limit.

The preliminary abstract of the decision received is regarded here as implying that the tribunal to a certain extent has conceded this right, only in future seal life will be protected by virtue of an international agreement entered into under the award of arbitration, and not solely by authority of a United States statute.

The full text of the award is anxiously awaited.

Satisfactory to British Interests.

LONDON, Aug. 15.—Mr. Gladstone announced in the house of commons today that he had received a private telegram from Paris to the effect that with a few exceptions the award of the Behring Sea tribunal of arbitration was satisfactory to British interests.

BETTER TIMES AHEAD.

Outlook In Iron and Steel Trade Is Much Brighter Today.

PITTSBURG, Aug. 15.—The outlook in the iron and steel trade is brighter today than at any time since the closing of mills for annual repairs and the shortage of currency.

At Jones & Laughlin's several departments resumed operations yesterday morning, and 800 extra men got employment. Arrangements are in progress for resumption in the steel department in a few days.

Both Carnegie's local mills and the Beaver Falls plant will be in operation this week, as will also probably Zug & Co.'s works. The Braddock wire works started up today after two months' idleness, giving employment to 700 men. A number of departments in the National tube works resumed yesterday, and the National rolling mill will be started tomorrow.

Next Monday the Black Diamond steel works will start up in all departments. The works were running about half time, and shut down last Saturday, but when the resumption takes place the full quota of 4000 men will be employed. These mills will give employment to upwards of 15,000 men.

FARMERS COMPLAINING.

Army of Unemployed Has Become an Army of Thieves.

MARLBORO, Mass., Aug. 15.—The dearth of opportunities to find employment and the increasing army of the unemployed has led to a species of thieving which is somewhat of a novelty in the farming communities hereabouts.

Farmers in all the adjacent agricultural towns are complaining because of nocturnal raids upon their orchards, cornfields, potato patches and gardens. This form of filching is carried on to such an extent that in some cases the grangers set a guard over their fields between days.

It is not unusual for a farmer to find that 100 hills of potatoes have been dug without his permission during the night, or that there has been a very appreciable diminution in the supply of sweet corn, or that some other product of his labor has been confiscated by another, and to such an extent has this come to pass, that the farmers have concluded that stringent measures must be adopted in order that there may have left even a moiety of their crop.

At the Seaside.

One summer day, with pensive air,
I wandered by the sea beat shore.
I saw some lady bathers there;
A score there must be a been or more.
I gazed upon their graceful forms
And heard their voices, sweet as flutes,
And then when I had drawn quite near
I saw their pretty bathing suits.
— Kansas City Journal.

Glad He Wasn't.

Wife—You are not the man you were when I married you.

Husband—Then you are to be congratulated. I was a fool then.—Truth.

EXPENSIVE WOMAN.

Mrs. H. C. Heck, near Brazil, Ind., not 30 years old, is the mother of 18 children. She is still in good health and spirits.

Mme. de Valsayre, a foreign champion of woman's rights, has started a crusade for the admission of feminine writers to the French academy.

Miss Helen Gould has secured the "unanimous consent" of the other heirs, as required by the will of her father, and will marry within 13 months.

Miss Anne Bayard, daughter of the new embassador to the court of St. James, is said to have been the most graceful and spirited rider in Washington.

Miss Jessie Wilson of California is the first stable woman to open up a big stable full of horses and write her name on a bona fide sign as a livery stable woman.

Mrs. John Jacob Astor, to say nothing of her skill as a pianist and singer, is a graceful performer on the mandolin. She practices on this favored instrument many hours daily.

Miss Catharine Weed Barnes, a granddaughter of Thurlow Weed, was married recently to Harry Snowden Ward of London, whom she met at the photograph convention of Great Britain last year.

Mrs. R. H. Tyacke, in conjunction with her husband, has been making the largest bag of bears ever shot in one season in Kulu, in the central Himalayas. She has written a book called "How I Shot My Bears."

The best known woman in the patent office is probably Mrs. Frances K. Lybrand, who is one of the second assistant examiners. This is an office involving so much technical and mechanical knowledge that few men are competent to hold it.

Mrs. Kate Gannett Wells of Boston, being asked if she approved of women serving on juries, said with uncommon frankness: "I absolutely have no opinion on the subject. I have never been able to make up my mind, and I know nothing about it."

Mrs. Kipling, who long enjoyed the reputation of being one of the cleverest and wittiest women in northern India, once said of an extremely garrulous official: "He is essentially a clever man, but he shouldn't be allowed to talk. He should be used as a dictionary and consulted when necessary."

Two or three years ago, against the advice of all her friends, the wife of Senator Stewart of Nevada bought a silver mine in Mexico. Then she went for a trip around the world and recently returned to find herself the owner of a bonanza that almost equals anything Nevada ever knew. She is now building a large villa near Washington.

THE STOCK MARKET.

Dealings in Leading Securities in Boston and New York.

BOSTON, Aug. 15.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

The stock market opened again dull and heavy. The news of the market was not particularly unfavorable, though the demand for currency was sharper than it was yesterday. The reports from Washington, however, were so conflicting and the probability of any action the part of the senate such an unknown factor that none but traders were tempted into the market, and their whole effort was directed toward the depression of stocks.

General Electric was still used as the central point of attack, though there was something of a rally in it during the first half-hour. Northern Pacific likewise continues under fire, bonds and stock alike suffering declines. Henry Villard is reported as letting go on a large block of this stock in order to raise funds to take up the Collateral Trust certificates for which he subscribed liberally. London apparently believes that there is a good chance for a turn in this stock, as it was a free buyer of Northern Pacific this morning. London prices, as a whole, were above the close here, ⅜ perhaps as an average.

On the local exchange there was some investment buying in home roads and in Bell and Pullman. Otherwise dullness pervaded the list. General Electric opened ¼ below yesterday's final sale, at 40, weakened below 39, and then rallied to 39¾. Sugar common started off ¼ down at 71¾, dropped to 70¼, and later strengthened to 72. The preferred started ¾ down at 73¼, rose to 74, and dropped again to 73¼. Chicago, Burlington and Quincy continued weak, opening ¼ off at 76¾, and declining to 75. Atchison lost ¼ to 15¼, Union Pacific ¼ to 17¾, and New York and New England advanced from 13¼ to 15.

Chicago Provision Market.

CHICAGO, Aug. 15.—2 p. m.—Wheat opened irregular, today, at 61¼c for cash; 61¼c for August; [illegible] for September, then [illegible] bid for [illegible] for December.

Corn opened easy today, at 38c for cash; 38c for August; [illegible] for September; [illegible] for October; [illegible] for December; [illegible] for January; [illegible] for May.

Oats opened nearly steady today at 24½c for cash; [illegible] for August; [illegible] for September; [illegible] for October; [illegible] for May.

Pork opened rather irregular today. Prices ranged mostly at $12.40 for cash, $12.50 for August; $12.37@12.00 for September; [illegible] @13.00 for October; $11.90@12.00 for January.

Lard opened nearly steady today at [illegible] for cash; [illegible] for August; [illegible] for September; [illegible] for October; $7.70 for January.

Short ribs opened nearly steady today at $7.45 for cash; $7.45 for August; $7.40@7.60 for September; $7.40@7.65 for October.

CHICAGO, Aug. 15—2 p. m.—Wheat closed easy at 61¼c for cash; 61¾c for August; 63¾c for September; 70¾c for December.

Corn closed easy today at 38¼c for cash; 38¾c for August; 39¼c for September; 40¼c for October; 39¼c for December; 41¼c for May.

Oats closed steady today at 24½c for cash; 24¾c for August; 25¼c for September; 26c for October; 29¾c for May.

Pork closed rather firm at $12.75 for cash; $12.75 for August; $11.90 for September; $12.85 for October; $12.10 for January.

Lard closed firm today at $8.67½ for cash; [illegible] for August; [illegible] for September; [illegible] for October; $7.70 for January.

Short ribs closed firm today at $7.67½ for cash; $7.67½ for August; $7.67½ for September; $7.65 for October.

New York Cotton Market.

NEW YORK, Aug. 15.—Cotton quiet; uplands, 7¾c; Orleans, 7⅞c; sales 115 bales. Futures opened easy; total sales 126,200 bales. August, 7.58c; September, 7.58c; October, 7.59c; November, 7.64c; December, 7.69c; January, 7.81c; February, 7.88c; March, 7.95c.

WHIP AND SPUR.

The late Lobasco, 2:10¾, never started against the watch.

Docking the tails of horses has caused 100 cases of lockjaw in England.

Jay-Eye-See will be put in shape to attempt to reduce his pacing record of 2:06¼ this year.

A. F. Walcott says every race track grand stand in England could be put under the roof of the stand at Monmouth park.

The bicycle sulky and aluminium shoes will help the trotters and pacers wonderfully this year.

Lou, the dam of Axtell, 2:12, and Axtella, her daughter, will both be bred to Allerton, 2:09¼, this year.

The great pacers Flying Jib, 2:05¼, and Guy, 2:09¾, were foaled in 1882; Hal Pointer, 2:04½, in 1884, and Direct, 2:05½, and Mascot, 2:04, in 1886.

The oldest trotter that has ever taken a record of 2:20 or better is the cream colored mare Birdseye, that won a heat in a race at Salt Lake City Nov. 8, 1888, in 2:29¼.

J. J. McCafferty makes a practice of employing Mexican boys in breaking and training his young race horses, who, he says, "can ride anything that goes on four legs."

The Australian trotter Hero trotted three miles in 7:59 at Victoria in February, carrying 168 pounds. Previous to the race he hauled a buggy with a heavy driver 18 miles.

The rivalry that exists between the trotters and pacers is liable to be more pronounced this year than ever, as the best record for each way of going is exactly the same, 2:04.

A Canadian mare owned by Hiram Colby of Sanbornton, N. H., recently gave birth to triplets. Two of the foals were about the size of kittens, and the third was perfectly formed and of normal size.

CROWN AND SCEPTER.

The Austrian Archduchess Stephanie, it is said, does not like to appear on state occasions attended by less than 16 pages.

The czar of Russia is an enthusiast in the matter of artistic tapestry and has all his rooms in the royal palace hung with it.

The empress of Austria, it is positively asserted, smokes from 30 to 60 Turkish cigarettes a day, topping off with a few strong cigars in the evening.

Queen Christina of Spain believes that children could be brought up with much greater ease if each mother were allowed to punish, not her own, but her neighbor's children.

Little Queen Wilhelmina is the last of the princely race of Orange in The Netherlands. The next highest title is that of count. There are many of these, also of barons, the next highest in rank.

Princess Maria of Parma is not pretty, even for a royal bride. She has a long, large countenance, disfigured by a very long and substantial nose, and it is ungallantly said that her face looks like that of a horse.

Queen Victoria's fondness for domestic pets is indicated by the fact that in the grounds of the royal dairy there are two monuments erected by her majesty's order to the memory of two dogs which she once held dear.

The smallest watch in the world belongs to the sultan of Turkey and is no larger than an ordinary pea, but shows seconds, minutes, hours and days. The back is one diamond and the case an emerald hollowed out to receive it.

THE PROPER CAPER.

Foliage bonnets rival the pretty flower bonnets so long favored.

The new shot silks of the season are combined with wool crepons with charming results.

When in doubt, trim your new summer silk gown with rows of narrow black or dark colored velvet ribbon.

Charming little seaside hats are in the empire shape, the broad brim slanting down in front from underneath, which shows the dainty edge of a closely shirred ruffle of lace.

Ribbon this season is used with the utmost profusion. Many dancing toilets of diaphanous shot textiles have the entire front and sides formed of lengthwise rows of ribbons, giving a striped effect to the dress.

Muslin gowns being exclusively warm weather gowns are usually cut down a little at the throat, sometimes merely in point, sometimes rounded or a la pompadour. The opening is generally framed with a frill of the fabric or of lace.

A very popular material this season is the dark blue French challie figured with a small white polka dot. It is, as a rule, made up with an Eton jacket open over a shirt waist of blue and white striped foulard, china silk or of blue and white striped challie.—New York Evening Post.

ROYALTY'S PERFUMES.

The Princess of Wales delights in that delicate scent known as wood violet.

The empress of Austria prefers for toilet use the delicate orange scent known as Portugal water.

The queen regent of Spain has a delicious perfume especially made for her use from the spice scented blossoms of the carnation.

The Empress Eugenie had and still cherishes a true Spaniard's taste for strong scents, her favorite odors being sandalwood and lemon verbena.

Queen Victoria seldom uses any perfume except the homely and refreshing lavender water, of which large quantities are annually manufactured for her use.

The Empress Frederick uses quantities of cologne water, especially in the daily bath, which she, a typical English woman, never fails to take unless she be hindered by illness, employing in this way a quart of cologne water daily.

HOUSEHOLD HINTS.

To keep ice in the sickroom over night set the pitcher in a newspaper, gather up the ends, twist them tight and snap on a rubber band.

Icing for cakes may be prevented from cracking when being cut by adding one teaspoonful of sweet cream to each unbeaten egg. Beat all together and add sugar until as stiff as can be stirred.

Serviceable little mats for the washstand may be made of bath toweling. After these mats have been cut the shape and size required the edges are overcast and finished with a blanket stitch in Shetland wool.

Whisky will take out every kind of fruit stain. A child's dress will look entirely ruined by the dark berry stains on it, but if whisky is poured on the discolored places before sending it in to the wash it will come out as good as new.

Thread drawing for hemstitching may be made easy by taking a lather brush and soap and lathering well the parts where the threads are to be drawn. Let the linen dry, and the thread will come out easily even in the finest linen.

I. J. Veasy of Rutledge, Ga., put a small catfish in a tank three years ago and forgot all about it. The other day he drew off the water and found the fish grown to five pounds weight. No one had ever fed it.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY

CITY NEWS.

Mr. John D. Moulton is confined to the house by sickness.

W. Tyler Olcott is spending several days on Block Island.

The Misses Lizzie and Minnie Hoar of Greeneville are at the World's fair.

Mr. H. W. Gallup has returned home after spending ten days at the World's fair.

Mr. and Mrs. Amos Swan and daughters are stopping at the Scott cottage, Fishers Island.

The walk upon the westerly side of Main street, Preston, is being relaid with a top dressing of earth.

J. G. Bill of Glasgo has left for the world's fair. He will visit his son in Wisconsin before returning.

George P. Rathbun has shingled the roof of the Preston schoolhouse and repaired the porch and outside steps.

Miss Sarah Harris of Avery street is visiting friends in Ledyard, after which she will rusticate at Block Island.

The steamer Block Island will take the Ladies' Aid society of St. Patrick's church to Watch Hill this morning.

Golden rod is everywhere now-a-days. It has become a corsage bouquet for the girls and the boys make boutonnieres of it.

Mr. Jacob Theis of Hartford, formerly pressman of The Advertiser in this city, has been in town the past two days calling upon friends.

Misses Anna and Lizzie Fellows and their niece, Miss Edith, Miss Alice Bennett and Miss Carrie E. Stevens are at Bethlehem, N. H.

The steamer City of Richmond carried a large party on the Knights of Columbus excursion to Bridgeport Tuesday. She arrived home about midnight.

The three walls of the Masonic temple are in position and Contractor Donovan hopes to begin on the front today, when Architect Coulter of New York is expected in town.

The Central Vermont railroad, (New London division), will sell excursion tickets to Saratoga, via Miller's Falls and the famous Hoosac tunnel route next Wednesday and returning Thursday.

Westerly is enjoying the novelty of a Sunday afternoon newspaper. The Westerly Sun, the new one cent evening paper there, is omitted on Saturday and printed on Sunday instead. Westerly is a Seventh-Day Baptist city.

A pair of swindlers have been doing this part of the state, obtaining a week's board on forged orders purporting to be from responsible business men and leaving town just before it was time to settle.

Dr. Patrick Cassidy's horse, Happy Doctor, won second money at Worcester Tuesday in the race for the 2.40 class. He was driven by James DeWolfe and his time in the three heats was 2.31, 2.26¼, 2.26¼.

Mrs. Fanny C. Church, who for several years has been a clerk and copyist in the probate court, has been made a notary public. She is the third woman in the state who has been appointed to the office.

In the city court Tuesday morning the continued case against Daniel O'Neil, charged with illegal liquor selling, was called by Prosecuting Agent Burnham, and at his proposal was nolled upon payment of costs, which amounted to $28.16.

Joseph C. Bland, the former clerk at the Wauregan house, writes under date of August 4 that he expected to arrive in Queenstown that night and in Liverpool on the morrow. His friends will be glad to learn that he is constantly improving in health.

The Brown Cotton Gin Co. of New London, laid off the moulders today because there will not be another heat this week, but in all possibility there will be work next week in about the usual quantity, though of course in these times there is some uncertainty.

Colonel Woodbridge, the new warden of the state prison, has adopted the plan of visiting the prisoners in their cells every Sunday in order to hear complaints. Most of the complaints made were in regard to the prison food and the warden has accordingly changed and improved the bill of fare.

Prof. John Kukla, the clarinet player, is making for his friends a small fife, constructed from an ordinary mouthpiece by the addition of a simple rattan reed with edges reduced almost to the thinness of writing paper. These little instruments are said to be quite as satisfactory as those ordinarily purchased.

Charles P. Clark, president of the New New York, New Haven & Hartford railroad, was a fellow passenger with ex-United States Minister E. J. Phelps on the steamship Paris, which reached New York Saturday. "I have been on a four weeks' vacation and haven't bothered my head with business matters," he remarked to a reporter.

In New London it was expected that the Brainerd & Armstrong silk mill would run only three days a week, beginning 14th—Mondays, Wednesdays and Fridays—so the employes were notified last week. On Monday morning, however, the notice was countermanded, and the mill will continue on full time until further notice.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A Supposed Bicycle Thief Captured.

Tuesday, Sheriff Josh B. Rogers arrested a young man named Carpenter in Yantic, on suspicion as the thief who stole a Victor bicycle from this city a month ago. The accused man says that he was never in Norwich before, but has little else to tell. Chief Bowen searched diligently for the man when the wheel was taken, but found no traces of him.

Water Tank Roof Damaged.

At noon Tuesday the roof of the water tank belonging to the Central Vermont railroad, and situated north of the Union station, was discovered to be on fire. A still alarm was sent in to the Neptune Hose company and the fire was extinguished after laying about 800 feet of hose from the nearest hydrant. The damage will not exceed $20. The fire probably originated from sparks from a passing locomotive.

Women Registering.

The ladies of New Haven, who have led off by registering to vote on school matters hereafter, will go hand in hand in the new condition of things with several of their sisters in Willimantic.

There is a good deal of interest in school matters in that borough. Six women have signified their intention to exercise the right to vote for school officers by registering with the town clerk. They are Mrs. Mary E. Pomeroy, Mrs. Rosa B. Potter, Mrs. Elizabeth B. Ellis, Mrs. Olive E. Walker, Miss Estelle Potter and Mrs. Alice M. Crane.

Engaged in Willimantic.

The Young Men's Athletic club of Willimantic have engaged A. J. Seymour of Norwich, formerly of the Manhattan Athletic club, to give an exhibition at their games, Labor day. He has a record of 18 feet 4 inches in a standing jump, 41 feet 9 inches in three standing jumps; he also jumps 36 feet in three jumps, clearing a horse on the last jump. Applications for admission to the events that will come off that day have been received from Hartford, New Britain, Norwich and other cities.

Died Suddenly.

Mrs. Jane G. Thomas, a long-time resident of Norwich, died very suddenly at her residence, 55 Union street, Tuesday afternoon. Her son Mr. Edward H. Thomas, upon entering the house, found her lying unconscious upon the floor. Medical assistance was at once summoned, but life was extinct. The cause of her death was a heart difficulty.

Mrs. Thomas was the widow of the late E. G. Thomas, a former well-known citizen of this place, and the last representative of her generation of the local old families, Young and Huntington.

Court of Common Pleas.

The criminal court of common pleas convened in this city at 11 o'clock Tuesday with a jury, Judge Crump on the bench.

The following cases were disposed of: James E. Bordreau pleaded guilty to violation of liquor law, fined $20 and costs.

Bartholomew O'Sullivan pleaded guilty to a breach of the peace; fined $25 and costs.

The case of Jeremiah Murphy was erased from the docket.

Etta Curtiss, colored, of New London, was found guilty of street walking and sentenced to 30 days' imprisonment in jail.

The court then adjourned to 10.30 o'clock this morning.

A Groton Woman's Sudden Summons.

Dora Sampson, a colored woman 26 years of age, was found by neighbors in her house on Thames street, Groton, at noon Tuesday, dying.

She was in a room alone and had bled as much as two quarts from the lungs. The woman was cold and pulseless and although several hyperdermics of heart stimulants were administered she could not be resuscitated and in a few moments was dead. Dr. Gardner of New London decided under the circumstances, the woman being alone in her apartment, and no physician having attended her, to notify Coroner Park of the facts, and he did so Tuesday afternoon. The doctor ascribes death to phthisis followed by hemorrhage which was the immediate cause.

FOR RESISTING SHERIFF STORY.

Elijah Morris is Fined $15 for His Want of Discretion.

Captain Elijah Morris of the tug S. E. Babcock was arraigned in the city court Tuesday morning on the charge of resisting Deputy Sheriff Story, who attempted to serve upon him a warrant for his arrest issued by Attorney Burke. Wm. H. Shields appeared for the accused.

The points argued by the defense was that Captain Morris was not aware of the fact that Sheriff Story was an officer; that he believed that, as a resident of New York in Connecticut, he could not be arrested upon a writ except by a United States marshal, and the revolver that he is alleged to have pointed at the men whom Mr. Story summoned to his assistance, was in reality an unloaded weapon.

After hearing the arguments Judge Kellogg decided that Captain Morris was guilty of a technical breach of the peace and imposed a fine of $15. The defendant paid $24.84.

Captain Morris is a man 65 years of age, and has followed the water for fifty-one years.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THIRD SCHOOL MEETING.

Committee's Report on the Matter of Sachem Terrace Accepted.

A meeting of the voters of the Third school district was held in the school house Tuesday evening. There was a small attendance. George H. Martin, Esq., was chosen moderator, and Mr. William H. Yeomans acted as clerk.

The report of the committee on the matter of Sachem terrace, in which it was shown that the terrace is now a part of the Central district, was read by Mr. Thresher, and on motion of Frank A. Robinson, Esq., was accepted.

After a somewhat desultory discussion as to the advisability of taking measures to secure the territory taken from the Third district and attached to the First or Central district in 1887, on motion, the matter was indefinitely postponed.

STREET RAILWAY EXTENSION.

Hearing Before the Railroad Commissioners on an Important Petition

A hearing was had Tuesday before the railroad commissioners relative to crossing the track of the New London Northern railroad company at the grade this side of Yantic. The railroad company was represented by Hon. Robert Coit, its president; Mr. McKenzie, its superintendent, and Frank B. Brandegee, and the street railway company by its attorney, Solomon Lucas, who called Mr. Chandler, Superintendent Shaw, Representative Palmer, Winslow P. Williams and President Cogswell as witnesses. While the commissioners did not make any formal decision, the belief of those interested is that permission will be given. It is the wish of the people of this town and Bozrah.

The New London Day, in speaking of the case, says: This is the first case of the kind to be heard in Connecticut, and is probably only the forerunner of a great number of similar petitions as the electric lines are increasing all over the state rapidly and their interests are liable to conflict with the railroad companies in the vicinity of most of the large cities. The decision in this case will therefore have an important bearing.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

BORN.

TUCKER—In Wyoming, R. I., August 5, a son (George Carlton), to Mr. and Mrs. Frank C. Tucker.

TRESTLE ON A. & D. GIVES WAY.

Two Passenger Cars and a Sleeper Plunge Into the Creek.

SEVEN PERSONS KILLED.

Story of the Accident—Loss to the Railway Company Heavy.

DANVILLE, Va., Aug. 16.—As a passenger train on the Atlantic & Danville road was crossing the county line trestle, east of Milton, early this morning, the engineer felt the bridge giving away. He threw open the throttle and the engine, tender and a box car got safely over, but the span then went down, carrying with it two passenger cars and a sleeper, into the creek below.

The cars were shivered into kindling wood, and the escape of any of the passengers was a miracle. The water in the creek had risen to the depth of twelve or more feet and it is believed that the rise had undermined the foundation of the iron piers, causing the trestle to settle.

On the train at the time were about sixteen persons, including the trainhands.

Seven persons were killed and four injured.

The killed are: H. Morris, conductor; W. R. Ellison, J. G. Davies, Barkerville; W. H. Sims, Durham, N. C.; James Slowe, retired conductor, who was a passenger; Thomas Lee (colored), France Jenkins (colored).

The wounded are: Mrs. Hervey Gierasch, slightly; J. J. Sise, Richmond, Va., Pullman conductor, foot mashed and hurt slightly inside; G. R. Towens, colored porter on Pullman, slightly bruised about the body; — Davis, fireman, hurt about head and face.

France Jenkins was the servant of Mrs. Gierasch, and with the latter's two children was in the sleeper. France was drowned.

The depot master at Milton heard the crash and immediately gave the alarm by tolling the bell. The people turned out in full force and went to work at once to remove the dead and injured from the debris. The little 12-year-old daughter of Mrs. Gierasch said to the rescuers, "Don't mind me, I am not hurt; just please take mamma out."

None of the injured are seriously hurt. The dead were removed to the depot at Milton, where they were kept until the arrival of the coroner.

The loss will be very heavy to the railway company, as the cars and a full span of the bridge are a total loss. Passengers, mail, baggage, freights, etc., are being transferred at the creek.

IN CONGRESS.

The Senate.

WASHINGTON, Aug. 16.—Among the petitions presented in the senate in the morning hour was one from Cass county, Ind. "It was directed," said Mr. Voorhees, in presenting it, "against the manifold iniquities of the present civil service, in which petition I heartily concur."

Voorhees (dem.) of Indiana, chairman of the finance committee, said that he had been appealed to by several senators who wanted more time, not to call up today (as he had intended) the bill to enable national banks to increase their circulation to the amount of the par value of the bonds deposited by them; but he gave notice that he would do so tomorrow.

Mr. Cockrell (dem.) of Missouri offered an amendment directing the secretary of the treasury to pay to the holders of 2 per cent. bonds, who may present them for redemption, their face value, with accrued interest, in United States legal tender notes.

Mr. Sherman (rep.) of Ohio stated the objections which occurred to his mind against the amendment. The very moment the treasury notes were paid out on these bonds, which were not now due, and the interest on which was no burden to the government, the notes, he said, would be presented to the government and payment in coin demanded. That would be an unbusinesslike proposition and would complicate the situation. The proposed amendment he regarded as a most dangerous financial proposition.

Mr. Cockrell ridiculed the objections made by Mr. Sherman, whom he spoke of as the great friend and patron of the national banks and as the great gold monometallist. Why, he asked, should the national banks be allowed to increase their circulation by $19,000,000 on their bonds now deposited, while the government itself could not issue greenbacks to redeem its 2 per cent. bonds.

After considerable discussion the bill and amendment went over till tomorrow, and Mr. Berry (dem.) of Arkansas addressed the senate in favor of the double standard of gold and silver.

The Lodge resolution was taken up, with the Gallinger amendment to it, to the effect that it would be unwise and inexpedient to make any radical change in the tariff prior to March, 1897; and Mr. Gallinger addressed the senate. He declared himself ready to vote at the earliest possible moment for the repeal of the Sherman act, though he did not believe that that much abused law was largely responsible for existing financial evils.

At the close of Mr. Gallinger's remarks the senate proceeded to executive business, and later adjourned until tomorrow.

The House.

In the house, after the reading of the journal, the silver debate was resumed.

Mr. McCall (rep.) of Massachusetts spoke in favor of repeal. The real question at issue he said was one of standards. It would be madness, when the whole of the civilized and a large part of the heathen world had stopped the coinage of silver, for the United States to make that metal its standard of value.

Mr. Bryan (dem.) of Nebraska said that he would fully accomplish his purpose if he were able to impress upon the members of this house the importance of the question which was now under consideration and to quicken their appreciation of the grave responsibility which pressed upon them. Upon the action of this congress might depend not only the welfare of the south and west, not only the welfare of the United States but the welfare of humanity for ages to come.

In conclusion Mr. Bryan said: The democratic party stands the conflicting forces. On the one side stand corporate interests of the United States, the moneyed interests, aggregated wealth and capital, imperious, arrogant, compassionless. These demand that the democratic party shall become the agents to execute their decree. On the other side stand an unnumbered throng, which work-worn and dust begrimed pleads the democratic party to be its champion in the terrible conflict. Between these parties stands in doubt, yet conscious that upon its decision must rest its fate, stands the democratic party, and to it come the words of Israel's second law-giver, "Choose ye this day whom ye will serve." Thomas Jefferson dared to spurn the bribes of wealth and power and espouse the cause of common people, and because of his devotion to their interests the democratic party was invincible and lived.

At the conclusion of the speech there were loud cries of "vote!" "vote!"

Mr. Henderson of Iowa said the most gratifying thing that could reach the people of the United States were these cries of "vote." The people expected early action. He regretted that too much time had been given for debate. The country was congested by distress; manufactories were closing and thousands of men were thereby thrown out of employment; banks were tumbling and a great railroad had just passed into the hands of a receiver. It had been said that $177,000,000 had been taken from national banks within the last two months, and the government could not estimate how much more had been taken from private banks.

Mr. Moses of Georgia spoke against the repeal bill and opposed the proposition to raise the ratio to 20 to 1. The house then adjourned.

IOWA REPUBLICANS.

The State Convention Assembles at Des Moines—100 Delegates Present.

DES MOINES, Ia., Aug. 16.—The state republican convention assembled in this city this morning. One hundred delegates are in attendance and a large number of republicans from different parts of the state are present. Convention hall was finely decorated with flags and banners.

The convention was called to order by Chairman J. E. Blythe of the state central committee. Rev. A. L. Frisbee of the Congregational church offered prayer, in which feeling reference was made to the present industrial and labor conditions.

Chairman Blythe then introduced ex-Senator Harlan of Mount Pleasant as one of the grand old men not only of the state but of the nation.

Mr. Harlan addressed the convention, and at the close was heartily applauded.

35 POSTOFFICES ROBBED.

Two Gangs Using the Same Steel Tools at Work in New England.

NEW HAVEN, Conn., Aug. 16.—During the past three months and up to last Saturday night just 35 New England postoffices have been broken into, the safes blown open and contents taken, involving a loss of over $10,000, which has been taken in sums ranging from $400 to $200 in cash, stamps and postal funds. The thieves have thus far succeeded in eluding the vigilance of the officers in places where they have been operating.

The inspectors are of the opinion that they are aided in their work by a horse and team, which enables them to make a hasty exit after securing their booty. The robberies that have already been reported and investigated show that there are two gangs at work, sometimes blowing two safes in one night. The same size tools are used in every case, and the charge of powder is inserted in almost the same spot. They are blown open with such skill that not even residents in the immediate vicinity of the post office are aware that an explosion has taken place until they are told of it.

The following are among the offices robbed: May 3, Plainville, Conn.; May 9, Amherst; May 11, Riverside; May 26, Plainfield, Conn.; June 14, Attleboro Falls; June 15, Dorchester; June 16, Mittineague; June 20, North Natick; June 27, Niantic, Conn.; June 30, East Thompson, Conn.; July 19, Fairfield, Conn.; July 26, Nantasket.

COAL BARGE SUNK.

Run Into by Steamer Berkshire of Providence and Norfolk Line.

PROVIDENCE, R. I., Aug. 16.—A serious collision occurred just north of Sabin Point light at 3.15 o'clock this afternoon, when the large ocean liner steamer Berkshire of the Providence & Norfolk line, in command of Captain Hooper, ran into and sunk the Norfolk and Western Railway company's barge, No. 4, in about 20 feet of water. The barge at the time was in tow of ocean tug N. & W. No. 1, Captain Baker, bound for this port. She had in coal to be discharged at Wilkesbarre pier. The barge was in command of Captain Burnett and aboard was a crew consisting of five seamen. No lives were lost. The cause of the collision of the vessels was owing to a misunderstanding of signals on the part of the commanders of the Berkshire and the tug. The Berkshire was not seriously damaged and proceeded south at 3.30. The barge was worth $15,000 and was believed to have been insured.

What The Atlanta Evening Journal Calls For.

ATLANTA, Ga., Aug. 16.—The Evening Journal, owned by Secretary of the Interior Smith, today calls upon congress "to pass the free coinage bill of both gold and silver, putting enough silver in the silver dollar to put it on parity with the gold dollar."

"We further believe," it says, "that Mr. Cleveland, the cabinet and the democratic leaders in the senate and house favor this plan. As the Journal has equivocally endorsed the president's message and has not until now called for free coinage of both gold and silver, its utterances today are regarded as significant.

Settling Up the Affairs of Defunct Endowment Orders.

BOSTON, Aug. 16.—There is over $2,000,000 lying in the vaults of the state treasury awaiting distribution among the certificate holders of the defunct endowment orders. The receivers have found no end of trouble in settling up the affairs of the orders, owing to intricate legal difficulties and the wretched condition of the books of most of the orders.

In order to facilitate a settlement the supreme court proposes to take an active stand in the matter, and to that end the Hon. E. C. Bumpus has been appointed a special master to examine the several orders, confer with the receivers and to report a plan for an immediate dividend.

Winners in the Run from New Bedford to Newport.

NEWPORT, R. I., Aug. 16.—The winners in the run of the New York Yacht club from New Bedford to Newport today were: Schooners Ramona, Alcaea; Shamrock; sloops Huron, Queen Mab, Jessica.

Caught Stealing Cannon Balls.

BOSTON, Aug. 16.—This morning Geo. E. Driscoll, 19 years old, was caught in the tower of the east armory on Newton street in the act of taking the five cannon balls that form the pyramid on one side of the armory. Patrolman Nowell saw the thief, and securing a forty-five foot ladder journeyed up to the tower and placed Driscoll under arrest.

Ocean Steamers.

NEW YORK, Aug. 16.—Arrived, Dubbledam from Rotterdam.

LONDON, Aug. 16.—Passed Prawle Point, New York from New York.

SOUTHAMPTON, Aug. 16.—Arrived, Aller from New York.

INSURANCE AGENT GOES TO JAIL.

A Manufacturer Who Thought He Was Short $100

OTHER CONNECTICUT NEWS.

Body Found at Rocky Hill—May Have Been a Murder.

HARTFORD, Conn., Aug. 16.—The body of a man was found in the river at Rocky Hill last evening. The man looked to be about 35 years old. In the pockets of his pants were a plug of tobacco and $2 in money. There was a gash on his forehead and another on the back of his head. Dr. Griswold, the medical examiner, was called, and the case looked so suspicious that he notified Coroner Taintor. The coroner went to Rocky Hill to investigate.

Insurance Agent in Jail.

NEW HAVEN, Conn., Aug. 16.—Spencer A. Pierpont, an agent for the New York Life Insurance company, was brought to this city this morning from Willimantic, where he was arrested by Captain Hillhouse last night on a charge of bastardy. The charge was made at the investigation of Sarah Johnson of Atwater street, this city. Pierpont's bondsman, Michael Walker, who became security at the time of Pierpont's first arrest, began to feel uneasy and announced his intention of discontinuing the bond. Pierpont is now in New Haven jail. He is married and has a family living in Southington, from which place he was driven by White Caps not long since.

Thought He Was $100 Short.

BRISTOL, Conn., Aug. 16.—A Polkville manufacturer came to Bristol yesterday and drew money from the national bank for his pay roll. He was partially through paying his men when he thought he discovered he was $100 short in the amount given him at the bank.

Hitching up his horse, he drove back to Bristol, and as it was after banking hours he sought the cashier elsewhere and told his story. He was asked twice if he did not get a roll of gold, and insisted that he did not. On the way to the bank to investigate the matter the manufacturer took a roll of what he supposed were nickels ($1 worth) from his pocket. The cashier smiled and asked him to open it. He did so, and found the missing roll of gold coin, worth $100.

Reunion of Sixth C. V.

NEW HAVEN, Conn., Aug. 16.—The twenty-sixth annual reunion of the Sixth Connecticut Volunteers, was held at Savin Rock, West Haven, today. The meeting was largely attended. The following officers were elected for the ensuing year: Captain Bondeson, president; W. F. Smith secretary and treasurer; Charles K. Cadwell, historian. The secretary reported that fifteen members of the regiment had died during the past year, making 116 since the association was organized. The regiment was formed twenty-nine years ago today. It was voted to hold the next reunion in Bridgeport.

Connecticut Day at the World's Fair.

HARTFORD, Conn., Aug. 16.—It was decided this afternoon to celebrate Connecticut day at the World's fair, October 11. Governor Morris and staff and the State World's fair commissioners will leave New York in a special car on October 8. At Chicago, the delegation will be received by the Sons of Connecticut and Gov. Morris will respond to the speech of welcome.

Hartford to Have a Trunk Sewer.

HARTFORD, Conn., Aug 16.—The city of Hartford voted today by a majority of 267 to authorize the construction of a trunk sewer that will take the sewage out of the Park river, that flows through the city.

The Rockville & Ellington Street Railway.

ROCKVILLE, Conn., Aug. 16.—Stockholders in the Rockville & Ellington Street railway company organized at a meeting in this city this afternoon, and these officers were elected: President, A. M. Young of Waterbury; vice-president, N. D. Greene; treasurer, W. F. Marsh of Bridgeport; secretary, R. S. Hicks of Stafford Springs. The company will build the road as soon as possible.

A Shore Line Bridge Cracked.

NEW HAVEN, Conn., Aug. 16.—The bridge on the Shore line over the Quinnipiac river caused the railway officials some anxiety tonight. Just after the 5.15 express ran across, a section foreman discovered that part of the structure had cracked. Danger signals were set and traffic over the bridge was suspended for five or six hours. Through express trains were sent over the air line to Middletown, thence by the Valley road to Saybrook, on the Shore line. The bridge was repaired and in use by midnight.

Scovill & Adams Co. of New Haven Close Down.

NEW HAVEN, Conn., Aug. 16.—The Scovill & Adams Co. of this city, manufacturers of cameras and other photographic apparatus, closed tonight for an indefinite period. One hundred and fifty hands are thrown out of employment.

THE CROQUET EXPERTS.

Interesting Tournament Games Played Wednesday—Standing in the Divisions—A Band and Contests Tonight.

Never has more auspicious weather characterized a national croquet association tournament than that of the first two days of this, the twelfth annual meet. A cool breeze was wafted across the tree-embowered grounds Wednesday, which added to the pleasure of contestants and spectators. The playing was brisk and brilliant, and the spectators often applauded some particularly fine long-distance carom, bank or jump shot. Take it all in all, it looks as if this week's assemblage of croquetists will be the most successful in the association's history.

Willie Knecht, the brown faced young Mattawan, N. J., strategist, distinguished himself in the early morning hours. In his game with Mr. N. L. Bishop of this city, the boy secured the balls soon after starting, and went scampering around the entire circuit in two consecutive shots, defeating his opponent in half an hour. It was one of the most perfect and rapid performances known on the grounds.

Mr. A. W. Dickey was the first to down Johnson of Philadelphia. The fight was a long and stubborn one, uncertain as to the outcome till Dickey's balls had rapped the stake. Then Prof. Jacobus got after Johnson, and also succeeded in laying him low.

Mr. Strong of New London, the newly elected president, made his appearance at 11 o'clock in the forenoon and was warmly congratulated. His game with Maurer, the New Jersey "wonder" who up to that time had not tasted defeat, was an interesting struggle. Strong played with all the steadiness and skill for which he is noted, while Maurer summoned all his powers of delicate manipulation of the rubber spheres. Victory finally perched on Strong's standard.

In the morning games of the second division D. D. Butler of Middletown won an unexpected victory from Sisson of New London. The latter had victory firmly in his grasp, when his opponent secured the balls by a bank shot—an accidental fluke—and whacked his way through the wickets and nearly all the way 'round the course.

Willie Knecht and Germond met shortly before noon and played a determined game, which took up a good part of the afternoon. Germond had the best of it throughout, and it was only by several phenomenal shots that the boy secured the balls at all. Germond followed up his victory by defeating Strong.

In the second division the surprise of the day was Baldwin's defeat of Eddie Strong, it being the lad's first lost game. The contest was not finished till 7 o'clock in the evening, and many of the spectators had departed under the impression that Baldwin had lost all chance of winning.

Maurer and Germond are now the leaders in the first division. Each has four victories and one defeat to his credit. Maurer must yet meet Johnson, Jacobus and Knecht; and Germond, Greenalit, Dickey and Johnson.

In the second division the result is still very much in doubt, while Crawford in the third has a clean score of five victories, a record no opponent has approached.

Mansfield, a beardless Northampton youth, is playing a strong game in the second division, having not yet been overcome.

The committee of arrangements decided last night to have Tubbs' band in attendance this evening, and have scheduled the following tournament games: First division, Jacobus and Dickey; second division, E. C. Butler and D. D. Butler; third division, Jobes and Smith. As the contestants are all possible prize winners, the games will be hotly fought. Mr. N. L. Bishop made the announcement to the audience last evening.

Sixty-nine tournament games were played Wednesday, and the grounds resounded with the rat-tat-tat of ball and mallet till late into the night. In the first division Maurer beat Greenalit and Dickey; Dickey beat Johnson; Johnson beat Greenalit; Strong beat Maurer; Jacobus beat Greenalit and Johnson; Germond beat Strong, Jacobus and Knecht; Knecht beat Bishop.

In the second division Fay beat Baldwin and Veasey; Baldwin beat Strong; D. D. Butler beat Sisson and Brewer; E. C. Butler beat Baldwin; Strong beat Veasey; Mansfield beat Brewer and Chafrant; Veasey beat Chafrant.

In the third division Davenport beat Barrett; Knecht beat Jobes and Holden; Jobes beat Davenport and Hickman; Barrett beat Holden; Farnsworth beat Barrett; Hickman beat Farnsworth; Adamson beat Barrett and Hickman; Smith beat Holden; Crawford beat Knecht, Barrett and Holden.

The tournament game between Veasey and Chafrant was not concluded till after 9 o'clock last night, and when Veasey won all four balls were "rover."

At 5 o'clock last evening Greenalit and Jacobus started an exhibition game, Mr. A. Dickey, referee, before a crowd of interested spectators that encircled the court. Jacobus had beaten Greenalit in the tournament, and Greenalit responded last evening by drubbing his competitor very handily. A remarkable co-incidence is that Greenalit practically won the game by executing the counterpart of a shot by which the professor robbed him of a game last year. To hit the ball, it was necessary to force the sphere through the two side arches, a feat whose accomplishment was rewarded by hearty cheers and applause. Another of Greenalit's notable shots was a single carom, the length of the grounds.

After the game Willie Knecht and Fay of New York, played a social game, the lad in knickerbockers winning with great ease.

W. Holt Apgar of Trenton, N. J., arrived in town last night. He will be put in the second division.

The score at the close of play last night was as follows in the three divisions:

First Division.	Lost.	Won.
Maurer, Keyport, N. J.	1	4
Greenalit, Philadelphia	2	2
Dickey, Norwich	2	1
Johnson, Philadelphia	2	2
G. C. Strong, New London	3	3
Jacobus, Springfield, Mass.	1	4
Germond, New York	1	4
Bishop, Norwich	[illegible]	[illegible]
Knecht, Keyport, N. J.	3	2
Second Division.		
Fay, New York	1	3
Baldwin, Danbury	2	2
D. D. Butler, Middletown	1	2
E. C. Butler, Middletown	1	3
E. Strong, New London	1	2
Sisson, New London	2	1
Brewer, Norwich	2	1
Chafrant, Wilmington	3	0
Mansfield, Asbury Grove, Mass.	..	..
Apgar, Trenton	..	..
Veasey, Wilmington	2	1
Third Division.		
Davenport, Northampton	2	2
Dr. Knecht, Keyport, N. J.	2	2
Jobes, Leominster	2	2
Barrett, Northampton	4	1

Hickman, Wilmington	2	1
Adamson, Philadelphia	2	2
Holden, Leominster	4	0
Smith, Middletown	1	3
Crawford, Asbury Grove, Mass.	..	5
Gray, New London	[illegible]	..

THE EIGHTEENTH'S REUNION.

The Veterans Have a Jolly Time at Killingly Pond—A Large Attendance.

The annual reunion of the Eighteenth Regiment of Connecticut Volunteers at Quinebaug lake, Killingly, on Wednesday was the largest but one the regiment has held for a number of years. One hundred and fifty-three members answered to roll call, and with their friends and families there were over 500 present.

The regiment was represented by 2 of the staff; Co. A, 17; Co. B, 25; Co. C, 9; Co. D, 23; Co. E, 9; Co. F, 19; Co. G, 18; Co. H, 6; Co. I, 10; Co. K, 27.

Sixteen deaths were reported since last meeting.

Officers for next year were chosen as follows: Timothy Parker, president; vice-presidents, George Greenman, Co. C, Thomas Grow, Co. D, James McGee, Co. E, William H. Boyton, Co. H, A. G. Scranton, Co. K; secretary, W. H. H. Ellis; treasurer, Henry Durfey.

Speeches were made by Colonel Peale, Surgeon Holbrook, Captain J. E. Woodward, H. M. Durfey, Robert Kerr, A. Q. Greene and Thomas Grow.

Letters were read from a few of the absent comrades, among whom were B. P. Weeks of Buffalo, N. Y., Samuel D. James of Rockford, Ill., H. O. Beemis of Greeley, Col., Alfred Wood of Washington, D. C.

All the members present seemed to enjoy themselves, and there were rations enough for about as many more.

The dancing platform was in full blast all the afternoon; and the boats on the lake were in use all the time. The only thing that seemed to be lacking was a good shore dinner. The secretary has the post office address of 600 members.

UNLUCKY DAY FOR THE FAVORITES

Gold Charm, in 2.32 Trot, Had No Business with Bessie Benton.

WHO WON IN 3 STRAIGHT.

Large Crowd in Attendance at Worcester Races—The Summaries.

WORCESTER, Mass., Aug. 16.—The races attracted another large crowd this afternoon. It was another unlucky day for the favorites. Gold Charm, the first choice in the 2.32 trot, had no business with Bessie Benton, who won in straight heats without a skip. Charley Pegg, the favorite in the 2.40 race, won. In the 2.25 trot Sea King was a favorite. He was not booked to win, however, from J. Y. S., who was third choice, and who won big money for his owner and driver. The summaries:

2.32 class, trot; purse $500, divided, with $15 additional for fifth horse.

Bessie Benton, c. m., by Governor Benton	1	1	1
Look Out, b. g.	2	4	2
Franklin F., br. g.	3	2	3
Benton M., c. s.	5	3	5
Gold Charm, c. g.	4	5	4

Time, [illegible].

2.40 class, pace, purse $500, divided.

Charley Pegg, b. g.	1	2	1	1
Rodman, b. g.	2	1	2	2
Kritt, c. g.	3	3	3	3

Time, [illegible].

2.25 class, trotting, purse $500, divided.

LOCAL NOTICES.

Nurse girl wanted.

Meeting of Uncle Sam's Eagles tonight.

Smith & Gilbert are offering all their light-weight underwear at cut prices.

A. Plaut is showing a large and new line of guns and rifles, and the price is right.

Dean's Rheumatic Pills absolutely cure rheumatism and neuralgia. Entirely vegetable. Safe.

Cottolene, the best known substitute for lard, is advertised this morning by L. A. Gallup. He reports an active and increasing trade in this article, which gives almost unqualified satisfaction. Many people prefer a cooking fat other than the fat of swine.

The ladies should keep it in mind that the annual clearance summer sale at Porteous & Mitchell's will be continued all this week. Don't say "Oh, there will be time enough before Saturday night to get what I want," for, by procrastinating, you may lose your chance at just the article you need and want. Go today—this morning. They are all bargains, and you don't get them after this week. Read the advertisement and ponder.

J. W. Harren says he must have the cash for a large stock of shoes now in his store. To get it he will, on Thursday morning, place on sale a large line of fine shoes, and he expects that he has cut the prices so heavily that his expectations will be realized at once. There are seven lots from which to select, and they cover as wide a range of sizes, styles and qualities as to suit the needs of every one. See advertisement.

Exciting events are looked forward to at the games of the Irish National Athletic association, of which Tom Morris of California, the champion professional sprinter of America, is entered. Steve Farrell, Tom Barrows and Johnny Mack [illegible].

Danger of a Water Famine.

The protracted drouth shows its effects nowhere plainer than at the Fairview reservoir, where the water is 40½ inches below high water mark. Less rain has fallen during the past month and a half by 1.95 inches than a year ago.

A water famine menaces Norwich, and Supt Bartlett enjoins all consumers that economy may be all that will avert it. Continued extravagance in the use of sprinklers and hose streams will result before long in the necessary suspension of the privilege.

HUMANE SOCIETY CASES.

Six Hundred Wrongs Remedied so Far This Year.

Secretary Miller of New Haven of the Humane society has an improved method this year of keeping track of the business that is transacted by the society. Two large books made expressly for the purpose are used.

Every case is recorded, with all its details, and can be found readily. On one page in the book devoted to animal cases are spaces for the complaint, respondent and offense, the opposite page is devoted to the description and investigation. The other book, relating to persons, is arranged in about the same manner.

During the past week sixteen complaints have been made, making 600 so far this year. Two hundred and fifty related to persons and children and 350 to animals. Permanent relief was given in Hartford alone last week to thirteen children, some of whom went to the Temporary home, while others were otherwise provided for and the society is securing homes for children constantly.

MEETINGS IN THE WOODS.

"A Witnessing Church"—Religious Services Early and Late.

MEETING OF THE DIRECTORS.

Norwich People Upon the Grounds—Other Matters of Interest.

WILLIMANTIC CAMP GROUND, Aug. 16.—A typical August morning was ushered in by bursts of melody from different points on the Circle today, melody interrupted by brief intervals of silence until the regular meeting at 10 o'clock. At that hour 200 people had gathered about the stand, where the Rev. G. W. Anderson of Providence, who had made such a favorable impression by his solo singing on Tuesday evening, announced the hymns, of which the choir rendered an excellent account. The same divine was allotted the scriptural reading, choosing Acts I and II, 1 to 5 and 1 to 14 respectively.

A handsome pyramidal bouquet of sweet peas was placed at the right of the desk.

The Rev. H. H. Martin of Attawaugan delivered the sermon, an effort simple, sincere, marked by an absence of the emotional and theatric, winning him the closest attention. Besides the speaker there were upon the stand the following clergymen: Tirrell of Norwich, Peck of Turnerville, Anderson of Providence, Pearce of Old Mystic, Allen of Norwich, Bell of Colchester, Taber of South Manchester, Brayley of Glendale, McVey of Burnside, Phreaner of Moosup, Newell of Moodus, Dorey of Sterling, Bromley of Quarryville, Jackson of Jewett City, Betts of East Glastonbury, Ward of Niantic, Bridgeford of Danielsonville, Ashley of Voluntown, Smith of Putnam, Bryant of Plainville and Johnson of Oxford.

Choosing as his text Acts 1-8, "But ye shall receive power after that the Holy Ghost is come upon you, and ye shall be witnesses unto me, both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost parts of the earth." Mr. Martin announced as his topic: A witnessing church, How made? Its fruit; Its reward. Every leader and master aims to perpetuate his work by his disciples, his witnesses; theories are fleeting, but principles endure, and principles are propagated by faithful followers. The date of Pentecost marked an epoch in the history of the Church's growth, for after Pentecost the disciples, baptized, endowed with the power of the Holy Spirit, began to speak in many tongues the wonderful works of God. So at the very start of the Christian church the Holy Ghost was part of the plan, and the power received from the Spirit began to bear immediate fruit in this witnessing unto Christ. Since this was the beginning, it is safe to continue so. Good witnesses are an imperative necessity in any case; how much more so in God's work. Good witnesses are made by a thorough conversion, by the confession of sins and a cleansing of the heart. Emphasis was laid upon the importance of realizing the terrible fate from which the repentant are saved. The true convert is a witness who longs to convert other souls and make new witnesses of them. The reward of this testimony to the grace of God has been foretold by the Master.

Mr Johnson spoke fervently upon the stewardship of Stephen, rebuking those in the fold who, by their lukewarmness, would hamper the enthusiasm of the young convert. He condemned repression, and advocated a hearty encouragement of free expression, mindful that the Methodist church was raised up to spread scriptural holiness throughout the world.

The usual 1 o'clock meeting was held in the New London house. An hour later the Rev. Mr. Anderson presided at the stand. Mr. Cooper of New Haven, Mr. Foster of East Hampton, Mr. Betts of East Glastonbury and Mr Smith of Putnam, assisted in the preliminary services. The sermon by the Rev John Pearce of Old Mystic from 1 Cor xv., 58 was an earnest plea for steadfastness in the work of salvation. The mission of Christians is labor in the Lord; a perseverance under trials like unto that of Job and Paul. Mr. Johnson had a few pertinent remarks to make about the duties and responsibilities of laymen.

At 6 o'clock the Rev. O. W. Scott, president of the Epworth league of Willimantic, conducted a well-attended meeting in the chapel. In the evening the Rev. Mr. McVey of Burnside spoke upon the sinner, typified by Naaman, as outlined in II Kings, v. Scripture reading by Rev. Mr. Taber of South Manchester, prayer by the Rev Mr. Adams of Wapping, Conn., and the reading of the hymns by the Rev. W. I. Ward of Niantic completed this service.

At the business meeting held today, eight of the nine members of the executive committee were reelected, the new member being E. M. Anthony of Jewett City. Charles H. Hall of Norwich was elected trustee.

Camp Notes.

The directors voted to purchase a new watering cart.

Mr and Mrs. W. C. Ford of Asylum street are at the Central house.

Mrs Park and granddaughter Bertha, Mrs. Standish, Miss B. Case and Miss Baker are at the East Main street building.

Mr W. W. Peck of New York state, a student at Wesleyan and now supplying at Turnerville, is collecting notes of the camp for the Willimantic papers.

Mr Edward Wheeler, who conducts the singing, will be remembered by the Norwich people as a visitor last winter to the family of Dr Brown, when he sang with favor before the Chautauqua society. Mr. Wheeler conducted the singing in the Friendship Street Baptist church in Providence for two years, and is leader of the Amphion quartette.

Mrs. W. H. Hovey and Mrs James McKee are among late visitors to the grounds.

Mr. Charles T. Potter of the Bradley street mission of New London is attending the meetings. Mr. Potter is filled with the same fiery zeal which makes his work in his chosen field so successful, and which even the August heat fails to abate.

Mrs. M. V. B. Pierson of the West Side is at the cottage of her daughter, Mrs. J. M. Newton.

A watering cart from Willimantic laid the yellow dust this afternoon.

Costello Lippitt, Esq., of Norwich was present at the directors' meeting today.

[illegible]

The grounds in and across the roadway from the Groton monument are ploughed and being leveled off for a green. The repairs to the monument are still in progress. Groton people generally think the government might spare a few of the revolutionary cannon to place around the monument, such as seen at Newburg, N. Y., at Washington's headquarters, etc. Not a cannon older than 1820 is at present in Fort Griswold.

A few of the old relics that really belong with the monument would awaken new interest and revive historical memories if they could be brought here. Some request should be made to Secretary Lamont for the loan of a few pieces of ancient artillery. It's a good time now to agitate it as this state has just donated $5,000 for repairs. The national government will do its share to keep the memory of the old heroes green in the hearts of the present generation.

CALVARY EPISCOPAL CHURCH.

A New Rectory—Gifts During the Year.

Calvary Episcopal church, Stonington, has been greatly blessed during the past year by the gifts of friends and former parishioners. A new rectory has been built and paid for. A few weeks ago a brass eagle lectern, in memory of Mrs. Elizabeth Sisson Wilkinson, who died March 16, 1893, was presented to the church by Mrs. Charles S Hull. At the same time the same generous lady gave the church a beautiful carpet, which perfectly matches the tint of the surrounding walls. On Sunday, August 6th, a silver chalice and paten, the filial tribute of Mrs B. F. Austin of New York City to the "memory of Mary Catharine North, wife of Rev. D. C. Weston, D. D., third rector of Calvary church, died August 4, 1889," were used for the first time, the Rev. Dr. Weston himself taking part with the rector, the Rev. E. W. Babcock, in the celebration of the holy communion. The members of the parish feel very thankful for the assistance thus received, and will hold the donors in grateful remembrance.

Collecting Old Horseshoes.

The New London Telegraph says: Adams' Express employes must be superstitious with a belief in the efficacy for good luck that the possession of an old horseshoe is supposed to bring. No one ever saw a driver of one of their wagons pass by an old horseshoe in the street, if he saw it, without stopping to pick it up. The result is a unique collection of horseshoes that are strung over one of the iron stringers across the delivery room in the local office. There are about forty of them, and they are of all sizes and conditions of wear.

NORWICH'S BOY PLAYERS.

Harper's Young People Tells of Their Skill at Croquet.

The current issue of Harper's Young People, in a contributed article relative to the national croquet tournament, after speaking of previous champions, says:

It may be interesting to some of the readers of Harper's Young People to learn that not all of the expert mallet wielders are, like many of the older players, clergymen and pedagogues. In 1881 John Jencks of Norwich, then a boy in his teens, won first place in the second class, defeating players old enough to have been his grandfather, and had he competed the following year would have been placed in the first class, with an opportunity of becoming the American champion. William Andrew is another one of the boy players who achieved distinction when yet in short trowsers, and has the enviable reputation of having defeated Professor Charles Jacobus, the "champion of champions," in a friendly game, a feat which few past champions can boast.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THE MASONIC TEMPLE.

Work Progressing Rapidly on the Building—Some of Its Features.

Contractor John Donovan has completed the three walls of the Masonic building in 186 days, laying 205,000 brick in the occupation.

The building has a frontage on Broadway of 70 feet, 40 feet being for the main building and 15 feet each for the wings. The wings are 86 feet deep and the main building 76½. The front of the building will be in Italian renaissance style of architecture, with a light buff brick and Indiana limestone and terra cotta trimmings. The loggia in the third story will be the central ornament of the building and will be exceptionally fine in detail. As a feature of exterior decoration it will occupy a supreme position. It will dominate the whole front and make the otherwise plain building, as far as ornament goes, most beautiful and imposing. The two massive columns represented in front of the main entrance are of bronze and will probably be presented to the order. The sides and back of the building will be of Long Island red brick. The interior detail, which is all carefully studied in the Italian renaissance style of architecture, will be lighted by both electricity and gas, the chandeliers being very handsome. The two lodgeroom floors are carried on riveted steel girders, another instance of the great stability of the building. With the exception of the main staircase the stairs throughout are of Georgia pine.

NEW HAVENERS LEFT.

S. A. Bailey Assigns in This City Without Notifying Them.

The New Haven Leader says: Stephen A. Bailey, who has conducted a livery stable business at 171 George street since January 1 last, made a voluntary assignment in the probate court at Norwich last Saturday and his New Haven creditors are in no very pleasant frame of mind over the affair.

Most of Bailey's creditors reside in this city and they feel that they have not been fairly treated. Bailey came to this city last January from Norwich and purchased the stable from B. R Cannon.

It is said that he paid his bills promptly until July 1, when he suddenly ceased to meet his obligations. During July he put his creditors off and until now, when, without notifying them, he has made an assignment.

At the hearing Bailey's attorney was made trustee and commissioners were appointed to appraise the estate. Previous to this Smith & Fowler, through their attorney, E C. Dow, attached Bailey's real estate in Norwich on a suit to recover a feed bill of $650

This attachment is released, of course, by the assignment. Besides this, Bailey owes Warren H. Bristol $300 for rent, Bishop the George street horseshoer, $250, and several others about town. The assets consist of eight horses, four surreys, three carriages, three light carriages and a house in Norwich valued at $4,000, on which there is a mortgage of $2,800

The local creditors feel that they should have been notified in order to have been represented at the hearing. The stable will be conducted by the trustee until the horses and carriages are disposed of, which must be done within a month.

Among American towns there are 5 Ciceros, 8 Tulleys, 6 Catos, 7 Ovids, 6 Virgils, 9 Horaces, 10 Milos, 7 Hectors, 7 Solons, 10 Platos, 15 Homers and 4 Scipios.

ENGLAND REJOICES.

Bering Sea Decision a Triumph For Reason.

CANADIANS ALSO VERY HAPPY.

Comments of the London and Dominion Newspapers.

LONDON, Aug. 16.—The Standard, commenting on the Behring sea decision, says: We are sure America will accept the award in cheerful good humor and apply it in perfect good faith. Nothing was left untried by either side to win the verdict, and, in pronouncing the decision, the tribunal has only affirmed and applied one of the best known and hitherto most unchallenged principles of international law.

The Daily Chronicle says: We feel sentiments of profound gratitude at the full settlement of the difficulty which once threatened to involve the rival interests of three powers. The arbitration is

A Triumph of Reason

and humanity over which the civilized world should rejoice. It is good for the world to know that Englishmen have not desired nor claimed a single thing that the tribunal has not decided to be in perfect accordance with reason and justice.

America from the outset has not had a leg to stand upon. Its case has been altered half a dozen times. It picked and chose evidence to suit its arguments. Part of its case rested on forgeries, and it stood out for rights which would infringe on the common rights of mankind. Its counsel made the best possible defense of its preposterous claims, but all their combined eloquence and learning and ingenuity had only the effect that the arbitrators decided against it every point.

We are not disposed to criticise the proposed regulations, without which the seal would soon become extinct. They will leave the Americans a pretty bill of compensation to pay to the North American Commercial company. The American people, we are sure, are large minded enough to

Accept the Verdict With Composure.

The Morning Post says: The United States have the satisfaction of knowing that the policy of arbitration is one which their public men have done much to promote, and that their case was presented with most brilliant ability. Even if the popular press loses a favorite opportunity of threatening to twist the lion's tail, American citizens, on the whole, will rejoice that one more source of controversy between us is removed.

The Graphic says of the award: A serious omission is the absence of any proposal for the control of the internal management of the islands themselves. The protection of seal life will scarcely be effective unless the regulations in the breeding haunts are enforced concurrently with the restriction of pelagic sealing.

OUR CANADIAN NEIGHBORS.

More Than Jubilant Over the Finding of the Tribunal.

TORONTO, Aug. 16.—The Empire, leading government newspaper, says editorially in regard to the decision in the Behring sea arbitration:

The court of arbitration has given judgment on all points submitted to it in favor of Canadian contention.

It fell to the lot of this country to protest against the acts of usurpation and aggression committed by authorized agents of the great nation; to contend for freedom of the seas; to assert the right of sealers to pursue their avocation unmolested on the high seas; to insist that the United States had no property in seal herds, which were the possession of all mankind, except when found in United States waters; to uphold freedom and common property of the Behring sea as a part of the Pacific ocean.

In a word, Canada strove for principles that are of international moment and concern, for the rights that it is the interest of all nations to uphold, and Canada has won.

The Toronto Mail (independent) says: So far as the question of exclusive jurisdiction is concerned, the arbitrators have determined wisely and well.

It is true they have given all the American arguments a complete denial; but our neighbors can, at least congratulate themselves that, although the decision has gone against their attitude of today, it amply sustains the position taken by Tyler, Marcy, Cass, Grant and Evarts in relation to free navigation of the ocean in years gone by.

The regulations, which, by the way, must be agreed to by all maritime nations to be effective, are obviously compromises. Arbitrators appeared to have decided that they would agree to the demands of neither country, but would meet both half way, and they have carried out their program most effectually.

In regulations Canada is subjected to unlooked-for restrictions. She is restricted, for example, to the North Pacific, with which arbitrators had nothing to do. But on the whole it may be said that the Americans have lost their case.

The Montreal Gazette (government) says the British claims have been substantially confirmed in all important points, especially in regard to the contention that the Behring sea is not mare clausum.

The Gazette also points out that it was Great Britain that first suggested the neutral zone, only that the extent was 20 miles instead of 60, which was decided upon by the commission. The Gazette declares that the government has every reason to be satisfied with the decision.

The Montreal Herald says: The announcement that the decision has been in favor of Great Britain's contentions will cause no surprise even in the United States. It has long been evident that this was a dispute in which arguments as to rights were all on one side.

The virtual abandonment by the American counsel after the opening of sittings of the committee of their whole case, and the substitution of a lot of new and fanciful reasons as the justification for the course taken by the American government, showed Americans themselves regarded their position as untenable.

After a review of the whole case the Herald adds: Altogether the decision is one which completely vindicates Great Britain's contention.

THE PLATE [illegible].

Secretaries Hamilin and Carlisle to Confer Before Making It.

WASHINGTON, Aug. 16.—Assistant Secretary Hamlin will have a talk with Secretary Carlisle before he promulgates his decision in regard to importations of tin plate.

It is probable that the decision will exclude imported black plates, which are merely dipped in tin in this country, from the classification of the plates to be counted in making up an American production of one-third in some one year before 1897, of the net importations. This production of one-third by American factories is required by the McKinley law to keep in force the present duty of 2.2 cents per pound, and tin plate becomes free of duty on Oct. 1, 1897, if the production is less.

The point has been made by those who advocate excluding dipped foreign plates from the American production that it could not possibly have been the intent of the framers of the McKinley law to offer a premium to the importation of foreign iron and steel sheets. The present interpretation of the tin plate duty has had something like that effect, and the importations of such sheets during the fiscal year which ended June 30 last were nearly three times those for the year before.

The law says that the plates must be "produced in the United States," in order to be counted. The argument against counting dipped foreign plates rests upon the view that such plates are not actually produced in this country. The law, both in this paragraph and in the general drawback provision of section 25, seems to make a distinction between articles entirely "produced" in the United States and those which are simply "manufactured" from partially completed foreign articles.

Secretary Carlisle's decision is likely to accord with this view. The law is likely to be changed before tin plate becomes free in 1897, but the tin plate manufacturers have seemed to take great interest in the decision, apparently with the expectation that the law might possibly remain in force.

A FIENDISH ACT.

Boy of Seventeen Murders Three Others Near Homewood.

BEAVER FALLS, Pa., Aug. 16.—A fiendish act was perpetrated Monday afternoon near Homewood, which resulted in the death of three boys yesterday.

Frank Graham, aged 17, knew that three other boys were hunting ground hogs about a mile below the village. He got a can of blasting powder, attached a fuse, placed it in a little pile of rocks and waited until the young hunters neared the spot. Then he lighted the fuse and crept off to a safe distance.

Burgess Reed, 16 years old, and James Reed, 14, sons of Smith Reed, with James Carney, 17, approached the spot entirely unconscious of danger. The can exploded, and all were maimed and so badly burned than they died within a few hours.

Graham escaped, but the entire town has turned out to hunt for him.

THE SAME OLD STORY.

Navahoe in Another Race, but the Britannia Leads.

LONDON, Aug. 16.—The Royal Albert yacht club had another race today open to yachts above 40 rating. The prize was a cup valued at £50.

The start was made from Southsea, where the club is located, and the course covered a distance of 46 miles, being sailed over twice. The yachts that started were the Britannia, Navahoe and Calluna.

The Britannia got away first, the Calluna second and the Navahoe third. When the first round had been half sailed the Britannia had increased her lead 2 1-3 miles from the Navahoe. The Calluna was 5 minutes behind the American yacht.

At the end of the first round the wind had completely died out, and the regatta committee decided to [illegible] the race. The order being Britannia, Calluna, Navahoe and Satanita. Navahoe about 10 minutes [illegible] of Britannia.

PENSION DECISION.

Attorneys Will Be Allowed $2 on Claims Under Act of 1890.

WASHINGTON, Aug. 16.—Assistant Secretary Reynolds, in a decision today, held that attorneys in pension cases would hereafter be allowed a fee of $2 in increase claims under the act of June 27, 1890.

It was contended by the attorney in interest that fees under the act of June 27, 1890, should be governed as to the amount by the act of July 14, 1864, which allows a fee of $10 where no larger fee is stipulated for or where no contract for fees has been filed. The assistant secretary, however, holds to the contrary and allows a fee [illegible].

Stock of Wheat Increased.

MINNEAPOLIS, Aug. 16.—The Northwestern Miller reports: The stock of wheat in private elevators of Minneapolis is 603,000 bushels, a decrease since last Monday of 162,000. This makes the total Minneapolis and Duluth stock 12,546,586 bushels, or 1,466,373 bushels less than a week ago. A year ago the stock at these points was 7,356,000 bushels.

Chair Pushers on a Strike.

CHICAGO, Aug. 16.—Four hundred college students, who are known as chair pushers, are on strike. They refused to go to work yesterday morning because Superintendent Adams had posted a notice in all the booths Monday night that on and after yesterday there would be a reduction of 25 per cent. in the wages of the chair pushers.

Machias Broke Her Topmast.

PORTSMOUTH, N. H., Aug. 16.—The United States gunboat Machias, Captain Train, arrived from Machias late yesterday afternoon. In making landing at the navy yard the strong tide set the vessel against the shears and her foretopmast was broken off.

Didn't Know It Was Loaded.

TAUNTON, Mass., Aug. 16.—George Menoche died at the Morton hospital last night from the effects of a gunshot wound in the leg, inflicted by Arthur Gillepo, who did not know the weapon was loaded. Menoche lived about seven hours after the accident.

Colonel Joe Maccabe Wins.

CINCINNATI, Aug. 16.—Colonel Joe Maccabe of East Boston was this afternoon unanimously elected commander-in-chief of the Sons of Veterans.

General Schaffe Resigns.

BOSTON, Aug. 16.—General Morris Schaffe, member of the state board of health has resigned, to take the position of gas commissioner.

Carriage Factory Damaged.

ROCHESTER, Aug. 16.—Kesler & Jennings' carriage factory on North Washington street was damaged $100,000 by fire this morning.

THE JEWEL CASKET.

Paper knives of silver lately shown embody the lotus flower, two long drooping stems being the serviceable portion.

In jewelry of variously shaded gold a design that has recently attained popularity is a hop blossom drooping within a circle formed of its own slender stem and serrated leaves.

Water lilies, with curved petals and yellow stamens and with long green stems entwined to form a wreath, and the trumpet shaped spathe of the calla lily are variations of the floral designs now so prevalent.

In short silver watch chains intended to be worn with an outing belt by ladies the bar is supplanted by a cluster of flowers, a sword or other popular device. A small heart, the flower-de-luce or an ear of corn is employed as a charm.

Slender silver chains, so arranged as to conform gracefully to the curves of the bosom of the wearer, are shown. There is in this a suggestion of the revival of the charming mediæval custom of confining the hair in nets of silver chain.—Jewelers' Weekly.

Flotsam and jetsam of ocean, lake and river suggest numerous attractive designs for jewelry. Upon a saffron colored cushion, as if cast there by the waves, rests a weather beaten log or a shattered spar with the parted rope still clinging to it and curtained with lacelike seaweed.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Lee & Osgood. [nov15tuthsw

HOOD'S SARSAPARILLA.

Almost Blind

With Humor and Inflammation in the Eyes

"My little boy fell from his high chair, injuring his nose, and severe inflammation appeared in his eyes. He grew worse and worse until we feared he would lose his sight entirely. Medical advice and various medicines failed to benefit him until, hearing the good Hood's Sarsaparilla had done for others, we concluded to try it. I must say Hood's Sarsaparilla worked like a charm. While taking two bottles the inflammation gradually disappeared, his eyes grew stronger so that he could bear the light. He was soon

WOMAN'S WORLD.

WORDS OF WISDOM FROM A MATRON.

Dangers of Summer Resort Flirtations and Indiscriminate Introductions.

Well qualified by years of intelligent observation of a wide scope, enhanced by special opportunities for seeing, a very estimable woman—liberal minded at that—of this city gave utterance to the following:

"For the month now at hand the chief amusement, not to say occupation, of the young people at the summer resorts will be flirting. Dancing and driving, bathing and boating, croquet and bowling and cards—all these will have their devotees and receive due attention, but the business of the season to which all these other occupations shall be subservient is the old new game of playing at love, forever so pleasant and amusing. Now and then perhaps there will be a touch of the real article—a genuine heart, warm and living, among the imitation hearts of ice, which may find its like or thaw the ice, or perhaps be itself frozen—who knows? Few men care to marry the summer resort girl or the girl they meet at the average summer resort. They see so much froth that it makes them disbelieve in the wine. So much deception causes doubt everywhere.

"On the other hand, men know to what extent maneuvering mammas lead their daughters, season after season, to the sacrifice. Matches made at watering places are seldom safe, and guardians and parents will be wise to keep a watchful eye on their charges and to inquire into the character and antecedents of the nice young men whom ward or daughter scrapes acquaintance with in the surf. The convenient code which provides that such acquaintances are only for the season allows much latitude, and often, very often, shelters doubtful personages with married women or with single ones, wise in the ways of the world. Gamblers and fortune hunters have no cloven hoof which cannot be hidden by the conventional patent leather boot.

"Because a man waltzes or swims well, shall he without other passport dance or swim with any daughter—any woman? Shall Mr. Smith's introduction suffice for Mr. Jones when all known of Mr. Smith is that he wears a good coat, boards at a good hotel and drives a pretty team? It might be convenient if the custom common among some German peasants were introduced with us—the custom of indicating the dowry of each maiden by the stripe on her bodice. But possibly that is too much to ask of congress in a land where heiresses are in the minority. So the desiring young man who wishes to endow a fortune with his heart and hand must take his chances, and when the biter is bit Mr. and Mrs. Lammie have no cause to complain if they do not receive much sympathy."—Chicago Tribune.

"Hen Dinners" at a Summer Resort.

One sign of the times is the starting of the hen dinners, which were so popular in New York during the Lenten season. They are very jolly affairs, so say those invited, and the stories told at the dinners are certainly mirth provoking. These dinners, although attended chiefly by married women, are never complete without a chaperon, who as a rule, belongs to the rather older set. Mrs. Thomas Hitchcock was asked to "matronize" the one given last week, and when she declined Mrs. James Kernochan took her place. It does certainly seem very strange, and one wonders where it will end, this complete separation of interests—the men going off by themselves and the women by themselves—meeting simply as jolly good friends, but with no interests in common.—Newport Cor. Vogue.

A Word to the Short Girl.

If you are not thin and slender, dear girls, do not include a collaretted and winged and big sleeved Eton suit in your wardrobe. Certainly the temptation is strong, because every girl wants the thing that she sees looking pretty on some other girl, and on the tall, willowy girls and the petite and dainty maidens these suits are undoubtedly a success.

Unfortunately, however, all girls are not built to adorn the new style Eton outfit. The girl who in courtesy is termed plump never was intended by nature to fit into a winged Eton and cannot be made to do so successfully by any amount of art. When a girl is too broad across the shoulders and too short waisted, what an unreasonable thing it is to put on a costume that increases both defects, and then expect to please.—New York Times.

Present Fashions Unsatisfactory.

Fashion does not appear to be wholly satisfied with herself just now. Aware that her recent ventures are not altogether popular, the great dictator is continually trying to improve upon her original and somewhat crude ideas. Nevertheless, what are really meant for improvements often serve to accentuate the ugliness or eccentricity of styles under the improving process. The skirts, bodices, sleeves and trimmings are in no sense prettier or more artistic than they were a year ago, and it would seem that the only real commendable, agreeable change is the removing of the sweeping train from the skirts of street dresses. Very few women are found who are really pleased with the arbiter of dress in her present mood.—New York Post.

This Season's Bathing Suits.

"This year's bathing suits are simply charming," remarks a young lady in a letter to a friend. "Colors are more brilliant than ever. Miss —— will wear one of bright red throughout for early morning dips when sightseers are few, and the old time trousers will be replaced by veritable tights in one piece, stockings and all. A wholly new wrinkle will be a 'swimming dress' with a detachable skirt, which, after the girl is well in the water, may be easily removed and hung on one of the life poles until she gets tired of swimming in deep water, when it can be readjusted easily without making any undue display of the figure. This allows a woman the same freedom in the water that a man enjoys and is a good idea."

Jupiter's satellite is double—in other words, what has heretofore been taken for a single moon is indeed two moons—a large and a small one—the lesser slowly revolving around the greater.

AN UP TO DATE SOLILOQUY.

To paint or not to paint! That is the question.
Whether 'tis better on one's cheeks to suffer
The marks inflicted by a wearing season,
Or to take steps against increasing paleness
And with the rouge put end to it? To paint, to rouge—
That's all, and by a simple smear to mask
Time's onset and to change the pasty hue
Our flesh is heir to—'tis a consummation
Devoutly to be wish'd. To paint, to rouge;
To rouge, perchance to daub—aye, there's the rub,
For, of that simple smear, the mess some make
Must give us pause and bid us hesitate
Ere we supply ourselves with new complexions.
For who would bear the marks of dining out,
Of crowded balls, of visits to the opera,
Of smart reunions and of sleep curtail'd,
When she herself might bring youth's roses back
With a soft hare's foot? Who would still be pale,
But that the dread of rouging badly done,
Of paint put on with ineffective touch,
And clumsily withal, puzzles the will
And makes us rather wear the hue we have
Than rouge a new one when we scarce know how?
Thus does self consciousness and fear of ridicule
Make cowards of some of us, though not of all,
And keep us, in the midst of painted blushes,
Still sicklied o'er with a pale cast of cheek.
—London Truth.

Recent Women Explorers.

Mrs. Peary is not the only woman who accompanies her husband on dangerous exploring trips. The wife of the arctic explorer, Dr. Nansen, is his companion in all his perilous exploits. She is described as a "jolly, bright little woman, with dark hair," who has given up many luxuries to reside with the doctor at Sysaker, six miles from Christiania. She enters with enthusiasm into all the explorer's schemes for the success of each new expedition. The cabin of the boat in which they propose to make their next trip is only 12 feet square and is to be used as dining room, workroom and drawing room.

Another woman explorer of cold latitudes is a Mrs. Burgess, the wife of a member of the Newfoundland assembly, who accomplished the remarkable feat of accompanying her husband a distance of 280 miles over snow and ice on snowshoes to attend the session at St. John's. They had no guide and a sledge of three dogs for their luggage and provisions. At one time it was necessary to cross an arm of the sea 11 miles wide in a leaky boat; at another they were obliged to cross rivers in the interior by means of trees, but throughout the journey this plucky woman was equal to any emergency.—Brooklyn Eagle.

A Woman 107 Years Old.

Mary Thompson, an inmate of the Camberwell workhouse, celebrated the one hundred and seventh anniversary of her birthday recently, and in view of the event Mr. Frank Wint, the master of the workhouse, has furnished portraits of the old lady to the queen and the Prince of Wales. Polly, as Miss Thompson is familiarly called by her fellow inmates, enjoys fairly good health in spite of her years, and her intellect is singularly clear. Her memory carries her back to incidents which occurred 60 or 70 years ago, when she was in service. Polly is rather proud of the fact that she managed to resist all offers of marriage, for she says, "The men worked the women so hard in them days." For nearly 30 years Miss Thompson has lived within the walls of the Camberwell workhouse, and the good health she still enjoys is probably due to the care and attention she receives at the hands of the officials.—Lloyd's Newspaper.

Kansas Women In Politics.

The organization of the women of this state under the name of the Woman's Progressive Political league, headed by Mrs. John G. Otis and Mrs. L. L. Hopkins, is limited to those who are in sympathy with the teachings of the Populist party, and women who are identified with the Republican and Democratic parties are not eligible to membership. The secretary of the league has issued an announcement to this effect as follows:

"In view of a misunderstanding, largely conveyed through the press as to the object of our organization, we, the ladies of the Woman's Progressive Political league, wish to state that we are a People's Party organization first, last and all the time, and we advocate all reforms tending to the relief of the people, including woman suffrage and control of the liquor traffic."—Kansas Cor. St. Louis Globe-Democrat.

News From Abroad About American Girls.

A new and terrible fashion, which may perhaps completely revolutionize the style of feminine dress has received the stamp of approval of the American girl. This gentle creature has resolved to decorate her skin with much the same designs and figures that the materials of her dresses are often decorated with. In other words, plain white skins will soon be fashionable no longer. They will be ornamented like brocaded silks or printed calicoes. Tattooed arms and legs are becoming the latest fad, and all sorts of curious figures and designs indelibly printed in the soft flesh of the transatlantic beauties will be one of the interesting features of the American ballroom. Probably ere long a young lady's tendencies will be easily discernible by the nature of the ornaments engraved in ink upon her skin.—St. James Gazette.

The Black Satin Gown.

Last season the woman who wore an all black satin gown was regarded with astonishment. This season it is being more universally used for gowns and for trimmings, and, in fact, all satins are fashionable, particularly black. At one time it was supposed to be one of the "old lady" materials, but fashion has altered all this, and at present it figures prominently, both for day and evening wear.

Facts About Australian Women.

Two Australian girls have gained honors similar to those won by Miss Ramsay and Philippa Fawcett at Cambridge. Apropos of Australia, schoolmistresses in Victoria state schools can earn a possible $1,500 for their yearly salary. There are many women journalists in Australia, some dozens of them acting as reporters in Sydney and Melbourne.

A Scientific Fact.

A lady asked an astronomer if the moon was inhabited.

"Madam," he replied, "I know of one moon in which there is always a man and a woman."

"What is that?"

"The honeymoon."—Journal Amusant.

FOR LITTLE FOLKS.

The French Doll.

Tillie's father brought her home a beautiful French doll. She called it Lisette. It had a white satin dress all spangled over, pink shoes and stockings, and a feather fan fastened to her side, with the tiniest bag to hold her lace handkerchief.

She had a pet dog too. His name was Towser, and he used to get very jealous of her attentions to Lisette. One day Master Towser was going by the piazza. He saw the doll lying in the hammock. "I'll fix her!" he said to himself, and he began to tear her to pieces.

"Oh!" screamed Tillie. "You naughty dog! What has my dolly done to you? You ought to be ashamed," and she went away crying bitterly. Poor Towser loved Tillie very much, and when he saw she felt so badly he ran after her and laid the doll down at her feet. Then he barked, as much as to say: "I am very sorry. Here is your dolly, and I wish I could make her whole again."

Tillie forgave him. Her father, when Christmas came again, gave her another, even prettier than the old one, which Towser treated with the greatest respect.—Our Little Ones.

Preparing Lunch For Children's Picnic.

First of all for a children's picnic ought to come sandwiches. Long, thin loaves of bread are the best. Butter each slice before you cut it off. Cut it thin. Spread with chopped ham or chicken or tongue. Some may be spread with potted ham bought already prepared. Canned salmon makes a good filling for sandwiches; so does cold boiled egg properly minced and seasoned. It is enjoyable to have as many kinds as possible. If you were preparing for an afternoon tea or a home luncheon, you would cut off the crusts, but they are very properly left on for a picnic.

A plentiful supply of buns is also a good thing to provide. Boiled eggs, even very specially prepared, will give young cooks little trouble. Boil them 20 minutes, let them cool, remove the shells and cut each egg in half lengthwise. Take out and season well the yolk of each, adding a bit of chopped or potted meat if you wish. Put the yolks back and press the halves together to look like whole eggs, twisting each in a piece of white tissue paper to keep them together till eaten. Fruit, crackers, cookies, jumbles and ginger snaps can be carried neatly and handled easily.

Carry plenty of fruit—apples, pears and bananas. Leave milk at home on account of both souring and sloppiness and rely upon water. It is best, too, for little picknickers to be served with lemonade after they reach home again, heated and in need of cooling refreshment, rather than attempt it at their feast.—New York Press.

A Delightful Children's Game.

When an afternoon full of games has left the nursery in great disorder, Bessie and Gertrude have one very last game to play, called "Helpfulness."

Bessie invented it.

On separate slips of paper are written the names of the principal things in the room—floor, chairs, rugs, bookcase, bureau, closet, sofa, corners, tables, window sills and desk—the slips of paper shuffled about, backs up.

Each person playing draws, one in turn till all are taken, putting in order that part of the room or piece of furniture named, and when the game is done behold the room neat and fresh again.—Youth's Companion.

Wee Jim.

Not larger than a baby is Wee Jim,
With your pale face holding great eyes and dim.
In gazing you admit that all of him,
And straightway his sweet eyes look up at you.

Two tiny feet fit for a toddling child,
Hands white and frail—only a baby's size—
A twisted body bent in shape, but [illegible]
Shining from saddest visions.

Not much to see, but [illegible] they say
Wee Jim is sunshine for them all.
From morn to night and night to [illegible]
They love him, for he is their all.

But one day Jim will need no crutch,
For in the city golden there waits the key—
Lord, is it asking thee too much?
Take the lad home and shut him in with thee.
—Christian at Work.

Extreme High and Low Temperatures.

Recent scientific discoveries have made possible the use of higher temperatures than had before been reached, and the application of the electric current has given a degree of heat hitherto considered unattainable. In the opposite direction a French scientist, M. Pictet, has been experimenting and has succeeded in producing the extraordinary low temperature of 273 degrees centigrade (461 degrees F.) below the freezing point, a degree of cold almost incalculable to our senses. These researches in the direction of both high and low temperatures are not simply matters of scientific curiosity, but are of substantial use, since they open new fields of chemical research and permit changes and combinations which have been considered possible, but impracticable with the means at command.—Engineering and Mining Journal.

Methods of Some Authors.

In The Writer Dr. Erichsen of Detroit has an article on how authors write. Darwin, we are told, wrote on scraps of paper as he traveled around in his sulky. Chateaubriand required all the luxuries of the craft in the way of desk, pens, paper and ink when he wrote. Dr. George Ebers writes on a lapboard. Ordinarily he writes with great ease, but "sometimes the composition of a stirring chapter so mercilessly excites him that great beads of sweat appear upon his forehead and he is compelled to lay down his pen unable to write another line."

Some authors write at night, others in the morning, and all of those here mentioned, except the ladies, enjoy the stimulus afforded by tobacco. Anna Katharine Green finds her stimulant in her scrapbooks, while Kate Field stimulates herself with hot water.

A Child's Reasoning.

Among the many anecdotes relating to the late Rev. Thomas Hill, D. D., is one told by himself. Dr. Hill and his wife awoke quite early one morning and regarded with interest a crib which contained a precocious child of less than 4 years. Presently the child turned her face up to the ceiling and soliloquized: "Oh, how much easier it is for a person to think than to act. Now, with acting it is right the other way."—Exchange.

IN THE METROPOLIS.

CITIZENS OF NEW YORK MAKING PLANS FOR THE FUTURE.

Improvements on a Gigantic Scale Projected—Hundreds of Millions of Dollars to Be Spent In Beautifying the Chief City of the Continent.

Much has been said from time to time of the absence of public spirit, of local pride and of neighborhood feeling in New York. Even the men who have made great fortunes here do not seem to have any regard for the city that has given them their opportunities for achieving wealth. "Men do not understand the causes of their success," said a speaker of the board of trade recently in commenting upon the difficulty in arousing public interest here in the movement for the improvement of the Erie canal, on which so much of the prosperity of the city depends. The lack of public spirit was signally illustrated in the half hearted way in which the business men entered into the movement to secure the World's fair for New York. Chicago was a blaze of enthusiasm on the subject, but New York entered into the competition in a listless, don't care sort of way, which naturally resulted in Chicago carrying off the prize.

The fact is that New York is a city of markets, of ships, of shops, of hotels and of tenement houses, but not of homes. The rich men may have mansions here, but their homes are in their country houses. The people who live in flats and tenement houses are engaged in a struggle for a bare existence, and have not the time or disposition to give much thought or care for the city. The diversity of races and languages represented in the population serves only to separate the people more and make them regard the city with utter indifference.

But there is reason for believing that this state of things is gradually growing better. There are evidences of increased public spirit, of a greater pride in the city and of a larger interest in her development and improvement. Great schemes of public improvement have been projected or begun. Millions have recently been expended in the acquisition of new parks, and twice lately when it was proposed to do something that would injure Central park there was an exhibition of aroused public opinion that prevented the outrage and would have done credit to a much smaller but more enthusiastic city.

Rich men are now contributing a liberal portion of their wealth to enterprises that will increase the glory of the metropolis. Columbia college is being rapidly developed into a great university. A magnificent cathedral has been started. A spacious botanical garden is to be established. A fine aquarium is to take the place of Castle Garden on the Battery. A splendid speedway for horses is to be built. The city is to erect an immense municipal building, which it is proposed shall be a notable architectural addition to the metropolis. The present city hall is to be given to the trustees of the Tilden trust and made the home of a $2,000,000 library.

The art and natural history museums are being rapidly developed and will soon take rank among the best in the world. Monuments and statues are being multiplied, and eight years after his death the $500,000 tomb of General Grant is approaching completion.

But in other and perhaps more interesting ways is the revival of public spirit in New York being manifested. Business men are showing an increased interest in the good government of the city and in its improvement in little things as well as great. Other cities might indeed copy with advantage some of the methods of the organizations that have been formed here for the public weal.

The City Improvement society has been formed and has started out to investigate the various complaints of citizens and to secure, if possible, better pavements, better street cleaning and similar improvements in parks, bridges and streets of the city. Lately a municipal art society has been organized by leading artists, architects and others, with a view of making the city more beautiful. They seek to improve the architecture of the public buildings, to secure artistic decoration within them and to prevent the erection of inferior statues and other inartistic structures. Another society is engaged in marking with bronze tablets the places of historical interest. Others of a more philanthropical nature are endeavoring to better the lives and condition of the tenement house population.

The women have organized a health protective association, and are endeavoring to institute reforms that shall decrease the death rate and make New York a better city to live in. The latest reform which they have taken up is that of securing a health regulation requiring the removal of the refuse of the 60,000 homes in the city of New York. The physicians comprising the Academy of Medicine have lately been acting with vigor and courage to secure improved quarantine protection and a purified water supply. The chamber of commerce and the board of trade—the mouthpieces of the merchants and bankers—have lately exhibited increased activity and exercised a wider influence. All these things certainly indicate that New Yorkers are beginning to wake up and to show a livelier interest in the welfare of the city.

Perhaps the fact that other cities are getting closer to her in the competition for business has something to do with this. It is beginning to dawn upon her citizens that unless she can unite with Brooklyn, bridge and tunnel the North river, throw more bridges over the East river, get rapid transit from city hall to Westchester county and institute other measures of public improvement, she is liable to lose her commercial supremacy.—New York Cor. Baltimore Sun.

Many of the South Sea islanders believe that paradise can be inherited only by persons of perfect physical forms. Where this belief prevails a man will die rather than submit to amputation.

The Author of "Gulliver."

Between 1714 and 1726, for a dozen years, Swift remained in Ireland, without intermission, altogether apart from public life. At the latter date he went to London, probably needing a change of scene after the shock of Miss Vanhomrigh's death and the grievous sense he must have had that it was he who had killed her, and it was then that "Gulliver" was published. The latter portions of it, which the children have rejected, we are glad to have no space to dwell upon. The bitterness, passion and misery of them are beyond parallel. One would like to have any ground for believing that the Houyhnhnms and the rest came into being after Stella's death, but this was not the case. She was only a woman and was not, after all, of such vital importance in the man's existence.

Withdrawal from the life he loved, confinement in a narrow sphere, the disappointment of a soul which felt itself born for greatness and had tasted the high excitements of power, but now had nothing to do but fight over the choir with his archbishop and give occasion for a hundred anecdotes in the Dublin coteries, had matured the angry passion in him and soured the sweetness of nature. Few people now, when they take up their "Gulliver," go beyond Brobdingnag. The rest is like a succession of bad dreams, the confused miseries of a fever. To think that in a deanery, that calm seat of ecclesiastical luxury, within sound of the cathedral bells and the choristers' chants, a brain so dark and distracted and dreams so terrible should have found shelter!—Mrs. Oliphant in Century.

The Baby Liked It.

The hopelessness of combating individual stupidity with the most enlightened sanitary measures which the authorities can provide was evidenced the other day on a Grand street ferryboat. A woman came into the cabin carrying a baby of perhaps 6 months and leading a little toddler of about 3½ years. Both children, as well as the mother, were comfortably clad, but the children's faces were pasty and unhealthy looking, as if unwholesome food and ill ventilated sleeping quarters were their portion. The former undoubtedly was, for each child was munching a large slice of not too ripe nor too clean watermelon, bought from one of the peddling fruit stands which abound in that locality. The baby in arms kept at his piece with his toothless gums until he had secured several bits, which he swallowed with gusto.

Alarmed for the effect upon his tender or at least youthful stomach, a passenger, another woman, approached the mother.

"Aren't you afraid to let your baby eat that?" she asked, pointing to the fruit.

The woman looked up mystified. "Oh, he likes it," she said.

"But it may make him sick, he is such a young baby," persisted the other.

"Oh, no," answered the mother good naturedly. "He's used to it and peaches," she added, with an air of pride at his digestive prowess.

And the other woman could only return to her seat vanquished, while the watermelon pursued its colicky way.—New York Times.

Education That Is Not Practical.

The folly of mechanical juggling with figures is shown by the following recent experience of a school official. In a school of 37 pupils of mixed grades the following question was asked: "It is now 10 minutes after 10. What time was it five minutes ago?" Nineteen out of the 37 pupils failed to give a correct answer. A similar line of humiliating failures occurred when questions equally simple were asked.

The trouble was not that the children could not subtract, but that they could make no practical use of what they had learned. They could use figures with more or less facility when told exactly how to arrange them. When certain "sums" were set, a fair showing was made. But the fact that the end of doing such mechanical work should be to master the application of a principle to the practical everyday affairs of life was far beyond their comprehensions.—Boston Traveller.

Some Suggestions From the Insane.

L'Anti-Alieniste is the title of a remarkable and amusing little sheet written and produced by the patients—they would, no doubt, strongly object to being called lunatics—of the great [illegible] asylum. Its editor in chief is one Charles Etlinger. Its circulation is limited, 40 copies being as large an edition as can be produced by the gelatine process. Politics and religion find no place in it, but it excels in satire, directed mainly against the doctors.

Its prose is not one whit more incoherent than that of the boulevards. Serious discussions are not tabooed. Apropos of a communication by Dr. Charles Fere to the Society of Biology relative to the transmission of madness from men to animals, Etlinger in a recent number inveighs against the promiscuousness in asylums which allows of the exchange of all sorts of madness between man and man. He demands to know what amount of reason it is necessary to possess to resist a long stay in an asylum like Bicetre, where the iron cages converge toward a common center and where the raving madmen disturb their more peaceful neighbors.—London News.

Why Delaware's Boundary Is Circular.

The northern boundary line of Delaware is circular because the charter given to Penn states that Pennsylvania was to be "bounded on the east by the Delaware river from 12 miles distant north of New Castle town until the three and fortieth degree of north latitude," and that the southern boundary was to be "a circle drawn at 12 miles distant from the town of New Castle northward and westward until the fortieth degree of north latitude and then by a straight line westward." This makes a circular boundary for northern Delaware unavoidable, and the facts above set forth explain a geographical curiosity that has puzzled many students.—St. Louis Republic.

A Word For Farmers.

The great drawback on many farms to the highest success with cows is the want of good pasture. Many pastures are stocked with early grasses which give a fair amount of feed early in the season, but after the last of July begin to fail, and through the remainder of the season afford but scanty feed. There is but one way for the farmer to bridge this chasm of poor pasturage, by adopting a partial soiling system—that is, to get near the full benefit of his dairy.—Lewiston Journal.

Mutual Recrimination.

Cora—I hear you keep bad company.

Jack (fiercely)—Tell me who said it, and I'll shoot 'em! I'd rather be slandered myself than to have me talk about your being bad, darling!—Exchange.

PEARLINE.

Harmless
to every thing washable—*Pearline*. All the harm comes from neglecting it. You can get things clean by scrubbing, but you wear them out. You can wash by main strength, but it's hard work. *Pearline* saves work and wear. It saves time and money is all you have to do; all you have to do is to get *Pearline*.

Beware Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back. [illegible] PYLE, N. Y.

THE CHECK AND THE DOLLAR

In discussing the currency question the democratic papers seem to leave entirely out of account credit. "Credit cannot be left out of the business transactions or the currency of the world, because ninety-three per cent of all the business is done with paper. Back of every national bill and bond and every short weighted coin is the government with its pledge to accept it, and its promise to pay its full face value.

Some democratic papers are making an "object lesson" of the check sytem which sprung up as a relief to business while currency was at a premium, and claim "It is a great convenience for corporations and manufacturers who have large pay rolls to meet to pay off their employes in these certified checks. It is a great inconvenience to the employes who have to pay out of their scanty earnings to change such checks into money or goods." The check may be a great convenience for the corporation, and must be conceded to be better than a shut-down for the employe. Many of the mills that are using checks would have shut down but for the check system because they could not procure money to pay their help with. It is an object lesson, for if long continued and freely used the checks would become like the old state bank bills, always subjected to suspicion when away from home and subject to increasing discount at every banking house counter after they got beyond the state line in any direction.

Even The New York World is guilty of saying: "When a dishonest silver dollar is worth only 70 or 75 cents the workingman may be certain that he will not get a full dollar's worth of anything he may need in exchange for it;" although a 60-cent dollar, with the government's credit back of it, buys the same amount of goods and is exchangeable for a gold dollar anywhere in the United States.

In many places in Connecticut the workingmen have of late been paid off in gold coin, but they do not hail the change with delight. They prefer paper, such as the republican system of national banks circulates, and the bills of which are worth their face value anywhere, even though the banks they represent have gone out of existence.

THE FASCINATION OF MONEY.

Life is dear, but to many human hearts five thousand dollars is of importance enough to risk life for it. Two physicians living at Ecuador offered five thousand dollars to any person who would submit to the Alexis St. Martin experiment, which means the opening of the body and stomach and keeping them open for a stated period so that the processes of digestion may be scientifically studied. The offer was made public through a New York agent, and there were one hundred and forty-two answers received, and one hundred understood the requirements of the operation and were willing to submit to it for the money.

Some of the applicants were out of work and money, and in such straits that they were willing to die for their family. The subject selected was a professional pugilist of New York city, who wants the $5,000 to start a gymnasium and a lager beer saloon. This man is on the way to South America to be used for experimental purposes, something of a hero among his class, because he faces pain and risks death in such a business-like way.

The surprising thing about the business is that over a hundred persons in a large city would volunteer to go under the surgeon's knife at the risk of health and life for $5,000. It shows how hard life is among the laboring classes, and how desperate a chance a little money will tempt them to take.

THE ORLOFF HORSE.

There has arrived in this country from the imperial stables of Russia seventeen of the celebrated Orloff horses, to be shown at Chicago. These horses are a cross between the Arabian horse and the Russian mares, and it is said they show marked Arab lines in the carriage of the head, the set of the neck and the clean, flat leg, which all denote desert ancestry. Whether light or heavy, these animals are good trotters and gentle in harness.

The horsemen of the country are indebted to the late Hon. Leland Stanford, more than to any other man, for the opportunity to see this splendid breed of horses. During a visit to Europe he was more impressed by the Orloff than by any other type of harness horse in Europe, and the great structural difference between this favorite Russian breed and the American trotting horse, in his opinion rendered the Orloff strain as the more valuable for an out-cross with native American mares.

The animals reached this country looking well, and will call all the visiting horsemen in Chicago to the Russian department to see them. The Orloff, whether heavy or light, is declared to be a born trotter, and to possess in a greater degree than any other family of trotters a happy combination of action and speed.

THE BERING SEA DECISION.

The Bering sea conference has decided all points against the United States with reference to national rights and the catching of fur seals in the Bering sea. England, however, joins the United States in her demand that the seal fisheries shall be protected, and from May 1 to July 31 has been made the closed season.

Commenting upon the decision The Springfield Republican says: "This decision opens up the question of damages to the sealers which have been seized by United States ships before the arbitration proceedings began, which the United States must now pay; and the claims of Canadian sealers for indemnity for the loss they have sustained by abstaining from sealing during the arbitration. The treaty makes it the duty of the arbitrators to fix these latter damages in case of a decision against the United States, and declares that these damages so fixed shall be promptly paid. The chances are that these damages in the aggregate will amount to a considerable sum."

EDITORIAL COMMENT.

The democrats of the senate should "pull down their Vest!"

Millions of gold is coming into the country and confidence is taking a new start!

The congressional democratic motto is, "Anything to beat Cleveland—nothing to save the country."

The senate and the house are prompt to vote themselves mileage, but the business of the country must wait.

McLean county, Illinois, has paid two rain-makers $700 for producing a shower. Their trust is not in the right direction.

The Boston Globe wants to know "If you hear the silver jingle in his Vest!" The silver jingle is mostly in the West!

The stoppage of the mills in New England has sent six thousand Canadian mill operatives home. They will return when the currency begins to flow through the country again.

A Jersey City woman drew four hundred dollars from the bank and hid it in an old mattress. The money was burned with the mattress, and now she regrets she had not trusted the bank.

The chaplains of both houses of congress are Methodists! The congressmen showed good sense in selecting their prayer-makers, if they have shown poor judgment in everything else!

The Westerly Evening Sun, published by Mr. George H. Utter, promises to shed light in future in Westerly. Like its great precursor may its beams always put life and beauty into everything they touch, and may it attract every live thing toward it, and bless but never burn its votaries. We shall not object, however, if it occasionally gives them a tanning.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

The Times Were Good Enough.

"Better times are coming."
They sing in tones of cheer.
But if they hadn't made a change
Good times would still be here.
—[New York Press.

Her Fin Needs Sharpening.

The Navahoe had better come home and get her fin sharpened.—[Springfield Republican.

The Bourbon Hippodrome.

If the great Barnum were alive he would not at this time have "the greatest show on earth." It is in Washington, D. C.—[Chicago Inter Ocean.

Failure Without Assets.

The banks which are failing this year are failing on ample assets. That is where the banks and democratic statesmanship are differing.—[Kansas City Journal.

Advertise.

The lesson of the times is that we need more money in our business.—[Syracuse Herald.

Same here; now is the time to advertise. —[New Haven Union.

An Object Lesson.

Democratic rule has not only emptied the workingman's dinner pail in New York state, but doubled his state tax rate. The object lesson is a costly one, but it will be thoroughly learned.—[New York Press.

They Do Not Know.

The Herald severely rebukes women operatives in mills who have been thrown out of work because they do not seek employment in domestic service, and the men because they do not become farm hands. It seems never to have occurred to the remarkable political economist of The Herald that mill work does not furnish a good training for the other employments.—[Boston Journal.

Like the Scotch Verdict.

There is a strong suggestion about this Bering sea award of the Scotch verdict, "Not guilty, but don't do it again." The arbitrators deny America's right to protect the seals, and then, under a cover of international regulations, they submit protective measures which would drive the Canadian poachers out of the business more effectively than a fleet of 20 war-ships could.—[Boston Journal.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

LEBANON.

A Family Reunion—Distinguished Visitors.

The Taylor family held their annual reunion on Wednesday last at the old homestead of John Taylor, which is now owned and occupied by a grandson of the former. Three generations were well represented and a royal good time was enjoyed. Tables were built on the lawn under the spreading branches of three beautiful oaks. At the dinner hour the tables were loaded with good things, which were served in true picnic fashion. After the repast a race was talked of, but on account of the extreme heat was deferred until another year.

The parish of the First church are glad to welcome their pastor, the Rev. Dr. Palmer, back from his vacation.

Alfred Tucker and wife, from Springfield, are visiting his father, Mr. Ezekiel Tucker.

Miss Sarah Peckham of Long Island, Mrs. Julia Maybee of Brooklyn, N. Y., Miss Addie Peckham, M. D., of Philadelphia, and Mr. and Mrs. Edward Gibbs of Philadelphia, are visiting their parents, Mr. and Mrs. Robert Peckham.

Mrs. Mary Pettis and daughter Carrie are visiting at Mr. E. R. Randall's.

Mr. Charles Perkins and family have been visiting friends in New London.

LISBON.

Matters of Local Interest.

Mr. and Mrs. Rowland R. Barber are making quite a western visit. They will go as far as Central Iowa, taking in Montreal and Niagara Falls as they go, and the exposition and the city of Washington on their return. They will be gone several weeks.

Capt. J. K. Adams continues to grow weaker. To human appearances he cannot live long.

The drouth here is very severe. The showers of the last few days have not touched this town. Cows are giving but little milk, and corn on dry land is being badly damaged.

* * *

United States has for each 100 miles of railway 20 locomotives, 17 passenger cars and 714 freight cars.

The national bank of Italy, like the bank of England, manages the finances of the government. It is a practical monopoly, and has branches in every large city.

In Zanzibar alone some 500,000 pounds of ivory are marketed every season from the tusks of 10,000 elephants.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

It Is Never Too Late

To cleanse the teeth, and render the breath odoriferous with fragrant SOZODONT, but it is best to use this wonderful Vegetable Elixir before the teeth begin to fail, and the breath to lose its freshness.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

Though pure and simple, and so mild
It might be used by any child
Yet SOZODONT is so swift and sure
That mouth and teeth, with wondrous speed,
From tartar and from taint are freed
Till they become sweet, white and pure.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

ESTABLISHED IN 1861.
Adam's Tavern,
NORWICH TOWN,
A. A. ADAM, Proprietor.

The following is a list of the best brands of ACKER, MERRALL & CONDIT'S and PARK & TILFORD'S WHISKEYS that I introduced 19 years ago. They have become immensely popular. They sell on their own merits:

Imperial Bourbon, Bob Ward, 1886, Maryland Rye, Monogram Rye, Blue Grass, Hermitage, 1881, Union Club Rye, Mayfield Bourbon, Hermitage Sour Mash, Keystone Rye, Cabinet Bourbon, Union Club Wheat.

N. B.—The above goods do not have to be rechristened every six or nine months with a new name in order to make them sell, as is a customary feature with compounding liquor dealers.
A. A. ADAM.
Telephone call 38-12.

IF YOU WANT TO SELL YOUR GOODS advertise them in THE BULLETIN.

A MOB IN CONTROL.

Bombay Pillaged and Citizens Massacred.

EUROPEANS ARE PANIC STRICKEN.

Every Mosque in the City is Destroyed—Troops Are Powerless.

LONDON, Aug. 16.—Government dispatches say that Bombay is in possession of the mob. Troops are powerless. Every mosque has been destroyed, and many persons have been massacred. Europeans are panic stricken. Troops are now protecting only the public buildings. The governor has appealed for help, asking for instructions.

The trouble in Bombay began Aug. 12, when a number of encounters took place between Hindoos and Mohammedans in the streets. The day was one of religious observance of both bodies of these

Religious and Race Enemies,

and both were allowed to celebrate simultaneously. The Mohammedans made the first attack and were routed by the Hindoos.

Troops were hastily called for from outlying posts, and are massed in the chief native centers. Guns were trained upon the principal native streets, the inhabitants being ordered to stay within their dwellings.

At first they obeyed, but soon the fighting began again. More troops were called in, but they found it impossible to cope with the native factions.

A dispatch was sent to the governor general of India from Queen Victoria a few days ago, expressing severe displeasure at the negligence of the local authorities in not using adequate means to

Put Down the Disturbance.

It was pointed out that the two religious processions should not have been allowed to pass along the streets on the same day.

Early in the riots, the business houses were forced to close up through fear of being looted by the rioters. Shops on the Kalbadevie road, the principal commercial street of the city, were guarded by their owners, who armed themselves in defense of their property.

Yesterday's report said that the government hoped to prevent any serious loss of life or property, but this has proved not to be case.

RIOT AT ABINGTON.

Serious Trouble Between Railroad Men and Town Police.

NORTH ABINGTON, Mass., Aug. 16.—The trouble between the New York, New Haven and Hartford railroad and the Abington Street Railway company assumed a serious phase at 1 p. m. today. Superintendent Sanborn ordered his men to tear up street railway tracks and chief of police ordered them to stop, but no attention was paid to the order.

The chief then attempted to make an arrest, whereupon he and the police force, numbering about 40, were attacked by the railroad employes, struck with shovels and pickaxes and bombarded with sticks and stones.

Fearing that the New Haven employes would gain supremacy, Chief of the Fire Department Wright gave orders to ring the fire alarm, and the fire department responded.

A hose was attached to a hydrant near by and a stream of water was thrown upon the railroad employes. The New York, New Haven and Hartford men retaliated by throwing paving stones and other missiles, and during the fight Chief Hollis was struck on the head with a shovel and received a severe scalp wound.

Officer Russell was knocked down and received several bruises. Officer Cook received a bad cut under the eye. Chief Engineer Wright received a slight cut on the side of the face.

WIND AND HAIL.

Serious Damage to Buildings and Crops In Nebraska.

OMAHA, Aug. 16.—Reports coming in from various parts of the state indicate that the storm of Monday night and yesterday was very serious. The heavy wind was accompanied by hail, and great damage was done to growing corn and other crops.

At Pawnee City and Table Rock the storm unroofed several buildings, but no one was killed. At Pawnee City the house of W. H. Tarsnell was completely demolished and several members of the family were slightly injured. Nearly three inches of water have fallen here in the last thirty hours. During the storm at Lincoln the house of D. P. Smith was struck by lightning, and Mr. [illegible] mother was killed.

NEWS IN BRIEF.

Keene Bros. of Lynn, Mass., have made an assignment.

The Tubbs hotel, East Oakland, Cal., was destroyed by fire.

All revenue taxes must hereafter be paid in Boston in coin or bills.

The will of the late Hiram Camp of New Haven is to be contested.

The young women injured in the Chelsea (Mass.) accident are improving.

The new drunk law has caused overcrowding of the Lowell (Mass.) jail.

Vows were taken by 15 sisters at the Springfield (Mass.) Catholic church.

The certificate holders of the Order of Unity are to get 25 cents on a dollar.

The price of gas in Cambridge, Mass., has been reduced to $1.25 per 1000 feet.

Major Clinton B. Sears and his wife were injured in a runaway accident at Newport, R. I.

The Amory mills, employing 1400 hands, at Manchester, N. H., will shut down next Monday for two weeks.

Over 20 granges of Cheshire county, N. H., united in holding a field day at Wheelock park in Keene, N. H.

The Vermont militia went into camp at Rutland with unusually full ranks. The officers expect an unusually good muster.

The Vigilant beat the New York Yacht club's fleet into New Bedford, Mass., by 23 minutes. The Ariel was second and the Vigilant third.

Budd Gunshannon, a Bennington (Vt.) young man, fell from the brake beam of a car at North Bennington, Vt., and had his right leg cut off by being run over.

The name of the new assistant district attorney for Massachusetts is W. C. Thompson of Cambridge, Mass., and not, as at first reported, W. S. Thomas.

CATTLE AND SHEEP MEN

Engage In a War on the Mesa—Three Cattlemen Are Killed.

RIFLE, Colo., Aug. 16.—It is reported that war has broken out between the cattlemen and sheep men on the Mesa, north of Parachute, that three cattle men have been killed, and the sheep men are penned up in a canon and fighting stubbornly. The trouble arose over the attempt of cattlemen to drive the sheep men out of the country.

Sunday evening Mr. Hillier, a well known sheep man, arrived from Parachute and reported that early in the morning a party of about 20 armed and masked men appeared on the mesa among the sheep men, put a rope around one man's neck, and drove the balance of the herders and sheep out of the country, and warned the men not to drive the sheep back into the country, under penalty of death. On Monday a formidable band of sheep men started to drive the sheep back again. The fight is supposed to be the result.

A number of cattle men came into Debeque last night for arms and ammunition, and reported the fight. Particulars are meagre, as the scene of the fight is remote.

IS COCKRAN SULKING?

Rumors Suggesting That He Will Join Senator Hill For Bimetallism.

WASHINGTON, Aug. 16.—The marked absence of Bourke Cockran from the anti-silver men's meeting at the Arlington last night and the appointment of General Tracy as chairman of the executive committee in his stead occasioned rumors to be started that the distinguished Tammany orator, like Achilles, had taken umbrage and retired to his tent, and would no longer seek to lead the forces who favor unconditional repeal. The additional surmise was ventured upon that Mr. Cockran would be found eventually siding with Senator Hill in favor of a bimetallic standard. But as Mr. Cockran himself was not present, and no one was authorized to speak for him and explain his absence, these suggestions were received with the qualification that it would be better to await further developments before accepting them as facts.

The bill introduced yesterday by Mr. Gordon of Georgia for a six months' suspension of the 10 per cent tax on state bank circulation cannot be reported back today, even if the finance committee should be inclined to report it at all inasmuch as there will be no meeting of that committee until tomorrow. The bill to allow national banks to increase their circulation to the amount of the bonds deposited by them in the treasury will be taken up, and Mr. Voorhees, chairman of the finance committee will make a strenuous effort to have it passed. It will meet, however, strong opposition on the part of Mr. Cockrell and other senators who have no love for the national banks and are in favor of removing the restriction now placed by law on state banks. The Lodge resolution came up again today after the morning business and Mr. Gallinger addressed the senate on an amendment which he had offered to it, and which declares against any radical change in the tariff before 1894.

UNION VETERANS' UNION.

Eight Annual Encampment Opened In Faneuil Hall.

BOSTON, Aug. 16.—The eighth annual encampment of the Union Veterans' union opened in Faneuil hall this morning. It was nearly 10 o'clock when line was formed and the column started, passing through Hanover, Court, Tremont, School, Washington, State streets and Merchants' row to the hall.

The decorations of Faneuil hall were very plain, consisting simply of the silk flags of the different commands suspended from the balconies, and guidons marking the divisions of the order distributed about the floor of the hall.

At 10 o'clock Commander-in-Chief Yoder called the convention to order and the department chaplain, Colonel E. H. Warimer of Connecticut opened the proceedings with prayer, the members of the convention standing at parade rest the meanwhile.

In the absence of the governor Lieutenant Governor Wolcott was to welcome the veterans, and upon his arrival, shortly after 10 o'clock, he was given a very handsome reception, the band playing "Hail to the Chief." The commander-in-chief introduced the lieutenant governor, who spoke briefly and eloquently. Commander-in-Chief Yoder followed with his annual address, which was a carefully prepared paper full of congratulations for the growth and success of the order.

During General Yoder's address Alderman Lee entered the hall and, when the general had finished, was introduced to the convention, and in a few brief words extended the welcome of the city of Boston. Adjutant General Street followed with his report.

UNDER MARTIAL LAW.

Argentina In a Bad Way and Hard Fighting Is Reported.

NEW YORK, Aug. 16.—The Herald's cable dispatch from Valparaiso, via Galveston, says: Buenos Ayres is under martial law. Advices have been received from that city that government forces have been stationed at all advantageous points, and that the president is being bitterly denounced by his opponents. The situation is extremely bad.

In La Plata, the capital of the province of Buenos Ayres, war has practically broken out again, and this time it is between the revolutionary forces who drove out Governor Costa and the federal army. Notwithstanding the fact that 2800 revolutionary soldiers were disarmed in that city Monday without making the slightest resistance, there was hard fighting Monday night.

A large body of radical revolutionists refused to obey the order to surrender their arms when ordered to do so by General Bosch, commander-in-chief of the federal forces. When an effort was made to disarm them by force, a fierce resistance was made, which developed into a bloody battle.

There is great excitement in Corrientes. The rebel troops have been attacked by government forces. All the women and children and non-combatants have fled to the hills, and the city is practically deserted by all except the soldiers.

Greenfield's Water Supply Low.

GREENFIELD, Mass., Aug. 16.—The recent showers and rains have afforded very little relief to the water supply, which is low, even with the big and supposedly inexhaustible reservoir at Leyden. The water commissioners have talked the situation over, but have taken no definite action. They are not alarmed, but still recommend careful use if heavy rains do [illegible].

Old Fireman Dead.

BOSTON, Aug. 16.—Ex-Captain John M. Powers, for over 20 years a member of the Boston fire department, died at his home 8 Greenville street, Roxbury, this morning. He was born in Georgetown, Me., Dec 28, 1822, and joined the Boston fire department Oct. 15, 1871, becoming attached to ladder 4, the company with which he remained until his death.

Will Make Good the Shortage.

PORTSMOUTH, N. H., Aug. 16.—George W. Jenkins, agent of the American Express company, who left very suddenly several months ago, leaving a shortage of several hundred dollars, returned to this city this morning, and a settlement is being made with the company.

Cyclone in Pawnee County.

PAWNEE CITY, Neb., Aug. 16.—A destructive cyclone passed diagonally across Pawnee county yesterday. It demolished the residence of John Turnbull and those of several of his neighbors. Many were injured, but no fatalities have been reported yet.

Stricken With Apoplexy.

BOSTON, Aug. 16.—Alderman E. B. Bancroft of Cambridge has just been stricken with apoplexy.

MATTHEWS IS OUT.

Boston's Mayor Will Not Run for Governor.

NOR WILL HE LONGER BE MAYOR.

Official Utterances Made Through His Private Secretary.

BOSTON, Aug. 16.—Mayor Matthews will not be a candidate for either the office of governor of Massachusetts or the mayor of Boston. He himself has said so. This morning his secretary, Nathaniel Taylor, gave an interview to a reporter in which he stated the mayor's position, after having ridden to the Boston and Lowell depot with the chief executive.

Accompanied by his wife the mayor left the City hospital this morning at 7 o'clock and drove to his rooms at Exeter chambers. He staid there about two hours with his secretary and then entering his carriage with his wife he was driven to the Boston and Lowell, where he took the Mountain train for Jefferson, N. H. He will remain at the mountains for at least six weeks.

The interview in full is as follows: "Mayor Matthews," said Secretary Nat Taylor, "left the City hospital this morning for Jefferson, N. H., where he will spend the hay fever season as usual.

"Has he thoroughly recovered from his illness?" was asked.

"No, not by any means," said Mr. Taylor, "he is able to get about very well, but will hardly have the free use of his limbs for a month or six weeks. As in 1891 and 1892, he will, while at the mountains, attend to all necessary city business, and remain in daily communication with the different departments, and the chairman of the board of aldermen, Mr. Lee.

The mayor was well pleased with his experience at the city hospital, and felt he had gained two weeks in time by going there. He has been looking closely after the city business while at the hospital,

Especially the Finances.

You know that the city finances has always been in the mayor's special care, and he has, in the present financial emergency, been very active in preventing the stoppage of work for lack of funds. So many other cities in the state have had to stop work and discharge laborers that contractors and laborers for the city of Boston have naturally felt uneasy, and the mayor has heard from them frequently during the past few weeks. They may now, however, rest assured that means have been adopted to secure all the money needed to prosecute the work already undertaken on the parks, public buildings and streets, as well as on all the regular city work. Of course the work under the loan order of July 10, 1893, must be postponed until the bond market eases so that the loan can be placed.

"Can you tell us anything about whether he intends to run for the governorship or not?"

"That is a pretty leading question," said the secretary, but I will answer it positively. Mayor Matthews, as everyone knows, has worked hard for three years, and this year he has suffered from overwork. His family

Physicians Have Warned Him

repeatedly against further activity for the present in politics, but he he has disregarded this advice, and he might perhaps have got this summer into condition for a campaign—that is, if his party had seen fit to select him as the candidate—had it not been for his accident, which will confine him to the house more or less for a month longer.

He does not take any stock in the Republican calamity howl, which is going from the Republican newspapers. He believes that the political outlook for the Democratic party in this state is good; as all our ills can be directly traced to the Republican policy on silver and the tariff, but his physical condition and other recent events of a private nature will make it impossible for him to think of being a candidate for the Democratic nomination for governor.

"How about the mayoralty, will he be a candidate for that?"

"Not by any means. As he said at the beginning of the year, he desires to retire to retire to private life on Jan. 1, and he will not be a candidate for a renomination."

NICARAGUA CANAL.

Senator Frye Introduces the Sherman Bill of Last Session.

WASHINGTON, Aug. 16.—The Nicaragua canal bill is up again. Mr. Frye has reintroduced in the senate the measure which Senator Sherman brought forward in the last congress and reported favorably from the committee on foreign relations and which was discussed several days in the senate without action.

The capital stock of the company is fixed at 1,000,000 shares of $100 each. The main purpose of the bill, of course, is to have the government practically assume the construction of the canal and control of the [illegible].

Will Remain Closed to Sept. 4.

WALTHAM, Mass., Aug. 16.—The Boston Manufacturing company will not reopen its mills Monday morning, as was expected, but will remain closed until Sept. 4. The officials closed the mills for two weeks at first, but they have now extended the time to a month. There are about 2700 hands employed by the concern.

Veteran Firemen at Worcester.

WORCESTER, Mass., Aug. 16.—Entries for the annual tournament of the New England Veteran Fireman's association, which is to be held in this city tomorrow, closed last night. The number of entries so far received is 31, including the local organizations, but more are expected.

State of Siege Proclaimed.

BUENOS AYRES, Aug. 16.—The federal congress has resolved to proclaim the state of siege throughout Argentina, and to promote federal intervention throughout the disturbed provinces of Santa Fe and San Luis.

Cholera in Berlin.

BERLIN, Aug. 16.—Three Polish laborers died of cholera in the eastern quarter of this city yesterday. The Reichsanzeiger says that the disease was introduced probably from Russian Poland.

Cholera In a Military Camp.

VIENNA, Aug. 16.—A case of cholera has occurred in the military camp at Bruck, 23 miles from this city. The patient has been isolated, and every precaution taken to prevent the spread of the disease.

[illegible]

Upon her brow are lines of care,
And sorrow's traces linger
About a face that once was fair
And boasted beauty's freshness rare
Ere time's malignant finger
Set there its universal mark
Of days more drear than night's deep dark.

Yet through the cloud of grief there shone
A light of triumph's telling;
A wondrous smile her lips upon
Bespoke a vict'ry dearly won,
And tears of joy are welling.
Her dress was torn, her face was scratched;
But, then—that piece of silk was matched.
—Detroit Tribune.

BOSTON PRODUCE MARKET.

BEEF—The beef market is very firm, but trade is dull. Quotations are firm at: Choice fancy steers, 9@9½c; prime, 8½@9c; good, 7½@8c; light, 6½@7c; extra heavy hinds, 12@13½c; good, 10@11c; light, 8@9½c; heavy fores 6½@7c; light, 4@5c; backs, 6½@8c; rattles, 4@5½c; chucks, 5@6c; rounds, 7½@8½c; rumps 9@11c; rumps and loins, 12@15c; short ribs 11@13c; loins, 12@16c.

LAMBS AND MUTTONS—The mutton trade was quiet yesterday, with the position steady. Veals are in shorter supply, and better prices are the result: Choice spring lambs, 11@12½c; common to good, 9@10c; poor and ordinary 7@8c; Brightons, 11½@12c; yearlings, 8@10c; muttons, 6½@8c; choice eastern veals, 9½@10½c; common to good, 7@9c; Brightons and fancy, 10@11c.

CORN—Corn is very firm, especially corn on the track here. Chicago No. 2 yellow to arrive is quoted at 55@55½c, with No. 3 yellow at 53½c. The spot market is firmer, with sales of steamer yellow and No. 3 yellow at 55c and also at 54c. The quotations are firm at: Steamer yellow, 56@57c; No. 3 yellow, 54c [illegible].

POTATOES—Potatoes are decidedly firmer on a shorter supply, and prices are higher by about 25c per bbl; Rhode Islands, $2.50; natives $2 [illegible]; Jerseys, $2 [illegible]. Sweets sell at $3 [illegible] 75 for ordinary to good, and at $3 [illegible] per bbl for the best.

PORK—The pork market is dull. The packers are not killing half their usual quota of hogs, by reason of the currency premium, but they look to see this feature set aside in a few days and to be killing about as many hogs as ever.

OATS—Oats are very steady. New clipped oats, to arrive, are quoted at 37½@38½c. The spot market is firm: Clipped, 41@43c; fancy 42½@43c; No. 2 white, 41c; No. 3 white, 39@40c, clipped, mixed, nominal, 38@39c.

APPLES—Apples are in full supply and the market is easy: Ordinary green, 75c@$1 per bbl; Codlins, $1 75@2 50; orange pippins, $1 75@2; Williams, $2@2 50; sweethongues, $1 [illegible]; astrachans, $1 50@2 50.

HAY—Hay is quiet, with the market steady. Millfeed is firm. Sack spring bran, to arrive is quoted at $16@16 25, and sack winter at [illegible].

MEAL—Cornmeal is strong, on the firm position of corn. Barrel meal is quoted at $2 15@2 20, with bag meal at $1@1 02.

FLOUR—The flour market is firm, but trade is rather quiet. Quotations are not changed.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 16.—In the outside market call money is quoted at 6 to 10 per cent, and time money is nominally 8 per cent.

The passing of the Northern Pacific into receivers' hands cannot be called the dominating factor in today's market, though it is the topic most discussed. Such a result has been discounted for a week or more in the low prices at which both the stock and bonds of the road have been selling. Despite the denials of the officers of the company and the efforts of the syndicate to care for the floating debt, the constant decrease in earnings made it evident that, with a road as heavily capitalized and bonded as the Northern Pacific, the time was a critical one. The earnings of the road for 1890, 1891 and 1892 have been practically stationary. For the last fiscal year they show a sharp falling off, as they do also for this year.

So far as Boston is concerned, the most important feature of the receivership is the effect that it will have upon the Wisconsin Central lines, which are leased to that company. President Abbott of the Wisconsin Central says that the courts will be likely to direct the receivers to pay the rentals of leased lines necessary to preserve the integrity of the system. As it is now, the Northern Pacific must either stop at St. Paul and abandon its Chicago terminals, or it must pay the rental accrued and its access to the Wisconsin Central, as there is no other way for it to reach those terminals. The Northern Pacific further [illegible] a net profit of $191,705 out of the Wisconsin Central lease between April 1, 1890, and Jan. 1, 1893, so that its receivers would be likely to throw over such a profitable arrangement.

The local market opened dull, with a tendency downward. London came slightly higher for everything except Northern Pacific. The reports from Washington were not very encouraging, while the decrease in Union Pacific and Atchison earnings told on both of those stocks. Union Pacific started off ½ down at 17 and weakened to 16¾. Atchison opened ⅜ down at 16⅝, advancing later to 18. Combs and Content & Nathan continue to sell for General Electric down. It opened ⅝ off at [illegible]. Boston and Maine sold 1¼ down to 140. West End railway at 52 and ½. Bell Telephone at 178½ was ½ off, while Sugar preferred at 73¼ was ¾ weaker.

New York Cotton Market.

NEW YORK, Aug. 16.—Cotton easy; uplands, 7⅝c; Orleans, 7⅞c; sales — bales. Futures closed steady; sales 125,600 bales. August, 7.32c; September, 7.38c; October, 7.46c; November, 7.54c; December, 7.62c; January, 7.68c; February, 7.75c; March, 7.79c.

Canada supplies nearly all the plumbago used by American manufacturers of lead pencils.

ANNALS OF THE LAW

1789—The judicial system of the United States established, with John Jay of New York as chief justice.

1791—Trial by jury instituted in France. Established by several subsequent constitutions.

1795—John Rutledge of South Carolina appointed chief justice of the United States supreme court.

1796—Oliver Ellsworth of Connecticut appointed chief justice of the United States supreme court.

1800—Trials for treason, when the overt act was a direct attempt on the life of the sovereign, were thenceforth to be conducted as in indictments for murder.

1801—John Marshall of Virginia appointed chief justice of the United States supreme court.

1802—The first general sanitary laws on record put in operation in France.

1803—The publication of the Code Napoleon, the civil code of France, was begun and completed in 1810. It was prepared under his supervision by the most eminent lawyers and comprised the best features of 400 previous codes.

1807—Trial of Aaron Burr for treason. Acquitted.

1812—The last executions for high treason in England. Two British subjects were captured in French uniforms, were tried, hanged and beheaded.

1817—The famous Dartmouth college case, in which the law respecting the power of the state over corporations was established.

1819—Courts of honor instituted in Bavaria and other continental countries to prevent dueling.

1819—The right of the accused to trial by wager of battle stricken from the statute books, a case having occurred in the previous year in which it was claimed, and by reason of the refusal of the challenged party to accept the challenge the accused party was acquitted.—St. Louis Globe-Democrat.

WHIP AND SPUR.

Saladin drew a 42 pound Frazer sulky when he made his record of 2:05¾.

Delmarch, 2:11½, and J. R., 2:25¼, are new members of Budd Doble's string.

It is reported that Maud S and Sunol will be handled this year by Charles Marvin.

It is reported that Charles Reed contemplates founding a breeding stud in California.

This season's purses and stakes through the grand circuit foot up over $600,000 for nine weeks' trotting.

Eleven thousand four hundred horses were imported into the United States in 1892 at a total cost of $6,788,000.

The pacing mare Cricket, 2:10, is to be bred to Direct, 2:05½, and the product will be the fastest "combine" on record.

Mr. Platt, the English turfman, paid $24,500 for Kendal. His owner has taken the precaution to insure his new purchase.

Chinese Girl, 2:26, by Chimes, will be a good one in the 4-year-old events this year. She has stepped a mile in 2:14¼ in her work.

In England as far back as 1546 an act of parliament made it compulsory for men of wealth to keep trotting stallions for the public good.

"I would rather get a square trotter that could not show a better gait than 2:30 in preference to a mixed gaited one of 2:20 speed," says a prominent breeder.

The heading of the Alexandra Trotting club of England is a horseshoe inclosing the words "Nancy Hanks, 2:04," and the motto underneath, "Nil desperandum."

It is said that William Waldorf Astor has set out to have the best racing stable in England. He is buying every thoroughbred of reputation that is offered to him.

CURIOUS CULLINGS.

A billy goat broke into the city hall of Argentine, Kan., and ate up the municipal records.

The Feejee islanders believe that if a man dies unmarried his soul is doomed to wander about through the endless ages of eternity in an intermediate region between paradise and hades.

The power to wag the ear is common among the West Indian half breeds and the Maya and other derivatives of Mexico and Central America, and many whites have the power who hardly realize the fact.

Both Hindoo and Mussulman women wear glass bangles, and in the northwest provinces they are regarded as sacred objects. If a glass bangle be accidentally broken, its pieces must be gathered together and kissed three times.

A San Antonio (Tex.) merchant put out a sign: "What are we here for—to loaf? No, to sell! Come in, and if there's anything you want we'll sell it to you, even if it's the shirt on our back or our grandfather's clock. We mean business."

RAILWAY RUMBLES.

The first railroad, three miles long, was opened in 1826 at Quincy, Mass.

The Pennsylvania system now requires 68 pages in The Official Guide for its time tables.

A company has been formed to introduce the sliding railway system exhibited at Chicago into this country.

An era of economy has reached the Jersey Central, and as a result its paintshops at Elizabethport have been closed.

The Illinois Central improvements in Chicago necessitated the raising of 10 tracks for a distance of three miles an average of 10 feet above the ground level.

Engineer Hogan of the New York Central, who is one of the men who made a reputation by running the Empire State express in the fastest time on record, has been promoted to be traveling engineer of the western division of the road.

SCIENTIFIC SCRAPS.

One of the lost arts is the manufacture of malleable glass.

One of the most wonderful discoveries in science that has been made within the last year or two is the fact that a beam of light produces sound.

The carbon of the food, mixed with the oxygen of the air, furnishes fuel for the body, which evolves the heat in exactly the same way that a fire or candle does.

The learned Dr. McKattarell, in his article on the rapidity of thought, says that it requires one thirtieth of a second for the mind to distinguish between red and blue.

All Right.

She hid her lovely auburn head
Upon his manly breast.
"I will be yours," she coyly said.
"That ring has stood the test."
—Detroit Free Press.

[illegible]

He—Will you marry me if I make a million?

She—No, you must inherit it.—Truth.

A Life Saving Maxim.

This rule is worth jotting
Within your hat's brim:
Don't try to learn yachting
Ere learning to swim.
—Detroit Tribune.

?? QUESTIONS —AND— ANSWERS ??

Q—What is Cottolene?
A—A clean and healthful fat for cooking purposes.
Q—Of what is it composed?
A—Beef suet and refined vegetable oil.
Q—What are its advantages?
A—It costs less than lard and a less quantity is required to produce satisfactory results.
Q—Why was it originated?
A—To supply a demand for a cooking fat to take the place of lard.
Q—Is not lard always satisfactory?
A—Many people are prejudiced against the fat of swine.
Q—Where can I be supplied with Cottolene?
A—Nearly, or quite all dealers in groceries sell Cottolene.
Q—What have you to do with Cottolene?
A—I supply the retail trade direct from the manufacturers.

The Bulletin.

Norwich Thursday, August 17, 1893.

The Bulletin should be delivered everywhere in the city before Six a. m. Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The Weather Today.

Indications for Connecticut: Increasing cloudiness and rain; continued cool easterly winds; probably fair and warmer.

NORWICH AND VICINITY

CITY NEWS.

Mr. Patrick Fay is visiting his brother in Willimantic.

W. E. Chamberlain of Floral Park, L. I., is in town for a few days.

A new flight of stairs to the Arcanum clubhouse is being constructed.

Mrs. F. U. Scofield is the guest of Dr. and Mrs. F. A. Tillinghast of Norwich.

Sassacus tribe, No. 12, I. O. R. M., will work the warrior's degree this evening.

Mrs. E. I. Caden and children are the guests of Mrs. A. Plaut of West Thames street.

Supernumerary Richard Connell did police duty on Officer Kern's beat last night.

Miss Mary A. Hovey is a guest of the Rev. Dr. Herr and family at Crescent Beach.

The steamer City of Richmond will go to Watch Hill and Block Island from New Haven Friday.

Miss Stella Gardner of Willimantic has been visiting Mrs. Frank N. Ranger of Chestnut street.

George T. Lynch of the Academy base ball team has returned from a tour of Boston and suburbs.

William Cooke, Esq., of Whitehall, N. Y., has returned from his visit here to C. C. Frost, Laurel Hill.

Miss E. A. Holt of Cliff street returned from a two weeks trip to the world's fair on Wednesday evening.

Mr. Julian D. Lucas of Boston, Mass., is spending a few days with his brother, Herbert W. Lucas of Norwich.

Miss Mary Gill and Miss Carabelle Gibson of Granville, Conn., are guests of Rev. A. S. Brown of Asylum street.

Miss Grace Mowry of this city acted as hello-girl in the Central exchange at Danielsonville Monday for Miss Mabel Corey.

Morris Welch, stoker of the Wm. M. Williams steam fire engine, with his daughter, is vacating in Massachusetts.

Mrs. Isabella B. Hill of 106 Broadway, with her daughters, Misses Jessie and Dora Hill, are rusticating on Scott's Hill.

Misses Lucila and Lucille Cook (twin sisters) of Whitehall, N. Y., are visiting Mrs. C. C. Frost on River avenue, Laurel Hill.

Dr. Mason and his son, John Mason, return to California today to spend the winter after passing six months in this city.

The Bozrahville cotton mill has shut down for two weeks. The unemployed workmen are furnished free tenement rent.

Misses Olivia and Alma Thoin of Providence, R. I., have returned home after a several days' visit with friends in this city.

Preston land owners are meeting with much difficulty in obtaining a supply of water, and two of them are redigging their wells.

The funeral of Mrs. Jane G. Thomas will be held Friday afternoon at 4 p. m., from the house of Mr. Arthur H. Brewer, 17 Broad street.

The new paper mill building at Thamesville is completed with the exception of the inside stairs, and the machinery is being put in place.

Mr. Edmund A. Robertson of the Saginaw (Mich.) house of Porteous & Mitchell is in the city on business, and the guest of Mr. Archibald Mitchell.

The Misses Louise and Annie Wohlfarth of Norwich are the guests of Mr. and Mrs. Henry G. Palmer of Broad street, Stonington.

The business scheduled for the criminal court of common pleas in this city Wednesday was arranged without trial, and the court adjourned to next Tuesday at 11 o'clock.

The agents of the United States Express company in this city have received instructions to carry flowers to any of the city flower missions in the large cities free of charge.

No Norwich women have yet taken advantage of the privilege proffered them by the general assembly to vote on school matters. Town Clerk Freeman has blanks prepared for their signatures.

John B. Bennett has been appointed postmaster of North Stonington, vice W. H. Hillard. Mr. Hillard had been postmaster since Lincoln's administration.

Mr. D. Macken, who is visiting his brother-in-law, Edward McNerney of North street, has spent twenty-three years in Africa. He speaks six different dialects and has travelled to the great lakes. He saw Livingstone and Stanley and was with Baker and Dr. Peters.

The Watch Hill hotels are enjoying a good patronage. Until the present week the number of guests have been discouragingly small, but at the present time nearly every room is occupied. The season, however, will be a short one, and the receipts correspondingly meagre.

The Putnam Standard says: "Invitations are out announcing the wedding of Edward H. Crocker and Miss Bertha Emily Williams. The ceremony takes place on Wednesday. Mr. Crocker is a former resident of this place, but now employed on the staff of THE NORWICH BULLETIN."

Mrs. Sarah A., widow of the late James Champlin, aged 87 years, died in Brookline, Mass., Aug. [illegible]. She was a devoted wife and mother and reared eleven children, eight of whom survive her. One son was in the Union army and was killed at the battle of Fredericksburg. Mr. Champlin was a native of Norwich.

Captain Stiles E. Shirley of the steamer City of Boston has received official notice from the United States local inspectors, New York district, exonerating him from all blame in the collision between the City of Boston and scow No. 4, in tow of tug Tea Rose, which occurred July 19.

A collection of badges is to be framed by Past Grand Master Ware, now one of the grand representatives to the sovereign lodge, made up of a specimen from each lodge represented at the dedication of the Odd Fellows' home. Nearly all the lodges have responded to the request for a badge.

George W. Cockell of the Winsted ball nine, in a letter to The Putnam Standard, urges the Putnam nine to brace up and meet the champions of Litchfield county in their tour through Eastern Connecticut. He writes "The White Rocks of Rhode Island and the Clippers of Norwich are the only clubs that has answered the letters from his club."

Wednesday the executive committee of the Connecticut's World's fair commission selected Wednesday, October 11, for Connecticut day. The whole week will be spent in Chicago and the Connecticut representatives, which will include the governor and staff, the members of the commission and a large number of prominent citizens, with their wives, will have quarters at the Chicago Beach hotel, that house being decided upon. The party will leave New York on Saturday, October 7, by special through train for Chicago, reaching there Sunday night.

John Exley Off for the Fair.

As John Exley is missing from his favorite haunts, it is supposed that he has started on his walk to Chicago.

Late reports locate Ray East of New London, in New York state. Herbert Williams, New London's other vainglorious pedestrian, has not been heard from lately.

A Big Catch of Flounders.

On Tuesday, Captain Fred Ostman and his two sons, at Stonington, caught 1,610 flounders with hooks and lines, between sunrise and sundown. The flounders are unusually large. Samples weighing twenty pounds are often caught. Most of the fish are forwarded to New York for a market, and good prices are obtained.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A Telephone at Camp.

A special public Southern New England telephone station will be maintained at Camp Morris, Niantic, through the month of August. During camp week, August 21 to 26 inclusive, an operator and messenger will be in attendance from 7 a. m. to 9 p. m.

The Thames Harbor Deepened.

Tugs S. E. Babcock and R. W. Burrows, with the muddigger Newport, finished their labors deepening the Thames river Wednesday. The Newport has been digging in the river for the past two months and scooping enough mud to keep two tugs busy towing it away in scows. The mud is taken down near Pine Island, below Eastern Point, and dumped into deep water.

The tugs and digger will go from here to Providence, where they worked for nine months last year in the harbor.

Found Hanging to a Rafter.

John Hoye, an old resident of Eagleville, a village in Mansfield, was found hanging to the rafter in the loft of a barn belonging to John Costello, at 6 o'clock Tuesday evening. He had been missing all day, and was discovered only by accident. He had been intemperate lately, and it is supposed that in a fit of despondency he went to the barn and committed suicide. He leaves no family, had no home and worked as a farm hand wherever he could obtain employment.

A Stolen Bicycle Recovered.

Several weeks ago the bicycle of Samuel Francis, son of Joseph Francis of Ward street, West side, was stolen from his premises and all efforts to locate the thief were unavailing. Early in the week the machine was found on the fair grounds in pieces. The thief had doubtless become frightened and left his booty behind. Nearly all the various parts of the bicycle were within the radius of a few feet, skilfully unjointed, and were returned to their owner.

STOLE A BICYCLE.

Justice Swift on the Heels of a Thieving Tramp.

The capture of Edward Carpenter Tuesday was a clever bit of detective work. The man is a tramp who had been hanging about town for several days. About 11.30 o'clock Tuesday morning he stole the bicycle of George Anderson, clerk for E. A. Prentice, which was standing in a passage way of the Clarendon building on lower Broadway. The theft was not discovered till 2 o'clock, when it was reported to Officer Irish at police headquarters, who was in charge in the absence of Captain Burdick on business in Middletown.

Mr. Irish in about half an hour had located the thief in Yantic, and notified Sheriff Rogers, the latter took the 3 o'clock train and caught Carpenter in the act of trying to dispose of the wheel.

Wednesday in the police court, Carpenter claimed that he was drunk at the time of the theft, and was unaware of the offence he was committing. He was bound over to the superior court, and committed to jail in default of $600.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Granite Industry Affected.

The stone cutters and drillers employed by the Smith Granite company at Westerly have been notified that no work would be furnished them until the first of September. This shut down was due to the general depression of business, and because of the stringency of the money market. Nearly 200 persons are thrown out of employment. The quarrymen are still at work. The paving industry is at a standstill, and only a few of the paving cutters have remained in town. The number of persons on the Westerly streets during the day and evening remind one of the granite difficulty last summer, when all the quarries were closed until fall.

Sneak Thieves About.

Sneak thieves are reported in this city, and there have been some small robberies.

City Court—Kellogg, Judge.

In the city court John Halamy, for breach of the peace, was fined $10 and costs, $19.84. Committed.

Michael Buckey, charged with non-support of family, furnished $50 bonds that he would discharge his conjugal obligations for six months.

Newport Excursion Tomorrow.

The second excursion this season to Newport by the steamer City of Worcester will take place tomorrow. The boat will leave New London at 10 a. m. Arrive at Newport at 1 p. m.

Returning, leave Newport at 3.30 p. m., connecting with train leaving New London on arrival of steamer.

Excursionists from Norwich can take either steamer Block Island, leaving Norwich at 8.15 a. m., or train leaving Union depot at 9.15 a. m. Music by Tubbs' brass band. Orchestra for dancing. Gurdon Cady, prompter. Dancing free to all. Refreshments on board. Tickets sold by ticket agent at Union depot, clerk on steamer Block Island, L. R. Case, agent, and Charles Prentis, agent.

Staterooms sold by L. R. Case, agent, Norwich, and Charles Prentis, agent, New London.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

DIED.

GRADY—In this city, Aug. 16th, Mrs. Margaret Grady, age 35 years.
Funeral from her late residence, No. 3 Sixth street, Thursday morning at 8.30. Services at St. Patrick's church at 9 o'clock.

THOMAS—In this city, Aug. 15th, Jane G. Young, widow of Edward Y. Thomas, 81 years.
Funeral from house of Mr. Arthur H. Brewer, 17 Broad St., on Friday, Aug. 18th, at 4 o'clock p. m. Burial private.

PORTEOUS
&
MITCHELL.

Our Annual Clearance Sale of Summer Merchandise will continue all this week.

We have had similar sales every season, but never before have we had at this season of the year a sale which offers so many and such incomparable lots of desirable merchandise as are included in this sale.

Every department offers some unapproachable bargains, and the greater the lot the lower the price.

Bear in mind that when we say "bargains" we mean something out of the ordinary. We never use the word except in connection with something extraordinary.

During former sales there have been many disappointed in getting some particular article because they waited too long before coming to see about it.

Don't let it be your lot to be among the disappointed ones. If you need anything in merchandise now is the time to most advantageously buy it.

Staple Merchandise as well as Summer Goods are included in these offerings.

Men as well as women are interested.

There is something for everybody, and the prices were never lower than now.

PORTEOUS & MITCHELL.

MAYOR'S OFFICE,
CITY OF NORWICH, Conn.

TO EITHER SHERIFF OF THE CITY OF Norwich,—Greeting:

A petition in writing signed by A. L. Potter and more than thirty others, all freemen of the City of Norwich, having been presented to me, the Mayor of said City, requesting me to call a special city meeting to consider the removal of the two buildings which adjoined the building lately removed from the junction of Thames, West Thames and High streets and that the call should include the necessary [illegible] to enable said meeting to make the necessary appropriations for said object, and it having been voted at the last annual meeting of said City, that the Mayor should include the matter of increased compensation for the police department in the warning of the next City meeting. You are therefore hereby commanded to warn the legal voters of the City of Norwich in City Meeting to meet at the Town Hall in said City on the 21st day of August, 1893, at eight o'clock p. m., to take action upon the following matters:

First—To consider the matters contained in said petition.

Second—To authorize the Court of Common Council of said City to appropriate from the City treasury such sum of money as said meeting shall determine, in addition to any appropriation heretofore authorized to pay the expense of altering and widening Thames street in said City, near its junction with High street, and also for the purpose of acquiring by said City the land of Daniel W. Grant and land formerly of William Maloney near the junction of said streets, or the easement therein necessary for the layout of a highway over the same.

Third—To authorize said Court of Common Council to appropriate from the City treasury such sum as said meeting shall determine in addition to any appropriation heretofore authorized, for additional compensation to the police department of said City.

Fourth—To lay a tax on the City list last made to raise the amount of money required to pay the appropriations which said meeting shall authorize said Court of Common Council to make.

Dated at Norwich, this 16th day of August, 1893.

CALVIN L. HARWOOD,
Mayor of the City of Norwich.

I certify that the above and foregoing is a true copy of the original warrant to me directed.

Attest— MYRON O. MORGAN,
City Sheriff of the City of Norwich.

TRAIN SCHEDULE.

Information for Veterans Expecting to Attend the Encampment.

HARTFORD, Conn., Aug. 17.—The arrangements for the trip to the Indianapolis encampment from this state have been completed.

Railroad tickets from New York to Indianapolis by Baltimore & Ohio railroad via Baltimore, Harper's Ferry, Parkesburg and Cincinnati, and returning same way, can be purchased for $17. For those going the same route and desiring to visit Chicago, returning from thence via Chicago Junction, and from that point via either Pittsburg or Belle Air back to New York, the fare will be $19.

The rendezvous will be at the depot of the Central Railroad of New Jersey, foot of Liberty street, New York City, at 5 45 p. m. sharp, Saturday, September 2, 1893, all leaving Grand Central depot at 5 p. m. The tickets will not be good for the outward trip until the 6 p. m. train September 2. This train is scheduled to arrive at Indianapolis at 10 45 p. m. Sunday, September 3.

Tickets for the round trip can be obtained of Assistant Quartermaster General William E. Morgan, box 496, New Haven, upon receipt by him of check or money order for the amount, up to Wednesday, August 30. Those desiring sleeping car accommodations should also notify Comrade Morgan, who will supply same at $5 per berth, or $10 per section of two berths from New York to Indianapolis.

THE STATE GRANGE.

1,200 Persons Attend the Reunion at Pawson Park.

NEW HAVEN, Conn., Aug. 17.—Twelve hundred persons, representing granges in the shore towns and other places in the state, attended the reunion of the Connecticut State Grange at Pawson park on the sound today.

In the morning addresses were made by L. J. Wells, past secretary of the state grange, D. C. Pattison of Torrington and Prof. B. F. Coops of the [illegible] agricultural school. The afternoon exercises were opened by an address by George A. Bowen of Woodstock, state grand master.

Other speakers were the Hon John C. Higgins of Delaware and Leroy Smith of Higganum. The addresses were all short and to the point and elicited much applause from the audience.

Wallace Norton of Guilford, lecturer of Pomona grange, was master of ceremonies.

LABOR RIOT AT NEW YORK.

5,000 Men Forcibly Take Possession of a Hall—Rioters Mostly Hebrews.

NEW YORK, Aug. 17.—The first of the riots which labor leaders and [illegible] have been predicting for some time, as a result of the large number of men out of employment, occurred this morning.

A crowd of more than 5,000 men attacked Walhalla hall on Orchard street, because admittance was denied them. They broke the plate-glass windows into atoms, forced in the door which had been turned against them, and forcibly took possession.

Several persons were cut by the flying glass. All sorts of missiles were used and finally the police reserves from the Eldridge street station were ordered to the scene and succeeded in partly dislodging the crowd.

Those forming the crowd were mostly Hebrews, and represented principally the [illegible] trades. There were cutters, garment makers, hat-makers and cloakmakers.

The success of yesterday's meeting and parade of the unemployed was the signal for a much larger gathering today in the vicinity of the International Labor Exchange on East Tenth street. At 10 o'clock fully 5,000 people had assembled. The large hall of the exchange was literally packed, while outside [illegible] many more endeavoring to gain admission. At this point some one cried out that the hall was too small, and suggested Walhalla hall. As if with one impulse the crowd proceeded in the direction of the hall mentioned.

The proprietor of the hall, hearing of the approach of the crowd, prepared to defend the place. The doors were barred. The crowd on arriving, through a spokesman, made known its desire to occupy the hall for the purpose of a meeting. This was refused, and immediately an attack on the place was begun, and an entrance was soon forced. Thousands could not get in. The police, after some hard work, succeeded in partly clearing the hall. A man who was addressing the crowd was taken into custody.

The police subsequently had to turn their attention to the streets in the vicinity and had all they could do in dispersing the crowds that gathered after the hall had partly cleared.

BIG IRON CONCERN FAILS.

Oliver Iron and Steel Company in Receiver's Hands.

PITTSBURG, Aug. 17.—The Oliver Iron and Steel company, one of the largest concerns in the country, went into the hands of a receiver today. The application was made before Judge Acheson of the United States circuit court by the National Tube Works company of New Jersey. E. C. Converse of New York and Pittsburg and H. W. Oliver, senior member of the firm, were appointed.

In the bill it was alleged that the capitol stock of the company was $1,600,000 and that the indebtedness was $700,000. Of this amount $400,000 is payable within ninety days. About $300,000 more is in collateral bills payable by pledge of pig iron and stock and bonds in coke and natural gas companies. The bonded indebtedness is $385,000.

The company through J. B. Oliver admitted the allegation and attributed the embarrassment to the stringency of the money market and the depression in business.

Again a Victory or Herreshoff.

NEWPORT, R. I., Aug. 17.—The order at the outer mark and official times of rounding in today's race for the Astor cup were: Vigilant, 3 05 37; Jubilee, 3.13.30; Colonia, 3.13.15; Pilgrim, 3 16 43.

Books Show a Shortage of $90,000

SIOUX CITY, Iowa, Aug. 17.—Search is being made about here for Barrett Scott of O'Neill, Neb. He was treasurer of Holt county and has not been seen for two weeks. An examination of his books shows him to be about $90,000 short.

Eighty of the towns in Great Britain supply the names of 100 towns in this country.

IN CONGRESS.

The Senate.

WASHINGTON, Aug. 17.—After the ordinary routine morning business in the senate today, the report on the Montana senatorial case was taken up, and an argument was made by Mr. Pasco (Dem., Fla.) against the right of Mr. Mantle to his seat under the governor's appointment.

The discussion continued up to 2 o'clock, when an amendment was offered by Mr. Gorman to the national bank circulation bill, limiting the aggregate withdrawal of bank note circulation to $3,000,000 in any calendar month, and requiring a sixty days' notice of an intention to withdraw currency.

The discussion of the Montana case was then resumed and at 2 30 p. m. the senate agreed to take a vote on the case on Monday next at 5 o'clock, and then proceeded to executive business.

A message was received from the house announcing the death of Mr. Chipman, representative from Michigan, whereupon it was agreed a committee was appointed to attend the funeral. As a further mark of respect, the senate adjourned.

The House.

WASHINGTON, Aug. 17.—In his opening prayer, this morning, the chaplain of the house feelingly alluded to the death of Mr. Chipman of Michigan, and invoked the Divine protection on the bereaved family.

The silver debate was then resumed. Mr. Daniels (rep., New York) spoke in favor of the repeal of the purchasing clause of the Sherman act.

Mr. Daniels was followed by Mr. Cooper (dem., Fla), who announced himself as opposed to every proposition made by the silver men and for unconditional repeal.

Mr. Goldzier (dem., Ill), followed Mr. Cooper with a speech in favor of repeal.

At the conclusion of his remarks, the death of Representative Chipman was announced by Mr. Weadock of Michigan.

The usual resolutions were adopted, and the house as a tribute of respect, at 1 50 adjourned till tomorrow.

GOVERNOR HAS NO POWER

To Transfer the Woman from the Prison to the Hospital.

HARTFORD, Aug. 17.—The female inmate of the state prison, who will soon give birth to a child, will not be sent to the Hartford hospital. Warden Woodbridge has received a letter from Governor Morris in answer to the one he sent calling attention to the case.

Governor Morris says that the warden's suggestion that the woman be placed in a hospital during her sickness is a proper one from the viewpoint of humanity, but he thinks he has not the power to set aside a sentence of the court. He says the removal could be made only by order of the board of pardons. The board will have no meeting until the expected event shall have been over. So the woman will remain at the prison.

SUIT BROUGHT BY CAPTAIN BUELL.

Wants Damages for Being Ejected from a Restaurant.

SAYBROOK, Aug. 17.—This morning Deputy Sheriff George Spencer of this place served papers upon Deputy Sheriff Pratt of Deep River and Constable William Looby of Essex, in a suit for $600 damages brought against these officers by Captain Charles Buell of Westbrook.

Three weeks ago, while Officers Pratt and Looby were searching the restaurant of Oscar Saunders of Westbrook to obtain evidence of a violation of the liquor-license law, they ejected Captain Buell from the place, and while putting him out it is alleged that Sheriff Pratt struck Buell in the face. The officers have already been criminally prosecuted, and their case will come up for trial at the next term of the Middlesex county court.

Captain Buell is a leading and respected citizen of Westbrook. For several years Captain Buell commanded the steamer State of New York, which plied between Hartford and New York.

Connecticut Tobacco Growers to Try the Rain-Making Scheme.

HARTFORD, Conn., Aug 17.—The continued dry weather in this section, which is shrivelling up the tobacco crop on the plains between North Bloomfield and Tariffville, has stimulated the farmers to an attempt at rain-making after the western methods. A rainmakers association has been formed and an attempt was made to secure the services of some of the western rainmakers. As they could not come, Eugene S. Clark, a farmer of North Bloomfield, has decided to conduct the experiment of making the clouds yield rain. He has bought in this city fifty-five balloons, each thirty inches in circumference. A half pound dynamite cartridge will be attached to each balloon and exploded by a five-minute fuse at an altitude of about one-half mile. The balloons are to be sent up in succession. The experiment is to be tried tomorrow unless the light showers which have fallen today develop into a heavy rainfall.

Suit Brought Against Deputy Sheriff Austin of Wallingford.

NEW HAVEN, Conn., Aug. 17.—W. I. Horn of Wallingford, the original manufacturer of cold distilled brandy, today brought suit against Deputy Sheriff Roger S. Austin of Wallingford and D. S. Williams of Meriden, claiming $10,000 for alleged false imprisonment, malicious prosecution and slander. Horn has had a great deal of litigation over the use of trade mark labels and was arrested two weeks ago by Austin on the charge of theft preferred by Williams, who claimed that Horn stole some of his labels. He was taken before a justice who dismissed the case, hence this suit.

Order Received to Discharge More Railroad Men.

HARTFORD, Aug. 17.—Orders have been received from Boston to discharge more men employed in the New York & New England railroad repair shops. Sixteen men have been dropped from the rolls at East Hartford and nine at Fishkill. These discharges virtually close the locomotive repair shops at East Hartford and give credence to the rumor that the repair shops are to be removed to Norwood Central.

Thought He Saw Dalton, the East Providence Murderer.

PROVIDENCE, R. I., Aug. 17.—An excited individual reported to the Providence police today that he thought he had seen Dalton, who is wanted here for complicity in the murder of an East Providence man in the Daggett woods, but the police place no confidence in his story.

Body Found at Rocky Hill Identified.

HARTFORD, Aug. 17.—The body found in the Connecticut river at Rocky Hill on Tuesday has been identified as that of James Keeney, 25 years old, an employe of the city street department. He was last seen on a river excursion of the Young Italian-American association last Sunday and probably fell off the steamer into the river.

HAPPY DOCTOR WINS 2.50 CLASS.

Rain Somewhat Interfered With the Races at Worcester.

[illegible]

Jimmy B. Captures the 2.30 Trot in Straight Heats.

WORCESTER, Mass., Aug. 17.—The heavy showers this afternoon interfered some with the races of the Worcester Driving Park company, as they made the track soft and caused the postponement of the 2 22 trot until tomorrow. The 2 50 class trot was won by the favorite Happy Doctor. He came in first in the first heat, but was set back for running. Summaries:

2.50 class, trot, purse $500 divided.

Happy Doctor, b.g., by Happy Home	2	1	1	1
Star Girl, b.m., by Star Lambert	1	4	3	3

ROCHESTER RACES.

Hal Pointer Proves a Drawing Card—The Summaries.

ROCHESTER, N. Y., Aug. 17.—Hal Pointer proved a drawing card at the third day of the grand circuit today, the attendance being more than double that of the first two days combined. The heavy rain of last night had made the track heavy, the air was chilly, but the sky was cloudy and a strong west wind blew down the back stretch in the faces of the horses.

In the half mile special good time was made. Hal Pointer took the free for all pace easily in straight heats. Walter E. did the same thing in the free for all trot, taking the glory away from Little Albert, in spite of the heavy backing the latter got in the pools. Blue Sign was sent a mile as an exhibition and made the last half in 1.02¼. He was sent to beat the track record of 2 08¾. Summaries:

2 20 class, four-year-olds, purse $5,000.

BRIDGEPORT'S BIG LOBBY BILL.

Ex-Speaker Paige Gets a Check for $3,750.

BRIDGEPORT, Aug. 17.—The board of aldermen at the meeting last evening concurred in the action of the councilmen in paying the bill of $3,750 for the expenses of the railroad committee which defeated the special legislation against Bridgeport at Hartford. There was not a [illegible] vote and the members were aware of the fact that the bill was before them. No protest was made in behalf of the taxpayers, and Allen W. Paige will today be about $3,500 in pocket, and just what [illegible] was paid for will never be known. It may be all clear profit, but the taxpayers who have to foot the bill cannot ascertain what they received for the amount expended.

A check on the city for the amount was given Mr. Paige, this morning, when he presented himself at the City hall.

Virginia State Democratic Convention Meets at Richmond.

RICHMOND, Va., Aug. 17.—The democratic state convention met here at noon today. B. B. Munford was chosen temporary chairman and made a short speech. Committees were appointed and a recess was taken. At the reassembling of the convention, Governor McKinney made a short speech declaring that he wanted the dollar that contained a dollar's worth of silver.

Senator Daniel followed. In alluding to the financial situation he asserted that the democracy was in nowise responsible for it, and laid the charge of the evil to the McKinley tariff bill. Mr. Daniel affirmed the principles of the party as enunciated at Chicago, and said that he would stand on that platform, silver and all.

Arrested on Suspicion.

WORCESTER, Mass., Aug. 17.—Lawrence Trainer, the farm hand who was found unconscious in the barn of James Barclay, in Paxton, Tuesday night, died last night. The autopsy showed death was due to cerebral hemorrhage, caused by blows upon the head. Francis Bedard, another farm hand aged 26 has been arrested on suspicion. There is no direct evidence against him.

Bicycle Thief Arrested.

PROVIDENCE, Aug. 17.—George Sidney Price Cooper was arrested by Detective Parker today. He is wanted for thefts of bicycles in various cities and towns in New England and the middle states.

Immigrant Inspector Appointed.

WASHINGTON, Aug. 17.—The treasury department announces the appointment of Edmund Cussen of Massachusetts to be immigrant inspector, vice Henry T. Bingham of Massachusetts, resigned.

VETERAN FIREMEN.

Nearly 4,000 Men in Line—Tests on the Common.

WORCESTER, Mass., Aug. 17.—The city is filled with red-shirted firemen, members of the New England Veteran Firemen's association. The annual tournament is in progress. The skies are cloudy and a few drops of rain have fallen, and there seems a probability that the veterans will escape anything like the deluge in which they made their tests in Boston.

The parade was immense, taking forty minutes to pass a given point. There were twenty-three visiting companies in line, each with from 75 to 150 men and a band or drum corps. With a section of the local department, which participated, there were between 3,000 and 4,000 men in line. Great crowds filled the streets through which the march was made. The buildings all along the line were profusely decorated.

The tests began soon after the parade reached the Common, where a space had been roped off for the tank playing grounds. The Peabody company threw the first stream in the contest at 1 o'clock. The stream is thrown to the east and there is a moderate wind blowing from an easterly direction. The company was handicapped 16¼ inches. On their first trial they threw the stream 196 feet 7¼ inches and did not better this record on their succeeding trials. It is believed they will take the prize, for Boston won last year with a record of 180 feet.

The [illegible] company was second and made a record of 179 feet 10½ inches.

The Brockton company came third with a record of 164 feet 3½ inches and Lowell fourth, 193 feet.

Late Justice Blatchford's Will Filed for Probate.

NEW YORK, Aug. 17.—The will of the late Justice Samuel Blatchford of the United States supreme court was filed for probate by his son Samuel A. Blatchford today. He leaves $100,000 to Mrs. Rachel [illegible] Beckworth of New Haven. She is a daughter of the Rev. Henry Hunter. Cordelia F. [illegible] of Milford, Mass., is to have [illegible]. His widow, Caroline Frances Blatchford, gets his furniture and the income of half his estate for life. Samuel A Blatchford his son, receives the copyright of his books, valued at $9,000 and half of his residuary estate absolutely, valued at $177,000. His personal property in this city is valued at $350,000. The will was made June 15, 1876. The executors are his son and Judge John Sedgwick of the superior court.

Ocean Steamers.

LONDON, Aug. 16.—Arrived—Church from Savannah, off Gibraltar; Grasmere from Boston, off the Scilly islands; Veendam from New York, at Boulogne; Croft from New York, at Dundee; Gellert from New York, at Hamburg; Rosarian from Montreal, at London; Taina from Montreal, at London; Texan from New Orleans, at Liverpool; Germania from New York, off Browhead.

Sailed—Wild Flower, Rouen for Philadelphia; Croma, from Shields for New York; Hecla, from Copenhagen for New York.

President and Party Drink Soda.

NEW BEDFORD, Mass., Aug. 17.—Mrs. Grover Cleveland, Actor Joseph Jefferson, and a party of ladies came to this city in Mr. Benedict's steam yacht Oneida. She arrived at 1.30. They stopped at Baylis' curiosity shop and after purchasing a few articles were driven to a drug store where the entire party drank soda. The party then boarded the Oneida which left shortly after 3 o'clock.

The Columbian Rowing Regatta.

GENEVA, Wis., Aug. 17.—The feature of the Columbian rowing regatta today was the senior single quarter-mile dash. It was won by Edwin Hedley of the Passaic in 1 17—two seconds better than John F. Corbett's famous time in the Duluth regatta of 1890.

Fine time was also made in the senior four-oared, quarter-mile dash. The lake was smooth and there was not a cloud in the sky. Three thousand visitors were camped in view of the starting flags. Ed. Hanlan acted as referee.

Big Rubber Factory to Resume.

NEW HAVEN, Conn., Aug. 17.—It will be good news to the people of Naugatuck to learn that the Goodyear Rubber company, employing several hundred hands, will resume work on Monday. The mill has been closed since July 1.

Trotting Honors for Norwich.

Doctor Cassidy's Happy Doctor made a name for himself in Worcester yesterday by winning the 2.50 class trot.

Country Boy is entered in the 2.22 race, postponed to today.

The Wharf Y. M. C. A. Meeting.

The mass meeting for men under the auspices of the Young Men's Christian association on the wharf, Sunday afternoon at 4 o'clock, will be addressed by the Rev. Wm. F. Coburn, the evangelist, of Boston. Mr. Coburn preaches the gospel in a clear and scriptural manner, and impresses hearers with the fact that he believes what the Bible teaches. Most successful revival services were carried on by Dr. Coburn last winter in the Central Methodist and Baptist churches. God is blessing him abundantly in the work in which he is engaged. The quartette choir of the Central Baptist church will sing special selections during the meeting.

CRACK MARKSMEN.

Sixth Annual Keystone Company Tournament in New London.

The sixth annual tournament of the Standard Keystone Target and Trap company, to be held on the company's grounds in New London Monday, is expected to be one of the best meetings of marksmen ever held in the state. A large number of crack shots from all parts of Connecticut, as well as other states have entered the contests. It is at this shoot that all the champion shoots are decided, national, individual, association and state. The winner of the championship in the individual contest will receive for a prize a valuable diamond which has been selected for the purpose by H. A. Penrose. Each day, as has always been the custom, there will be a trophy race.

The great event, however, will be the national match between the east and west. M. F. Lindsley of Hoboken, N. J., will captain the western team and H. L. Edgarton of Willimantic, will have charge of the shooters composing the eastern team. The following entries have been received for the state team race: Connecticut, J. B. Savage, captain; Massachusetts, O. R. Dickey, captain; New Jersey, Noel E. Money, captain; New York, Gus E. Geleff; Pennsylvania, William H. Woolstencroft; Maryland, J. A. Hartner.

A COMPLETE RAILROAD STRIKE.

Every Man from Brakeman Up to Paymaster Go Out.

FIRST TIME IN HISTORY.

Trouble Was Over Back Pay—Company $50,000 in Arrears.

ST. PAUL, Minn., Aug. 17.—An extensive and complete railroad strike has paralyzed the Manitoba & Northwestern railroad running from Winnipeg to Prince Albert, about 400 miles. Every conductor, brakeman, engineer, fireman, dispatcher, station agent and clerk of the road struck at noon yesterday, leaving the general manager on duty. Every train has stopped running for an indefinite period. The strike has been threatened for some time. The company owes the employes salaries for March, April and May. The men stated that unless they were paid yesterday they would strike. No pay was forthcoming, and for the first time in the history of any railroad every man in the employment of the company went out. The general passenger agent, general freight agent, paymaster and all the clerks and trainmen are included. The salaries in arrears aggregate about $50,000.

Overcome by Foul Gases.

NEW BRITAIN, Conn., Aug. 17.—Patrick Courtney descended into a well on Smith street this morning and was overcome by foul gases. He was rescued unconscious. Dr. Cremins attended him, and at last reports it was thought that he would recover.

Managers of Northern Pacific to be Sued.

PHILADELPHIA, Aug. 17.—A stockholder of the Northern Pacific railway, whose name is withheld, has employed Attorneys Reed and Pettit to bring suit against Henry Villard, Edwin H. Abbott, Chas. T. Colby and Colgate Hoyt, on the general charge of malfeasance in office and mismanagement of the affairs of the company.

Gypsy Woman Attempts to Kidnap a Boy.

HARTFORD, Conn., Aug. 17.—A gypsy woman, name unknown, attempted to kidnap a boy named George Lawrence of Manchester, N. H., on Morgan street near the East Hartford Bridge, this morning. The boy is visiting H. Montier at No. 6 Morgan street. While playing on the street the woman approached, picked up the boy, and tried to carry him off. The boy's companions ran home and the police were notified. The woman dropped the boy and escaped.

Fatal Boiler Explosion.

LEXINGTON, Mo., Aug. 17.—The boiler of the Wellington Rolling Mills exploded yesterday afternoon and instantly killed Engineer Johnson and a boy named Albia.

The service will be conducted by the bishop of the diocese, assisted by a number of clergy. On that day the memorial stone from St. Alban's abbey, England, will be placed upon the walls. A missionary service will be held in the evening at 7 o'clock, with addresses.

Notify the Italian Consul-General.

Governor Morris has had printed and sent to each judge of probate and registrar of vital statistics in the state, the letter recently received from Secretary of State W. Q. Gresham regarding notification to Italian consuls of deaths of subjects of that country. The governor also makes the request that the Italian consul-general in New York be notified of the death of any Italian resident in the town or probate district.

A Delegate to Rome.

The Rev. D. William Maher, pastor of St. Mary's church, Milford, and once chancellor of the Hartford Catholic diocese, has been delegated by Bishop McMahon to go to Rome on a mission of much secret importance. Dr. Maher is a graduate of the propaganda, and was a doctor of divinity before his ordination to the priesthood.

Roman women were admitted to tragedies, but not to comedies.

A SERVICE BREAKING SHOWER.

The Grove Meeting Suddenly Ended —A Thousand People Retreat

TO THE BUILDINGS.

The Guests in the Society Houses—Visitors to the Grounds.

WILLIMANTIC CAMP GROUND, Aug. 17.—Thursday is always the great day at the camp ground; so the inopportune shower which broke up the 10 o'clock meeting this morning was received with somewhat protesting philosophy, although its need has been keenly felt during the week. The first drops of what developed into a day's downpour brought to an abrupt close a meeting of over a thousand, at which the hymns were announced by the Rev. Mr. Taber of South Manchester, the scriptural reading, Isaiah xxxv, was by the Rev. Mr. Massey of East Thompson, prayer was offered by the Rev. Mr. Bridgford of Danielsonville, and a sermon was preached by the Rev. Mr. Hollingshead of Pascoag, R. I.

Lamentations III., xxiv: "The Lord is my portion, saith my soul," was the text from which the preacher deduced the lesson that earthly possessions do not satisfy the human heart. There is a difference between satisfaction and gratification. Envy, losses, calumnies, bereavements and cares are the heritage of those in high places. The testimony of the honest pleasure seeker is "All is vanity. So with honors, fame, wealth. God only can fill the capacity of the soul and satisfy its cravings. Thrice happy the man who can say, "The Lord is my portion." His restless and fevered state of soul-hunger will be at an end. There cannot be any vacuum when filled with all the fullness of God. In it the soul has also an abiding portion.

After the usual announcements, benediction was pronounced by Elder Tirrell.

In the afternoon, the rain still continuing, adjournment was made to the tabernacle which was crowded to the doors and beyond, and many standing throughout the services. Scriptural reading by the Presiding Elder, prayer by the Rev. G. H. Bates of Rockville, and a hearty song-service by the choir preceded the sermon by Dr. Louis Bates of the East Boston Bethel, who was briefly but pleasantly introduced to the congregation by Elder Tirrell, as the friend of the sailor in every port of the Atlantic and Pacific.

Acts II. 38 and 39 furnished Mr. Bates his text: "Ye shall receive the gift of the Holy Ghost, for the promise is unto you, and to your children, and to all that are afar off, even as many as the Lord our God shall call." It was largely a narration of personal experience in the ministry, incidents in proof of the stability and unchangeableness of God's promises to his children. In the course of its progress the preacher paid a fervent tribute to the Salvation Army for having saved souls in his own city of Boston from depths of degradation; souls which the majority of church members ignore or despise. So strong and earnest were his utterances in the matter of temperance that twice, with unanimous outbreak, his words were cordially applauded by his hearers.

Mr. Bates, who was listed for another sermon in the evening, is an uncle of the Rev. G. H. Bates, formerly of Norwich.

The following persons are at the different church houses:

South Manchester: Huldah Keeney, Mrs. Bloom, Mrs. H. L. Swallow, Mrs. L. E. Strickland, Mrs. Chas. Montgomery, Blanche Taylor, the Rev. J. M. Taber and wife, Mrs. Hurd, Mrs. Warren Taylor, Mrs. Clark Treat, Mollie Richardson, Eva Makin, Alice Bowen, Mr. and Mrs. Geo. D. Keith and family, Mr. and Mrs. E. T. Carrier and family, and the Misses Davidson.

East Thompson: The Rev. and Mrs. Joseph Jackson, the Rev. and Mrs. S. T. Dorey, Sister L. Bowen, Mrs. A. M. Heck, the Rev. L. H. Massey, Mrs. Arnold and son, Mrs. Barber, Fannie Robbins, Mrs. and Miss Stetson.

Norwich, East Main street: Mrs. Dunham, Mrs. David Toomey and Miss Belle Dayton.

East Hampton: Mrs. S. D. Parmalee, Harmony Watrous, Mrs. Smith Markham, Mr. and Mrs. Henry Gates, the Rev. W. S. Foster, Mrs. Benjamin Hill and daughter, Mrs. Wm. Dickson and daughter, Mary Stocking, Fannie Day of Portland, Mrs. Geo. Sellew of East Hartford.

Moodus: A. E. and Abbie Purple, Dr. Russell Arnold and daughter, Mrs. W. W. Beckwith, Rev. W. C. Newell, wife and daughter, Rev. Herbert Murkell, the well-known elocutionist.

D. J. Treat, Mrs. L. B. Newell, Providence; Mrs. John Brainard, Mrs. Richard Clark, Mrs. Isaac Wells, Mrs. Jeremiah Watrous, West Chester; B. H. Closson, South Glastonbury.

Willimantic: Mr. and Mrs. Green, John Mitchell, Robert Brown and wife, Miss Worthington, Misses Nicholas and Jackson and George P. Abbott.

Manchester: Mr. and Mrs. D. M. Case, Mrs. A. C. Wolcott, Mrs. L. H. Scranton, Mrs. J. D. Johnson and two daughters, Mrs. Emma McNall and children, E. T. Hale.

Danielsonville: Rev. and Mrs. J. S. Bridgford and family, Maria and Esther Johnson, Mrs. Joseph Snow, Nellie Codding, Mrs. Walter Day and daughter, Mrs. Lord and Mrs. Geo. Skinner of Hartford, Rev. John Oldham and daughter of Woonsocket; Mrs. Andrew Johnson, Holyoke; Frank Sheldon, Central Village; Mr. and Mrs. Herbert Caulkins, Lyme.

Norwich North: James Lathrop and wife, Peter Wilson, Rev. J. O. Dodge, Mrs. Draper and Solomon Hyde.

Colchester: Rev. J. S. Bell and wife, J. W. and Mrs. C. M. Lyman, Mrs. Lydia Jones, George Austin and wife, Miss Alice Taylor and child, Mrs. Norman Palmer, Mrs. Sanford and daughter, Mrs. Mary Fuller, Louise Squires, Mary Fette, Mary J. Mowry, Bessie Soper and Mrs. Eunice Norton.

Camp Notes.

Mr. Charles H. Allen of the Sachem street church was elected a trustee at the annual meeting on Wednesday.

The Rev. Mr. Braley of Glendale is a regular attendant at the various meetings.

The friends of John Exley need not be alarmed at his absence from Norwich. He was sprinting round the camp ground in his usual lively manner on Thursday.

The Rev. Mr. Bridgford of Danielsonville succeeds the Rev. W. I. Ward of Niantic as secretary of the Camp association.

Mrs. Dr. Brown of Norwich was among Thursday's visitors.

Deacon Tribble of Mystic led the 8 o'clock meeting this morning.

The Rev. L. T. Johnson of Oxford, Mass., conducted a Bible meeting at 1 o'clock today. It was well attended and profitable.

The health of the people on the ground is generally good. The few cases of sickness which prevail are solicitously cared for by the genial camp physician, Dr. E. F. Smith of Putnam, who for 18 years has most skillfully treated the sick here and merited the confidence of all.

Mr. Thomas Latham of Gales Ferry arrived at his cottage here today. For fifteen years Mr. Latham has taught school until July in Uncasville, but he has recently joined the book-keeping staff of Robertson Bros. of Montville. Mr. Latham is a fine penman, and will undoubtedly be as successful in his new venture as he has been in the past.

Mrs. Read of Worcester has been leading most enthusiastic young people's readings in the midday reunions during the week.

The Rev. W. I. Ward announced today that the unanimous vote of members at the meeting held at one o'clock was that a Bible conference be held next year, as usual.

Mr. M. V. B. Pierson and father visited camp yesterday. The latter is a hale old gentleman of 84, and one of the most respected residents of Tolland.

A Washington Street Robbery.

One of the recent robberies reported in THE BULLETIN yesterday was at the house of Mr. W. G. Lanman on Washington street. Mr. and Mrs. Lanman are away and the residence is in charge of servants. Sunday afternoon a well dressed stranger called in their absence, opened a back window by removing a pane of glass, and entering ransacked the premises. Most of the valuables were safely hidden, but the thief succeeded in getting safely away with $15 and two gold rings.

Connecticut Peace Meeting.

The Connecticut Christian Peace union will hold its annual convention and grove meeting at Mystic, near where the Peace Temple is to be erected for the future use of the society and for lectures on peace and arbitration, August 29, 30 and 31. The R. I. Radical Press society responds to the friendly invitation by sending Miss Julia B. G. Plummer, Mrs. Elizabeth B. Chace, the Rev. R. J. Hudson, Mrs. Rose O. Joslin, Shubael S. Howe, Miss Annie B. Plummer and Nicholas Carr as their representatives.

ONE ON WEATHER JOHNSON.

Faith of His Friends Shaken in the Weather Prophet.

The people of Middle Haddam and Cobalt, who have been firm believers in the predictions of Weather Prophet Horace Johnson ever since the great March blizzard, had their faith badly shaken one day recently, and since that time they have been wondering whether Horace really knows as much about the weather as he pretends to.

On Tuesday morning Mr. Johnson came up to Cobalt depot on his way to Hartford, and brought with him a rubber coat, an umbrella and a pair of rubber overshoes. He remarked to those about the station that a tremendous rain storm might be expected that afternoon and evening, and he warned the farmers to make preparations for it.

His rubber articles of wearing apparel he left at the station for his own use when he returned in the evening from Hartford. When the train rolled in that night with Mr. Johnson on board, the sky was full of stars and not an intimation of rain in the air. Mr. Johnson got off the other side of the cars and proceeded home without his rubber coat or umbrella, which are yet at the depot.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A DEAF MUTE'S INVENTION.

Ambrose Clark of Mystic Constructs a Seaweed Rake.

One of the old residents of Mystic is Ambrose Clark, a deaf and dumb man about 65 years old. He is a machinist by trade and has been in the service of the Standard Machine Co. for nearly forty years in succession, the longest of any man in their employ. Mr. Clark is of an inventive frame of mind and for years past he has endeavored to invent a seaweed rake, but has never been wholly successful, although he has spent more than $1,000 in the attempt. Profiting by experience he has expended some $300 and has now got what is expected to be the right thing. It is a called a patent seaweed rake.

It is about 12 feet long, the rake part being 8 feet long and 2 feet wide with a band at the bottom to make it strong. The shore is a large frame with a shaft or windlass barrel through the center on which is fastened copper wire connected to the end of the rake, and the whole turns by a crank which runs on double gears, making the same easy to turn. This, it is expected, will bring large quantities of seaweed in from the shore. Mr. Clark will probably give his invention a test next week, by which he hopes to revolutionize the seaweed industry.

"YANK" ADAMS' NEW SCHEME.

It Is to Start a Paper Devoted to the Interests of Wheelmen.

Francis Swigert, proprietor of The Mercantile and Financial Times of New York, accompanied by his wife, is visiting "Yank" Adams and wife at No. 295 Seaview avenue, Bridgeport.

There is more than ordinary significance attached to this visit. Yank Adams, whose ideas on things in general are just as fertile and original as they are in billiards, has for some time had a notion that the field of bicycle literature was not fully or properly covered. His ambition is to start a weekly paper devoted to bicycling news and with a front page picture after the manner of Puck, Judge and Truth. He figured on securing a circulation of at least 10,000 for the first number. If the idea takes material form Mr. Swigert will be a partner in the enterprise.

HEALTH OF THE STATE.

Less One Thousand Deaths in the Month of July—The Percentage.

The state board of health has received the mortality report for July from all but two towns in the state—Bloomfield and Warren. There were 1,073 deaths reported in the state during the month. This was 300 more than in June, and 115 less than in July, 1892, and 59 more than the average number of deaths in July for the five years preceding the present.

The death rate was 23.0 for the large town; for the small towns 15.2, and 20.6 for the whole state. The deaths from zymotic diseases were 466, being 34.1 per cent of the total mortality.

The percentage of annual death rate per 1,000 population for the leading cities and towns is as follows:

Ansonia 24.4, Bridgeport 20.9, Danbury 24.0, Groton 5.6, Hartford 21.6, Meriden 18.5, Middletown 17.4, New Britain 20.4, New Haven 25.4, New London 17.6, Norwalk 22.6, Norwich 19.8, Stamford 22.1, Stonington 14.4, Waterbury 23.1, Windham 19.8.

Electricity is now made use of to dry tea leaves in Ceylon.

FIXING ON A PLAN.

Senate Steering Committee Hard at Work.

DIFFICULT TO UNITE DEMOCRATS.

Secretary Carlisle Conferring With the Senators.

WASHINGTON, Aug. 17.—The senate steering committee with Senator Gorman at its head, is hard at work formulating some plan by which to unite the Democratic senators on a vote on the silver question. The house plan was fixed up by Secretary Carlisle at his residence, where the friends of the administration met and reached an understanding. The secretary is now in conference with the senate committee with the same idea in view. The trouble thus far has been to get the Democratic senators to unite. They having, however, agreed in their caucuses to the appointment of a committee to manage such matters, the secretary feels encouraged that some satisfactory arrangement will be made. He and other friends of the administration are aware that unless some agreement is reached it will be impossible to secure an early vote.

There has been some criticism in administration circles of the character of the steering committee, on account of its strong silver proclivities, but Senator Gorman, who is managing the affairs, says that it was necessary to make some concession to that side of the senate, as it was largely in the majority. Notwithstanding Senator Gorman voted twice for free coinage, he is now in accord with the policy of President Cleveland and is aiding in bringing about the

Success of the Administration Policy.

A Democratic senator, who has given much attention to the controversy now pending, said today, that he now believed that the ultimate result would be the unconditional repeal of the Sherman act.

Senator Lodge this morning expressed confidently the belief that if the senate could be brought to a vote on the unconditional repeal bill the measure could be carried by a small majority. "But the difficulty is," said Senator Lodge, "to secure a vote. There is much restiveness at the situation, but I do not see how a vote is to be forced. The vote in the senate in any event will be very close. Nothing will be done on the silver question in the senate until the bill shall have been acted upon by the house. The house bill will not reach the senate until Aug. 28. It must then be referred and brought back to the senate. Practically it will be Sept. 1 before the house measure will come up for consideration in the senate. The house, notwithstanding the strong friendship for the repeal measure in that body, will have had the bill three whole weeks under discussion. I am afraid that the senate will require

Twice as Much Time as the House

will have taken. I greatly fear that the bill, in whatever form it will be sent to the President will not reach him before the middle of October.

"Before Sept. 1 it is possible that the senate may act upon the pending bank bill, but there will be no attempt on the part of Democrats, apparently, to secure action in the senate upon any silver measure prior to the action of the house."

Senator Lodge much doubted whether Russell of Leicester will consent to accept the Democratic nomination for governor.

THE CUP DEFENDERS.

Racing Off Newport, R. I., in the Rain For Astor Cup.

NEWPORT, R. I., Aug. 17.—In a race today for the Astor cup the four cup defenders, Jubilee, Vigilant, Colonia and Pilgrim started with a strong steady breeze. The start was made at 11:53, the Pilgrim being the first over the line closely followed by the Jubilee.

The course was from an imaginary line between the May and Brenton's reef lightship to and around a float displaying a large red flag 15 miles to windward or leeward and return, finishing over a line drawn as for the start.

At 12:30 the Pilgrim came about and stood after the Vigilant and Colonia on the port tack. The order then seemed to be Vigilant, Pilgrim, Jubilee, Colonia. The boats, however, were almost hull down and beating off shore, and it was almost impossible to tell just which was leading.

The wind was still blowing fresh and the boats were still having a fair and square contest. Handling, in a measure, determined the result, as there was not a great deal of difference in the boats.

At 12:25 it was raining hard and thickening up outside, and the boats were soon lost to view in the storm.

BOMBAY SHOPS CLOSED.

Every Train From City Filled With People Flying for Safety.

LONDON, Aug. 17.—A dispatch from Bombay says that, although there has been no renewal of the rioting in that city today, confidence has not yet been fully restored.

The shops are closed, and every train leaving the city is filled with families, carrying their personal effects, who are returning to their native districts with a view to securing safety in the event of general trouble.

The working people refuse to resume their occupations until after tomorrow, which is a Mohammedan prayer day.

Short but Effective Will.

NEW YORK, Aug. 17.—The will of Adolph Von Prief of Williamsburg who died June 1, has been filed with Surrogate Abbott, in Brooklyn. His estate valued at $10,000, is bequeathed to his widow. Mr. Von Prief made his will Jan. 25, 1882. It was written on a half sheet of note paper, and did not contain more than 40 words.

Armor Plate For the Monadnock.

VALLEJO, Cal., Aug. 17.—The first consignment of armor plates for the monitor Monadnock have been received at the Mare Island navy yard from the Carnegie works. The aggregate weight of the plates is 41,000 pounds. The three larger ones weigh 11,100 pounds each.

Settled For $1000 Damages.

BIDDEFORD, Me., Aug. 17.—Norris Wiggin of North Berwick who was injured on the Boston and Maine Railroad two years ago, has just settled with the company for $1000 damages.

INTERESTING FACTS.

The oldest coin in the world is an Æginan piece of the year 700 B. C.

Russia has the greatest amount of live stock of any country in Europe.

England leads all nations in the number of women employed in government positions.

Among all races the weight of the male brain is 10 per cent heavier than that of the female.

Among the 58 counties of California there are no less than 14 which end with the letter "o."

Christmas and the Fourth of July are the only holidays which are alike legal in all the states and territories.

DEFUNCT BENEFIT ORDERS.

Have About $2,000,000 In State Treasury Awaiting Distribution.

BOSTON, Aug. 17.—The state treasury at the state house now holds in mortgages municipal bonds, stocks and gilt-edge securities the equivalent of about $2,000,000. This is held by the treasurer under the law awaiting the action of the receivers of the defunct endowment orders who are to distribute the amount to the certificate holders. At the present time it would be a difficult matter to place these upon the market in its present state.

In order to facilitate a settlement the supreme judicial court proposes to take an active stand in the matter, and to that end Hon. E. C. Bumpus has been appointed by the court a special master to examine into the situation of the several endowment order corporations, to confer with the receivers and to report to the court a plan for an immediate dividend to the claimants, with the draft of a decree ordering such a dividend.

Judge Bumpus has taken such a course of inquiry as will probably result in a practical solution of the endowment cases. The Court have evidently come to the conclusion that the only way to settle them up is to take a common sense view of the matter and arrange a settlement which will not allow a long litigation ending in a wasting of the assets.

Judge Bumpus has asked for and is receiving prompt answers to his letters, and intends to make a report to the court by Sept. 1.

BEHRING SEA AWARD.

Policy of Lord Salisbury and Not That of Ex-Secretary Blaine.

LONDON, Aug. 17.—The Times, in an editorial this morning says: "The Behring sea award appears to have been received in the spirit we anticipated.

"America herself, one of the powers that have played a chief part in the elaboration of a system of international law, and whose destiny seems to point to a yet wider development of her power on the seas, must in the long run feel that a recognition of any limits to the rights of free navigation would be prejudicial to her permanent welfare, even though those limits might even be recognized in the first instance in a manner favorable to herself."

The writer contends that it is the policy of Lord Salisbury, and not that of Mr. Blaine, which is justified by the award. He admits that America got the better of it on the practical question of the method of hunting seals, and says that it seems hard that one system of slaughter should be supervised, while the other is not.

He adds that perhaps it would be too much to hope that the advice of a temporary suspension of hunting will be taken, although the suggestion emanates from an authoritative quarter.

SALARIES CUT DOWN.

General Reduction of Wages at the Carnegie Company's Works.

PITTSBURG, Aug. 17.—Under date of Aug. 12, the following circular was sent to the heads of all departments of the Carnegie Steel company:

Taking effect Sept. 1, and applying to every officer and employe of this association except those working under wage scales, the following reduction in salaries is ordered: On salaries exceeding $500 per month, 20 per cent; on salaries $400 and less than $500 per month, 15 per cent; on salaries $300 and less than $400 per month, 12 per cent; on salaries $200 and less than $300 per month, 10 per cent; less than $200 per month, 10 per cent.

This action has been deferred as long as possible, in the hope that some improvement in the existing trade depression might occur, but as the situation is daily becoming worse, this reduction is found absolutely necessary.

By order of board of managers.
H. C. FRICK, Chairman.

PAPER MILLS BURNED.

Property of the Waban Company at Charles River Village Destroyed.

NEEDHAM, Mass., Aug. 17.—The Waban paper mills at Charles River village, owned by Frank H. Brown, were totally destroyed by fire at about 4 o'clock this morning. Mr. Brown had just introduced a system of automatic sprinklers, and was about to put in a steam pump for fire purposes. The total cost of these improvements was nearly $5000. The fire is supposed to be of incendiary origin. The loss will be about $40,000.

The barn adjoining the house of Mr. Owen, in front of the mills, caught fire in several places, but was saved by the efficient work of the fire department. It is a singular coincidence that the three recent fires have each occurred on Wednesday night, and each was probably the work of an incendiary.

MYSTERIOUS ROBBERY.

New York Jewelry Representative Loses $30,000 Worth of Diamonds.

ST. LOUIS, Aug. 17.—A very mysterious robbery in the loss of a case of black drilling diamonds, valued at $30,000, occurred Tuesday night between the Lindell hotel in this city and Cincinnati. The victim is C. H. Billings, who represents a New York jeweler who was at St. Louis last Saturday and put up at the Lindell house.

Tuesday he announced his intention of leaving for Cincinnati, and the diamonds were turned over to him shortly before 8 o'clock. He rode in one of the St. Louis transfer busses to the Union depot, and it is believed that during the ride the diamonds were stolen. Everything possible was done, but not the slightest trace of the diamonds has been found.

Congressman Chipman Dead.

DETROIT, Aug. 17.—Hon. J. Logan Chipman, congressman from the first district, died at 7 o'clock this morning. Mr. Chipman was born in Detroit in 1830, and was a lawyer by profession. He had been twice chosen judge of the Detroit superior court and was three times elected to congress as a Democrat.

Pretext For Hostilities.

LONDON, Aug. 17.—A dispatch from Calcutta to the Times, referring to the recent riots in Bombay, says that the cow and hog killing incidents were made a pretext for the opening of hostilities. The enmity between the Mohametans and Hindoos has a far deeper and wider significance.

Child Drowned In a Cess Pool.

LYNN, Mass., Aug. 17.—Annie Bernstein, the three year old child of Simon Bernstein, was found drowned in a cesspool in the yard of the house at 127 Adams street at 3 p. m. today. The child was at play and accidentally fell in.

Big Fire at Atlantic City Reported.

PHILADELPHIA, Aug. 17.—It is reported from Atlantic city that fire this morning destroyed Kuehnle's hotel and several small stores.

PORTEOUS & MITCHELL.

PORTEOUS & MITCHELL.

Our Annual Clearance Sale of Summer Merchandise will continue all this week.

We have had similar sales every season, but never before have we had at this season of the year a sale which offers so many and such incomparable lots of desirable merchandise as are included in this sale.

Every department offers some unapproachable bargains, and the greater the lot the lower the price.

Bear in mind that when we say "bargains" we mean something out of the ordinary. We never use the word except in connection with something extraordinary.

During former sales there have been many disappointed in getting some particular article because they waited too long before coming to see about it.

Don't let it be your lot to be among the disappointed ones. If you need anything in merchandise now is the time to most advantageously buy it.

Staple Merchandise as well as Summer Goods are included in these offerings.

Men as well as women are interested.

There is something for everybody, and the prices were never lower than now.

BEST FOOD FOR BABIES.

Urgent Necessity at This Time of the Year of Putting Them Upon the Safest Diet.

[illegible] care at all times, but especially now of baby's food.

Upon the purity and strength-giving quality of the food, and especially upon its fitness for a hot weather diet depend baby's life.

When the little one's flesh is flabby, blood thin and poor, color white, and temper uneven, if not irritable, there is an urgent necessity for a change. It is time to put the baby at once upon lactated food, which contains all the essentials of a perfect diet. It furnishes abundant material for rapid growth and development.

When the mother's milk is insufficient in quality and quantity for baby's healthy growth, any one who stops to think must know that the infant food which most closely resembles mother's milk must be used. This is undoubtedly lactated food. It is used and recommended by the best physicians in every community in the country. It has received more testimonials within the past month from happy mothers than could be printed in a score of such columns as these, and the fact that it is not expensive, but is within everybody's reach, and can be obtained at any drug store, makes it even more a boon. Mr and Mrs. Charles Souder, who live on Campbell street, Sandusky, Ohio, owe their happiness to lactated food. They write:

"When our baby, Ruth, was sick there was nothing that would stay on her stomach. The doctor advised the use of lactated food, and very thankful we are, for in a short time it worked wonders. She is now a large healthy child. Her age is one year and four months. We are convinced that if it had not been for the [illegible] use of lactated food our baby would have died. We now have another little one that we are raising on lactated food, we have such faith in it, and we also recommend it to all our friends."

Hundreds of such testimonials have been published. Hundreds of little ones in this state owe their lives to lactated augl6d

BABY'S ASLEEP.

Snug in her hammock here,
Under green trees,
Swinging so languidly,
Lulled by the breeze;

Safely with silken cords
Baby is tied;
One little dimpled foot
Straying outside;

Sunny lines lavishly
Fashion her face;
Rosy blooms blushingly
Touch it with grace.

Down through the orchard boughs
Comes the soft air,
Tenderly kisses her,
Plays with her hair.

Perched on an apple bough,
Bending above,
Swings a sweet oriole,
Singing of love.

Hushed are the katydids,
Hid in the grass,
Listening as Brownie folks
Sing as they pass.

Here comes a honey bee
From his retreat,
Drowsily humming home,
Heavy with sweet.

Softly some drowsy god
Closes her eyes,
Fair as forgetmenots
Under blue skies!

Walking in Wonderland,
Baby's asleep,
Dreaming of Brownie folks
Or of Bo-Peep!
—E. Way Smith in Cleveland Leader.

A TYPEWRITER GIRL.

There was weeping and wailing and gnashing of teeth in the St. Clair household.

Caroline, the youngest daughter, had decided to carve her own fortunes, as those of the family were getting in a most entangled condition, and "unbeknownst" to her worthy relatives had sought and secured a position as typewriter in one of big, wicked Chicago's well known business houses.

"It's a disgrace to the family!" Brother Bob declared, and he donned his overcoat and repaired to the clubhouse around the corner. Mamma wept loudly; papa fumed faintly.

"John Vandergast!" moaned mamma. "He will never look at you again! A daughter of mine a typewriter!"

Caroline's short upper lip curled slightly more than already curled by nature, although an apprehensive look did come into her great hazel eyes.

"If you think, my dearest mother, that I am going to starve here in this remote quarter of the woods, even in the most genteel style, just for a look from Mr. Vandergast, you are vastly mistaken."

"There are other employments for a woman—such a public position! And typewriters are always so—so talked about!"

"In the newspapers," added Caroline. "But no one will ever talk about me!" she finished, with stern bravery.

Before it was time for Caroline to leave for the distant city her father had altogether ceased his fuming and was considering the advantages of his daughter's assistance. Of late years the struggle had been a hard one for him. His wife had always been a society woman and extravagant; indulged sons and fashionable daughters, whose marriages had each cost him a small fortune, had so reduced the estate made in his prime that now, in his old age, bankruptcy constantly stared him in the face.

"I regret, daughter," he said as the train whistled and they were out on the station platform, "that you are going so far from home. But I know how you would feel to begin labor here, and I fully appreciate your efforts in assisting me. The burden is growing heavier with every year," and he sighed.

"Somebody has to do something," returned the daughter sententiously.

"And I know you are fully capable of taking care of yourself. God bless you, my girl."

And the careworn father was prouder of his typewriter girl than of his wealthiest and most beautiful daughter.

But once on the car and steaming Chicagoward Caroline was not quite so brave, and despite her tall, dignified self one or two tears rolled down her aristocratic nose and defied the superior little curl of her short upper lip.

What if John Vandergast—they had been such friends before he left for Europe, and although Caroline had not given her promise, for she was not sure of herself, she had consented to speak with him again upon the subject when he would return.

Now she was sure of herself—but then!

"It is one more test!" she said sternly to herself as she brushed away the impertinent tears, "and a good one too. I am so glad I defied mamma and took the business course at college."

In the excitement of her new life Caroline forgot her little thoughts that might have been called sentiment. She passed the ordeal of critical examination by the other typewriters in the office with supreme indifference and so impressed her employers with her dignity that they were half afraid of her.

As a typewriter she was invaluable—rapid, correct, distinct, her every sheet perfection itself, but there was no social intercourse nor pleasant conversation.

"That girl," declared the junior partner, "actually scares me. She's too pretty to be such a prude."

"Ye—es," drawled the senior, and that afternoon the venerable gentleman asked her how she spent her evenings.

"Sir!" inquired Caroline.

"You—excuse me, but you are young and not homely, and you will pardon an old man if he takes an interest in your welfare in this great city."

"Ah, yes!" Caroline drew a long, expressive breath, and a close observer would have said that her nostrils dilated something like those of a high strung horse. "Sunday evening I attended services at St. James; Monday evening I devoted to literature, Emerson, Carlyle and Renan being my favorite authors; Tuesday evening I attended the musicales, and Wednesday evening I attend prayers; Thursday evening I again devote to reading; Friday evening I generally attend the opera or concert, and Saturday evening I give to preparations for the Sabbath."

Then she turned to her Remington, and the old gentleman groaned in an aside.

Caroline was flushed and wrathful.

"The old sinner!" she was fuming to herself as she took his dictation in shorthand. "As though he thought I could not understand!"

Caroline was past 20 and considered capable of taking care of herself, yet she felt as injured and insulted as though the white haired man had ogled her as he did the youngest and most flippant girl in the house.

But Caroline did not wish to lose her position, for it was an unusually paying one, and it began to be an effort to her to repel the insinuation of the senior partner without offending him. She soon detested him most heartily.

One morning the junior partner came in very much flurried.

"Vandergast is in town," he said. And despite herself Caroline reddened and then grew pale.

"Hey? You don't say! Well, that's deucedly inconvenient just now."

"He will be looking into accounts, and we are not prepared for that at present," said the youth significantly.

"No," mused the other, and then they held a lengthy consultation, during which Caroline was on the qui vive to catch every word.

But they spoke guardedly, for all that her outward appearance was one of such indifference. Evidently it was of enough importance to not trust her fully.

"Yes," said the senior at last, "that will be the best plan. We will secure the bonds at the bank to put a good face on things, and then he will not be likely to look deeper until after the crisis. It would ruin us for him to withdraw his shares now."

All this was Greek to Caroline until she remembered several communications she had taken which were in regard to speculations, and then it was clear to her. The junior partner went at once to the bank, and the old gentleman seemed somewhat worried.

Caroline gave no sign, but she made a resolution, and when 5 o'clock, her hour for quitting work, came she said calmly:

"I believe I must sever my connection with this office today. I wish to return home."

"Ah—ahem! Do I understand you mean to quit us at once?"

"Yes. I wish to return home tomorrow morning," she returned imperturbably.

"This is rather sudden. Indeed I do not see how I can let you go at once."

"But you must, sir!" said Caroline, with decision.

So he made out her check and bade her a suave goodby, and a few minutes later found her in the hotel waiting for John Vandergast.

Whether it was her John or some other Vandergast, she had determined to warn him and then go home for a vacation until she secured another position. And when she looked on the hotel register she knew it was her John.

"Why, Caroline," he said, when he came in, his face lighting up. "This is a most unexpected honor. I was hurrying business matters so as to get home tomorrow to see you."

He shook her hand warmly and looked closely into her face to see if he might venture any further greeting.

No one would be apt to take even a lover's liberty with Caroline.

"You have made my stay a long one and a tedious one to me by denying me the privilege of writing to you," he said in reproach.

"Yes, I know, John," she rejoined hastily, for she was afraid her blushes might encourage an embrace, "but you know I am a typewriter now, or was an hour ago." And she looked at him defiantly. He laughed.

"I understood in one of my letters from home that you had accepted some position here in the city, but I could not learn where or what it was. I am sure you are the same if not more to me for that. Typewriters are a fine set of girls."

An unmistakable satisfaction came into Caroline's face.

"I am—so glad you do not think less of me than you did," she said, under her breath. Then she recollected her errand.

She told him what she knew, and he listened with a grave face.

"I am glad you told me. It is providential you were employed there. So they are speculating, and from what you tell me my thousands would have been higher than the moon by day after tomorrow. I will withdraw them for you, my queen, this very day."

Then as there was not a minute to lose Caroline bade him goodby and hurried to her boarding house. The next morning she was homeward bound, John Vandergast's promised bride.

Several months later there was a quiet wedding in the St. Clair homestead, and the typewriter daughter was the highest honored the worldly mother had.—Belle V. Logan in Chicago News.

Two Great Composers.

Dr. Hanslick once asked Schumann how he got on with Wagner.

"Not at all," replied Schumann; "for me Wagner is impossible. Doubtless he is a very clever man, but he talks too fast—one cannot get a word in."

Some time after, in an interview which Hanslick had with Wagner, allusion was made to Schumann.

"With Schumann," said Wagner, "it is impossible to arrive at an understanding. He says nothing. Some years ago on my return from Paris I called upon him to talk of operas, concerts, composers and other interesting matter with which I had become acquainted. Schumann looked at me stolidly, or rather he looked into space, without saying a word. Faith, I took leave of him almost immediately. He is an impossible man."—London Tit-Bits.

Better Than the Average.

Interested Friend—Are you doing well with your literary work?

Young Author (cheerfully)—First rate, thank you! I sent off eight poems, three stories and four essays last week, and only 13 of the manuscripts have come back to me as yet.—Somerville Journal.

Good Lawyers.

Some of the most pious, the most consecrated, the most consistent, the most humble Christians we have known personally and intimately have been or are now lawyers. We could name several who have through long lives lived close up to their Heavenly Father in sweet and gracious communion. We say further that many of the purest, noblest men we have known—patriots in a high sense, with lofty ideals and a morale comparable to the best—were lawyers. They were an ornament to their country and the human race. We know some of this kind who still survive.—Wilmington (N. C.) Messenger.

MEN WHO HAD LUCK.

STORIES CIRCULATED IN A GROUP OF TACOMA SPORTS.

Most of Them Were Told by Professional Gamblers and May or May Not Be True, but an Affidavit Is Required For the Yarn About the Gold Seeker.

"Well, that was luck."

The speaker was one of a group of half a dozen men who were standing on Pacific avenue puffing away at Havanas and talking just to pass time away and to clear their throats. The conversation had been about the livery stable man, Martin, of this city, who had fallen heir to $850,000 three years ago and didn't find it out until a few days ago.

"Talk about luck," said one of the group, who was a gambler, "we see plenty of it. Do you know that one day last week a man entered one of our gambling houses with a nickel and won out $400 in three hours? He had gone clean busted the night before and found the nickel in an out of the way corner in his room the next morning.

"That blokie went to the gambling house with the intention of placing his 5 cent piece on the number 5. He got into the room when the roulette ball was whizzing around on its tour of numbers. He rushed to the table and got down his nickel on the five just as the game runner shouted 'All down!' In a few seconds the ball started on its 'rear end' bouncing, and in a few seconds more the man shouted 'Five!' That gave the man with the nickel $1.75 for his 5 cents. Then he put $1 on No. 17, and that number came up, giving him $35 more. He continued to play with varying luck until in three hours he had won $400. And the next day he was broke again. He borrowed a nickel and tried the game again, but it didn't go."

"I can tell a story of a man who was lucky," said a business man. "In the early days of the gold excitement in California, there came into San Diego a man who was ragged and sick almost to death. He was taken in hand and fed and fixed up. Then he told a story of a wonderful find of gold he had made. It was only a few days off, he said, and he would take a party to the place if they would outfit.

"Several men who heard the story of the great gold in the mountains that was theirs to go after got up a party of 50. The start was made with that man as leader. After a few days' travel it became evident that the man had forgotten the way. They traveled on, trusting to luck, however. Indians were hostile at the time, and they started in to mow the gold hunters. They picked off one after another with their bullets. A score were thus taken off. Then a fever struck the party, and 11 more went the way of death.

"By this time the 19 survivors were crazy with rage. They had been 14 days out and were traveling in the most arid country. Food was growing less and less, and death faced everybody. On the afternoon of the fourteenth day the leader, who had caused so much misery, was given three days more to find his gold 'find.' If he was not successful by that time, he was to hang.

"Well, the three days had almost passed, and still there was no sign of the find. The last hour was almost up. It seemed that the man must hang. There were only five minutes more, now two minutes, now one minute, now a half minute—then came his luck. Just as the time was up for the hanging that man dropped dead."

"I don't see how he was lucky," put in the gambler who had told the first story.

"Why," said the business man, "he was lucky because if he hadn't died he would have been hanged."

Another gambler told how a few days ago a green Swede who knew nothing about the game, but determined to try his luck, had won nearly $1,000. He had been an onlooker once or twice and seen big winnings. He went to the roulette wheel with $30, and in a few hours he had won out $900. It seemed that no matter what number he put chips on—and he played recklessly, as all new players do—it came up every time. That was pure luck. The man played no combinations or "arrangements," because he was as green as grass and knew nothing about the game.

"I have a friend," spoke up one of the group, who is connected with the city government, "who by the merest luck made a discovery that is netting him millions. His name is Perkins, and a few years ago back in Minnesota he made his discovery. He was a traveling man for a grocery firm, and while walking to a train to go from one country town to another one day he whittled a stick.

"He had whittled the stick in a triangular shape. On the train the idea struck him that the shape would be just what was wanted for railroad spikes. The square spikes in vogue were not the right thing because they split the grain of the green ties when driven into them, and when dry the wood shrank away from them. The triangle shaped spike would not split the grain, and subsequent shrinkage would be done away with. Perkins submitted his discovery to Pullman, and now the spikes are being made by millions at Pullman, Ills., making millions for Perkins and Pullman."

Another gambler here chimed in with the statement that during the past week a gambler from Seattle had won $2,300 at faro in Tacoma rooms in two sittings. Both sittings occupied 18 hours, and the first sitting resulted in the winning of $1,300 and the second $1,000. During the latter game the man was out nearly the whole $1,300 he had won at sitting No. 1, but he picked up and won big money. "I suppose he has gone back to Seattle with his dough," said the gambler, "as I have not seen him for some days."—Tacoma News.

Kind Indeed.

Collector (angrily)—Do you intend to pay this bill next week or never, sir?

Trotter—Well, since you offer me a choice, I say never. Really very kind of you. Good day.—Truth.

The Term Spinster.

Among our industrial and frugal English forefathers it was a maxim that a young woman should never be married until she had spun herself a set of body, table and bed linen. From this custom all unmarried women were termed spinsters, an appellation they still retain in all our law proceedings.—San Francisco Argonaut.

Gayly Decked Immigrants.

A picturesque party of Italian immigrants landed at the barge office the other day. There were about a dozen men and six or eight women. The men wore clothing of a rough, buff colored material, with scarfs and caps of brighter hues. The women displayed a variety of gay colors—red, yellow, blue and pink predominating. Each woman was bareheaded, but each wore ribbons in her hair and a bright colored shawl or apron. The strangers attracted a great deal of attention as they straggled up Broadway from the Battery with their bundles. They evidently found as much novelty in their surroundings as the New Yorkers found in their quaint appearance. The women apparently had the keenest observation and pointed out to their more stolid male companions various objects as the party moved along.

At Rector street they saw a flower stand, and half a dozen of the women gathered about it and gave vent to voluble expressions of delight. They dragged some of the men before the stand and gesticulated violently. The men tried to pull away from them, but could not. After a while some pieces of money came out of the men's pockets, and with much eagerness and chattering the women selected one flower apiece. The vendor took his pay out of the handful of American silver tendered him, and the party moved on, both men and women as joyous as a lot of school children.—New York Times.

A Friend of the Farmer.

The hop growers of Otsego county have discovered what naturalists have long been trying to make farmers understand—that skunks, instead of being their enemies, as they formerly supposed are among their most useful friends. As one hop grower expressed it, "Nowadays we protect skunks as carefully as we do song birds."

Hop yards, it appears, are infested by a certain kind of grub which gnaws off the tender vines at the root, and this grub is the favorite food of the skunk.

As a general thing the skunks sally forth at nightfall, but now and then they are to be seen at work in broad daylight. The proceeding is an interesting one to watch.

The skunk begins his quest on the edge of the yard, where he cocks his head over a hill of hops and listens. If a grub is at work upon one of the four trailing vines, his quick ear is sure to hear it. At once he begins to paw up the earth, and presently he is seen to uncover the grub and swallow it with unmistakable relish.

Then he listens again, and if he hears nothing proceeds to the next hill. And so he goes on till he has had his fill.

Now that the skunks are no longer molested, they have become comparatively fearless. Sometimes, we are told, they keep up their operations even while the cultivator is driven between the rows.—Cor. New York Tribune.

Not Proud of His Election.

In this country when it comes to the casting of ballots the person elected to the position awarded by the suffrage of the people is always extremely proud of the result, even though he may not be especially desirous of holding office. In other countries, too, the recipient of the greatest number of ballots at the polls is apt to swell with pride over the outcome of the voting, but there is a case on record in Japan where the winner at the polls was not only sorry for his success, but came through that success subsequently to wish he had never been born. This was in the village of Awa, and the person honored, or dishonored, by the majority vote was a Jap of the name of Abi Tanibei.

It seems that the village of Awa was harrassed by a midnight robber whom nobody could detect. The head of the hamlet summoned the entire male population under his charge and directed every man to write the name of the person whom he suspected and to deposit the paper in a box. Fifteen ballots bore the name of Abi Tanibei, the rest being blanks. The man whom everybody distrusted was so much overcome with astonishment that he made a full confession and went to prison.—Harper's Young People.

His Solemn Oath.

A popular comedian tells a story of a waiter at a London restaurant who was sadly given to drink. A party of young men determined to reform him, and one day they read to him an imaginary paragraph from a paper relating a terrible accident in which an inebriate in blowing out a candle was killed by the flame igniting the alcoholic fumes of his breath. James pricked up his ears at this and requested that the paragraph might be read to him again, which was done, to the evident horror of the poor man, who immediately went in search of a Bible.

Returning with this, he expressed a desire to take a solemn oath upon it, bemoaned the fact that he had been a sorry tippler and was bringing himself to ruin, and then swore that never again so long as he lived would he attempt to blow out a candle.—Million.

A Water Supply Under Every Barn.

Every barn should have a cistern under it, and especially if the barn have a basement for wintering stock. With suitable contrivances a supply of pure water may be provided, so that the water is shut off automatically when the vessel is filled to a certain height. This is done by a wooden valve resting on the water and buoyed up by it so that the water is shut off whenever it is needed. Such cisterns under barns have often furnished the water promptly so as to save serious losses from fire.—Albany Argus.

Hortensius, the Roman orator, had a memory so wonderful that on a wager he spent a whole day at an auction, and at night repeated all the sales, the prices and the names of the buyers.

The properties and use of the mariner's compass were known to the Chinese centuries ago. It was brought to Europe in the thirteenth century and first used on the Mediterranean.

The smallest tree in Great Britain grows on the summit of Ben Lomond. It is the dwarf willow, which is mature when it attains the height of 2 inches.

A map of Ireland made of hairs taken from the heads of the different members of the McLean family is in the possession of Mrs. A. McLean of Pelham, Ga.

OUR COUNTRY'S FLAG

WHY THE UNITED STATES ENSIGN HAS THIRTEEN STRIPES.

Congress on June 14, 1777, First Passed the Law Designating the Color of the National Emblem and the Arrangement of the Stars and Stripes.

Beginning about five or six years ago public schools in the old Bay State instituted what is rapidly growing into the custom of honoring the birthday of the starry ensign. The day, the recurring anniversary of the historic 14th of June, 1777, the date of the adoption of the "star spangled banner," was celebrated with patriotic declamations and recitations and songs. From Massachusetts the innovation, commended for the patriotism it aroused among the coming citizens of the country, spread rapidly through New England, boards of education in some of the states officially recognizing the occasion and aiding in its celebration. It is also journeying on its way southward and westward and bids fair to become the red letter day of the year in our public schools. Of the 13,-125,000 school children about one-fifth already pay tribute in some form to the occasion.

As observance of the anniversary gains in age and popularity knowledge of our country's ensign will increase both among our youngsters and their parents, the "children of a larger growth." Few symbolisms should be more cherished by all good Americans than should be our flag. And yet—is it due to lack of patriotism or to our national hurry?—the average American, the schoolboy always barred, stutters and stammers when you ask him the simple, primary question, "How many stars are there in the United States flag?" After a minute of hard thought he is apt to reply with any number from 36 to 42. Even the third class in history would have answered immediately with one voice, "Forty-four!" There is much more of romance in the history of the adoption of Uncle Sam's colors and more of symbolism in the choice of their details than is commonly thought. Captain Preble devoted several chapters of his 90,000 word "History of the American Flag" to explain these matters. Here is the story in short:

In the opening days of June, 1777, when the colonial troops had for more than two years been combating under any local flags that captured their fancy, congress, sitting at Philadelphia, "appointed a committee to devise a common flag. The names of the members of this committee have been lost in the ancient dust of congressional history, but it is known that John Adams was mainly instrumental in guiding it to its decisions. On June 14 congress unanimously adopted its report, urging that "the flag of the 13 United States be 13 stripes, alternate red and white; that the Union be 13 stars, white in a blue field, representing a new constellation."

A sample flag of silk, made by a good Quaker matron, was displayed in congress, having its union square and the stars forming the rim of a circle.

Red, white and blue were chosen, firstly, because orange, white and blue were the colors of the only other republic of modern times, the old Dutch republic of the preceding century, and, secondly, because they were the colors of the New York regiments. An easy change turned orange into red. Stripes were chosen because they were a symbolism of both the New York and the old Dutch flags. Stars are supposed to have been selected because 13 figures being required for the union, they were the most appropriate for that number of devices for a blue field.

Though this flag was unanimously adopted and was shown to a goodly number of the inhabitants of the Quaker City during the summer following, it was not officially announced until Sept. 3. Paul Jones, the noted naval hero, impatiently waiting for the equipment of his fast brig, the Ranger, at Portsmouth, N. H., was the first one outside of the Quaker town to display the ensign. He ran it up to the masthead of his stanch little man-o'-war and put to sea at once to disclose to the winds of the mid-Atlantic a banner as free as themselves and to gain the honor off the Scotch coast of being the first to introduce the star sprent flag to European eyes.

On land, outside of Philadelphia, the flag was first flown during the battle of the Brandywine, floating above Lafayette when that 20-year-old major general was wounded. A month later it flaunted at the headquarters of Gates, when he received the surrendering army of Burgoyne.

Uncle Sam's first flag remained unchanged for 18 years, though in the meantime the government was formally organized under a constitution, and two new states were added. In 1795 by the exertions of Senator Bradley of the new state of Vermont the number of stars and that of stripes were each increased to 15, the additions representing the Green Mountain State and Kentucky. This amended flag was the one borne by Harrison and Jackson on land and by Hull and Perry at sea in the war of 1812. In 1818 stripes were reduced to 13, and the present law of adding a new star for each new state admitted to the Union was passed.—Daniel D. Bidwell in New York Ledger.

The Queen of the Antilles.

Jamaica has perhaps made greater strides in the way of progress than any of England's smaller colonies during the past 25 years and has some right now to call herself "the Queen of the Antilles." Among the evidences of improvement may be cited the hotels which have sprung up in the island, for the building of one of which £24,000 was expended. Then the Americans are laying lines of railway through the best part of the island, and the fruit cultivation is now as productive as that of sugar, while the price of land has risen enormously. Carlyle's shade would be astonished to hear that the once thriftless blacks have managed to put by nearly £300,000 in their savings banks.—London World.

The Difference.

Two soldiers lay under their blankets looking up at the stars. Says Jack, "What made you go into the army, Tom?" "Well," replied Tom, "I had no wife and I loved war, Jack, so I went. What made you go?" "Well," returned Jack, "I had a wife and I loved peace, Tom, so I went."—Chicago Inter Ocean.

PEARLINE.

Harmless
to every thing washable—Pearline. All the harm comes from neglecting it. You can get things clean by scrubbing, but you wear them out. You can wash by main strength, but it's hard work. Pearline saves work and wear. It saves time and money in all you have to do; all you have to do is to get Pearline.

Beware Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, do the honest thing—send it back. 37 JAMES PYLE, N. Y.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

BENT UPON DESTRUCTION.

The appeal from the people now for non-partisan action on the part of republican congressmen leads The New York Tribune to say some sharp and timely things about the mistake made in November last by the voters of the country.

"Democracy," says The Tribune, "has not begun as yet to use the great legislative power entrusted to it by the votes of last November. But the one thing certain is that a large majority of the representatives and senators of that party are bent upon changes which would send the business and industries of the country to the dogs. The dread of such changes has already brought disasters, in many respects greater and harder to bear than those which followed the panic of 1873. Yet the democratic majority goes on its way, attributing all evils to a gradual increase in the use of silver, and yet insisting that the only remedy is a sudden and complete substitution of silver for gold in use. The peril is realized by every business man. A cry goes up which few but democratic representatives would hear unmoved. But because two-thirds or three-quarters of the clear majority in both houses is desperately and blindly going wrong, men of every shade of political opinion are besought to put aside all partisanship and help resist and overthrow this dangerous democratic majority.

"It is a good thing to do. But it would have been an infinitely better thing to keep this mischief-making democratic party out of power last November. That would have saved the country countless millions. At that time thousands of anxious patriots, who are now begging everybody to be non partisan, and thereby to save the country from the horrors of democratic finance, were rapid partisans of democracy and its candidates. Then these men thought partisanship of their kind was the only patriotism. Now they are on their knees begging everybody else to save them from the consequences of their own victory. There is wanted a new dictionary. Non-partisanship appears to mean, first of all, to give the offices and the power to democratic partisans, and then to keep the democratic tiger chained if possible."

NEW ENGLAND AS A MISSIONARY FIELD.

The members of the American Sunday-School union are becoming alarmed by the lack of religious instruction for children in New England, and claim that the changes have been so marked in the past twenty-five years in the population that the missionary is as much needed in New England today as in the west. They say the children of New England are less and less in the Sunday-school, and by carefully prepared statistics from the last census show the per cent. not attending Sunday-school to be in Maine 42.89, New Hampshire 41.20, Vermont 34.84; Massachusetts 35.55, Rhode Island 41.29, Connecticut 14.60. This makes the percentage of absentees in the six New England states [illegible].

The Rev. Addison P. Foster, secretary of the Union, claims that this estimate is below the actual figures. In this presentation of facts Connecticut leads all the other states in the religious instruction of her children.

The Union has determined to begin a missionary movement in New England, and has two missionaries at work in Maine, one in New Hampshire and one in Vermont, and is asking for gifts to keep these missionaries in the field, that the neglected children in the New England states may have religious instruction.

THE COST OF ATTENDING THE FAIR.

The New York Evening Post has been printing a series of letters upon the price of attending the Chicago fair. One writer states his experience as follows: "I spent very little money in the Midway Plaisance. My round trip ticket cost me $28, sleeping berths $6, or $2 a night, and meals on the way to Chicago $5. My room was procured for two weeks, in advance, from the bureau of public comfort, was well located in a respectable and quiet neighborhood and cost 75 cents a day and 10 cents a day commission to the bureau. Meals were 25 cents each, in a private family, and were as good, substantial and well served as one need wish for. I staid twenty and a half days and the cost was as follows:

Round trip ticket	$28.00
Sleeping car berths	6.00
Meals and lunches, on train and at Chicago	18.40
Room, with bath room privileges	12.50
Admissions	8.00
Bureau commissions	1.60
Total	$70.26

On my return trip I determined to see how far I could with comfort economize. My landlady for $1 put me up an exceedingly good lunch, better in quality than is served on any of the through trains, and it was more than ample for the thirty hours of the return trip."

This gives a person a clear statement of the cost where economy is exercised, for a three weeks' stay.

THEN AND NOW.

This year we have the cholera, but no cholera scare. Last year we had more scare than cholera, came near having a riot on Fire Island and nearly starved the passengers of one cholera-infected steamer to death. Cholera is no less dangerous this year than last, but the times are different. With the yellow fever looming up in South American and Mexican ports, and a little of our own quarantined, with a few cases of Asiatic cholera, with a financial panic, and the free trade and free coinage mules braying in congress, our attention is diverted and we let these contagious diseases "peter out" in durance vile while we figure out the possibilities of the future. We are not afraid, but are getting into condition for a wrestling match with most anything that may happen to come along.

The grippe is making a summer circuit just to keep the people from forgetting it, and the workingman cannot forget that the democratic party has brought about a change; but when we come to the belief of Dr. Benjamin Ward Richardson that "the day may come when sanitary knowledge will be so complete and medical science so advanced that not only will epidemics be unknown, but disease of any kind will be a rarity and all death will be the painless falling to sleep of the worn-out body," we can take new hope and push confidently forward.

EDITORIAL COMMENT.

It should be remembered that liquor imparts strength to nothing but the breath!

The congressmen all claim to be aiming to relieve a distressed country, but mighty few of them seem to be hitting the mark!

Over in Danbury they have had a "certified check jag." If the country gets the democratic free silver coinage jag on the certified check jag will have to take a back seat.

Patent Commissioner Seymour, in yielding to the place-hunting pressure in Washington is violating traditions. The resignation of five patent office examiners have been called for. These men are specialists and have not been subject to removal for political reasons. No other reason is given for their removal, and it looks as if these important places were to go to spoilsmen.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

TOPICAL.

Country Before Party.

We may differ in opinion as to the responsibility, but I hope we may find substantial agreement as to the cure. If I can find any opportunity to help save the ship I care not whether a democrat or a republican is in command. Whatever errors President Cleveland or those who follow him have committed in the past—whatever mistaken purposes they may have for the future—I am willing to act with them in the present, if by so doing I can help to restore my country to the safety and the prosperity which she enjoyed up to March 4, 1893.—[Senator Hoar.

A Dazed Inquirer.

"Is not this the most prosperous country on the face of the earth?" asked Congressman Gear of Iowa.

"It is often said to be," replied Mr. Harter of Ohio, but I want to ask you all a question. Is there a man in this house who can today take his note for $1,000 to his bank and, with government bonds for security, get it discounted for three months? If such a man is here, let him stand up. I want to see him."

There was an impressive silence. Members on both sides looked at each other inquiringly, but nobody stood up. There was no applause and no laughter, but Mr. Harter had referred to a cold fact that struck home to every man in the house.

"I rise to a parliamentary inquiry," said the gentleman from Iowa.

"The gentleman will state it."

"Is this a congressional debate or a civil service examination?"—[Congressional debate.

VOICE OF THE PRESS.

A Six Months' Delirium.

Senator Gordon's state bank proposition is equivalent to the suggestion that we should find relief from the present difficulties by a six months' delirium of wildcat currency. The remedy is worse than the disease.—[Boston Journal.

He Did Not Ask Right.

Secretary Gresham has refused Assistant Secretary Josiah Quincy a temporary leave of absence. If reports are true Mr. Gresham would not make the slightest objection if Mr. Quincy should ask for a permanent leave of absence.—[Portland Press.

A Southern Prescription.

The latest southern prescription for this financial stringency is five new sub treasuries, to be established at Richmond, Atlanta, Nashville or Memphis, New Orleans and some central point in Texas respectively. The "Atlanta Constitution" thinks that its worth trying.—[The Courant.

Better than Represented.

Even Minister Blount admits that the provisional government of Hawaii is maintaining itself in good shape, and is capable of doing so until the annexation question is settled. If it were constituted of such elements as Mr. Nordhoff has represented it to be, it would have gone to pieces long ago.—[Boston Journal.

All Republican!

When the Americans are priding themselves on their new navy it is well to remember that the new cruisers were the result of republican plans and action. The fast speed was also republican. Nearly all the advanced ideas in this country today are republican, and voters should remember this when voting time comes, that the prosperity and advancement may be continued.—[Lowell Mail.

The Turkish cavalry is admitted to be the finest in all Europe.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

Twenty Years' Experience.

C. D. Fredricks, the well-known photographer, 770 Broadway, New York, says: "I have been using ALLCOCK'S POROUS PLASTERS for 20 years, and found them one of the best of family medicines. Briefly summing up my experience, I say that when placed on the small of the back ALLCOCK'S PLASTERS fill the body with nervous energy, and thus cure fatigue, brain exhaustion, debility and kidney difficulties. For women and children I have found them invaluable. They never irritate the skin or cause the slightest pain, but cure sore throat, coughs, colds, pains in side, back or chest, indigestion and bowel complaints."

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

A Retired Business Woman

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost petrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs. Morgan, 589 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

HOOD'S SARSAPARILLA.

Life Was a Burden

Because of the intense pains in my stomach and side, and also on account of gall stones. After eating I would be

In Great Distress

I became so reduced in flesh that my friends thought I would not live long. I grew worse and my removal to a hospital in Syracuse was under advisement, when my father had me give Hood's Sarsaparilla a trial. There was an improvement at once and I have continued taking it, until I am now well. I have gained in flesh and

Hood's Sarsaparilla Cures

can eat heartily without distress. I now enjoy life and I owe it all to Hood's Sarsaparilla." MRS. MARY BAKER, Cazenovia, N. Y.

BAY STATE'S HONOR.

Gen. John H. Roberts Leads Union Veterans.

UNANIMOUSLY MADE COMMANDER.

Accepts the Position in a Feeling Speech —Sketch of the New Leader.

BOSTON, Aug. 17.—The members of the Union Veterans' union were more numerous at this morning's session that at any previous one. The reason for such undoubtedly was the election of officers, which business was first transacted.

General Yoder, who presided, called for nominations, and from the department of the Potomac immediately came the name of General John H. Roberts of Boston. The nomination was seconded spontaneously by every other department, and, other nominations wanting, it was voted that Adjutant General Street cast one vote for the nominee. Therefore General John H. Roberts was declared unanimously elected commander-in-chief.

General Roberts was escorted to the platform by General Oakes of New York, General Wardrop of Massachusetts and General Michael of the department of Potomac, and, being greeted with loud acclamations, briefly thanked his comrades. "You have offered me an honor," he said, "which would give added lustre to any honor ever given soldier or citizen.

The nomination of General George J. Oakes of New York for deputy commander-in-chief was unanimously seconded, being acted upon as was the nomination of General Roberts. General Oakes, being escorted to the platform, thanked his comrades, and the work of electing General C. G. Jennison of Michigan second deputy commander-in-chief was performed as quickly. General Jennison, who has spoken amid frequent approbation during the sessions, was introduced and addressed the meeting.

Other Officers Elected.

Other officers elected were: Colonel S. S. Bond, Surgeon-General, and Rev. Edwin Warrener of Connecticut, Chaplain in Chief. Rev. Mr. Warrener declined, however, and Rev. T. J. Chadyone was chosen in his place.

The following named executive committee was elected: M. L. M. McCracken of Pennsylvania, D. M. Ford of Connecticut, General G. L. Wakefield of New Hampshire, Isaac C. Gibbon of Ohio, G. B. Wood of Potomac, William M. Crosby of New York, R. B. Henderson of Massachusetts, Royal H. Stevens of Michigan and (at large) General C. C. Emery of Massachusetts.

A resolution, returned by the committee on resolutions without action, which condemned the manner in which the administration was dealing with pension matters, and reprobating the policy which favored confederate soldiers, was unanimously passed.

At 11 o'clock the session adjourned, and marching through Quincy market the members proceeded to the boat for Nahant.

The New Commander.

General John H. Roberts, past department commander of Massachusetts, Union Veteran union, chosen commander-in-chief, entered the service in 1861, enlisting in July of that year. He was commissioned second lieutenant, Eighth Maine Infantry, Aug. 6, 1861, served in army of the Potomac till October of that year. Was in battle at Port Royal, S. C., siege and capture of Fort Pulaski, recapture of Jacksonville, Fla., and operations against Charleston. Promoted to first lieutenant and captain in 1862. In 1863 transferred as captain to Second Maine cavalry. Ordered to department of the gulf and participated in Red river campaign. Had hard service in scouting and fighting in western Louisiana. Served in Florida and Mobile campaign. In engagements at Milton, Marianna, Pollard, Big and Little Escambia rivers, Coon and Pine barren creeks, Spanish fort and Montgomery; served as judge advocate on staff of Brigadier General Cameron. After the war he served as adjutant and lieutenant-colonel, commanding First battalion cavalry, Massachusetts Volunteer militia. General Roberts belongs to the commandery of the state of Massachusetts, Loyal Legion, Theodore Winthrop post, Grand Army Republic, W. S. Hancock command, Union Veteran union, both of Chelsea, and was commander of the department of Massachusetts three years in succession. Has been an alderman of Chelsea, and represented that city in the state legislature.

LITTLE BUSINESS WITH CHINA.

Riots In Bombay Are Hindering Trade In That Place.

MANCHESTER, Aug. 17.—The Guardian, in its commercial article, says that the inquiry from the large eastern markets is moderate. Little business has been done for China except in some shirtings and finishing cloths. The decline in silver makes merchants cautious in their purchases except of goods for quick shipment. Stocks are less available. The prices offered from China are sometimes lower.

Manufacturers, however, are not inclined to make any concessions. The riots in Bombay hindered business with that place. Heavy goods are in less request for China. The limits of prices are sometimes reduced. There is a fair inquiry for cambrics and jaconets. Orders are largely repeated, but are seldom acceptable. American yarns are moderately saleable at lower prices.

NOT A CANDIDATE.

Congressman O'Neil Does Not Wish to Be Mayor of Boston.

FALL RIVER, Mass., Aug. 17.—Congressman O'Neil is at his summer residence at Portsmouth, R. I., just across the stone bridge from Tiverton. Congressman O'Neil says that he has been rather outside municipal politics for some time and is not in close touch with all that is going on. As far as preference went, he was ready to prefer any candidate for governor and mayor, that his party, the Democrats, should see fit to nominate. He had no personal preferences, or if he had he did not care to name them.

As far as his own candidacy for mayor went, he was willing to state his position briefly, but decidedly. He was not a candidate. He did not want the office, and would not consent to have his name used. He refused to go into his reasons for declining to enter into the contest for election as Mayor, but repeated very strongly his expression of a determination to stay out of the municipal fight.

Mr. O'Neil said, in relation to his duties at Washington, that there was no voting going on in congress at present, and nothing to keep him there. As soon as he is sufficiently recovered from the stomach trouble which sent him home he intends to return to Washington and resume his seat in the house. This will be before the voting begins.

CAUGHT IN THE CARD ROOM.

Stone Mill of Monson Woolen Company Totally Destroyed.

PALMER, Mass., Aug. 17.—The large four-story stone mill of the Monson Woolen company at North Monson was totally destroyed by fire this morning. The flames began in the card room soon after 10 o'clock, just after the watchman had made his round, and while he was in the boiler room attending the fire. The blaze was first seen by operatives living near.

When discovered, it had broken through the windows and was rapidly eating its way up to the roof. Nothing could be done to save the structure.

The Palmer fire department was called on for aid, and responded, assisting in saving the old wooden mill across the stream, the dyehouse and the offices.

The mill was a six-set plant, manufacturing cloakings, beavers and kerseys. From 75 to 100 hands were employed, and the pay roll was between $3500 and $4000 a month. The mill had a good number of orders on hand, and was the only mill in Monson running on full time.

The company did not make all its yarn, and the product equalled that of an 8-set mill. There was a large stock of finished goods on hand and a fair amount of stock.

The loss will be $30,000; insured in Manufacturers' mutuals for about that sum or a little more.

CONDUCTOR HAD PLUCK.

Caught and Held a Burglar Until the Police Arrived on the Scene.

WORCESTER, Mass., Aug. 17.—At 1 o'clock this morning Policemen Blake and Shippee heard cries of "police" proceeding from 10 Walnut street. On answering the call they found two men struggling on the sidewalk, one fully dressed and the other in his nightclothes. The latter had his man down and told the police that he found the fellow in his room and had chased him out through an open window. He had already succeeded in rescuing his vest, which contained a valuable gold watch and $100 in money from the clutches of the burglar.

The burglar was taken to the police station where he gave his name as Henry W. Wellington, a boot treer, living at 10 Austin street. Upon his person were found a loaded revolver, a bottle of whiskey and a long chisel, with which he had forced his entrance into the house.

His captor is Charles McDuffee, a conductor on the Boston and Maine railroad, who belongs in Rochester, N. H.

Train Held Up by Robbers.

ST. LOUIS, Aug. 17.—Train robbers held up train No. 4, northbound on the 'Frisco railroad, at St. James, Mo., at 3 o'clock this morning. They compelled the express messenger to open the safe, and after securing its contents jumped from the car and escaped. A posse was organized and is in pursuit of the bandits. The amount of booty secured is not known at present, but is believed to be small.

Freight Brakeman Killed.

LITTLETON, N. H., Aug. 17.—Harry Batchelder, a brakeman on a through freight that left Portland at 8 o'clock last evening, was killed near the Crawford house in the White Mountains about 5 o'clock this morning. He fell between two cars. His body was taken to North Conway.

All Serene at Abington.

BOSTON, Aug. 17.—Chief Wade of the state police called at the governor's office this forenoon and said that matters at Abington have quieted down and all is serene there. He has just received a telegram from his men saying that they are to leave the town for Boston at once.

Physicians Donate Their Fees.

MARLBORO, Mass., Aug. 17.—The physicians of the town voted last night to give fees received at the City hospital to the hospital fund for one year; also to give a series of lectures to the nurses and students in the training school, 48 in all.

Cholera Severe in Moscow.

ST. PETERSBURG, Aug. 17.—Official returns indicate a further increase of cholera. The epidemic is especially severe in Moscow, where 166 new cases and 67 deaths from the disease were reported from Aug. 8 to Aug. 12.

Gold Mining in Rhode Island.

PROVIDENCE, Aug. 17.—Operations were begun Tuesday on the gold mine in Glocester by the recently organized Ponagansett Mining and Smelting company.

TWO SAFES BLOWN OPEN

But Explosion Made So Much Noise That People Were Aroused.

WEST MEDWAY, Mass., Aug. 17.—The Medway Savings bank was broken into and two safes blown open at 3 a. m. Entrance was made through Norton's grocery store and the postoffice adjoining.

Two quarter-inch holes were drilled through the safe doors in each case and heavy charges of giant powder inserted. The door on the small safe was completely shattered, and the contents of the safe easily exposed.

The doors of the large Diebold safe, containing cash and securities, was blown from its hinges, but the noise of the explosion aroused people near by, and the burglars left with less than $1 to pay them for their efforts.

Assistant Cashier Palmer Woodward was shot at four times as he came from his home by a man standing in front of the bank.

The burglars were three in number, and ran down Holliston street as they came from the bank. The church bell was rung, the village aroused, and messengers sent to all adjoining towns to be on the watch. The work is not thought to be that of professionals.

A Common Drunkard.

LAWRENCE, Mass., Aug. 17.—Honora Quinland, old and infirm, was before the police court this morning charged with being a common drunkard. Honora is 60 years of age, and the complaint was brought by her husband, also well along in years. This was the fourth time that the defendant had been arraigned for this offence and the court sentenced her to the house of correction for one year.

Watch Factory Will Shut Down.

WALTHAM, Mass., Aug. 17.—The American Watch company's factory will shut down Aug 30 and not reopen until Sept. 5. This step is taken, so the officials say, in order to make changes in the machinery found necessary since the big discharge of employes took place.

Swallowed Dose of Aconite.

ELIOT, Me., Aug. 17.—Charles Chapleigh of this town attempted to take his own life last night by swallowing a large dose of aconite. He was discovered immediately after he took the poison, and a physician succeeded in removing the most of it from his stomach.

William J. Rotch Dead.

BEVERLY, Mass., Aug. 17.—Hon. William J. Rotch of New Bedford died at the home of his son-in-law, Dr. Thomas M. Rotch, at 7:30 this morning. Mr. Rotch was one of New Bedford's most prominent citizens.

Another World's Fair Scheme.

"Of course, Mr. Oldmon," said the city editor, "we will publish this obituary of yourself at the usual rates, along with the notice of your alleged death, but I can't quite see the object"—

"My dear sir," interrupted the Chicagoan, "my wife has seven sisters, all with large families, and they all have passes over the railroads entering Chicago while the fair is open. I am going to send two marked copies of this notice to each one!"—Truth.

A STATE OF SIEGE.

Martial Law Proclaimed in All of Argentina.

NATIONAL GUARD CALLED OUT.

Federal Forces Control La Plata—City Is in a State of Anarchy.

NEW YORK, Aug. 17.—The Herald's Valparaiso (Chili) special says: A state of siege has been declared in all parts of Argentina for 60 days. The national guard is to be mobilized and made ready for use wherever armed intervention is needed.

Many persons were killed and wounded Tuesday night during the fighting in La Plata between the federal troops and the federal troops and the revolutionists. An artillery company and a troop of cavalry were sent there to aid General Bosch in preserving order.

The federal forces now control the city, but, nevertheless, it is in a state of confusion bordering on anarchy. Murders and robberies are frequent and the military authorities seem unable to prevent them.

In Corrientes the situation is constantly growing worse. Citizens have attacked the police

And Sacked the Barracks

The governor has asked the federal authorities for aid.

Valentin Virasoro, who was minister of foreign affairs in the reorganized Argentina cabinet, has resigned. He was unable to agree with the president.

The situation in the city of Buenos Ayres is critical. The latest telegrams from La Plata say that 2000 rebels have been disarmed, and that General Bosch intends to push the work of disarmament with the greatest possible speed.

Argentina revolutionists, under Caceres, have invaded Uruguay from Corrientes. They were driven back by the Uruguayan troops.

ESCAPING PRISONERS

Are Detected and Seventeen of Them Killed at San Salvador.

NEW YORK, Aug 17.—The World's San Salvador dispatch says: Early yesterday morning a number of military prisoners belonging to the command of Colonel Flores, who was recently shot, attempted to effect their escape. Seventeen of them were killed.

There is much grumbling in native circles on account of the large number of foreigners who hold office. Merchants are apprehensive and business is generally depressed.

Forced loans are being exacted and it is believed the government is quietly taking strong measures to prevent an outbreak. Importations have been greatly reduced.

RAID ON SEAL ISLANDS.

Crews of Unknown Schooners Slaughter Seals and Overpower Watchmen.

PORT TOWNSEND, Wash., Aug. 17.—The steamer Queen arrived from Alaska last evening, bringing news of a daring raid on St. Paul and St. George islands in Behring sea on the night of July 4.

Two unknown sealing schooners landed crews on the island after dark and slaughtered several hundred seals. Watchmen on the islands were overpowered by the raiders, who broke into the salting house and carried away an immense number of skins belonging to the lessees of the island.

The vessels escaped before the government cutters could be informed of the occurrence.

Forest Fires Raging.

ALTOONA, Pa., Aug. 17.—Forest fires have been raging and spreading rapidly on the Allegheny mountains around this city for the past few days, destroying a large amount of valuable timber. The flames have also burned a number of cabins and many families are homeless. A large number of men are now fighting the flames and expect to soon have them under control.

Bullet in His Left Lung.

BROCKTON, Mass., Aug. 17.—Melnotte C. Clark, son of A. L. Clark, of 69 Vine street, attempted to take his life about 8 o'clock this morning by shooting himself in the left lung. He suffers much pain and his recovery is doubtful. The bullet has not been extracted. Young Clark is 24 years of age.

NEWS IN BRIEF.

New York's cholera patients are improving.

Queen of Navarre won the Great Northern Leger stakes in England.

Daniel W. Murray, injured by a fall at Dover, N. H., a week ago, is dead.

The Japanese government is doing all in its power to discourage emigration.

Seventeen excursionists were drowned in the Shannon river, near Kilkee, Ire.

The Thomson-Houston works at Lynn, Mass., are to run only three days a week.

The 21st annual Adventists' camp meeting opened a 12 days' session at Alton Bay, N. H.

President Jeffery says no receiver is contemplated for the Denver and Rio Grande.

The outstanding notes of the firm of Keene Brothers of Lynn, Mass., amount to $325,000.

The spinning department of the Nonotuck silk mill at Leeds has shut down until Sept. 1.

Wilcox, Crittenden & Co., at Middletown, Conn., will close their foundry from Aug. 18 to 28.

Walter Gray of Paris, Me., employed by Charles Stevens, a milkman at Auburn, Me., hanged himself.

Miss Matilda Hanson was robbed by 10 footpads last Saturday night near an old cemetery in Middletown, Conn.

The Central oil and gas stove works at Florence, Mass., have shut down, but will start up next Monday on half time.

Commencing next week, the Willimantic (Conn.) Linen company will reduce running time to three days each week. The company employs 1500 hands.

The factory of the Scovill & Adams company, New Haven, manufacturers of photographic apparatus, has closed for an indefinite period, throwing 150 hands out of employment.

Contractor C. E. Clark of Boston has filed intentions to build summer villas for Cornelius Vanderbilt and W. F. Burden at Newport, R. I. The former cottage is to be 250 by 150 feet.

ELECTRIC SPARKS.

Over 100 new telegraph offices were opened in India during the first three months of the year.

Telegraph lines between London and Paris are now little used, the telephone being used instead.

There are now between 13,000 and 14,000 miles of telephone circuits in the metropolitan area of London—a region covering about 500 square miles.

The Chinese telegraph system has been connected with the Russian system, so that messages may now be sent overland between any part of China, Russia, Europe and by cable to Africa, North and South America and Australia.

PEN, CHISEL AND BRUSH.

Greek sculptors often used eyes of glass or crystal in the faces of their statues.

The finest existing ancient picture is a mosaic, the "Battle of Issus," found in a pavement at Pompeii.

Literary Boston is said to figure amusingly in Mr. N. H. Dole's forthcoming first novel, "Not Angels Quite."

James Bryce, the English political author, is a great mountaineer and the most traveled member of the house of commons.

Louis P. Dessar, the celebrated young American painter who has made himself famous by his delineation of women's faces and figures, is the creator of that great canvas, "Clothilde," which has set all Europe talking.

Ouida is reported to have suffered recently a severe financial loss. Corroborative evidence is offered by the fact that she has left her magnificent residence, the Villa Ouida, in the suburbs of Florence, and taken a suit of rooms in the city itself.

Isaac McLellan of Greenport, N. Y., well known to an earlier generation as the poet sportsman, recently celebrated his eighty-seventh birthday. Mr. McLellan was a classmate of Seargent S. Prentiss at Bowdoin and the friend of Hawthorne, Longfellow, Holmes and N. P. Willis many years ago.

FIN, FEATHER AND FUR.

The horse has a smaller stomach in proportion to its size than any other quadruped.

Perhaps no birds spend more of their lives on the wing than parrots and pigeons, the latter being also among the most graceful and rapid of the inhabitants of the air.

One of the rules in force at the new University of Chicago is that every student must take at least one hour's physical exercise every day.

BOSTON PRODUCE MARKET.

BEEF—Beef is dull in demand, with hindquarters very firm. Forequarters are not quite as firm: Choice fancy steers, 8@8½c; prime, 8@8½c; good, 7@7½c; light, 6½@7c; extra heavy hinds, 12@12½c; good, 10@11c; light, 9@9½c; heavy fores, 5½@6c; light, 4@5c; backs, 6½@7c; rattles, 4@4½c; chucks, 5@6c; rounds, 7½@8½c; [illegible]

FLOUR—The flour market is not particularly active, though prices are strong, and some of the millers have advanced them 5c and 10c. The quotations are: Fine and supers, $1 80@2 50; extra and seconds, $2 25@2 75; Minnesota bakers', clear and straight, $3 00@3 60; winter, clear and straight, $3 00@3 75; winter, pat, $3 75@4 25; spring, pat, $4 10@4 75.

MUTTON AND LAMB—Muttons are quiet with the market quoted at: Choice spring lambs, 11@11½c; [illegible] good, 9@10c; poor and ordinary, 7@8c; Brightons, 11½@12c; yearlings, 7@8c; muttons, 6@6½c; choice heavy Brightons, 8½@9½c; choice eastern veals, 8½@10c, common to good, 7@8c; Brightons and [illegible]

CORN—Corn holds firm, to arrive, with Chicago No. 2 yellow 52@52½c, and No. 3 yellow at 51½c. The spot market is firmer, with sales of steamer yellow and No. 2 yellow at 54c. The quotations are firm, with little offering at: Steamer yellow, 54c; No. 2 yellow, 54c; steamer mixed, 53@53½c.

OATS—Oats are steady. New clipped are quoted at 41@41½c to arrive. The spot market continues firm: Clipped, 41½@42c; fancy, 43@44c; No. 2 white 41c; No. 3 white, 40@40½c; clipped, mixed, nominal, 38@39c.

HAY—Hay is quiet with the market inclined to be easy. Straw is easy at $14@15 for new rye straw. Millfeed is firm. Sack spring bran, to arrive, is quoted at $16@16 25, and sack winter at $17@17 25.

POTATOES—Potatoes are firm: Rhode Islands, $2 25; natives, $2 25@2 50; Jerseys, $2 25@2 50. Sweets sell at $3 50@3 75 for ordinary to good, and at $3 75@4 per bbl for the best.

EGGS—Eggs are quiet, with the market barely sustained: Western, 15½@16c; Michigan, 16@17c; provincial, 16½@18c; eastern and [illegible]

MEAL—In cornmeal the market is very firm, with quotations at: Barrel meal, $2 20@2 25, with bag meal at $1 @1 02.

BUTTER—The butter market holds the advance of yesterday. Quotations are not further changed.

PORK—Pork provisions are quiet, with no changes in prices. The packers are killing but few hogs.

CHEESE—Cheese is quiet and steady. The market is quoted the same as yesterday.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 17.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

Yesterday's late rally was a revelation to the bears. It showed them that the stock market, with all of its dullness and narrowness, at the present low range and with the present expectations of relief in the financial conditions, was no longer a one-sided affair. Easily oversold, it rallies quickly at every attempt of the shorts to cover and then sinks slowly back as soon as they desist. Under such circumstances, the fluctuations of the market have little significance, and are only of importance as they react on securities placed as collateral for loans, and as they affect holders of stocks carried on margins.

London came this morning with little change except for St. Paul. That was ½ higher. Further rains are reported in the core districts of the west, and further reports from the railroads in the way of reducing expenses are at hand, the Great Northern being the latest road to take radical action. That is about to make a clear cut of all per cent.

The local market opened extremely dull. General Electric was the weakest stock on the list. This started off at 41½, ½ down, weakened to 40¼, and then rallied to 42. General Electric is weakened 2 to 37. Chicago, Burlington and Quincy held fairly steady about 75¼, while Atchison, opening ¼ up at 18¾, lost the fraction. Boston and Maine advanced 1 to 141. New York and New England ¼ to 18¾. Sugar opened 1¾ down to 73¾, rallied to 75, but fluctuated later below that.

STOCKS—CLOSING.

Atchison, Topeka and Santa Fe	18¾
Bell Telephone	179
Boston and Albany	190
Boston and Maine	142
Bay State Gas	6@6¼
Calumet	255@260
Chicago, Burlington and Quincy	75¼
Fitchburg	72
Lamson Cash Railway	14@14¼
Erie Tel	37
General Electric	39¼
Mexican Central	6@6¼
New England Tel	49@50

EASTERN CONNECTICUT.

COLUMBIA.

The Drouth—Crops Ruined—Personals.

The pulpit in this place was occupied last Sunday by Rev. John S. Porter, formerly of Gilead, but now a missionary in Bohemia. He gave some very interesting facts concerning the methods and progress of mission work in Austria.

The drouth is still "on" in this vicinity. Springs are very low, pastures dried up and crops of all kinds suffering badly. In some cases crops are already ruined. The meager showers we have had recently were barely sufficient to lay the dust for a few hours

The employes of the Hall & Bill Printing company of Willimantic held a picnic at the Columbia reservoir on Saturday last. It was their annual day off.

Mr. Albert Little and men are engaged in hauling telegraph poles from the Anson Hyde wood-lot to Lemond's bridge.

Captain George Wright, one of our oldest citizens, is very low, and but slight hope for his recovery is entertained.

Mr. Hubert P. Collins and Miss Evelyn S. Collins are visiting relatives in Middletown.

Miss Cora P. Little spent last Sunday with friends in Goshen.

Misses Bertha Gates and Edna Latham of Manchester are the guests of Miss Sophia J. Thompson.

Mr. Walter Woodward of Falls, Mass., is visiting relatives in this place.

Miss Evelyn S. Collins has been engaged to teach the school at the Center district.

Mr. Charles S. Little of Willimantic spent last Sunday with friends in town.

Mr. Frederick Wolff is building an addition to his dwelling house.

The Excelsior Tape works, located at Hop River village, have shut down, leaving quite a number of people without work.

WILLIMANTIC.

Firemen Off for Coney Island—The Alert Hose Company Will Go to the World's Fair in a Body—Shorter Time at the Linen Mill.

Some thirty members of the Excelsior Hook and Ladder Company No. 1 left on the boat train Wednesday evening for a two days' stay at Coney Island, where they will be in attendance at the annual convention of the New York State Firemen's association.

Commencing next week, the Willimantic Linen company will adopt the three-day a week schedule for their working time. Several weeks since they adopted the five day law.

The water at the pumping station still continues to grow beautifully less, and if rain don't set in before long the conundrum will be, "what shall we do for water?"

Between 60 and 70 of our townspeople took in the excursion to Providence and intermediate points Wednesday.

The members of Alert Hose company No. 1 have voted to attend the World's fair in a body, and will leave for Chicago by special train October 14 for a ten days' stay.

J. W. Gray has re-engaged the services of Frank Gallup for the coming season. This will be Mr. Gallup's seventh year with our genial bill poster and theatrical manager.

Company E, Third regiment, C N G., go into camp at Niantic next Monday for one week. Captain Heffernan received the appointments of Lieutenants Grady, and Flynn Tuesday evening.

PUTNAM.

Paying in Checks—The Quinebaug Low—Base Ball.

The superintendent of the Grosvenordale company stated yesterday that the concern had issued checks of $1, also $5 and $10 checks, payable through the clearing house. The last pay day the help was paid with these checks. He wished to caution the help against cashing these checks at a discount, or allowing storekeepers to take them at a discount, as they are good for their face values, and were issued only because currency is scarce.

The water in the Quinebaug river was the lowest Tuesday that it has been this season. Work at all the mills was suspended nearly all day; some of the mills along the stream are working about five hours per day. The mills in the upper village worked three hours Tuesday. The farmers are complaining, as most of the crops are burning up.

The Putnams meet the Pawtucket State on Morse's lot Saturday afternoon.

Robert, son of the Rev. J. W. Ashworth, is at present for health reasons at the pine forests of Thuringia, South Germany.

Mrs. E. G. Wright and children are summering at Bates' grove, Webster.

Maurice B. Fuller is on a trip to the world's fair.

Edwin Lowen, who recently lost his arm, is getting along comfortably.

The last concert of the season will be given at Roseland park on Saturday. This concert will be equal, if not superior, to any previously given.

Dady & Prentice's silk mill has closed, and will remain so for a while.

In one recent year 856,096 volumes were called for in the Birmingham, Eng., free library.

CORPORATION NOTICES.

MAYOR'S OFFICE,

CITY OF NORWICH, Conn.

TO EITHER SHERIFF OF THE CITY OF Norwich,—Greeting:

A petition in writing signed by A. L. Potter and more than thirty others, all freemen of the City of Norwich, having been presented to me, the Mayor of said City, requesting me to call a special city meeting to consider the removal of the two buildings which adjoined the building lately removed from the junction of Thames West Thames and High streets and that the call should include the necessary resolution to enable said meeting to make the necessary appropriations for said object, and it having been voted at the last annual meeting of said City, that the Mayor should include the matter of increased compensation for the police department in the warning of the next City meeting. You are therefore hereby commanded to warn the legal voters of the City of Norwich in City Meeting to meet at the Town Hall in said City, on the 21st day of August, 1893, at eight o'clock p. m., to take action upon the following matters:

First—To consider the matters contained in said petition.

Second—To authorize the Court of Common Council of said City to appropriate from the City treasury such sum of money as said meeting shall determine, in addition to any appropriation heretofore authorized to pay the expense of altering and widening Thames street in said City, near its junction with Huntington street and also for the purpose of acquiring by the City the land of Daniel W. Grant and land formerly of William Maloney near the junction of said streets, or the easement therein necessary for the layout of a highway over the same.

Third—To authorize said Court of Common Council to appropriate from the City treasury such sum as said meeting shall determine in addition to any appropriation heretofore authorized, for additional compensation to the police department of said City.

Fourth—To lay a tax on the City list last made to raise the amount of money required to pay the appropriations which said meeting shall authorize said Court of Common Council to make.

Dated at Norwich, this 18th day of August, 1893.

CALVIN L. HARWOOD,

Mayor of the City of Norwich.

I certify that the above and foregoing is a true copy of the original warrant to me directed.

Attest— MYRON O. MORGAN,

City Sheriff of the City of Norwich.

NORWICH AND VICINITY

CITY NEWS

Royal Arcanum meets tonight at 7.45.

State Attorney Lucas and daughters are at Saratoga.

Henry Arelia is the guest of friends in Willimantic.

John H. Cassidy spent Thursday in Worcester, Mass.

Holiness meeting opposite post office at 8 p. m. today.

Miss Minnie Caryl of this city is visiting with relatives in Roxbury, Mass.

C. W. Noyes of Lebanon has been engaged as principal of the graded school at South Coventry.

Mr. Alvan Bussey and son James of Putnam, are the guests of relatives in town for a few days.

Miss Emma Mahl of Hartford is the guest of Mr. and Mrs. John Eadens of Division street.

Judge S. T. Holbrook is at his office again after a two weeks' vacation, spent at the neighboring shore resorts.

A. B. Chandler of this city is a Connecticut delegate to the annual encampment of the Sons of Veterans in Cincinnati next week.

T. J. McNerney of Unionville, Conn., is visiting Miss Jennie Decker on his return from a four weeks' trip to the World's fair and the west.

The annual games of the Watch Hill Athletic association are down for Saturday, at 2.30 in the afternoon. The Westerly band is to furnish the music for the occasion.

Postmaster Knowlton of Bridgeport thinks that the horse railroad companies ask $938 too much for car fare for letter carriers, and will put on an extra carrier instead.

Chief of Police Bowen returned from a three weeks' sojourn on health-breeding Fishers Island yesterday. Sergeant Murphy leaves Monday for two weeks on Block Island.

Mr. and Mrs. George A. Burlingham of the Columbian house, Mr. and Mrs. Whiting of West Main street, and Mrs. Copp of Brooklyn, N. Y., are camping for a few days at Minneford Cove, Poquonnoc.

Agent Thrall of the Connecticut Humane society was in Windham Wednesday and relieved several cases of cruelly treated animals. During the organization of the society 1,600 glandered horses have been killed.

The Brotherhood Base Ball club meet the Unions on the Norwich Town green Saturday afternoon. Draper and Gilbert and Foster and Smith will be the opposing batteries.

Governor Morris will review the troops at Niantic from an open barouche. Governors Bigelow, Waller, Harrison, Lounsbury and Bulkeley, who held the office '81 to '93, were on horseback when reviewing the troops.

Tomorrow morning the Gypsy will leave her wharf at 8 o'clock instead of 8.30. The change of time is only for tomorrow, and passengers will have the extra half hour at the beach, as the return trip will be at the usual hour.

The New London Telegraph says: Denis O'Brien, a Norwich liquor dealer, received a United States liquor license from Deputy Collector Parmelee, and neglected to settle for it within the time required. His case was heard before United States Commissioner F. B. Brandegee Wednesday.

The death of ex-Judge Charles B. Chipman of Old Mystic Monday was very sudden. He arose as well as usual in the morning, went out and drew a pail of water, and upon coming in was taken with a sharp pain in the side. He sat down in a chair and in a few minutes expired. He was well known in court circles, having served on many juries, and had also held many town offices.

The borough of Willimantic is extremely nervous over the threatened water famine. The Natchaug river and its sources of supply are fast drying up, and nothing but immediate and extensive rains can avert the danger. Only by the strictest economy in the use of water, even to its restriction in laying the dust on Main street, is the present supply maintained. Should the drought continue much longer the people would not only have to bear the inconvenience of a small amount of poor water, but property interests would be severely menaced by danger of fires.

Third in New London.

Mrs. George P. Fenner, president of the Woman's Christian Temperance union and a lady much interested in school work, having formerly been a teacher in high grade classes, is the third in New London to register as a voter.

Watch Hill Hotels Full.

The Watch Hill hotels are enjoying a good patronage. Until the present week the number of guests have been discouragingly small, but at the present time nearly every room is occupied. The season, however, will be a short one, and the receipts correspondingly meager.

Legislative Club of 1885.

The annual reunion of the members of the legislature of 1885 will be held at Hill's homestead, Savin Rock, on September 4. The business meeting will be held at 11 a. m. The committee in charge are: J. H. Swartout, Stamford; Erastus Gay, Farmington, and Alexander Troup, New Haven.

Normal School Examination.

Examinations for admission to the New Haven normal school will be held today at Putnam, Canaan and Essex; tomorrow and Saturday at New London, Winsted and Brooklyn; next Monday and Tuesday in New Haven, Bridgeport, South Norwalk and Colchester; August 23 and 24 at New Milford, Norwich, Waterbury and Broad Brook; August 25 and 26 at Torrington, Danbury, Ellington and Hartford, and on September 5 at Skinner school, New Haven.

The Rev. Mr. Barnes Recovering.

The Rev. Percy Barnes, rector of Grace church, Yantic, the victim of a serious mowing machine accident several weeks ago, has so far recovered as to be able to conduct services in his parish Sunday. A trip to his home in Brooklyn, N. Y., has done him much good, and his many friends will rejoice to learn that in a few weeks his injured leg will be as good as ever.

Fruit Season at Its Height.

The fruit season is now at its height, and the markets afford a varied assortment at reasonable prices. Peaches are somewhat of a disappointment as to quality, though not as to prices. Delaware peach-growers must be doing pretty well, though, as daily shipments of 13,400 baskets are reported. California never sent so much fruit to the Atlantic coast as now. Six hundred tons a day of peaches, apricots and plums are shipped from the Sacramento valley. These shipments keep the prices of our domestic fruit down.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A MORNING FIRE.

Flames in the Grocery Store of J. A. Stoddard & Son on Franklin Street.

A fire did several hundred dollars' damage in the store of J. A. Stoddard & Son, in the Converse block, Franklin street, early yesterday morning. When John B. Stoddard of the firm went into the cellar at 5.30 o'clock with a lighted candle a quantity of leaking kerosene oil blazed up and communicated with the woodwork overhead.

Mr. Stoddard immediately rang in an alarm from box 5, which the automatic striker in the Second Congregational church converted into a call for box 31, and sent the firemen hurrying up Broadway. The fire had gained considerable headway before the mistake was discovered and rectified, but on the arrival of the carriages four streams were poured into the blazing cellar and the flames were quenched in short order. At the back of the store the fire ate its way to the first floor, but otherwise it was confined entirely underneath.

The stock was ruined by smoke and flame, and the cellar, was flooded several inches deep with water. The smoke permeated that section of the building, doing mischief to the top story. That part of the block is insured for $1,500, and the loss of the firm is covered.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NURSING THE SPHERES.

Rain Interferes With the Croquet Tournament Games—Interest Increasing as the Close Approaches.

Nature changed her mood from gay to grave yesterday and the third day's games of the National Croquet association were played under dripping skies and on spongy grounds. The scores at the close of the day had a more interesting aspect as the close of the meet approaches.

The playing was discontinued during most of the afternoon, and a merry crowd of croquetists congregated in the club house, taking their taste of ill-fortune with the best of grace. The courts were logy in the evening, but owing to the perfect system of drainage no pools of water remained to balk the sport, and the grounds were utilized for championship games till near midnight.

The prize winner in the first division will be decided today, and there is much speculation as to on whose standard victory will perch. Seventeen-year-old Willie Knecht and the Rev. Philip Germond of New York, who has played croquet for more years than the young Mattawan champion is old, are the two leaders in the class who will fight for the honor. Each has won five and lost two games. Master Knecht has Greenalit yet to meet, and Germond and Johnson will have a battle royal.

Gus Maurer, the "Jersey Lilly," left for home last night. At 8 o'clock he had four victories and two defeats to his credit, with Jacobus the only contestant remaining. So these two giants started their game. At 9.30 when Maurer was obliged to depart he had a slight advantage. By mutual agreement his mallet was taken by Greenalit. Jacobus secured the balls by a skilful shot, and succeeded in laying out his antagonist. The result of the games puts Maurer out of the first prize winner class.

Willie Knecht won three games during the day, from Maurer, Dickey and Strong. The boy made a most paradoxical shot across the field in his contest with Maurer, clearing the two first arches and hopping over the center arches, striking the ball squarely at the other extreme end of the court.

Dickey, who stands a good chance for second place, won from Germond and Bishop. In the former game, Germond had the game well in hand when Dickey made a very difficult and intricate shot from behind a wicket, it practically winning for him. Had Germond secured the game, it would have made his hold on the first place very firm. It will be remembered that Dickey was the first to defeat Champion Johnson Wednesday. He has a most astonishing way of laying down the saw and hammer with which he has been making himself invaluable, and coming on to the croquet field to coax and nurse and slam the balls about in a way that snatches victory from his opponent.

Ex-President Bishop, who had a record of four lost games, came early to the scene of his wrecked hopes with a look of fixed determination on his face. President Strong was the victim. Immediately the sun, which had been shining intermittently, veiled its countenance, dark clouds gathered on the horizon and silently and melancholily nature wept.

Germond showed great skill in his game with Greenalit, making all but three wickets before his opponent had started.

Dudley of New London arrived Thursday, and was put in the third division under suspension of the rules. Dr. Knecht has withdrawn, with a record of one game lost and won.

Perry of Boston, an old-time devotee of the pastime, was welcomed on the grounds last night. He has several courts at his residence near the Hub, where, it is remembered, he offered to entertain the National association gratuitously.

The Butler brothers of Middletown and Jacobus and Dickey will play tournament games tonight, and it is hoped a band may be in attendance. The tournament, owing to the delay enforced by the rain yesterday, will extend into Saturday evening.

The feature of the second division play yesterday was E. C. Butler's defeat of Chalfrant, winning the game in twenty-five minutes without allowing his friendly foe to make an arch.

The score last night was as follows:

First Division.	Lost.	Won.

Colored Masons.

The Connecticut grand lodge of colored Masons will hold their annual convention in New Haven September 12. Grand Master George A. Jenkins of Waterbury will preside at the meeting.

Fresh Air Children Durante.

A crowd of youngsters passed through here yesterday morning. There were a hundred and twenty-five of them—all sent out from the congested districts of New York by the Tribune fresh air fund.

They were on their way to Colchester where temporary homes have been found for them in the real, genuine country. There, for a fortnight, they will revel in green grass and fresh vegetables and grow fat and strong for their fight for life in the crowded tenement houses in which they were born and brought up.

Mr. and Mrs. James Latham and Miss Hattie Watrous—all of New London—were in charge of the party and they had their hands full. They came on the New London boat from New York.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 17th day of August, 1893.

Present—CHAS. W. CARTER, Judge.

Trust estate of Carl Gerger, late of Preston, in said District, deceased.

The Trustee having made written application to said Court, in accordance with the statute, for an order of sale of the whole or part of the real estate described therein, it is ordered, that said application be heard at the Probate Office in Norwich, on the 23d day of August, 1893, at 2 o'clock in the afternoon, and that notice thereof be given, by inserting a copy of this order in a newspaper having a circulation in said District, and that returns be made to this Court.

Attest— CHAS. W. CARTER, Judge.

GENERAL CONNECTICUT NEWS.

A Plan to Benefit the Laboring People of New Haven.

ALL READY AT CAMP MORRIS.

How the Location of the Regiments and Batteries Is Arranged.

NIANTIC, Conn., Aug. 18.—All preparations are complete for the state encampment, which opens next Monday. Four regiments and batteries will occupy 750 tents arranged on the north side of the grounds.

The second regiment has the right of the line and will be quartered on the east side next to the road; then comes the Fourth, First and Third, the separate companies and the Gatling gun battery. In the rear are the field batteries. Governor Morris and General Haven, with their staffs are to be quartered on the south side. To the west and in the rear of headquarters are the signal corps and hospital tent.

The privates' tents measure 7x8 feet and are furnished with three excelsior cotton cot mattresses and will accommodate four men each. The officers' tents are 9 feet square. The tents are laid out by streets, nine tents to a street, and extend nearly across the grounds, a distance of half a mile. The 100 acres of ground have been nicely rolled and many minor improvements added to the general appearance of the grounds greatly.

TOOK A DOSE OF LAUDANUM.

Attempted Suicide of an Attendant of the Middletown Asylum.

MIDDLETOWN, Conn., Aug. 18.—The facts have just leaked out of an attempt at suicide at the Middletown insane hospitol. Mrs. Tibbitts, a widow about 50 years of age, is an attendant. Last Tuesday evening she retired at about 8 o clock requesting her friends to call her at 5 o'clock in the morning.

Upon going to her room at the appointed time her friends found Mrs. Tibbitts lying on the bed unconscious. It was discovered that she had taken a large dose of laudanum. Physicians were summoned, and after working upon her for several hours succeeded in saving her life. Mrs. Tibbitts came here from Maine, and not long after became infatuated with one of the night watchmen. She accompanied him several times to entertainments and was in his company much of the time. Last week he informed her that he had no intention of marrying her, merely going with her for the sake of her company. She became despondent and tried to end her life. She is now fully recovered.

FOOLISH YOUNG MEN.

Will Try to Go to the World's Fair Without Expense.

BRIDGEPORT, Conn., Aug. 18.—James Cook and James Coleman, two well-known young men of this city, are to undertake a difficult journey. They started from Pleasure Beach, yesterday, for New York, from which place they start this morning for the World's fair.

They are to endeavor to make the journey, see the fair and return without the trip having cost them a cent. Yesterday, before starting, they emptied their pockets of their money and discarded their jewelry so that they could not raise money by pledges during their absence. If they succeed, Thomas Lynch of Cannon street is to stand the expense of a shore dinner for thirteen friends.

The tourists are to refrain from sending home for money, under whatever circumstances may arise. The time of the trip is sufficiently long to allow walking in case they are compelled to do so. It is predicted that they will find it impossible to see the exhibits without paying admission. If they succeed it will be a task never before accomplished since the opening of the fair.

Hat Factory Suspends Operations.

DANBURY, Conn., Aug. 18.—John W. Greene, the well-known hat manufacturer, today closed his large factory indefinitely. Two hundred and fifty hands are thrown out of employment. It is also announced that work will not be resumed until the times are better.

Business Dull in the Granite Trade.

MIDDLETOWN, Conn., Aug. 18.—One hundred employes of the Columbian Granite company at Maromas will be laid off tonight, owing to dullness in the stone trade. The rumor that the Portland brownstone quarries are to suspend business until April 1 is without foundation. Business there is dull, but they will continue work on half time.

Mayor Sargent's Plan to Benefit the People of New Haven.

NEW HAVEN, Conn., Aug. 18.—Mayor Sargent is about to put into execution a unique scheme whereby laboring people as well as the city will be benefited. He proposes to inaugurate a sort of municipal savings bank system for a period of two months. Any one will be allowed to deposit money from now until November 15, and interest will be paid at 5 per cent.

The mayor says that the city will be compelled to borrow at least $100,000 between now and November, owing to the delay in the receipt of taxes, caused by the legislative change of time for payment of taxes from September to November. The common council has authorized the mayor, the auditor and President Callahan of the board of aldermen to borrow money for the use of the city until the time for the payment of taxes has arrived.

Deposits of $100 or more will be received and notes of the city given to each depositor. The scheme is attractive. Many people are afraid to put their money in the banks, and thousands of dollars now hid away in dwellings will be brought out, and being loaned to the city to meet current expenses, will be put in circulation.

A Workman Badly Injured.

HARTFORD, Conn., Aug. 18.—A scaffolding on the second floor of the building being erected on Oak street near Russ, was knocked down this morning, and four workmen were precipitated to the ground. The accident was caused by the falling of a window cap, which broke down the sustaining pieces. Three of the men escaped with slight bruises and were able to pick themselves up, but Henry Alex, a bricklayer, was severely injured internally, and had to be taken to his home on Lawrence street in an ambulance.

Bodies Buried But a Foot Deep in a Jewish Cemetery.

NEW HAVEN, Conn., Aug. 18.—It has just been discovered that in a cemetery belonging to a Jewish society in East Haven, several of the bodies interred there have been placed only from nine to twelve inches beneath the surface of the earth and that in some instances the dogs have partly disinterred some of the remains. The people living in the vicinity are very indignant and the board of health after investigation has notified the society that the bodies must be buried to the depth required by law, which is four feet and that unless this order is immediately carried out the offenders will be prosecuted.

Attawaugan Cotton Mills Shut Down.

DANIELSONVILLE, Conn., Aug. 18.—The cotton mills of the Attawaugan company in Attawaugan, which have been running 900 looms and employing 500 hands, have shut down for a week. Causes depression, low water and repairs.

IN CONGRESS.

Senate.

WASHINGTON, Aug. 18.—In the senate today a motion to adjourn over till Monday was made on the democratic side, but was resisted on the ground of the necessity of action on financial measures, and finally withdrawn on Mr. Voorhees announcing that he would ask the senate to proceed with the consideration of the national bank circulation bill.

He then reported from the finance committee a bill to suspend the purchase of silver bullion under the Sherman act, with a declaration in the bill that it is the policy of the United States to continue the use of both gold and silver as standard money, and to coin both gold and silver into money of equal intrinsic and exchangeable value.

A substitute for the bill was reported from the minority of the committees (Messrs. Harris, Vance, Jones of Arkansas, Jones of Nevada and Vest), fixing the number of grains of silver in United States coins at 464 4-10 grains of pure silver per dollar, and proportionately for minor silver coins.

The bill and substitute were ordered printed and placed on the calendar, and Mr. Voorhees gave notice that he would call them up next Tuesday.

A long communication from the secretary of the treasury was presented and read on the subject of gold and silver payments.

The bill for the increase of national bank circulation was then taken up, and Mr. Allen (pop. Neb.) advocated the adoption of the amendment offered by him last Wednesday to suspend interest on the bonds on which the increased circulation is based.

The House.

The silver debate in the house was resumed immediately after the reading of the journal, and the floor was accorded to Mr. Sibley (Dem., Penn.), who is in favor of a bimetallic standard. He spoke in support of the proposition suggestion by Mr. Johnson of Ohio, providing that the holding of United States bonds might deposit them securities with the government, receiving therefore treasury notes.

At the conclusion of Mr. Sibley's address, Mr. Catchings (Dem., Miss.), from the committee on rules, reported a resolution authorizing the appointment of committees by the speaker. Several of the most important committees are increased in membership.

OUTBREAK AT DEER ISLAND.

Prisoners Object to the Fish Dinner—Ugly Leaders Locked Up.

BOSTON, Aug. 18.—There was a serious outbreak at Deer Island this afternoon. A squad of twenty policemen from Boston were sent to the scene. A dozen of the leaders have been seized and locked up. The cause of the trouble was the prisoners objected to the fish dinner and refused to eat it. A general outbreak was feared. When the leaders were locked up things became quiet.

At 3 45 p. m. there was quite a scrimmage, in which the prisoners and the officers participated. The officers used their long clubs freely, and as a result there are many sore heads among the rioters. None of the officers were injured.

The unruly convicts are being picked out as fast as possible and are now being put in the cells.

A heavy guard has been stationed near the bridge leading across Shirley Gut.

"DEACON" WHITE TO RESUME.

Will Operate on $60,000 Realized on a Life Insurance Policy.

NEW YORK, Aug. 18.—Some surprise was caused on the Stock exchange this afternoon by the announcement that "Deacon" S. V. White, who failed a short time ago, would resume business. Today he received $60,000 from the Equitable Life Insurance company on the death of Broker Bruns. Bruns failed at one time and turned his life insurance policy over to Mr. White. Bruns recently died and Mr. White will resume business on the money received from the broker's policy.

VIRGINIA DEMOCRATS.

A Free Coinage Plank Given the Cold Shoulder.

RICHMOND, Va., Aug. 18.—At 2.30 this morning the democratic state convention renominated R. Taylor Scott for attorney general amid a scene of great confusion. The platform, which indorsed the money and tariff planks of the national platform, was adopted. All efforts to secure the introduction of a free coinage plank failed.

Zimmerman Fails to Reach Sanger's Record.

MILWAUKEE, Wis., Aug. 18.—At the races at Ripon today Zimmerman won everything he went into, Dernberger finishing second to him. After the regular programme Zimmerman went a mile against time, with Dernberger, Banker and Crooks as pace-makers, making the mile in 2.13, failing to reach Sanger's record of 2 06 4-5. Four thousand people were present.

Wished to Be His Own Undertaker.

WICHITA, Kan., Aug. 18.—Joseph Welch Weirick, a farmer living west of this town, nearly succeeded in killing himself Thursday in a curious fashion. He has been under guard for some weeks, as he has several times evinced a desire to commit suicide. Thursday he evaded his guardians, and when found some hours later he was sitting in a freshly-dug grave, with his head and shoulders above the surface, putting the earth in over himself. Within his reach was a bottle labeled laudanum, which would doubtless have been emptied but for the timely arrival of the searching party.

Highwaymen in Putnam.

PUTNAM, Aug. 18.—Three men held up George Talbot on the Thompson road near the "Dam tavern" Friday evening and demanded his money. After a hard struggle Talbot escaped.

George Nichols was also held up by the same men, but it is not known whether they took any money from him.

Deputy Sheriff Parks and several local officers are in pursuit of the men, who are believed to belong in Webster, Mass.

Accidentally Kills His Brother.

PUTNAM, Conn., Aug. 18.—Three sons of Edward Lamoudy of Pomfret this afternoon saw a dog supposed to be mad and the oldest, 16 years old, went into the house and got a gun. After cocking the gun, he met Willie, aged 13, in the kitchen when the weapon was accidentally discharged, the contents entering Willie's side killing him instantly.

THE BEST RACING OF THE WEEK

At Worcester—2,000 People Witness the Events of Friday.

THE ROCHESTER RACES.

Dissatisfaction Expressed at the Management of the 2:14 Pace

WORCESTER, Mass., Aug. 18.—Fully 2 000 people saw the racing today, which was the best of the week. Fifteen heats were trotted in the four races, the sport lasting until 7 o'clock. The following are the summaries:

2.29 class, trot; purse $[illegible], divided.

Little Wonder, g. g.	3	3	1	1	9	1
Katahe, b. m.	1	1	9	10	9	6

Lavender, b. m.	6	4
Nettie L., c. m.	5	7
Billy, blk. g.	7	6

Time—2.31¼, 2.29.

The Rochester Races.

ROCHESTER, N. Y., Aug. 18.—But a single event was finished at the last day of the grand circuit meet here, the 2.18 class, trotting. The unfinished are the 2:14 pacing and the 2 27 class. But two heats were run in the latter class, and in the 2 14 class six heats were run. The horses were finally sent to the barn on account of darkness. The jockeying allowed in the 2 14 pace was responsible for the unfinished events. Hal Dilland sold as a favorite before the race was started and continued as a favorite at the end of the fourth heat, though he had not got a place. Then he went in and took the next two heats too easily. Great dissatisfaction was expressed with the way the thing was managed. The summaries:

2.18 class trotting, purse $2,000.

Harriett, b. m., by Alcayne	6	1	1	1
Angeline, b. m., by Wilkes Boy	1	3	3	6

Bestina, blk. s.	1	1
Charlie C.	2	3
Aunt Delilah	3	2

Time 2.21, 2.22.

ALL RECORDS BEATEN.

Ernest Osmond Makes Two Miles on a Safety in 4m. 34 2-5s.

LONDON, Aug 18.—At the Herne Hill track yesterday Ernest Osmond covered two miles on a safety bicycle in 4 minutes 34 2-5 seconds. This beats the best record ever made anywhere.

The British record for the distance was previously held by M. B. Fowler, who, on the same track last year, covered two miles in 4 minutes 49 4-5 seconds.

No Will Yet Found.

LYNN, Mass., Aug. 18.—No will can be found of the late W. G. S. Leene of Lynn, who, it is thought, committed suicide at Nahant, and it is believed he died intestate.

Appointed Assistant District Attorney.

WASHINGTON, Aug. 17.—Attorney-General Olney has appointed John H. Casey assistant attorney for the district of Massachusetts.

TOURNAMENT NEARLY OVER.

National Croquet Championship Awarded in Two Divisions—Germond Goes Down Before [illegible] Knecht—Crawford's Clean Score—Features of the Day—The Winners.

FIRST DIVISION.

First Prize—Willie Knecht, [illegible], N. J.
Second Prize—Rev. Phillip Germond, Tarrytown, N. Y.

SECOND DIVISION.

Tie between E. C. and D. D. Butler of Middletown, Conn., to be played off in that city.

THIRD DIVISION.

First Prize—H. T. Crawford, Asbury Grove, Mass.
Second Prize—Undecided, between Dudley, Jobes, Smith and Davenport.

Willie Knecht, the champion scientific croquet player of America, accompanied by his parents, left for his home in Mattawan, N. J., on the Boston boat train last night, after flashing like a meteor across the croquet sky. Eight veteran, old-time players, all away up in croquet circles and each old enough to be the father of the little sun-tanned Jersey strategist, are wondering this morning "where they are at."

The tie between Master Knecht and the Rev. Phillip Germond, pastor of the Asbury Methodist church at Tarrytown, N. Y., was continued yesterday morning, Johnson lowering his colors to the dominie, and the boy reeling off a victory from Greenalit. It was then decided to play for the championship three games, best two in three winning. There was a large audience about the court during the contests, pervaded by a subdued excitement, as the balls were nursed through the wickets, and shots frequently made that merited and received unsparing applause. The boy wonder's game was characterized by startling jump and carom and long range shots, which hit their mark with rifle-like accuracy. Although Germond was in the best of form, Knecht picked up the games with ease.

The first contest consumed but thirty minutes, the second shortest during the tournament. The game was also remarkable for Knecht's wonderful runs. He played with the blue and red globes, and in five innings carried them through the complete tour of the arches, and made the winning shot against the starting stake. Germond had but one shot, and that a most difficult one, consisting, as it did, of a long carom the length of the ground.

In the second game, Knecht won the lead, as he did in the first, and fussed with the balls during his first half dozen shots to very little purpose. Germond, meantime, improved his chances and had both of the rubber spheres well along toward the turning stake before the Jersey lad got a fair start. Even then he lacked a great deal of the snap and dash he so conspicuously exhibited in the former contest, and everyone said, "The veteran will scoop him this time." The boy wonder, however, got the balls running to suit him, and made the most difficult shot croquetists are familiar with, a drive of both balls through the double-wicketed cage. By easy stages he worked the black ball through the side arch, keeping its white companion abreast, and again, with but one interruption, bringing them to the cage, he made another phenomenal double drive through the twin arches, and brought one of them out a rover, making eleven wickets without being headed. It was an easy matter to make the three remaining arches and win the game.

Germond is 55 years old and has been an enthusiastic croquet player for eighteen years, but has not yet succeeded in carrying off the highest honors, although several times he has landed in second place.

Master Knecht is seventeen years old, and this is his third year at the game. In 1891, he was tied with Barrett for first place in third division, and knocked out his opponent in the deciding games. Last year, the youth lost but one game in ten, in the second division, and this year Johnson and Germond were the only ones to whom he lowered his colors in the tournament. He has played a game of professional croquet in nine minutes, unquestionably the speediest in the world. Willie is an embryo athlete. He has covered eighty miles over country roads on his bicycle in four hours and forty minutes, and has done a measured mile in 2 34¼. He is a foot and base ball player and has won renown as a jumper and runner. His nerves are alway in the best of order, for he is a lad of most exemplary habits, and carries his honors with a charmingly modest mien. His style of play is almost identical with that of Maurer, the "Jersey Lilly," who comes from the same neighborhood.

H. T. Crawford, in the third division, has given a marvellous exhibition of croquet playing, and finishes with a clear record of ten victories. He will make it interesting for second class players next year, and is considered a coming wonder. He is but nineteen years old, and is a student at Boston university. His home is in Woburn, but he lives on the croquet courts at Asbury Grove during the summer months.

Chalfrant, in the second division, has had as poor fortune as ex-President Bishop in the first. Both have won fame as skillful players. An implacable and remorseless fate seemed to have been at their heels through the meet, and they each have lost several games by but a hair's-breadth.

There was a large crowd of spectators present last night, and the scene at the grounds was one of enchanting beauty. Jacobus and Dickey played a tournament game, or rather the former did, for the "Nutmeg" contestant did not make an arch. Willie Knecht appeared on the field, and in a bout with Apgar of Trenton, showed his mettle.

E. C. Butler and D. D. Butler of Middletown engaged in a tournament game which continued till nearly 11 o'clock, and was won by the former. This ties them for first place in the second division, each having won seven and lost two games. The final victor will be decided at their home.

Second place in the third division will be decided today. Davenport must yet play Dudley and Cody; Dudley has Jobes and Holden to meet; and Adamson will endeavor to beat Smith. The position will be secured by either Jobes, Dudley, Smith or Davenport.

Greenalit challenged Jacobus to defend the Van Wickle badge, best four in seven games, and won the first handily last night. At midnight they were engrossed in the second round, with Jacobus in the lead. The games will be finished today.

Fay of the New York club holds the Horseman mallet, and the Trenton, N. J., club, through its representative, Apgar, has thrown down the gauntlet for its possession. The two players meet today for the best four in seven games.

The following committees for the ensuing year have been appointed:

Arrangements — Jacobus, Greenalit, Veasey, Dickey and Apgar.

Finance — Adamson, Fay, Baldwin, Davenport and Holden.

The building committee, Fay, chairman, have taken steps for the preservation of the club building during the winter. A committee, consisting of Bishop, C. Knecht and Germond, have called during the tournament on Mr. John W. Hooker of this city, extending its greeting and best wishes. Mr. Hooker was the first vice president of the association.

Chairman Germond of the special committee has reported the following resolutions on the death of Mr. C. C. Bliss:

"We miss at our annual meeting the unassuming, reticent yet gentlemanly and enthusiastic devotee of croquet, C. C. Bliss, he having departed this life in the early spring; therefore,

"Resolved, That we, the members of the National Croquet association, cherish his memory and virtue, and make this minute of our friend and comrade gone, we trust, to fairer fields and sunnier climes."

NORWICH'S CONTRIBUTION.

Justin McCarthy Sends Dr. James Duggan His Personal Thanks.

Dr. James Duggan of this city Friday received the following personal acknowledgment from Justin McCarthy:

"I have to acknowledge, on behalf of of my colleagues of the Irish parliamentary party and myself, the receipt of $1,445 96, the contribution of Norwich, Connecticut, towards the expense of our home rule struggle. I need hardly tell you how grateful we feel for the liberal and generous helping hand which you have held out to us. With such sympathy and such help we feel strong enough to encounter any obstacles and to triumph over any opposition."

STUBBED HIS TOE IN RIVER MUD

And Brought to Light a Rich Deposit of Diamond Rings.

LUCKY JOSEPH DOZIER.

The Gems Supposed to Have Been Dropped by Burglars.

NEW ORLEANS, Aug. 18.—Joseph Dozier, an old negro, stubbed his toe in the river mud at Old Planter's plantation, six miles below this city yesterday. There was brought to light a bright, shining object, a gold ring.

Digging in the mud he discovered 11 other gold and diamond rings, some gold watches, chains, lockets, earrings and other trinkets.

The news was circulated among the negroes on neighboring plantations, and several came to the scene. Over 60 more gold, diamond, amethyst and other rings were found, a dozen lockets and as many earrings. About 300 pieces of jewelry were found in all.

Dozier informed the police, and several detectives were sent to the scene to investigate. The treasure was turned over to them.

The theory of the police is that the jewelry was dropped by burglars by accident or when pursued, and sunk into the mud. It is not impossible, as the jewelry is of recent fashion, and burglaries have been numerous of late.

Suicide of a Providence Business Man.

PROVIDENCE, R. I., Aug. 18.—George H. Jencks, a prominent business man in this city, committed suicide this morning in his house at 116 Transit street.

Mr. Jencks was about 60 years old and had been in the firm of Mason & Jencks, marketmen, on South Main street, for more than 30 years. No cause can be given for the deed. About a year ago Mr. Jencks had a severe attack of the grip and has been ailing since. The recent financial troubles have worried him, and it was probably during a temporary fit of insanity that he took his own life.

Sixteen Small Houses Burned.

BROOKLYN, Aug. 18.—A fire, which started in a two-story frame house of Joseph Hill, 815 Cooper street, Williamsburg, at three o'clock this morning, quickly communicated to the adjoining dwellings and before the flames were extinguished sixteen small frame dwellings were completely destroyed.

The loss will reach fully $60,000 with only small insurance. All the tenants escaped with their lives, although several were injured by jumping from the windows.

Cattenach Defeated by O'Donnell.

CONEY ISLAND, N. Y., Aug. 18.—At the Athletic club rooms tonight Cattenach and O'Donnell fought four rounds, at the end of which the former's seconds threw up the sponge. Cattenach received severe punishment, and a physician was called to fix up his face, so badly was it damaged.

Internal Revenue Receipts.

WASHINGTON, Aug. 18.—The receipts from internal revenue today were $264,449; from customs, $471,717, and miscellaneous $285,781. The national bank notes received today for redemption amount to $654,885.

Petitioning Congress to Repeal Silver Purchase Clause.

SPRINGFIELD, Mass., Aug. 18.—Petitions are being circulated among the bankers and business men of this city calling upon congress to repeal the silver purchase clause in the Sherman act. They are being generally signed.

The Race Off.

NEWPORT, R. I., Aug. 18.—The impossibility of finishing the Astor cup race within the six-hour limit, prescribed by the conditions, caused the regatta committee to signal them that the race was off about one mile before reaching the second mark.

Knocked 15 1-4 Seconds Off the 3 Mile Bicycle Record.

MINNEAPOLIS, Aug. 18.—J. S. Johnson knocked 15¼ seconds off the three-mile bicycle record on the Minnehaha track today making the distance in 7 15¼.

HOOD'S SARSAPARILLA.

Swellings in the Neck

Grateful for Permanent Cure by Hood's Sarsaparilla.

"I cannot praise Hood's Sarsaparilla enough. For twelve years I have been troubled with scrofula and swelling of the glands in the neck. I consulted several physicians and took many medicines. My neck was also operated upon at the Mount Sinai Hospital, but this did not give me any permanent improvement. One day I read in a paper about Hood's Sarsaparilla, and on trying a bottle I found it was doing me good, so I took two bottles more. The swelling has entirely disappeared, and I am as healthy as anyone in the city. Anyone who should see my picture two years ago and now, would notice

Frank Murphy, for breach of the peace, had his case continued to today. Bonds [illegible].

Joseph Delaney of Greeneville, for breach of the peace, had judgment suspended for sixty days under $25 bonds.

Base Ball Notes.

The Westerly and Mystic nines will cross bats at Westerly grounds this afternoon. The Westerly nine will be the same team that met the Clippers last Saturday, except that O'Toole will catch and Robinson will hold down the bag at second. The Mystic nine will consist of Mitchell, c.; Gregory, p.; Morgan, 1 b.; O'Neil, 2 b.; Kinney, 3 b.; Noyes, s. s.; McGrath, r. f.; Spargo, c. f.; Wheeler, l. f. The Westerly nine will play the Clippers at Norwich on Labor day, September 4.

Paid for Sheep Killing With Their Lives.

James Northup of Wauwecus Hill put an end to two sheep killing dogs early one morning this week, but not until they had chewed the life out of two fine coast sheep and scattered the rest of the flock with fright. When Mr. Northup came upon the scene the dogs were in the enclosure with the sheep and were tearing one in pieces like ravenous wolves. Mr. Northup riddled one with a charge of shot and killed him on the spot and put a charge into the second dog, which escaped, but is thought to be dead as it has not been seen since. The owners of the dogs were notified and will probably settle the damages to the satisfaction of Mr. Northup.

A BRIGHT AND LIVELY DAY.

Well-Attended Grove Meeting—Inspiring Sermons.

VISITORS IN SOCIETY HOUSES.

Norwich Representatives Upon the Grounds—Camp Notes.

WILLIMANTIC CAMP GROUND Aug. 18.—The bright sun which followed Thursday's rain shone this morning on a long procession of vehicles of all styles and ages headed toward the meeting-place; everything from the one-horse shay of colonial build from Jaytown, to the modern yellow democrat wagon of corduroy cushions and glittering lamps from the borough. By the time for the 10 o'clock meeting fully 1,500 people had gathered in the circle, where the hymns were announced by the Rev. W. D Woodward of Windsorville, who also read I John iii. most impressively. Prayer was offered by the Rev. Mr. McVey. The Rev. T. J. Everett of Hazardville spoke from John XIII, 13 23: "Now there was leaning on Jesus' bosom one of his disciples, whom Jesus loved." His discourse was a graphic delineation of the character of John, a disciple pre-eminently strong physically and mentally. Good health and culture do not damage one's chances of becoming a beloved disciple. But John was strong morally as well. His work at Ephesus proved him by no means a minus quantity in religious matters. Negative christianity is not sufficient. Christianity is a chariot on which to ride out on the fields of service. Positive elements are necessary. John was, besides, a growing disciple; though faulty at first, place-seeking, narrow, bigoted, vindictive, he lived to abhor his sins. His gospels written in his old age display humility, breadth, the sweet spirit of love and charity. He was, too, a spiritual disciple, trusting in the Savior, close in the confidence of the Master. Jesus manifested his love to John by giving his mother into his care; he still manifests his love by committing to all his faithful followers his relatives, his brethren, the poor, the sick, the little ones to be ministered unto.

Mr. Johnson, who followed, prefaced the altar service by a practical talk upon "Earnestness, the importance of good books, good spiritual food, good associations."

In the afternoon the Rev. John Oldham of Woonsocket delivered an impressive sermon upon the danger of procrastination, based upon Acts xxiii, 28 "Almost thou persuadest me to be a christian." The other regular meetings were held as usual.

At the district stewards' meeting held at 1 o'clock steps were taken towards fixing the salary of the presiding elder. A per cent of assessment makes this salary about $1,700. The matter of furnishing the elder's home was also considered, as well as the possibility of some time in the future owning a house which would furnish him a permanent home. At present Elder Tirrell, like his predecessors, hires a house.

The following are sheltered in the different society houses:

New London: Mary Winchester, Lilian Daniels, Grace Newton, Robert Page, Amanda Carlyle, Stannat Rogers and wife, Ernest and Horace Burch and William Outhout.

Tolland: Mr. and Mrs. Silcox, Mrs. Adams, Mrs. Risley, Miss Tilden, Mrs. Crandall, Gardner Webster, wife and daughter, Harry Doyle and Mrs. Jones.

Uncasville: Hattie and Emma Tooker, Susie and Jennie Wood, Gertie Roberts, Annie Petrie of East Lyme, Lilian Sheffield, Mary Brooks, Mrs. Mary Williams, Addie Moxley, Lottie Alexander, Mrs. Westphal, Mrs. Clark, Mrs Phelps, Walter Perry and Edwin Smith.

Norwich Central: Mrs. H. C. Maffit, Mrs. Susan Franklin and Miss Emma Farrington.

Putnam: Mrs. Potter, Ella and Mary Davidson, Jennie Simmons, Chas Barrett, Flora Blanding, Olie Winslow, Mrs. Foster and daughters, Mrs. Chamberlain, Nellie Foster, Mrs Cunningham, Miss Balch and Mr. Segar, Frank Lawton, Charles Wilson.

Canterbury: Samuel Thompson and family, Waterman Blackford.

Staffordville: C. D. Brewer, Chas. Williams, Misses Effie and Etta Dunbar, Mary E. King, Eliza Hebb, Grace Barber, Ida Chapman and Sarah Moore.

Mrs. U S Gardner is visiting at the cottage of Mrs. Henry Gates.

Notes.

Mrs. Read will conduct the annual missionary meeting for the children at one o'clock on Saturday.

The 8 a. m. and 6 p. m. meetings in the Stafford Springs house are led daily by the Rev. J E Fisher, with the assistance of Mr. A. N. Nichols. A prominent feature of these meetings is the fine singing led by Prof. W. O Turner, the flute accompaniment being furnished by Mr. Windsor of Providence.

Norwich visitors to camp today were Miss Alice Cardwell, Wm. H Howe, Mrs. Fred. Tyler, and Mrs. Greenman.

Mrs. Geo H. Bates and daughter Della of Rockville spent Friday on the grounds.

Rev. Mr. Bridgford of Danielsonville was called home today to attend the funeral of a parishioner.

Rev. I. T. Johnson led a large Bible class at 1 o'clock.

Last night's meeting, with reference to a week of Bible conference next year, resulted in the appointment of the following committee: Chairman, the Rev. J. H. Allen; Rev. Ebee Tirrell, Rev. G. A. Grant, Norwich; Rev E. J. Ayres, Uncasville; Rev. W. J. Yates of New London, and Rev. J. M. Taber, South Manchester. A reserve fund of $60 was decided upon.

Mr. Edward Wheeler sang a solo very effectively at the 2 o'clock meeting.

The voice of Mrs. I. T. Johnson adds very materially to the sweetness and volume of the choir.

General satisfaction is expressed with the boarding house, which this year is managed by the association. Director Joshua Yeomans of Norwich has the following assistants: Jennie S. Yeomans, Annie E. Lathrop, Danielsonville; Mrs. M F. Fuller, Jennie Franklin, Norwich; Arthur Hills, East Hampton; William Talcott, Vernon; Mrs J Yeomans, Mr. Heel, Mr. Johnson, Mrs Loomis, William Noll, Boston, and Henry Snider of Willimantic.

COOPER'S CAREER ENDED.

The Young Thief Who Stole a Bicycle in This City in Custody in Providence.

George Sidney Price Cooper, who stole a bicycle from Eaton, Chase & Co. last week, has been run down in Providence. Cooper is wanted in many cities and towns in New England and the Middle states. Although young, he is no amateur at thieving and by clever operations has made a comfortable living and supplied himself with costly raiment. He claims that he is a native of New Jersey, but that he has lived some time in this state. At any rate he is comparatively well-known in this state by the police, some of whom the clever young thief has led a long chase, covering a period of many weeks.

This summer Cooper has spent most of his time in traveling from one place to another upon stolen bicycles. How many machines have been appropriated by him is a question, but at the present time it is known that he has stolen a great many and turned them into ready cash, despite the stringency of the money market. Being a good looking fellow with lots of money, no bicycle dealer would hesitate to loan him a $150 wheel. Cooper's plan has been to hire a bicycle for a few hours and then make for some other city, where he would sell it for what he could obtain. The dealer would lose the wheel and Cooper would spend the money in having a good time at society balls and entertainments and for nice clothing.

About Rhode Island he began operations July 27. At Centerville he stole a wheel. August 1, at Newark, N. J., he stole another. August 3, at Cambridgeport, he hired another bicycle in the same manner and did not return it. On the following day Boston dealers lost three or four $150 machines in the same way. An Attleboro dealer was next visited by a man who gave the name of Wilson of Bridgeport, Conn. He secured a new wheel and rode away, not to return. A few days ago Cooper appeared at Norwich and hired another wheel, and, coming to Providence, sold it in the usual manner.

In this way the wheel thief went about the eastern states, and since the wheeling season began has stolen enough bicycles to fill a factory. The total value of the property stolen reaches several thousands of dollars.

When searched at the city hall, Providence, he had in his possession considerable quantity of valuable jewelry, of which he could give no good account, and the police are of the opinion that this was also stolen by the thief. He will be held in that city for selling stolen property, and then tried on the Centreville case. After this he will probably be turned over to the Massachusetts authorities.

Sunday School Day at Roseland Park.

Through the courtesy of the Hon. H C. Bowen, the Connecticut Sunday School association are permitted to make announcement of a grand rally of Sunday school workers and scholars, at Roseland park, next Wednesday. Opportunity will be given for social interviews, pleasure making, basket picnics, etc., combined with exercises at the grand stand at 10.30 a. m. and 2 p. m., consisting of addresses by C. B Foote, president of Connecticut Sunday School association; the Rev. J. D. Herr, D.D., Norwich; the Rev. C. G. Bristol, Danielsonville; the Rev. Addison P. Foster, D.D., Boston, secretary American Sunday School union, and others interspersed with music by special quartette. Special address to children by Miss Bertha F. Vella, state primary worker for Massachusetts.

RAIDING OLD SOLDIERS.

Hoke Smith Looking Up Pensioners in Hartford.

The Hartford Post says: "Hoke Smith is after the pensioners in Hartford. He has already taken steps to get full lists of all old soldiers drawing pensions and for what injuries. This work is special and intended to supplement present official records.

"Every day's mails bring notices of suspended pensions in various parts of the state, and this city is now to be attacked.

"Delegates from Connecticut to the national encampment of the Grand Army, to be held at Indianapolis September 4, have already condemned Secretary Smith for his general course. This last step may call for further action.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Service at the Sheltering Arms, Sunday, at 3.30 p. m.

Advent chapel, Norwich Town. Sabbath school on the Sabbath at 10.45 a. m.; Preaching at 11.45.

A shoemaker at Lynn, Mass., repairs free every 11th pair of shoes left to be fixed.

IN TROUBLE AGAIN.

John T. Gallagher Arrested For Bigamy.

STORY OF OLD LOVE AND THE NEW.

Second Honeymoon Begins Before the First Ends.

PROVIDENCE, Aug. 18.—John Thomas Gallagher, a bridegroom of but a few days, who since his marriage has already seen the inside of a criminal court, is again in the hands of the police at East Providence, this time on a charge of bigamy.

On Aug. 3 Gallagher and a girl named Emily Amelia Lawless, residents of this city, stepped over to East Providence and were married. The Lawless girl told her parents that she was going to work, but instead she and John appeared before Clerk Smythe at the town house, and after responding to the usual questions, during which both claimed a residence at East Providence, gained his consent, and they were united by Rev. L. G. Horton of East Providence, and departed, rejoicing.

But unfortunately for the newly married couple, Emily's mother appeared before the East Providence police and

Proceeded to Raise a Row,

stating that the marriage was illegal, as both were non-residents of East Providence, and again as her daughter was but 16 years of age.

John Thomas was immediately arrested on a warrant issued by the chief of police of East Providence, setting forth the facts that he did cause himself to be married by Rev. L. G. Horton without first obtaining from the register of births, marriages and deaths at Providence a properly authenticated license, and because he did not first obtain the consent in writing of the Lawless girl's parents, she being a minor.

Gallagher was arraigned Tuesday before Judge Bliss in the East Providence court. He was permitted to depart on his own recognizance, the case being continued to Saturday.

But Gallagher's troubles were not to end here. His mother-in-law interested herself in his welfare, and by some means got hold of an

Incident in Gallagher's Life

three years ago. In August, 1890, the records at the city hall show that one John Gallagher of Providence applied for a license to marry Emily Johnson of Providence. The permit was issued and the returns showed that the ceremony was performed by Rev. George A. Smith of Woodward road.

The Lawless girl's mother immediately complained, and a warrant charging Gallagher with bigamy was issued. Gallagher was arrested by the East Providence police this morning and was held to await trial.

He makes a very peculiar statement in defense. He says he got the license to marry the Johnson girl, and intended to do so, but

Before He Contracted the Marriage

he was approached by an intimate friend named Daniel McCarthy, who was equally deep in love with the girl and who wanted to marry her.

The two held a consultation, with the result as Gallagher claims, that McCarthy took Gallagher's license and was married to Emily Johnson under the name of Gallagher.

Lawyer Brennan has been retained for the defence and the case promises to be interesting and sensational.

HUMAN BRUTES.

Men Arrested Who Crippled Children and Made Them Beggars.

VIENNA, Aug. 18.—A gang of men have been arrested in Biskupitz, Croatia, who have for years made a trade of crippling children and then sending them out to beg, or selling them to others for the same purpose. Children were stolen or were misled with promises to visit the house kept by the gang on the outskirts of the town. Once there they were bound and tortured.

When the police forced their way into the house Wednesday they found two girls of 12 or 14 years with their legs broken. Another girl of about the same age lay bound on a bed, with her arm broken and both eyes gouged out. Two other children, hardly less horribly mutilated, were found in cots in the cellar.

Many instruments, which had been used in producing physical deformities, were uncovered in the cellar and were seized for evidence.

PRESIDENT DISAPPOINTED.

Officials Believe Seals Will Be Exterminated Within Three Years.

NEW YORK, Aug. 18.—The Herald's Washington correspondent telegraphs: The administration is undoubtedly displeased with the Behring sea decision. Secretary Gresham continues to decline to discuss it, but those who are in a position to know state that both the secretary and the president are greatly disappointed.

One official stated today that he believed the seal herds would be exterminated within three years. All previous records of seal fisheries, it is asserted, show that when a wholesale slaughter is made of the herds it is only a question of a short time when the species will entirely disappear from that locality.

YOUNG BURGLAR CAUGHT.

Policeman Lying in Wait Makes Him an Easy Prisoner.

BOSTON, Aug. 18.—Mr. James McCarthy has a grocery and tobacco store at No. 5 Moulton street, Charlestown. Thieves have been getting into his stock quite heavily lately; so much so that Mr. McCarthy was seriously disturbed.

About 10 days ago some one appropriated $5 in cash and about $14 worth of tobacco, and before that two robberies resulted in as great a loss. Mr. McCarthy wanted the thieving stopped and talked with the officers about it. They thought it would be a good idea to have a policeman lay in wait in the store. Mr. McCarthy agreed with them. So an officer has been hanging out there for the past three or four nights.

Last night Mr. McCarthy stayed with the officer. He had a large quantity of tobacco put into the store yesterday afternoon, and it was thought that the thief might want to take advantage of an excellent opportunity to fill his coffers.

Mr. McCarthy and the policeman waited First one slept and then the other. It was the officer's turn to watch about 5:45 o'clock this morning, when the bulkhead door at the rear of the store began slowly to rise.

If the policeman hadn't been expecting a thief he might have counted on the appearance of a ghost, the door opened so noiselessly. Mr. Policeman awakened Mr. McCarthy. Both waited for the thief to finish his careful movements and get into the store. The intruder was cautious He spent five minutes getting the door open and two or three more in getting into the store. Then he closed the opening behind him.

Thus he lost his chance of retreat, and in a minute his arms were pinioned and a pair of very cold and strong steel bracelets were fastened on his wrists.

At station 15 the thief said his name was William Hogan, and that he was 18 years of age. The police know him as a boy around town, and have never suspected him of wrongdoing.

It is supposed that an employe of the store was concerned with Hogan in the thefts. It was the business of this employe to lock the store, and it is thought that he agreed with the young man to leave the bulkhead door unlocked for him.

SEALERS ARE SEIZED.

Victoria and American Boats Taken by Russian Man-of-War.

VICTORIA, B. C., Aug. 18.—The sealing schooner Viva came into port yesterday, and announced the seizure of the Victoria sealers Ainoka and Minnie and two American sealers by a Russian man-of-war, for sealing within the zone protected around Copper island. The papers of the Ainoka and Minnie were confiscated, and they were ordered to proceed to Yokohama for trial before the British consul or admiralty court.

It appears likely that the Victoria sealers will run in here and disobey the orders. The Ainoka, it will be remembered is supposed to have been lost, not having been heard from for a long time.

The captain of the Viva says he saw the capture of the Minnie, and says she was 30 miles out from the islands. The Russians claim that she was only 20 miles out. He heard of the seizure of the Ainoka when on board the South Bend. He fears other seizures.

The Russians are claiming the 30-mile limit. Particulars have been forwarded to Ottawa.

CONSOLIDATION SCHEME

To Unite the Northern Pacific and the Great Northern Railroads.

NEW YORK, Aug. 18.—A special to The Press from St. Paul says: A movement is on foot to start a new company, with James J. Hill at the head, for the purpose of consolidating the Northern Pacific and the Great Northern railroad system, which includes practically the whole northwest. It is rumored here that this consolidation will be urged on the ground of economy, and that President Hill and President Oakes are at the present moment going over the details prior to preparing some plan of operation, to be submitted to the stockholders.

It is said here that when this plan is perfected it will show that by close management great economies can be inaugurated in the management of the Northern Pacific, economies that will help the property out of at least some of its embarrassments. This proposed combination has been kept a profound secret, but the facts leaked out here in railroad circles.

HILL IN COURT AGAIN.

This Time He Seeks a Divorce From His Wife For Abusing Him.

SACO, Me., Aug. 18.—Living L. Hill, a Boston provision dealer, who about a year ago figured in the York county supreme court in a case of alleged wife poisoning, of which charge he was acquitted, has applied for a divorce, and the case will be heard at the September term of court at Alfred.

He charges his wife, Rose A. Hill of Saco, with being unmindful of her marriage covenants and of cruelly abusing him by causing his incarceration on a charge of which he was not guilty, for the acknowledged purpose of depriving him of his liberty, so as to obtain a divorce from him, with alimony.

The libellant claims that the present location of his wife is unknown to him and asks that he be given the custody of his four children.

Governor Russell at Sea.

WEST ISLAND, R. I., Aug. 18.—The schooner yacht Constellation, owned by Bayard Thayer, is about three miles off this station cruising westward, possibly bound for Marblehead or Boston. Governor Russell who has been Mr. Thayer's guest during the cruise of the New York Yacht club, is probably aboard of the fleet schooner.

Northern Pacific Cuts Salaries.

NEW YORK, Aug. 18.—The receivers of the Northern Pacific railroad yesterday ordered the following economies; Salaries from $1200 to $6000 to be reduced 10 per cent; salaries from $6000 to $10,000 to be reduced 15 per cent, and salaries above $10,000 to be reduced 25 per cent.

The Pest in Europe.

VIENNA, Aug. 18.—Seven fresh cases of cholera and 11 deaths were reported yesterday in Nadworna, a town of 6000 inhabitants in Austrian Galicia. A dispatch from Moscow says that the epidemic is abating rapidly in the city and province of Orel.

Blaze at Cohasset.

COHASSET, Mass., Aug. 18.—Fire destroyed the blacksmith shop of Thomas Roache on Jerusalem road this morning about 4 o'clock. Cause unknown; loss with tools, $1000.

BORING OPERATIONS STOPPED.

Seekers for Coal Deposits in Maine Feel the Financial Stringency.

BANGOR, Me., Aug. 18.—The boring operations at Perry, in Washington county, for the purpose of discovering if there are coal deposits underlying the red sandstone formation of that section, have been suspended for a time, owing to the business depression. The machinery will not be removed, but will be stored near by.

At the time the work was discontinued a depth of 610 feet had been reached, and the indications of a successful termination of the quest were thought to be very encouraging by those who had the enterprise in hand. A report, which lacks official confirmation, states that a thin stratum of coal was passed through just previous to the suspension of work.

Burglars at Work.

BOSTON, Aug. 18.—The New York and New England station at Tiltons, Walpole, was entered by burglars at an early hour this morning, entrance being effected by a front window. The ticket case was removed from the office and carried a considerable distance up the track, where it was broken open. A part of its contents was taken and the rest was strewn on the ground.

Mementoes of the Dead Poet.

AMESBURY, Mass., Aug. 18.—Complaints are made of visitors to Whittier's home destroying plants and flowers and anything they can lay hands on to get mementoes of the dead poet. The place is private property, and while the occupants are willing to show visitors around, they feel they have some rights that should be respected.

Appointed Treasury Inspector.

DANVERS, Mass., Aug. 18.—Thomas H. O'Neil of this town has been appointed inspector of the treasury department and will be stationed in Boston. Mr. O'Neil is the manager of the Endicott farm at Danversport. He has been very active in politics for several years. He will begin his duties immediately.

William H. Noures Dead.

BRADFORD, Mass., Aug. 18.—William H. Noures, aged 73 years, died suddenly this morning. He arose at 5, ate a light breakfast, and not feeling well returned to bed, expiring immediately. A wife survives him.

DR. JOHNSON'S SPECIALTIES.

JOHNSON'S ANODYNE LINIMENT

UNLIKE ANY OTHER FOR HOUSEHOLD USE.

Was originated and first prescribed by AN OLD FAMILY PHYSICIAN in 1810. Could a remedy without real merit have survived over eighty years?

Generation after Generation Have Used It.

For INTERNAL as much as EXTERNAL use It is Soothing, Healing, Penetrating. Once used always wanted; and dealers say "Can't sell any other kind."

PORTEOUS & MITCHELL.

PORTEOUS & MITCHELL.

Our Annual Clearance Sale of Summer Merchandise will continue all this week.

We have had similar sales every season, but never before have we had at this season of the year a sale which offers so many and such incomparable lots of desirable merchandise as are included in this sale.

Every department offers some unapproachable bargains, and the greater the lot the lower the price.

Bear in mind that when we say "bargains" we mean something out of the ordinary. We never use the word except in connection with something extraordinary.

During former sales there have been many disappointed in getting some particular article because they waited too long before coming to see about it.

Don't let it be your lot to be among the disappointed ones. If you need anything in merchandise now is the time to most advantageously buy it.

Staple Merchandise as well as Summer Goods are included in these offerings.

Men as well as women are interested.

There is something for everybody, and the prices were never lower than now.

PORTEOUS & MITCHELL. aug21daw

CAUTION.

There are a few men in town soliciting orders, claiming to represent the REMBRANDT CRAYON PORTRAIT CO. We have no agents in Norwich.

HORSES

TREATED FOR ALL DISEASES

at Gardner's Stable, Chestnut St., by the new Veterinary, DR. E. L. TOWER, graduate from Ontario Veterinary College.

REMOVE THE CAUSE

A Remedy Found that Has Never Failed in Kidney and Urinary Diseases.

PHYSICIANS ACKNOWLEDGE ITS MERIT.

That all kidney and urinary diseases yield to the curative power of Dr. David Kennedy's Favorite Remedy, has again been proven.

Probably a more remarkable recovery than that of Mr. Joseph Beach, of High Falls, Ulster Co., N. Y., has never been recorded.

Mr. Beach suffered for years with calculus or stone in the kidney.

No less than seven physicians were employed at different times to whom Mr. Beach paid hundreds of dollars for medical treatment with only temporary relief.

In speaking of his wonderful cure to a reporter, Mr. Beach said:

"No words can express the agony I endured; it entirely unfitted me for business and made life a burden. At the earnest [illegible] of friends, I tried Dr. David Kennedy's Favorite Remedy; I noted a [illegible] improvement while using the [illegible], and very soon after voided a [illegible] stone. Am now in perfect [illegible], and I attribute it entirely to the [illegible] Dr. Kennedy's Favorite Remedy, [illegible] saved me from a life of pain and [illegible]."

The early stages of these dangerous diseases are too often neglected. Opiates and narcotics may dull the pain for a few [illegible], but they have no effect whatever on a remedy.

Dr. Kennedy's Favorite Remedy goes to the cause of the trouble by putting a stop to the formation of uric acid, and expels whatever sandy particles may have been formed.

The slight pain in the back is nature's warning of kidney trouble. A few doses of Favorite Remedy taken in time, will prevent this and ward off a painful sickness. All druggists sell Favorite Remedy. aug19w2B

The Bulletin.

A QUATERNION.

Let there be Light within thy soul
O'er the fair world of things to wander,
And each fine link that binds the whole
Nicely to note and well to ponder.

Let there be Liberty with broad wing,
At plastic Nature's high dictation,
From crude, [illegible] to bring
The magic of a new creation.

Let there be Love, that each free force
May seek and aptly find [illegible],
To move in sweet, harmonious [illegible],
And work as brother works with brother.

Let there be Law to sit supreme
On steadfast throne of sanctioned order,
That each new hatched, untampered scheme
May fear to cross the sacred border.

Hold by these four, by right divine
That wisely guide and sweetly sway us,
Else tossed about in aimless coil
And drifting blindly into chaos.
—Cassell's Family Magazine.

THE COURIER.

"I intrust you with a sacred duty," said the general as he handed his courier a letter. "Remember, you are to stop for nothing. If you fail, you will be shot, but if you succeed the Order of St. George will adorn your breast. Now go, and God be with you in all your perils."

The young courier knelt and swore to protect the life of the czar with his own, and then he pushed the curtain aside, leaving the general alone.

The evening was fair, cold and beautiful. As the general leaned from the balcony of the palace he thought what a farce this ball was when his heart was full of terror for the czar and all Russia.

In the adjoining room, near a marble pillar, stood a young girl covered with magnificent satin and jewels. Looking at her with flashing eyes was a man of about 40, with coal black hair and cruel expression.

"Nodine, this must be your work." She shivered as he spoke, but Otaroff, the traitor, had no mercy.

"And to it at once!" he said.

"What is my task?" she asked him, and again she shivered.

"An easy one, my beautiful queen. Merely to throw yourself in his way, and this courier will forget the czar and all Russia."

"I doubt it," she answered.

"You must not doubt it," he cried fiercely and held her wrist so tightly that the pain made her face white to the very lips.

"Our scheme must go through this time, and the courier will arrive too late. You hear, my beautiful daughter?"

"I hear you," she answered and wrenched her wrist from his grasp.

"But, father," she said pleadingly, "you have never used me as a decoy before. Oh, I beg of you not to do it now! I cannot do it. I cannot."

"Fool!" he hissed at her. "You little know your power. With your beauty you can do anything."

"And would you sell it?" she asked. He hesitated, then said:

"Yes, for the cause."

"You are a strange father," she said slowly, looking at him with no spark of love in her eyes, "but I may prove traitor too. What then, father?"

He bent his head and whispered in her ear. "I will shoot you, my beautiful queen; so take care. For the first time tonight I doubt you, but 'tis an insane idea. Go into the ballroom and dance an hour, then return to your house and prepare for your journey."

She went from him down the marble steps into the room beyond and never once looked back. Her heart was sad and heavy. Many noticed the beautiful woman, but wondered why her face was so tragic.

It was about 8 the next night after the ball when the courier of the czar arrived at the first posthouse and asked for a change of horses.

"Stop a little!" asked the worthy postmaster.

"No," answered the courier in a tone which silenced all other questions.

"I want horses and nothing else."

The Russian looked with much admiration on this tall courier and speedily went for them. With a clap of the whip the tarantass was off, and the little Russian was alone, but not for long. Down the road he saw another tarantass coming at breakneck speed. "Ah, perhaps they will stop," he said to himself. The little man had to flee for his life, for the horses dashed on, and he only caught sight of a very beautiful face in a red hood.

A dreadful storm broke upon the night, and in the darkness a flying tarantass dashed by—the one occupied by the courier. "Some one else in this dreadful storm," thought he. "God help them." When the first dawn of day came, the rain had ceased, and they were almost past the dangers. In the middle of the road lay the figure of a woman, and the horses almost ran over her.

"She is dead!" cried the courier as he laid his hand upon her heart. "No; she lives. I cannot see a mortal [illegible] like this." So, with the help of the driver, he carried her to the tarantass and laid her gently down. There he sat, looking at the girl's pale face and wondering what he should do with her.

Suddenly she opened her large, dark eyes and gazed into his face. Her wondrous beauty captivated him, and he forgot to ask her if she was hurt. He only gazed and said nothing.

"You are a courier?" she asked at length.

"No; I am captain of the Fourteenth guards. And you?"

"I am going to meet my father at Isham," she answered. Her voice was wonderfully low and sweet, and he believed all she told him.

They journeyed on together, and the time sped rapidly away.

At last they reached Isham, and the girl looked for her father, but of course he was not there. She burst into tears and would not be consoled. An officer had taken the last horses an hour before, and our hero had to wait for his own to rest.

In the meantime Nodine, for it was she, wove a subtle charm around the courier. He was not proof against the glances from her splendid, half veiled eyes. Her red lips seemed to say, "Come and kiss me." Her voice, her smile seemed to make the air he breathed delightful, and his nerves thrilled with joy. How could he help loving her? Seeing her in all the glory of her youth and beauty, he forgot the czar and all Russia.

They were standing beside a high rock, and with an impulse prompted by his great passion he knelt at her feet, kissing her hands madly and begging her to tell him her name.

Her poor heart beat wildly. For the first time she loved, and at the cost of her life she resolved to be true not to her oath, but to the man who knelt before her.

"Go! Flee for your life!" she cried. "My name is—nihilist!"

He started to his feet and turned to leave her in a dazed manner. A sharp report of a pistol sounded in the air, and the courier of the czar fell wounded. With lightning quickness Nodine knelt beside her lover, and while smoothing back his hair with one hand, with the other she stole the imperial letter and slipped it into her breast. Then she left him, for she had made up her mind that she would carry the important message to the czar herself.

After traveling day and night without food or sleep she reached the palace and delivered the letter to the czar.

"What can I do for you?" asked the czar of all Russia.

"What do you do for nihilists?" she asked him.

"We shoot them," he answered angrily.

"Then I shall be shot." She said it so calmly and deliberately that the czar looked at her in surprise.

"Nihilist or no nihilist, my child, you have saved my life, and therefore I spare yours. You may return to your home in safety."

With a cry like a hunted animal she fell at his feet.

"Don't send me back. The bullet that struck the courier was meant for me. I heard the word 'Traitress!' hissed by my own father, and if I go back he will not miss his aim again. He has sworn to kill me if I prove false to the cause, and he will keep his oath. I pray you, don't send me back."

He saw her agony was genuine, and placing his hand on her head said: "Rise, child. You stay here." At that moment Ivan Liversky, the courier of the czar, dashed into the room. His clothes were covered with mud and his body weak from loss of blood.

"Thank God!" he cried when he saw the czar. "Otaroff, the traitor, is captured, has confessed all, and you are safe."

"He was my father," said Nodine softly.

The courier caught the back of a chair for support, and the czar turned to her in anger.

"Yes, do with me what you will. I am Nodine Otaroff, who despises her name, her father and most of all herself."

"Wait a moment," said the courier to the czar; "there is some mistake. Otaroff gave me some papers and confessed having stolen a child out of revenge from the rich Cordisky. He name was Nodine." And Liversky handed the documents to the czar, who in turn, after glancing over them, gave them to the young girl.

"I will send a messenger to Moscow, and one who would travel night and day, without sleep or food, to deliver this letter to the noblest of Russians." So said the czar and left the room.

"You have saved my life!" the courier cried.

"And you mine," answered Nodine.

"Yet, my loved one, it is worthless without yours."

"Then," she said, with glad tears in her eyes, "I give mine for thine. I love thee, Ivan Liversky."

He took her in his arms and kissed her many times. When Cordisky arrived he found he had gained a child only to lose her again, for Nodine gave her heart and hand to a young soldier decorated with the Order of St. George, given to him by the czar of all Russia.—Exchange.

Dr. Mary Did Not Whistle.

When Dr. Mary Walker was in Philadelphia not long ago, she wanted to ride in a Market street cable car. She signaled the gripman, who appears to have taken no notice, and the doctor put after the conveyance in indignant haste.

"Why didn't you stop?" she said sternly to the conductor.

"Beg pardon, sir," replied the latter. "I didn't hear you whistle."

"Oh, you horrid brute!" exclaimed the doctor, "what do you mean?"

The conductor began to realize the situation and stammered an apology.

"You should never judge a man by his clothes," said Dr. Walker, with the charming smile she can wear, "and the same rule applies to women."

She did not seem to mind the curious gaze of the other passengers, and upon her signal the car stopped instantly. As she got off the conductor tipped his hat, and she raised her high silk hat in dignified acknowledgment.—Philadelphia Press.

Professor Frothingham's Discovery.

Professor Frothingham of Princeton college returned not long since from an extended archeological tour through central Italy, and one of the most interesting results of it is the proof he has adduced to the effect that many of the Christian churches which have been supposed to date from the early centuries of our era really belong much later—in fact, well into the middle ages.—College Bulletin.

Feeding Horses In Norway.

In Norway horses always have a bucket of water placed beside each animal's allowance of hay. After each mouthful of hay they take a sip of water. It is said that this mode of feeding is beneficial, and to it the fact is attributed that a broken winded horse is rarely seen in Norway.

Poor Animals!

"You see, Miss Fanny, even the birds seem happier running in couples."

"Yes, but they are geese and don't know better."—Wonder.

The Testimony of a Friend.

Attorney General Hendrick of Kentucky prides himself on the fact that he rose from a farm laborer to his present place of dignity and honor. He was telling some friends in Frankfort the other day of his early struggles and called a negro who was passing to attest the veracity of his statements. "Brother Bradley," said he, "is an old fashioned, blue gummed negro and a boyhood friend of mine, by whose side I have worked many a day in the corn field. Wasn't I a good man in the cornfield, Brother Bradley?" "Oh yes, sah," said the darky, "you was a good man for a fact, but you suttinly didn't [illegible] much."—San Francisco Argonaut.

THE SUNDAY SCHOOL.

LESSON VIII, THIRD QUARTER, INTERNATIONAL SERIES, AUG. 20.

Text of the Lesson, Acts xxiv, 10-25—Memory Verses, 14-16—Golden Text, I Cor. xvi, 13—Commentary by the Rev. D. M. Stearns.

10. "Then Paul, after that the governor had beckoned unto him to speak, answered." Last week we left Paul about to address the people from the castle stairs just after his arrest. The next day he is brought before the Jewish council, but both the address [illegible] the stairs and his words before the council caused such an uproar that the chief captain had to rescue and care for him. The next night the Lord stood by him and strengthened him (chapter xxiii, 11). Then because of a plot to kill him he is sent under a strong escort to Cæsarea. In this lesson he is before the governor Felix, and also the high priest and elders who have come from Jerusalem to appear against him. They have just accused him, and now he is about to answer for himself.

11. "There are yet but twelve days since I went up to Jerusalem for to worship." The story of this book then from chapter xxi, 15, to this event occupied but 12 days, but how full they were for Paul! Consider the last 12 hours of the Lord Jesus ere He was nailed to the cross, how much they meant to Him, and how large a portion of each gospel is taken up with the record. Whether our hours or days mean much or little let all be for Him.

12. "And they neither found me in the temple disputing with any man, neither raising up the people, neither in the synagogues, nor in the city." So that their accusations, even though made by Orator Tertullus, were all lies. It is very trying to be publicly accused of things of which you are perfectly innocent, but it is very glorifying to God if one can be patient under such circumstances (I Pet. ii, 19-21; iv, 16).

13. "Neither can they prove the things whereof they now accuse me." Only lies and not a particle of foundation. But so it was with Jesus Himself, and He answered nothing (Mark xv, 3-5), giving us an example as to how we ought to act. It is well sometimes to be as deaf and dumb (Ps. xxxviii, 13, 14).

14. "So worship I the God of my fathers, believing all things which are written in the law and in the prophets." And yet that was counted heresy because he believed the word of God rather than man's interpretation of that word. In some quarters it is counted a kind of heresy to so believe in these days, but we are surely safe in following Him who said, "All things must be fulfilled which were written in the law of Moses, and in the prophets, and in the Psalms concerning me."

15. "And have hope toward God, which they themselves also allow, that there shall be a resurrection of the dead, both of the just and unjust." Some of the most important Old Testament texts on the resurrection are Job xix, 25-27, margin; Isa. xxvi, 19; Hos. vi, 2, and Dan. xii, 2.

16. "And herein do I exercise myself, to have always a conscience void of offense toward God and toward men." Believing and teaching that all the saints shall meet the Lord in the air and be at the judgment seat of Christ (I Thess. iv, 16, 17; Rom. xiv, 10; II Cor. v, 10) to be judged for their works, Paul sought so to live that in that day his works might not be burned up or disapproved (I Cor. iii, 15; ix, 27, R. V.).

17. "Now after many years I came to bring alms to my nation and offerings." As from Antioch (chapter xi, 29, 30), so from other places the saints sent thank offerings to Jerusalem, for if Jerusalem sent them the good news of Jesus, the Messiah, it was but right that they should remember the saints there in temporal gifts.

18. "Whereupon certain Jews from Asia found me purified in the temple, neither with multitude nor with tumult." There was no ground for his arrest except their hatred of the man and his teaching. His teaching was strictly Scriptural and heartily indorsed by the Lord Jesus Himself (chapters xviii, 9, 10; xxiii, 11), so that their hatred was really a hatred of God and His truth. Our comfort is that, if faithful to Him, we must expect fellowship in His sufferings (Luke x, 16; John xv, 20).

19. "Who ought to have been here before thee and object if they had aught against me." Knowing they could prove nothing, they thought best not to appear. In view of eternity and the judgment seat, what solid comfort there is in the words, "If God be for us, who can be against us?" "Who shall lay anything to the charge of God's elect" (Rom. viii, 31, 33)?

20. "Or else let these same here say if they have found any evil doing in me while I stood before the council." His appearance before the council and the happenings there are recorded in chapter xxiii, 1-10. It was that same night that the Lord appeared to him and strengthened him (verse 11), so there could have been nothing displeasing to the Lord in his conduct.

21. "Except it be for this one voice, that I cried, standing among them, Touching the resurrection of the dead I am called in question by you this day." See chapter xxiii, 6. It was this saying before the council which set Pharisees and Sadducees against each other, so that the chief captain had to rescue Paul from them. How a great truth like the two resurrections or the coming of the Lord will set religious people against each other!

22. "When Lysias, the chief captain, shall come down, I will know the uttermost of your matters." It is a great comfort to the true child of God to know that God is thoroughly acquainted with the [illegible] of all his matters. He knows us even to the imaginations of the thoughts of our hearts (Gen. vi, 5; I Chron. xxviii, 9). He also sees the end from the beginning and will perfect all that concerneth us (Isa. xlvi, 10; Ps. cxxxviii, 8).

23. "And he commanded a centurion to keep Paul and to let him have liberty." So it was with Paul repeatedly (chapters xxvii, 3; xxviii, 16). See in this the power of God that His servant might have greater opportunity to testify of Him. "The eyes of the Lord run to and fro throughout the whole earth to show Himself strong on behalf of those whose hearts are perfect toward Him."

24. "He sent for Paul and heard him concerning the faith in Christ." This opportunity was perhaps given for the sake of Drusilla, but anyway Paul must have rejoiced in the privilege of telling again the story of the Christ who met him on the way to Damascus and gave him forgiveness of sins and eternal redemption (Acts xiii, 38, 39; Heb. ix, 12).

25. "He reasoned of righteousness, temperance and judgment to come." In the power of the spirit Paul spoke of Jesus as the only righteousness for the sinner (Rom. x, 3, 4), the manifestation of that righteousness in the life of the believer (Rom. viii, 4; Titus ii, 12), and the certainty of our appearing before Jesus as our Judge (Acts xvii, 31). Felix was evidently moved, but said, "Not now."

The Congregational Endeavorers of Darlington, England, are utilizing for evangelistic purposes the Saturday afternoon [illegible].

The Central Congregational society of Chelsea, Mass., has arranged for regular services at the United States Marine hospital in that city, using the Floating society pledge.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 20. Comment by Rev. S. H. Doyle.

TOPIC.—Paul or Felix? Whose example will you follow? Acts xxiv, 22-27; I John ii, 15-17.

In the various relations of life men are often brought together in such a way as to teach useful and important lessons by comparison and contrast. Thus Abraham and Lot are related in the memorable scene in which Lot chose the valley of the Jordan, and thus also the repentant and the unrepentant thief at the crucifixion of Christ. In the same character Paul and Felix are represented before us. Each one is a type of a class of men which are directly contrary to one another, and in the incident quoted in which they are brought together they teach us lessons of instruction and wisdom. Perhaps the character of each can be better portrayed in a profitable manner by viewing them together and then by contrast.

1. Paul and Felix (Acts xxiv, 22-26). The scene in which Paul and Felix are here associated was in the courtroom of the Roman governor, which was at Cæsarea. Paul had been arrested by the Jews at Jerusalem, and a plot having been found against his life Lysias, the Roman magistrate, sent him to the Roman governor, Felix, at Cæsarea. When Paul was brought before Felix, who was a mean and dissolute ruler, and his wife, who was as dissolute as her husband, he was not daunted. Instead of dealing in subtleties and generalities or trying to win the favor of the profligate ruler by flattery and deceit he preached righteousness—right between man and man—temperance, self content in all things and the judgment to come. The conscience of Felix is aroused. He is alarmed and terrified, but instead of acting upon his convictions he delays the matter, sending Paul away till a more convenient season—which never came—should come. He also hoped that Paul or his friends would bribe him to release the apostle, but this was not done. Two years later when recalled to Rome Felix, to please the Jews, left Paul a [illegible].

2. Paul or Felix (I John ii, 15-17). We have had Paul and Felix described, and they fit the description of John in the reference before us, Paul being the man who feared God, and Felix the one who was governed by worldliness; Paul represents godliness, Felix worldliness; Paul self control, Felix indulgence; Paul makes his peace with God; Felix delays it; Paul lives for eternity, Felix for time. These are the characters. Whose example will we follow? There should be no question or doubt here. The example of Paul is as high above that of Felix as the heavens above the earth.

Scriptural Readings—Ex. xxiii, 2; I Kings xviii, 21; Eccl. ii, 1; iii, 10; Isa. xxxii, 10; Amos vi, 3-7; Math. v, 25; vi, 24; Luke xvi, 13; xxi, 34; John xii, 35; Rom. xii, 3; II Cor. vii, 29-30; II Tim. vi, 10; Jas. i, 10-27; I Pet. i, 14.

Christian Endeavor and the Church.

The relation of the society of Christian Endeavor to the church is one of vital interest and importance. While each may exist and do good work as an independent organization, neither can do the work of which it is capable without the aid of the other. It is not the design of this remark to place the Christian Endeavor society on the same footing as the church, nor to assume that Christian Endeavor is the only proper form for a society of young people.

The church is an ordinance of God. It is a dictate of divine wisdom. Young people's societies of whatever form are products of the wisdom of man. But the church needs the young people's society, and the young people need the sympathy and guidance of the church. They need the restraining, supporting, encouraging and directing influence of maturer minds.—National Presbyterian.

Endeavor In Many Languages.

The model constitution has been translated and is printed in the following languages: English, German, Swedish, Norwegian, French, Danish, Dutch, Spanish, Chinese, Japanese, Tamil, Telugu, Hindi, Hindoostanee, Bengalee, Marathi, Arabic, Turkish, Bulgarian, Armenian and modern Greek.

Christian Endeavor Notes.

A local union has been formed in Vancouver, B. C., of four Endeavor societies and three Epworth leagues of Christian Endeavor.

There are now 623 Christian Endeavor societies in the British section.

The society in the Mississippi Avenue Christian church, Memphis, though but little more than a year old, enjoys the honor of being the largest society in the state.

Christian Endeavorers in Turkey do not dare to wear their C. E. badge, as it makes them the object of suspicion to the police.

Accurate statistics are not easily obtained, but it is certain that new societies are constantly being formed, and the outlook for the future is promising in Japan.

Christian Endeavor has removed the conventionalities of the past, and woman may rise to the religious privileges of her brother.

In the Christian Endeavor society work is done for the home missionary, foreign missionary, city missionary, temperance reforms, life saving crews and a host of other organizations, and so evenly balanced are all these that one Christian virtue is not exalted at the expense of another.

Two more senior societies in South Australia, both in Baptist churches. There are now five in all.

Missionary Items.

In some of the district congregations in India the native Christians close their services with three words that mean, "Victory to the Lord Jesus."

Over 200 African converts in Uganda and the regions about have suffered death rather than give up their faith in Christ.

It is said that if the United States were supplied with ministers in the same proportion that the heathen world is with missionaries there would be altogether about 375, about two-thirds as many as there are now in Boston alone.

Nine casks of missionary arrowroot have been sent to Edinburgh this year from Aneityum, New Hebrides, and three from Fortuna. The latter is a contribution from the native Christians to help prepare native teachers and to build the first church in Fortuna.

WRITING AN OPERA.

W. S. GILBERT TELLS HOW HE PRODUCES COMIC LIBRETTO.

A Work In Which the Poet and the Composer Must Work Hand in Hand—Mr. Gilbert's Laborious Methods—How He Gets His Ideas For Popular Plots.

I asked W. S. Gilbert what he considered the chief traits necessary to enable one to become a successful playwright.

"Well," he replied thoughtfully, "that opens up a very large subject. They differ vastly. In my own line I should sum them up as follows: In the first place, the power of catching the public taste; then a thorough knowledge of stagecraft and a gift for stage management, the capacity to invent a plot, the power to create characters, an eye for dramatic situation and scenic effect, and finally the faculty to write readily dialogue, lyrics and musical numbers."

"I believe, Mr. Gilbert," I said, "that you have little or no ear for music. Don't you find this interferes with your rhythmical numbers?"

"It is quite true that I have no ear for music, but I have a very sensitive ear for rhythm; it is precisely the difference between time and tune. I am very fond of music, but I don't know a discord when I hear one. On the other hand, the slightest error in time, which would probably escape a musician, would jar most gratingly on my ear. My fondness for music chiefly lies in hearing pieces which are connected in my mind with associations. I would rather hear an unknown soprano singing a song I knew than Patti singing one I did not know."

"Where do your plots come from, Mr. Gilbert?"

"Plots! Good gracious! where do they come from? I don't know. A chance remark in conversation, a little accidental incident, a trifling object, may suggest a train of thought which develops into a startling plot. Of course I am talking of original plots. I don't call adapting a play or translating a play writing one. Taking my own plots, for instance, the 'Mikado' was suggested by a Japanese sword which hangs in my study. 'The Yeomen of the Guard' by even a more unlikely incident. I had 30 minutes one day to wait at Uxbridge station for a train, and I saw the advertisement of the 'Tower Furnishing Company,' representing a number of beef eaters—why, goodness only knows. It gave me an idea, and I wrote the play originally as one of modern life in the Tower of London. Then it suddenly occurred to me to throw the time of it back to that of Queen Elizabeth. Having got one's plot, the next step is to fit in the characters. And the chief point in doing so is to invent original characters.

"I write out the play as a story, just as carefully as though it were to be published in that form. I then try to divide it into acts. I think two acts the right number for comic opera. At least my experience—and that is 30 years old—teaches me so. Sometimes, of course, the original story does not fall readily into two acts, and so requires modification. Well, I put it by for a fortnight or more, and then rewrite the whole thing without referring to the first copy. I find that I have omitted some good things that were in the first edition and have introduced some other good things that were not in it. I compare the two, put them both aside and write it out again. Sometimes I do this a dozen times; indeed the general public has no idea of the trouble it takes to produce a play that seems to run so smoothly and so naturally.

"One must work up to a good curtain. I believe very strongly in this, although I never take up any controversies, but simply go my own way on my own lines. The last impression is always the strongest, and the audience will often pardon a feeble, wearisome act for one dramatic climax at its conclusion. I can generally judge now what will have a good effect. Sometimes, but very rarely, it is spoiled by the interpreters. They always do their best, but occasionally they fail to realize my intention. The fact is that for comic opera many artists, especially tenors and sopranos, are necessarily engaged who are singers rather than actors, and it is not to be expected that carefully written comedy dialogue will receive full justice at their hands.

"Well, to go on with the writing of the play, I next sketch out quite roughly the dialogue and then fill in the musical numbers as I feel inclined. I do not attempt to write them in order, but just as the humor takes me—one here, one there, a sad one when I feel depressed, a bright one when I am in a happy mood. When at last all those of the first act are done, it is sent to the composer to be set to music, with a copy of the rough sketch of the dialogue to show him how the different songs hang together. I generally like reading it over to the composer, so as to give him my idea of the rhythm, which, as a matter of course, he varies at his pleasure.

"There must be perfect good fellowship between the writer and composer, as there is much give and take to be managed. Meters have to be changed by the writer, or tunes altered by the composer, to fit in with some idea, some intention, of the other partner. For instance, the writer may have put a theme in one meter, and the composer has a tune in his head which will just suit the theme, but will not fit the occasion, and so the lyrics must be altered. Each must try to make the other's part as easy as possible. There must be no jealousy, no bad feeling between the two. They must be on the best of terms, otherwise there will be no success."—Cor. St. James Gazette.

Remark of a Cruel Man.

There is a report prevalent in Kansas that Ottawa university is to receive an endowment of $50,000 from a wealthy lady in that state in 15 years. Every friend of the university was happy over the report until one old curmudgeon of a man suggested that that was plenty of time for any woman to change her mind.—New York Times.

A Misconception.

Horse Dealer—I always pick my customers.

Friend—Do you? I was told that you skinned them.—Brooklyn Life.

The Detroit union has grown in a year from a membership of 18 to 29 societies, and the enrollment has increased from 1,200 to 1,900.

FIFTEEN HAPPY WOMEN.

Work Accomplished at the Montreal Benevolent Society Home.

There is no sectional feeling about Paine's celery compound. It is found in thousands of homes in the north, the east, the south and the west. It is above party and politics.

The strong and truthful statement made a short time ago by an old physician in New York that "Paine's celery compound is life and health to thousands of sickly and suffering women," is fully and amply borne out by results obtained in the Ladies' Benevolent Society's home, Montreal.

People in every section of the world have heard of the charitable and christian work done by wealthy and philanthropic ladies of Montreal, in the noble institution just referred to, which has been in existence nearly 65 years.

A year ago it was deemed advisable to introduce Paine's celery compound into the home, as so much had been said by the physicians in favor of the great remedy. Indeed, many friends, contributors and workers for the home had themselves used Paine's celery compound and obtained astonishing benefits.

"Never in the history of this long-established institution," reads the report, "was anything received with greater demonstration of joy and thankfulness.

"Fully a score of worthy old ladies, suffering from rheumatism, nervous complaints, and other grave troubles, seem found a new life, energy, vim, and a freedom from pain that other medicines had failed to accomplish. The old ladies rest better, sleep better, eat better, and are freer from pain than they have been for years."

The officials of the Montreal Ladies' Benevolent Society have not been slow to recognize the fact that the old ladies under their care derived great good. The lady directresses have officially written to the proprietors of Paine's celery compound, expressing their hearty thanks for the good done.

It is because old age to most people means debility, loss of powers of mind and body, and a growing weariness and weakness, that it is dreaded.

But there's another kind of old age now possible. One cannot defy death, but he can disease.

Nature meant old age to be hale and sound, and by attending closely to the means of repair of the body, one may live according to nature, to a grand old age in the best sense. Paine's celery compound makes a good old age possible to many. Paine's celery compound is a true source of nourishment to the nervous system and through the nerves to the entire body. aug19d

FOR THE LADIES

REDUCTION
In Ladies' Suits and Shirt Waists.

We have a few of our First and Second Quality of Ladies' Serge Suits which we will close at the following prices: $6.00 and $7.95. We guarantee them to be the best VALUE EVER offered in Norwich. We have also a few wash and other suits that we have marked very low. Our Fine Shirt Waists we have marked less than cost, as they must be sold.

Ladies' Navy Blue and Black Blazers regardless of cost to close, at

A. McJENNETT'S, 44 Main St.

JUST RECEIVED,
Another lot of those Denim Spreads and Sofa Pillows at the Bouquet Millinery and Fancy Goods Parlors, No. 5 Lower Broadway. We also carry a full line of B. and A. Wash Silk, Art Threads, Fringes, and everything pertaining to Fancy Work.
STAMPING AND PINKING A SPECIALTY.
Everything in the Millinery line will be sold regardless of cost.

NORWICH WEEKLY COURIER.

[illegible]

Subscription rates, MORNING BULLETIN— By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages [illegible].

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Saturday August 19 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

WHAT MAY BE EXPECTED.

There is no secrecy about the intent of the democratic party, and no uncertainty as to what the matter is with the business of the country at the present time.

Hoke Smith has made his rule for the restriction of pensions and the pauperization of old and debilitated union soldiers, and his paper at Atlanta, Ga., advocates for "free silver coinage." It is an open question whether or not as a cabinet officer he is antagonistic to the views of the president upon either of these issues.

Thomas G. Shearman, before the Cobden club, favored free trade at the expense of the protected industries of the United States, and said Cleveland, Gresham and Carlisle were with him.

Ben Folsom, at Sheffield, comforted his English audience with the assurance that "They had passed the worst period, had crossed the highest barrier that can be raised between the United States and England in the way of trade obstruction." "I will tell you," said he, "why this is: For the first time since 1860 the democratic party which has been the party of free trade, is in power!" He represented cousin Grover Cleveland as being in harmony with the democratic declaration "that republican protection is a fraud and a robber of the majority of the American people for the few."

The Hon. David A. Wells says plainly that tariff reform means a changed business basis, with lower wages, of course, as a result; but with a satisfying "equilibrium" for the wage earners in the end.

These public declarations tell the story of democratic intent, and the idle workmen and the wage earners who have been compelled to accept reduced pay realize the effect of this foreshadowed policy upon manufacturing and trade.

A PROSPECT OF A SHORT SESSION.

Since congress has provided for the double mileage of its members in the event the extra session adjourned and the members returned again to their homes, it is reported that the extra session may not last longer than October 1. That is about forty days too long to suit the people; but if congress will repeal the silver purchasing clause of the Sherman bill and pass some measure for the relief of the currency, the country can worry along without any meddling with the tariff.

The senate is expected to be the laggard, and the house is said to be arranging for three-day adjournments after it has acted upon the silver question until the senate shall have concluded its legislation upon that important issue.

It is not expected that the president will send in a message upon the revision of the tariff to the extra session, but that he will defer his message till the regular session in December.

The country can afford to pay double mileage if the congressmen will act promptly on the staggering issue, and then go home and take a loaf.

DEMOCRATIC HEDGING.

In view of the coming autumn elections the democrats of Massachusetts are hedging upon the question of "tariff for revenue only." They are telling the workingmen they will scrupulously respect the difference in wages in England and America. The Boston Journal thereupon remarks that "in their apprehensive state our contemporaries may not have perceived that, as a matter of fact, this is a fatal concession. It is an acknowledgment in the first place that there is a difference between European and American wages—which has hitherto been strenuously denied—and in the second place, that this difference is due in a greater or less degree to the existence of duties upon foreign goods. These two acknowledgments virtually involve a surrender of the whole free trade position.

"The tariff reformers of America have hitherto maintained that there was absolutely no connection between tariffs and wages. If it is a fallacy that high wages are dependent upon protection, or that the defence of protective duties is necessary to the continuance of the present pay of the American workingman, why are the frightened democratic organs of New England so volubly assuring this same workingman that a democratic congress will not reduce the tariff too low to cover the difference in the cost of labor between this country and abroad?"

EDITORIAL COMMENT.

Congress should mark one fact—a starving man cannot wait!

A slow coach is a poor thing when one is in a hurry for a doctor!

A Vermont man has just been discovered who made $5,700 by his pen—he forged a citizen's name.

The gate receipts of the World's fair to date amount to nearly three and a half millions, which means seven million visitors in fourteen weeks.

The grade crossing is bad enough, but it is not more dangerous than a gang of Italians on the grade but off the law! That has been proven in Massachusetts!

The Connecticut valley tobacco raisers do not believe in praying for rain. They have a hundred pounds of dynamite and propose to bombard the sky till the celestial tank leaks.

The United States senate acts as though it was setting on a Dodo's egg with hopes, if it could keep quiet long enough, of rescuing from extermination that clumsy and uncouth creature.

Emperor Wilhelm's private yacht is of 4,500 tons burden, makes 19 knots, carries eight heavy Krupp guns on her upper deck, and the royal apartments are said to be furnished with oriental splendor.

The "Hon." John Mitchell is a United States senator from Wisconsin. His mother says "he has become the victim of adventurers and speculators, and that he lacks business experience." Wonder if any other of the eighty-eight senators has a mother to present his photograph to the country?

Senator Carlisle's scheme to relieve the finances of the country by transferring the silver certificates for $150,000,000 to the $350,000,000 the gold reserve in the treasury is supporting, thus freeing the silver bullion, upon which silver certificates could be issued in advance of its coinage, thus adding $150,000,000 to the circulation, does not receive the endorsement of the bankers of the country. It is regarded as a measure of inflation full of danger. It is claimed to be a scheme too feeble for a trained nurse to keep life in for any length of time.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NEW MAGAZINES.

WORTHINGTON'S MAGAZINE for September opens with a handsomely illustrated article upon "Seals and Sealing at the Pribilof Islands." The other papers are: "Do Women Dress for Men?" "Hours with Percival," "In Old Virginy Fifty Years Ago," "A Second Courtship," "A Country Pastorate," "A Modern Moses," "An Old-Fashioned Love Match," "Her's Warning." The departments are filled with timely information. A. D. Worthington & Co., publishers, Hartford, Conn.

The contents of the current number of LITTELL'S LIVING AGE are "The Prospects of the Civilized World," "The Dancing Children of Harricombe," "Two Princesses of the House of Bourbon," "In the Poet's Garden," "The Eye of the Baltic," "All's Fair in Love," "Girls, American and French," "The Greek Anthology and the Teachings of Holy Scripture." Littell & Co., publishers, Boston.

GODEY'S MAGAZINE for September presents water color portraits of Mrs. Francis C. Carolyn of San Francisco and Mrs. Arthur J. Caton of Chicago. The complete illustrated novel is "Si's Daughter," by Frederick R. Mott, "The Woman Question in Japan," "The Iris," a poem, "Godey's Fashions," and "Halcyon Hall." Other articles: "A Dethroned Ideal," "The Captain of Allerton," "Flower Talks," "Review of Books," "Sense and Nonsense," and "Shopping News." Godey Publishing Co., 21 Park Row, New York.

The NEW ENGLAND MAGAZINE for August contains the following illustrated papers: "The Boston Latin School," "Nova Scotia," "The Greeks Again," "Historic Rutland," "Brookline," "The Dead of Mount Chocorua," with colored frontispiece showing the mountain in the distance, "Henry Drummond," with Portrait, "John Ballantyne, American," "The Preservation of the White Mountain Forests," "Harvard Commencement Essays," "A Forgotten Socialism," "The Legend of Wonalancett." Warren F. Kellogg, publisher, 5 Park square, Boston.

VOICE OF THE PRESS.

What the Question Is.

With the workingmen this year it is not a question of beer, but of bread. Thousands are idle.—[Iowa State Register.

A Hoke Smith Joke.

An ex-union soldier is drawing a pension for a bald head. If he is allowed to continue, why not let the fellow with a bad breath take a slice?—[Atlanta Journal.

Let the Traditions Go for Once.

If the senate wishes to preserve its precious "traditions," to which it seems more devoted than to the interests of the country, it should avoid trying the patience of the people too far just at this time.—[Louisville Courier Journal.

One More Kick.

Mr. Cleveland has kicked the silver plank out of the democratic platform. Now, if he will do the same with the tariff plank, we shall again have the most prosperous country in the world.—[Rochester Democrat and Chronicle.

Glory Enough.

It is noteworthy that the Paine yacht Jubilee was a good second in the race for the Astor cup. In fact, one of the formidable Herreshoff sloops was fairly beaten by this modest Boston boat—which is glory enough for a young amateur designer.—[Boston Journal.

An Extraordinary Spectacle.

The senate of the United States presents an extraordinary spectacle. With the nation in the throes of financial and commercial disaster, with a prevailing distrust working new mischief every day, with the country pleading for relief, a majority of that body shows a haughty indifference to the public welfare which is not to be countenanced.—[New York Herald.

What, After It Has Had Time to Work?

The New York World takes the ground that we cannot tell how we like the "change" from republican to democratic policy, because the change has not yet taken effect. No, but if the expectation of the change has wrought the havoc which we see, what may we look for after the democratic policy has had time to work?—[Boston Journal.

Topsy-Turveydom.

A democratic president asks for less silver and the democrats in congress ask for more silver. So it goes.

The party elected promised good times and we have had bad ones. They promised higher wages and they are lower.

They promised unrestricted business and there is no business.

Affairs seem to be as described in one of Mr. Gilbert's "Bab Ballads," entitled "My Dream," and beginning thus:

I dreamt that somehow I had come to dwell
in Topsy-Turveydom,
Where vice is virtue, virtue vice, where nice
is nasty, nasty nice;
Where right is wrong and wrong is right,
where white is black and black is white.
—[Hartford Post.

An Illegal Proceeding.

Hoke Smith had no legal right whatever to suspend indiscriminately a large number of pensions and compel pensioners to prove their cases all over again. He has undoubtedly a right to suspend a case in which there is a fair presumption of fraud. This Mr. Smith did not do, but suspended whole classes of pensions with the hope of finding some legal flaw or irregularity by which they can be thrown out. The press understands that the legality of this act on the part of the secretary of the interior will soon be tested in the courts. The injustice of this method lies in the fact that it will be months, possibly years, before these suspended cases can be reached and reinstated. Meantime the veteran who has no other income must beg or starve.—[New York Press.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

It Is Never Too Late

To cleanse the teeth, and render the breath [illegible] with fragrant SOZODONT, but it is best to use this wonderful Vegetable Elixir before the teeth begin to fail and the breath to lose its freshness.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

REMOVED—Laighton Brothers Have removed their photograph gallery from the Chelsea Bank Building to No. 26 Shetucket St., in the building with the Henry Bill Publishing Co., where all old patrons will be welcomed and new ones be heartily greeted. Their new rooms are neatly furnished, their facilities for doing first-class work have been much improved. New backgrounds have been put in, and the light for producing photographs has been arranged according to the best methods known to the business. All work promptly attended to.

RUMORED CHANGES.

Chairmanships of Two Leading Committees in Doubt.

PRESIDENT DESIRES NEW BLOOD.

Messrs. Holman and Springer May Lose Their Positions.

WASHINGTON, Aug. 18.—Speaker is hard at work arranging the personnel of the standing committees, and said today that he might have them ready to announce before the settlement of the silver controversy in the house. There is much uncertainty as to the composition of the committees on ways and means and the committee on appropriations. Mr. Springer, who was chairman of the former and Mr. Holman, who was chairman of the latter, in the last congress, persist in their confidence that they will be reappointed. Those who are close to the president and Secretary Carlisle are equally positive that both gentlemen will be superseded by new men.

The president and Mr. Carlisle have not interfered with the speaker nor had any conferences with him in the formation of these committees, but it has been conveyed to Speaker Crisp that these committees could be improved

By the Infusion of New Blood

into their organization and the selection of chairmen who would be more in line with the policy of the administration on tariff reform and [illegible]tures for public purposes. On account of this intimation it is understood that the speaker will make some important changes in these committees.

The members of the administration in conversing privately on the subject convey the impression that these changes in the chairmanships of the committees on ways and means and the committee on appropriations will take place. From their talk it is evident that if they do not the administration will be much disappointed. In regard to Representative Holman the change will be very generally satisfactory to his own colleagues in the house. During the last congress he was repeatedly voted down in his attempt to adopt a

Narrow and Cheese-Paring Policy

He started out at the opening of the Fifty-second congress to reduce the appropriations a hundred millions below the billion dollar Republican congress. At the end of the congress when they came to line up their work and foot up the figures, it was discovered that the Holman idea of economy had been wiped out and the appropriations were fully up to, if not beyond the famous Republican congress.

Mr. Holman, in reply to criticism, says that his party went back on him, and that it was not his fault that the appropriations were not reduced. He says now that, if again made chairman of the committee on appropriations, he will see to it that there shall be no large sums for public buildings, nor useless expenditures for rivers and harbors and other needless extravagances. In fact, he says he is in favor of making a

Cut on All the Salaries

of every department of the government, from the highest to the lowest, in order to bring the expenditures within the revenues of the government. He says with both houses Democratic it is a good time to begin retrenchment in public expenditures.

If Mr. Springer should be relieved from the chairmanship of the committee on ways and means he will have had all his summer labor for naught, as he has been preparing and is about ready to submit a tariff reform bill on Democratic lines and understood to be in accord with the views of the president and Secretary Carlisle.

SON OF A BURGLAR.

His Father Gave Him When Dying a Set of Burglar's Tools.

BOSTON, Aug. 18.—Young Wallie Pooler, arrested in Hingham Monday night for complicity in the burglary at the Burleigh mansion, in Vassalboro, July 21, is the son of a professional burglar now dead. The father, Charles Pooler, was born and reared in Skowhegan, being one of a large family.

At an early age he was continually bringing trouble to his parents. He finally committed a burglary that landed him in prison. Thenceforward his career was a checkered one until his death from consumption, five years ago. At his death he gave to his son, when but 13 years old, a complete set of burglar's tools.

This much Pooler confided to Detective True while on his way from Boston on the boat. Young Pooler, like his father, started early in crime, and was sent to the state reform school at the age of 15.

He was discharged therefrom for good behaviour, and came directly to Boston, where numerous petty thefts are laid at his door.

Ten Fresh Cases in Naples.

ROME, Aug. 18.—Ten fresh cases of cholera and six deaths were reported in Naples yesterday. In Sulmona, province of Aquila, there were two deaths from cholera, but no fresh cases. Several cases of cholera developed yesterday in Campobasso, a small city 55 miles from Naples.

Both Good and Bad Reports.

NEWBURYPORT, Mass., Aug. 18.—The Peabody cotton mills will not be able to resume work on Monday. An indefinite shutdown is probable. The Towle Manufacturing company, one of the largest industries of the city, will start up on Monday with a full complement of help.

NEWS IN BRIEF.

The Vigilant won the race at Newport, R. I.

Striking coal miners are making trouble in Wales.

The treasurer of Hall county, Iowa, is $60,000 short in his accounts.

The Oliver Iron and Coal company of Pittsburg is in a receiver's hands.

Charles I. Walters of St. Johnsbury, Vt., has been arrested on a charge of forgery.

The London Times admits that America is the practical gainer by the Behring sea award.

Conspiracy aiming at the independence of the Ukraine thought to have been discovered.

Sam Seavy, who jumped his bail at Barre, Vt., Tuesday, has been arrested at Plattsburg, N. Y.

Rev. N. B. Thompson of Brockton, Mass., was found guilty of the three charges against him.

Frank Jordan, aged 7 years, was drowned in a mill trench at Arkwright, R. I., the bank on which he was standing while fishing caving in.

Three young men found the dead body of a full grown male child in a box in a field adjoining the Catholic cemetery at Haverhill, Mass.

A man who gave his name as James Quinn and said he belonged in Boston was arrested in Providence, R. I., for stealing a pocketbook on the street from a girl.

A Gypsy woman attempted to kidnap a boy named George Lawrence of Manchester, N. H., on Morgan street, Hartford, but the boy's companions called the police, and the woman dropped the boy and escaped.

THE SECOND DAY.

Race For the Astor Cup With Three Cup Defenders Participating.

BRENTON'S POINT, R. I., Aug. 18.—An ideal summer day by the sea, with a warm bright sun and a gentle breeze, smiles here today. On the water it is more properly what yachtsmen call a regatta day than good racing, and yet hardly clear enough to be a perfect regatta day, for the soft August haze hung all about, narrowing in the horizon to within five or six miles. A breeze from off the land began stirring soon after sun-up. It was just enough to help the sun dry out the sails which were wet down in the heavy showers of the early evening.

The second day's race for the Astor cup was started with the Vigilant, Jubilee and Colonia. The Pilgrim is laid up for repairs. The preparatory signal was fired at [illegible]

The boats worked about the line with jib mainsail and club topsails. At 12:05 the Jubilee and Colonia broke out their forestaysails, and the Vigilant broke out hers immediately afterward. The boats crossed the line in the following order and approximately at the following times: Vigilant, 12:08:28; Jubilee, 12:08:58; Colonia, 12:09:17.

VILLARD'S AFFIDAVIT.

Submits That All Charges Against Him Are Without Foundation.

NEW YORK, Aug. 18.—At the meeting of the Northern Pacific directors here yesterday, the following letter from Henry Villard was submitted:

NEW YORK, Aug. 14.

Thomas F. Oakes, president Northern Pacific Railroad Company—Dear Sir: I duly received your favor, inclosing the communication of Messrs. Reed and Pettis made in behalf of John Swope of the Northern Pacific Railroad company, and bearing date of the 4th inst.

I desire to immediately place on record my unequivocal denial of the charges made, so far as they in any way relate to me and, to make more emphatic my statement, I hereby present to you my affidavit on the subject, as requested by the company's counsel, which will show you how absolutely unwarranted it would be to subject me to the annoyance and expense of a litigation over matters in which I took no part. Yours truly,

H. VILLARD.

The affidavit requested by the company's counsel was appended.

WATER FAMINE NIGH.

Norwalk and Westport, Conn., Suffering For Lack of Supply.

NORWALK, Conn., Aug. 18.—Norwalk borough is on the verge of a water famine. There is only 10 days' supply in the three reservoirs, and the commissioners yesterday served notice to all consumers that the water must no longer be used for sprinkling purposes, and that in future, until relieved by heavy rains, the service will be suspended from dark until daylight. The borough uses about 1,500,000 gallons of water a day.

The little town of Westport, four miles east of here, which established a system of water works last year, is also in trouble. There the water supply is taken from an immense well, located near the Saugatuck river, and forced into a standpipe 135 feet above tide water. Lately the salt water from the river has been flowing into the well, rendering the service useless. Great inconvenience is being experienced. The water company announces that another well will be dug immediately, and the service renewed in a few weeks.

ARMED AND ORGANIZED.

Followers of Rival Candidates for Governor in Coahuila.

NEW YORK, Aug. 18.—A dispatch from Saltillo, Mex., says: There is intense excitement throughout Coahuila over the political troubles. The followers of Cardenas and Garza, the rival candidates for governor, are being armed and organized in all parts of the state. A general bloody conflict is expected within the next few days.

A force of Cardenas' men, numbering 300, is reported to have captured the town of Guerrero, in the northern part of the state, and ejected the municipal office holders, who are Garza men. All of the principal towns in the state are in the hands of armed forces of Cardenas' men.

At Monclova the chief of police was killed when they made an attack upon the palace. The federal government is taking no part in the war.

Condition of National Banks.

WASHINGTON, Aug. 18.—The abstract of the reports made to the comptroller of the currency, stating the condition of national banks in the United States July 12 last, shows a decrease since May 4 last, in individual deposits, of $196,000,000; in loans and discounts of $137,000,000; in specie of $31,-000,000, and in undivided profits, $12,000,-000. The aggregate resources and liabilities are each placed at $3,213,261,781.

More Gold for Chicago.

CHICAGO, Aug. 18.—The Illinois Trust and Savings bank yesterday, engaged $400,000 for import, making altogether $650,000 which is coming on the steamers Columbia and La Bourgogne. The gold engaged for shipment to this country by Chicago banks since the movement set in is about [illegible]

Tried to Board Moving Train.

SALEM, Mass., Aug. 18.—John Dolan of Philadelphia attempted to climb aboard a fast freight for Maine at 5:30 o'clock this morning. He missed his hold and was thrown violently to the ground. His face and hands were horribly lacerated and he may lose the sight of one eye.

Died From Her Own Act.

ROCKVILLE, Conn., Aug. 18.—Jennie L. Loomis, who shot herself Saturday while suffering from mental aberration, died yesterday at Tolland. She was the daughter of B. T. Loomis, a prominent business man of Baltimore, Md., and was 16 years old.

Mrs. McKee Poisoned by Ivy.

BEVERLY, Mass., Aug. 18.—Mrs. R. A. McKee, the fond mother of Baby McKee, is suffering from the effects of ivy poison. She is confined to her home and the social world will be denied the pleasure of her company for a week or more.

Will Shut Down for Two Weeks.

NASHUA, N. H., Aug. 18.—The Vale mills of Nashua will shut down Saturday for two weeks.

But Much Danger.

Mr. Snooper (boastingly)—I carry my life in my hand.

Miss Giddey (with a glance at the size of his hand)—I should say your life was safe.
—Detroit Free Press.

Doing Her Duty.

I saw her at the village pump,
Beside the broken wall;
I heard the handle creak and thump;
I saw the water fall.

She placed the pail upon her head,
And as she passed me by
"I've just been milking, sir," she said,
And winked the other eye.
—Pick Me Up.

The Right Thing.

Stalate—I wish I could do something to achieve notoriety.

Ethel Knox—Why don't you try a sudden disappearance?—Harper's Bazar.

OF OMINOUS IMPORT.

Scheme to Separate the West From the East.

KANSAS OFFICIALS PROPOSE IT.

Convention of West and South Sought. Political Separation Advocated.

NEW YORK, Aug. 18.—A Topeka special to The Times says: The state officials have made a move beneath the apparent innocence of which lurks a scheme of ominous import, if the words of the secretary of state can be relied upon. A petition signed by all the state officers has been sent to Governor Stone of Missouri, which calls for a commercial division between the west and east. The talk about the state house is of a greater division, political in character. These officials are guarded in their conversations about this matter, but they occasionally indulge in speeches that are a reminder of antebellum days in Charleston. The petition says:

In view of the distressing financial condition of the country and especially its most productive portion, which will be further aggravated if congress shall do nothing to relieve it, or shall unconditionally repeal the Sherman law, we would ask you

To Call a Convention

of all the governors of all the states west of the Mississippi and south of the Ohio river and on a parallel therewith, and also that such governors appoint in addition, a number of delegates equal to the representation of their states in congress.

"The objects of this convention to be what shall be done for mutual relief of the people, for the cultivation of commercial relations between them, and such other action as may conduce to the material welfare and prosperity of the communities involved, looking especially to arranging for such trade relations as may render this section free of dependence upon the eastern section of the United States in business affairs.

"We consider the present an auspicious time for a concerted movement to bring the people of the west and south into such united action as will

Protect and Foster Interests

which are naturally allied, and to free these sections from unjust and ruinous denominations of a section which is largely influenced by European policies and methods."

The call for delegates from each state is for the purpose of giving strong support to the unusual plans that may be presented if the field shall be found ripe. In this state, at least, and it is supposed in Colorado, Texas and Georgia, the more radical element expects to find encouragement in the acts of the convention.

THE CHEROKEE COMMISSION.

Final Report of the Committee to Be Made—Osage Indians Kick.

INDIANAPOLIS, Aug. 18.—Warren G. Sayre of Wabash, Ind., chairman of the Cherokee commission, will go to Washington next week to make the final report of the committee. The commission in three years has purchased for the government 15,000,000 acres of Indian land, more than half of the Indian territory. The tribes which refused to sell their lands were the Osages, Kaws, Otoes, Missouris and Poncas.

Mr. Sayre states that the Osages are the richest people on the globe. They number 1614, have 950 acres of land for every man, woman and child also between $5000 and $7000 for every member in cash in the United States treasury, upon which sum each one receives $200 interest annually.

Just across the river from their reservation, which the commission has been trying heedlessly to buy, live the Poncas, the poorest Indians on the continent, who subsist chiefly on carrion.

AFTER THE RIOT.

[illegible] Track Tonight.

ABINGTON, Mass., Aug. 18.—The recent railroad war is still the sole topic of conversation, and the public is awaiting with great interest the hearing next week Wednesday in the cases of Division Superintendent John C. Sanborn, Inspector Bailey and Roadmaster Bryant, charged with inciting the riot at North Abington.

It is said that before then the railroad company will have warrants out against a large number of the townspeople. The tracks of the electric railway will be laid across the consolidated tracks by tonight.

TRIUMPH OF ARBITRATION.

President and Queen Victoria Congratulated on Behring Sea Affair.

CHICAGO, Aug. 18.—At yesterday's session of the peace congress, the following telegram was sent to Queen Victoria and President Cleveland.

"The World's Peace Congress of Chicago sends equal congratulations to Great Britian and America on the triumph of arbitration as a substitute for war, exemplified in the recent Behring sea decision, cementing the friendship of both nations and full of the happiest augury for mankind."

Carriage Workers' Union.

CHICAGO, Aug. 18.—The Carriage and Wagon Workers' International union installed the following officers yesterday: President, John F. Tonsing, Cleveland; vice president, M. Madden, Boston; secretary and treasurer, Charles Baustian, Chicago; executive board, J. Jacobson, Boston, and others. Boston was selected as the next location for the annual international convention.

Commuted the Death Sentence.

SARATOGA, N. Y., Aug. 18.—There is a rumor current here that Governor Flower has commuted the death sentence of Martin Foy, Jr., who murdered Henrietta Wilson, to imprisonment for life. District Attorney Pearson has no information on the subject, however.

Receiver Must Pay Wages.

ST. PAUL, Aug. 18.—A telegram from Winnipeg announces that the court has ordered the receiver of the Manitoba and Northwestern railroad to pay all back wages due and the strike is declared off. Trains will be running as usual tomorrow.

Was Lying On the Track.

WOODSVILLE, Vt., Aug. 18.—John Burke of Montpelier was killed at Wells River this morning by the northbound express. He was lying on the track.

Answered.

"What's in the wind?" the farmer asked,
And there opened to his view
His house in a cyclone floating header,
And then, at last, he knew.
—Detroit Tribune.

Using Him.

"Please, lady, kin I have a fit on your lawn? I feel it a-comin."

"Go around the back and have it on my daughter's new tennis court. It needs rolling."—Wasp.

Explained.

Witherby—Where have you been keeping yourself? Have rung your bell every night for a week, with no response.

Plankington—My wife's away.—Detroit Free Press.

MIGHTY LONDON.

Sixty miles of shops open every Sunday in London, and there are 1,400 places of worship and 12,000 public houses.

Ten thousand new houses are annually added to the 700,000 dwellings which shelter London's population of 5,000,000.

Late statistics show that out of London's 5,000,000 inhabitants more than 300,000 families earn less than 3 shillings a day.

There are 99 different banking companies in London. The bank of England turns out about £24,000,000 worth of notes a week.

London's river has over 700 acreage of docks. Those at Tilbury are large enough to accommodate the whole shipping of London.

Ten million letters are delivered weekly in London by over 4,000 postmen, who walk a distance equal to twice the circumference of the globe.

London's 60,000 streets, if put end to end, would reach from London to St. Petersburg, yet some 50 miles of new streets are laid out yearly.

A birth takes place in London every three minutes and a death every five minutes. Recently the births registered twice the number of deaths.

London's area is larger than New York, Paris and Berlin put together, an area which may be represented by a circle of 36 miles in diameter.

The monetary value of this mighty Babylon is worth 2½ times as much as Paris. There are 50 people in London with incomes over £100,000 a year each.

It has been calculated that the annual income of the London Jews is nearly £5,-000,000, which means that the Jews are 2½ times richer than the gentiles.

Nearly 1,000 children are born yearly in London workhouses. Two years ago there were more than 12,000 ablebodied paupers in these charitable institutions.

One in every 11 inhabitants of London seeks poor relief in the course of the year, yet we are assured that pauperism in the metropolis is steadily on the decrease.

It is not a pleasant reflection for people with delicate chests that fog hangs over the metropolis for 40 days per annum, and that a scientist says the average cloud is 3,000 feet thick.

The floating population of the Thames numbers some 300,000 souls, and 20,000 souls sleep nightly on that part of the river which constitutes the port of London. There are nearly 15,000 pleasure boats on the upper reaches of the river.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 18.—In the outside market call money is quoted at 6 to 10 per cent, and time money is nominally 6 per cent.

Today's stock market opened without life or feature. London came lower than our close and did not figure at all as a buyer. The new developments of this morning were dominated by the scarcity of money and the perplexing situation at Washington. Some of the items which the wires brought, however, were not without comfort to investors. Especially so was the statement that some of the iron mills in the Pittsburg and Wheeling district are to be started up again in consequence of the demand in the trade for material, and in consequence it is believed that the lowest point in production has been passed. Other favorable news was the statement that the Cleveland rolling (flour) mills will resume work next week with 1800 men.

Neither bankers nor brokers can believe that Secretary Carlisle is seriously contemplating the scheme which is now attributed to him. This, in brief, is the transfer of the silver bullion purchased under the Sherman law to the coinage fund and the issue of certificates against it at its coinage value. Whatever color may be given to this scheme, it would seem to be nothing more than a proposition to issue fiat money. This silver bullion has been paid for in treasury notes. Issue new certificates against it and what remains back of these treasury notes? Practically nothing. One or the other of these issues will be without support and only so much paper.

The local market opened dull, but with prices fairly well sustained on the start. Union Pacific was weak, opening at 17, ¾ down, and weakening to 16⅜. General Electric, likewise, was irregular. The first sale, at 35, was ¼ below the final sale of yesterday, while subsequently it dropped ½ more, rallying to full 35 later. Sugar, common, started ¾ up at 73, and strengthened another ¼, while the preferred sold at 75. Chicago, Burlington and Quincy sold, ex-dividend, at 73¼, and advanced to 74 at noon, while Atchison, opening at 14⅝, ¼ off, rose to 14⅝.

CORPORATION NOTICES.

MAYOR'S OFFICE,
CITY OF NORWICH, CONN.

TO EITHER SHERIFF OF THE CITY OF Norwich.—Greeting:

A petition in writing signed by A. L. Potter and more than thirty others, all freemen of the City of Norwich, having been presented to me, the Mayor of said City, requesting me to call a special city meeting to consider the removal of the two buildings which adjoined the building lately removed from the junction of Thames West Thames and High streets and that the call should include the necessary resolution to enable said meeting to make the necessary appropriations for said object, and it having been voted at the last annual meeting of said City, that the Mayor should include the matter of increased compensation for the police department in the warning of the next City meeting. You are therefore hereby commanded to warn the legal voters of the City of Norwich in City Meeting to meet at the Town Hall in said City, on the 1st day of August, 1893, at eight o'clock p. m., to take action upon the following matters:

First—To consider the matters contained in said petition.

Second—To authorize the Court of Common Council of said City to appropriate from the City treasury such sum of money as said meeting shall determine, in addition to any appropriation heretofore authorized to pay the expense of altering and widening Thames street in said City, near its junction with High street and also for the purpose of acquiring by the City the land of Daniel W. Grant and land formerly of William Maloney near the junction of said streets, or the easement therein necessary for the layout of a highway over the same.

Third—To authorize said Court of Common Council to appropriate from the City treasury such sum as said meeting shall determine in addition to any appropriation heretofore authorized, for additional compensation to the police department of said City.

Fourth—To lay a tax on the City list last made to raise the amount of money required to pay the appropriations which said meeting may authorize said Court of Common Council to make.

Dated at Norwich, this 19th day of August, 1893.

CALVIN L. HARWOOD,
Mayor of the City of Norwich.

I certify that the above and foregoing is a true copy of the original warrant to me directed.

Attest— MYRON O. MORGAN,
City Sheriff of the City of Norwich.

FINE BLANK, COMMERCIAL and MANUFACTURERS' PRINTING at this office.

The Bulletin.

Norwich Saturday, August 19, 1893.

The Bulletin should be delivered everywhere in the city before Six a. m.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Weather Today.

Indications for Connecticut: Northerly winds; fair except slight local rains.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY

CITY NEWS.

Special meeting of the Thirteens this evening.

Miss Grace E. Eldredge is visiting friends in Rockville.

Stephen B. Booth has returned from a sojourn at Block Island.

Charles and Augustus Colt of Broadway start for the world's fair Monday.

For today only the steamer Gypsy will leave on her morning trip at 8 o'clock.

Richard Mansfield and wife are at the Fort Griswold house, Eastern Point.

Mr. Julius W. Cadden left the city yesterday for a three weeks' trip to the world's fair.

The yacht Kaiolah was the victim of the slight accident in the harbor Thursday, and not the Cosette.

Sunday at 9 a. m. the steamer Ella will go to Montville, New London, Eastern point and Watch Hill.

The steamer Martha has been chartered by Stonington parties for a day's sail to this city next Wednesday.

Another large force of men were suspended by the Hopkins & Allen Manufacturing company Friday night.

Farmers have commenced digging their potatoes, and indications point to the harvesting of about an average crop.

The surf at Ocean beach was unusually heavy Friday, and few bathers were bold enough to venture a dip into the water.

Misses Jessie Smith and Jeanie Wilson are at Asbury Park, N. J. They will take a trip up the Hudson river before returning.

Miss Lily Klein is enjoying a portion of her vacation with her uncle, Charles Engler, at his camp on the bank of the Thames.

Captain W. H. Hovey, whose military experience is long and complete, will cover Camp Morris for THE BULLETIN next week.

Miss Myra Shaw of Plymouth, Mass., who has been working among the Choctaw Indians, is visiting Mr. Eldredge and family on Fairmount street.

Miss Emma Ebberts, daughter of Water street's nocturnal guardian, has returned from a four weeks' visit with her aunt, Mrs. James Matthews of Webster, Mass.

Insurance Commissioner Mansfield is sending out to all insurance companies and agencies in this state copies of the insurance laws passed by the last general assembly.

Two Norwich young ladies were precipitated into the water at Watch Hill Friday from a bad-meaning float. They were rescued by a brother, none the worse but for a thorough drenching.

In Willimantic the Smithville Manufacturing company, manufacturers of print cloths, expect to start up next Monday morning on full time, and will continue unless some unforeseen development in business takes place.

The competitive drill for the silver cup, presented by Mrs. A. C. Tyler, wife of the colonel of the Third, to the best drilled company, will take place Wednesday afternoon at Camp Morris. The trophy was awarded to C company a year ago.

The great stallion race to be trotted at the state fair next month promises to be a most interesting event for all horsemen. That the best trotters in the state in this class will be entered is certain. It admits all stallions owned in Connecticut since July 1.

Mrs. R. L. Powers writes that she is about to commence a series of meetings in Ashland, Va., lasting forty days. She has had great success as an evangelist and has been the means of converting hundreds of persons all through the south where she is laboring.

The New London Day says: In spite of the fact that the Norwich street railway is almost double the size of the one in this city, the New London road did almost double the business during the past month. It is understood that $7,500 represents the sum taken in in this time.

The Christian Endeavor association will make their annual excursion to Watch Hill, on the steamer Block Island today. The excursion is under the auspices of the Willimantic union, which will join the boat at New London. Jarvis, military band will accompany the excursion and furnish music. Boat leaves at 8 15 a. m. sharp.

It is not likely that the forthcoming report of the bureau of labor statistics, to be published in December, will take cognizance of the present condition of affairs in the industrial world of Connecticut. The reports, so says Commissioner Vance, are one year behind, and in the present condition of things nothing could be gathered that would be of value.

In the game today between the Clippers and the Willimantics on the Greeneville grounds, Hagan, who two seasons ago pitched for the Wilkesbarres of the eastern league, will pitch, and Nichols of Colchester, considered one of the finest catchers in the state, will catch for the visitors. Driscoll and Coualhan will form the battery for the Clippers. The Willimantics defeated the Moosups last Saturday in Moosup by a large score.

West Side's Young Actor.

Young Johnny Fenton of this city, West Side's sweet singer, who joined the Verona Jarbeau company late last season, will sing with that company this year, opening in the west on August 26. Miss Jarbeau is quite proud of her protege.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Another Westerly Mill Shut Down.

The West Side woolen mill of Westerly has shut down. A small number of people thus thrown out of employment helps to swell the already large number who are idle.

A Fourth Regiment Captain's Disgrace.

Colonel Russell Frost of the Fourth regiment, C. N. G., has relieved from command Captain Charles N. Parsons, Company I of Winsted, on account of his recent conviction for drunkenness. Captain Parsons took an appeal to the superior court from the justice's sentence.

Ex-Captain Henry S. Terrill of the company has been assigned to the temporary command. Colonel Frost has reported his action to the adjutant general and it is probable that a court of inquiry in Captain Parsons' case will be appointed after camp.

An Increased Fund.

The Union Sunday School association of Laurel Hill avenue is feeling well over the increase of the Norman fund from one to four thousand dollars. When the papers were prepared for the transfer to the account of the society of the $250 apiece pledged by Hibbard R. Norman, Hannah S. Norman, Sarah E. Norman and Charity Newton, they each increased their subscriptions $750. The interest of this four thousand dollars will be used to promote religious instructions in the Sunday school.

What General Haven Missed.

The Meriden Journal is moved to say: The Woodbridge family is doing pretty well at the state prison. The father as warden gets $3,400 a year, free rent, the use of two horses and free board. The mother gets $310 as housekeeper and purchasing agent of household supplies, while the son as clerk will get $50 a month. This is easily the softest snap in public office in the state, barring the risks attendant upon caring for the desperate fellows who are confined in prison.

No Purchaser for Horace Daniels's Yacht.

Steam yacht Norma, belonging to the estate of the late Horace Daniels, was offered for sale at auction in Newport Thursday, but was not sold as the upset price of $7,000, offered by one of the heirs, was not reached in the bidding.

The Newport News says there was not many who braved the dust of Perry Hill wharf to view the yacht, which is in good condition, considering the long period she has been out of commission. She was built for Norman L. Munro, the publisher, at a cost of $100,000. This was before Mr. Munro developed a fancy for Herreshoff flyers and brought out such marvels as the Now Then and others remarkable alike for speed and queer names.

A Leaking Schooner.

The schooner Racehorse of Bangor, Capt. George B. Henshaw, is hauled out at New London for repairs. She arrived leaking 500 strokes an hour. Her cargo is cement for Boston parties. Last Saturday she ran on the mud flats opposite West Point, but was got off and proceeded through Long Island sound until Wednesday night; when off Cornfield, she was found to be leaking 100 strokes an hour.

The pumps were kept going, but the water gained on them so that the vessel had to be put in to save her.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Chief Engineer Kiley's Defense.

H. A. Hull, attorney for Chief Engineer Kiley, has prepared a letter for publication in defense of the New London chief in his trouble with the State Firemen's association.

In it he says in substance that Mr. Kiley had none of the privileges of defense at the first hearing of the association committee, and at the second hearing he (Mr. Hull) was refused admission to the hearing, and also to cross-examine witnesses. When asked how Mr. Kiley could meet accusations or testimony without knowing what they were, he had been told there was not time for a trial, and that the committee would do Mr. Kiley no harm. He had to leave protesting against such treatment of his client. In closing he asks the people of New London to withhold their judgment until Mr. Kiley has had opportunity to be heard.

HIS BACK BROKEN.

A Springfield Workman Receives Probably Fatal Injuries at Greeneville.

Frank Moore of Springfield, Mass., 25 years old and unmarried, was probably fatally injured at 4 o'clock Friday afternoon at the scene of the erection of a boiler house on the bleachery premises at Greeneville. Moore was one of the workmen employed on the job, and was assisting in moving a large iron truss. The gang lost control of the piece, and Moore was not quick enough to get out from under. His back was broken.

Dr. Witter was summoned, who called in Dr. Cassidy. Dr. G. R. Harris was also present. At a late hour last night the patient was alive, but his chances of surviving are slight.

Moore sprained his ankle on the works August 8, and returned this week to the work.

JAMES LEARY KILLED.

Struck by a New London Train at the Richmond Stove Works.

James Leary, 70 years old, was instantly killed Friday afternoon by the northbound New London Northern passenger train due in this city at 6 o'clock. Leary was walking down the track at the Richmond stove works when the train rounded the curve at that point, and his movements were too slow to save himself. His body was hurled high into the air by the engine and tossed to one side of the path. The unfortunate victim's head was horribly mangled, and he sustained other injuries. The accident occurred in full view of the passengers aboard the steamer Ella. Coroner Park viewed the remains and authorized their removal.

Leary had until recently been an inmate of the almshouse. He was discharged owing to the fact that a pension of $17 a month had been awarded him. Since that time he has been a frequent lodger at police headquarters, and is said to have often slept out of doors about Thamesville. A married daughter residing on Thames street survives him.

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 18th day of August, 1893.

Present—CHAS. W. CARTER, Judge.

Assigned estate of Stephen A. Bailey of Norwich, in said district.

Joseph T. Fanning of Norwich, and George A. Sydleman of Preston, are hereby appointed Commissioners on said estate, who are directed to be duly sworn, and cause the times and places of their meetings to be published in a newspaper having a circulation in said district and to send a copy of such notice to every known creditor, within ten days from the date hereof.

Three months, from the date hereof, are limited and allowed for the exhibition of claims against said estate, to said Commissioners.

Attest— CHAS. W. CARTER, Judge.

The subscribers give notice that they shall meet at the office of Joseph T. Fanning in said Norwich, on the 20th day of November, 1893, at 10 o'clock in the forenoon on said day, for the purpose of attending to the business of said appointment.

JOSEPH T. FANNING, } Commissioners.
GEORGE A. SYDLEMAN, }

All persons indebted to said estate are requested to make immediate payment to

?? QUESTIONS —AND— ANSWERS ??

Q—What is Cottolene?
A—A clean and healthful fat for cooking purposes.

Q—Of what is it composed?
A—Beef suet and refined vegetable oil.

Q—What are its advantages?
A—It costs less than lard and a less quantity is required to produce satisfactory results.

Q—Why was it originated?
A—To supply a demand for a cooking fat to take the place of lard.

Q—Is not lard always satisfactory?
A—Many people are prejudiced against the fat of swine.

Q—Where can I be supplied with Cottolene?
A—Nearly, or quite all dealers in groceries sell Cottolene.

Q—What have you to do with Cottolene?
A—I supply the retail trade direct from the manufacturers.

FIRST ATTEMPT AT RAINMAKING

In New England Comes to an Abrupt Termination

THE BALLOON TOOK FIRE.

A Panic Was Created and the Crowd Quickly Scattered.

HARTFORD, Conn., Aug. 20.—The first experiment in rainmaking ever made in New England came to an abrupt close over the tobacco farm of Eugene S. Clark in Bloomfield Saturday morning, only four balloons with half-pound dynamite cartridges attached being sent up, instead of fifty, as had been intended.

Balloon No. 1, according to C. W. Chappel, the dynamite expert from Meriden, was about 4,000 feet high, when, with a terrific report the cartridge exploded, jarring the wagons in which sat the interested tobacco raisers, gathered in large numbers from all over the Connecticut valley.

Everybody agreed that this was a success and a second balloon was sent up. A longer fuse was used, and four and a half minutes after the balloon had been released the cartridge exploded at an altitude of about 6,000 feet.

The third cartridge sent up was as big a success as the ones before it, and orders were given to the experts to send up the remainder of the fifty balloons and cartridges as quickly in succession as possible. The next balloon was prepared and released. It rose a dozen feet when it was caught in a current of air and sagged. The paper near the base took fire, and in a moment the balloon began to descend, while the flames began to envelop it from bottom to top.

The mass of fire with a dynamite cartridge dangling from it created a panic and scattered the crowd in all directions.

The long fuse kept eating its way toward the bomb, and it would be at least four minutes before the cartridge would be touched off in the regular way, but there was danger that the fire from the balloon would ignite the fuse close to the cartridge. Mr. Chappell and William Stephens of New York, the representative of the Consolidated Fireworks company kept their wits about them, and as soon as the fuse could be reached tore the cartridge from the flames and the balloon sunk to the ground a crumpled mass.

It was decided that it would be too risky to have a repetition of the accident with people standing around in danger, and the experiments were cut short.

VOORHEES' TRUMP CARD.

The Washington Post on Free Coinage of Silver at an Increased Ratio.

WASHINGTON, Aug. 20.—The Washington Post today says: The free coinage of silver at a ratio of 20 to 1 or at any other increased ratio is practically impossible. This is the trump card which Senator Voorhees is to play in the senate on Tuesday.

Senator Carlisle first gave to Senator Voorhees verbally the data to make good the assertion that free coinage is impracticable. He has gone further, and has prepared a letter, which the senator will read in the senate on Tuesday, stating that it will cost between $110,000,000 and $112,000,000 to carry out the provisions of Senator Vest's free coinage bill. It is true that there is nothing in Senator Vest's bill about recoinage. But it does not need a prophet's vision to know that dollars below par, which only the government is compelled to take, will drift with alarming rapidity into the treasury in payment of customs duties and taxes, and there they will remain, adding to the congestion of the currency. Unless they can be recoined they will be useless as money, and if there is to be free coinage at any increased ratio, some of the silver financiers in the senate must provide the secretary of the treasury with over $100,000,000 to execute the law.

THE WORLD'S FAIR.

Last Week Was a Record Breaker in Point of Attendance.

CHICAGO, Aug. 20.—The attendance at the world's fair today was very small. The buildings were open, but nearly all the exhibits were covered. The week just closed was a record breaker in point of attendance. The number of visitors during the seven days was 790,476, an increase over last week of 110,278. The average for the week, omitting last Sunday, when there were but 18,340 paid admissions, is 128,695. Yesterday's attendance was 165,981, being the best day of the fair, with the exception of July 4, when 318,273 paid admissions were registered. The record is very gratifying to the exposition management, and when excursion trains are run on the roads they expect an increase from this time on.

Portuguese Sailor Killed by a Fall.

PORTSMOUTH, N.H., Aug. 20.—Schooner Annie Conlin from Baltimore for Bangor, arrived in the lower harbor today. The captain reports the loss of Manuel Peters, a Portuguese sailor, who fell from aloft to the deck this morning, off the Isle of Shoals. Both legs were broken and he sustained internal injuries, from which he died two hours afterward. He will be buried here.

Shot a Man and Surrendered Himself.

BOSTON, Aug. 20.—Edward M. Shine, who was shot by Edward Phinney in South Boston, last night, died at the city hospital at 4.28 this afternoon. Phinney gave himself up and he will be arraigned tomorrow.

IN THE LABOR WORLD.

Conference of Delegates from Various Trade Unions at New York.

NEW YORK, Aug. 20.—The first conference of the delegates from the various trade unions of New York to take action on the existing condition of affairs in the labor world, and to devise means of assistance for the unemployed and to formulate plans for a great labor demonstration, was held here this afternoon.

After four hours' discussion resolutions were passed and committees appointed with a view to improving the condition of affairs. About 100 delegates were present and a good share of them had something to say. The meeting was lively at times, but good order prevailed as a general thing. One or two persons present advanced socialistic ideas, but they were promptly sat upon. The remarks made were generally on the line of coolness and prudence. The large majority of the speakers counselled obedience to the laws and expressed confidence in the government.

President Gompers of the Federation of Labor acted as temporary chairman and made some remarks upon the union.

Then Robert M. Campbell of Typographical union No. 6 was elected permanent chairman, and Thomas C. Welch of the Brotherhood of Carpenters and Joiners, English secretary, and J. Burns of Union No. 90 as German secretary. The first resolution passed was as follows:

Resolved, That a committee be appointed to ask all laborers and sympathizers to co-operate with the conference and assist in devising means to assist the union unemployed.

The committee elected in accordance with this resolution comprises Joseph Barondess and four others.

The next resolution was as follows:

Resolved, That a committee be appointed to wait upon the mayor and other officials of this city and this state with the view of starting and opening up work to the end that new employment be furnished the unemployed; and, be it furthermore

Resolved, That the committee be delegated to call upon the civil justices and ask that evictions of unemployed for nonpayment of rent be postponed during this crisis.

The committee includes Samuel Gompers and five others. Another resolution was passed to the effect that a committee be appointed to draw up an address to the public, explaining the position of the conference and its resolutions for its action in this matter.

The committee consists of Delegate Gompers and six others.

In his opening address President Gompers spoke of the situation as lamentable and said a crisis had been reached. But one thing, he said, could remedy the evil, and that was the voice and action of organized labor. One cause of the trouble was said to be over-production, caused by the introduction of machinery and the use of steam and electricity in manufacturing. The labor unions have endeavored to keep pace with this state of affairs by trying to reduce the hours of labor, but have not been very successful.

The speaker said the blame rested with the wealthy classes. "The main thing to do," said he, "is to devise methods to force these people to provide means by which the manhood and womanhood of this country may be maintained." The counselled prudence. "Have we anything to gain by breaking the laws?" he asked, and there were loud cries of "No." "I refrain from denouncing anyone," said Mr. Gompers; "but the city and state and national government must come to the aid of the workingmen of this country." The inauguration of public improvements, as a means of furnishing work for the unemployed, was advocated. It was suggested that this city inaugurate the building of a system of rapid transit, improve its streets, sewers, docks, etc. "It is a fine commentary on our civilization," said the speaker, "when criminals can be sent to prison and work found for them, while honest men walk the streets in idleness."

George E. C. McNeill of Boston, who is just beginning a campaign in favor of the workingmen, made a brief address.

Morris Kinsterstein, a wealthy German, furnished meals free to a thousand unemployed people today. He will continue the charity daily for the present.

Resolutions by the Boston Central Labor Union.

BOSTON, Mass., Aug. 20.—The Central labor union to-day adopted the following resolutions which were ordered forwarded to congress:

Resolved, That the Central labor union is opposed to any legislation by congress looking to the repeal of the Sherman act unless some substitute is provided, which will not further congest the currency of the country.

Resolved, That we demand of our representatives in congress, that in their action upon the financial issue, they take heed of the interests of the producing classes, as well as of those of the banking or money paper.

Resolved, That we repudiate the assumption of the daily press of the east, where it claims to report the sentiment of labor, while in fact it is speaking for the monopolists.

Freight Train Wreck on the Harlem.

WHITE PLAINS, N. Y., Aug. 20.—A freight train, No. 6, was wrecked on the Harlem railway at Towners at 8 45 o'clock Saturday night. Seventeen cars left the track. Conductor Thomas Mullen was thrown into the ditch, when the train was derailed. He received cuts and bruises about the head and died in twenty minutes after being picked up. The cause of the accident is said to have been a broken journal on the engine. Three hundred men have been clearing away the debris all day.

No Chinese Retaliation at Present.

WASHINGTON, Aug. 20.—It transpires that some days ago the state department received a message from Li Hung Chang, the Chinese viceroy, addressed to the president, to the effect that for the present no retaliatory measures will be taken against the United States citizens in China, and further, that every effort will be made to protect them and their interests in safety till the assembling of congress in regular session.

An Embezzling Treasurer.

KOKOMO, Ind., Aug. 20.—J. K. Armstrong and his son Cal, treasurer and deputy treasurer respectively of Tipton county, are in jail here for embezzling $40,000 of the county funds. They failed to come up with the cash at the end of the year. Their time expired yesterday and they were turned over to the proper authorities.

A Cholera Death at Swinburne Island

QUARANTINE, S. I., Aug. 20, 1 p. m.—Health Officer Jenkins issued the following bulletin: Antonio Carlova, aged 50 years, who was convalescing from cholera on Swinburne island, died at midnight. The autopsy confirmed the diagnosis. The detained passengers will be sent to Ellis island to-morrow.

THE TENTED CITY BY THE SEA.

Changes in the Camp—Officers on the Grounds.

SWORD PRESENTED GEN. HAVEN.

Every Preparation Being Made for the Arrival of the Troops Today.

CAMP MORRIS, Aug. 20.—There is no doubt today as to "where we are at," as we once more are quartered in the "White City by the sea," but there is a general appearance of loneliness pervading the streets. The tents are here, the mess houses are here and the wide, smooth parade ground is here, but the activity which will dominate tomorrow is missing. The few officers who came to the grounds Saturday to "get settled" for the week to come lay in their tents all last night and were soothed into drowsiness by the gentle rain which prevailed, and today they are reading newspapers, enveloped in a thick fog. Not an auspicious opening, to be sure, but we hope that "sunshine will come again" and dispel the mist and clouds and give us a fair weather camp.

There are present in quarters today of the governor's staff Gen. Jamieson, Col. Harbison, Col. Morse and Major Swan of the quartermaster's department and Captain Pierce of the adjutant general's office. Gen. Haven and his staff are also present. Majors Fox, Thayer and La Pierre, Quartermaster Stark and Paymaster Keeney and a portion of the noncommissioned staff of the Third are also in quarters. Corporal Charles M. Cobb, who has been appointed mounted orderly for the regiment by Col. Tyler, is here getting into gear for his duties. Of course the officer of the regiment is Quartermaster Stark. He will be the most sought man during the next twenty-four hours on the ground. It is new business for him, but from present indications he will fill the bill. It will not be good policy, however, to monkey with him tomorrow, as it will be his busy day.

Capt. Cornell is all about the ground as good natured and accommodating as ever, and his genial "I'll attend to that right away" is satisfactory, for all who know him and get his word that things will be fixed, can go and sit down with the knowledge that it will be just as he says.

The camp looks about the same as ever, although there have been some changes in the lay out. Instead of the regimental street being straight, as heretofore, the three tents on the right and left of each regiment, occupied by the majors with their adjutants and sergeant-majors, have been set in the depth of the tent and fly which narrows the street considerably, and presents rather an odd appearance. On the left the machine gun platoons have been massed into a battery and occupy the position formerly occupied by the artillery, which has been located in the rear—an innovation which will prove beneficial to the camp.

Another change made this year has been the disposition of the detail for the seacoast battery. Heretofore this detail has quartered with the companies from which the detail was made.

This year the detail will be quartered at the battery and will be under the instruction of Sergeant Congdon, Co. H, First artillery, U. S. A., from Governor's island, supplied through the courtesy of Captain Cotton, U. S. A., the whole to be under the command of Major Albee of the brigade staff.

Although there are few men on the ground, the few brought out a pleasant little episode at brigade headquarters Saturday evening, when Major Crandall, judge advocate, presented Gen. Haven, in behalf of his staff, an elegant dress sword. The general was set back—in fact he wasn't in it for some moments, but he got his wind after a little and came up smiling with a graceful response. The sword is a straight blade with a guarded tortoise-shell hilt, on which is an acorn tip, and a scabbard elaborately trimmed with gold emblems and frostwork, with silver body. On the blade is inscribed: "Presented to Brigadier General Haven, commanding brigade Connecticut National Guard, by his staff officers, August 21, 1893." With the sword was a handsome satin-lined morocco case. Perhaps General George Haven is not a proud man today.

Store Burned at Danbury.

DANBURY, Conn., Aug. 20.—Shortly after midnight fire broke out in the market and grocery store of J. Frank Morgan, at No. 22 North street. The building was a one-and-a half-story structure, located just outside the city limits. When the fire department arrived the flames were beyond control and the building together with contents were destroyed. The loss is between $2,500 and $3,000.

To Extend the Electric Road to Berlin.

NEW BRITAIN, Conn., Aug. 20.—It is proposed by the electric company to extend their line to Berlin. The selectmen of Berlin were visited Friday and a general discussion was held in regard to the new road. The company will submit plans and specifications to the selectmen as soon as possible and afterwards will decide whether the charter will be granted or not. No opposition is expected.

Did Not Finish Within the Time Limit.

NEWPORT, R. I., Aug. 20.—The second abortive attempt at an Astor cup race took place Saturday. It came near a finish within the six hours' time limit, but as no yacht got in by that time the race is again off. The date of the second Astor cup race is now indefinitely postponed, and will depend on the mutual agreement of the owners of the big sloops and the New York Yacht club committee.

A Pawtucket Man Dies Suddenly in a New York Hotel.

NEW YORK, Aug. 20.—Martin H. Dealey, 40 years old, living at Pawtucket, R. I., and who had been stopping at the Broadway Central hotel, died suddenly in one of the parlors of the hotel last night from apoplexy. Dealey was a buyer for a millinery and dry goods house in Pawtucket.

Man Killed at Stratford.

BRIDGEPORT, Conn., Aug. 20.—John Murray of this city, an employe of the Consolidated road at Stratford, where the tracks are being raised, was struck by a construction train Saturday morning at the new bridge over Main street and instantly killed. He failed to see the train or hear the warning.

Smallpox Spread by a Chinaman.

NEW YORK, Aug. 20.—Chang Fay, a Chinaman, died of smallpox today in his laundry in Orchard street. He had been suffering with the disease for a fortnight, and meanwhile had pursued his employment. It is believed he may have spread the disease in the neighborhood.

IN CONGRESS.

The House.

WASHINGTON, Aug. 20.—In the house Saturday the silver debate was resumed immediately after the reading of the journal and Mr. McCreary (dem.) of Kentucky took the floor in advocacy of the repeal of the purchasing clause of the Sherman act.

Mr. Catchings (dem.) of Mississippi said that he would vote against any opposition, directly or indirectly, looking to the free coinage of silver in this country at this time at any ratio that could be suggested. He had come to this determination after careful consideration and after a careful study of the Chicago platform. He was in favor of the repeal of the purchasing clause of the Sherman act because it would tend to restore confidence and unlock the money that was hoarded up.

Mr. Livingston (dem.) of Georgia concurred in the sentiments expressed by the gentleman from Mississippi.

Mr. Richards (dem.) of Ohio believed that President Cleveland was right in attributing to the purchasing clause of the Sherman bill the present business depression.

The house at 3 o'clock took a recess until 8.

After the recess, to a crowded gallery, but to a small attendance on the floor, Mr. Curtis (rep.) of Kansas spoke in support of the Wilson bill, but in a conservative manner. He did not agree with the statement so frequently made that the act of 1873 was passed under a misapprehension or by a trick. He believed that every man who voted for or against that bill knew what he was doing. The people would never be satisfied with free silver at a ratio of 16 to 1, or with a single gold standard. Should not congress provide for the free coinage of silver at a ratio that would eliminate the fiat dollar? He was in favor of a ratio of 20 to 1.

Mr. Broderick (rep.) of Kansas spoke in favor of bimetalism and prosperity, which terms he regarded as almost synonymous.

Mr. Clark (dem. of Missouri) addressed the house in favor of the free coinage of silver, and spoke, as he said, as a plain, blunt man. To demonetize or not to demonetize silver was the question that confronted congress. There was no sense in whipping the devil around the stump. [Laughter.] The issue was squarely joined. There could be no fence-riding in this controversy. [Laughter.] "He that is not with us is against us." [Laughter.] To demonetize silver was to confiscate one half of the property of the United States. Quoting the language of Lincoln, he declared that "You can fool part of the people all the time; you can fool all of the people part of the time, but you cannot fool all the people all the time." And the democratic party could not do so in its party platform.

Mr. Clark then turned his attention to the speech of Mr. Rayner of Maryland, and suggested that if that gentleman would take a trip to Colorado or Utah he might have an opportunity to change his views on the financial question, while at the same time he was wearing off his character as a tenderfoot.

At the conclusion of Mr. Clark's speech the house at 10.30 adjourned.

The French Parliamentary Election

PARIS, Aug. 20.—The general parliamentary election in France today was unexpectedly free from disorder and even excitement. Except some slight disturbances in the Var, where M. Clemenceau, the radical leader, has had a hot fight with his slanderers, no trouble has as yet been reported.

In Paris, Alphonse Humbert, member of the commune and present president of the municipal council; Gustave Mesurer, radical socialist; Leander Miller, radical; Edward Lockey, republican radical; Desire Barodet, republican radical, and M. Denechean, editor of The Eclair, have been elected. Mesurer, Miller and Lockey sat in the last chamber.

One of the most notable results of the election is the defeat of Count de Mun, leader of the Catholics and formerly an ardent royalist in the following of the Count of Paris. M. Drumont, the notorious Jew editor of La Libre Parole, was defeated.

PARIS, Aug. 20—1 a. m.—The returns thus far received show the election of 105 republicans, a gain of five seats, 12 royalists and 8 revolutionists. Sixty-eight reballots are necessary. The cabinet ministers have been re-elected, none meeting with serious opposition. M. Clemenceau is defeated in his district, although polling a large vote.

Anti-French Demonstration at Rome.

ROME, Aug. 20.—The anti-French agitation spreads hourly. Demonstrative crowds paraded the streets tonight, shouting for revenge for the Aigues Mortes massacre. The police were out in double force all the evening and prevented the crowds from becoming riotous. At 10 o clock thousands had packed the Piazza Colonna.

A dozen bands paraded the streets, playing Italian and German airs, and excitement was at fever heat.

Robbed His Room-Mate of $45.

WINDSOR LOCKS, Conn., Aug. 20.—A Polander, who has been employed for some time at the farm of M. J. Broderick, robbed his room-mate's trunk Saturday night of $45, and made his escape on the early train for Hartford. Officer McCarty has sent a full description of the man to the police authorities at Hartford and New Haven. He sent for his wife recently to come from Russia, and it is expected that he will be easily found.

Night Sessions a Necessity.

WASHINGTON, Aug. 20.—The demands upon Speaker Crisp for recognition in the pending silver debate have grown to such an extent that in order to accommodate even a large proportion, not to say all, who desire to speak on the subject, night sessions will be a necessity. The first was therefore held at 8 o'clock Saturday evening.

Struck by a Batted Ball.

BOSTON, Aug. 20.—While David McLaughlin of 44 Longwood avenue was watching a game of ball on Park street, Saturday, he was struck by a batted ball and knocked over. He appeared to be all right when he went to bed Saturday night, but when his room was visited this morning it was found that he had died during the night. He was 24 years old.

Quarries at Cromwell Suspend Work.

LIVE STOCK KILLED BY HAILSTONES

A Terrific Cyclone Sweeps Over Somerset County, New Jersey.

TREES LEVELED, CROPS RUINED.

Lake Hopatcong Rises Two Inches—Buildings Unroofed.

SOMERVILLE, N. J., Aug. 20.—A terrific cyclone swept this portion of Somerset county yesterday evening. Trees and shrubbery were leveled, gardens and crops ruined and buildings unroofed.

The rain fell in torrents and the lightning flashed incessantly. Hail stones fell in great numbers and could yet be gathered late this afternoon.

The path of the storm was not more than half a mile wide. Not a building in the track escaped the violence of the storm, and in most of them all the glass was shattered in the windows.

The fine stained glass windows in the Baptist, the Reformed and Catholic churches were destroyed. The roof of the big grocery of Tunison & Liney was blown off, and the Westfield club house was damaged considerably. Growing crops were either destroyed or badly injured.

At German Valley, hailstones as large as hen's eggs were picked up in great numbers, and at Lake Hopatcong the lake rose two inches.

Several persons were severely injured by the hailstones, and horses and cattle were killed in the fields in some places.

Arrested After a Four Months' Chase.

DENVER, Col., Aug. 20.—Leon M. Carrier, aged 25, was arrested here last evening, after an exciting chase of four months since he left his home in Quebec. Up to last May Carrier was a prosperous merchant, but through expensive living was led into crime. By means of forged bills of lading he converted 75 carloads of flour to his own use and fled. Altogether he is supposed to have obtained $300,000.

Four Persons Drowned by the Capsizing of a Boat.

JEFFERSON CITY, Mo., Aug. 20.—At Bennett's mill, Friday night, Mrs. Foster, her two children and her sister were drowned by the capsizing of a boat.

FINALS IN CROQUET.

Closing Games of the Tournament—The Van Wickle and Horsman Contests.

The croquet giants finished their twelfth annual tournament Saturday and many left for home. The last game in the third division was between Jobes and Dudley, the latter winning. This made their respective score won 8, lost 2, and won 7, lost 1. Owing to his late entrance in the tournament Dudley was unable to meet two of the third division players before they left for home. By the rules of the association they forfeit their games, and, with a record of won 9 and lost 1 of the games, Dudley wins second prize in the division.

The fourth contest for the Van Wickle prize was on in the morning, and another play would have given the victory to Greenslit, when Jacobus dropped his mallet and said he must catch the train for home. He forfeited that game, but not the badge, Greenslit having won but three of the four out of seven games necessary for its possession.

Apgar and Fay were engaged all day and until 9.30 in the evening in the series of games for the Horsman mallet. The two players seemed most evenly matched, and when the spheres were finally housed for the night each had won three games. The decisive contest will be played this morning.

The New London players will come up the river this morning to engage in friendly contests with local croquetists, and those of the delegates who remain in town. The tournament has been a financial success and a delightful outing for the players.

The completed score of the prize winners is as follows:

	Won.	Lost.
First Division.		
W. Knecht, Mattawan, N. J..........	8	2
Philip Germond, New York.........	8	3
Second Division.		
D. D. Butler, Middletown...........	7	2
R. C. Butler, Middletown...........	7	3
Third Division.		
H. T. Crawford, Asbury Grove, Mass.	10	0
Samuel Dudley, New London......	9	1

CLOSE OF CAMP MEETING.

Large Audiences—Interesting Sermons.

MANY HOPEFUL CONVERSIONS.

Norwich and Eastern Connecticut People on the Grounds.

WILLIMANTIC CAMP GROUNDS, Aug. 19. —One of the most scholarly and convincing sermons of the week held the attention of a congregation of five hundred at the 10 o'clock meeting this morning, while the sun came out from behind the clouds, and a gentle breeze rustled the leaves of the tall trees of the grove. The speaker was the Rev. W. I. Ward of Niantic, his text I Tim. 1; 15: "This is a faithful saying, and worthy of all acceptation, that Christ Jesus came into the world to save sinners."

It is an historical fact that there was such a man as Jesus, such a title as Christ. Paul makes a personal application of this promise to save sinners when he adds, "of whom I am chief." Sin is a fact no one can deny. It is worth our while to believe that Christ came to save from sin; and the beginning of confidence lies in Christ's statement that he can save sinners. He has said so to all the world, and no one can doubt his word. He has extended a general invitation to the heavy-laden to come to him; and surely no one is more weightily burdened than is the sinner.

In the Old Testament God foretells the character of the Messiah who is to come into the world, giving proof that such a Saviour will be sufficient to satisfy the needs of the soul. Later on, in the New Testament, is the four fold story describing the life and character of Jesus. The Christ who promises to save answers in all the conditions of this life to the foretold Messiah. In His hatred of sin His strength, His patience and tenderness, His persevering love, His purity, the absolute perfection of His life, Jesus alone meets the requirements of the predicted Messiah and the needs of the soul; setting an example of life to excite wonder and admiration, yet to fill the soul with hope; a lofty ideal, yet one which the repentant sinner may dare to emulate, to climb to. In the atonement of His crucifixion and His resurrection which put the Messianic seal upon His life, He proved his divinity; of this the world is full of affirmative testimony.

Messrs. Dorey, Pierce, Brightman and Johnson also participated in the morning service.

Special meetings were held at the regular hours, until 3 p. m. when about 700 people congregated in the Circle to listen to the Word as preached by the Rev. Geo. E. Brightman of Attleboro', Mass., I. Cor. x. 4: "And that Rock was Christ," was the text chosen. Men in all ages have built on other foundations. Christ has been a stumbling block to them. While morality alone is important, and the world is suffering for a baptism of integrity in government, in business, in society, there is requisite besides a consecration to God, an impulse to lead a higher life. In this era of business doubt what is needed is confidence in the integrity and God-fearing character of each individual. Morality is not sufficient: it must be energized by the indwelling of the Holy Ghost. Not alone do men need the rock of morality, but the Rock of Ages, the solid foundation absolutely sure and substantial mid the changeableness of this world. This is the rock upon which God's church is being builded, which will endure when the walls of sectarianism have been broken down, and the word is not "what church?" but "God's church."

Preceding the altar service Mr. Johnson spoke briefly upon the topic of temperance, alleging that less scandal is given the young by the open drunkard who horrifies, than by the genteel tippler who entices by his example.

Messrs. Brightman and Betts also assisted in this service, at which Mrs. Johnson sang an expressive solo.

In the different society houses today are:

Mystic: Capt. J. E. Tribble, Miss Hattie Gabriel, Mr. and Mrs. David Davis, New Haven, Miss M. R. Richmond, Canterbury.

Marlborough: Mrs. H. S. Usher and family, H. G. Royal, Grace Wakefield, Frank Maine, Mr. and Mrs. Chittenden, Mrs. Risley, Mrs. Dickson, Mrs. Latham.

Vernon: Mrs. Lee, Mrs. Wilson and daughter, Fannie Gaillard, Miss A. Perkins, Mrs. R. L. Clark and daughter, Miss Fowler, Mabel Spencer, H. H. and F. N. Spencer, Miss Cady, Mrs. Quinn, Mrs. J. Johnson, Mrs. Thompson, Mrs. Rockwell, Mrs. Skewes, Mr. Barrows.

Wapping: The Rev. Dwight Adams and family, F. W. Foster and family, Carrie, Minnie and Arthur Grant, W. L. Lathrop and family, R. J. Shaw and family, Arthur and Samuel Goody, William Walker, Mrs. Ellen Deming and children, C. L. Benedict, Elsie Dibble, Laura Nevers, Dwight Foster and family, Ernestine Stoughton, H. S. Lathrop and family.

Notes.

Mrs. B. F. Barker, daughters and granddaughters, are at their cottage in Wesley Circle, the pleasant retreat of this family for twenty seven consecutive summers. Miss Frank Barker is their guest over the Sabbath.

George A. Lewis of Norwich was on the grounds today.

Miss M. A. Spencer, the efficient manager of the Vernon church house, is a relative of the veteran manager, Mr. William Manning, so long in charge of THE BULLETIN job room.

At the evening meeting in the Stafford Springs house, the quartette, "We Shall Meet Beyond the Tide," was harmoniously given by Messrs. Leach, Fisher, Porter and Turner. A large crowd attended this service, which resulted in upwards of 150 testimonies within the hour.

Mrs. H. M. Randall of Port Jefferson, N. Y., rendered a solo with much acceptance at the morning service.

In his announcements this morning Elder Tirrell spoke of the camp meeting as having had larger results than for several years, specifying a number of notable conversions. He referred with emphasis to the issue of the Rev. Mr. Anderson's sermon on Friday evening, when scores professed conviction.

Mr. W. W. Peck of Turnerville, who has covered the ground so thoroughly for the Willimantic papers this week, leaves the grounds this evening. Mr. Peck is spoken of by his brethren in the ministry as a preacher of great promise, and has demonstrated his further versatility by his newspaper work and his occasional grateful help to the choir.

Mr. and Mrs. Morrill Currier have moved into their new cottage.

WILLIMANTIC, Aug. 20.—The heavy rain of Saturday night left the grove so damp that the 9 o'clock love feast was held in the tabernacle Sunday morning. Upwards of a thousand people assisted at this service, which was conducted by the presiding elder. Handsome bouquets of roses and asters were on the platform.

Church members of all ages spoke briefly of their love of and obligations to Christ. There were very few present who did not recall some blessing for which to give thanks. The best of fellowship prevailed, and amid hearty prayer and praise the one hundred and thirty-one testimonies came to a close. Evangelist Johnson spoke upon "Obstacles to a better life," warning his hearers against an expectation of the peace of religion while the heart is full of hatred, of vanity, of worldliness. A practical altar service followed his remarks.

The continuing rain necessitated an afternoon session indoors also. Probably 1,200 persons participated in this service. The Rev. J. E. Brightman of Attleboro, Mass., read Gal. III., also leading in prayer. A solo, with organ accompaniment, by Mr. Edward Wheeler, was sung with sweetness and expression by Mrs. M. B. Grout of Providence.

The Rev. Eben Tirrell, presiding elder, then with impressive solemnity administered the ordinance of baptism to two young ladies who had consecrated themselves to Christ during the week. The Rev. J. M. Taber of South Manchester delivered the sermon, based upon Gal. I., viii.: "But though we or an angel from heaven preach any other gospel than that which we have preached unto you, let him be accursed." It was an eloquent exposition of the fundamental elements of repentance, justification by faith, regeneration, the baptism of fire, in a word the personification of all gifts and graces—Christ—so vividly set forth by Paul both here and in his epistle to the Romans. It was followed by the usual altar service, in which Mrs. Johnson sang a pathetic solo.

A general service in the evening concluded the exercises of the week.

Notes.

Mrs. M. H. Adams of Groton is occupying her cottage here.

Moses Lewis of the Norwich Reform club is an interested attendant at the different meetings.

The Rev. E. J. Ayres of Uncasville has collected the required $50 for the Bible conference next year.

Saturday evening's sermon, by the Rev. Mr. Bidgford, was a convincing discourse from the text, John 1. 29, its theme, "The Lamb of God as a sacrifice for sin."

The Niantic church house entertained the following persons today: Walter Eseon, Ruth Taylor, Florence, Edith and Arthur Havens, Thomas King and wife, Elsie Beckwith, Mrs. Eunice Gates.

Mr. M. V. Pierson brought a 'bus load of Norwich people to the grounds this morning. In spite of the rain there was a large number of visitors from the surrounding towns.

George Holmes and wife of New London are occupying their cottage.

One of the familiar figures on the ground is "Johnnie" Gorman, who comes from Jewett City each year and rents rooms at his cottage, "The Gorman," on James avenue.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

BASE BALL.

Clippers Defeated by the Willimantics in a Close Contest.

The Willimantic base ball nine defeated the Clippers by a score of 3 to 2 on the Greeneville grounds, Saturday afternoon. The features of the game were the three base hit of Hayes, of the Clippers, two double plays and the pitching of Regan who struck out seven men.

The game was close and exciting throughout. In the last half of the first inning the Willimantics secured two runs on errors and when the Clippers came to bat they tied the score, which remained the same until the sixth inning. Another run was then secured by the Thread City boys and this won for them the game.

The Clippers lost the game by loose base running and weak support of the pitcher. The attendance was fair and no favoritism was shown the home team in the applause of brilliant plays.

Johnson of Philadelphia, the champion croquetist, occupied a back seat in the grand stand and was an enthusiastic observer.

This score was made:

SUDDEN DEATHS.

William M. Gorry of Willimantic.

William M. Gorry of Willimantic, proprietor of the iron foundry there, died suddenly at the home of his brother-in-law, Charles Chandler, superintendent of the mill at Dyerville, R. I., Friday afternoon. Mr. Gorry was a native of Norwich and 47 years of age, and has been in business in Willimantic about seventeen years. He had been to Maine for the improvement of his health and Mrs. Gorry was spending the summer at Block Island. His death was unexpected and sudden. He married Miss Jane McDonald of this city. He was highly respected in Willimantic and was twice chosen a member of the court of burgesses.

The Willimantic Chronicle speaking of his character says: "Those who knew Mr. Gorry best liked him best. He was strictly temperate and of good general method of life. His one fault was a quick temper which sometimes got the better of him. He was a member of the Catholic church."

Daniel Packer, Jr., of Packerville.

Daniel Packer, Jr., youngest son of the late Daniel Packer, Esq., of Packerville, died suddenly at 4 o'clock Saturday morning, aged about 28 years. Mr. Packer and his mother had been at their summer home but a few days. Mr. Packer, like his ancestors, was a warm-hearted man, ever ready to drop a tear for those in distress, or to lend a helping hand to the needy. His genial, kind-hearted disposition made him friends on all sides. The young men of the village have looked forward each year to his arrival, as he has from earliest boyhood loved Packerville and taken an interest in its welfare.

His remains will be interred in the family cemetery at Schaghticoke, N. Y. Tuesday.

COMMITTEE PLACES.

Republicans Will Caucus to Dispose of Them.

VACANCIES CAUSED BY DEATH.

Senator Washburn Will Go Up Higher—Talk in the House.

WASHINGTON, Aug. 20.—As the senate was not in session Saturday, having unexpectedly, and after refusing to adjourn over from Friday to Monday early in the day Friday, reconsidered its action behind the closed doors of an executive session, there was no proceeding of interest beyond the speech making in the house.

In some quarters it was suggested that the torpedo thrown into the senate by Mr. Butler of South Carolina yesterday, in the shape of an amendment to the bank circulation bill, repealing the state bank tax, had alarmed the senators who desired speedy action on that measure, and fearing that the amendment might carry and thereby

Cripple the National Bank System,

unless full time were given to point out the dangers it invoked, they permitted an adjournment.

The Republicans will, within the next day or two, hold a caucus to fill the vacancies in the committees caused by the death of Senator Stanford, and also to deal out the little patronage the Democrats have given them. This patronage amounts to about 15 places—a few in the office of the secretary, but the majority under the sergeant-at-arms—the same number given the Democrats when the Republicans were in control of the senate.

The death of Senator Stanford causes a number of senators on that side of the chamber to

Move Up a Peg or Two,

so that they will be in line for chairmanships should the Democrats lose control of the senate again. He stood first on the committee on civil service and retrenchment as at present constituted. His death leaves Mr. Washburn as the ranking Republican member. On the committee on education and labor he stood second, and here also Mr. Washburn moves up into his place. On the committee on fisheries Mr. Squire is, by the same process, moved up so that he ranks as the second member of the committee on the Republican side, next to Mr. Stockbridge.

THE TIMES SAYS.

Demand in This Country Is For Something Startling of Financial Nature.

LONDON, Aug. 20.—In commenting editorially on the financial situation in the United States The Times says:

It will be interesting to see how the next experiment will turn out. The simple repeal of the Sherman act seems now to be thought poor and spiritless. The demand is for some more startling method which will draw the attention of the outside world and will show to what quarter it must look for guidance in currency affairs. It matters very little which alternative is tried, the promise of a new act, whatever form it ultimately takes, will not very easily be kept. As a contrivance for getting rid of the surplus cash, either course will serve exceedingly well. The worst of it is that no such cash is now to be found; the pensions act was a too effective drain. But whatever way the new scheme may work, we shall be grateful to America for giving us so good an object lesson, and most kind, of all, at her own expense.

SITUATION IMPROVED.

Cablegram From Naples Indicates That the Cholera Is on the Wane.

WASHINGTON, Aug. 20.—In response to a request for information on the condition of Cholera in Italy, Surgeon General Wyman yesterday received a cablegram from Assistant Surgeon Young at Naples stating that the situation had improved.

In Naples and vicinity, as nearly as could be ascertained, there were 180 cases of cholera and 71 deaths during the past week. There are many scattered cases in suburban and neighboring towns.

Surgeon Young says that he cannot answer positively in regard to northern Italy, but was sure there was cholera existing at Campasso and Sulmona, and from information received, should say that it prevailed at other central towns. There was one suspect at Palermo Thursday.

PROTECTED THEIR FRIENDS.

Branches of Indianapolis Cabinet Company Sold Before Receivership.

INDIANAPOLIS, Aug. 20.—It has come to light that the Boston and New York branch establishments of the Indianapolis Cabinet company were sold to eastern syndicates a short time prior to the appointment of a receiver for the concern.

It is alleged that the officials of the company, knowing that the application for a receiver must follow within a few days and desiring to protect preferred interests, effected the deal, which is certain to result in a very material reduction in the assets of the Indianapolis National bank, and consequently to greatly lower the pro rata dividend among the creditors of the suspended institution.

The cabinet company owes the bank $257,346, and the bank will probably not get out of it more than $20,000.

Getting Ready For Business.

BOSTON, Aug. 20.—The Massachusetts Democratic state central committee will hold its first meeting preparatory to the opening of the campaign on Saturday next at the state headquarters. The business to be brought before the state committee includes the filling of vacancies on the committee, of which there are quite a number, and also to name a date for the holding of the state convention.

Assaulted While Asleep.

MARLBORO, Mass., Aug. 20.—Thomas Mulligan was assaulted while asleep in his room Friday night by an unknown party, being struck on the head with a blunt instrument, producing a bad wound. His assailant came and went by the front stairs, and was not identified. Ownership of property is hinted as the cause of the assault.

Saw Mill Destroyed.

ELLSWORTH, Me., Aug. 20.—A saw mill on the east side of the river, owned by Eugene Hale and others, known as Hopkins mills, was burned Friday night. Loss on mill and dam, $8000; insurance, $3000. The mill was not in operation. The origin of the fire is unknown.

Fishermen Astray In Their Dory.

GLOUCESTER, Mass., Aug. 20.—The schooner Bertha May reports that Edward Hines and Harry Hipson, two of the crew of Pubnico, N. S., went astray Sunday in a dory. They may be picked up. Two others were rescued.

Election of a Colonel.

SALEM, Mass., Aug. 20.—The election of a colonel of the Eighth regiment will take place by the first of next month and the line officers are all ready to vote for Lieutenant Colonel Dodge of Beverly.

AMERICA HAS NO MONOPOLY.

British Answers to Pointed Questions Asked in Parliament.

LONDON, Aug. 20.—Thomas G. Bowles, Conservative member for Lynn Regis, asked the government in parliament whether the award of the Behring sea tribunal of arbitration imposed upon Great Britain the obligation to forbid pelagic sealing by British subjects at any time whatever within a 60-mile zone around the Pribyloff islands.

He also desired to be informed whether the award of the tribunal forbade British sealers to use firearms, nets or explosives in their vocation, and whether it established a close season to be observed by pelagic sealers and put other restraints upon British sealers, while it imposed no obligation on the United States to restrict sealing on land at any time.

Further, Mr. Bowles said he desired to be informed whether the effect of the award would not be to give a practical monopoly of the sealing industry to the Americans and deprive British subjects of any share in that industry.

Sir Edward Grey, parliamentary secretary of the foreign office, said in reply, it was not considered that the effect of the award would be to give the Americans a monopoly of the industry.

Thus, the use of firearms in the capture of seals has been forbidden, a close season has been established, and only sailing vessels would be allowed to engage in sealing.

The award, however, imposed certain obligations upon the United States as well as upon Great Britain, and he could not admit that these obligations would act to the prejudice of British interests, as Mr. Bowles had suggested by his questions.

TO BE INVESTIGATED.

Boston Custom House Will Be Officially Looked Into.

BOSTON, Aug. 21.—The dispatch published in a Saturday's morning paper to the effect that the Boston custom house is to be investigated is credited by some and disbelieved by other prominent custom officials in Boston.

D. E. Lonergan of Cambridge is now in Washington and called on the secretary of the treasury yesterday and, it is said, preferred charges against the appraiser who discharged him a short time ago. It is further said by some Boston officials that some of the merchants are behind Lonergan and his visit to Washington was made at the instigation of them.

Appraiser Dodge has not heard anything about it, and it is probable that he never will until the investigators call upon him. Chief Special Agent Smith who represents the department in Boston, who will in all probability be the first person to hear of such a move on the part of the treasury department, has not received any word from them.

From persons in a position to know it was learned this afternoon that Lonergan's charges will not be ignored, and that some action will be taken by the department next week. This comes from a reliable source, one of Boston's leading merchants, who is to receive a visit from Secretary Hamlin on Monday.

THE CHEROKEE OUTLET.

All the Details For Opening It to Settlement Have Been Settled.

WASHINGTON, Aug. 20.—The draft of the proclamation opening to settlement the Cherokee Outlet has been sent to the president for his approval. The president's examination may delay its return to Washington and promulgation until early in the week.

The original map showing the location of each of the 70 allotments, has been sent to New York, where a large edition will be published and furnished the department, for general distribution in the vicinity of the outlet some time before the day set for the opening. All of the details preparatory to the opening have been decided upon, and these it is believed will be efficacious in preventing any number of the prospective settlers from obtaining any advantage over the others.

GRAND COACHING PARADE.

Winthrop Enjoys a Gala Day—Very Successful Program.

BOSTON, Aug. 20.—Saturday was the gala day of the year at that beautiful seashore town, Winthrop; for the second annual coaching parade filled the streets and avenues with a wonderful pageant of gayly caparisoned horses, coaches and carriages, gorgeous with decorations from field and forest, and streaming with gay colors, bearing among the decorations the beauty of an hundred towns and cities.

The procession passed over six miles of streets and moved in four divisions, with two bands of music and included floats and tally-ho's as well as many beautiful private equipages.

Beautiful trophies in the form of appropriately inscribed banners were awarded as prizes for the best display in the different classes of equipages.

HAND TO HAND FIGHT.

All Kinds of Weapons Used Between French and Italian Workmen.

LONDON, Aug. 20.—The Paris correspondent of The Times says of the fight between French and Italian workingmen at Aigues-Mortes Thursday that at least 50 were killed and 100 wounded.

The French, numbering 500 carried every kind of weapon, from pickaxes and bludgeons to firearms. There were frightful hand to hand fights in the streets.

Afterward, 300 Italians barricaded themselves on a farm. They were besieged forthwith by the French, and a regular battle followed. Whenever an Italian escaped he was hunted down like a rat.

Courts in the Fight.

SOUTH FRAMINGHAM, Mass., Aug. 20.—It is not expected that the cars will be running on the Clinton electric street railway before Sept. 1. Judge Aldrich of the superior court has granted an injunction which restrains the Old Colony or New York, New Haven and Hartford Railroad company from interfering with the laying of the tracks over the crossing of that system on Water street.

New Priest at Fitchburg.

FITCHBURG, Mass., Aug. 20.—Rev. James Norris of Otter River has been appointed to the parish of the Sacred Heart in Fitchburg, to fill the vacancy caused by the death of Rev. John L. Tarpy last month. Fr. Norris was born in Waterford, Me., 35 years ago.

George Bean, the Actor Dead.

CHICAGO, Aug. 20.—George Bean, the "Cy Prime" of the Old Homestead company, died in his dressing room in McVicker's theater, at 10 o'clock Friday night.

Burglars at Providence.

PROVIDENCE, Aug. 20.—There were several daring robberies in this city Friday night and early this morning, and a considerable quantity of goods was carried away.

After the Boston and Maine.

MONTREAL, Aug. 20.—There is something brewing in the Canadian Pacific syndicate. There have been consultations and whisperings about a new entrance into the states, and the talk on the streets has reference to the Boston and Maine railway. Ever since the McIntyre syndicate, which means the principal shareholders of the Canadian Pacific railway, acquired control of the Grand Trunk, it has been rumored that they would try to extend their powers in the United States.

PORTEOUS & MITCHELL.

PORTEOUS
&
MITCHELL.

Our Annual Clearance Sale of Summer Merchandise will continue all this week.

We have had similar sales every season, but never before have we had at this season of the year a sale which offers so many and such incomparable lots of desirable merchandise as are included in this sale.

Every department offers some unapproachable bargains, and the greater the lot the lower the price.

Bear in mind that when we say "bargains" we mean something out of the ordinary. We never use the word except in connection with something extraordinary.

During former sales there have been many disappointed in getting some particular article because they waited too long before coming to see about it.

Don't let it be your lot to be among the disappointed ones. If you need anything in merchandise now is the time to most advantageously buy it.

Staple Merchandise as well as Summer Goods are included in these offerings.

Men as well as women are interested.

There is something for everybody, and the prices were never lower than now.

PORTEOUS & MITCHELL.

PARENTAL ADVICE.

Feelin streakid, ain't ye, Johnny?
Well, this is the way I view it,
That the gals would like to love ye,
But you've got to make 'em do it.
Don't go browsin at a distance
In some pastur' way off yonder,
Don't believe what idiots tell ye—
"Absence makes the heart grow fonder."
Step up to 'em, Johnny, smarter;
Sorry Kate give you the mitten;
She'd said, "Yes," as sure as gospel
If you hadn't been such a kitten.
You will learn to view this matter
Bimeby just the way I view it,
That the gals would like to love ye,
But you've got to make 'em do it.

Everybody's bound to have 'em
All, at any rate, but few are;
An w'en I was young an lively
I was taken just as you are.
An I went an popped it to her
Scared completely out of nater',
Tremblin like a frightened rabbit,
Blushin like a red termater.
After she had told me "No, sir,"
I was just about as you be,
Goin round limp an kinder dumpish,
Feelin like a blasted booby.
But I fin'ly spunked up courage
Like a man to go an win her,
An she's been a blessin to me;
I can't say a word agin her!

"Did I get her?" Now you're crazy;
Do you s'pose I'd get another
W'en I loved the gal like I did?
Go an ask her, she's yer mother.
Since that time I tell the youngsters
Just the way I allus view it,
That the gals would like to love 'em,
But they've got to make 'em do it.
—Sam Walter Foss in Yankee Blade.

A HOMELY HERO.

"Pour Abe Dodge!"

That's what they called him, though he wasn't any poorer than other folks—not so poor as some. How could he be poor, work as he did and steady as he was? Worth a whole grist of such bait as his brother, Ephe Dodge, and yet they never called Ephe poor—whatever worse name they might call him. When Ephe was off at a show in the village, Abe was following the plow, driving a straight furrow, though you wouldn't have thought it to see the way his nose pointed. In winter, when Ephe was taking the girls to singing school or spelling bee or some other foolishness—out till after 9 o'clock at night, like as not—Abe was hanging over the fire holding a book so the light would shine first on one page and then on the other, and he turning his head as he turned the book and reading first with one eye and then with the other.

There, the murder's out. Abe couldn't read with both eyes at once. If Abe looked straight ahead, he couldn't see the furrow nor anything else for that matter. His best friend couldn't say but what Abe Dodge was the crosseyedest cuss that ever was. Why, if you wanted to see Abe you'd stand in front of him, but if you wanted Abe to see you you'd got to stand behind him or pretty near it. Homely! Well, if you mean downright "humbly," that's what he was. When one eye was in use the other was out of sight, all except the white of it. Humbly ain't no name for it. The girls used to say he had to wake up in the night to rest his face, it was so humbly. In school you'd ought to have seen him look down at his copybook. He had to cant his head clear over and cock up his chin till it pointed out of the winder and down the road. You'd really ought to have seen him; you'd have died. Head of the class, too, right along; just as near to the head as Eph was to the foot, and that's sayin a good deal. But to see him at his desk! He looked for all the world like a week old chicken peekin at a tumblebug! And him a grown man, too, for he staid to school winters so long as there was anything more the teacher could teach him. You see there wasn't anything to draw him away; no girl wouldn't look at him. Lucky, too, seein the way he looked.

Well, one term there was a new teacher come—regular high up girl, down from Chicago. As bad luck would have it Abe wasn't at school the first week—hadn't got through his fall work. But she got to know all the scholars, and they was awful tickled with her—everybody always was that knowed her. The first day she come in and saw Abe at his desk she thought he was squintin for fun, and she upped and laughed right out. Some of the scholars laughed, too, at first, but most of 'em, to do 'em justice, was a leetle took back, young as they was, and cruel by nature. (Young folks is most usually always cruel—don't seem to know no better).

Well, right in the middle of the hush Abe gathered up his books and upped and walked out doors, lookin right ahead of him and consequently seeing the handsome young teacher unbeknown to her.

She was the worst cut up you ever did see, but what could she do or say? Go and tell him she thought he was makin up a face for fun? The girls do say that come noon spell, when she found out about it, she cried—just fairly cried. Then she tried to be awful nice to Abe's ornery brother Ephe, and Ephe he was tickled most to death, but that didn't do Abe any good—Ephe was just ornery enough to take care that Abe shouldn't get any comfort out of it. They do say she sent messages to Abe, and Ephe never delivered them or else twisted 'em so as to make things worse and worse. Mebbe so, mebbe not—Ephe was ornery enough for it.

'Course the schoolmarm she was boardin round, and pretty soon it come time to go to ole man Dodge's, and she went; but no Abe could she ever see. He kept away, and as to meals he never set by, but took a bite off by himsel' when he could get a chance. (Course his mother favored him, being he was so cussed unlucky.) Then when the folks was all to bed he'd come in and poke up the fire and peek into his book, but first one side and then the other. [illegible]

Now, what does schoolma'am do but come down one night when she thought he was abed and asleep and catch him unawares. Abe knowed it was her quick as he heard the rustle of her dress, but there wasn't no help for it, so he just covered his crosseyes with his hands and she pitched in. What she said I don't know, but Abe he never said a word, only told her he didn't blame her, not a mite; he knew she couldn't help it no more than he could. Then she asked him to come back to school, and he answered to please excuse him. After a bit she asked him if he wouldn't come to oblige her, and he said he calculated he was obligin her more by stayin away.

Well, come to that she didn't know what to say or do, womanlike she upped and cried, and then she said he hurt her feelings. And the upshot of it was he said he'd come, and they shook hands on it—Abe givin his other hand of course.

Well, Abe kept his word and took up schoolin as if nothing had happened, and such schoolin as there was that winter! I don't believe any regular academy had more learnin and teachin that winter than that what that district school did. Seemed as if all the scholars had turned over a new leaf. Even wild, ornery, no account Ephe Dodge couldn't help but get ahead some—but then he was crazy to get the schoolma'am, and she never paid no attention to him, just went with Abe. Abe was teachin her mathematics, seeing that was the one thing where he knowed more than she did—outside of farmin. Folks used to say that if Ephe had Abe's head or Abe had Ephe's face the schoolma'am would have half of the Dodge farm whenever ol man Dodge got through with it, but neither of them did have what the other had, and so there it was you see.

Well, you've heard of Squire Caton of course. Judge Caton they call him since he got to be judge of the supreme court and chief justice at that. Well, he had a farm down there not far from Fox river, and when he was there he was just a plain farmer like the rest of us, though up in Chicago he was a high up lawyer, leader of the bar. Now it so happened that a young doctor named Brainard, Daniel Brainard, had just come to Chicago and was startin in, and Squire Caton was helpin him; gave him desk room in his office and made him known to the folks—Kinzies and Butterfields and Ogdens and Hamiltons and Arnolds and all of those folks—about all there was in Chicago in those days. Brainard had been to Paris—Paris, France, not Paris, Ills., you understand—and knew all the doctorin there was to know then.

Well, come spring, Squire Caton had Doc Brainard down to visit him, and they shot ducks and geese and prairie chickens, and some wild turkeys and deer too. Game was just swarmin at that time. All the while Caton was doin what law business there was to do, and Brainard thought he ought to be doin some docturin to keep his hand in, so he asked Caton if there wasn't any cases he could take up—surgery cases especially he hankered after, seein he had more carving tools than you could shake a stick at. He asked him particularly if there wasn't anybody he could treat for "strabismus." The squire hadn't heard of anybody dying of that complaint, but when the doctor explained that strabismus was French for crosseyes he naturally thought of poor Abe Dodge, and the young lawyer was right up on his ear. He smelled the battle afar off, and 'most before you could say Jack Robinson the squire and the doctor were on horseback and down to the Dodge farm, tool chest and all.

Well, it so happened that nobody was at home but Abe and Ephe, and it didn't take but few words before Abe was ready to set right down, then and there, and let anybody do anything he was a mind to with his misfortunate eyes. No, he wouldn't wait till the old folks come home. He didn't want to ask no advice. He wasn't afraid of pain nor of what anybody could do to his eyes—couldn't be made any worse than they were, whatever you did to 'em. Take 'em out and boil 'em and put 'em back if you had a mind to, only go to work. He knew he was of age and he guessed he was master of his own eyes—such as they were.

Well, there wasn't nothing else to do but go ahead. The doctor opened up his killing tools and tried to keep Abe from seeing them; but Abe, he just come right over and pecked at 'em, handled 'em and called 'em "splendid," and so they were, barrin havin them used on your own flesh and blood and bones.

Then they got some cloths and a basin and one thing another and set Abe right down in a chair. (No such thing as chloroform in those days, you'll remember.) And 'Squire Caton was to hold an instrument that spread the eyelid wide open, while Ephe was to hold Abe's head steady. First touch of the lancet and first spurt of blood, and what do you think? That ornery Ephe wilted and fell flat on the floor behind the chair!

"'Squire," said Brainard, "step around and hold his head."

"I can hold my own head," says Abe as steady as you please. But 'Squire Caton he straddled over Ephe and held his head between his arms and the two handles of the eyespreader with his hands.

It was all over in half a minute, and then Abe he leaned forward and shook the blood off his eyelashes and looked straight out of that eye for the first time since he was born. And the first words he said were:

"Thank the Lord! She's mine!"

About that time Ephe he crawled out-doors, sick as a dog, and Abe spoke up. Says he:

"Now for the other eye, doctor."

"Oh," says the doctor, "we'd better take another day for that."

"All right," says Abe, "if your hands are tired of cuttin you can make another job of it. My face ain't tired of bein cut, I can tell you."

"Well, if you're game, I am."

So, if you'll believe me, they just set to work and operated on the other eye, Abe holding his own head as he said he would and the squire holding the spreader. And when it was all done the doctor was for putting a bandage on to keep things quiet till the wounds all healed up, but Abe just begged for one sight at himself, and he stood up and walked over to the clock and looked in the glass and says he:

"So that's the way I look, is it? Shouldn't have known my own face—never saw it before. How long must I keep the bandage on, doctor?"

"Oh, if the eyes ain't very sore when you wake up in the morning you can take it off if you'll be careful."

"Wake up! Do you s'pose I can sleep when such a blessing has fallen on me? I'll lay still, but if I forget it or you for one minute this night I'll be so ashamed of myself that it'll wake me right up!"

Then the doctor bound up his eyes, and the poor boy said "Thank God!" two or three times, and they could see the tears running down his cheeks from under the cloth. Lord! It was just as pitiful as a broken wing bird!

How about the girl? Well, it was all right for Abe—and all wrong for Ephe—all wrong for Ephe. But that's all past and gone—past and gone. Folks come for miles and miles to see cross-eyed Abe with his eyes as straight as a loon's leg. Dr. Brainard was a great man forever after in those parts. Everywhere else, too, by what I heard.

When the doctor and the squire come to go, Abe spoke up, blindfolded as he was, and says he:

"Doc, how much do you charge a feller for savin' his life—making a man out of a poor wreck—doin what he thought never could be done but by dyin and goin to kingdom come?"

"Oh," says Doc Brainard, says he, "that ain't what we look at as pay practice. You didn't call me in—I came of myself, as though it was what we call a clinic. If all goes well and you happen to have a barrel of apples to spare, you just send them up to Squire Caton's house in Chicago, and I'll call over and help eat 'em."

What did Abe say to that? Why, sir, he never said a word, but they do say the tears started out again, out from under the bandage and down his cheeks. But then Abe he had a 5-year-old pet mare he'd raised from a colt—pretty as a picture, kind as a kitten and fast as split lightning—and next time Doc came down Abe he just slipped out to the barn and brought the mare round and hitched her to the gate post, and when Doc came to be going, says Abe:

"Don't forget your nag, doctor; she's hitched at the gate."

Well, sir, even then Abe had the hardest kind of a time to get Doc Brainard to take that mare, and when he did ride off leadin her it wasn't half an hour before back she came lickety split. Doc said she broke away from him and put for home, but I always suspected he didn't have no use for a hoss he couldn't sell nor hire out, and couldn't afford to keep in the village—that was what Chicago was then. But come along toward fall Abe he took her right up to town, and then the doctor's practice had growed so much that he was pretty glad to get her, and Abe was glad to have him have her, seeing all that had come to him through havin eyes like other folks—that's the schoolma'am I mean.

How did the schoolma'am take it? Well, it was this way. After the cuttin Abe didn't show up for a few days, till the inflammation got down and he'd had some practice handlin his eyes, so to speak. He just kept himself to himself, enjoyin himself. He'd go round doin the chores, singing so you could hear him a mile. He was always great on singin, Abe was, though ashamed to go to singin school with the rest. Then when the poor boy began to feel like other folks he went right over to where the schoolma'am happened to be boardin round and walked right up to her and took her by both hands and looked her straight in the face and said:

"Do you know me?"

Well, she kind of smiled and blushed, and then the corners of her mouth pulled down and she pulled one hand away, and, if you believe me, that was the third time that girl cried that season to my certain knowledge, and all for nothin either time!

What did she say? Why, she just said she'd have to begin all over again to get acquainted with Abe. But Ephe's nose was out of joint, and Ephe knowed it as well as anybody, Ephe did. It was Abe's eyes to Ephe's nose.

Married? Oh, yes, of course, and lived on the farm as long as the old folks lived, and afterward, too, Ephe staying right along like the fool he always had been. That feller never did have as much sense as a last year's bird's nest.

Alive yet? Abe? Well, no. Might have been if it hadn't been for Shiloh. When the war broke out, Abe thought he'd ought to go, old as he was, so he went into the Sixth. Maybe you've seen a book written about the captain of Company K of the Sixth. It was Company K he went into—him and Ephe. And he was killed at Shiloh—just as it always seems to happen. He got killed, and his worthless brother come home. Folks thought Ephe would have liked to marry the widow, but Lord! she never had no such an idea! Such bait as he was compared to his brother! She never chirked up to speak of, and now she's dead, too, and Ephe he just toodles round taking care of the children—kind of a he dry nurse. That's about all he ever was good for anyhow.

My name? Oh, my name's Ephraim—Ephe they call me for short, Ephe Dodge. Abe was my brother.—Joseph Kirkland in Louisville Courier-Journal.

A Cure For Stammering.

A gentleman who stammered from childhood almost up to manhood gives a very simple remedy for the misfortune. He says: "Go into a room where you will be quiet and alone, get some book that will interest but not excite you and sit down and read two hours aloud to yourself, keeping your teeth together. Do this every two or three days—or once a week if very tiresome—always taking care to read slowly and distinctly, moving the lips, but not the teeth. Then, when conversing with others, try to speak as slowly and distinctly as possible and make up your mind that you will not stammer.

"The first result was to make my jaws ache—that is, while I was reading—and the next to make me feel as if something had loosened my talking apparatus, for I could speak with less difficulty immediately. The change was so great that every one who knew me remarked it. I repeated this remedy every five or six days for a month, and then at longer intervals until cured."—New York Telegram.

Dancing and Early Art.

It may create some surprise that we regard the dance as the earliest form of art, or even that we allow it any place among the fine arts. To many it will seem a kind of sacrilege to combine in the same category, however broad, such extremes as a dancing savage and a painting of the last judgment, and if the connection must be made some would choose to make it along other lines than those of art. But, in truth, the dance supplies us with the key, so to speak, of the development of the fine arts.—David J. Hill in Popular Science Monthly.

Doing His Best.

Mother—Harry Tucker is the worst boy in school, Tommy, and I want you to keep as far from him as possible.

Tommy—I do, ma. He stays at the head of our classes all the time.—Truth.

Not in It.

There was a young maiden of Lynn,
Who said she esteemed it a sin
For young girls to flirt—
And she wasn't expert,
For she didn't know how to begyn.
—Louisville Journal.

AN AIR CYCLE NEXT.

THAT IS WHAT'S WANTED BEFORE THE FLYING MACHINE.

The Bicycle No Longer Satisfies the Longing of Mankind For Free Movement. We Want to Travel as the Birds Do, but [illegible]

The Frenchman who covered the dead walls of Paris with calls for subscriptions to a Society of Aviation, to start with a capital of 800,000 francs, may have been lacking in the highest qualities of public spirit. He was placed in jail for taking money for his little private flying machines, costing from $300 to $2,000, which he failed to deliver. But his merit lies in discovering the want that fills the breasts of a large number of men today. It is only the somewhat headlong method of gratifying that yearning which has interfered for a time with his locomotion. Had he but had the forethought to invent, to beg or to borrow a fairly efficient flying machine, nothing short of a cage would now prevent him from taking a leave as French as himself.

Though he should languish for the rest of his days in prison, M. Delprat will have the glory of the discovery that the bicycle no longer satisfies the longing of mankind toward a freer movement over the face of land and water. If we are to believe the evolutionists, man is the result of gradual aspiration, from the worm that walloweth on a portion of its anatomy unsuited to ears polite, through the many footed, the four footed and four handed beasts, up to the natural lord of creation who runs perpendicular on two feet. The present century has seen man become what the old legends would have termed the "whirling one foot." Why should not this progress continue and the next century find man rising from that single pied a terre into more or less sustained aviation?

The flying machine still holding to earth by one wheel has already appeared sporadically in England, according to Engineering. Mr. Phillipps published the results of his trial of a machine resting on a light car and claims that he flew, but the front wheel of the car never left the ground. This is quite as it should be. We creep before we walk, we graduate from tricycle to bicycle, and now we are at the unicycle age. Who is the man to lift us finally clear of the earth?

The principle of the balloon, useful as it is in overcoming gravity, has carried generations of inventors into a fool's paradise.

Birds are lighter than beasts, but they are not soap bubbles. And to the bird we have to return indirectly or directly for lessons in the navigation of the air. The aeroplane, in which our able aviators are now reposing so much confidence, but upon which they take care not to repose their own brittle bodies, is the result of a study of the soaring of birds. Latterly it has been reasoned out that individual feathers have a powerful influence in supporting the bird in air. So the aeroplanes are made not solid, but with slats, and in some cases jointed in sections, so that while one portion is in one plane another may be tilted up or down to get the lifting power of a change of angle. This power is so great that our leading aviators, like Hiram Maxim and Professor Langley, expect to obtain great velocities if they can once get their airships under way and under control.

The money spent by these inventors and investigators is mounting to a great sum, but who shall say it is wasted, considering the benefits to accrue? The remark attributed to Giffard when dying, that he would not reveal the secret of his airship because "he thought he saw the air ensanguined by war as the seas have been, and the earth," need not disturb us. If he did say that, he was temporarily in a state of weakness, for the flying machine will do more than anything yet invented to break down the prejudices of one nation for another. Wars are the result of such prejudices carefully inflamed by ambitious men, and while the aviation is not going to stop all wars it will surely reduce them to a minimum.

More important than such machines as Lieutenants Renard and Krebs successfully steered from Meudon to the walls of Paris and back again are the small flying machines developed from the bicycle, which seem now about to make their appearance. The bicycle with electric motor is invented. Now comes the turn of a combination of bicycle and aviator which shall permit the rider to leave earth and skim along for 100 yards or so without detriment to himself or his machine. By way of these inventions will come the discovery, step by step, of means and methods of sustaining flight for longer periods and also the actual training in motion through the air which is now wanting to mankind.

The inventors who are constructing on paper or in actuality great flying machines are like men of an inland race who have for the first time seen a broad piece of water. Before learning to paddle a canoe they are already building a frigate; before understanding the principle of the steam engine they are setting to work to make an ocean steamer. What is wanted is a popular air cycle, an "air safety," to lead the way to larger air wagons with sustained flight. Who will invent one?—New York Times.

An Old Pacific Coast Engine.

Perhaps few of the people know that a very antique engine is lying useless behind the station at Long Beach, Los Angeles county. This engine was used in the early part of the last decade, and when the fireman wanted to put in any fuel the train had to be stopped while the fireman put in wood at the front of the engine, as the door of the furnace is situated there. This engine ran between Los Angeles and Long Beach before the Southern Pacific extended its line to that place. The cars are like street cars of today, only about twice as long. Sometimes the passengers had to get out and push, as the engine was not very strong.—Pasadena Star.

Poor Luck.

Roger, aged 6, had been fishing with his father the day before, and a friend of the family asked him what luck they had.

"Well," he replied, "we didn't have very good luck. The first place we went to the man wasn't home, and the other two places the man said he hadn't more'n enough for his own family."—Life.

WHEN HE BROUGHT THE BLACK SILK.

The One Thing In Life For Which Mrs. Young Longed Came Too Late.

It was no very exacting ambition that Robert Young's mother had cherished all her life. She lived very quietly on the western prairie farm to which she and her husband had gone together when they were both young. She did not expect to be rich or even think about it. She was content with the homely round of her daily life. Sometimes her husband used to say that if they had only happened to go here or there, where some of the friends of his youth had found copper or silver, or struck oil, they also might have been worth millions, but the wife always answered: "It wa'n't to be, John; it wa'n't to be. And we've done pretty well, as things go, but I should 'a' like one good black silk dress."

This was the only wish that Robert Young had ever heard his mother express, and he used to say to himself when he was a boy:

"Bless the dear mother! She shall have it the very first money I earn."

Robert's father, too, planned in his own mind the same thing, but one year the harvest turned out badly, and another the children had diphtheria, and so it was that the good black silk had never been bought.

It was a strange thing that the son of John and Rachel Young should have been an artist. But Robert began to draw before he could write, and at last he got hold of a box of colors through the kindness of one of his Sunday school teachers, and then he made pictures that dazzled the eyes of his prairie neighbors.

As he grew older he got orders for portraits from proud parents who were willing to give $5 for a daughter's or a son's likeness, and he saved these small sums until by the time he was 18 he had enough money to take him to Boston, where he hoped to find a good teacher and to do something really worth while.

His struggle in the city was hard enough to begin with. Every snowstorm was a friend to him, for wherever he shoveled off steps and sidewalk they were sure to want him again, he did his work so cheerfully and so well.

He paid for his lessons by taking care of the studio of the artist under whom he studied. He was ready to do any honest thing to earn an honest penny, and at last, even in Boston, people found out that he had a special talent of his own and began to buy his pictures.

There were so many things at first to do with the money that he earned! He must have a little studio of his own where people could come, and it would not answer for the artist who had his own studio to live like the youth who used to shovel off sidewalks. He did not forget the good black silk dress or the mother who was to wear it; he only waited.

At last came a spring when he had been fairly prosperous, and he planned to go home for his mother's birthday in August and to carry the dress with him, but just then he received an invitation that flattered him. His former teacher was going to Ipswich for a summer of sketching and asked Robert to go with him.

It seemed an opportunity too good to be lost. So he went to Ipswich, and the summer flew by as if on wings, and Robert did not go home in August; he only wrote a letter.

It was October before he started for the faroff prairie farm. Once on his way, he hurried forward by night and day until he reached the little station that was nearest to his home. He had written when he should arrive, but he did not see his father waiting for him as he had expected. He felt a momentary sense of injury, but just then an old neighbor came up.

"I s'pose you might as well ride home 'long with me," he said. "I told 'em I'd fetch ye, as long as yer pa couldn't."

"Couldn't! Why?"

"Waal, I sorter hate to tell ye, but yer mother, she had a shock or palsy yesterday, and yer father don't like ter leave her jest yit."

There was a strange choking in Robert Young's throat. The good black silk dress was in his valise, but he had brought it too late.—Youth's Companion.

The Riches of Uninhabited Nicaragua.

Mr. J. Crawford, a well known resident of Managua, has just completed a tour covering about 12,000 square miles of territory of the republic of Nicaragua. Mr. Crawford reports that the uninhabited central mountainous part of the country is very rich in agricultural lands, excellent for raising coffee, tobacco, grapes, almonds, corn, potatoes, vegetables, sugar cane, rice, cocoa, indigo, plantains, mangoes, oranges, limes, lemons, bananas, etc. In the forests are to be found mahogany, cedar, rosewood, walnut, india rubber, nispero, guanacaste, etc. Its lodes are rich in gold and silver, while large deposits of marble, granite and magnesian limestone are to be found.—Panama Star.

An Easter Surprise For the Czar.

Emperor Alexander found a short time since in a photographic album on his writing table a picture of the famous nihilist countess Sophie Perovskaia, who was hanged with the murderers of Alexander II. It is now stated that at Easter the czar received another disagreeable surprise. In his room at Livadia he found an exquisitely painted Easter egg. Inside it was a small silver dagger, two ivory carved death's heads and a slip of paper on which were these words: "Christ is risen. We also shall rise again!" In spite of all endeavors the secret police have not succeeded in finding out where either the portrait or the egg came from.—London News.

Costly Gown, Poor Minister.

A sweet damsel of Baltimore is about to be married to a minister. She confided to the Other One that her wedding dress was "a dream"—satin at $7 a yard and $500 worth of duchess lace. "Only fancy," observed the Other One reflectively to me, "only fancy that gown—of course I mean a girl wearing such a gown—married to an everyday common preacher. Of course it isn't as if he were a bishop or anything like that, but an awkward sort of parson living in an unfashionable part of the city. Really, it is very inharmonious." "Then why are you going to the wedding?" "Why? Because I am a student of human nature, and such odd cases are an interesting study."—Detroit Free Press.

FOR THE LADIES.

Profit Is Nothing
But a Memory Today.
It is too late in the season to think of profit, we think of loss.
Hats reduced to less than cost, both trimmed and untrimmed.
Trimmed Hats at 98c.
Cost or value no consideration.

NORWICH MORNING BULLETIN.
Established [illegible].

NORWICH WEEKLY COURIER.
Established 1796.

Subscription rates, Morning Bulletin—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, Weekly Courier—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

The Morning Bulletin (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

The Weekly Courier (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to The Morning Bulletin; all business communications to The Bulletin Company.

Money orders and checks should be made payable to The Bulletin Co.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Monday August 21, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

DECEIVED NO LONGER.

A Hartford democrat writing The Hartford Post says: "I have been with and voted for the democratic party for the last twenty-five years or more; and have taken The Hartford Times for twelve years. I now must candidly admit, after all these years of voting, that I have not only been voting against my own welfare, but the welfare of my fellow workmen throughout the country. Now, when the laboring man will stop and think seriously of the principles and teachings of both parties, then and only then will he see that the republican party is the only one for himself, his family and the laboring man throughout the whole land."

The "change" which the democratic party has given the workingman is so different from what they expected, and the opportunity to think seriously upon these questions is so unusual, that they are forced to give thought to the cause of their present distress. If they think over the campaign promises of the democratic party, if democrats, and compare with them the results, they can reach only one conclusion. That is the conclusion which this democratic workingman has reached. Many workingmen who have [illegible] with the idea that the democratic party is the workingman's friend and provider are, learning by trying conditions that they have been laboring under a delusion, and are becoming better informed of the value of protection, and of the joy and comfort that come with steady work and good wages. When once more the republican party is in the ascendancy and the republican policy is restoring the times which the revolutionary policy of the democratic party destroyed, the workingmen will be found in greater numbers voting for the republican policy under which the country has thriven.

ADVANCE IN THE PRICES OF COAL.

The force of habit is nowhere better illustrated than by the July advances in the price of coal by the great coal holders. The condition of the country does not have any effect upon their action, or the fact that the stock on hand August 1 is two and a half millions more of tons this season than last. The time has come for a raise, and the increase in price is decreed. From it there is no appeal.

The Philadelphia Ledger publishes the following comparative table to show the amount of the increase in the coal on hand:

	Aug., 1892.	Aug., 1893.
Reading	14,847,351	[illegible]
Shamokin	[illegible]	744,881
Clearfield	1,7[illegible],441	[illegible]
Huntington and Broad Top	1,380,844	1,080,888
Norfolk and Western	1,860,878	1,866,968
Beech Creek	1,769,190	1,680,816
Chesapeake and Ohio	3,330,776	3,677,382
Total tons	[illegible]	[illegible]

The stock of coal on hand at the beginning of August is much greater than last year, and the consumption by manufactories in consequence of short time and shut downs is much less, to say nothing of the lessened sale in consequence of the use of kerosene stoves in warm weather. The best and apparently only reasonable excuse for the advance is that August is the time for the price of coal to go up.

A MILLION FOR THE VICTIMS.

The speculative endowment craze has had its run, and the people who believed that these societies could prosper by swapping a thousand dollars for six hundred are the owners of over a million dollars in the hands of receivers in the fifty-two institutions incorporated under the laws of Massachusetts, and will instead of nearly doubling their money receive back a part of the money they entrusted to the scoundrels who were running them. There has been sufficient delay on the part of the receivers to cause considerable complaint, and now the supreme court of Massachusetts has issued an order appointing a special master to examine the situation, confer with the twenty receivers and report to the court for the immediate payment of a dividend. The amount of funds in the hands of these twenty organizations is $807,250; besides these there are thirty-two of these organizations in the custody of the superior court of that state with $803,030 in their hands.

The total amount of money entrusted to these organizations, now in the hands of the courts, is $1,155,270. The action of the court is extraordinary, and the occasion is also extraordinary. The court has moved to secure for the befooled members of these orders the money which is their due, and which may, if left for manipulation, be artfully used up by those having it in charge, and get into other hands than those in which it rightfully belongs.

"CROQUET AND COQUETTES."

The annual tournament of the National Croquet association has closed, the national champion and the prize-winners have gone to their homes, and Norwich and croquet will not appear in the papers of the country paired again till August, 1894.

As usual the annual prize contests have led to more or less newspaper comment, and many references have been made to "scientific croquet." The Ansonia Sentinel has made a point in an article entitled "Croquet and Coquettes," which is worthy the consideration of the scientific croquet-players in their moments of relaxation. Commenting upon The Bulletin's assertion "that the summer girl is not in scientific croquet," the editor says:

"This is one thing, probably, which has caused such a decided falling off in the popularity of the game. The girls are not 'in it,' and the young men are too enthusiastic and too much engrossed in the niceties of the game to think much of the coquettes who used to employ the mallet as the Spanish maiden uses the fan."

There has been much speculation as to the cause of the decline of the game, and this may be one of the prime causes. When "the summer girl" swung the mallet with such grace and freedom, and was a charming partner, the game had in it a possibility beyond the winning of a silver tipped mallet of precious wood, or the title of "National champion" when the nation is not in the game. There was then life in the game, because the charm and fascination of youth were in it.

These clubs of the National association would do well to consider whether the game would not be made more attractive by the addition of "summer girls" to the list of delegates. In seasons past brass bands have been tried as a drawing feature at these national contests, and have not proved over successful. Now, if the executive committee will just invite the women to take a hand at scientific croquet for fun or for honors, we will guaranty that "the New Jersey boy-phenomenon" will not take the national championship away from the "champion of champions," but some belle from Springfield, Townsend Harbor or Mattewan will carry off [illegible].

If croquet is to be socially in this country what base ball is nationally the woman should be in it.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EDITORIAL COMMENT.

Senator Gorman is the representative of President Cleveland in the senate, but David Bennett Hill's position is said to resemble that of "the man in the moon." He can look on, but he can't catch on.

The New York Evening Post calls public attention to Senator Vest "in the character of a fast trotter," when he said in his speech favoring free silver coinage: "It is a favorite expression now to talk of the 'silver lunacy.' Mr. President, I am willing to follow that great lunatic, Thomas Jefferson, on this question." The Post then goes on to show that it was by Jefferson's order that the coining of silver was stopped from 1805 to 1836, that gold might be kept in circulation. Vest "out-footed" Jefferson's time!

The light is shining in the senate. There are now reported to be forty-three senators in favor of the unconditional repeal of the silver-purchasing bill, thirty-eight against it and seven doubtful. When the issue is reached there may be a majority for it.

The summer girl is reported this season as anxious to get tanned. Fifty years ago such a girl would have been "tanned" every day for just what these girls are admired for. Times change.

The executive councils of state boards of trade and chambers of commerce are meeting to appoint delegates to a convention to be held in Washington on Sept. 1, to take such action as may be deemed advisable relative to co-operating with other commercial bodies in the endeavor to improve the present mercantile and industrial condition of the country by insisting upon prompt action by congress.

STATE EDITORS' OPINIONS.

How It Looks.

The Waterbury American says that the democrats cannot be responsible for existing troubles because we are living under the same laws as before. Yes, same horse, but a different jockey, you see; and it looks like a different track, indeed it looks as if we were off the track.—[Hartford Post.

At His Post.

Adlai Stevenson is at his post of duty, anyway.—[Hartford Post. His "post" will never feel a strain.

[illegible]

Now, singularly enough the tide has turned, gold is coming back by the millions, the treasury reserve is all right again, and the Sherman act is unrepealed! Business does not revive, however, and cannot to any very great extent, till the tariff question is settled.—[Bridgeport Standard.

A Suggestion.

The time will come when employment will be given. A great choice can then be made of unemployed by employers. The industrious, sober man will then get the job, and be alone. Moral: Especially during these hard times let it be known by your conduct and character that you are a worthy man and when times start up you will receive a situation.—[Valley [illegible].

Those Bloomfield Balloons.

The entertaining project for making rain in Bloomfield by exploding dynamite in the upper air may have a livelier interest for us in Hartford than the mere question of whether to carry umbrellas. The plan as outlined is to send up balloons with dynamite, so fixed with a fuse as to blow up at the proper time.

Now just imagine a gentle northwest wind, a balloon that drifts this way, a fuse that goes out, and a sudden slump by which the dynamite drops into the center of Hartford and explodes. No escape nor even any insurance on property. Life and accident policies would be collectable forthwith. Mighty little difference would it make here then whether the rain came or not.—[Hartford Courant.

Quite Ashamed of Ourselves.

All we democrats and republicans feel very small and quite ashamed of ourselves this morning. Jerry Simpson is reliably quoted as making the announcement that none of us is worth a continental.—[New Haven Register.

[illegible]

Shall women smoke?—[New Haven Leader. "When woman will, she will, you may depend on't, and when she won't, she won't!—There's an end on't!"

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTERN CONNECTICUT.

PUTNAM.

Major Thayer Presented a Sword—Highwayman Committed.

An unusually pleasant surprise was given Major Henry J. Thayer on Friday evening by the members of Company G, Third regiment, C. N. G. Capt. L. H. Fuller, the spokesman, very adroitly brought the major, as well as the whole company to attention, and in a very able [illegible] presented him with a beautiful sword. Notwithstanding the major's embarrassment, he responded in words befitting the occasion. The company was entertained with music, songs and refreshments.

On Saturday morning bright and early Deputy Sheriff Parks arrested Juda Benoit and Adolpus King, both of Putnam. They were arraigned before Judge Chesebro during the day charged with being the highwaymen who held up George Talbot and George Nichols at the "Dam Tavern" on Friday night. Benoit pleaded guilty, but said he was drunk and that it was only a joke. He was placed under $300 bonds, which he secured, to appear in the superior court for trial at the September term. King pleaded not guilty, but he told so many different stories that he was also held in $300 bonds. At 9 o'clock Saturday night he had not secured bondsmen.

A Philadelphia physician who died the other day left a will containing some queer provisions, including this one: "If my family never settled with Mr. Foster concerning the dog, I wish and want them to give to the boy Foster who was bit, the sum of $10, but if they have settled with the said Foster, then they are not to pay any money to said boy. This is in fulfillment of a promise I made to them when I was in trouble concerning the dog."

The "rocking stone" in Sullivan county, New York, weighs forty tons, and is so evenly balanced on a table of rock that it can be easily set in motion by the pressure of a finger, yet so solidly laid that the combined strength of 100 men, without official appliances, could not displace it.

A Wonderful Machine.

There is no doubt that man is a fine mechanism, but like every other machine he wears out by friction. It is said he is born again every two or three years. His body is virtually re-made from food. To retard this making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time to recuperate. The process of making anew is so accelerated by purging with Brandreth's Pills that a new man, as it were, may be made in two or three months, and the change in the mechanism is such that the worn out part is replaced by the new without the usual running down of the entire machine. You don't have to stop for repairs. Purge away with Brandreth's Pills the old, diseased and worn out body. They are purely vegetable, absolutely harmless, and safe to take at any time.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

Surrounded by Mystery!

A GREAT MISTAKE.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nervine

is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Restorative Nervine positively contains no opiates or dangerous drugs.

For sale by N. D. Sevin & Son and Lee & Osgood. (1) mayl[illegible]

A BETTER FEELING.

Bradstreet's Review of Trade in the Country.

MORE CONFIDENCE IS REPORTED.

West First to Feel the Reaction—Demand for Certain Lines of Goods.

NEW YORK, Aug. 20.—Bradstreet's of yesterday says: There are evidences of actual increase in demand in several lines, such as that for dry goods at Chicago and shoes at St. Louis. At Cleveland, Cincinnati and Louisville actual improvement or expressions of returning confidence from merchants are the features. Even at Detroit, Milwaukee and Omaha, where there is no tangible improvement in trade or banking circles, there are reports of a better feeling, based on confidence that congress will repeal the purchase of silver clause.

With the exception of this better tone in the west the general situation is unchanged, except that Pittsburg, Richmond and a few other points find encouragement in temporary features.

Demand for Currency.

Widespread use of certified checks as currency is a feature of the week. The demand for currency at New York is still strong, though the premium paid fluctuated between 1 and 2 1-2 per cent, transactions being mainly in large blocks. Country institutions and industrial establishments are purchased at 2 to 3 per cent.

Gold to arrive is also in request, and a premium of 1 to 1 1-2 per cent is paid to foreign houses to arrange for gold engagements in London. The specie import movement was restricted temporarily by expectations of another advance in the Bank of England rate, but as specie is coming to London from the continent no further obstacle is offered there, and heavy sums of gold have been taken in the past two days for transfer hither, making the total amount in transit about $6,000,000. Gold receipts for the week aggregate $10,000,000.

Failures This Week.

The list of mercantile failures in the United States this week shows a sharp falling off, the total being 409, as compared with 474 last week, with 157 in 1892, and 191, 180 and 215 respectively in corresponding weeks in the three preceding years.

Bank clearings at cities throughout the United states aggregate only $722,000,000 this week, a decrease of almost 1 per cent from the exceedingly small total reported last week, and a falling off of fully 37 per cent as compared with the moderate total in the week one year ago. Net railway earnings for June are 6 per cent heavier than in 1892.

No Improvement East.

There is no radical improvement in the situation at any of the industrial centers in eastern and New England states, although in a number of instances important establishments have resumed work after brief idleness. The widespread shutdown of woolen mills has demoralized the price of wool, and it is announced more Fall River mills will stop work.

Widespread depression in commercial lines at Philadelphia and Boston continues the feature, and leading iron and steel industries are almost at a standstill, with little or no demand. A slight improvement in trade is announced at Pittsburg.

SATANITA WAS FIRST.

Beats the English Cracks and Also Gerrolt's Navahoe.

LONDON, Aug. 20.—The annual regatta of the Royal Dorset Yacht club, of which Lord Stalbridge is commodore, took place yesterday. The course covered a distance of 40 miles, extending from Weymouth, where the clubhouse is located, to the Shambles lightship, the distance being covered three times. The sun shown brightly and there was a fresh southwest breeze.

The Satanita, the Britannia, the Navahoe and the Calluna were the starters in the race for yachts of their class.

The starting gun was fired at 10 o'clock. The Satanita, the Britannia and the Navahoe got across the line before the gun was fired, and were compelled to put about and start over again.

In the meantime the Calluna, which started at the proper time, got a five minute's lead on the other three yachts.

The Satanita finished first, the Britannia second, the Navahoe third, and the Calluna fourth.

Appointed Senators to Be Seated.

CHEYENNE, Wyo., Aug. 20.—Governor Osborne has received private advices from Washington to the effect that the appointed senators from Wyoming, Montana and Washington are sure to be seated. As soon as this decision of the senate is announced the governor will immediately name a senator to fill the place made vacant by the resignation of A. C. Beckwith.

More Gold on the Way.

LONDON, Aug. 20.—Gold to the amount of $550,000 was withdrawn Saturday from the bank of England for shipment to the United States. The Cunard line steamer Campania which sailed from Liverpool for New York took $4,385,000 in gold, and the the American line steamer New York, sailing from Southampton, took $180,000.

Strikers Making Trouble.

BOSTON, Aug. 20.—The striking employes of the Brookline Gas company made more or less trouble all day Saturday for the city employes who were at work filling in the trenches on Washington street. In the afternoon the strikers became still more troublesome and help was asked from the police department.

House Painter Assigns.

DEDHAM, Mass., Aug. 20.—Ellery B. Oliver of Hyde Park, a house painter, filed an insolvency petition in the Norfolk registry Saturday morning. His liabilities amount to $3222.95, and his assets consist of stock in trade and mortgaged real estate.

Brakeman's Arm Broken.

BOSTON, Aug. 20.—Harry Fitzgerald, 21 years of age, a brakeman on the Union freight railway, had his right arm fractured while at work on Atlantic avenue, about 4 o'clock Saturday morning.

Cattle Inspector Appointed.

AMESBURY, Mass., Aug. 20.—The selectmen have appointed Dr. J. A. Douglas inspector of herds and cattle.

Revolutionists Successful.

NEW YORK, Aug. 20.—The Herald's Valparaiso correspondent cables: All the principal cities in Corrientes province, Argentina are now controlled by the radical revolutionists. A hard battle is reported to have been fought between the revolutionists and national troops near Curuzucatia.

Surgeon Commits Suicide.

PITTSBURG, Aug. 20.—Dr. D. G. Foster, surgeon of the Fourteenth regiment, N. G. P., and one of the best known physicians in western Pennsylvania, committed suicide Saturday morning by shooting himself in the head at his home in Crafton.

OFFICIAL PROGRAM.

Grand Encampment of Grand Army of Republic at Indianapolis.

INDIANAPOLIS, Aug. 20.—The official program of the week of the Grand Army national encampment has been issued and is as follows:

Saturday, Sept. 2—Street parade of naval veterans; reception on board of the model of the old warship Kearsarge, etc.

Monday, Sept. 4—Reception by citizens of Indianapolis to officers and delegates of the national encampment, formal opening of Camp Wilder in Military park, four camp fires of veterans, electric and gas illuminations of the business center of the city, a natural gas display in State House square, business meetings of departments in the state house.

Tuesday, Sept. 5—Grand review and parade beginning at 10:30 a. m.; display of fireworks at night; reception at Tomlinson hall by ladies of Indianapolis to Woman's Relief corps and ladies of Grand Army.

Wednesday, Sept. 6—Beginning of the sessions of the twenty-seventh national encampment; reunions of army corps; brigade and regimental organizations; six great camp fires of veterans; receptions at private houses.

Thursday, Sept. 7.—Continuance of the sessions of the national encampment, reunions of Indiana and other regiments; street exhibition of war pageantry, representing the military history of the country, embracing floats, tableaux, fireworks, etc.

Friday, Sept. 8.—Closing session of the national encampment.

CHOLERA IN EUROPE.

Scourge Especially Severe In Russia—Rumors From Germany Unfounded.

BERLIN, Aug. 20.—Rumors of the appearance of cholera in many German cities have been current in the last few days, but most of them are unfounded in fact. The Moabit hospital has been opened to cholera patients.

At Bremen, the embarkation of Russian emigrants on the North German Lloyd steamships has been prohibited.

In the last 48 hours there have been 28 fresh cases of cholera and 25 deaths in Galicia.

The number of fresh cholera cases reported in Russia, during the last week is 2113; the number of deaths, 792.

Nine cases of cholera and two deaths were reported in Brahilovist, Roumania, yesterday; nine cases and three deaths at Soulina and 10 cases and seven deaths at Galatz.

DISPATCHES DELAYED.

Hawaiian Steamer Left Behind Important Government Matter.

SAN FRANCISCO, Aug. 20.—Important government dispatches for Honolulu failed to be taken on the steamer Monowai. They arrived here shortly before the steamer left the wharf, but before the naval pay office messenger reached the dock the steamer was already out in the harbor. He had no instructions to signal and stop her, so the message will remain here till the 28th.

What the nature of the dispatches was could not be learned, but they were evidently important, and probably contained authority for Admiral Skerrett or Consul Severance to act as minister. It is known that the Monowai took orders to Admiral Skerrett to return here the moment the Philadelphia is sighted at Honolulu.

THE CURTIS TRIAL.

Evidence For the Defense Is a Surprise to the Prosecution.

SAN FRANCISCO, Aug. 20.—Evidence for the defense in the Curtis trial, proves a surprise to the prosecution. Two new witnesses swore that Curtis was at Berkeley with a large sum of money early in the evening of Grant's death. This tended to corroborate the defense's theory that Curtis was robbed, and that the robber killed Officer Grant and ran away.

Mrs. Curtis swore that she gave her husband $900 before he left her, and that her husband never owned the pistol found near the dead man. Many prominent persons testified as to Curtis' good character. Two women swore that they saw a third man run past them after the shooting. The case was continued until Monday.

LITTLE GIRL MISSING.

Went To Meet Her Father and Has Not Been Seen Since.

LOWELL, Mass., Aug. 20.—Little Alice M. Howland 10 years of age, left her home Friday morning, and her mother thought she was going to meet her father, who works in Faulkner's mills. The little girl has not been seen since.

Some time ago the child disappeared and was found in Palmer with her mother's sister. Mr. Howard is now living with his second wife, and his first wife's people, it is said, have wanted to get the child. They say that other parties are also interested in the little one. The police have been asked to investigate the case.

THE ABINGTON RIOT.

Full Report Sent to the Governor to Justify His Action.

NORTH ABINGTON, Mass., Aug. 20.—The selectmen have drawn up a full report of the recent affair here and the circumstances which led to it, and it will be sent to Governor Russell. It was asked for by the governor, as he was called upon for assistance, and it was through his orders that the special police were sent to the scene of action. He desires to have some paper showing that he was justified in calling out the special detectives of the state.

More than local interest is felt in the approaching trial of Superintendent Sanborn, Detective Bailey and Roadmaster Bryant, who have been charged with inciting a riot. They will appear at the second district court at Abington on Wednesday of next week.

Eminent counsel will appear for them, and the town will be assisted by several well known members of the Plymouth bar.

REDUCTION IN WAGES.

Found to Be Necessary on Chicago, Milwaukee and St. Paul Road.

MILWAUKEE, Aug. 20.—All Friday afternoon and half of the night there was a secret conference between officials of the Chicago, Milwaukee and St. Paul Railroad company and the grievance committee of the Brotherhood of Railway Trainmen, relative to a reduction of wages.

It was learned that the officials informed the committee that a reduction of 10 per cent. in the wages in the operating department, except alone in cases where the pay does not reach $50 per month in individual cases, was absolutely necessary, and would be made on Sept. 1. The committee was informed that the company did not desire to make any cut, but found it unavoidable at this time, and assurances were given that the reduction would not be continued a day longer than was found necessary. No conclusion has been reached.

Mountain View Hotel Burned.

LACONIA, N. H., Aug. 20.—The Mountain View hotel in Gilmanton was burned at 2 o'clock this morning, with contents, including a large amount of value in furniture. The hotel had not been open for guests this season. The cause of the fire is unknown, but it is thought to have been incendiary.

WHEN DESPONDENT.

Bertha Porter Shoots Herself in the Breast.

WELL KNOWN WALTHAM BELLE.

Lost Her Employment in Watch Factory —Woman of Strong Character.

WALTHAM, Mass., Aug. 20.—Waltham has been greatly disturbed over the reported attempt at suicide of Miss Bertha Porter, one of the best known young ladies of that city. Miss Porter is now at the Waltham hospital with a bullet in her left breast, which is serious and may prove fatal.

The hospital authorities are reticent and will say nothing of the case, but it is learned that Miss Porter shot herself with a 22-caliber revolver at a boarding house on the south side of the city Friday afternoon.

Miss Porter, who is about 26 years of age, was an employe of the American Waltham Watch company, and was discharged with other of the employes several days ago.

She Was Very Much Depressed

at the loss of her situation, as she was dependent upon her own exertions for support and had always occupied a position in society which the loss of her income might compel her to relinquish.

She was offered a position as a domestic by a family to whom she had been recommended by a prominent physician of the city, but this served rather to increase her despondency than to diminish it. She did not wish to accept the place, and at the same time felt that if she did not her friend who had suggested the place might decline to assist her further. She brooded over the situation, it is said, until she was led to make

The Attempt Upon Her Life.

Miss Porter's handsome face and figure has been one of the best known in Waltham, where she has lived for the past 10 years. She has, it is said, been accustomed to carrying a revolver for some time.

Last winter when an indignation meeting was held by certificate holders in the Bay State league, Miss Porter strongly denounced the officers in open meeting, and said she would be one to lead in an attack upon them. She is of strong character, and her action is a surprise to those who knew her. It is thought she may recover.

WHOLE FAMILY STRICKEN.

Three Children Dead, the Mother Dying and Father Helpless.

NEW YORK, Aug 20.—A special to The Times from Little Rock says: Three dead children, another seriously ill, the mother dying and the father helpless on his back in a small cottage in the residence portion of the city, was the report received by the city authorities. The head of the family is T. Casey, a carpenter, who came with his family recently to Little Rock, from Dardenelle.

One week ago one of the children, a girl, was taken suddenly ill and died in five hours. After the child had been buried, the mother was taken ill and compelled to take to her bed. A day or two later the father was forced to his bed. They suffered great agony, like that from the effects of poisoning.

Yesterday morning the three remaining children, who up to that time appeared to have been in good health, were stricken down by the mysterious disease. At five o'clock in the afternoon one of them died and another followed at 8.30 o'clock. The third child is dangerously ill. The physicians believe there was a poisonous substance in the well.

Six Children Were Crushed.

CINCINNATI, Aug. 21.—A special to the Enquirer from Martin's Ferry, Ohio, says: Near this city a traction engine became unmanageable and ran backward down a hill, crushing six children, who were following it. Carrie and Nellie Ackerman, aged 11 and 8, were killed outright; Ella King had both legs broken, and will die, and three others are dangerously hurt.

Had Enough of Fighting.

BOSTON, Aug. 20.—The officials at Deer Island stated Saturday that everything was quiet on the island, and the prisoners are all back at work, with the exception of those who have been placed in their cells. They have had enough of fight for the time being, and are not at all anxious for the resumption of hostilities.

Held For Assault.

BOSTON, Aug. 20.—In the Dorchester district court Saturday morning Malachi Watson and Maggie Crowley were held in $1000 each on the charge of assault and battery on Mrs. Mary Watson, the wife of Malachi, who was found dead Friday morning in the Dorchester district. The court awaits the result of the autopsy.

Serious Fights In Mexico.

NEW YORK, Aug. 20.—A Herald special from Houston, Tex., says: Serious fights are reported to have taken place in Saltillo, Mex. Many persons on either side were killed.

Robbing Hen Roosts.

AMESBURY, Mass., Aug. 20.—Poultry thieves, it is reported, have begun raiding the hen roosts in the suburbs of Amesbury.

NEWS IN BRIEF.

The city of New Haven is to run a bank of its own.

The paid admissions at the World's fair Friday were 121,749.

All the factories of the General Electric company are closed.

A. H. Hatchard, a former resident of Lynn, Mass., committed suicide in England.

John H. Spaulding, former manager of the Tip Top House, Mt. Washington, is dead.

Trouble occurred at Deer Island, Boston harbor, the prisoners having objected to watery soup.

Congressman Everett of Massachusetts created a sensation in the house by his sharp points.

Congressman Harter is confident that the Wilson repeal bill will pass both branches of congress.

The state of Massachusetts paid the expenses that a London officer incurred in arresting convict Lynch.

More than $1,000,000 worth of the city of Boston's temporary and permanent loan bonds have been sold to date.

The trial of August Lenamer for the murder of Miss Mary A. Emmerson of West Dedham, Mass., will begin Sept. 8.

Mrs. Mary Watson of Dorchester, Mass., was found dead in bed, and bruises on her body led to the arrest of her husband.

Steve O'Donnell of Australia defeated Jack Cattanach of Providence and Sullivan knocked out Cahill at the Coney Island Athletic club.

The date of the Boston Republican state caucus has been fixed at Sept. 26; Candidate Pillsbury carried his point over the friends of ex-Mayor Hart at the executive session of the Boston ward and city committee.

THE GARDENER.

A new London violet called the "wallenstein," has a hairy leaf and very heavy perfume. It does not flourish in the shade.

Extensive experiments are being made on the British Columbia experimental farm in raising different varieties of nut bearing trees.

Garden paths can be kept from weeds and grass by pouring over them boiling hot suds on washdays, putting a handful of salt in each bucket of suds.

The Chinese magnolias taken from the nurseries when two or three years old and successfully transplanted will sometimes bloom the following season and annually thereafter.

The laughing plant, says Palgrave in his work on central and eastern Arabia, is a native of that country, and its seeds produce on any one eating them effects analogous to those of laughing gas.

A large buttonwood tree, which stood at the corner of Herbert and Derby streets, Salem, Mass., for the past 300 years, was cut down recently, having become unsafe. It was 22 feet in circumference.

THE DOCTOR.

The only reliable remedy for bleeding at the nose is to move the jaws rapidly. This has been known for years.

Never buy secondhand bedding unless you know exactly from whom it came when it was new and if any one had been sick on it.

Nervous headache may be greatly relieved by the application of hot water to the temples and the back of the neck, particularly if a hot foot bath is used at the same time.

A leading physician says that babies, sick and well, may have water to drink in moderation if they want it. The water should be boiled and covered, not very cold, even warm if the child prefers it so.

Digitalin is a powerful heart stimulant which has recently been prepared. It is a white amorphous powder and is more powerful than the article which has been used under the same name for some years.

THE PHILOSOPHER.

Sin is like a river which begins in a quiet spring, but ends in a tumultuous sea.

To become an able man in any profession whatever three things are necessary, which are nature, study and practice.

Do that which you judge to be right, whatever the vulgar may think of you. If you despise their praise, disregard also their censure.

The indolent are not wholly indolent. Though the body may shirk labor, the brain is not idle. If it does not grow corn, it will grow thistles.

Till we have reflected on it we are scarcely aware how much the sum of human happiness in the world is indebted to this one feeling—sympathy.

THE COLONEL.

The Turkish cavalry is admitted to be the finest in all Europe.

A new smokeless powder named plastomenit has been tested with great success in Bucharest.

While the nominal pay of a British private is a shilling a day, or 24 cents, he really does not receive much more than half that in actual cash.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 19.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

Midsummer Saturdays are proverbially dull days in the stock market. But especially so do they become when the market is such as the present one, narrow and professional, and when even the traders are exhausted and waiting for something definite to evolve from the situation. The news from Washington was more cheering and the reports from the country were marked by favorable features, though there can be said to be no perceptible improvement in the business and industrial conditions. But the money situation dominates everything else.

The Boston market was extremely dull. In the first five minutes following the opening only two sales were made, six shares of General Electric and eight shares of Pullman. General Electric opened at 35 and advanced to 38, while Pullman starting off at 148, fluctuated between that and 150, closing at the higher figure. Sugar gained ¼ at 73. Atchison opened ¼ up at 15, weakened to 14¾, and then rallied to 15¼. Chicago, Burlington and Quincy sea-sawed between 74¾ and 75, the former figure being the final sale of Friday. Union Pacific advanced to 17¼ and Bell Telephone to 179, gains of a point. Boston and Albany at 200¼ was ¼ stronger.

New York Cotton Market.

NEW YORK, Aug. 19.—Cotton dull; uplands, 7 5-16c; Orleans, 7 9-16c; sales 109 bales. Futures closed quiet and steady; sales 73,300 bales. August, 7.05c; September, 7.07c; October, 7.17c; November, 7.26c; December, 7.35c; January, 7.44c; February, 7.53c; March, 7.62c.

THE JESTER.

Too Young to Love.

In the summer,
When the bathers
On the beach
Loll about,
And the spooning
Couples seek the twilight shade
Just to spark,
Then the father
Of the pretty maid,
And young,
Will find out
That no fellow
Takes her often
For long strolls
After dark. —Club.

The Firm's Opinion.

A visitor was in a Jefferson avenue wholesale house the other day talking to a member of the firm when a well dressed young man passed in.

"Who is that?" inquired the visitor.

The member of the firm told him.

"Why," exclaimed the visitor, "I thought his parents were rich."

"They are."

"And can't he live without working?"

"Well, if he can't," replied his employer, with a significant smile, "he can come about as near to it as anybody we ever had in the store."—Detroit Free Press.

Truthful Men.

It is funny if you happen to be in a billiard room to hear two men as they pick up their cues remark one to the other. No. 1, as he chalks his cue, says, "I have not handled a cue for two years." And the other says, "Oh, I never play now; no time, you know." Then you know you are in the presence of two men who would sooner see the roof fall in than tell a lie.—Tit-Bits.

Couldn't Get Away From It.

He had heard the song till it pained his ear,
And he started for far Japan,
For he said to himself, "There I will not hear
The blasted thing that is always near
And makes me a dangerous man."

But scarce in that land had he set his foot
Than he staggered against a wall
And leaned with eyes wide staring, mute,
For he heard, to th' accompaniment of a lute,
A voice sing "After the Ball!"
—New York Press.

A Heavy Load.

"Look here, young man," said the medical practitioner. "If you ride a wheel so much, you'll get 'kyphosis bicyclistarum.'"

"On this wheel?"

"Yes, sir."

"Well," replied the wheelman, "if I do, one of us will have to get off and walk."—Washington Star.

CORPORATION NOTICES.

MAYOR'S OFFICE,
CITY OF NORWICH, Conn.

TO EITHER SHERIFF OF THE CITY OF Norwich,—Greeting:

A petition in writing signed by A. L. Potter and more than thirty others, all freemen of the City of Norwich, having been presented to me, the Mayor of said City, requesting me to call a special city meeting to consider the removal of the two buildings which adjoined the building lately removed from the junction of Thames West Thames and High streets and that the call should include the necessary resolution to enable said meeting to make the necessary appropriations for said object, and it having been voted at the last annual meeting of said City, that the mayor should include the matter of increased compensation for the police department in the warning of the next City meeting. You are therefore hereby commanded to warn the legal voters of the City of Norwich to City Meeting to meet at the Town Hall in said City, on the 1st day of August, 1893, at eight o'clock p. m., to take action upon the following matters:

First—To consider the matters contained in said petition.

Second—To authorize the Court of Common Council of said City to appropriate from the City treasury such sum of money as said meeting shall determine, in addition to any appropriation heretofore authorized to pay the expense of altering and widening Thames street in said City, near its junction with High street and also for the purpose of acquiring by the City the land of Daniel W. Grant and land formerly of William Maloney near the junction of said streets, or the easement therein necessary for the layout of a highway over the same.

Third—To authorize said Court of Common Council to appropriate from the City treasury such sum as said meeting shall determine in addition to any appropriation heretofore authorized, for additional compensation to the police department of said City.

Fourth—To lay a tax on the City list last made to raise the amount of money required to pay the appropriations which said meeting shall authorize said Court of Common Council to make.

Dated at Norwich, this 16th day of August, 1893.

CALVIN L. HARWOOD,
Mayor of the City of Norwich.

I certify that the above and foregoing is a true copy of the original warrant to me directed.

Attest— MYRON O. MORGAN,
City Sheriff of the City of Norwich.

NORWICH AND VICINITY

CITY NEWS

No church services were held in the Greeneville Congregational church Sunday.

The militia will leave this morning on a special train for camp Morris, arriving there at 10 o'clock.

The German Lutheran Y. P. society will make an excursion to Mystic Island on the steamer Ella next Thursday.

The new electric arc lights being put up are double carbon lights and only have to be trimmed three times a week.

Bony fish were in the river Saturday in large schools, and the steamer Wilcox was north of Mamacoke seining for them.

The New York & New England Railroad company will sell excursion tickets to Nantasket beach on Friday, the 25th inst.

William P. Potter and the Greeneville Botany club went on an outing Friday to Riverview farm, Uncasville. The party numbered twenty-three and filled a four-[illegible].

The 29th and 30th regiments of Connecticut volunteers will hold their annual reunion at Savin Rock on Thursday, August 31. Colonel William B. Wooster will be present.

Ferdinand Nowatsky received The Boston Sunday Herald at 3 o'clock Sunday afternoon. This is the first time this paper has been received in Norwich on the day of publication.

The lighthouse on the outside breakwater at Stonington has been provided with a new lantern. It is similar to the old one in everything except size. The new one will hold six gallons of oil, which will furnish a light for over a week.

There are some fourteen or fifteen tents upon the cliff just south of Gale's ferry, where representatives of the Hartford and Springfield Y. M. C. A. have camped for several seasons. It is as pretty a spot for camping as can be found on any river in New England.

The wharf at Gale's ferry is being repaired. That near-by and inviting resort is kept pretty and attractive. It grows more and more popular each recurring season to Norwich people, and familiar faces are always to be seen as one lands there from "the Rose of New England."

Among the new corporations recorded in the office of the secretary of state at Hartford, this week, was the Birch Island Camp. Co. of New London, incorporated August 19, 1893, without capital stock, for the purpose of forming camp and cottage homes at Lake Winnipiseogee, N. H.

The Unions met and defeated the Brotherhood base ball club on the Norwich Town green Saturday. The score was 8 to 1. The contest was one-sided, the Brotherhoods barely escaping a shut out by scoring in the seventh inning. The feature of the game was the battery work of the Unions, Pitcher Foster striking out fifteen men.

Mrs. Charles H. Wilbur, Miss Jennie Stewart and Daniel Butler, members of the degree team of Martha Washington Council of the Daughters of Liberty of New London, visited Faith Council in Lebanon Friday evening and assisted in the exemplification of the degree upon several candidates.

Several hundred men gathered at the dock Sunday afternoon for the open-air service. The singing was led by the Central Baptist choir. Rev. William F. Coburn, the evangelist, delivered a stirring address and awakened a serious interest in the work of Christ. In the evening Rev. Mr. Coburn spoke in the Central Baptist church.

A city meeting will be held in Town hall at 8 o'clock tonight. Consideration of the purchase of the Grant and Maloney properties at the junction of Thames, West Thames and High streets will be one object of the meeting. Increase of pay for police officers and the authorizing of a city tax to meet these appropriations will be voted upon.

Frank Moore, the young man who was seriously injured at the bleachery Friday, was carried to the steamer City of New York in the ambulance at 6.30 o'clock Sunday afternoon. Dr. Cassidy made him as comfortable as possible aboard the boat. He will be taken to Brooklyn, the home of his stepfather, for hospital treatment while he lives. His employer, L. F. Hawkins of Springfield, has paid the expenses incurred by the accident.

City Court—Kellogg, Judge.

The continued case of Frank Murphy for breach of peace ended in a verdict of guilty and a fine of $1 and costs. He paid the bill, amounting to $6.56.

Robert Hill was fined $2 and costs for drunkenness and settled for $9.18.

Arthur F. Fuller was adjudged guilty of drunkenness, and his payment of $3 and costs amounted to $8.66.

Black Bass Fishing.

Black bass fishing is yielding more than usual sport in Jewett City waters. Mr. Miller of Brooklyn caught a bass that weighed 4 pounds and 3 ounces. Mrs. A. O. Ladd captured one weighing 3¼ pounds. A. E. Swift caught one of 3¼ pounds, and to cap the climax Miss Jessie L. Swift caught three Friday weighing 4¼ pounds, one weighing 3¼ pounds. These last were caught by trolling.

A Car-Burning Bee.

On Friday on the east bank of the Thames river about a mile below the drawbridge a gang of men under instructions from the managers of the New York & New England road made a bonfire of a lot of old cars that had by long service, derailing and collisions been made worthless for repairing, and Saturday the old iron was gathered up and carried off for old junk.

The Most Befitting Place.

"Norwich has already many fine public buildings and many beautiful private residences," says The Westerly Tribune, "but the William W. Backus hospital and its environments, which are nearly in a state of completion, will prove a worthy ornament to this romantic city. It was the writer's good fortune to interview the buildings and grounds of this institution recently, and it seemed to him that nature could not have provided a more befitting place for its location than the one selected.

Off for Camp Morris.

Saturday morning Fred. K. Sprague and Frank C. Pattison with forty-two men left Norwich on the steamer Gypsy for Camp Morris at Niantic. They will cater for the Third regiment and staff and the Gatling gun corps, and must have everything in readiness for the soldiers when they arrive this morning. Their full force of men will number sixty, the remainder coming from Springfield and New London.

Tramps Increasing.

Since the mill shut-downs there has been a tremendous reinforcement of the tramps and the country roads and woods swarm with them. They forage upon the farms for a living, and the theft of produce, fruit and milk is disturbing the unprotected farmers in the rural districts in all parts of Eastern Connecticut. Half a hundred of them have been routed by the police from the woods in the vicinity of New London.

Principal for the Greeneville Schools.

Mr. Harmon B. Niver of New York has been engaged as principal of the Greeneville schools. Mr. Niver graduated from Rutger's college in the class of '88, and taught a year in the preparatory school at New Brunswick. Afterwards he took a post-graduate course at John Hopkins university, and for three years was principal of the Catskill high school. He has since been in charge of the Poughkeepsie military institute.

At the Dock.

The three-masted schooner which ran on Russell Rock Friday, was floated Saturday by the steam lighter Hercules, after the tug T. A. Scott had made several ineffectual attempts to draw her off. The schooner was loaded with 300,000 feet of white birch and was bound from Portland, Me., to Mystic. The cargo is consigned to the Allen Spool and Printing company. The schooner is now at the dock in Mystic and will unload today.

Funeral of Mrs. Melissa Pratt.

The funeral of Mrs. Melissa Pratt, late of Suffield, was held in the Greeneville Baptist church at 10 o'clock Saturday afternoon, City Missionary Swan officiating. The burial was in Yantic cemetery, and the bearers were O. B. Lee, A. B. Maine, T. A. Perkins and Edward Ingraham.

Mrs. Pratt was 83 years, 7 months old, and the wife of the Rev. Niles Whiting, who established the Baptist church, and died about the time the edifice was completed. Mrs. Pratt's only child, Andrew Whiting, was killed in the Park hotel explosion several years ago. Until within three years Mrs. Pratt had made her home in Greeneville. She was loved and respected by all.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Personal.

R. W. Hine and family will leave this morning for their new home in Dedham, Mass.

Roland Brown of Canton, Mass., has been in town a few days visiting his uncle, C. P. Cogswell, and other relatives.

Archie McNichol left New York Saturday afternoon for Glasgow.

Howard S. Davies of Prospect street will leave today for a vacation trip along the coast of Maine.

Miss Bessie Palmer of Norwich is the guest of Miss Maude Browning of Stonington.

Miss Lilian E. Luce has returned from Fishers Island, where she has been the guest of Mrs. W. M. Bushnell for the past two weeks.

Miss Lyle Flint is enjoying the sea breezes at Fishers Island as the guest of Mrs. W. M. Bushnell.

Mrs. Curtis Keeney of New London is visiting friends in Norwich.

Lieut.-Col. John Armstrong of the Third regiment has resigned. No election will be ordered till after camp.

Misses Gertrude and Jennie Waring of Worcester and Mr. and Mrs. Wm. Jardine of Dorchester, Mass., are visiting George Cherry of Fifth street.

Miss Marion C. Otis is at her home on Cliff street after three weeks of country life in Colchester.

Andrew Hislop left Saturday for a week's vacation in Springfield.

E. R. Corey returned Saturday from a pleasure outing of seven days in New York city.

James Dillaby of Cincinnati, Ohio, is a guest of Wm. Woodman of Prospect street.

Frank E. Holmes and wife of Lawrence, Mass., are visiting George Thresh, master mechanic of the bleachery.

Miss Nettie Neilson of Norwich is visiting Mrs. Martha Clancy of Stonington.

Mr. Gustave A. Jahn and wife and Miss Laura Jahn, of Preston, are stopping at the Pequot House, Block Island.

Mr. Charles Spaulding of Adams Express company is at Lake Pleasant, Mass., for the week.

Miss Minnie Spicer is the guest of Mrs. C. W. Clarke of New London.

Mrs. S. H. Thrasher and children are the guests of Col. W. H. Hayward of Colchester.

State Real Estate Transactions.

The New Haven Weekly Record for the current week shows a considerable falling off in real estate transactions, the decrease being quite general throughout the state. The details are as follows:

Real estate sales — New Haven 30, Bridgeport 20, Hartford 7, Waterbury 9, Meriden 9, New Britain 5, Middletown 3, Norwich 5, New London 4, Danbury 2, Norwalk 6, Ansonia 3, Shelton 2.

Real estate mortgages—New Haven $15,586, Bridgeport $36,727, Hartford $10,580, Waterbury $13,750, Meriden $8,080, New Britain $26,450, Norwich $20,000, New London $4,508, Danbury $2,561, Norwalk $3,800, Ansonia $3,000, Derby $1,000.

The total number of sales this week is 104, as compared with 140 for the preceding week and 105 for the corresponding week last year. The total of recorded mortgages is $157,539, as against $277,261 the preceding week and $196,451 for the corresponding week last year.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

"FERN COTTAGE" ROBBED.

Mrs. Barker Loses Sixty Dollars' Worth of Property.

The Arcadian security of the Willimantic camp was rudely disturbed Sunday morning by the rumor of a burglary during the night. While the family of Mrs. F. R. Barker was at evening service, their pretty home, "Fern Cottage," was entered through a second story window, and a watch, jewelry, wearables, etc., amounting in value to $60, taken.

Later, two empty jewel boxes were found in the swamp. Remnants of food also found strengthen the theory that the burglary was the work of boys, especially since four tough looking youths were seen in the neighborhood earlier in the evening. Chief Hillhouse of Willimantic was immediately notified by the camp police, Messrs. Bushnell and Gould.

LAUREL HILL PARK DESPOILED.

A Contemptible Display of Spite By Unknown Parties.

A fallen tree lying on the Laurel Hill park attracted the attention of residents in the neighborhood at 10 o'clock Saturday morning. Investigation showed that it had been sawed off near the ground, and that all the other trees in the park had been similarly treated, the incisions being effective enough to destroy the trees and yet leave them standing. The wind during the day and the rainstorm of the night, however, laid them all low.

The only inkling of the perpetrator of the outrage was in a board that had been placed above the sign prohibiting ball playing on the park. On it was the line "Play Ball." This seemed to indicate that the act was done by someone in spite at the changing of the tract from a ball ground to an ornamental park. The trees were purchased four years ago by the Laurel Hill community, and permission was obtained from the city authorities to plant them on the park. A fountain was also erected there, and several beds of flowers have been set out each year, thus making the most beautiful park in the city of an unsightly lot.

The sign was removed by order of the police department, and the mayor was notified. Every effort will be made to bring the culprits to justice, although they are unknown as yet. Some of the residents of Laurel Hill freely confess there are citizens mean enough, who live near the scene of the crime, to do the deed.

BURGLARIES AT THE WEST-SIDE.

Three Stores Entered—The Burglar Escapes From the Police by Jumping Overboard.

Officers Kane and Toomey were returning to their beats after lunch at the police headquarters between 2 and 3 o'clock Sunday morning when a noise in the store of S. Comstock on Central wharf attracted their attention. A match was lighted and held in front of the door and some one was heard running across the floor and getting out of the window. The officers hastened after the man down the wharf, and hearing a splash in the water Kane discharged his revolver. The fellow had dove into the Thames and was swimming to the west bank.

In the darkness and rain of the night no trace of the man could be found. An investigation showed a half eaten lobster in Comstock's market, and in other stores in the vicinity traces of the burglar's work were found. From Appley & Jordan's a box of cigars was taken; from Peckham's market about 25 cents in change was missing; but in the Coplan dry goods store he made his largest haul. Clothing, shirts, neckwear, stockings and jewelry were gone and $20.86 in cash.

The burglar entered all the stores by a ladder to rear windows. After robbing the clothing store he went to a shed belonging to E. Chappell & Co. and changed his garments, leaving the old ones. This morning the police found a water-soaked necktie hanging on a back fence on Thames street, and later picked up in back yards in the neighborhood a hair brush, mirror, rings and other jewelry. They make an interesting collection at the police headquarters.

OCEAN PARK.

New London Setting Norwich a Good Example.

The rapid development of Ocean park at what was formerly known as "White Beach," New London, surprises visitors from Norwich. The work being done, and that contemplated, shows that New London has live men and is under good leadership. The third of a mile of beach and eight acres of land at the north end and two acres at the south end of the forty acre lot belonging to a New London syndicate, is owned and controlled by the city. Since June, twenty-five handsome new cottages, a hundred bathing houses, pavilions, a shore-dinner house, walks, etc., have been built, at an expense of $30,000. A mud-digger is engaged widening Alewive brook to forty feet, with a depth of six feet in the rear of the property, and the sand being taken out is being used to grade the marsh up a foot and a half to make it available for cottage lots. This waterway will afford pleasant boating. An island of four acres is to be connected to the main land with bridges and laid out for sports and racing contests. A large lot to the rear is reserved for cottage lots, and a casino with bathing privileges for the cottagers is to be built next year, also two more pavilions for public use. All the lots are being sold subject to restrictions, and no liquor is permitted sold on the property. It is an attractive, accessible, quiet and pleasant place, and next season there will be three visitors from out of town where there has been one this year. Norwich needs an attractive park right on the banks of the Thames, and we hope the day is not far distant when she will have it, and New Londoners will come to Norwich for an enjoyable day off, as Norwich people find pleasure in visiting the city at the mouth of the Thames.

TAFTVILLE.

Messrs. Baker and Weller have returned from a visit to the World's fair.

Mr. George Walker left Friday evening for New York and Saturday took a steamer for Scotland.

Mr. Samuel Kinder is visiting friends in Pawtucket, R. I., for a few days.

Mr. John Sharples spent Sunday with his daughter, Mrs. Caldwell of New London.

Mr. Walter M. Ross spent Sunday with friends at Pleasure beach.

Mrs. Thomas Beardow and daughter Anna spent Sunday at the camp grounds, Willimantic.

Mr. Frank Allen of Waltham, Mass., is visiting his sister, Mrs. M. B. Prentice.

Mr. James Smith has returned to his home in Boston.

A grand game of ball was played in this place Saturday morning between the first and second nines and was won by the latter by a score of 10 to 7.

MARRIED.

HOSKINS—NOSS—At Trinity church, Asbury Park, Aug. 17, by the Rev. John Hardenbrook Townsend, of Atlantic City, Wm. H. Hoskins, of Philadelphia, and Mrs. Isabell Noss, formerly of Norwich.

DIED.

WILSON—In Willimantic, Aug. 19th, Mrs. Lucy R. Wilson, aged 87 years.

There will be a prayer at the house of George M. Harrington, Willimantic, on Tuesday morning, Aug. 22, at 9 o'clock, after which the remains will be taken to the residence of Frederick Harvey, Hamilton street, Preston, where services will be held at 2 o'clock in the afternoon. Relatives and friends are invited.

YACHT VOLUNTEER ON THE ROCKS.

The Seas Making a Complete Breach Over Her.

FULL OF WATER.

Tug Right Arm Goes from Woods' Holl to Her Assistance.

New Bedford, Mass., Aug. 21.—Steamer Gay Head, which arrived in port tonight from Cottage City, reports seeing the famous steel schooner yacht Volunteer on the rocks at the entrance to Hadley's harbor, Naushon.

The Volunteer, which had been riding out the gale with topmasts housed and anchors down, had evidently dragged ashore.

The captain says the schooner was being pounded on the sharp rocks, and that the seas were making a complete breach over her. She looked to be full of water.

The tug Right Arm went from Woods Holl to the assistance of the wrecked yacht.

The gale has moderated, but Captain Daggett fears that the sharp rocks punched holes through the Volunteer's bottom.

Captain Daggett also reports that a schooner yacht dragged anchor on Steward Island, from the harbor near Woods Holl, and that a small fishing schooner was driven ashore at Penzance.

DEPENDS UPON THE PILGRIM.

A Movement on Foot to Sail the Corinthian Yacht Club Race.

Newport, R. I. Aug. 21.—A movement is on foot to pull off the Corinthian Yacht club race this week. It will probably occur Wednesday or Thursday. If the Astor cup race is sailed tomorrow, the Corinthian may occur Wednesday. It depends entirely upon the Pilgrim and her willingness to enter. The owners of both Boston boats concede that they need time to gain racing trim, and they are anxious, as are the owners of Colonia and Vigilant, to get a breathing spell. Jack Astor has required that the Pilgrim be let into the Astor cup race tomorrow, and it is said tonight that the regatta committee will admit her. This additional entry will make five in the race. It is doubtful if to-morrow's weather will be favorable for a race, as the wind has gone down.

The probable date of the Corinthian yacht race is Thursday, August 24, and Pilgrim will start in it. The Corinthian sailing committee has consulted the owners of the cup defenders and their convenience, and makes this arrangement simply as a courtesy to them. The Pilgrim's racing tomorrow is a boon of the same favor, and it comes very gracefully from the contestants and others in the parties, as it shows a most sportsmanlike spirit. It gives Pilgrim another chance.

SEVERE AUGUST STORM.

Heavy Rain—Fences, Wires and Trees Blown Down—Cellars Flooded.

Chatham, Mass., Aug. 21.—The most severe August storm known for many years has raged today, a gale from northeast, accompanied by heavy rain, blowing down fences, telegraph wires and great trees, flooding streets, cellars, etc.

An unknown schooner from the eastern shore, bound west, attempted to cross Pollock Rip shoal and had a narrow escape from loss of vessel and all on board by grounding on a shoal, where she remained nearly two hours, pounding heavily.

The fishermen at Monomoy felt certain all would go to destruction, and were intending to make an effort to save them if possible, when the vessel was unexpectedly driven across the shoal into the deep water beyond and proceeded westward under short sail, probably leaking.

LONGSHOREMEN ON STRIKE.

Over 1,000 of Them Refused a Cut Down on New York Piers.

New York, Aug. 21.—Over 1,000 longshoremen struck today on the piers of the Mallory, Ward and Clyde lines along South street against a reduction in their wages.

On the Mallory line pier the men were notified that hereafter the company would pay only 25 cents an hour instead of 30 cents, as has been the custom.

On the Clyde line docks the men were told that they would hereafter receive only 25 cents an hour for day work and 30 cents an hour for night work.

At the Ward line pier the men, 600 in number, were also informed that their pay hereafter would be 25 cents an hour for day work and 30 cents an hour for night work.

The men protested and quit work in a body. On all the piers of the companies named work is at a complete standstill, with the exception of pier 29 of the Clyde line, where a number of Swedes have been secured at the reduced wages.

British Brig Sunk Off Block Island.

Philadelphia, Aug. 21.—The British brig J. A. Horney, from Black River, Jamaica, for Providence, with 225 tons of logwood consigned to Baring Bros., was sunk off Block Island on the night of the 18th inst. by the schooner Louis H. Randall, from New Bedford, on which vessel the crew and pilot of the sunken vessel were brought to this port today.

The crew had a narrow escape from drowning. The men were rescued by the Randall's small boat, in charge of Mate Josiah Pearson. Pilot Hooper jumped overboard from the Horney and swam to the schooners. Both captains agreed that the collision was due to the hazy weather. The lost vessel was owned in North Carlisle, N. S., by James Stephenson. All hands lost everything but what they had on.

Life-saving Station Keeper Disappears.

Chatham, Mass., Aug. 21.—Considerable anxiety is felt here over the departure from town of Capt. N. T. Gould, keeper of Chatham life saving station, who disappeared Thursday. A letter was received today from New York saying that he was there, that he should never return, and that he had sent his resignation to General Supt. Kimball. He has a large number of friends hereabouts and in Boston, among the shooting fraternity. It is probably a case of mental derangement.

The Saratoga Races.

Saratoga, N. Y., Aug. 21.—First race, five furlongs. Pirate King first, Why Not second, Red Cross third. Time, 1.07½.

Second race, seven furlongs. M. Gajlledo first, Highland second, Racine third. Time, 1.31½.

Third race, five furlongs. Flirtation first, Princess Himyara second, Strathflower third. Time, 1.05.

Fourth race, one mile. Don Fulano first, Martyrdom second, Elizabeth third. Time, 1.45¼.

IN CONGRESS.

The Senate.

Washington, Aug. 21.—In the senate to day numerous bills which had been introduced and were pending in the last congress were reintroduced and referred to committees.

A substitute for the National bank currency bill was offered by Mr. Peffer (pop.) of Kansas, proposing the issue of $350,000,000 of treasury notes to be deposited in the treasury and to be available as cash.

A resolution was offered by Mr. Chandler (rep.) of New Hampshire, declaring that there was no lawful election of United States senator in Kansas when Mr. Martin was declared elected; also one looking to the opening of a coast line of waterways. These were referred to committees.

Mr. Morrill (Rep.) of Vermont then addressed then senate on the subject of silver. He said he did not yet abandon all hope of bimetallism, and therefore he should gladly vote for the repeal of so much of the act of 1890 as required the purchase of silver. It had not originally received any favor from him, and the wide distrust which it had excited should be speedily removed. After its repeal the country would not be dependent upon gold alone for currency, as there would be much more of silver than of gold, and more of paper currency than ever before, and as the silver dollar would not be demonetized whenever more silver could be coined and utilized without crowding gold to a premium, it would be done by universal consent; but the treasury should be relieved from its embarrassment of furnishing gold to pay for silver bullion.

At the close of Mr. Morrill's speech, which occupied a little over a hour, Mr. Voorhees presented a letter addressed to the secretary of the treasury, showing the probable cost of coinage of silver at a change of ratio, and had it read by the clerk.

The bill in aid of the California mid winter international exposition was discussed. It permits the removal of dutiable goods and of European workmen from Chicago to San Francisco.

The Lee Mantle case, involving the right of the governor of a state to appoint a senator in case the legislature failed to elect one, was to have been taken at 5 p. m. today, but the senate decided to postpone it until 5 p. m. Wednesday.

The case was taken up and Mr. Vance and Mr. George argued against the right of appointment in such cases.

After an executive session the senate adjourned.

The House.

Mr. Powers (rep.) took the floor in support of the repeal of the purchasing clause of the Sherman act. He referred to the Chicago platform and to the interpretation placed upon it by various democrats. The gentleman from Pennsylvania (Mr. Sibley) had referred to the Saviour of mankind as the first democrat, and had taken the utterances of the Saviour as his platform; the gentleman from Massachusetts (Mr. Everett) had taken Grover Cleveland as his platform and had gone around his district singing at the top of his voice "Oh, isn't he a dandy." Mr. Powers argued that the purchasing clause of the Sherman bill was vicious in principle and dangerous in application. If free coinage were adopted the gold bugs could corner the market just as easily as they could today. It did not do merely to say that the republican party was responsible for it. The only solution of the problem was to suspend the coinage of silver, which the world had discarded, until we could bring the world to its senses. Then the nations of the world would come to recognize that there was not gold enough in the world to act as currency and they would come to a bimetallic basis.

Mr. Hooker (dem.) spoke against the repeal, believing that no relief would come to the country from repeal. The president had stated, he said, that the depression came from a lack of confidence. The lack of confidence was not in the people, but because the currency of the country was being locked up.

The free coinage of silver would not give absolute relief, but it would give relief to a very great extent.

The debate was suspended to allow the speaker to announce the committees for the present congress.

On motion of Mr. Bland, Friday was set apart for debate on the Wilson bill instead of debate on the five minute rule. Mr. Cooper (dem.) spoke against free coinage of silver. To repeal the purchasing clause, he said, would lift silver up and make it equal to the gold dollar. He also argued in favor of repealing the tax on state banks.

Mr. Alexander (dem.) advocated free silver coinage and spoke for a larger currency.

Mr. Sperry (dem. of Conn.) opposed free coinage and advocated the Wilson bill. He called attention to the fact that when the ratio of 16 to 1 was adopted the fight was upon the question whether the ratio should be 15½ or 16 to 1. Now the silver men did not seem to care whether the ratio should be 16 or 30.

Mr. Cox (dem. of Tenn.) argued on the pending bill. He was speaking, he said, in behalf of the poor colored men of his country. He spoke throughout in favor of the bill.

The house then took a recess until 8 o'clock.

At the evening session Mr. McLaurin (dem.) spoke in opposition to the Wilson bill and in favor of free coinage of silver. He said the breeze which swept the republican party out of power would be nothing to the cyclone which would sweep the country if the democrats were unfaithful to the pledges of the platform upon which they had been elected. If the great power of the executive was to be used to strike down one-half of our currency it was too dear a price to pay for party triumphs.

Mr. Bartlett (Dem., N. Y.) said that his constituents all demanded that the purchasing clause be unqualifiedly repealed. Without international agreement there could be but one standard and that was gold.

Mr. Strickdale argued that the situation was attributable primarily to the tariff. In 1897 the democracy would come here with a democratic president, a democratic house and a democratic senate and it would take the free coinage of silver home with it.

The house then adjourned.

The New Gunboat Castine.

Washington, Aug. 21.—Arrangements are being made at the navy department for the trial trip of the new gunboat Castine. The vessel to day left Bath, Me., where she was built for Portsmouth, N. H., to go into dry dock there. The trial will occur about September 1, over a course not yet selected.

Fourth Class Postmasters.

Washington, Aug. 21.—The total number of fourth class postmasters appointed today were 114, of which 61 were to fill vacancies caused by resignations and deaths.

NEW HAVEN MALPRACTICE VICTIM.

The Doctor and a Young Man of Ansonia Arrested.

MISS MAGGIE SCHLOSS,

Daughter of a Blacksmith of Ansonia—Parents Grief-Stricken.

New Haven, Aug. 21.—William Cash, 22 years of age, is held in the Central lockup here pending an investigation into the death of a young woman at the Dayton house this morning.

Cash registered at the Elliott house Saturday night with the woman as man and wife. Some time later they went to the Dayton house on Wooster street and registered as brother and sister.

This morning the woman died at that hotel. She was found in an unconscious condition and died before physicians could be summoned. Medical Examiner White after an investigation recommended that Mr. Cash be held. Accordingly he, Cash, was locked up.

He is presumably an employe on The Ansonia Sentinel. Immediately upon being arrested he telegraphed to the proprietor of that paper, stating that he was detained in New Haven on pressing business. He also requested that certain orders be given in the composing room of that paper.

Young Cash went to the Elliot House on Wednesday last, at 11 30 p. m., with Annie Schloss, aged 18, who lived with her parents at No. 84 Clinton street, Ansonia. Cash has charge of a large newspaper route in Ansonia and Miss Schloss was accustomed to accompany him frequently. This she did last week. On arriving at the Elliot House, Cash registered for both, writing on the hotel register, "John Buxton and wife of Albany, N. Y."

Thursday night the girl was taken sick and Dr. John E. Lee of Olive street was called in. Dr. Lee is a newcomer in New Haven. Yesterday noon, for some reason not yet known, presumably on account of expense, the couple went to the Dayton hotel, a well-known theatrical house on Wooster street. There Cash registered as J. H. Benton and sister of Hartford. The girl died during the night. Dr. Lee gave as the cause of death, uraemia.

Upon investigation, Medical Examiner White discovered enough to warrant speedy action, and he ordered the arrest of Dr. Lee on a charge of malpractice. Sergeants Riley and Cowles arrested the doctor and he is now locked up without bail.

The case promises to develop into as serious a one as that of Nellie Nesbitt, for whose death the aged Dr. Pulford is charged with being responsible.

Ansonia, Conn., Aug. 21.—Maggie Schloss, who died under suspicious circumstances at the Dayton house in New Haven last night, is the 18-year-old daughter of George Schloss, a blacksmith employed at the Farrell foundry. Her family is very respectable and she always bore a good reputation.

She left home Wednesday night, telling her mother that she was going to a whist party in Buckingham. Nothing further was heard of her by her parents until they learned this morning that she had died. They were grief stricken by the death of their daughter under such shameful circumstances, and the mother was overcome. She said the girl had complained for some time of not feeling well and said she had a sore throat and a pain in the side.

WILL THE FAIR PAY?

Stockholders Expect Nothing, But Hope to Meet All Debts.

Chicago, Aug. 21.—The question often asked at the present time is, "Will the World's fair be a success financially?"

It is not meant by the question to ascertain whether the stockholders will be paid, for it is known definitely that they will receive little or nothing, the only hope possessing the directors now being to meet the debt of the corporation, and come out with a clean bill of health.

There are debts amounting to many hundreds of thousands of dollars owing to contractors and others who did work for the exposition company, and in addition there are preference or debenture bonds amounting to $4,444,500, for which gate receipts have been pledged.

Much comment has been caused by the determination of the directors to pay the holders of the bonds, or some of them, before satisfying the claims of the contractors who built the fair, but no explanation can be given on this point.

At the present time the debts of the exposition company amount to $5,300,000 in round numbers, to meet which they have several hundred thousand dollars on hand, but just how much it is impossible to say.

Seventy-five days remain until the gates are closed, and at a gross estimate of $20,000 per day the operating expenses will foot up $1,500,000, which will about swallow up the amount the fair directors expect to receive for salvage when the buildings are torn down.

At these figures the directors will hardly be able to pay all the debts, but it should be remembered that as the crowds are increasing all the time the receipts for the coming two months and two weeks ought to more than equal those of the first three months.

If they do the directors will be enabled to just about come out even on the indebtedness, leaving nothing for the stockholders.

Old Man Killed by a Stallion at Simsbury.

Simsbury, Conn., Aug. 21.—James Turnbull, a well-known citizen of this town, was killed by a stallion yesterday afternoon. He had apparently gone for some purpose into the box stall occupied by the stallion, when the animal attacked and killed him. His body was badly mutilated. He was 74 years old.

Robbed of $50 and a Gold Watch.

Gardner, Mass., Aug. 21.—Milo Fullard of Baldwinville, while driving home last night at 10 o'clock, was held up between his stable and house by two highwaymen, who put revolvers to his head and demanded his money. On his refusal they robbed him of $50 and a gold watch valued at $40, and told him to drive along and make no alarm. They have not been caught yet.

Orders Issued to Sub-Treasuries to Pay Out Gold.

Washington, Aug. 21.—Orders have been issued by the treasury department to all sub-treasuries to pay out gold the same as other classes of money. The effect of this is to practically place the gold reserve among the available cash assets. As a result the gold balance had been somewhat reduced, being slightly below $100,000,000. The net treasury balance is $11,750,000.

A UNIFORM PAY SCALE.

Fall River Treasurers Meet and Discuss Question of Wages.

Fall River, Aug. 21.—At a meeting of prominent mill treasurers held this morning it was voted to appoint a committee to go to Boston to discuss the trade situation with other New England textile manufacturers, and also to endeavor if possible to secure a uniform schedule of wages to be paid in the cotton industry.

It is stated on the best authority that a reduction of 20 per cent. in the wages paid here will be made as soon as the mills resume operation.

This reduction has been under advisement since the expiration of contracts in July, but was not advocated strongly, owing, it is said, to a hope that business would improve as soon as congress met.

The print works of the country are carrying 3,000,000 pieces of goods, and this vast amount is not represented by the 800,000 pieces held in the gray in this city. The time for the placing of fall contracts is rapidly going by, and the treasurers see no possible hope of an improvement before the last of the year.

It is known generally that wages here are higher than in other manufacturing centers and a readjustment has been considered for several months. Before certain treasurers resume operations, which in any event must mean the accumulation of goods, they want to be assured that their goods will not have to be disposed of at an unprofitable rate.

It is not possible, they say, to manufacture regular goods at 2⅝ cents, the actual selling figure today, and the only place they see to economize is in cutting off wages in all departments.

It is proposed to cut down the price of weaving from 21 cents to 16½ cents per cut, and other wages in the different departments will be cut in the same proportion.

Should business pick up within a few weeks action on the schedule will be deferred, but sooner or later a readjustment will be enforced.

Todays' meeting lasted only a half hour, but the outline of proceedings was pretty generally understood before the treasurers convened.

HEBREW ANARCHISTS.

Meeting at New York—Several Incendiary Speeches Made.

New York, Aug. 21.—There was a meeting of Hebrew anarchists at Covenant hall in Orchard street this morning. Several men made incendiary speeches in Hebrew. There was another meeting in Covenant hall this afternoon. The first speaker denounced the authorities. When a reporter walked the into hall the speaker said the crowd should kill the reporters of the press. Several times during the meeting there was a similar demonstration toward the reporters, who paid no heed to it.

Another speaker said the present condition of the workingmen was entirely due to the democratic administration.

When Emma Goldman entered the hall she was cheered.

Later in the afternoon there were two meetings going on simultaneously in Covenant hall, one on the first floor and the other on the second floor. One of the speakers advised his hearers to ask no more work. If they wanted bread, he said, they had to go and take it and let nobody and nothing stop them. They should fight all opposition.

Emma Goldman, who spoke at the other meeting, was more rabid in her utterances than ever. She told her hearers to remember the fate of the men killed at Homestead by the Pinkertons.

She told them that if they went to another meeting at Union Square, not to even look at a policeman. Then she capped that with the advice "don't go to Union Square to-night unless you are armed." Emma Goldman was constantly interrupted by applause. A young man who spoke afterwards said the Jews should not work with the Christians, and more particularly they should not affiliate with Irishmen, as Irishmen were owned by capitalists.

There were more people, more speakers, more police, more platforms and more hard language in Union Square tonight, at the second open-air mass meeting of the unemployed, than on Saturday night, when the rain dampened the ardor of the most hot headed. Emma Goldman made harangues in two languages, and denounced the president and congress, police and Pinkertons, reporters and their capitalistic employers.

She referred to the fate of Alexander the Second of Russia and entreated her hearers to take sticks and stones and show the hard-hearted American public what they could do. The police were referred to as the ghouls most to be dreaded after nightfall, and the public press came in for a scorching as the natural enemy of all the unemployed people in the country. The crowd of 3,000, however, kept its wits.

It was a quiet meeting, and when it ended the crowd dispersed peaceably.

New Connecticut Congressmen Stand on the New House Committees.

Washington, Aug. 21.—The desire to placate Mr. Springer by giving him a place to compensate him for the loss of the chairmanship of the ways and means committee, worked to the disadvantage of Mr. Sperry. Mr. Springer was given the chairmanship of the banking and currency committee, and Mr. Sperry has to be content with his old place as deputy chairman. Mr. Russell is also placed on the same committee, as well as on his old committee, reform of the civil service. Mr. Deforest gets a chairmanship, that of the committee on reform of the civil service. He is also made a member of the committee on patents. Mr. Piggott is appointed on revision of the laws and merchant marine and fisheries.

Important Sale of Trotters at New Haven.

New Haven, Conn., Aug. 21.—One of the most important trotting horse sales that has taken place in this state, occurred in this city Saturday. The Hubinger Brothers sold all of their leading horses, among others C. T. L., chestnut gelding, with a record of 2.23¼; Budd Doble, gray mare, 2.29¼; Mary Karr, brown mare, 2.28¼; Eunice, brown mare, 2.33¼; Aggie, bay mare, 2.23¼; Lady Maud, gray mare, 2.23¼. These horses were sold to a Worcester horse man whose name is withheld for a few days. The price paid was $10,000. The sale means the retirement of the Hubinger Brothers from the track.

One Branford Candidate for State Normal School.

Bridgeport, Conn., Aug. 21.—Only one candidate, Miss Robbins of Branford, appeared today at the high school to take the examinations for entrance to the new state Normal school at New Haven.

The French Election.

London, Aug. 21.—Some papers here have made a list of the results of the French election, as follows: Republicans 312, socialist radicals and socialists 80, the "rallied 12, conservatives 50.

RT. REV. BISHOP M'MAHON DEAD.

Expires Suddenly at Lakeville, Conn., Monday Evening.

END TOTALLY UNEXPECTED.

Was En Route to Saratoga for His Health—Sketch of His Career.

Hartford, Conn., Aug. 21.—The Rt. Rev. Bishop Lawrence McMahon, bishop of the Roman Catholic diocese, died suddenly at Lakeville, Conn., at 9.30 tonight.

He left this city last Tuesday for Saratoga for his health, and stopped over at Lakeville, evidently intending to make the journey by easy stages.

Word was received early in the evening that he was seriously ill, but the announcement of his death was totally unexpected.

Bishop McMahon was born in New Brunswick in 1835 and came to this country when four months old. His early education was obtained in Boston, and afterwards he entered the Holy Cross college at Worcester. He continued his course in Montreal and St. Mary's seminary, Baltimore. He began his theological course at the college of Aix and completed it at Rome, March 24, 1860. He was first stationed in the cathedral in Boston, and in 1863 accompanied the Twenty eighth Massachusetts regiment to the field as chaplain.

After the war he was appointed first pastor at Bridgewater, and later on was transferred to New Bedford. When Providence became a separate see in 1870, Bishop Hendricks appointed him vicar general, and the next year he received the degree of doctor of divinity from Rome. He remained fourteen years at New Bedford, until he was chosen for the see of Hartford and consecrated on August 10, 1879. He went to Europe for his health in April, 1891.

WINDY CAMP MORRIS.

A Hurricane at Niantic Blows Down the Tents.

Niantic, Aug. 21.—A terrific hurricane prevailed here this morning and made playthings of the tents. Those of the Second regiment were blown down, and as fast as they were replaced were blown down again. The Y. M. C. A. tent of the state association was also leveled. No injuries are reported.

The storm raged until noon, when it slightly abated.

Guard mount was established at 3 o'clock, and at 4 the Fourth and Second regiments began guard drill.

TOO MUCH OF A GALE.

Again the Yacht Races Have to Be Postponed.

Newport, Aug. 21.—The annual sweepstakes race of the New York Corinthian Racing club has been postponed on account of the thick mist and flying spray which makes it impossible to see a mark outside, even if the heavy sea would not shatter a mark float almost as soon as it was placed in position.

In all probability the regular August gale has set in here and the sweepstakes race has been deferred to some date between August 28 and September 10, with two days' notice.

Three Horses Stolen.

Hartford, Conn., Aug. 21.—The police were notified this afternoon of the stealing of three horses from M. H. Sanford of Tariffville on Sunday night. A pair of cream-colored horses had black manes and tails, and weighed 2,400 pounds. A black horse was also stolen. There is no clue to the thieves.

Hartford Business Outlook.

Hartford, Conn., Aug. 21.—A tour of this city this morning shows that the unemployed are proportionately less than in other cities. So many specialties and necessities in the nature of iron and steel manufacture are made here that the pinch of hard times has not been felt so severely as in other places. Between 1,000 and 1,500 are out of employment or working on short time. At the big shops business is fair, and were it not for the difficulty of obtaining currency would be considered good. Most of the big concerns are running full time. The silver plate industry is the flattest and 300 in that business are out of work.

Hartford Electricians Are Not Sailors.

Hartford, Conn., Aug. 21.—B. Archer, George Warner, Charles R. Reynolds and T. H. Day, all electricians, started for Middle Haddam for a week's cruise in a 25 foot yacht on Saturday night. At 2.30 o'clock, when opposite Wethersfield Cove, the gaff rope broke aloft, the yacht capsized in the channel. Two feet of her mast remained above water. Day swam ashore for aid. Reynolds attempted to swim ashore, but became exhausted and was rescued by a man in a rowboat. Yesterday the yacht was drawn into shallow water. Day's limbs were bruised badly and yesterday he had a congestive chill.

Ocean Steamers.

London, Aug. 21.—Arrived: Carthagenian, from Montreal, off Dunnett Head; Diamant, from New York, off the Scilly Islands; Shearness, from Philadelphia, off the Lizard; Norse King, from Montreal, at Antwerp.

New York, Aug. 21.—Arrived: Ethopia, from Glasgow; Ems, from Bremen; Weimar, from Bremen; Brilliant, from Hamburg.

Sailed—Cubic, for Liverpool.

LOCAL NOTICES.

Mosh's patent fastener will secure your house from sneak thieves.

Welcome A. Smith has olives in bulk and bottles, of different styles and quality.

See if there is anything in Hough's advertisement today that comes pretty near your wants.

Light-weight all wool underwear at Smith & Gilbert's. Agents for Dr. Jaeger's sanitary woolen goods.

John W. Herren is selling boots and shoes at low prices. He is also agent for the W. L. Douglas $3 shoe.

T. E. McClenathan is offering trimmed hats at a big reduction. Also special value in trimmed sailors. See advertisement.

This being the last week of the blue-letter sale at B. Gotthelf & Co.'s, they have added a few more bargains to the list, which are worthy of attention. See advertisement.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

City Court—Kellogg, Judge.

Joseph T. Cunningham prosecuted two cases in the city court Monday for intoxication. They were Mary A. Thompson, fined $5 and costs, $13.45; she was committed to jail; and George Delight, liberated on payment of $3 and costs, $9.63.

A Surprised Pastor.

The Rev. F. B. Oese of the German Lutheran church is feeling particularly grateful since his return from Block Island. During his absence the Young Endeavorers of the parish procured sufficient money to purchase a fine kitchen stove and handsome extension table, with other useful household goods, as a gift for him, and an earnest of their good feeling and esteem. They received in return the heartfelt thanks of their pastor.

Robbed Again.

The Barker cottage on the Willimantic camp ground was burglarized again on Sunday night. The previous night about $60 worth of jewelry, etc., was taken, and the family went to evening service philosophically remarking that theirs would surely be the safest cottage on the grounds, since it had so lately been rifled. Monday morning they awoke to find that an outside pantry had been looted, food, canned goods and even milk being taken.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

The New Paper Mill.

The new paper mill at [illegible]meville is nearly completed. The work on the two engines and a large pump will be finished this week; and the pipe-layers are already at work. The setting up of the two engines and pumps is superintended by Mr. Olcott, engineer at the cutlery works, and the owners may feel confident the job when done will be well done. It is a handsome plant, and will give employment to about thirty men when running at its full capacity. They expect to start up early in September.

Election of Officers.

The Connecticut Spiritualists association held a meeting at Niantic Sunday and elected officers as follows, who will assume their duties January 1, 1894, the election of president being postponed: First vice-president, Orrin Morse of Putnam; second vice-president, Mrs. E. R. Davis of Putnam; secretary, Jonathan Hatch of South Windham; treasurer, C. M. Platt of Waterbury; board of managers, D. A. Lyman of Willimantic, R. F. Stanton, of Windham, Charles Peckham of Yantic, E. M. Lyman of Springfield, Mass., D. A. Crocker of Meriden, Mrs. A. E. Merriam of Hartford, Almus Dorman of Willimantic. The secretary and treasurer are ex-officio members of the board of managers.

Connecticut Entries for Massachusetts Fair.

In the list of entries for the Worcester fair appears the name of F. H. Andrews of Putnam, herd of fourteen Guernseys, and poultry (two entries); Fred S. Fosdick, North Lyme, Devons, sheep and fat cattle; J. B. Palmer, Jewett City, Guernseys, graded stock, sheep, and herd for butter; Wm. Lord, Stonington, sheep; J. F. Freeland, Montville, trotting-bred stallion; and C. W. Comins, Stafford Springs, poultry.

Niantic Man Sues for Damages.

As a result of the attachment of the steamer Martin of Niantic, J. M. Logan has entered suit against Mrs. A. L. Potter of Danielsonville and Louis Hollingsworth of Providence, for injury to his reputation. The case was to have been tried at the September term of the Windham county superior court, John C. Geary and Henry F. Rogers for the plaintiff. A settlement now has been offered by the defendants on terms which will doubtless be accepted by Mr. Logan.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

GREENEVILLE SCHOOL CHANGES.

Improvements in the School Buildings Made and New Teachers Secured.

The present committee of the Greeneville schools are resolved that the district shall have all the improvements and advantages that can be secured, consistent with economy.

Both school buildings have been thoroughly renovated. In the brick school house both flights of stairs leading to the fourth story have new treads in place of the old ones, which long years of use had nearly worn through. All the wood work in the building has been cleaned and redressed, as well as the organs and teachers' desks. The two boilers have been disconnected and will be run separately.

Miss Annie Coffee will take the room vacated by Miss Lucy Arnold, and Miss Margaret Vetter, a graduate of the Academy Normal school, will occupy room No. 2. For the old building the new teachers are Miss Mary McLaughlin and Miss Katie Coughlin.

Mr. Herman B. Niver, the new principal, has had a very successful career as an educator. His devotion to study and manly bearing while in college secured him the respect and affection of all his instructors. His character and the spirit with which he teaches, as well as his experience, should secure for him success in Greeneville.

Miss Matilda Taylor has been engaged to teach music and drawing.

From room nine down the salaries of all the teachers in the grammar department have been increased.

The committee have looked into the matter of establishing a kindergarten and hope to see it introduced when it is deemed best.

THE ASPINOOK COMPANY'S DAM.

How Built—What Built of.

What has been known from the beginning of local history as "the falls," a little above the village of Jewett City on the Quinebaug river, was so named by reason of the water being intercepted in its steady flow above and below, by a ridge of rock that extended diagonally across the stream to the hills on either side, a distance of about 600 feet. About 250 feet of this distance was the river bed covered in part with water all the year and wholly when the stream was high.

On this ridge of rock the dam is being built. The roll-way is to be 500 feet, the head-gates occupying some sixty more. The east part of the dam, something more than one third of the whole, was build wholly on dry land.

The rock was uncovered and cleaned the required width, and then logs were fitted to the irregularities of this natural bed as well as they could be; then holes were bored in these logs, and a hole drilled in the rock beneath into which a heavy iron dowel was driven, pinning the log to the rock. Then between the bottom of the log and the rock cement was crowded which when dry is scarcely less hard than the rock itself, thus forming a water-tight foundation on each side. Then between the outside logs others are laid and pinned to the rock as before. Then other logs are laid crosswise about four feet apart and pinned to them, the sides being made to slant at an angle of perhaps forty degrees, until the top is reached, which is six feet wide.

After the timber is laid, the interstices between the logs are packed with stone so that the structure is logs, or square timber, laid four feet apart lengthwise and four feet apart crosswise, with the spaces between the logs or timber as nearly solid stone as careful packing can make it.

These are the bones and we may say bowels of the dam. Now comes the covering. The side timbers are hewed so that they can be boarded like the roof of a house, with this difference, that the boarding runs up and down instead of lengthwise. This boarding consists first of inch boards, on which four inch plank are "scribed" to the rock, and over this bottom cement is laid sufficient to prevent any possible leakage. When this is down the upper side is to be graveled from the top perhaps 80 feet out, so that undermining is an utter impossibility.

After all this, course gravel will be put upon the six-foot space on the top of the dam and then be washed in to the crevices of the stone and wood below, so that the whole internal structure will be one compact mass of stone and wood and gravel. Then the top flooring, four-inch oak plank will be laid, and the dam is done.

When the water passes over the dam it will fall on a foundation of solid rock all the way, and careful calculators say, that the resistance of the dam will be at least fifty times greater than the pressure of the water above it.

The width of the bottom of the dam at the lowest point in the river's bed is about 65 feet. This is the base of the pyramid. Its heighth here is 23 feet. It will take between 400,000 and 500,000 feet of lumber to finish the whole, inside and out; and when done it will be one of the strongest structures in New England, if not in the world.

David E. Waite of Holyoke, Mass., has charge of this work and his gang of men know their business and attend to it.

TAFTVILLE.

Joseph Robinson, Jr., and Miss Lucy Chapman have returned from a visit to the world's fair.

Robert Starr is the guest of Mr. Ennis Paisley.

Mrs. Mary Olin of Plainfield is visiting Mrs. O. N. Kellogg for a few days.

Mrs. Charles Prentice and sons, Harry and Leonard, have returned from a two weeks' visit to relatives in Fall River.

Lewis Tillinghast and family have returned from a two weeks' stay with relatives in New Hampshire.

Henry Rogers, who has been absent for the past two months, has returned.

VOLUNTOWN.

Base Ball—Gold Payments—Struck by Lightning.

The Norwich Stars beat the Leatherbeaters of this place Saturday afternoon on the home nine's grounds. Six innings were played when time was called, the score standing, Leatherbeaters 19, Stars 4. The Leatherbeaters will play the Mystic nine at Mystic next Saturday. A good game is expected.

The Briggs Manufacturing company passed last Saturday's payments, owing to the absence of the bookkeeper, J. N. Lewis. This is the first regular payment the company has passed since its organization, about thirty years ago. They will pay off Tuesday. Considerable gold is being put in circulation owing to the scarcity of small bills, and is leading to some amusing blunders. At the last mill payment one of the hands, after receiving his pay envelope, went to the overseer and told him that he had not received pay enough by $4.99. An examination showed that what he called a penny was a five-dollar gold piece.

The shower of last Friday afternoon was of great benefit to the north part of the town. South of the Pachaug river the shower was very light.

The [illegible] mill was struck by lightning. A small fire was started, which was quickly put out.

John N. Lewis and family and Misses Emily and Lillian Briggs returned from the world's fair Saturday night.

Charles E. Main & Son have the contract to build Dr. W. E. Davis' new house.

A Remarkable Bridge in Texas.

Another great engineering work recently completed in Texas is the very high canti-lever bridge over the Pecos river. This bridge, some 320 feet high, while not the highest in the world, is one of the highest, and at the same time one of the most considerable railroad structures ever erected. When the engineers locating that part of the Southern Pacific railroad came to the Pecos river, says a writer in Harper's Weekly, they wanted to go directly across with a bridge; but more timid counsels prevailed, and instead of taking a flying leap over a canyon more than 300 feet deep, it was decided to make a detour of 35 miles by way of the Rio Grande.

This was 11 or 12 years ago. This longer route, though the curves were sharp and the grades steep, was expensive to operate. It was a heavy tax on through freight, and several years ago it was decided to take the flying leap of the Pecos, and thus avoid the grades and curves and longer haul. The Phoenix Bridge company did the work. The entire length of the bridge is 2,180 feet from abutment to abutment. There are two cantilevers 172 feet 6 inches long each, and one suspended lattice girder span of 80 feet.

This suspended span is hung between the two cantilever spans on eight massive bars, and expansion spaces are left at each end of several inches, where it should join the cantilevers. The intense heat of the summer sun makes this space for expansion a necessity. In addition to these spans there are eight lattice spans of 65 feet each, one plate-girder span of 45 feet, 18 plate girder spans of 35 feet each and 16 plate-girder spans of 35 feet each. The width of the floor of the complete span is 26 feet, part of which is taken up by a walkway on either side of the single track.

The bridge has a factor of safety of five; that is, it has a sufficient strength to bear five times the pressure made by a continuous train of the heaviest modern locomotives moving over it. From the ground at the bottom of the canyon and on the banks of the river the bridge looks like a slender lattice work; but it is really, as will be seen from the above statement as to strength, a very solid and stable structure.

Odd Items from Everywhere.

In Shakespeare's time the prices of admission varied from a penny to a shilling.

The average duration of the reigns of English sovereigns has been 23½ years.

England has lost 15 ships and 2,858 officers and men in the last 30 years.

Hepparchion, 100 years B. C., counted 1,012 stars with the naked eye and Holemaus 1,022. The telescope now counts 100,000,000.

Every steamer that plies along the Atlantic coast is a refuge for birds that are blown out to sea, most small and not strong of wind.

The first United States postal cards were issued in May, 1873, and during the first two months of their existence 31,000,000 were used.

Hawaii's army consists of sixty-four men, of whom three are generals.

According to the tracks found in a stone quarry in Connecticut, a bird with a foot eleven inches in length once inhabited those parts.

Samuel Hopkins in 1790 took out the first patent. It secured him the right to make potash.

AWFUL SLAUGHTER.

French Killing of Italians at Aigues-Mortes.

ITALY INSISTS ON SATISFACTION.

Grave Complications Likely to Arise—Mob Attacks French Embassy.

BERLIN, Aug. 21.—France will have to give Italy prompt satisfaction for the slaughter of Italian laborers by Frenchmen at Aigues-Mortes, Thursday, or she is likely to feel the power of the dreibund.

The first misleading reports sent out from French sources Thursday night made the impression merely that a workingmen's riot of somewhat extraordinary seriousness had taken place.

Friday official dispatches from other sources indicated that the Italians had not lifted a hand in provocation, but had been killed by the dozen merely on account of their nationality, while the French authorities abstained from any strenuous effort to stop the massacre.

Emperor William at once obtained, through the German embassy in Rome, copious reports of the affair, and instructed Count Munster, German ambassador in Paris, to send to Berlin as soon as possible all ascertainable details of the fight at Aigues-Mortes and the attitude of France toward

Italy's Demand for Reparation.

The general understanding is that the emperor is preparing to stand behind Italy in her determination to secure satisfaction from the French government.

The idea fostered by the French statement was that about 200 French workingmen and as many Italians, after mutual provocation, did some hot fighting which resulted in the killing or wounding of the most belligerent combatants.

In fact, the Frenchmen numbered nearly 1000, while there were but 150 Italians. About 400 of the Frenchmen were armed with revolvers or rifles. The French marched down to the salt works where the Italians were employed with the avowed intention of driving them out, if not worse.

For a short time the police made a pretence of protecting the Italians, but they were so half hearted in their measures that the Italians became convinced that they must take care of themselves, and hurried to a farmhouse near the salt works. The mob followed.

The Italians Barricaded the House.

The Frenchmen surrounded the house and held it in a state of siege for hours, while shooting at every man who showed himself before a window.

A company of police was present, but exercised little influence on the mob, because the officer in charge refused to let them fire on the attacking parties. Although the farmhouse was on the direct road to the town and the course of events was fully known to the authorities no troops were sent to rescue the besieged.

Eventually the police advised the Italians to leave the house and run for their lives to the town. The Italians accepted this advice.

They broke, in groups from the rear door, fought their way as best they could through the crowds of rioters, and

Ran for Their Lives

across country or on the highways toward Aigues-Mortes. This was the opportunity of the man hunters. They started in pursuit, unrestrained by the police, and beat down with clubs or shot the Italians wherever captured.

The hunt was continued through the streets of the town. Italians were beaten to death within a hundred yards of the police station. Two men were shot dead in front of the mayor's office.

Hardly a dozen of the 150 Italians are believed to have escaped injury.

Yet, during all this, not even a company of infantry was called out. Only after the slaughter was complete did the troops appear.

From the roads and marshes between Aigues-Mortes and the farm house, and from the streets of the town

45 Dead Bodies of Italians

have been collected. Sixty-five Italians, all severely and a few mortally wounded, have been taken to the hospitals.

Some 25 or 30 Italians are missing. Some of them are supposed to lie dead in the marshes or underbrush; others to have fled the country.

The intensity of the feeling excited at the court, as well as through the empire, by the narrative of these events is revealed in the bitter leaders of the German press. The consensus of opinion among German editors is that the massacre was the result of barbarous French nativism and chauvinism.

The plea of a workingmen's quarrel over Italian competition is dismissed as

A Worthless Excuse

by the German press, which professes to find the true cause of the French outbreak against the Italians in France's hatred of Italy as an ally of Germany.

The presence of Prince Henry of Prussia at the Italian naval maneuver, following closely the enthusiastic reception of the emperor and empress in Rome, has caused the Paris press to denounce Italy without reserve.

The plan of the Italian crown prince to attend the Metz maneuvers has revived on the boulevards all the old storm of denunciation which raged when the Italian king proposed to visit Strasburg with Emperor William, and thus, by implication, recognize the finality of the annexation of Alsace and Lorraine.

The affair at Aigues-Mortes, says the Berlin press, is only a natural result of this unrestrained incitation.

GRAVE COMPLICATIONS FEARED.

Great Mob Attacks the French Embassy at Rome.

ROME, Aug. 21.—The troubles growing out of the fighting between French and Italian workingmen, employed at the salt works at Aigues-Mortes, France, threaten to involve grave international complications.

It is not in Rome alone that the popular indignation at what the Italians consider a gross breach of international comity is finding vent in demonstrations that are evidently intended to coerce the government into demanding an apology from France for the attack upon Italians and the payment of an indemnity to compensate the families of those Italians who were killed.

Riots directed against Frenchmen have occurred in many of the provincial towns and the situation is exceedingly grave.

The most serious outbreak of popular feeling against the French occurred here late last night, when a hooting mob attempted to burn the French embassy.

Some of the rioters carried cans of petroleum, and did not hesitate to openly declare that it was their intention to use it in destroying the embassy.

The authorities had anticipated that an attack might be attempted on the embassy, and a strong force of troops was detailed to guard the buildings.

The rioters, however, attempted to carry out their threats, notwithstanding the presence of the soldiers.

They were ordered to disperse, but refused to do so, whereupon the soldiers charged upon them.

The mob held their grounds for a time, and fought stubbornly. It was not until several charges upon them were made that they began to retreat, fighting all the time.

Forty-five of the rioters were arrested. Many of those who were at the fore front of the fighting were wounded by the sabres that the soldiers used unsparingly.

The rioting in the provincial towns was only quelled by the use of troops, the police being utterly powerless to handle the mob.

NOT GUILTY.

Mrs. Shann Acquitted of the Murder of Her Son.

TRENTON, N. J., Aug. 21.—The jury in the case of Mrs. Shann, charged with having poisoned her son, came into court at 7:30 o'clock this morning with a verdict of "not guilty."

The court room was packed with spectators, and Mrs. Shann sat surrounded by her family. When the verdict was rendered she fell upon her knees as though offering up thanks for her deliverance. In a moment she raised her head, and her daughters threw their arms around her and kissed her. The audience sat silent, and in another moment the formalities were over and Mrs. Shann was discharged from custody.

It is said the jury decided to acquit after a few ballots taken on Saturday.

THE HALIFAX FIRE.

Completely Destroyed Big Hardware Establishment—Firemen Injured.

HALIFAX, N. S., Aug. 21.—The fire in the big hardware establishment of William Stairs, Son & Morrow, on lower Water street, at the head of the Plant steamship wharf, completely destroyed the building and contents. It was first discovered at 1 o'clock in the oil department, and as there had been no fire in the building for months, is supposed to have resulted from spontaneous combustion. This building is in the rear of the Albion and Queen hotels and the firemen had great difficulty in getting at the conflagration.

In two hours the big brick structure was gutted and the stock destroyed. Loss $[illegible],000 on the stock, and $200,000 on the building. The firm carried $80,000 insurance in the Commercial Union, Northern, London and Lancashire, Halifax, Acadia, Eastern and Phoenix of Hartford.

While four men of No. 1 engine were up a ladder on the front of the building, some men dragging hose along the narrow street caught the foot of the ladder. It fell to the southward, and Rufus Keating fell on a fence and was impaled by the throat on a picket. He was picked up insensible and taken to the hospital. He will probably die. John Lewis, another fireman was also badly cut.

LINCOLN HONORED.

A Beautiful Statue to His Memory Unveiled at Edinburgh.

EDINBURGH, Aug. 21.—The new Lincoln monument was unveiled today at 4 p. m. Sir William Arroll, the builder of the great Forth bridge presided, and Consul at Edinburgh, Wallace Bruce, the "Poet of the Hudson," delivered the oration.

The monument represents "Lincoln Freeing the Slaves." It is 15 feet in height, the bronze figure being life size.

At the feet of the martyred president is a figure representing a freed slave, and battle flags, also in bronze. The figure of Lincoln is by the sculptor George E. Bissell, and cost $4000. The entire cost of the monument is placed at $8000, which was subscribed for the most part by Americans in Scotland and prominent Scotchmen.

Drum Head Blew Out.

JOLIET, Ill., Aug. 21.—An accident occurred in the boiler room of the Lambert & Bishop wire mill Saturday evening, which was fatal to George Perkins, a carpenter, and John Whitman, the general superintendent. Cary E. Robinson, the general manager, was horribly burned. The men were in the boiler room overseeing preparations for starting the mill when the head of the mud drum blew out, deluging them with hot water and steam.

Factory Doors Again Open.

NEWBURYPORT, Mass., Aug. 21.—The Towle Manufacturing company, after a shutdown of several weeks, started up this morning much to the gratification of employes and local dealers, for this industry distributes a large amount of cash weekly, and its withdrawal from circulation was felt in all sections of the city.

Phinney Arraigned for Murder.

BOSTON, Aug. 21.—In the South Boston court this morning Edward Phinney was arraigned on a charge of murdering Edward M. Shine, the government was not ready to go on and the case was continued until Tuesday.

Fire and Feathers.

AMESBURY, Mass., Aug. 21.—Fire yesterday in the millinery store of Annie Keville caused $1500 damage; fully insured; cause unknown.

Buenos Ayres Has Quarantine.

NEW YORK, Aug. 21.—A dispatch from The Herald's correspondent in Buenos Ayres says that a quarantine has been established against all Brazilian, Mediterranean and Adriatic ports on account of the cholera epidemic. Comparative quiet has been restored in the provinces of Buenos Ayres, Santa Fe and San Luis. There is a state of lawlessness in the province of Corrientes.

Delegates To Medical Congress.

BOSTON, Aug. 21.—Governor Russell this morning nominated the following doctors as delegates to the Pan-American Medical congress to be held at Washington in September. Dr. John G. Blake of Boston; Dr. J. Collins Warren of Boston; Dr. Z. B. Adams of Framingham and Dr. Thomas Kittredge of Salem, Surgeon-General on the governor's staff.

Work Five Days a Week.

BOSTON, Aug. 21.—The 250 men employed at the Allston car shops of the Boston and Albany railroad will hereafter work only five days in the week until the business conditions improve. There was some talk of placing the men on eight-hour time, but it was finally decided to shut down on Saturdays, this plan affecting all of the workmen alike.

Promoter of Charity Dead.

PROVIDENCE, Aug. 21.—Miss Mattie Sayles, the daughter of W. F. Sayles, the multi-millionaire cotton manufacturer and bleacher, died suddenly last night, after only a brief illness. She was an heiress, and one of the foremost and active promoters of charitable organizations in the state.

Old Orchard Grocery Burned.

OLD ORCHARD, Me., Aug. 21.—The building owned by J. H. Duff and occupied by him as a grocery store was entirely burned with contents, this morning. Loss estimated at about $5000; partially insured. Cause probably incendiary.

Reduction of Wages Talked.

FALL RIVER, Mass., Aug. 21.—The Manufacturers' association is holding a meeting this forenoon and a discussion of the present situation is going on. Reducing wages as a remedy is being talked of.

PORTEOUS & MITCHELL.

PORTEOUS
&
MITCHELL.

Our Annual Clearance Sale of Summer Merchandise will continue all this week.

We have had similar sales every season, but never before have we had at this season of the year a sale which offered so many and such incomparable lots of desirable merchandise as are included in this sale.

Every department offers some unapproachable bargains, and the greater the lot the lower the price.

Bear in mind that when we say "bargains" we mean something out of the ordinary. We never use the word except in connection with something extraordinary.

During former sales there have been many disappointed in getting some particular article because they waited too long before coming in to see about it.

Don't let it be your lot to be among the disappointed ones. If you need anything in merchandise now is the time to most advantageously buy it.

Staple Merchandise as well as Summer Goods are included in these offerings.

Men as well as women are interested.

There is something for everybody, and the prices were never lower than now.

THE HERMIT THRUSH.

Over the tops of the trees
And over the shallow stream
The shepherd of sunset frees
The amber phantoms of dream.
The time is the time of vision;
The hour is the hour of calm.
Hark! On the stillness Elysian
Breaks how divine a psalm!
Oh, clear in the sphere of the air,
Clear, clear, tender and far,
Our aspiration of prayer
Unto eve's clear star!

O singer serene, secure,
From thy throat of silver and dew
What transport lonely and pure,
Unchanging, endlessly new—
An unremembrance of mirth
And a contemplation of tears,
As if the musing of earth
Communed with the dreams of the years!
Oh, clear in the sphere of the air,
Clear, clear, tender and far,
Our aspiration of prayer
Unto eve's clear star!

O cloistral ecstatic, thy call
In the cool, green aisles of the leaves
Is the shrine of a power by whose spell
Whose heart aspires and believes!
O herald of awaiting, thine hour
In the sacrament of desire,
When love hath a heavenlier flower
And passion a holier fire!
Oh, clear in the sphere of the air,
Clear, clear, tender and far,
Our aspiration of prayer
Unto eve's clear star!
—C. G. D. Roberts in Youth's Companion.

WOMAN'S WORLD.

IDLERS AND DAWDLERS WHO WASTE A SUMMER'S OPPORTUNITIES.

Women Condemn the Dancing—Why She Joined the Salvation Army—Amateur Dressmaking Fad In London—A Clever Hairdresser—Miss Hill Complains.

It is hard to imagine anything more idle or insufferably stupid than the summer life of the average woman boarder. One day's programme from June until October varies little from another. After breakfast all gather on the piazza to display their fresh, crisp morning cambrics, when they discuss the chances of a hot day, a cool day, a rainy or sunny one. The nervous and timid ones describe the agony they endured during last night's thunderstorm, and the invalids expatiate on their sufferings. Finally each settles down to her novel or piece of fancy work. Conversation goes on in a jerky, disconcerted way, which is neither entertaining nor highly instructive. There may be one solitary man among ten women, a generous proportion, according to all reports this summer.

Each one is afraid of saying or doing anything unconventional, and the more high toned the resort the more each one stifles herself. What a dreadful thing it would be to make an undesirable acquaintance! Who is Mrs. Sanger, and what is her husband's business? Did you hear on what street Mrs. Phillips lived? and so on. The same excruciatingly exclusive manners are put on as in the coteries during the winter, and all this sham in face of the grandest scenery, beside the ocean, the forests or the mountains. What a mockery seem all the vain little airs of the younger women and the patronizing schemes of the older ones!

With a few exceptions the majority of these city bred creatures would be just as near to nature's heart back in their city drawing rooms. To be sure they know how to rave over a pretty doll or a beautiful sunset; they can utter neat phrases about the moonlight shining through the "murmuring pines and hemlocks," but they are insensible to country charms in any deep sense. They do not feel the words they speak, for here are the same rivalries, the same varieties, the same slavery to fashions. The unsophisticated girl, who thinks more of the row than the boating dress or of the tennis than the suit she has on, is a rare bird. With the exception of the great centers, Bar Harbor and Newport, where dissipation is made a business, such monotony reigns that it is a wonder how any one can endure it.

Quiet reigns, interrupted only by the arrival of the mail or the passing a stylish buckboard. If the quiet brought peace and tranquillity, then the object of the summer's outing would be well accomplished, but it does not, for most of them are restless, uneasy and vainly striving to have a good time. Complete rest they do not desire, for they are not tired—as a rule they have done nothing to make them tired. Occasionally there is the artist who sketches in earnest, or the student who believes a change of occupation is the only rest needed. Even in a group busy with the needle not one is probably doing anything sensible. Most likely one is crocheting a tidy, just as if the tidy had not been discarded long ago as a nuisance. Another is embroidering pansies twice as big as the natural ones on a table scarf, and the third is working a flower design on a shoebag in pink and green that will fade out colorless the first time washed.

"What a queer woman that Mrs. Clapp is! She says she makes most of her children's underclothing through the summer," as if it were almost a desecration of the long summer days to accomplish in them any real work.—Brooklyn Eagle.

Time to Protest.

The development of sandwiches has up to the present time been confined to the "filling," but an exchange in its cooking column, enlarges the list of sweet sandwiches to include "any fruit sliced, sprinkled with wine and liquor and sugar and placed between thin slices of stale sponge cake." This is a real blow and opens a vista of as unattractive possibilities as when the old fashioned biscuit "shortcake" of our grandmothers, generous with well sweetened and luscious strawberries and deluged with thick yellow cream, became the alum risen layer sponge cake, inclosing some dry, individual strawberries, which is the strawberry shortcake of the restaurant.

Let us protest loud and long against any "sandwich" from which bread, the sine qua non of all sandwiches, is eliminated.—New York Times.

Over 800,000 homeless wanderers and 24,000 beggars belong to the richest city in the world, and every night in this plutocratic place 5,000 persons sleep in the open air. It is estimated that the amount of poverty is so great and living so precarious that one person in five will ultimately die in the workhouse, hospital or lunatic asylum.—London Tit-Bits.

Women Condemn the Dancing.

A report on the Midway plaisance was introduced into an unusually tame session of the lady managers of the fair by a call for the report of a committee appointed to send out cards to the women in the Midway plaisance for the purpose of inviting them to the Woman's building. They were there to be shown its beauties by members of the board. The committee had made no report and had taken no action.

But the women needed no report to set them talking. Isabella Beecher Hooker was the first to speak. She reviewed briefly the character of the famous street and said in conclusion:

"I think we had better invite that quarter, not in bulk, as has been suggested, but very much in detail."

"Do you mean to say," cried one of the women, jumping to her feet as Mrs. Hooker sat down, "that any woman has fallen so low that the board of lady managers will not hold out a helping hand to her?"

This brought Mrs. Barker to the platform. "I will take second place to no one in missionary work," she said. "I went to the plaisance yesterday, impelled by a sense of duty. I never have been so grieved or shocked in my life as at the things I saw. I shall most certainly oppose inviting the women who perform in the theaters there to meet socially the members of this board. They are, many of them, not representatives of foreign nations, but women of Chicago, chosen to act these disgusting parts. Can you endure the thought that your sons and daughters should witness such spectacles? I consider it our duty rather than to entertain these people to enter a protest against them and demand that the places where they perform be closed. Appoint me as a committee, and I will plead with these women heartily at whatever cost, but I strongly object to the board putting themselves on record as entertainers of the women who so grossly violate the name by dancing in the Midway."

Then Mrs. Barker sat down and cried as if her heart would break. Mrs. Felton hastened to tender her support. "I want to say," she said, "that I went with Mrs. Barker into these places, impelled, like her, by a high sense of duty. Regarding our experiences I can only add that I had no idea we were living so near such demonstrations."—Chicago Cor. New York World.

Suppose Women Had Acted So!

If that row in the house of commons had been made by women, how it would have been quoted as proof that "the emotional nature of women unfits them for political duties," that they are "lacking in the qualities that make statesmen" and "I told you so!" But the superior sex took it out in giving each other black eyes and bad names and then went back to their seats content with their superiority over women. But in fairness it must be said that they had the grace to apologise for their bad behavior.—Boston Woman's Journal.

A Delicious Summer Drink.

Iced cocoa is one of the best cold drinks for lawn parties or luncheons in warm weather. First see that the teakettle is filled with fresh cold water, and this is equally necessary for tea and coffee. To each quart of water allow four heaping teaspoonfuls of cocoa. Put it in a double boiler and add gradually the quart of boiling water. Mix and beat for a moment; then add one-half pint whipped cream, sugar to taste and stand aside to cool. Serve iced in glass mugs. If made well, this will be delicious.

Two Girls Who Can Walk.

The Misses Plant, two Michigan girls, walked into Jackson park recently, and sitting down in the Michigan building announced that they had tramped all the way from Muskegon—230 miles. One is a dressmaker and the other a teacher. They are just the kind of women for the World's fair, where there is little provision for the common variety of American women, whose legs give out on a mile walk.—Kate Field's Washington.

A Glove Suspender Needed.

Some Englishwomen keep up their long gloves by a ribbon garter, buckle and all. Any woman would pay a fair price for a glove suspender which would be pretty, keep her glove up and relieve her from the necessity of continually stretching her arm out and tidying up the long wrist. No one knows the discomfort, the nervous, irritating effect of that always slipping glove who has not had to wear it.—Exchange.

Cutting Oranges For the Table.

A gentleman who has lived for years in the American countries in which the orange grows is waging a war against the slovenly manner of cutting the orange up and serving it on the table. In such a case he recommends that a very sharp knife, one as keen as a razor, be used, and the fruit cut into slices infinitesimally thin and built, layer about, with pulverized sugar.—Pittsburg Dispatch.

The Debut of a California Heiress.

The debut of Miss Virginia Fair was made recently at Rose Cliff, Newport, the former residence of Bancroft, the historian, now the property of Mr. and Mrs. Herman Oelrichs. Several hundred Newporters assisted at the formal social entree of Mrs. Oelrichs' sister.

The legend runs that the fruiting of the almond tree beside the house whence a bride elect departs is a happy omen. Princess May was probably glad to see that the almond tree at White Lodge was in full bloom when she said goodby to her old home.

A year ago it was "the thing" to wear the watch on a pin on the left hand side of the bodice. This season ordains that it should be tucked in the belt or be suspended from it by a short chatelaine chain.

An economy of waste is to throw the salt water left in the ice cream freezer over the weeds on the garden paths and the suds from the washtub around the roots of the young trees.

A druggist's certificate has been awarded to Miss Ella G. Nash, a graduate of the Boston College of Pharmacy, who passed the board of examination.

The new factory inspection law of Pennsylvania requires that of the deputy inspectors five shall be women. They receive a salary of $1,200 a year.

Why She Joined the Salvation Army.

A daughter of wealthy parents joining the Salvation Army and going to work in the slums! That is not simply an incident; it is an event. It was not the result of caprice, but of conviction, for the young woman is not subject to fits of aberration, but is counted by those who know her as a remarkably level headed person.

She made the reasons for her action public at Prohibition park the other day, and if they do not appear to be entirely conclusive they are at least very cogent. No one can read them without respect and possibly reverence for her motives. She said:

"For 10 years my name was on a church roll, but long before that time had expired I decided that my Christian life was a dismal failure and a most unhappy hypocrisy. The reason was that my religion was confined to certain times and places, while at other times and in other places I deliberately did things upon which I could not ask God's blessing."

She felt a responsibility for the crime and sin in the world, believed that the poor creatures who are generally shunned should be sought out, encouraged, helped to a better life; that she had no right to enjoy the luxuries of life while they were starving, and that if it was possible for her to save some [illegible] man or some fallen woman she had no business to shirk the duty, however disagreeable or [illegible].

So she gave up everything, and, unlike the rich young man whom the Saviour advised to do the same thing, she did not hesitate. You can find her nightly amid scenes of brawling in the low [illegible] of this city, an evangel, a minister of mercy, an angel of peace.—New York Telegram.

Amateur Dressmaking Fad In London.

The amount of amateur dressmaking going on at present is astonishing, and the fun there is over it and interest taken in it are most encouraging to beginners. Even sedate fathers of families are taken into the confidence of their girls about their dressmaking doings, while brothers find it a fruitful form of chaff, and though pretending to decry really admire the skill of their own and other fellows' sisters. Girls who have no other occupation in life find that dressmaking is a great interest to them and an immense saving in their dress allowance. They spend a few hours with their scientific dresscutting charts, the best and the most original of these being so far simplified now as to be within easy comprehension of the most ordinary intelligence, and straightway they fashion the bargain of a pound or so into an up to date, smart and charming costume of which they feel justly proud.

A dress which was bought at a sale for 30 shillings, inclusive of all accessories for its build, is to be worn next week. It is of fancy cloth, the color willow leaf green. The skirt has a deep, frayed out ruche of shaded green silk around the hem. The bodice is a folded one of cream colored twill silk with lace insertion, and over it is a short bolero coat of [illegible] and cream brocade, outlined all round with small cream colored and green gimp ornaments. There is a sash of cream colored satin, which is tied at one side. It is to all intents and purposes an 8 or 9 guinea gown and would easily pass for such if the wearer were not too proud of her share in its production to allow it to do so.—London Telegraph.

A Clever Hairdresser.

There is in Washington a professional hairdresser who makes a comfortable living while congress is in session. It is an easy matter to get the name of the politician from Miami, Ind., or Waterloo, Ia. A note is sent to his wife asking permission to show her a more becoming way of arranging her hair. Some comprehensive hint is volunteered with a mild compliment. The letter is marked "personal," a verbal answer is requested, and in eight out of ten attempts the New York hairdresser gets an answer to call. Oddly enough, it is the husband who urges her claim. He wants his wife to look like other women. At home she was all right, but in cosmopolitan life she is something of a fright, and although he despises himself for the thought he is ashamed of her. In an hour's time the hairdresser puts a new face on the woman from the woods.

She may not use an inch of false hair, but she wields a crimping iron in a way that takes years of farm life from her appearance. The troubled, shy face is not made ridiculous. Instead of curls the iron gray hair is cleaned, brushed until it is fluffy, crimped enough to ripple and look three times its own quantity, and then it is dressed. Instead of the long iron wire hairpins little shell pins are used, and the coils are so lightly caught that the wondering Hoosier wife reckons it will not be long before they all drop out. Women who refuse to have their hair cut into a bang are provided with a false front, but in every instance the transformation is admirable. The bill is sent to the congressman, and it is cheerfully paid.—San Francisco Argonaut.

Miss Hill Complains.

The mischief resulting from what may be called vicarious beneficence or the distribution of alms at other people's expense is complained of by Miss Octavia Hill, known as well in charitable circles in this country as in England. The London county council has before it schemes for buildings for the working classes, and Miss Hill points out that the advocates of such measures must consider that the bulk of the working people of London either can or cannot be accommodated in such buildings. If only partial accommodation is to be provided, she maintains, the erection of [illegible] ings, or even the possibility of their erection, will greatly paralyze individual effort. Much has been done by societies and individuals during the last 30 years to provide good houses for working people on a self supporting basis. They are ready to extend the work, but not if they must compete with buildings subsidized by state aid. This is no imaginary danger, for Miss Hill declares that she knows this result to have already followed in specified instances.—New York Post.

[illegible]

"I should think you would feel very cheap," said the spendthrift's father at the close of an hour's lecture.

"I would, father," returned the lad, "if you hadn't given me to understand that I was so very costly."—Harper's Bazar.

A Keenly Felt Want.

"My darling girls," the mother penned
"Stay at the seashore dear,
And if there's aught that we can send
Why do, please, let us hear."

Back came the answer quick next day,
"Dear mamma, do not fail
To send to us, without delay,
Two diamond rings, by mail."
—Vogue.

FLORIDA GIRLS.

Not long ago two Florida girls concluded to take a day's hunt in the Great Annutalia hammock, the upper edge of which touches the river. Starting out early, they made good progress, and by 9 o'clock were in the midst of the wild hammock. During the forenoon they had luck—killing a deer, a wildcat, 10 big gray squirrels and several enormous snakes. After taking a noonday lunch they decided to cross over Alligator creek, a wide but shallow stream that crosses the hammock, emptying into the Withlacoochee. Just before reaching the creek they had to pass through a dense canebrake for several rods. When about half way through, one of their dogs that had lingered behind came rushing up, yelping lustily, while close on its heels was a big black bear, fierce and ugly as it could be. The path was so narrow that they had no chance to fight the animal, and in fact the dog and bear came in on them so suddenly that little time was allowed for reflection.

Miss Josie slung her rifle around and fired at the beast, but in the confusion only wounded him. The girls then ran ahead, intending to get out on to the open bank by the water's edge, so as to get a fair ground to battle old bruin. But the infuriated animal, aroused to madness by the rifle ball, pursued them so closely that only scientific dodging saved them from a close hug. Emerging from the path, they noticed the boat used to cross the creek lying right in front of them, and both of the girls, struck with the same idea, sprang into it, their impetus carrying it out into the creek.

The dog was unable to get into the boat, but he bit at bruin's heels so sharply that the latter had to stop his pursuit of the girls and endeavor to punish his four footed assailant. But the dog was too wary and kept out of his reach. The girls called him, and plunging in he swam out to them. Meanwhile the hungry denizens of the creek, whose numbers gave it its name, were awakened by the tumult, and they began to show themselves. As the dog jumped in, the splash attracted scores of the ugly reptiles from all directions, and the water was dotted by the black snouts of the hungry gators.

The girls noticed this and called encouragingly to their dog, who seemed to be fully aware of his danger. Several black noses were already pointed in his direction, and it looked as if the 'gators might get a meal. But Wilda seized the pole lying at the bottom of the canoe, and by a skillful push sent the boat close to the dog. Josie was waiting, and as the dog swam up she helped him to clamber over the side, almost upsetting the frail vessel. And it was just in time, too, for just as the dog's legs slipped out of the water a huge pair of jaws rose out of the depths with an ominous snap. With a souse the disappointed saurian [illegible].

While this was going on bruin stood on the bank, growling and snarling in impotent rage at the dog and girls thus escaping. Seeing the dog in the canoe seemed to render him still more furious, and with a deep growl he dashed into the water and began swimming toward the boat. Between the bear and the gators the girls began to think their hands would be full. Wilda picked up her gun and made a snap shot at the animal, but a movement of the dog disconcerted her aim, and the load of buckshot flew to one side, only a small number striking the bear. But they angered him the more, and with a snarl he almost leaped out of the water in his mad eagerness to reach the boat.

Wilda dropped the gun, and picking up the pole soon placed the boat a rod ahead of the pursuing animal. Josie had again reloaded her gun, and she turned to deliver his quietus to the animal. But the commotion in the water and the bear's evident disquietude put a new face on matters, and she withheld her fire.

The dog's yelping and the bear's growling had evidently awakened the scaly denizens of the creek to a realizing sense that it was mealtime. Missing the dog, they were not averse to bear meat. Bruin, in his hurry to catch his first prey, had paid little attention to what might befall him in the creek. But now he began to notice the increasing number of black spots in the water all turning toward him, and probably instinct told him that hungry gators in their own element were a foe not to be despised.

With an uneasy whine, he attempted to turn and regain the shore, but now it was too late. With a rush, a big black form was seen to dart up against him, and in a second he was seized and dragged under. The old fellow was game, however, and now that he had got into the fight he proved no mean antagonist. With an immense effort he plunged away from the attacking gator and dashed forward for the shore. The water shoaled, and it seemed as if he would escape. A big bull saurian dashed forward and seized the bear by one of his hind legs, while two others swam behind him to cut off his retreat.

With a deep roar of rage, the bear turned on the one that seized him, and with one stroke of his paw clawed out the gator's eye. The latter bellowed with pain, and thrashing the water madly plunged forward at bruin. Other gators joined in, and the poor animal was beset on all sides. Sitting on its haunches, with the blood flowing from a gaping wound in its hind leg, the bear snapped, clawed and bit at his savage antagonists, but they were too many for him.

Another seized one of its legs in its powerful jaws, and with a strong effort drew the bear off into deeper water. Others dashed at him from all sides, snapping at him from every point. The water splashed high and was churned into snowy whiteness by the furious efforts of the fighters, save where the red blood told the tale. But a few moments longer did the unequal struggle last. Bruin strove to regain his feet, but the cruel jaws of the reptiles closed on his legs, sides and wherever a hold could be secured, and with one mighty, agonizing roar the bear disappeared, while the furious struggle continued under water for several seconds.

The girls had gazed on the fight spellbound, but now they were rudely aroused to their own peril. The dog had barked loudly during the savage fight going on so near, and the gators who missed bear meat seemed to be after dog's flesh. The canoe rocked, almost overturning, and the startled girls saw a monstrous pair of open jaws right at the side of their small craft. Josie pushed her rifle barrel in the gator's mouth and pulled the trigger, sending a bullet where it evidently didn't agree, judging from the reptile's sudden sinking and thrashing about.

A moment later a huge tail came flying over the bow of the boat, and striking the dog, who stood there barking, knocked him into the water. A big pair of wide open jaws was just about to close on the tempting morsel when Wilda stooped down, and catching the dog's forepaws by a sudden effort drew him into the boat, the saurian's jaws closing with a snap that indicated a great disappointment. The dog cowered down in the bottom of the boat, while the girls attended to the other gators, who seemed to manifest an inclination to get into the canoe. Several shots were fired at the reptiles, but their taste of blood had made them fearless.

A scream from Josie aroused Wilda, who was striving to pole the boat ashore. Turning around she saw her sister half drawn out of the canoe, a big monster 'gator having seized her dress. Josie was beating the 'gator over the nose with her rifle with one hand, while with the other she endeavored to hold herself in the boat. Without a moment's hesitation Wilda raised the long pole she was using, and poising it a moment threw it at the gator's head. By rare good fortune it struck him in the eye and penetrated to the brain. With a loud bellow the reptile sank.

For the next few minutes the brave girls had all they could do—one firing at the saurians as they approached too closely, while the other, using the breech of her [illegible] paddle, urged the canoe to shore. As it touched the sand both leaped out and ran up the bank. None too soon either, for a big, pursuing gator, in its desperation at losing its prey, threw itself forward, crushing in the sides of the boat. The girls concluded that they had had enough hunting for that day and returned home by another route.—Million.

HOOD'S SARSAPARILLA

Almost Blind
With Humor and Inflammation in the Eyes

"My little boy fell from his high chair, injuring his nose, and severe inflammation appeared in his eyes. He grew worse and worse until we feared he would lose his sight entirely. Medical advice and various medicines failed to benefit him until, hearing the good Hood's Sarsaparilla had done for others, we concluded to try it. I must say Hood's Sarsaparilla worked like a charm. While taking two bottles the inflammation gradually disappeared, his eyes grew stronger so that he could bear the light. He was soon

WOMEN WHO ARE ELIGIBLE AS VOTERS.

Under the new law, which gives women a right to vote in Connecticut, registration is going on slowly. This law entitles women to vote in school meetings upon questions affecting the interests of the schools and to vote for school officers; and as enfranchised citizens they are eligible to hold school offices.

In order to vote under this law a woman must be twenty-one years of age, be a citizen of the state or of the United States: must have resided in the state one year and in the town six months, and be able to read the English language.

What constitutes citizenship has been set forth by the attorney of Waterbury for the women of that city, as follows:

1. Those born in the United States, excepting those born to foreign parents, resident here in some capacity representative of a foreign government.

2. Those born elsewhere to fathers who were, at the time of their birth, citizens at some time resident in the United States.

3. Those who have been naturalized, a woman being capable of naturalization equally with men.

4. Those who, although neither born here nor naturalized, have become married to citizens, either native born or naturalized, provided, however, that they be not incapable of naturalization themselves.

5. Children of parents duly naturalized, who were under the age of 21 years at the time of such naturalization and then resident in the United States.

6. The widow and minor children of any alien who had declared his intention of becoming a citizen but died before acquiring citizenship.

How this act meets the approval of the women of the state will be indicated by the number who take advantage of the law to extend their power and influence. Some town in the state will be the banner town, not only for the largest number of women registering, but for electing to membership on a school board a representative of their own sex.

The enacters of the law are watching for evidences that such a law is demanded and that these conferred political rights are appreciated.

INFLATED.

Governor Waite of Colorado is a man of inflated speech, and it is not strange that he believes in inflated money. His speech will not pass current any better than would the money he advocates. In his address at Chautauqua the other day he said: "Not one ounce of silver has been produced in Colorado but has cost $1.29." The practical miners of the west claim that silver cannot be mined at less than seventy cents an ounce and pay a profit. Not being a miner Governor Waite will be excused for his misrepresentation. A great many mines in the west were never intended to pay for operating. Millions have gone out of New England upon the representation of silver sharks for investment and millions of it never came back. New Englanders have some idea of what mines and mining costs; and Gov. Waite can give no instruction on that point. When Gov. Waite is talking about what the west has lost in mining attempts he should make some inquiries about how much the east has been swindled out of with stories about "holes in the ground", and "the amount of bullion in sight." Some of these "wildcat mines" never had an ounce of gold or silver in them, and were inaccessible wells dug and worked by swindlers. The east has been pretty thoroughly worked, but it is making less fuss over great fortunes lost in the west, which has profited by its losses, than the west is making about its present silver troubles.

IDLE MILLS AND IDLE MEN.

Bradstreet has been giving attention to the extent of the present labor and manufacturing stagnation in the country. He reports that since June 1 eight hundred manufacturing establishments have been shut down at two hundred and ten different points, and no less than 469,000 industrial, building, trades and mining employes have been thrown out of work in the past three months. Only six per cent. of the shut downs were due to the necessity for making repairs or for taking inventories.

He says further: "It becomes plain to the casual observer that there are in all probability no fewer than eight or nine hundred thousand idle employes of manufacturing, commercial and other enterprises at this time, who were nearly, if not all, employed four months ago."

These facts show that the democratic triumph has been complete.

AN EXPENSIVE SCHEME.

The silver scheme of the democratic party is decidedly expensive, and what Mr. Holman will say when the moment for the appropriation to carry it into effect arrives, no one will venture to predict. The statement of Secretary Carlisle that it will take over one hundred and ten millions of dollars to carry out the democratic silver coinage scheme and that the United States treasurer will find himself embarrassed if the money is not provided to do it, must have staggered some democratic representatives. For the party of boasted economy this bomb of Secretary Carlisle's must prove a halter, for most of these fast fellows of little financial knowledge have not thought of the cost of changing the entire currency of the country.

EDITORIAL COMMENT.

The democratic party seems to be a vaudeville combination. They have been doing some high-kicking acts, and as the result of Secretary Carlisle's letter the country may witness a few back-somersaults.

Rev. Dr. McIntire of Denver has given notice to his parishioners to scale down his salary from $100 a week to $30. He realizes that Denver needs praying for more than ever, but he enters for more work and less pay.

The flood tide of the silver debate has been passed and the ebb has set in, with fair promise of the sinking of the free silver coinage craft at low water.

Vest seems to be a democratic misfit!

That cultured mugwump Dr. William Everett of Massachusetts would not use the slang phrase, "Put me in a hole," but twice during his maiden speech in congress he said "Deposit me in a cavity." The voters of his district may do that for him when he comes before them for re-election.

The Chicago Inter-Ocean says: "The poor man's little dinner pail should be hung up in congress upside down to remind honorable members of the condition to which democracy has reduced labor."

Sam Jones is preaching for unconditional repeal down south. He always would preach the gospel!

With Mayor Sargent borrowing a hundred thousand dollars from the people, The Register keeping the national flag on high and The News giving a series of band concerts for public entertainment New Haven is cutting a figure interesting enough for repetition in any city of its size in New England.

The Iowa State Register remarks "It was Grover Cleveland who said 'Tell the truth,' but when the republican papers rub the truth in the Grover Cleveland democrats boil over with wrath."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

To the National Guard.

The Connecticut National Guard—long may we have it and never may we need to use it.—[Waterbury Republican.

Went a Little Too Far.

The peace congress at Chicago went a little too far when it seriously proposed to eliminate from religious literature and hymnology all martial allusions and metaphors, because they influence the young mind unwisely in warlike directions. It is almost as absurd as the proposition made by a Brooklyn gentleman some time ago to taboo Longfellow's "Building of the Ship," because of the indelicacy of the allusion to the vessel leaping into the ocean's arms.—[Boston Herald.

For the Shrewd Man.

These are days which mean money for the business man who has goods to sell, and is shrewd enough to let the public know what bargains he can offer for cash.—[Boston Globe.

Not Attending a Funeral.

Some misanthropic people declare gloomily that base ball is dead. Well, there were 11,000 people at the polo grounds on Saturday, and surely they were not there to attend a funeral. Isn't it just a trifle surprising, though, that these baseball gatherings do not seem to have suffered from the "financial stringency" through which the country is passing?—[New York Tribune.

In a Sorry Plight.

A western senator is said to be slightly nettled by a published announcement that he intends to make a big speech on the silver question, and to have asserted that "the statement was started by some newspaper man without foundation." A newspaper man without foundation must be in a very sorry plight indeed.—[New York Times.

A Dark Horse.

They do say that among the dark horses to be entered for the republican candidate for governor is that well-remembered statesman of the west, the one and the only Ledyard Bill. Why not nominate him, gentlemen delegates? —[Boston Globe.

Much Perturbed.

A Hartford paper is much perturbed by the report that the governor of Connecticut intends to review the state troops at the Niantic encampment from an open barouche. It valiantly calls upon the thought to perish, and says it would be depressing to the state soldiers, who have seen the superb figures of Buckingham, Jewell, Hawley, Bigelow, Waller and Bulkeley on horseback, to march by Gov. Morris sitting in a four-wheeled carriage.—[N.Y. Times.

Observe the Effect.

Both the silver and anti-silver democrats in congress claim to be "standing by the Chicago platform." Observe the effect.—[New York Press.

He Took an Object Lesson.

The Denver editor who went to a back mining town on a vacation about six weeks ago had a strange object lesson in finance and the relativity of values. The day he reached the town two local banks went down in the silver crash, and four men committed suicide. Then all but five of the 50 business houses collapsed, and the saloons were being set on fire by their owners in order to get insurance money. When the editor was ready to go home—and he didn't stay long—his friend was the only man of wealth who hadn't gone into bankruptcy, and he was thinking of it. The money sent to the visitor to pay his fare home was caught in the failure of an express company, so that finally he had is sent on by telegraph.—[Springfield Republican.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A LETTER FROM JOHN SHERMAN.

He Says Congress Is Not Indifferent to the Wants of the People.

Senator John Sherman has written a letter to Samuel G. Ritchie, a resident of Akron, O., who is interested in copper and nickel mines in Canada, and who is an ardent advocate of Canadian reciprocity, as follows:

My Dear Sir: Yours of the 14th is received, and has been read with pleasure. I believe that congress is addressing itself to provide a cure of our present financial difficulties, but this cannot be hastened in a body composed of 450 senators and members. In the mean time events are relieving us slowly but surely. The incoming gold, the large increase of our paper money, and confidence in our ability to maintain the bimetallic standard of silver and gold at a parity are helping to relieve our financial situation. I do not intend to be in a hurry in expressing my opinions on the best mode of relief, for which I think it is better to move slowly and to say little until something effective may be done.

It is a great mistake to suppose that congress is indifferent to the wants of our people. There is an honest difference of opinion among the people with respect to the best remedy, and there is a growing feeling that all that is needed is an increase of currency of the national banks and the suspension of further purchases of silver bullion. The latter I do not regard as important except to dissipate the fears of the capitalists that we are coming to the single silver standard, which means a large contraction of the currency and a separation from the standard recognized by all commercial nations.

Very truly yours,

JOHN SHERMAN.

NEW BOOKS.

FROM TIME TO TIME, a book of verse by S. W. Weitzel. Anson D. F. Randolph & Co., publishers, Fifth avenue, New York.

There comes to our book table this week a modest little gray and silver volume bearing the equally modest title, "From Time to Time;" a book of verse by Mrs. S. W. Weitzel. It is a dainty compilation of thirty-four short poems, so brief in its entirety that one can finish it at a sitting; yet it is by excellence a little book to keep in some handy place, refer to again and again, and each time with renewed pleasure.

The author makes no pretense to the possession of the divine afflatus. She aims to be a helper not a poet, and her verses are largely woven about homely and familiar things and the human interest of scriptural incidents. She sings high, clear, trustful songs of help and cheer and comfort. Her versification is easy and polished, and expresses in no uncertain note the strongest and tenderest love for God and man and all beautiful and holy things.

"That is best which lieth nearest" is ever the key-note of her song, which impresses again and again the sacred responsibility and opportunity of homely, lowly duties. "The Angel's Tarrying Place"—one of the sweetest lyrics on the list—voices best this sentiment:

> "Ah, heart, for blessedness look not afar!
> Where duty's joys, where duty's labor are,
> In homely paths, in quiet nooks it bides,
> With lowly souls and home-keeping abides,
> And folds its white wings at our own firesides."

For sale by local booksellers.

ENGLISH CLASSICS FOR SCHOOLS. Selections from the writings of Ralph Waldo Emerson. Sohrab and Rustum by Matthew Arnold. American Book Co., publishers, New York.

The latest publication of the American Book company, in its popular series of English Classics for schools, are Emerson's "American Scholar, Self-Reliance and Compensation," and Matthew Arnold's "Sohrab and Rustum." The name of the compiler does not appear; but the admirable biographical sketches which precede the text of each, as well as the helpful notes with which both are liberally supplied, afford ample proof of the adequate equipment of the author for his task.

Of the Emersonian essays the "American Scholar" has been called our literary declaration of independence. It was delivered in 1837 before the Phi Beta Kappa society at Cambridge, proving, as Lowell says, an event without parallel in our literary annals; received with enthusiasm of approval, with grim silence of foregone dissent. "Self-reliance" carries its own meaning. "In self-trust all the virtues are comprehended," is its keynote; while "Compensation"—in the author's deeper and more philosophic vein—the doctrine of "the absolute balance of Give and Take—the theory that everything has its price," is equally self-explanatory.

It is of course absurd to speak of this as a school book. It contains the best thoughts of a seer, a poet, an essayist, whom trained minds must ever take with a certain stiffening of the faculties. Specifically, it is a book which in the traveler's hand bag will take up no more room than a sandwich, while furnishing food for half a lifetime.

Sohrab & Rustum is a 900-line epic poem founded on the Persian legend by the native poet Firdusi, written toward the end of the tenth century. Mr. Arnold has somewhat modified the original story, rounding out the episode and clothing it with fittingly dignified surroundings.

Both books may be procured of local dealers.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

It Is Never Too Late

To cleanse the teeth, and render the breath [illegible] with fragrant SOZODONT, but it is best to use this wonderful Vegetable Elixir before the teeth begin to fail, and the breath to lose its freshness.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

ESTABLISHED IN 1661.

Adam's Tavern, NORWICH TOWN.

A. A. ADAM, Proprietor.

The following is a list of the best brands of ACKER, MERRALL & CONDIT'S and PARK & TILFORD'S WHISKEYS that I introduced 10 years ago. They have become intensely popular. They sell on their own merits: Imperial Bourbon, Sam Ward, 1883, Maryland Rye, Monogram Rye, Blue Grass, Hermitage, 1880, Union Club Rye, Mayfield Bourbon, Hermitage Sour Mash, Keystone Rye, Cabinet Bourbon, Union Club Wheat.

N. B.—The above goods do not have to be rechristened every six or nine months with a new name in order to make them sell, as is a customary feature with compounding liquor dealers.

A. A. ADAM.

NEARING THE CLOSE.

Coming Week Will End Debate on Silver Question.

SILVERITES WITHOUT CONVERTS.

Great Time for New Members—Voting Will Commence Monday.

WASHINGTON, Aug. 21.—The coming week closes the debate on the silver question. It has taken a wide and comprehensive range, and has been participated in by every interest and party represented in the house. In the debate thus far, it is safe to assert that the silverites have not made any converts. With the exception of two or three speeches, notably those of Bland and Bryan, the former from Missouri and the latter from Nebraska, the silverites have attracted very little attention. On the other hand, nearly all the speeches favoring the unconditional repeal of the silver-purchasing clause of the Sherman act have been able, logical and convincing. Representative Rayner of Maryland, who led off the debate, has received many complimentary letters from all parts of the east and middle states, and thousands of copies of the speech have been called for and sent broadcast.

The last week has been a great one for new men in congress. The oldest members say that they cannot remember a time when so many new men made speeches on an important subject at the beginning of a session. Some of the men have made their mark, and several

Shot Across the Congressional Horizon,

like a meteor that attracts for a moment and then disappears. Pennsylvania contributed one of these nebulous sensations in the person of Mr. Sibley. Representative Everett's speech is regarded on all sides as able and scholarly. It was conservative and not partisan, and these are the speeches that are listened to and that make converts.

The voting will not commence until next Monday. The first amendment which Bland will present, under the five-minute rule, will be free coinage at a ratio of 16 to 1. Bland expects to get a pretty strong vote on this proposition; but it will be defeated. At least 100 Democrats will vote against it, and with nearly a solid Republican vote it will be killed by 50 or 60 majority. All the other amendments which are similar in character increase the ratio from 16 up to 20 to 1, and will be voted down by the same majority. The 20 to 1 proposition is the strongest. Bland expects to get nearly a solid southern and southwestern vote for it, together with the silver states and the new states; but it

Will Be Defeated by 20 Majority.

Then comes the proposition for the restoration of the Bland law for the coinage of two millions per month. It will also share the fate of the other measures presented by Bland and supported by the silverites. When these are all disposed of the bill introduced by Mr. Wilson for the unconditional repeal of the silver purchasing clause of the Sherman act will come up. This will be adopted by 60 majority at least.

YACHT RACES POSTPONED.

Corinthian Sweepstakes Will Be Sailed Later This Fall.

NEWPORT, R. I., Aug. 21.—The annual sweepstakes of the New York Corinthian Racing club has been postponed on account of the thick mist and flying spray, which makes it impossible to see a mark outside, even if the heavy sea would not shatter a mark float almost as soon as it was placed in position.

Tug Scandinavian, with Admiral August Belmont and the Corinthian sailing committee on board, ran out this morning and visited the cup defenders, and all pronounced the conditions too bad for a race. It is a bitter disappointment to the Corinthians, for the heavy gale was just what they wanted.

In all probability the regular August gale has set in here, and the sweepstakes race has been deferred to some date between Aug. 26 and Sept. 10, with two days' notice.

ARRANGING A TRUCE.

Railroad Authorities Wish to Avoid Another Abington Riot.

NORTH ABINGTON, Mass., Aug. 21.—On the 10:20 train this forenoon, President Edward T. Reed and Judge George W. Kelley left for Boston to hold a consultation with General Manager E. G. Allen of the New York, New Haven and Hartford railroad, in relation to the electric road crossing the railroad company's tracks at Rockland.

Consultation is held in the hope that some arrangement can be made between the two companies, so that the riot which happened at North Abington last week will not be repeated at Rockland, when the electric company lay their rails across the railroad crossing this week.

Labor Day Celebration.

ATTLEBORO, Mass., Aug. 21.—Labor Day will be celebrated here this year on a larger scale than in former years. It is purposed to have a parade in the morning, in which all the labor societies in town will take part. A flower division will be one of the features in the line. Children decked with flowers will march at the head of the procession, and after them will come the trades display and the numerous floats representing the manufacturing interests of the town.

Ice Breaker to Be Used.

SHANGHAI, Aug. 21.—It is reported here that an ice breaker has been taken to Vladivostok in order that it may keep the harbor open during the winter for the Russian squadron to be stationed on the east Asiatic coast. The principal duty of the Russian vessels at this station will be the preservation of the seal fisheries in Russian waters of the Behring sea.

Refineries Resume Work.

NEW YORK, Aug. 21.—The big Havemeyer sugar refineries, employing 4000 men, and affecting about 15,000 persons dependent upon them, resumed work last night, after a few days' shutdown. It had been expected that the works would not resume for several months, and the news was received with great rejoicing.

Socialists Make a Demonstration.

VIENNA, Aug. 21.—More than 30,000 socialists made a demonstration in the Prater yesterday in favor of universal suffrage. There was no disorder.

Genuine Asiatic Cholera.

NEW YORK, Aug. 21.—Dr. Jenkins issued the following bulletin at 8 o'clock last night: Antonio Carlova, aged 20 years, who was convalescing from cholera on Swinburne island, died at midnight. The autopsy confirmed the diagnosis of Asiatic cholera. The detained passengers will be sent to Ellis island tomorrow. All the preparations for their departure are complete.

Two Men Struck By a Train.

SYRACUSE, N. Y., Aug. 21.—While crossing the track August Kasten and John Frey were struck by a Rome, Watertown and Ogdensburg train, near Woodard station, and instantly killed.

SURPRISED AND DELIGHTED.

Maharajah Enjoyed the World's Fair and May Write a Book.

NEW YORK, Aug. 21.—The Maharajah of Kapurthala arrived from Chicago last evening with his young wife, his secretary, his doctor, his cook and his retinue of 40 attendants.

The maharajah through his secretary, said he was both surprised and delighted with the World's fair and would find much pleasure in telling of the wonderful sights when he reached home.

He will remain in town for perhaps a week and will probably visit Coney island again and attend the races. When he is again with his own people he may write a book of impressions.

DOVER MUCH EXCITED.

Attempt to Burn Four of Its Churches In One Night.

DOVER, N. H., Aug. 21.—There is much excitement in the city today over Saturday night's wholesale attempt to burn the churches of the city.

In addition to the fires in the Belknap and First Parish churches, it has been found that attempts were also made at the Methodist church and the Advent church in St. Thomas street. At the latter place a lot of inflammable stuff was found piled up under the steps and at the Methodist church the attempt was similar, waste having been piled up under the stairs near a pile of dry wood, and the carpets saturated with kerosene.

Every one is at a loss to understand why this attempt has been made to destroy Dover's houses of worship. The fire engineers think they have a clue to the incendiary, and are closely watching the suspected party. Close watch will also be kept at the churches for the present.

The general opinion is that some demented person, with a mania for fires, is doing the work.

IN THE SENATE.

Numerous Bills Introduced and a Silver Speech by Morrill of Vermont.

WASHINGTON, Aug. 21.—In the senate today numerous bills which had been introduced and were pending in the last congress were reintroduced and referred to committees. A substitute for the national bank currency bill was offered by Mr. Peffer (Populist) of Kansas, proposing the issue of $350,000,000 of treasury notes to be deposited in the treasury and to be available as cash.

A resolution was offered by Mr. Chandler (Rep) of New Hampshire declaring that there was no lawful election of United States senator in Kansas when Mr. Martin was declared elected; also one looking to the opening of a coast line of waterways. These were referred to committees. Mr. Morrill (R. p.) of Vermont then addressed the senate on the subject of silver.

FISHERMEN PICKED UP.

Two Gloucester Men Had Drifted Six Days in an Open Boat.

PORTSMOUTH, N. H., Aug. 21.—Schooner Annie F. Conlan, which arrived here yesterday with the body of a Portuguese who had fallen from the topmast, also brought in two Gloucester fishermen—Edward E. Hines and Harry Hepson—found adrift in a dory on the 16th inst.

They belong to the fishing schooner Bertha May, and got separated from the vessel on the 10th. Thus they had been six days in the open boat, but, as they had some food and plenty of water, they got along without great suffering, except from the weather. Both are young men.

They arrived in the city this morning and will at once be sent to Gloucester, Mass.

Gone With Insolvency.

SALEM, Mass., Aug. 21.—Mrs. Sarah M. Roberts and Henry H. Roberts have filed a voluntary petition of insolvency. Mrs. Roberts is the owner of the Ocean House, Gloucester, and Mr. Roberts is the proprietor of the Ocean House stables. Mrs. Roberts' liabilities are $18,000 and her assets consist of a mortgage that covers the house. Mr. Roberts' liabilities are $2000, with no assets.

France and Siam.

BANGKOK, Aug. 21.—The King of Siam yesterday gave an audience to M. Lemyre de Vilers, the special envoy of France, who is charged with the arrangement of the details of the settlement between Siam and France. The king renewed his assurances of friendship for France, and expressed the hope that the present amicable relations between the two countries would continue.

Pawned Borrowed Wrench.

LAWRENCE, Mass., Aug. 21.—Patrick Sullivan, alias Francis Sullivan, was arrested in this city this morning upon a warrant dated Feb. 18, charging him with larceny in Lowell. Sullivan went into the shop of the Middlesex company in that city and borrowed a wrench, which he subsequently pawned.

Charged With Stealing a Watch.

PORTLAND, Me., Aug. 21.—Judge Gould this morning continued until Friday the case of Roscoe L. Perkins a boy of 18, who was arrested in Gray and who is alleged to have stolen a gold watch in Sedgwick. He claims to belong in Bangor, and his case was continued for investigation.

NEWS IN BRIEF.

A cholera patient died on Swinburne island.

Parliamentary elections were held in France.

Nine thousand striking western miners are to return to work.

Five persons were killed in a severe storm at Somerville, N. J.

The massacre of Italians by Frenchmen, is likely to cause international trouble.

Silas A. Wilder of Cambridgeport, Mass., commits suicide by hanging himself in the cellar of his home.

Mrs. Mary Mulhearn of East Cambridge, Mass., was stricken with paralysis in church and died soon afterward.

Barre, Vt., is to have a third hose company and hook and ladder company and 14 municipal electric fire alarm boxes.

Frank Kimball, aged 25 years, of Greenfield, N. H., was drowned in Island pond, Pelham, by the overturning of a canoe.

Saturday night burglars drilled into the safe in the office of C. H. Reed & Co., at Richmond, Me., but failed to open the doors.

Mrs. Ellen Mellon's store, at the Oaklands, in Lowell, Mass., was broken into Saturday night and a large amount of provisions stolen.

J. H. Jackson of Barre, Vt., and J. E. Macomber of Montpelier, Vt., have been appointed to their old positions as medical pension examiners.

The prominent citizens of West Randolph, Vt., who, it is alleged, is responsible for the death of Miss Aurora Flint July 8, has disappeared.

The burglars who entered the Nesmith House at Lowell, Mass., last week secured three sealskin sacks, one valued at $320, jewelry and other valuables.

The Atherton machine works at Phoenix, Mass., near Tewksbury, have shut down for one week, and will remain closed indefinitely if business does not improve. This throws 300 men out of employment.

NAVAHOE GIVES UP.

Britannia Wins Again With Calluna Second.

AMERICAN LED AT THE START.

Fell Away Dreadfully to Windward—The Story of Carroll's Defeat.

TORQUAY, Aug. 21.—There was a strong single reef wind for the big yachts in the regatta at Torquay today. The starters were the Britannia, the Satanita, the Navahoe and the Calluna.

The American boat had a splendid lead at the start, which she kept to the first mark, when she fell away dreadfully to windward, and in one round of 11 miles was beaten 2 m. 10 s. by the Prince of Wales' boat, the order being: The Britannia, the Calluna, the Navahoe and the Satanita.

The last named yacht was unfortunate enough to lose seven minutes by a bad start and picking up a man overboard. At the end of the third round, with one round still to go, the Navahoe was 7m. 40s. astern and soon after withdrew from the contest.

The race was won by the Britannia, which led the Calluna 4m. 7s., and the Satanita 7m. 7s. The course was 44 miles in length, and was sailed in 5h. 36m. 4s.

THE POLICEMAN WAITED.

Apple Thief Couldn't Stand the Cold Water and Surrendered.

SALEM, Mass., Aug. 21.—Henri Castonguay, who resides at the Point, was detected this forenoon in the act of stealing apples from a South Salem orchard by Officer Tivnan. The officer had received many complaints from the owner of this orchard about persons helping themselves to the fruit and he gave chase to the thief. Castonguay perceived the officer advancing upon him in quick time. The pursued and pursuer were headed towards South river. Castonguay did not wish to be locked up so he plunged into the river up to his neck.

The officers had some regard for the uniform he wore and he refused to budge beyond the edge of the water. Here followed a scene of will and won't that will be remembered by the sightseers for some time to come. Castonguay refused to come out, and thereupon the officer took a seat on a log to await developments. Castonguay had all his clothes on and did not dare to do any swimming. At the end of 30 minutes the apple thief was so numb with cold that he was willing to come ashore and give himself up, which he did.

DEAD OR ALIVE.

Problem That Pension Examiner Jenkins Is Trying to Solve.

RAHWAY, N. Y., Aug. 21.—The United States pension examiner, Charles E. Jenkins, is trying to solve the problem whether James Tuff is dead or alive.

A man of that name entered into the civil war with the Sixty-eighth New York regiment, and was afterward with the Sixty-third New York and a company of the First Connecticut cavalry.

After receiving his discharge he came to Rahway and married Miss Julia Duffy, whom he abandoned in 1873 saying he was going to South America to work on a railroad.

The vessel on which he was supposed to have gone was lost off Cape Hatteras with all hands.

This woman made application for a pension about three years ago, and from the minute description the department discovered a James Tuff in the soldiers home at Bath, Steuben county, N. Y., whose description as to height, weight, etc., tallies exactly with that of the dead man.

THE FRENCH ELECTIONS.

Many New Ballots Will Be Required to Settle District Representation.

PARIS, Aug. 21.—In First arrondissement of Paris the election figures are: Yves-Guyot, 3138; Goblet, 4730; Muzet (Moderate), 2508. Goblet's success in the re-ballot is not regarded as assured. Later returns from the Eleventh arrondissement show that Lockroy was not elected, and that a new ballot will be necessary.

In the 18th, Paulin-Mary (Boulangist), was elected by a large majority to succeed himself. The result in Lille is regarded as peculiarly significant. M. Loyer, a Catholic who has become reconciled to the republic, and belongs to the so called party of the "rallied," was elected by vote of 7081 over M. Lafargue, a Socialist who received 4745 votes.

Felix Jules Meline, the French minister who in the last chamber represented a district in the department of the Vosges, was re-elected by 11,251 votes. Charles Ferry was returned from the same department.

In the Twelfth, M. Pichon of La Justice ran but 869 votes behind M. Michelin (Boulangist), and will probably be elected on the re-ballot. Clovis Hughes heads the poll by 1000 votes in the Nineteenth, although a re-ballot will be necessary.

In the Seventh, M. Andrieux, the ex-prefect of police, received 4300 votes; M. Frebault, Republican, 4490; M. Lerolle, Rightist, 3041. M. Andrieux's chances for winning ultimately are fair. Ex-Minister Jules Roche and Leon Say are among the candidates to take part in re-ballots.

M. Basly and M. Lamendin, the socialists, who were expelled from Belgium at the time of the miners' international congress in Brussels, last May, were elected. Papillaud, the anti-Semitic sub-editor of La Libre Parole, was defeated.

Trench Diggers Quiet.

BOSTON, Aug. 21.—The battle of the trench diggers, which took place Saturday afternoon at the corner of Northampton street and Shawmut avenue was not continued this morning. There was too much rain for trouble.

THE EPICURE.

Use none but a silver spoon for your sweetmeats—dip with it your jellies while boiling into glasses and molds.

Roman bread is an attractive novelty for luncheons. It is made of richly colored paste rolled in long, thin tubes and tied together in bunches of six with narrow ribbons.

It is a thing worth knowing in these "grilling days" that meat should never be placed directly on the ice, as the juices will be absorbed. Put it on a dish and set in a cool place.

A pound of rice contains 86.09 per cent of nutritive matter. Lean beef contains but 26.83 per cent. Fat beef contains 46.03 per cent; potatoes, 23.34 per cent; Indian corn, 82.97 per cent; oats, 74.02 per cent; rye, 82.78 per cent, and wheat, 82.54 per cent.

EDUCATIONAL ECHOES.

Public schools have been in existence in Massachusetts since 1642.

San Francisco has 35 free kindergartens, of which 19 are memorial.

The University of Michigan has 50 of her own graduates as members of the various faculties.

The seniors at Colby college, Maine, have voted to wear caps and gowns at their commencement exercises.

THE PRATTLER.

Lady Caithness gave a ball in Paris, when supper was served at 5 o'clock in the morning.

Miss Etta Rabbitt of New Bedford, Mass., has had her name changed by the probate court to Ella Rabbitt.

Miss Belknap, daughter of the ex-secretary, is a handsome blond, tall and of fine figure, who dances, fishes and swims equally well.

Lizzie Borden polled nearly 100,000 votes in a World's fair coupon contest conducted by the Boston Journal, but refused to make the trip after winning it.

Mrs. Abigail Smith is 94 years old and lives at Patchogue, N. Y. She has a remarkable memory, reads without spectacles and considers herself quite young and frisky.

Miss Helen Gould recently said in answer to some inquiries about her large expenditure on charities, "To be wealthy and not know how to enjoy money is to be in a wretched state."

Mrs. George B. McClellan, who, after visiting her daughter, Mme. Dupres, wife of M. Paul Dupres of the French legation at Bern, is now in San Moritz, will sail for home in October.

Lady Carlisle is training an entire staff of women gardeners, who, she hopes, will keep the grounds of her Yorkshire home in as perfect a condition as their male predecessors have done.

Miss Sallie Pierson, a compositor, has been appointed state organizer of the Federation of Labor for Indiana. She has supported herself and mother by typesetting since she was 15 years of age.

Miss Kate Kane of Chicago gives notice that she is out for a judgeship. She is willing to accept a nomination from either of the political parties or from both of them, but if ignored will run independently.

Miss Florence Nightingale recently celebrated her seventy-third birthday. Although for many years confined to her house by constant ill health, she is ceaselessly at work for the welfare of her fellow creatures.

If Mrs. Whitelaw Reid on the occasion of great receptions should line the hall of her country house from entrance to staircase with flunkeys, as is the fashion in Europe, she would need at least 50 of them, for the hall is 73 feet long.

Miss Kirby Smith, daughter of the famous Confederate leader, was only a fourth class postmistress when she was given the office at Sewanee, Tenn., but she has managed it with such tact as to carry it into the presidential class, and she now gets $1,200 a year out of it.

Miss Kitty C. Wilkins, Idaho's horse queen, has a range containing 3,000 horses of high grade, broncbos being carefully excluded. Miss Wilkins, who is about 30 years old, does the buying and selling, while her father and brothers do the harder, practical work about the place.

During the last Paraguayan war it was noticed that the men who had been without salt for three months, and who had been wounded, however slight, died of their wounds because they would not heal.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 21.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

For the list as a whole the stock markets this morning opened stronger. This, however, was the result of no general improvement in conditions, but of the large short interest and the attempt of some of the traders to cover. Stock liquidation for the moment appears to have stopped, but it has been succeeded by a general bond liquidation, which is now in progress, and which is a [illegible] the weakness of that class of securities. London came ⅜ weaker for St. Paul, but otherwise its quotations were unchanged, and it played no part in the market here.

The local market opened with little disposition to sell General Electric, starting off ½ down at 37¼. It rallied steadily to 41½, weakening a little later. Sugar likewise was steady. Opening ½ down at 73¾, it rose to 74¾, declining at noon to 73¾. Atchison crawled steadily up, starting ¾ off at 15, it rallied to 16¾. Union Pacific opened ⅝ weaker at 16¼, but advanced to 17¼, though dropping again to 17¼. New York and New England at 16⅜ was ⅛ up, while the 7s at 100 were 2 off and the first 6s at 101 were 1½ off. Chicago, Burlington and Quincy opened ⅜ stronger at 73⅜ and advanced to 76, while the convertible 5s lost ⅛ to 90.

Pork closed nearly steady today, at $12.70 for cash; $12.70 for August; $12.75 for September; $12.85 for October; $12.90 for January.

Lard closed nearly steady today at $8.40 for cash; $8.40 for August; $8.50 for September; $8 00 for October; $7.60 for January.

Short ribs closed firm today at $7.90@7.95 for cash; $7.90@7.95 for August; $7.95 for September; $7.60 for October.

New York Cotton Market.

NEW YORK, Aug. 21.—Cotton easy; uplands, 7 5-16c; Orleans, 7 9-16c; sales 60 bales. Futures closed steady; sales 112,100 bales. August, 7.06c; September, 7.06c; October, 7.16c; November, 7.26c; December, 7.36c; January, 7.44c; February, 7.51c; March, 7.59c.

THE TAXIDERMIST.

A snail travels at the rate of a mile in 14 days.

The head of the rattlesnake has been known to inflict a fatal wound after being severed from the body.

Ostrich taming is a very profitable industry in Africa, where it is computed there are over 150,000 tame birds.

In the Shetland isles there is a gull which defends the flock from eagles. It is therefore regarded as the privileged bird.

A frog cannot breathe with its mouth open. Its breathing apparatus is so arranged that when its mouth is open its nostrils are closed. To suffocate a frog it is necessary only to prop its jaws so that they cannot shut.

The sea horse is built upon a peculiar plan. It has the head of a horse, the wing of a bird and the tail of a snake. In swimming it assumes a vertical position, and when wishing to rest it attaches itself to a convenient stalk of seaweed by means of its tail.

THE SCIENTIST.

Some natural philosophers say the lightest whisper must continue its journey through space forever.

In order to realize the size of a water molecule you must imagine a drop of water to be magnified as big as this earth, and then a molecule would be between the size of a small shot and a cricket ball.

Snow appears white because it is an aggregation of an infinite number of minute crystals, each reflecting all the colors of the rainbow. These colors, uniting before they reach the eye, cause it to appear white.

The measurement of the earth in miles is given as follows: Diameter at the poles, 7,899; mean diameter, 7,911; diameter at the equator, 7,924; circumference round the poles, 24,818, mean circumference, 24,855, and circumference round the equator, 24,896.

It Fooled Him.

"What is the matter?" said the gnat to the mosquito.

"I'm disappointed."

"How?"

"I've worked for 10 minutes on what I thought was a small bald spot."

"Well?"

"The man had a wig on."—Exchange.

Good Cooking is essential to **Good Digestion**—

in pastry you cannot have either without a good shortening. Lard has always had very objectionable features, causing indigestion and many other dietetic troubles. Science has come to the assistance of the cook, and of weak stomachs, with the new shortening,

COTTOLENE

It is composed of the choicest beef suet and highly refined vegetable oil in many respects as good as the finest imported olive oil. Physicians endorse it, cooking experts recommend it, and thousands are now using it in preference to any other shortening. Refuse all substitutes.

Send three cents in stamps to N. K. Fairbank & Co., Chicago, for handsome Cottolene Cook book containing six hundred recipes, prepared by nine eminent authorities on cooking.

Cottolene is sold by all grocers.

IN VACATION DAYS.

Many Children Who Do Not Find Health in Simply Ceasing from Study in the Summer—The Case of A. H. Chandler's Daughter.

Enthusiastic parents praise Paine's celery compound; their feeble daughters and sons gain weight and color by using it.

Energy and a feeling of well-being in place of depressed spirits, irritability and weariness, is the unvarying story from those who take Paine's celery compound, the remedy that makes people well.

Children upon whom the duties of school rest heavily and who do not find health in simply taking a vacation, should take Paine's celery compound. Alfred H. Chandler, Esq., of Bellefonte, Penn., writes to the proprietors of this great remedy:

"My daughter is today as well as she ever was in her life, but I believe that if we had not got Paine's celery compound for her that she would not be here with us today. She was attending school, but got 'run down' and her illness developed into what the doctors said was rheumatism and rheumatic fever. Every one said she could not live. I employed three doctors, but they gave her no relief. I read about Paine's celery compound in a paper one day. I believed it would help her, so I went down town and got a bottle of the compound and hurried home and commenced giving it to her according to directions.

"By the time she had taken half of the bottle she was able to sit up in bed, and by the time she had used four bottles she was free from pain. We continued to use the compound. When we began she was nothing but a shadow. Today she is as strong as she ever was, and we have not anyone to thank for it only Paine's celery compound." aug22d

The Bulletin.

Norwich Tuesday, August 22, 1893.

The Bulletin should be delivered everywhere in the city before 6 a. m. Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Weather Today.

Indications for Connecticut: Fair weather, northwesterly winds; slightly warmer; probably fair Wednesday.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY

CITY NEWS.

A. O. U. W. meets tonight.

A sloop went ashore on Fishers Island in the storm last night.

Abram Geer of Norwich has been granted an original pension.

Cards are out for the wedding of Editor Allis of The Groton Review.

Residents of Laurel Hill are suffering from a series of petty burglaries.

Bluefish are plenty in the Thames this year. A Norwich boy caught 120 Friday at Fort Point.

The frame of Mr. William B. Chapman's new house on Laurel Hill avenue is climbing skyward.

T. H. Webster and T. Dobson of Taftville have been granted a patent for a lug connection for picker sticks.

New London ladies complain because the man who drives the street watering-cart deluges the crosswalks.

Mr. Charles B. Hilton, for many years train dispatcher for the Norwich & Worcester railroad, resigned his position Saturday.

William S. Rathbun, for nearly a dozen years clerk in the superintendent's office of the Norwich & Worcester road, resigned on the 19th.

Luke Clancy of Westerly has received an appointment as watchman in the treasury building at Washington, through Congressman Page.

A water main burst on North Main street Monday afternoon and deprived most of Greeneville of a water supply until it was repaired.

Captain Joseph Bereton, an old-time whaler, for many years captain of the Leander, died at his home in Mystic Saturday, at the age of 74.

The lighthouse supply steamer Cactus, from New York to New London, was obliged to put into New Haven Sunday on account of the high seas.

The Laurel Hill extension of the electric road is covered and completed as far as the Hall property. The work has stopped for the want of ties.

James L. Root, late in the office of the Colchester Rubber company, has gone into the office of the auditor of freight receipts of the Consolidated road at New Haven.

Meriden German Catholics are arranging a reception for their pastor, the Rev. Ignatius Kost, who will return from Europe on Friday. Fr. Kost is well known in this city.

The barge Cerro Gordo from New London, which came up the river several months ago loaded with stones, and lies down stream half full of water, will be pumped out this week and towed to New London for repairs.

The Westerly Sun predicts that the ball game in that city on Saturday next will prove of more than ordinary interest, adding, "for the Clippers of Norwich, after their defeat of a week ago, will make every endeavor to win this game."

A Westerly clergyman must be trying to stir up bad blood, judging by the subject chosen for his Sunday sermon, "Was Paul a woman-hater?" It is now in time for some original divine to accuse Solomon of inquiring, "Is marriage a failure?"

The rain-fall of Sunday and Monday morning amounted to 1.25 inches. Supt. Bartlett turned on the water from Bog Meadow, Monday, and a small stream is flowing into the reservoir, where the water is about 45 inches below high water mark.

Mrs. Nathan D. Bates died in Preston Monday morning after a long illness, at the age of 58 years. She was born in Sag Harbor, N. Y., and was the daughter of [illegible] Nickerson. Her children are Addison G. Bates and Mrs. John F. Bennett of Boston.

At the bleachery a novel method has been tried to secure more light for the beetle and calendaring rooms. The outside walls of the building and the sides of the opposite building have been whitewashed, and the reflected light makes a great improvement on the former darkness.

The souvenir spoon has struck Norwich in a new form. A local firm is displaying spoons of local associations: Sister memorial, St. Patrick's church, Soldiers' monument, &c., besides a new golden-rod spoon which should certainly help on the claims of that flower to be the national blossom.

Frank Carroll, a popular letter-carrier and T. A. B. man of New Haven, is being put forward as possible president of the State C. T. A. union. The annual meeting for election of officers occurs in New Britain Tuesday next, when Mr. Carroll will receive the support of thirty New Haven delegates.

The steamers Ella and Block Island arrived at their wharves at 5 o'clock Monday afternoon. Owing to the heavy gale blowing on the sound the Ella did not go beyond Eastern Point. She broke all her lines in making the landings on the river. The Block Island went only as far as Watch Hill.

A wire of a fire alarm circuit was broken near the shop of C. B. Rogers & Co. Monday afternoon and the Second Congregational church and Greeneville bells kept up an erratic ringing for some time. The wire was broken by a falling tree that had been cut down.

A bicyclist was riding through Chestnut street shortly after 6 o'clock Saturday night, in front of Luther Rawson's stable, when an unbridled horse, that was getting up an appetite on the green grass, kicked over the bicycle and rider. The man was severely cut on the head and the machine badly damaged. The teamster who had allowed the horse to wander in the street settled Monday for the damage done.

Town Clerk Freeman has received returns from the state board of health of the registration of two physicians of this city, in accordance with a recent law of the legislature. They are S. W. Fiske and N. P. Smith. Only three doctors in New London have complied with the act. The law must be complied with by Oct. 1 or a fine will be imposed.

In an article on river pilots The Hartford Telegram says: Captain Charles Atwell steers the Hartford through the narrow channels of the Connecticut, and has plenty of service behind him on which to call for practice. As pilot on the Silver Star, on the Sunshine, and on the City of Richmond, Captain Atwell has traversed the river many times, and has not a superior in the business.

The Sibley Manufacturing company is building paper machinery for the estate of C. M. Robertson, Montville, Conn.; for Keeney Brothers, Manchester, and a sixton washing engine for the Saranac manufacturing company of Providence, R. I. The firm is quite busy making repairs and doing new work for mills that are improving the present shut down to make repairs, etc.

A stranger accosted an officer at the West Side station at 3 o'clock Monday afternoon and asked his assistance to restrain his wife from leaving on the 3.30 train, and also to prevent her trunk from being forwarded. The policeman refused to interfere, and after arguing with the woman and trying to take her trunk from the truck, the man retired from the platform and the woman departed southward, bag and baggage.

Fay Wins the Horsman Mallet.

The seventh croquet contest between Apgar and Fay for the Horsman mallet was won by Fay, Monday. This was his fourth victory and entitled him to hold the prize until it is won in a similar contest.

Sudden Death of Mrs. Campion.

The wife of William Campion, the well-known hackman, died very suddenly at her home on Golden street about 4 o'clock Monday afternoon. Mrs. Campion had just ascended the attic stairs when she was seized with hemorrhage and expired in five minutes. Her husband was summoned from the Wauregan house, and was nearly prostrated at his wife's death, as he had left her in apparent good health a few hours before.

Mrs. Campion was 47 years old, and came to this country from Ireland when a young girl. She was married nineteen years ago and since then, until three years ago, has resided near the Catholic church in Greeneville. Her husband and four young boys survive her.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

SUMMER TRAVELERS.

Where They Find Recreation and Rest.

Misses Hattie and Alice Easton of Fall River and Miss Gertrude Eddy of Brooklyn, are visiting Miss Lathrop of Otis street.

Dr. Harriman and wife leave this week for the World's fair and a two weeks' absence.

Miss Irene W. Coit is by the seaside with the family of Professor Smith at Pleasure Beach.

Mr. Brenton B. Allyn and wife of Preston are rusticating near Old Mystic.

Miss Ida J. Johnson of Prospect street is enjoying her vacation with relatives in Westerly.

The Rev. and Mrs. E. G. Selden of the South church, Springfield, Mass., have spent the week with Mrs. Selden's father, Mr. William H. Jennings of Laurel Hill avenue.

Mr. and Mrs. John M. Newton of this city are visiting friends in and about Stafford Springs.

Miss Nettie Beckwith of New London is visiting friends in Norwich.

Mrs. Erastus Tuttle and her little grandson are spending the week at the Belknap Cottage, Niantic.

Mr. Frank T. Maples very pleasantly entertained with recitations the Hartford and Springfield campers and neighboring summer visitors at Harvard Cliffs, on the Thames, below Gales Ferry, last Friday evening.

Miss Comfort Ward has returned home from a three weeks' pleasure trip to Watertown and vicinity.

Frank Bartlett Travis, an expert electrician of the Postal Telegraph company's Boston office, is visiting friends on Laurel Hill.

Mr. and Mrs. E. J. Estlow, Mr. and Mrs. Robert Knox and Elmer C. Benedict of Hartford are among recent visitors to Niantic.

Mr. Julius Cadden of this city has joined Moses Blumenthal, Abe Hutter, William Becharach, Gus Goldstein and Moses Katzenstein, Hartford friends, in his visit to the White City.

Miss Lizzie Paterson of Brooklyn is with Mrs. Thomas Service for three weeks.

Miss Annie Wilson, whose home is in Newport, is being entertained by her friend, Miss Maud Clark.

John Porteous, of the firm of Porteous & Mitchell, and Charles Trankla of the firm of Trankla & Jamieson, Grand Rapids, Mich., are spending a few days at Block Island.

E. A. Prentice and Charles W. Coit left on the boat train Monday night for Chicago. They will visit the World's Columbian exposition for several weeks.

The Rev. Dr. Pratt and wife and W. R. Burnham and wife are at Temple Grove, Saratoga. The Daily Saratogian of Saturday says: "Gloomy skies and falling rain without only emphasized the brightness and cheer of the drawing room at Temple Grove last evening. A mysterious announcement upon the bulletin board invited all the guests to an olio party at 8 o'clock in the evening. Each guest was provided with a sheet of paper with numbers down the side, on which were to be written the titles of books, which were represented in various ways by articles scattered about on several tables in the center of the room. After half an hour spent in earnest deliberation, the papers were handed in, the guesses counted and prizes awarded. Mr. Burnham of Norwich with a graceful and appropriate speech presented the first prize to the Rev. A. C. Sewall of Schenectady. Various amusing games followed, notably a potato contest, in which Greek met Greek, when Dr. Lewellyn Pratt of Norwich and the Rev. A. C. Sewall were pitted against each other, each armed with a tea spoon, with which six good sized potatoes were to be picked up from the floor and deposited in a dish. After the shouts of merry laughter and the tumultuous applause which followed the efforts of these reverend and distinguished gentlemen had subsided the guests separated, feeling that even rainy evenings could be made delightful in such charming company."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THE CITY MEETING.

The Appropriation Made for Widening Thames Street—The Police Matter Indefinitely Postponed.

Over 200 interested citizens met in the Town hall at 8 o'clock Monday night, to take action on the call for a city meeting to consider the purchase of the Grant and Maloney properties at Thamesville; to make appropriations for the same, and also to increase the pay of the police department and to authorize a tax to meet these appropriations.

Mayor Harwood called the meeting to order and, after Clerk Spalding had read the call, stated the object of the meeting.

Lawyer Joseph T. Fanning followed with a general explanation of the Thamesville improvement and offered a resolution instructing and empowering the common council to appropriate a sum, not to exceed $3,000, to purchase the Grant and Maloney properties and to take action for the accomplishment of this resolution.

Mr. Walter C. Higgins spoke in favor of the resolution, and said if the improvements were made the Richmond Stove company stood ready to extend it by giving to the city a strip of land 300 feet long and 8½ feet wide.

Estimates of the cost of the work, prepared by City Surveyor Chandler, were read. To put the recently acquired property in a safe condition for travel would cost $2,000. This, with the sum already expended, would use up the $4,000 appropriated for the work.

Col. Carpenter and Corporation Counsel F. T. Brown said the meeting had no authority to order the court of common council to make the improvements.

Col. J. P. Murphy and Mr. Higgins followed with pleas for the improvement which was necessitated by public business and travel.

N. Tarrant informed the citizens that the price asked for the property was less than it was worth, as one house paid 10 per cent. on $1,800.

A motion to indefinitely postpone the matter was lost, as was also an amendment providing that the improvement be made, only if the court of common council deem it for the best interest of the city.

A vote on the original resolution instructing and empowering the common council to make the appropriation resulted in its adoption, with 130 in favor and 71 opposed.

The motion to indefinitely postpone the increasing of the appropriation for the police department was sustained unanimously.

A resolution to meet the street appropriation was presented by Alderman Aborn, levying a tax of one-half of one mill on every dollar on the last perfected city list, to be paid on the first Monday in October. The resolution was carried.

A compensation to the collector of one per cent. on the amount collected and turned over to the city treasury was voted, and the meeting adjourned.

The discussion of the various motions and amendments called out several sharp speeches and kept the voters in good humor.

Bicycle Notes.

Zimmerman captured fourteen firsts, one second and one third at the recent world's fair meet. Tyler coming next with four firsts, two second and a third. Warren, although the victim of two bad smashups, took one second and a third.

Fuller, Herman, Seeley, Jones, Alexander and several riders of lesser note, are at Charter Oak preparing for the fall circuit.

H. E. Crist, at one time America's champion safety rider, is running an elevator in Washington.

Carl Hess has joined the ranks of the cash prize league.

Harry Wheeler, the "Zimmerman" of the cash prize league, has won $2,250 thus far this season.

J. S. Starbuck, one of the cash prize men, was never on a wheel until two weeks ago; since then he has won $300 in prizes. Before he began riding he was working on a farm for $10 a month.

T. C. Hoffman of Rockville, who left that city on July 8 on a Victor ordinary, reached there on the 18th, covering the entire distance without a mishap. Mr. Hoffman says that during the trip he overtook a number of safety riders with punctured tires, and he still thinks that for hard, hilly and sandy roads the ordinary is still on top.—[Hartford Telegram.

WILLIMANTIC.

Matters of Local Interest.

The funeral of the late William M. Gorry was held from St. Joseph's church Monday morning. Interment was in the Willimantic cemetery.

Company E, Third Regiment, C. N. G., left for Camp Morris Monday morning with full ranks. The boys went off in high spirits notwithstanding the fact that a drizzling rain set in, which lasted nearly all day.

J. P. Sullivan of this city leaves on Saturday to join Haworth's New Irish Comedy company, and will assume the character of a North of Ireland lad, which is one of the leading roles. Aside from introducing new roles he will act as stage manager.

Henry L. Edgarton and wife have returned from a trip to the World's fair.

Camp meeting closed Monday with a small attendance. The rain Sunday kept hundreds of Willimantic people away from the grounds.

Miss Mabel E. Pearl of Providence, R. I., is visiting friends in this city.

Miss Bertha Knowlton of Providence is spending her vacation with her parents in this city.

A MOTHER'S BRAVERY.

Kills a Rattlesnake which was in a Cradle with the Baby.

OAKLAND, Ill., Aug. 21.—Mrs. James Williamson, who lives near here, had a terrifying experience yesterday with a rattlesnake. She had left her 6-months-old baby asleep in its cradle near the open door and was about her household duties when she happened to approach the little bed.

She saw a line of mottled green and black nestled closely to the form of the sleeping little one. The ugly head was raised and resting on the child's arm, with the eyes keeping drowsy watch over it.

The mother, arming herself with a pistol, bent over the cradle, laid hold of the snake by the end of the tail and suddenly gave it a jerk which landed it on the floor. The reptile raised its head, sounded its rattle as it coiled close to her feet. Aiming steadily, she put a ball through its body, and, although it again tried to attack her, she continued firing until it was dead.

CARRIED A BLACK FLAG.

Parade at Newark was Made Up of Foreigners.

NEWARK, Aug. 21.—The hungry parade this morning was a disappointment to its projectors. There were only about 300 in line, and they were mostly foreigners.

The paraders looked neither ill fed nor ill dressed. They carried banners, on which were inscribed such legends as "We suffer in the midst of plenty."

A black flag was carried in front of the ranks. As the parade passed the city hall the mayor espied the black flag, and ordered a policeman to take it away from the man who carried it.

There were no disorder, and the parade disbanded about 11 a. m.

Crompton Mills Start Up Next Monday.

PROVIDENCE, R. I., Aug. 21.—The Crompton company's mills at Crompton, which shut down two weeks ago for four weeks, will start up next Monday, a week earlier than intended. Several thousand pieces of print cloths which the company had stored at the mills were sold last week and the stock on hand considerably reduced.

DIED.

BATES—At Preston, Aug. 21, Sarah E. Nickerson, wife of Nathan D. Bates, aged 58 years.
Notice of funeral hereafter.

WILSON—In Willimantic, Aug. 19th, Mrs. Lucy E. Wilson, aged 67 years.
There will be a prayer at the house of George M. Harrington, Willimantic, on Tuesday morning, Aug. 22, at 9 o'clock, after which the remains will be taken to the residence of Frederick Harvey, Hamilton street, Preston, where services will be held at 2 o'clock in the afternoon. Relatives and friends are invited.

?? QUESTIONS —AND— ANSWERS ??

Q—What is Cottolene?
A—A clean and healthful fat for cooking purposes.
Q—Of what is it composed?
A—Beef suet and refined vegetable oil.
Q—What are its advantages?
A—It costs less than lard, and a less quantity is required to produce satisfactory results.
Q—Why was it originated?
A—To supply a demand for a cooking fat to take the place of lard.
Q—Is not lard always satisfactory?
A—Many people are prejudiced against the use of lard.
Q—Where can I be supplied with Cottolene?
A—Nearly, or quite all dealers in groceries sell Cottolene.
Q—What have you to do with Cottolene?
A—I supply the retail trade direct from the manufacturers.

TRIED TO HOODWINK "THE FINEST."

New York Anarchists Hold a Meeting—Raided by the Police.

CLUBS USED VIGOROUSLY.

In Secret Session the Situation is Discussed Amid Great Disorder.

NEW YORK, Aug. 22.—The anarchists tried to hoodwink the police today and hold a meeting at 97 Stanton street. They had given out that the meeting would take place at 2 o'clock, but instead of that time held it at noon. Several speeches had been made when suddenly Police Captain Devery and a dozen roundsmen moved down upon the meeting. Great excitement ensued. Fully 3,000 persons blocked the street and sidewalks. Some anarchists attempted to fight, but a vigorous use of clubs soon discouraged them. Finally the mob was driven away and order restored.

When it became generally known that no more meetings could be held to induce the unemployed to riot, the more judicious of the socialists and anarchists met in secret session and discussed the situation. It is said Emma Goldman delivered a fiery speech. Captain Devery was roundly abused. They decided to speak in spite of the police, and plans were made for capturing the mass meeting of members of the United Hebrew trades, to be held in Pythagoras hall this afternoon. The object of this meeting was to try to find measures of relief for the unemployed. As the members of the union are for the most part peaceable, no trouble was expected. As a precaution Captain Devery was sent with a dozen officers in citizen's clothing and four in uniform.

A speaker was introduced to the meeting and started to tell the men how their condition could be ameliorated. From all over the hall shouts went up for speakers that were not known to the officers of the Hebrew united trades. Gradually the rough element present began to assert itself. There were repeated cries for bread and epithets were hurled at the capitalists. Chairman Milch pounded with his gavel for order.

Captain Devery instructed his men to eject the disturbers, several of whom he recognized as anarchists. The crowd was so dense that the policemen were unable to reach them. The anarchists kept circling in around the rostrum. Among them was a surly-looking man with a red flag partly hidden under his coat.

When the speaker finished several anarchists sprang forward, mounted the platform and commenced to harangue the meeting. Captain Devery started to force his way to the platform, shouting, "Stop, stop!" Chairman Milch pulled one anarchist from the front and demanded what he meant. The anarchists seeing that they did not receive any support plunged back into the crowd. The police were so few in number that they were powerless to reach and arrest them.

Alexander Jonas intensified the excitement by shouting out, "What right have the police to interfere?"

Captain Devery shouted back that he could not discriminate between the peaceable and the anarchists and that the meeting would have to end. Jonas said: "You can disperse the meeting, but I'll remain. Chairman Milch then asked all to depart before blood was spilled. The meeting broke up in the greatest disorder. Excited knots of men gathered outside of the door and denounced the anarchists. Captain Devery has men out looking for the anarchists who created the disorder.

FALL RIVER WAGES.

New Bedford Employes Excited by the Threatened Reduction.

NEW BEDFORD, Mass., Aug. 22.—Intense excitement prevails in local textile centers over the threatened reduction of wages by the manufacturers of Fall River. Since the news was printed today, it has been the sole topic of conversation among the operatives and loud denunciations are heard on all hands.

The spinners here say they will resent to the bitter end any attempt of the local corporations to enforce a reduction anywhere other than the amount determined at yesterday's session of Fall River mill men.

A reduction of wages in Fall River will mean a reduction of wages in New Bedford, as it has always been so. The Local Labor unions are taking action in the matter and no branch of industry will submit peacefully to a reduction.

Secretary Samuel Ross of this city, secretary of the National Spinners' union, was interviewed today on the subject, and stated that in his opinion such a course would not have the slightest tendency in righting the existing difficulty. He thought that such a course would be hasty. Mr. Ross further said: "No sooner do indications point to a depression in the cotton market than mill men meet in council and talk reductions; but when the market booms and large profits are being realized [illegible], not a word is mentioned about increasing wages."

Secretary Ross has received information that notice of a 10 per cent. reduction in wages has been posted in the mill at Salmon Falls, and that the spinners feel like resisting its enforcement and have sent for Secretary Ross to hasten to the scene.

Secretary Ross has issued a call for the National Spinners' executive committee to meet in Boston on Monday, at which time the situation of the Salmon Falls spinners and also those of other sections where reductions are threatened will be acted upon.

Work to Begin Promptly on the Revision of the Tariff.

WASHINGTON, Aug. 22.—Representative Wilson of West Virginia, the chairman of the ways and means committee, says that without consultation with the committee he cannot undertake to outline any plan for it, but he believes it will go to work promptly at a revision of the tariff. This, he says, does not mean that a bill will be presented very soon, for the work will take considerable time. He says the party is now in a situation to perfect a broad and general revision of the tariff in accordance with its pledges to the people. Mr. Wilson has called a meeting of the ways and means committee for tomorrow for the purpose of organizing.

The Incident "Satisfactorily Closed."

ROME, Aug. 22.—According to a semi official announcement made this evening, Admiral Brin, one of the foreign officers, has instructed Signor Ressmann, Italian ambassador to France, to inform the French government that, in view of its spontaneous dismissal of the mayor of Aigues-Mortes, the Italian government, appreciating the friendly disposition thus shown and placing complete confidence in the efficient and impartial action of the French magistracy for the punishment of the guilty parties, is happy to be able to consider the incident satisfactorily closed.

IN CONGRESS.

The Senate.

WASHINGTON, Aug. 22.—In the senate this morning, Mr. Allen (pop.) of Nebraska offered an amendment to the Voorhees repeal bill in the form of a provision for the coinage of silver at the present ratio of 16 to 1, under the same conditions enforced as to the coinage of gold, and directing the coinage (without unnecessary delay) of the silver bullion now in the treasury.

It was referred to the finance committee, as was also a bill introduced by Mr. Peffer (pop.) of Kansas, for the reduction of the salaries of all government officers from $1,000 and upwards, by 15 and 20 per cent.

Mr. Voorhees (dem.), of Indiana, chairman of the finance committee, addressed the senate in advocacy of the bill reported by him last Friday, discontinuing the purchase of silver bullion.

His speech occupied one hour and thirty-five minutes in its delivery and closed at 2 p. m.

The senate was then addressed by Mr. Dubois (rep) of Idaho on the silver question.

After an executive session the senate adjourned.

The House.

In the house today Mr. Johnson (dem.) of Ohio asked for unanimous consent for the introduction of his bill to permit the exchange of United States bonds for treasury notes. There was no objection and the bill was referred to the committee on banking and currency, with leave to report at any time after the special order.

The silver debate was then resumed and Mr. Brickner (dem.) of Wisconsin addressed the house in favor of the repeal of the purchasing clause.

Mr. Hopkins (rep.) of Illinois charged the democrats with partisanship in mapping out the plan of procedure for the consideration of this great question, and then proceeded to speak in favor of the Wilson bill.

Mr. Lane (dem.) of Illinois favored free silver, and denied that the silver dollar was a false dollar. At no place in this country was it worth less than 100 cents.

Mr. Mallory (Dem. of Florida) made a speech in opposition to the unconditional repeal of the purchasing clause of the Sherman law.

Mr. Jones of Virginia opposed the unconditional repeal of the purchasing clause and favored free coinage. The existing condition of affairs he attributed to the McKinley act.

The house then took a recess until 8 o'clock, but only after agreement that during the remainder of the week the daily hour of meeting shall be 10 o'clock.

At the evening session Mr. Ellis of New York spoke in favor of and Mr. Kaig of Maryland against free coinage of silver.

Mr. Cooper of Texas believed that the medicine sought to be administered by the Wilson bill, instead of curing the patient would assist the disease.

Mr. DeForest (dem. of Connecticut) said the fact that there was any opposition from any source whatever to the repeal of the silver purchase clause of the Sherman act under existing circumstances was to him the subject of profound astonishment. The necessity for that repeal was so clearly written on the face of public distress, the demand for it was so distinctly heard in the voice of general calamity, that it would seem that no partisan rancor, no individual hobby, no speculative theory, no merely selfish personal scheme or sectional interest would dare obstruct it by the slightest obstacle or the least delay. The cry for this relief came up not so much from the rich and powerful, not so much from the brokers and the bankers and the capitalists, as from the humble poor, from the worthy and industrious masses. In response to this appeal the president had convened this special session of congress for this special purpose. All the vast business interests of the union, tottering on the verge of destruction, believing that from congress and by this means alone they could be rescued, were imploringly holding out their hands for succor. Why should it not be granted immediately, unconditionally, without hesitation and without debate?

Mr. Arnold of Missouri denied that there was any condition in the country to justify the demonetization of silver, which would follow the repeal of the Sherman law.

The house then adjourned.

An Alleged Russian Conspiracy Discovered.

ST. PETERSBURG, Aug. 22.—An alleged conspiracy has been discovered in Kharkov, capital of the government of that name, 430 miles southeast of Moscow. It is said that the object of the conspirators was to bring about the separation of Ukraine, from Russia. Ukraine was an old sub-division of Russia and southeast Poland which now forms the governments of Kiev, Poltava and Kharkov. Twenty-six arrests have been made in connection with the conspiracy. One of the conspirators is a Mlle. Pulawry, who was employed as a governess.

Boies Likely to Be Renominated.

DES MOINES, Ia., Aug. 22.—Tonight it is generally believed that Governor Boies will be renominated at the democratic state convention tomorrow. He has twice held the office of governor, and has written a letter declaring himself opposed to third terms and declining to be a candidate, but the party has been unable to agree upon any other man.

Not Cheering for the Employes.

MIDDLETOWN, Conn., Aug. 22.—Comstock, Cheney & Co., of Ivoryton, employing 500 hands manufacturing ivory goods, piano and organ boards and actions, state that they will probably not run more than a week between now and October and may close all winter.

The Decision Given to Billy Plimmer.

NEW YORK, Aug. 22.—In the four-round boxing contest at Madison Square garden tonight between George Dixon, champion feather weight of the world, and Billy Plimmer, champion bantam weight of the world, the decision was given to the latter, who did the best work throughout the entire bout.

An Address to Congress by American Bankers.

NEW YORK, Aug. 22.—The American Bankers' association has issued an address to the bankers of the United States, in which it calls upon them to petition Congress to repeal the Sherman silver act immediately and unconditionally.

Ocean Steamers.

NEW YORK, Aug. 22.—Arrived, steamer State of Nebraska from Glasgow; Mohawk from London.

Walter Sanger Expelled from Telegram Bicycle Club.

MINNEAPOLIS, Aug. 22.—Walter Sanger, the bicyclist, was tonight expelled from the Telegram Bicycle club for refusing to appear on the track Saturday in a meet arranged by the club.

THE C. N. G. AT CAMP MORRIS.

Appointment of Commissioned Officers—Getting Down to Work

THE SECOND DAY.

Presentation of a Silver Service Tray to Captain Thompson of Co. D

CAMP MORRIS, Aug. 22, 1893.—One of the most glorious of nights succeeded the terrific storm of Monday. At sundown the wind had blowed itself out, the heavy banks of dark clouds disappeared and left the sky like a mirror. The night was simply perfect. The troops enjoyed it hugely, and passed the hours until taps in visiting friends in other organizations, talking over the camps of other years, little concerts in the company streets and visiting the Spiritualist camp. At taps, however, all lights went out in the streets and the men were quickly in bed.

Tuesday opened with just as clear a sky and with every indication of being hot. The indications were correct. The day has been a scorcher.

Orders issued from the adjutant general's office Monday and read on parade gave the appointments as follows: Co. B, First Regiment, John F. Moran of Hartford, to be first lieutenant, with rank from Aug. 8 1893. Co. E, Second Regiment, Second Lieutenant T. Dunham Bailey of New Haven, to be first lieutenant, vice Schappa, discharged; Sergeant Geo. S. Wood of New Haven, to be second lieutenant, vice promoted, both to rank from Aug. 8, 1893. Third regiment.—Sergeant James Sullivan of Co. F, to be second lieutenant, vice Nado, discharged. Schappa, Nado and Murphy failed to pass the examination.

Captain Wetherill of the Seventh U. S. Infantry, stationed at Fort Niagara, the government detail in camp, arrived on the grounds Monday and has been assigned quarters with the brigade staff. He was out with Major Albee inspecting quarters this morning, and expressed himself as much pleased with the camp and its general good appearance.

Major Giddings, who was inspecting officers for the Third this morning, was accompanied on his round by Generals Bradley and Harbison of the governor's staff and Captain Fitzmaurice of the brigade staff. He found only five tents out on inspection, four of which were excused on account of misinterpretation of dress rules by the sergeant major, which left but one tent out. The police inspection was perfect. When the major had gone through Co. C street and carefully noted everything he marked the company 100 for both quarters and street, and called the attention of the officers with him to the fact that it was the best he had seen on the ground.

Major Almy had a fine barometer taken from his tent last night. The thief must have had an idea that he was fitted for the signal service or weather bureau, and thought that would be a good instrument with which to start in.

[illegible] Maggs at brigade headquarters met with a painful accident at the [illegible] Tuesday morning while mounting his horse. There appeared to be some trouble either with the horse or his trappings, for as soon as the sergeant mounted the [illegible] came up on his hind legs and toppled over backwards, falling on the sergeant, who is suffering from bruises on his head and body and a severe cut on his hand.

Capt. Heffernan of Co. E, Third regiment, made a written complaint of the food served to his company at breakfast this morning. The complaint was approved by Col. Tyler and forwarded to Commissary General Jamieson. An order was issued that hereafter when there is a complaint about the food it is to be made at once, and the person making it shall present a sample of food complained of for examination and inspection.

In passing up through the Fourth Monday evening I met the most popular man in the regiment, Lieut. Everett Noyes a brother of Mr. Charles D. Noyes, who is the regimental quartermaster. He is always laughing, even when he sleeps (his comrades say), and keeps his doors wide open to his friends.

The [illegible] regiment attended prayers Monday night at the Colonel's quarters. Each company was drawn up in line and formed in a solid square. After singing the Doxology the men listened to a short address from the chaplain, the Rev. Dr. Twichell and then were dismissed with prayer and benediction.

This morning Gen. Haven accompanied by Capt. Witherell made a tour of the field to be used for outpost duty. During Gen. Haven's absence from camp Col. Doherty of the Second was in command.

Medical Director Almy reports two men in hospital and two excused today.

Capt. Thomas H. Allen is the first of the military committee of the legislature to arrive on the ground.

All garbage from the camp is taken outside the guard line and burned. Heretofore it has been buried.

The signal corps drilled this morning on their bicycles and later practiced with the heliograph, sending messages a distance of about two miles. The system worked very satisfactorily.

Capt. Howard of Co. C is officer of the day and Lieut. Kingsley is in command of the company.

The guard mount this morning was an improvement over that of Monday, but there is still a chance to do better. Battalion drill took place for the first time this morning. In this line of the work of the week the two majors and staffs get in their work. Under the new tactics the regiments are made into two battalions each; each battalion is commanded by a major who has an adjutant and sergeant major. In the Third Major Fox commands the first battalion, and Major Thayer the second — both good officers and every way capable of performing their duties. The first drill was not up to as high a standard of efficiency as these officers desire; still it was every way creditable. These commanders will do better next time.

The principal noise today was made by the artillery, which was out for drill this afternoon, and burned some powder.

The Y. M. C. A. tent was re-erected this morning by the quartermaster's department, and will be ready for the boys tonight. Besides the religious exercises to be held daily, there are several entertainments arranged for the evening.

Tomorrow at 8 o'clock there will be an athletic entertainment under the direction of Major Giddings. Friday evening there is to be an entertainment consisting of music, tumbling and dialect comedy, under the direction of Capt. Burpee, Co. I, Fourth.

After regimental parade tonight, Co. D assembled in front of Capt. Thompson's quarters, when Corporal O. A. Miner, in behalf of the company, presented Capt. Thompson with a beautiful silver service tray. Capt. Thompson is quick generally, but was awful slow in getting his wind, but he got there after a bit and made a suitable response.

The regimental parades tonight were a series of fine formations, and a vast improvement over those of last night. The Second made quite an innovation on the present order by escorting the colors to position, a movement almost made obsolete by discontinuance.

FOR THE ASTOR CUP.

Vigilant and Pilgrim Start at 12.35—Vigilant an Easy Winner.

NEWPORT, R. I., Aug. 22.—The regatta committee did not start the Astor cup race till 12.35, and Vigilant and Pilgrim, which had both been playing for a windward start, crossed within the two minute handicap time.

Vigilant got the windward position and crossed on the starboard tack, tacking just after rounding Brenton's Reef lighthouse and standing for Narragansett Pier, while Pilgrim held on for a short time before following her rival. The wind was south-southwest and the courses signalled were: First leg, south-southwest; second leg, east-one-half-north; third leg, northwest-by-north.

The procession never changed in the order from the start, and only during the early part of the second leg did the Pilgrim gain on the Vigilant at all. The Vigilant had all the luck of wind and kept increasing her lead throughout the race.

On the run down to the first mark, the wind got a little more west and the Vigilant crossed 11 minutes 52 seconds ahead of the Pilgrim. The vessels set spinnakers to starboard and balloon jib topsails to port as they ran for the second mark, and for a time the Pilgrim gained a little, but the wind changed and backed the spinnakers, so that they were taken aboard and the sheets hauled aft a little.

At the second mark Vigilant led more than 16 minutes. The boats beat about the second mark and reached for the finish under balloon jib topsails, balloon fore topsails, mainsails and club topsails, and Vigilant again got better wind and increased her lead over 8 minutes.

The New York Corinthian race will not take place this week, or if it does Vigilant will have a walkover, for Colonia and Jubilee have already left and Pilgrim will leave for Boston as soon as possible to haul out at the navy yard dock.

SEEN WITH THE NAKED EYE.

The Sea Serpent Again Sporting Off the Connecticut Shore.

STAMFORD, Conn., Aug. 22.—A fleet of small pleasure boats left this harbor this afternoon in pursuit of an alleged sea serpent. Excitement prevails over a story that yesterday afternoon Clarence Lockwood and Daniel Marshall, aboard the sloop Just Right, sighted between Stamford and Lloyd's Point Neck what at first appeared to be a huge shark. A closer inspection revealed a tail, apparently twenty-five feet in length. They were convinced they had seen the sea serpent. They describe the animal as about seventy-five feet in length.

Another sailing party upon entering the harbor last evening, told a similar story. The men bringing the information have good reputations for veracity and are believed by a greater portion of the citizens. This afternoon hunting parties equipped themselves with harpoons and other implements of war and set sail.

A code of signals has been arranged, by which the party first sighting the animal will communicate the intelligence to the others.

SAYBROOK, Aug. 22.—The alleged sea monster was given more credence by a report current here this morning that J. M. Logan of Niantic, and William Waldorf of East Lyme, while sailing off Bartlett's Reef lightship recently, saw a sea serpent.

THE ANSONIA CASE.

Dr. Lee and Young Cash Unable to Procure Bail.

NEW HAVEN, Conn., Aug. 22.—At last reports Dr. Lee of New Haven and young William Cash of Ansonia, charged with criminal complicity in the death of Miss Schloss of Ansonia, had been unable to procure bail.

A certificate of death was filed with Registrar Carr of New Haven Monday afternoon. Death was ascribed to abortion. A permit was issued for the removal of the remains to Ansonia. The father and brother of the dead girl accompanied the remains home.

Cash feels his position keenly. His mother, Mrs Kate Harris, lives at 64 Clifton avenue, West Ansonia. Mrs. Harris has been married twice and has two other sons. Both of her husbands are dead. She is a very respectable woman and her family was one of the oldest Irish families in Ansonia.

Dr. Lee came to New Haven from 206 East 116th street, New York city, where he opened his office after graduation from Bellevue hospital. He is well connected in New York. Attorney Asher, who listened to Dr. Lee's version of his connection with the case, stated that when the trial came off many of the dark clouds hanging over his client would be cleared.

White Woman Shot by a Colored Man.

PITTSBURG, Pa., Aug. 22.—This afternoon a fashionably dressed white woman and a colored man met and engaged in a brief conversation on Wylie avenue. The woman started to go away and the man followed her, drew a revolver and fired two bullets into her head. She fell unconscious. The man then shot and killed himself. The woman has been identified as Ella Lawton and the man as Edward Freeman. The woman cannot recover.

Fell from a Roof.

NEW BRITAIN, Aug. 22.—Albert Carbon, a joiner, fell from Mrs. Eliza Dobson's new house on Bassett street this forenoon, and sustained injuries from which he is not expected to recover.

CIRCUIT MEETING, HAMPDEN PARK

Feature of the Day was the 6 Heat Race in 2.17 Class.

RECORD LOWERED.

Interesting Contest Between Caprice, Zembia and Clara D.

SPRINGFIELD, Mass., Aug. 22.—The 25th grand circuit meeting of Hampden park, opened successfully today. There was an attendance of 3,500, which is considered very good for the opening day, and the track, though a little soft, was very good. The feature of the day was the six-heat race in the 2.17 class, which Fannie Wilcox won finally. She lowered her record from 2.19¼ to 2.15 in the first heat. There was an interesting contest between Caprice, Zembia and Clara D. for second place.

In the pacing race Hal Braden won in three straight heats without any opposition. The summaries:

2.17 trot, purse $1,000, divided.

Fannie Wilcox	1	1	7	6	7	1
Caprice	2	6	2	1	1	2
Zembia	7	7	1	2	3	3
Clara D.	8	2	3	3	2	ro
Jesse Hanson	4	3	6	5	5	ro
Lightning	9	4	5	4	6	ro
Dagmar	6	5	4	7	8	ro
S. J.	3	8	dis.

Time—2.15, 2.15, 2.15.

Winchester Arms Company Shut Down.

NEW HAVEN, Conn., Aug. 22.—The Winchester Arms company has shut down its gunshops for ten days. The reason for the action is said to be to make repairs to engines. The order throws 1,000 men out of employment.

Vessels from Southern Ports to Be Quarantined.

NEW HAVEN, Conn., Aug. 22.—The local board of health tonight ordered that all vessels from ports south of the capes of Delaware be quarantined. This action was brought about by the yellow fever scare at Brunswick, Ga., from which port a number of vessels in the lumber trade run regularly to New Haven.

To Help the Unemployed.

NEW YORK, Aug. 22.—A delegation representing the unemployed, consisting of Samuel Gompers, Henry Weissman, Moses deCosta, Charles F Reeches, [illegible] M Campbell and Henry White, called upon Mayor Gilroy today to urge upon him the necessity of opening additional public works, and prosecuting those already open so that work might be had by some of the unemployed.

The mayor after listening to the delegates informed the committee that he would cheerfully do all in his power for the interest of the unemployed.

LOCAL NOTICES.

Girl wanted.

If you want a good refrigerator cheap, go to Preston Bros'.

J. O. Worth will unload his seventh car of fine peaches this morning.

Is your furnace all right for cold weather? If not, E. M. Brewster is the man to fix it.

Go directly to Smith & Gilbert's to find what you want in negligee shirts, bathing suits, sweaters, leather belts, etc.

Leave your orders with Cranston & Co. for "The Prince of India," by Gen. Lew Wallace, to be published next Friday.

Get your tinware, glassware, china, housefurnishings, etc., of Whitney, 41 Broadway. He has new goods constantly arriving and sells them at hard times' prices.

Read the prices at which Porteous & Mitchell are offering the balance of their ladies' suits. They also offer the best Star shirt waist for ladies, at a big reduction.

Reid & Hughes make special offerings of fancy colored braids, colored gimps, hair brushes, belts, needles, sheet music, tray cloths, and a lot of other articles at greatly reduced prices. See advertisement.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A Big String of Black Bass.

Mr. Alonzo F. Hill and his son went to Gardner's Lake Tuesday and caught a string of sixteen black bass. Eight of them weighed over two pounds each and the largest weighed three and a half pounds. The whole string was not weighed.

City Court—Kellogg, Judge.

The cases of Israel Jachkowich and Michael J. Kelly were nolled on payment of [illegible].

George Dalight of Jewett City was in the pen charged with intoxication. He was fined $5 and costs, $11 89, and sent to jail.

A Wedding Today.

This afternoon at 1.30, at the home of her mother, 105 Laurel Hill avenue, Miss Lucy Byram Ray will be married to Mr. Austin Freeman Perkins. Mr. Perkins is well and favorably known in business circles about town, while the bride-elect, by her winning qualities and charmingly cordial manner, has made friends in all quarters of the city, who will hope for her happiness in her new life.

A Flattering Call.

Day by day new and flattering reports are given of the openings awaiting graduates of the Free Academy normal class. This time it is Miss Grace M. Smith, who has been called to the flourishing Erasmus Hall academy, Flatbush, N. Y. Miss Smith will report for duty September 20. Although in charge of the preparatory department of the academy she will also assist in the Latin and German departments.

School Improvements.

Supt. Bishop, with the co-operation of the repairs committee of the Central district, is having the six school buildings under his charge put in readiness for the opening of the new term, Sept. 5.

Heaters have been repaired, woodwork, roofs and fences painted, and everything done that can conduce to the health, comfort, and happiness of Young America when, in the course of human events, he shall have returned to the restraints of school life.

A Wheel Contest.

Herbert D. Armstrong, the local amateur sprinter, defeated Captain Lester of the Rose of New England Wheel club, on his wheel, in a 100-yard dash at the fair grounds Tuesday evening. Armstrong allowed his opponent a flying start and headed him by fifteen yards at the finish. Chief Bowen timed the contestants.

A Valise Thief.

A drummer for a wholesale house in this city called at the Union station Monday for his sample valise and found it gone. He had left it in the baggage room unchecked and the baggage man said that someone asked for the bag, and described it so minutely that he delivered it to him. Nothing has since been heard of it. It was valued at $10 and its contents were a box of cigars, samples of rice, beans, peas, molasses, sugar, etc.

The Electric Car Extensions.

Superintendent Allen Seymour with his fifty men set to work on the Laurel Hill extension of the electric road Tuesday morning with such vim that by night the rails were laid beyond Walnut street, nearly opposite Jennings' block. A new supply of ties have been obtained and in all probability the track-laying will be completed by the end of this week.

Workmen have begun the preparation for the setting of the poles on Shetucket street. Supt. Shaw states that with the city smoothing the way, by the rapid removal of the High and Thames street corner obstacle, the running of the cars on both extensions is probably a matter of a fortnight's delay.

A Good Average Catch of Bony Fish.

Reports this week from the sound fleet of menhadden steamers, the Barren's island, Egg Harbor and Chesapeake boats say they are now taking good fares. Steamers in the Delaware bay and Luce Bros. boats report last week the best catch of the season there, the double-gang steamer Arizona having taken 435,000 in one day, and the other three steamers over 200,000 each. Altogether last week the Arizona landed 800,000 at Luce's factory and the single gang boats an average of 450,000. The average catch by the sound boats for the week was 100,000, Sandy Hook boats 300,000 and Egg Harbor boats 300,000. It is now assured that the season will close with a good average catch in comparison with the previous year. All reports tell stories of sharks troubling nets and fish.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Four Days' Shooting Tournament

The sixth annual four days' tournament of the Standard Keystone Co. opened Tuesday on the grounds of the New London Gun club with a large attendance and expert trap shooters. The guaranteed money this year is $875 and $1,200 in prizes. There were ten events in the programme shot Tuesday with $900 guarantee divided among five events in five moneys each. The chief event was the contest for the Standard Keystone trophy, fifty singles, entrance $3. It was won by R. O. Heikes of Chicago, with 48 in a possible 50; second money was won by John W. Connor of Knoxville, Tenn., and Charles Smith of Plainfield, N. J., each with 47; third money by F. V. Van Dyke, with 46; and fourth by J. Wolstencroft of Frankfort, Pa., with 45.

A SHARP SALESMAN.

The Way a Norwich Man Won a Customer.

A drummer who works for a Norwich company, but whose headquarters are in New York city, visited a firm whose plant was recently burned out, with a view to securing an order for refitting their factory. Incidentally he learned that the head of the firm had made an appointment with the representative of a rival house for the next day. He immediately invited both members to take a trip to Norwich, and agreed to pay their expenses. Once in this city, he took them to his own employers, showed them the goods he wished to sell, gave them an afternoon ride around town, and sent them to New London on a late train, there to take the boat for their homes in Bridgeport, first having learned from them that they were favorably inclined to buy of him. Consequently they did not reach Bridgeport until hours after the time set for their engagement with the rival drummers.

A CONFIDENCE MAN.

His Little Game Is Spoiled by Callers.

A stranger called at the home of Mrs. H. N. Witherill, on High street, Monday afternoon, and when the door was opened walked confidently into the parlor and sat down. He made enquiries of Mrs. Witherill about her former husband, George L. Risley, who died twelve years ago. He was well dressed in a dark cutaway and blue trousers with a small check. On his hands were brown kid gloves.

The man said he was a Jew and represented a New York company in which he claimed Mr. Risley had an insurance policy. This was a surprise to the woman, who had never heard about it and knew her husband had been opposed to insurance. She inquired the amount of the policy, when the stranger produced it and said if she would sign a paper he would surprise her by the large sum that had fallen to her.

At the request of the man Mrs. Witherill sent for her daughter, Miss Lena M. Risley, and both were importuned to sign the paper, but through suspicion of something wrong refused. A visitor called and the stranger started for the door in haste, with inquiry for another Risley family. He was told the directory would furnish him all the information he required. As he left the door he turned and took the number of the house.

Officer Stanley made a tour of the hotels Tuesday after learning the facts, but the twenty-four hours that had elapsed had removed all traces of the insurance man.

THE OLD BAILEY CORNER.

Reminiscences of the First Brick Building at the Landing.

There is nothing particularly imposing about the old Bailey corner just at present, with its high fence, and angle of dead walls from which flutters the cloth sign of "8 Bells." Time was, however, when that corner lot with its low brick building—the first one ever erected in Norwich—was the center of local interest and attraction. The low, flat roofed, square block, cramped and homely as it was would be sadly behind the times now; no one knows when or by whom it was built; but there is a tradition that it was a public house even before the revolution.

Certain it is that once it entertained General Washington and part of his staff. The date was probably about June 30, 1775, when Washington was on his way to assume command of the American army in the neighborhood of Boston, since he reached Cambridge on July 2, 1775.

Elisha Ayres, a wandering school master from Preston, interviewed Washington at his farm at Mount Vernon in the year 1788, when the general referred to this brief visit to Norwich, recalling many complimentary recollections in relation to the city.

Later in the town's history the old brick corner became a famous auction stand, where John Richards "knocked down" bargains to quaint old bidders, from 1800 several years on. Tradition does not picture the great-great grandmothers of the town flocking thither for "bargains;" but doubtless they did, since Richards is afterwards referred to in local history as one of the town's wealthy men.

A MAPLE TREE PEST.

A Louse That Infests These Pretty Shade Trees by Millions.

There are one hundred species of insects that infest the maple trees of this country, of which a dozen bore into the trunk, a score or more live beneath the bark and the remainder browse upon the leaves or produce galls within which their larvae thrive. There are half a dozen varieties of lice, and it is one of these tribes which is breeding by millions this season upon the shade maples of Norwich, curling the leaves of the trees and making them unsightly.

This pest is microscopic in size and but for the abundant, long, cottony excretion beneath the infested leaves it would hardly be noticeable. Where gathered in masses these tiny insects resemble a mixture of red and light yellow dust, and to the inexperienced eye do not look at all like thousands of living insects. On a single tree they sometimes swarm in millions, and their multiplying powers are about equal to those of the aphides, from one single pair of which a million may be bred in a season. The adult female is of a bright yellow color and the male red. It is believed to be the *Pseudococcus aceris* of Geoffrey, a species common in France, and but a few years ago introduced to this country. It was first discovered and described by Miss Emily Smith on the maples at Peoria, Ill., in 1880, and later the insect was discovered on maples in Lancaster, Pennsylvania.

The bordeaux mixture used on fruit trees to destroy fungi, scales and infesting insects, will undoubtedly prove sufficient to kill them.

EASTERN CONNECTICUT.

ASHWILLET.

Arrivals Departures—Meetings.

Mrs Abby Billings is making arrangements to move to Kansas to live with her son. She is a good Christian lady and will be greatly missed.

The Rev. Calvin Williams (colored) of Lantern Hill preached a very interesting sermon Sunday at the Ashwillet chapel.

Eliza F. and Lydia M. Pierce have sold their farm on Coalpit Hill to Rudolph Burcsakroda of Brooklyn, N. Y.

Mrs Lucy Eccleston is spending a few days with her daughter, Mrs. Courtland P. Miner.

Mr Robert H. Rood and daughter Flora have been visiting Charles I. Rood of Westerly the past week.

Mr. L. A. Frazier of Norwich Town will preach at the Ashwillet chapel next Sunday at 2 o'clock p. m.

Representative S. Curtis Eggleston has been suffering the past week with a carbuncle on his neck.

Mrs. Noyes Eccleston is in rather poor health, although able to ride out occasionally.

Miss Mary Tetlow of Providence is the guest of her uncle, H. Clinton Eccleston of Ashwillet. She expects to leave in a few days for her home, having spent a number of weeks here.

Willard Blanchard of Ashaway, R. I., is spending a few days with her mother, Mrs. Fannie Eccleston.

Mrs. Lydia M. Pierce is very ill.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EASTFORD.

Summer Visitors—Visitors to the World's Fair.

The Rev. J. T. Trowbridge has returned from his trip to Maine, and occupied his pulpit Sunday morning.

Mr. S. O. Bowen, E. O. Bowen, F. A. Sumner, E. O. Sumner, Robert Lowe and Robert Armstrong have been spending a week or more at Chicago, Ill.

The venerable Daniel Leonard of Putnam was the guest of Mr and Mrs. Jairus Chapman last week. Mr. Leonard will be 93 years old in October.

Mr. Chas. Chollar of Boston, has recently made his annual visit here and was the guest of his niece, Mrs. Timothy Walker.

Mrs. Chas. Bradway of Putnam, accompanied by two children spent last week here.

Mrs. Frank B. Smith and two children have returned to Millbury, Mass.

Mr. and Mrs. H. H. Burnham of Putnam visited his mother recently.

Mrs. Newell Badger of Abington is engaged to teach the village school.

Mr. and Mrs. Lucius H. Childs of Flushing, L. I., called upon friends here.

Mr. and Mrs. Tucker of North Windham were the guests of Dr. H. H. Converse and daughter.

Edward Hall spent last week at Worcester, Mass.

Mr. and Mrs D. E. Lyon and Miss Ida A. Chapman of North Windham visited Mrs. E. P. Hall last week.

The latest Asbury Park scheme is to have several pages from the Bible frozen in a cake of artificial ice and placed on exhibition on the beach. Prof. Mushall, who invented the idea, is so well pleased with the experiment that he will have different texts frozen in ice each morning and placed on exhibition.

IN BOSTON MARKETS.

Dealings in Vegetables Show a Healthy Trade.

GREEN CORN IS GOOD PROPERTY.

Tomato Crop Has Suffered for Lack of Sunny Weather.

BOSTON, Aug. 22.—Traders in the vegetable market claim that business is rather quiet, but certainly figures for the week's transactions show a healthy trade. Some commodities are short of supply and this tends to keep up prices in these lines. The tomato crop has suffered for lack of sunny weather during the past two weeks, which came at a stage when it most was needed to give full perfection to the fruit. While the supply is at present small there is a good demand and consequently higher prices prevail, varying from $1.50 to $2 a bushel, according to quality.

Green corn is good property, although there seems to be a lack of the best quality. The Crosby variety is what is wanted, the price for this being from 50 to 75 cents a box. Mac : Corey corn has been sent in, but this cannot command more than 30 to 40 cents a bushel. Prices for other vegetables are: Cucumbers, 75 cents per 100; beets, 75 cents a bushel; cabbage, $5 to $7 a 100; parsley, 25 cents a bushel; lettuce, 20 to 40 cents a box; spinach, 50 cents a box; green string beans, $1 to $1.25, and butter beans, $1 a bushel. Native onions, $1 to $1.25 a bushel; marrow squash, $1.25 to $1.50; cranberry beans, $1, and shell beans, $1 to 1.50 a bushel. Heavy consignments of potatoes are constantly arriving. Prices show a little improvement. Jersey Rose and Hebron bring $2.25 to $2.50 a barrel, Bristol Ferry Rose $2.50 to $2.67, and Massachusetts Rose and Hebron $2.37 to $2.60 a barrel.

The Butter Market.

The drought which the interior regions are experiencing, has begun to have its effects on the butter market. Prices at Boston are firm and gradually advancing, caused by the shrinkage of supply. Western extra creamery sells for about 26 cents, northern extra creamery about a cent higher, while lots of choice New York and Vermont dairy go for about 21 and 22 cents. It is predicted that the full extent of the drought has not yet been felt here, and that those desiring to get first class stock should buy at once.

The Fruit Market

is full of business. New apples, early grapes, pears and peaches, are occupying the attention of the dealers. The drought has nearly driven the wild berry out of the market, a very few Massachusetts and New Hampshire blueberries being left. These go at 11 cents per quart.

The early grapes come from Delaware. Moore's early in carriers sell for $1.50 and $2, and Concords 20 cents per basket. Peaches from Delaware are coming in better quality as the season advances and bring all the way from 50 cents to $1.50 a basket, according to quality. Native apples are mostly of the Williams variety and bring $1.50 to $2.50 a barrel.

The Quotations.

CORN—The west is slightly easier on corn, with Chicago No. 2 yellow to arrive quoted at [illegible], and with No. 2 yellow at [illegible]. The spot market is very firm for the [illegible] that there is very little here and little on the way. Shippers demand currency in payment for corn, and for that reason dealers here are not buying. If they did buy they would have to add the cost of currency to the cost of the corn when they sold it. The spot market is very firm at: steamer yellow, [illegible]; No. 2 yellow 55c; steamer mixed, [illegible].

OATS—Oats are a fraction easier to arrive, but nearly all the shippers to this market are demanding currency, and this increases the cost of the grain. Some buyers and receivers are standing out and refusing to pay currency but others pay it, in order to get the oats. Clipped, to arrive, are quoted at 37½c, with fancy at 38½c. The spot market is fairly firm at: Clipped, 40c; fancy, [illegible]; No. 2 white, [illegible]; No. 3 white, [illegible]; clipped, mixed, nominal, [illegible].

BEEF—The beef market was very dull yesterday. Dealers say that they are holding quotations at: Choice fancy steers, [illegible]; prime, [illegible]; good, [illegible]; light, [illegible]; extra heavy hinds, [illegible]; good, [illegible]; light, [illegible]; heavy fores, [illegible]; light, [illegible]; backs, [illegible]; rattles, [illegible]; chucks, [illegible]; rounds, [illegible]; rumps, [illegible]; rumps and loins, [illegible]; short ribs, [illegible]; loins, [illegible].

MUTTONS AND LAMBS—Muttons and lambs are dull, and the market is easy. Veals are firm, with the supply light: Choice spring lambs, [illegible]; common to good, [illegible]; poor and ordinary, [illegible]; Brightons, [illegible]; yearlings, [illegible]; muttons, [illegible]; choice heavy Brightons, [illegible]; choice eastern veals, [illegible]; common to good, [illegible]; Brightons and fancy, [illegible].

FLOUR—The flour position is not quite as firm as last week, but still there has been some business. Some of the country dealers and merchants have recently been putting in considerable stocks of flour, fully believing that the market has touched bottom, or nearly so, and being well aware that flour is good property bought at the bottom at this time.

BUTTER—Butter is firm, with only a quiet trade. Quotations are: Western creamery, [illegible]; firsts, [illegible]; imitation creamery, [illegible]; factory, [illegible]; northern creamery, extra, [illegible]; northern dairy, [illegible]; eastern [illegible]. These are prices for round lots. Jobbing lots and fancy lots cost [illegible].

HAY—Hay is dull and easy. Straw is quiet. Millfeed is very firm. The millers are not grinding their usual amount of wheat, and they report a quick demand for all the bran they can make. Sack spring bran, to arrive, $16 [illegible]; sack winter, $17 [illegible]; sack spring middlings, $17 [illegible]; sack winter, [illegible].

CHEESE—Cheese is steady, with quotations at: Northern full creams, [illegible]; fair to good, [illegible]; western choice, [illegible]; fair to good, [illegible]; sage, [illegible]. Liverpool is quoted at [illegible] for white and at [illegible] for colored.

POTATOES—Potatoes are firmer except sweet potatoes, which are easier. Rhode Islands, $2 [illegible]; natives, $2 [illegible]; Jerseys, $2 [illegible]. Sweets sell at [illegible] for ordinary to good and at $2 75 [illegible] per barrel for the best.

MEAL—Cornmeal is steady, with oatmeal quiet. Bag cornmeal is quoted at $1 [illegible], with barrel meal at [illegible]. Oatmeal is quoted at $4 [illegible] 70 for ground, cut and rolled.

EGGS—Eggs are a shade firmer, with the quotations at: Western, [illegible]; Michigan, [illegible]; provincial, [illegible]; eastern and northern, [illegible].

PORK—There are no changes noted in the market on pork provisions. Trade is quiet.

Fell From a Beam.

MEDFIELD, Mass., Aug. 22.—Martin Garfield, a respected farmer living in the westerly part of the town, fell from a beam in his barn yesterday forenoon. He struck upon his head, and after lying unconscious for six hours passed away. He was 66 years of age, and leaves a widow, two sons and a daughter.

Paying Out Gold.

BOSTON, Aug. 22.—Gold is being paid over the counter at the sub treasury in Boston under orders from Washington. The amount so far has not been large—not so large here as in New York. Silver certificates are being exchanged for silver dollars only. There is plenty of money; don't hoard it, is the advice of a subtreasury official.

Lineman Gets a Fall.

MALDEN, Mass., Aug. 22. — William Murphy, aged 30, whose home is in Chelsea, was seriously injured this forenoon by falling from a telephone pole. He was stringing new wires, when his spur slipped and he fell to the sidewalk.

FOR AMERICA'S CUP.

Date of Race Sept. 28 Accepted by Lord Dunraven.

BOSTON, Aug. 22.—Lord Dunraven has accepted the change in the date of the first of the America cup races from Oct. 5 to Sept. 28. In the original agreement it was stipulated that the initial race should be sailed Oct. 5, but under the terms of a clause contained in the articles it was possible to change the date, provided the consent of both parties in interest could be secured.

The New York Yacht club was opposed to holding the races before October, believing that during that month the conditions for satisfactory contests would be more favorable than in September.

To the late date Lord Dunraven, even before affixing his signature to the agreement, entered an objection, but waived the question to facilitate arrangements for the great nautical event.

Since signing the articles, however, the owner of the Valkyrie has requested the New York Yacht club to assign an earlier date for the first meeting of the English yacht and the American cup defender.

The cup committee had the matter under consideration for a long time, and finally agreed to a change in the date, if the consent of the owners of the American yachts could be secured.

The owners of the boats were interviewed and they all expressed a willingness to have the races earlier in the autumn.

The date was then changed, subject to the approval of Lord Dunraven, who was informed of the alteration in the fixture.

The owner of the Valkyrie has informed the cup committee that the new date is satisfactory, and accordingly the first race will be sailed Thursday, Sept. 28.

Lord Dunraven's main objection to the races being held in October arose from the fact that he wished to make the return trip across the Atlantic at a season when there would be less likelihood of severe storms than during early winter.

The Valkyrie sails for America today. Arriving she will be docked and placed in trim for the yachting event of the year.

YELLOW FLAG FLOATS

Over Brunswick, Ga.—People Urged to Leave the City by the Mayor.

SAVANNAH, Aug. 22.—The Morning News special from Brunswick, Ga., says: S. P. Harris was pronounced ill with yellow fever at the Presbyterian parsonage yesterday morning.

Surgeon Hutton assumed control of the case for the government and moved Harris inside the quarantine limits to City Physician Branham's house, where Surgeon Branham died.

Yellow flags were raised around the parsonage and the house was thoroughly disinfected. Mayor Lamb has issued a proclamation urging every one who could go to leave the city.

Free passes will be given to deserving poor people desiring to leave. Many such passes were issued. People are leaving Brunswick rapidly. The coaches on all the railways are jammed. The feeling of anxiety in the city is very great.

MORSE IS HAPPY.

Is on a Committee Where He Can Pull the Building Strings.

WASHINGTON, Aug. 22.—Congressman Morse succeeded in his desire to be placed on the committee on public buildings and grounds. This committee in the Fifty-first and Fifty-second congresses reported favorably upon his public building bill for Brockton, which never received consideration.

He will undoubtedly secure a favorable report from this congress, which will keep the bill alive until the situation changes and more public buildings are voted. The plans of the Taunton public building are nearly complete in the supervising architect's office, and the money for its construction has been set aside.

New Railroad in Maine.

WISCASSET, Me., Aug. 22.—During the last few months movements have been quietly in progress with a view to the building, under the charter of the Wiscasset and Quebec Railroad company, of a railroad from Wiscasset through the towns of Alna, Whitefield, Windsor, China, Albion and Benton, to Burnham, a distance of about 50 miles; there to intersect the Maine Central railroad. The movement has now assumed definite shape and within a year operations will begin.

Almost Dead From Exhaustion.

HALIFAX, Aug. 22.—Simon Cotree and Henry Bodeau arrived here yesterday from Newfoundland. They belonged to the crew of the fishing schooner Thetis of Gloucester, and were left by the Thetis in an open boat while raising trawls. The men were three days in an open boat without food and water. When picked up by the British schooner Ocean Plough they were almost dead from exhaustion.

Setback For People's Company.

MANCHESTER, N. H., Aug. 22.—Frank A. Colly, who recently came from New York to take the management of the underwriting department of the People's Insurance company, has resigned to take effect Sept. 1. This will be a great setback to the company, as his great ability as an underwriter and manager was looked to to pull the company through its present difficulties.

Slight Chance of Recovery.

BOSTON, Aug. 22.—Slight chance of recovery has reserve police officer Gilbert H. Angell of division 10, who was overcome by smoke and fell down stairs unconscious at the building 1848 Tremont street, at 1 o'clock this morning while trying with Patrolman Cleveland to save some women who were supposed to be in the building. He is unconscious at the hospital.

Arrested For Serious Offense.

LOWELL, Mass., Aug. 22.—Thomas Boyle, aged 17, was arrested this morning, charged with felonious assault upon Mary Clark, aged 15 years, on Wiggin street last evening. Miss Clark is unable to leave her room and the complaint was made by her sister. Boyle denies having committed the assault. He will appear in court tomorrow.

[illegible]

GREENVILLE, S. C., Aug. 22.—A special from Greenwood, S. C., says: Jake Davis colored, yesterday assaulted Mrs. William Mundy, a respectable white woman. He was hunted down, captured, fully identified, tied to a tree and shot to death by a hundred citizens, white and black.

Table of Biology Voted.

MADISON, Wis., Aug. 22.—The American Association for the Advancement of Science elected 30 fellows yesterday, and voted $100 for the establishment of a table in the marine biological bureau at Woods Hall, Mass.

Volunteer Afloat Again.

WOOD'S HOLL, Mass., Aug. 22.—Yacht Volunteer was successfully floated by tug Right Arm last night. She is badly stove on port side. One steam pump keeps her [illegible].

Many of the mediaeval churches were originally constructed to serve also, when occasion required, as fortresses.

Several of the Aztec pyramids exceed 200 feet in height. They are generally composed of a mound of earth faced with [illegible].

THE AFTER TIME.

There cometh time for laughter
And joy for the days and years,
But ever there cometh after
A time and a place for tears.
Weary of revel and riot,
Sick of the worldly strife,
Cometh the peace—the quiet—
That quickens the founts of life.

And the spirit is disenchanted
With joys that are bitter sweet,
And the soul which for rest had panted
Falls down at the Master's feet.
The world and its ways seem lonely,
And love at the best seems loss—
What help is there then but only
To cling to the crimson cross?

To cling to the cross that blossoms
With blood for the erring shed;
On the tenderest of tender bosoms
To pillow the weary head;
To feel the love that is glowing
From the heart that is quick to beat
With even the harsh nails going
In the beautiful scarred white feet.

O bird, by the storm winds driven
Where never a sweet bird sings,
From the wild and angry heaven
Fly homeward with weary wings.
And ye that are worn and weary,
Who faint by the way and fall,
Fly fast from the darkness dreary
To the Rock that was cleft for all!
—Atlanta Constitution.

FANCHETTE.

A slip of a girl with slim, young shoulders, childish form and shy, rosy face half avoiding, half inviting the gaze—this was Fanchette.

Fanchette Hugot they called her in the village, where old Mother Hugot was well known. But Fanchette shook her head. She was no kith and kin of Mme. Hugot, that she knew, and Jacques knew it also—Jacques, with his bonny brown head and bright, bold face and gray attire, which marked him of the better class; Jacques, who loved her better than she loved the turkeys which she tended, and swore that every dark hair of her head under the red turban was precious to him.

Jacques' father called her the little turkey tender and threw her a coin from his carriage as he passed. But Fanchette treasured the coins and made herself more beautiful in her lover's eyes with her finery—ribbons that matched the blue of her eyes and roses that rivaled the carmine of her dewy lips.

When Jacques took her in his arms and told her that he loved her and let the light of his beautiful eyes shine in hers, she forgot the whole world just for that one moment. She forgot to wonder that God should let his creatures suffer so; that he should distribute blessings so unequally. She forgot that old Mother Hugot was a hard mistress and forgave her the bruises on her poor body and the unkind words she used toward her. She mounted into heaven when Jacques put his arms about her and she could lean her head for a moment on his broad shoulder.

But these opportunities were seldom granted her for sinking her soul in Lethe. There were cows to milk, and the pigs to feed, and the turkeys to tend, and when she could finally slip away to her lover whistling impatiently round the corner of the lane she had but a few moments to spare from her mistress, who was impatient the instant the girl was out of her sight.

They used to watch the moon come up sometimes, round and fiery and glowing in the soft warm sky, and Jacques would claim a kiss for every star that appeared in the heavens as they watched. Ah, Fanchette loved the stars! One shone into her little casement at night, and she always thought of Jacques when she saw it, and his kisses seemed to her again laid on her lips as she fell asleep with her eyes fixed on the distant light.

Fanchette was very faithful to Mother Hugot, who grumbled at having to keep her and called her shiftless and a good-for-nothing. But Fanchette knew from the tiny gold locket around her neck and from the embroidery on a bit of a gown Mother Hugot had shown her that she was Jacques' equal at least, and she always looked for a delivery to come to her in some guise or other. Every morning when she arose she would say, "Perhaps today my deliverer will come," and every night when she went to bed she prayed, "God, I thank thee that I am yet alive, for I know thou wilt send me a great blessing tomorrow."

So when the fairy godmother finally did arrive Fanchette was the least surprised of any of the village.

When Jacques met her that evening in the lane, he laid his head down against her to hide his face, out of which the gay light had faded.

"You are going away," he cried, "to be a great lady. You have a title; you will live in a palace. I, poor Jacques, what shall I do? I think death would not be difficult."

"I shall come back, Jacques, in a year—they have promised me that—and then we can be married if you are waiting for me still. Parting is but a test of true love. Don't give your kisses or your love words to other girls to make the time speed faster, my own Jacques. If I feel that you are all my own in deed and in thought, there will be no sting in the sadness of our parting."

Jacques lifted up his head. The moon came up lightly over the late lime trees and shone upon his boyish face."

"I promise," he said, solemnly lifting his hand on high, and then he drew her dark head against his shoulder and pressed her lips with his own.

"In a year from tonight I will meet you here. Oh, Fanchette, my love, my own, you will not fail me?"

"Never, Jacques, if I come to rags. I will keep my word. If I come to a beggar, still I will meet you here."

"Remember our star, Fanchette. Every night I will look for it, and when you see its rays you will know your Jacques is dreaming of you and praying for your return."

When the sun chased the shadows from the earth next morning, Fanchette was many miles away.

She went to a palatial home. She gowned herself in satins and saw herself bedecked with jewels. She grew more fair than a poet's dream, and she danced with nobles and was attended by aristocratic dames.

She was still Fanchette, and at night she looked at the star she loved and murmured the prayer of her childhood's days. Every heartbeat was for Jacques, every tear for Jacques, every smile for Jacques. She knew not if he were dead or living. When she was of age, at the end of the year, then she would know.

Her beauty expanded. Her eyes were deeper, her form rounder, her skin firmer, with a glow like polished marble. She carried her head with a saucy tilt, her lips melted into smiles, her cheeks dimpled. They called her Fanchette the lovable.

When 11 months had passed, she put her arms about her newly found father. She murmured Jacques' name with an intonation like a ringdove in her voice, and a frown corrugated the old man's handsome brow. He flung her aside.

"Ingrate!" he cried stormily.

Fanchette kissed him sadly and crept away. Just at that moment she longed for the starlighted land, the coins that Father Badeau threw to the poor turkey driver and the curses of Mother Hugot with a heartsickness that terrified her.

She never mentioned Jacques' name again. She stole from her home one night at the hour of 12. She paused beyond in the corridor and gave one glance behind at the luxury wrapped nest she had quitted. She saw the gilded panels, shining mirrors reflecting painted ceilings hung in roses with a frieze of cupids, soft, rich carpets and lace hung bed where dreams of Jacques had circled round her drowsy head.

She saw her tiny satin shoes, subtly suggestive of indolence and with a touch of personality seeming to cling about them still as they lay discarded on the white fur rug before the scented fire. Her glance wandered to an open chest of antique wood hard by, heaped up with the choicest treasures of the milliner's art. Here a fan coquetted with an opera cloak, there a dainty ball gown spread its flimsy flounces over a Parisian bonnet laden with purple violets.

She dropped a tear, she burst into a sob. Her woman's heart cried out after all this luxury. Her better nature whispered Jacques' name into her ear. The tear became as a rainbow touched by her smile. She turned and fled, crying.

"The world is well lost for love, my Jacques! I come! I come!"

In the old familiar trysting spot at last, waiting for her lover, she echoed those words. She crouched down and kissed the turf and the star eyed marguerites and laughed to herself softly and gleefully.

She heard his step at last. She arose with a new shyness born of her fresh beauty and her solemn joy.

"Jacques!"

"What, Fanchette! You! What! Fanchette in the rags of the turkey girl?" he stammered.

"Oh, yes, Jacques, yes! The turkey girl, Fanchette, whom you love. Not the lady Fanchette ever again! I am yours, Jacques, yours!"

He dropped his hat from his hand. His rugged face paled and his lips quivered.

She thought his joy unmanned him. He put both hands over his face and stood so, abashed before her dewy eyes. She brushed his hands with her red lips and whispered to him:

"Look up, my Jacques! Surely you will speak to your own Fanchette? Oh, fie, friend Jacques, tears for joy, forsooth! Methinks that is worthy of a woman. What! Will you not look at me? They say that I am greatly changed—a beauty, Jacques, your little Fanchette! Are you not glad?"

She was sobbing and laughing and clinging to him, the moon showing her dimples, and her soft, quivering lips, and her new great beauty to him in a maddening way. Her hair fell around him, her warm arms were laid upon his shoulders, she was leaning against him, delicious in her womanly gladness. But he did not touch her after the first involuntary caress. He dropped upon one knee at her feet and laid his face against her hand.

Their star on high looked down upon them benignly.

"Look, Jacques, look—our star! Do not kneel to me, my own Jacques, do not, I pray! See, it is smiling at us—it is happy, too. The year is past, is past, Jacques, let us thank the good God together. But first will you not kiss me? Am I to sue for it, then? Dear friend, do not give way thus. I am here, close beside you, Jacques. I will never, never leave you now, love, unless you bid me go!"

"I bid you go."

The voice was hoarse, agonized with deathly anguish in its modulations.

"Jacques!"

"I am married!"

He caught her, held her to him as her eyes closed and cursed himself.

"Fanchette, Fanchette, look up and listen! My God, I hate myself! I married Rosamond Cartier six months ago. I—thought you would not come back. Father influenced me"——

"Don't!" Fanchette said.

She seemed more beautiful than ever when she stood up again. But Jaques could not bear to look at her.

She slipped away from him over the grass toward Mother Hugot's house.

"Come to our house, Fanchette," he pleaded.

But she shook her head, lifted the latch and went in.

She is the turkey tender once again. She sees Jacques' wife roll by in her carriage. She is humble and patient, but she prays the old prayer no more.

All that remains of the past are the stars, and on calm nights when she looks out of her window she still fancies as she weeps herself into troubled dreamland that Jacques is once again claiming a kiss for every star in the crowded heavens.—Exchange.

How French Criminals Face Death.

The Abbe Faure, ex-chaplain of Roquette, is convinced that the majority do not tremble when they see the fatal knife before them; they are "electrified" and appear unconscious. One woman, however, distinguished herself by skipping up to the shimmering blade and kissing it. She had to be dragged away by brute force and strapped on to the bascule, being livid with rage at the interruption of her osculatory devotion.—Paris Letter.

Red Raspberry Punch.

A bowl of punch that will satisfy the eye and gratify the taste of the most exacting is made by adding a little maraschino and red curacoa to an ice of red raspberries. Mash one quart of the berries and mix with them a cupful of sugar and the juice of one lemon. In half an hour put through a fine sieve, add a pint of water and a fourth of a cupful of each liquor. Freeze and serve in small glasses.—Exchange.

AN ANCIENT FESTIVAL.

SACRIFICES AND CEREMONIES INVOKING THE RAIN GOD.

A Very Old Custom of Yucatan Dating Back to a Time Long Before Columbus Discovered America and Its Inhabitants. Breaking Jars With Sticks.

The Mayas, once the masters of all Central America, greatly esteemed the wide spreading evergreen ceiba tree, even believing that it would be one of the beautiful objects in the paradise of their future life.

When Columbus was busy hunting after this big continent, the ceiba was very dear to the Mayas, as it had been for many centuries. At the approach of the rainy season the chac, or weather genii, masters of the clouds, were invoked, and the people had a great hunt, killing many creatures of the forests and making a burnt offering of their hearts. Then several jars filled with water were suspended and broken.

The fluid gushing out was symbolical of the bursting of storm clouds. The name of that quaint ceremony was Tup kak, meaning to extinguish fire, and very appropriately, since the first showers refresh the parched soil and scorching atmosphere. It has not yet fallen into disuse, though it has undergone some changes. At the hacienda of Uxmal (pronounced Ooshmal) where, in an open square, a superb ceiba spreads its cool, shady branches, it was highly entertaining one afternoon to observe the modern form of the Tup kak.

By the trunk of the great tree squatted a man playing a sacatan, a drum that is exactly like the tomtom of the Africans. Not for one instant did he pause from the time when the people began to gather on the spot until all had dispersed. He pounded away as if the entire nation depended on his present exertions for its agricultural prosperity, or as if the evil genii of drought might creep in and ruin the whole affair should he venture to relax his efforts in the least degree.

Men, women and children congregated beneath the tree, where a number of red earthen jars, some fancifully painted and all corked, were placed in a line, as directed by a master of ceremonies. Over a low branch a rope was thrown. To one end of this a jar was secured and jerked up and down by a man having hold of the other end. Boys armed with sticks stood in line and one by one passed beneath the jumping jar, aiming a blow at it, their business being to break the same.

Some of the Indian lads wielded their stick so effectually that the jar fell in fragments on their upturned faces to the delight of the others, who, without looking, threw themselves on the ground to scramble for the good things supposed to be in the jars. Some disappointment resulted from the first 12 being full of emptiness. This exasperated the enterprising youths, because their companions made fun of them. Two jars contained rubbish that came tumbling upon the bare heads and created some merriment. Live pigeons flew out of one and away. Two jars had been filled with stones, which happily did not hurt any one, while in two others all manner of insects had been closed up. The scorpions among them created some excitement.

Generous matrons had filled three jars with wholesome food. The next two contained new handkerchiefs that instantly found owners. Two loathsome looking iguanas crept out of one jar and were speedily executed, because their skin fetches a good price among shoemakers, who convert it into fancy sandals and slippers. It was a pretty sight to see dozens of brilliant butterflies swarming out of a jar. The delicate creatures seemed dazed for a moment, but quickly flew out of reach, some with their gauzy wings a little bit rumpled. This display of life in one of its most exquisite forms was followed by a dead bird. Then came a shower of fruit. Rice was the next offering and corn puddings wrapped in pieces of banana leaf.

Lastly there was a jar full of imported crackers, upon the breaking of which there ensued a desperate struggle that reduced more than half the coveted morsels to fine powder. Altogether 38 jars were shattered in 90 minutes, and as of old the breaking of jars filled with water was symbolical of bursting clouds so the contents of these were figurative of the many things resulting from the revivifying rain. The peculiar rolling of the sacatan drum was strikingly suggestive of distant thunder.

The man who had arranged the jars before their destruction knew the contents of each. He was the H-men, or wise man of the place, and it is probable that those same contents had a meaning for him, such as the following, which suggested itself while considering the order in which the jars were broken:

First came emptiness—Alas! What can we hope for, how thrive, without the beneficent rain!

Rubbish—Drought leaves out refuse for the winds to scatter.

Pigeons—When the sweet grain is ripe, the birds will come to feast, but away they soar in times of need.

Stones—Walls we must build to protect our crops from intruders. (All fences in Yucatan are of stone.)

Insects—But let us beware of poisonous insects while working in our fields.

Food—Blessed by the rain our soil will produce abundance.

Kerchiefs—Then can we have new raiment.

Iguanas—Also fine sandals.

Butterflies—For a few brief days we can flutter in the sunshine of prosperity.

Dead Bird—But forget not that cruel death will come.

Fruit, Grain, Etc.—Let us then enjoy the good things of the earth, reveling in its life giving sunshine and showers.—Alice D. Le Plongeon in New York Tribune.

Clover In the House.

Pick a bunch of sweet clover and hang it up to dry in your living room. It will drive away more flies than any one square yard of paper.—Boston Traveller.

The Perversity of Man.

In winter, when the frozen ground
Was hid by snow in every lot,
I wished that summer had come around
And everything was boiling hot.

In summer, when the weather's warm
And the humidity's intense,
I'm longing for a wintry storm
And snowdrifts higher than the fence.
—Chicago Record.

Why People Dislike a Book Agent.

"What is there about a book agent or a peddler of any kind that is so distasteful to the ordinary citizen of today?" said Martin Cole. "The efforts of these people to make a living is conscientious, and I am positive there is no work on the face of the earth that is half so wearisome or soul trying as this one thing of canvassing books. There is no satisfaction in it and not even a good living. Every one turns with disgust from the book agent. Probably it is because people cannot brook anything outside of the regular lines of trade. They prefer to have things in their proper places—books in a book store, candy in a candy store and the like throughout the long list of earthly articles that we use. Then they want the stores close at hand, so that they can rush out and secure what they want, paying spot cash for it.

"These are what people term the legitimate lines of trade, and they are. Then when a peddler arrives, the merchant or the ordinary citizen immediately figures out that anything that must be brought about to him to effect a sale must not be good. It is outside the legitimate line, and if it were good it would simply be placed upon the market through the ordinary channels and left for the public to conceive its merits. So, then, I figure out that this dissatisfaction with book agents and the like resolves itself into the great law of order, which is an innate desire in the heart of everyone."—St. Louis Globe-Democrat.

Pigs' Feet and Terrapin.

A observing business man, who has had occasion to patronize at one time or another nearly every restaurant in the purely commercial section of the city, has discovered an odd relationship between two articles of diet which rarely if ever occur singly upon a bill of fare.

"You can be reasonably sure," he said the other day, "that when you see 'liver and bacon' set down among the edibles you will not have to look far to discover that you can also obtain a 'chicken liver omelet.' Perhaps this will explain," he added cynically, "why it is that so often the liver of the first dish appears in small triangular pieces in the omelets."

The gentleman might have transferred his observances also to certain up town restaurants which cater to the "swell" members of society. It's dollars to doughnuts that in at least one-half of those which boast of their fine cooking, whenever terrapin a la Maryland or Philadelphia or any other style is to be had, it will require but little urging to obtain fried pigs' feet.

Pigs' feet and diamond back terrapin do not closely resemble one another in their natural state, but what a difference when they are stewed, either separately or together, with Madeira wine and various concomitants! An epicure only can detect the subterfuge by the slightly larger bones of the pig's trotters.—New York Herald.

How to Select Good Help.

One of the most astute business men in New York city, who has through his own efforts built up an enormous establishment, and who gives employment to hundreds of men, some of them at very large salaries, told me he had very little difficulty in finding the right kind of men for any department of his work. I was surprised to learn this and asked him what was the secret of his success. He said:

"I have men to whom I pay as much as $8,000 a year. I have sometimes been disappointed in my selection of helpers, but as a rule I never fail to get the kind of a man I want. My first rule is to select for experienced help only the men who have succeeded in what they have undertaken.

"No matter how prepossessing a man may be, how taking in appearance or in apparent qualifications, I never engage him," he added, "if I find that he has made a failure in anything. On the other hand, no matter how plain and unprepossessing a man may be, if I learn from his story that he has been promoted step by step; that he has always remained in a place until he was advanced, and that every change he made was a change for the better, I engage him at once. Such men never disappoint me."—New York Mail and Express.

Ice In the Government Buildings.

One gets a vivid notion of the magnitude of the departments from the vast quantities of ice and coal which are required to quench the thirst of the 20,000 clerks and keep them warm. The treasury consumes a ton and a half of ice daily, taking an average the year round. An equal quantity is used in the war, state and navy building. But the department of the interior is the great devourer of ice. Including the pension office, it gobbles up from five to six tons every 24 hours.

The quantities utilized are variable. Each department makes its own contract for ice, bids being advertised for annually. No definite amount to be provided is agreed upon. The contractor gets as much for supplying all the frozen water required, whatever it may be. All the departments, together with their branches, consume 34,000 pounds every day.—Washington Star.

Play Better Than Gymnastics.

The pre-eminently recreative exercise is play. This natural gymnastics brings with it an attraction that animates the most indifferent and gives inspiration to the most phlegmatic. And what a contrast there is between pupils exercising in play and those upon whom systematic gymnastics are imposed—between English school children, for example, and French!—M. F. Lagrange in Popular Science Monthly.

Made a Difference.

Manager of Railroad—And you want $10,000 damages for the breaking of a man's leg? Your figures are pretty steep, aren't they? Why, we had a man last week who asked only $5,000 for a broken leg.

Lawyer—Yes, but my client's leg is broken in two places.—New York Press.

An Alarmist.

Teacher—This sentence speaks of a man who is an alarmist. Do you know what that man means?

Bright Boy—Yes'm. It's a ole gentleman wot tries to scare boys who likes to go fishin on Sunday.—Good News.

The Embarrassments of a Shower.

"I must alter my plan," said the summer young man
As deep in dejection he sat.
"I'd go out in the rain, but I cannot obtain
An umbrella that covers my hat."
—Washington Star.

Theory About Bee Stings.

It is a fact not generally known that if one holds his breath wasps, bees and hornets can be handled with impunity. The skin becomes stingproof and holding the insect by the feet and giving her full liberty of action you can see her drive her weapon against the impenetrable surface with a force which lifts her body at every stroke, but let the smallest quantity of air escape from the lungs and the sting will penetrate at once. I have never seen an exception to this in 25 years' observation. I have taught young ladies with very delicate hands to astonish their friends by the performance of this feat, and I saw one so severely stung as to require the services of a physician through laughing at a witty remark of her sister, forgetting that laughing required breath. For a theory in explanation I am led to believe that holding the breath partially closes the pores of the skin. My experiments in that direction have not been exact enough to be of any scientific value, but I am satisfied that it very sensibly affects the amount of insensible perspiration.—Science.

All Things to All Men.

The late Mr. Broadwater of Montana had the misfortune to be bowlegged, which suggests an anecdote told of Senator Sanders of that state. The senator has always been opposed to Major Maginnis of Montana and has been in the habit of criticising his course with considerable western freedom. "The trouble with Major Maginnis," he said on one occasion, "is that he is all things to all men. With a Republican, he is a Republican; with a Democrat, he is a Democrat; with a Presbyterian, he is a Presbyterian, and, by Jove, with Broadwater he is bowlegged."—New York Tribune.

The After Dinner Speaker.

The after dinner speaker must not talk nonsense and must not talk about nothing. But he must seem to be original, no matter what leisure he may have given to get at the sources—the headwaters of his good things—and he must be brilliant, even though his brilliancies should have been carefully thought out in the dark. Wit is his province more than wisdom, although a dash of the wisdom may be tolerated if it is brought wrapped up in wit and humor, like the sword of Harmodius among the wreaths of laurel.—London News.

An Irishman's Excuse.

During a season of exceedingly cold weather in a frontier army post the commanding officer issued an order to have limited rations of whisky issued to his men.

All went well until one day a soldier, an Irish-American, was arrested and placed in the guardhouse for intoxication. The quantity of whisky allotted to each man was insufficient to produce such a result, and a brief investigation which followed developed the fact that the soldier had stolen the rations of a comrade.

In course of time the matter was brought to the attention of the commanding officer, and the private was ordered before him for trial upon the heinous charge of stealing.

Pat was very much downcast when he appeared before the officer, but was still in possession of his faculties and native wit. He denied having stolen the whisky, but frankly admitted drinking the double allowance and his subsequent drunkenness.

"No, sur," he said, when asked to explain further, "shure I'm not afther stealin the drink. It was this way, sur. Y' see, he asked me to get his rations, an' I had me own requisition an only wan bottle. Both rations were poured in the wan bottle.

"Now, sur, I lave it to yer honor, what was I to do? Me own whisky was in the bottom of the bottle, an I couldn't get at it but by dhrinking what was on the top, but shure I didn't steal it."

This original explanation secured an exceedingly light sentence for the culprit.—New York Herald.

Stealing a Redhot Stove.

"The incident often illustrated in plays of a man carrying off a redhot stove has no basic truth," said Halman Carmody. "Still the idea seems so preposterous that people never fail to laugh at the incident when placed before them on the stage. The nearest theft that I ever knew to parallel it occurred not so many years ago when an habitual criminal in New York city was given six months in the penitentiary for stealing a tinner's stove. The evidence proved that the criminal had a record which included everything from the theft of a paper of pins and a wagon wheel down to a water gauge of a steam engine and the stove in question.

"The tinner's stove was shown in court. It was a very old fashioned, large and ungainly looking affair, which one might imagine would be the last thing that would attract the attention of even a chronic burglar. The top was cylindrical and perfectly open for the purpose of draft. To this top was attached the handle. Now, the stove had a good fire in it and had been set out on the pavement to obtain extra flame. The thief must have found it a very hot object to handle, and yet he ran with it a dozen blocks before he was caught and arrested."—St. Louis Globe-Democrat.

The Club of the Future.

A growing opinion is that the coming club will be the mixed one, where men and women will study together the questions that present themselves and work out together the problems of the day. And this, it is asserted, will not be a consolidation of the distinctively women's and men's clubs as they now exist, but a merging of the best elements of each into fresh organizations.

Following this mixed club sentiment it is not surprising to find Mr. Stead in a London journal advocating "co-operative homes for the unmarried." By this he means that the co-operative homes for spinsters and those for bachelors should combine their housekeeping arrangements into a sort of idealized boarding house, where Mrs. Grundy would be appeased with "an experienced lady housekeeper" and where companies of detached or unattached men and women could find congenial acquaintance. The limitations of the word congenial Mr. Stead insists upon and admits that this matter of selection is the weak point in his scheme. The motion in any form grows out of a recognized drifting apart of the sexes under the changed condition of things.—New York Times.

FOR THE LADIES

Profit Is Nothing
But a Memory Today.

It is too late in the season to think of profit, we think of loss.
Hats reduced to less than cost, both trimmed and untrimmed.

Trimmed Hats at 98c.

Has Removed to 36 BROADWAY. You will always find a Complete Line of Artist Proof Etching, Engravings, Prang's Studies and fine [illegible] Water Colors.

REMOVED—Laighton Brothers have removed their photograph gallery from the Chapman Bank Building to No. 34 Shetucket St., in the building with the Henry Bill Publishing Co., where all old patrons will be welcomed and new ones be heartily greeted. Their new rooms are neatly furnished, their facilities for doing first-class work have been much improved. New backgrounds have been put in, and the light for producing photographs has been arranged according to the best methods known to the business. All work promptly attended to.
LAIGHTON BROTHERS.

DURGAN'S PHOTOGRAPHIC ART STUDIO is the finest and best equipped in Norwich, centrally located, opposite the Wauregan House. Everything that taste, skill and experience can do has been done to facilitate the carrying on of the business in a high-class manner, and all customers patronizing my establishment will be sure of first-class work.
Pictures made in every style, and all work satisfactorily finished. Special attention given to large work, such as Crayons, India Ink and Water Colors, or Solar Photos. Copying in all its branches. A large variety of Picture Frames always on hand. J. C. DURGAN.

ATTORNEYS.

Charles H. Carpenter,
PENSION ATTORNEY.
Office with A. Irving Boyce, over Thames National Bank. Special attention given to the execution of vouchers for quarterly payments. Advice free. No fee unless claim is granted.

NORWICH MORNING BULLETIN.
Established 1858.

NORWICH WEEKLY COURIER.
Established 1798.

Subscription rates, MORNING BULLETIN—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 3 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application to the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by telephone.

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Wednesday August 23, 1893

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A NOBLE ENDEAVOR.

A remarkable thing about the present crisis is the sturdy way in which every community stands the strain. Money is tight everywhere and credit has been greatly abridged. Manufactories are shut down and the workingmen are idle, with not much to cheer them yet as to future prospects. The business men are doing a careful business and taking a hopeful look to the future. The workingmen are buying economically and in the most cheerful spirit are trying to live independently through this period of enforced idleness. In view of the times and the many trials which they impose upon all classes of people, the intelligent sense displayed, the patience and the commendable endeavor of all to prevent matters becoming worse, and, if possible, to help by act and deed in making them better, is worthy of a great and a free people. In no other country, under such circumstances, would there be shown such thoughtful consideration and manliness as is now being shown by the people of this country. The glory of America is its free men and free women, the intelligence and worth of whom are acknowledged the world over.

DEPOSIT IN THE SAVINGS BANKS.

The scheme of Mayor Sargent of New Haven to borrow one hundred [redacted] dollars of hoarded money from the people of that city to carry on the business of the corporation until the taxes are collectible in October, has proved in a measure successful. In the first two days citizens came forward with $20,000 and offered it at five per cent., which shows that the people have a large amount of money lying idle because of their fears and that they are ready to make safe investments.

There is no safer place for the deposit of money than the savings banks of Connecticut. These institutions are obliged to carry on their business in a legal way, laws having been passed to make them as secure as the wisest financiers could devise, and they be the best and safest depositaries for the people. Depositors who in fright have drawn out their money from these banks will be taking the right step in returning it. It will be loaned on safe investments, and will immediately go into circulation and help to relieve the present financial distress of the country.

Only a few people in this vicinity have been foolish enough to draw out their deposits from the savings banks; and, no doubt, within the next thirty days these will return their money so that the interest may be resumed in October. The money now is drawing no interest and is in daily danger of being stolen or lost.

ANOTHER OBJECT LESSON.

The democrats have not only had an opportunity to learn the worthlessness of campaign promises and predictions as to the effect of a victory upon the working classes, when the doctrines proclaimed are revolutionary, but have had a chance to find out something about mill operatives whom many democrats have been in the habit of referring to as "the white slaves of the north." A correspondent of The New Haven Register spoke of the large savings of some who for years had been at work in the mills of this town, one family having saved $10,000 and another $5,000. Now The New York Evening Post says "the shut down of the mills at Lowell showed the French-Canadian operatives had been buying farms with their earnings, and that the board of the girls in corporation houses was only $1.75 a week, and the men $2, which made it easy for them to save money and make provisions against hard times." The number of Lowell mill operatives owning small farms is between four and five hundred. These were all employed by protected industries, and without steady work and liberal wages, such results could not be shown. The like can not be shown in the mill towns of free trade England, the policy of which nation the democrats of this country want to adopt.

TOO MUCH OF A MAN.

Certain democratic papers are declaring that "the name of the next governor of Connecticut will not be Morris." That is true, for Governor Morris has acted conscientiously in matters pertaining to public interests, and he has not allowed the machine politicians to dictate to him, or a disgruntled press to whip him into a violation of his own convictions upon matters of public importance. We think there is a good chance for the next governor of Connecticut to be named Merwin, not on account of anything wrong Governor Morris has done, but on account of the miserable record made in this state and in the nation by the democratic party. Governor Morris has all the honor that can be conferred by an election to the high office he holds, and he has shown himself to be more of a man than those complaining of him like to meet. They cannot control him. We have no doubt these papers are telling the truth, but they are showing considerable haste in sputtering slanderously about their own governor.

THE KINDERGARTEN SCHOOL.

It is a sign of enterprise that the Greeneville school board has been considering the addition to the public school system of that district a kindergarten school. These schools have done wonderful work among the little children of the cities. Had the board seen the way to have taken the step this fall it would have led the other school districts of the city in modern educational work. We are surprised that Norwich has not connected anywhere with her public school system free kindergartens from which pupils may come to the primary schools. The scheme for public school kindergartens is the best educational step yet taken, for it shapes and trains young minds, and developes character as well as intelligence at the very start. Wherever the free kindergarten has been made a part of the public school system, its merits have been quickly recognized and its permanence has been assured.

EDITORIAL COMMENT.

Warehouse Point is the home of another one of Hoke Smith's suspended northern pensioners. He is L. Henry Lord, 60 years old, and has drawn a pension of $8 per month under the act of 1890. He enlisted January 1, 1862, in Company K, Twelfth Connecticut infantry, reinlisted in the field at Franklin, La., for three years more and served to the end of the war and was discharged from the service August 12, 1865, at Savannah, Ga. He was wounded in the assault on Port Hudson, La., June 12, 1863, and served under General P. H. Sheridan in the Shenandoah Valley, Va.

The Providence Journal characterizes the vandalism at Laurel Hill park as "the most contemptible piece of villainy that has come to notice of late," and says, "If the Norwich authorities do not discover and punish to the full extent of the law the reprobates who are responsible for this utterly senseless crime they will incur the reproach of every other American community."

Dr. Carl Peters, the African explorer, has expressed his opinion of Stanley. He does not consider him a gentleman. Stanley's opinion of Dr. Peters is now in order.

The condition of labor does not stem the tide of immigration to this country. For the first six months of this year 300,000 immigrants were added to the population of this country and the arrivals in July were large. With 900,000 people idle in this land, foreigners ought not to be admitted at the rate of 30,000 a month. This is a vital matter worthy the attention of congress.

W. E. Meehan of Philadelphia regards the greater part of the stories about the Peary expedition as inventions. He says "plenty of dogs are to be had in Greenland for a few sticks of wood or bits of iron. That if Peary left the coast of Labrador Aug. 10 the Falcon will have plenty of time, as the Kite did not leave McCormick bay in 1892 till Aug. 24.

The silver men in New York are in for making a show. They have issued 4,000 invitations to attend a meeting held in a hall which will accommodate but 1,800 people. In this way they expect to get an overflow!

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

A Word to the Police.

You are guardians of the public order. You are commissioned, not to protect your own dignity, but to preserve the public peace and security. Your clubs are not carried for the purpose of resenting personal affronts, nor are they to be used at the exercise of individual caprice. It may not be pleasant to listen to derisive taunts, nor easy to restrain your tempers when a command is not instantly obeyed, but those are some of the things that you are paid for. You have a right to make arrests, but you have no right to strike a peaceable citizen, either with your fists or your clubs, even if he is doing something of which you do not approve. When the public safety is threatened with violence, or you are yourselves attacked and in peril, it is your duty to strike and to strike hard, but not otherwise.—[Boston Journal.

Administration Influence.

Administration influence is credited with crowding Springer and Holman out of their chairmanships, but it could not shake Bland out of his old place at the head of the committee on coinage. The episode is an excellent measure of the silver idea in democratic councils.—[Boston Journal.

Appropriate.

"Financial views changed, while you eat;" would make a very appropriate sign for the administration pie counter.—[Washington Post.

Cause for Sulphureous Remarks.

"Sacrifice everything to force," said the professor of rhetoric to his students who were at work upon their graduating essays. After Speaker Crisp announced his committees Monday a good many congressmen who failed to get the places they wanted doubtless made a few sulphureous remarks respecting the professor's advice.—[New York Tribune.

A Burdensome Proposition.

Secretary Carlisle's figures are unanswerable. They strip the free coinage contingent in congress of the last shred of consistency. What the members committed to silver propose, instead of benefiting the country, would contribute enormously to the weight of burdens already grown intolerable.—[The Brooklyn Eagle.

The Republican Policy.

"Whatever policy will relieve the public distress," declared the venerable Senator Morrill, "will be my policy. Whatever measures support public honor will have my support." There is the spirit of true wisdom and patriotism. It is the attitude of most of the republican senators and representatives. If it were also the attitude of their democratic colleagues, the future would be secure.—[Boston Journal.

Cleveland's Responsibility.

Silver purchases were made month after month when Mr. Cleveland sent to congress his first incendiary message in 1887. They were still made when he wrote his letter of acceptance in 1888. They were made when he accepted the nomination last year upon a revolutionary platform; but still the business of the nation prospered. But no sooner had he and his party come into office, with positive ability to make good their threats, than a great wave of depression swept over the land. It is impossible not to perceive that the whole cause of the trouble was the success of the democratic party, or to deny that the man who gave the impetus to the forces of destruction was Grover Cleveland, to whose rash utterances and aggressive promotion of the free trade cause is to be attributed, far more than to any other influence, the calamities which have overtaken a nation which one year ago had high prosperity.—[N. Y. Press.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Brave and True Words.

Senator Hoar expressed the sentiments of every patriotic republican in the United States when he said:

No man whom the American people have trusted with any share of political power is entitled to be respected who approaches the duty of this hour in any partisan or sectional spirit or inspired by the desire to reap partisan advantage from the public calamity. Our task is to discover and remedy the great evil under which all classes and all parts of the country suffer. We may differ in opinion as to the responsibility, but I hope we may find substantial agreement as to the cure. If I can find any opportunity to help save the ship, I care not whether a democrat or a republican is in command. Whatever errors President Cleveland or those who follow him have committed in the past—whatever mistaken purposes they may have for the future—I am willing to act with them in the present, if by so doing I can help restore my country to the safety and the prosperity which she enjoyed up to March 4, 1893.

THREE OLD PAPERS.

The New London Morning News—The Norwich News—The New York Weekly Herald.

We are indebted to Mr. William T. Chamberlain for copies of three interesting papers back in the forties. That is less than half a century ago, but these relics show the great strides the newspapers have made in a few decades. The New London Morning News, published by J. G. Dolbeare, has a center piece upon its head, the picture of a monster whale tossing a whole boat-load of New Londoners into the air for disturbing him, while a second monster of the deep is spouting in the distance water enough to flood the town. The motto is—"Always be sure you're right then go ahead!" This paper was issued March 6, 1847, which does not seem to have been a very newsy day. It has eleven columns of advertisements and five of reading matter, with no telegraph, no editorial, and but three local items, which announce the arrival of the ship Electa from a whaling voyage, the fact that Newsman Irish had laid The North American Review upon the editor's table, and notice of a missionary meeting to be held in the Methodist church that evening. It was a paper, apparently, published for revenue only. The most important paragraph is: "What a glorious world this would be, if all the inhabitants could say with Shakespeare's shepherd: 'Sir, I am a true laborer; I earn what I get; get what I wear; owe no man hate; envy no man's happiness; glad of other men's good; content with my farm.'"

The Norwich News of June 22, 1843, published by William Faulkner, is without motto or picture, and contains thirteen columns of reading matter and eleven of advertisements. Four columns are made up of selected miscellany, three columns devoted to the visit of President Tyler to Stonington, three and a half columns to a Bunker Hill celebration, a column to a Washington letter, and the remainder to poetry, general news and locals. The editor acknowledges the receipt for the week of presents: "A bouquet of tansy and nettles," "the deucedest little hat or bonnet mortal ever set eyes on," "a Cape Cod protector," (i.e., a slice of gingerbread,) "two elegant bouquets," and "a Barlow knife," with a keen edge and a right smart spring." The editor expresses himself thus in verse:

> "Our object is to live,
> In common with our neighbors;
> And gladly we'll receive
> Either gingerbread or 'taters."

The important fact is stated in this issue that the state is free from debt and there is $400,000 in the state treasury, besides the state school fund of over two millions.

The New York Weekly Herald of Feb. 20, 1847, is illustrated upon its first page much as the daily papers are illustrated today, with "A View of the Market Plaza in Matamoras" and of "The New Iron Steamship Sarah Sands." It is filled with Mexican war news and contains a special message from President James K. Polk relative to the Mexican war. This paper was then in the twelfth year of its age.

MYSTIC ARTISTS.

Who They Are and Where They Reside.

A paragraph in a late paper spoke of "some wandering artists" who were spending the summer in Mystic. This does injustice to the large and growing colony of artists who have made this vicinity their home. No more picturesque spot than the valley of the Mystic with its diversified scenery of river and ocean, field and wood, could be chosen, and these artists who have selected this famed spot as their home are well aware of it. Among the earlier arrivals, were the Roorbachs, an artistic family of five persons, all of whom excel in their particular sphere. One of the sons is an artist in oils, and has reproduced the lovely scenery hereabouts and from the islands in the sound with unusual fidelity to nature and true principles of art. Another son makes a specialty of water colors with charming results.

Some of the lovely work in black and white done by Mrs. Eloise Roorbach is familiar to Norwichites and others who wish to embalm their memories of "the Rose of New England" in an enduring form.

Just above, on the same side of the river, in a cottage endeared to old residents by memories of Mrs. Wells, "Aunt Zipporah" as she was familiarly called by many not related to her by ties of blood, dwells another artist, Mr. Graffin. His snug cottage is most picturesquely situated under the shadow of the historic Porter's rocks, where Major John Mason concealed his men on the night before the massacre of the Pequot fort. The world of art will never know how much it has lost by the removal of incentive to action on the part of this gifted artist in his inheritance of a fortune.

Still farther down on the river road and within a rod or two of the wooded hill where the Universal Peace association hold their yearly meetings, is the residence of Mr. Charles H. Davis, whose fame as an artist is widespread, and whose pictures on exhibition in the art building at the world's fair, six in number, attest his superior skill. They are entitled "Abandoned," Summer Morning," "April," "On the New England Coast," "The Valley," and "A Winter Evening," the last being loaned by Thomas E. Waggaman of Washington, D. C.

Messrs. Huson and Weber, also resident artists, though not now so distinguished, are to become more widely known.

We have also temporarily residing here Messrs. Grayson and Cooper of Philadelphia, who find in the varied scenery ample material for their brushes; and to be counted among this artistic coterie, as well as several young ladies from the Philadelphia Art league, whose white umbrellas may be seen set up in picturesque and often lonely spots.

In view of these facts it may be said that Mystic has become an important art center, and what better spot could be found for a summer school of art.

Had the late lamented Captain Spicer lived to carry out the benevolent schemes that his fertile brain and generous heart contemplated, who knows but that elegant but empty house standing on the grounds of the new library might not have been transformed into a veritable temple of art, to which pilgrims from all sections would throng to sit at the feet of some of these successful artists.

Every nervous person should try Carter's Little Nerve Pills. They are made specially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who, from any cause, do not sleep well or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Nerve Pills, particularly if combined with Carter's Little Liver Pills. In vials at 25 cents.

A Wonderful Machine.

There is no doubt that man is a fine mechanism, but like every other machine he wears out by friction. It is said he is born again every two or three years. His body is virtually re-made from food. To retard this making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time to recuperate. The process of making anew is more celebrated by purging with BRANDRETH'S PILLS that a new man, as it were, may be made in two or three months, and the change in the mechanism is such that the worn out part is replaced by the new without the usual running down of the entire machine. You don't have to stop for repairs. Purge away with BRANDRETH'S PILLS the old, diseased and worn out body. They are purely vegetable, absolutely harmless, and safe to take at any time.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents. Try them.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

A Young Girl's Fortune.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her.

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—[Mrs. R. S. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

Sold by N. D. Sevin & Son and Lee & Osgood.

IN THE BULLETIN.

RULE OF MAJORITY.

Will Be Enforced in Senate On Repeal Bill.

PROMPT ACTION INSISTED UPON.

Banking Bill Will Be Shelved If Necessary.

WASHINGTON, Aug. 22.—Senator Voorhees said today that if the silver advocates in the senate attempt to carry out their tactics of delaying action on the repeal bill, which is now on the calendar, by obstructing the passage of the bank bill allowing the increase of circulation up to the par value of their bonds by the introduction of a series of frivolous amendments to prevent the disposition of that measure and to delay the passage of the former bill, he would move to sidetrack the bank bill and proceed with the repeal proposition. While he regarded the bank bill of great importance in the direction of relieving the business interests of the country, and realizing that there was an overwhelming majority in the senate favorable to its passage, he did not propose to allow the advocates of silver, who are in a minority, to adopt a line of tactics to defeat the will of the majority. He said that he would wait a day or two longer, with a view to ascertaining their purposes, before he made a move.

The bank bill, he said, could wait awhile, but the repeal proposition must be acted upon promptly. He and the friends of the administration are determined that there shall be

As Little Delay as Possible.

Full opportunity will be allowed the silver men to express their views, but when it becomes apparent that their tactics are to obstruct and delay, it is the purpose of the friends of the measure to insist upon a vote. In this course he will be supported by a number of Democratic senators who favor free coinage, but who are not willing to permit themselves to be used by the silverites for the defeat of the will of the majority of the senate. When this fact becomes evident, the extreme silverites, who are carrying on the contest, and who are mostly Republicans from the silver-producing states, will discover the hopelessness of their cause and will be forced to yield.

For many years it has been a grave question with the persons engaged in commercial enterprises, not only with the sailors who man the ships, but with the men who own the vessels and their cargoes, as to whether some means could not be devised to overcome the dangers to commerce encountered by ships voyaging along the Atlantic coast and particularly the coast of the southern states below Virginia. Incalculable wealth, many ships and unnumbered lives have been lost off stormy Hatteras and treacherous Nag's Head.

Thoughtful Attention Has Been Given to the subject of constructing some artificial aids to navigation along this coast in connection with the further project of an internal system of coast canals which would permit of the passage of light draught gunboats and torpedo boats secure from hostile cruisers.

Yesterday Senator Chandler of New Hampshire offered in the senate a resolution which was sent to the committee on commerce, instructing that committee to inquire into the expediency of the construction in the near future, by the aid of the government, of an interior coast line of water works across the head of the peninsular of Florida, along the coast from Florida to Hampton Roads between Chesapeake bay and Delaware bay, and by Cape Cod, for the purpose of securing commercial and military advantage.

It so happens, fortunately for Mr. Chandler's scheme, that from Chesapeake bay to Florida, there already exists a vast system of saltwater sounds, which can at a comparatively small cost be connected by several short canals, and thereby afford the desired navigation in short order.

OUR COUNSEL TALKS.

Ex-Minister Phelps' Views On the Behring Sea Decision.

BURLINGTON, Vt., Aug. 22.—The attention of ex Minister E. J. Phelps, one of the counsel for the United States in the Behring sea arbitration, was directed to a copy of the statement of a Washington lawyer to the effect that this country had lost its control, of the sealing industry through the decision of the arbitrators, and that the waters of Alaska were thrown open to all the poachers in the world except those of England and America.

Mr. Phelps spoke of the matter as follows: "I do not think the speculations of this writer are of any consequence. He evidently does not know much about the case, and I do not understand what he says or what he means.

"The real question, and the only material one involved in the arbitration was whether the seals should be protected from extermination.

"It was contended on the part of the United States that pelagic sealing—that is to say, the pursuit of the seals in the open sea—was not only barbarous and inhuman, but also necessarily destructive to the race, and that it ought to be prohibited.

"It was contended on the part of Great Britain that pelagic sealing was a right that could not be interfered with, whether it was destructive or not; that it was not so destructive as contended by the United States, and that only such regulations should be adopted as were consistent with the prosperity of the business of hunting seals in the water.

"The tribunal has imposed such restrictions upon that business as must virtually put an end to it, since, under those regulations, it can no longer be pursued with profit.

"This decision is, of course, satisfactory to us, because it gives us substantially all that we contended for, and almost all that we claimed in the outset of the discussion, under Mr. Cleveland's former administration, and it gives us more than Mr. Blaine proposed to accept during the subsequent negotiations in General Harrison's administration."

WOMEN WILL PARADE.

Arrangements For a Monster Demonstration of the Unemployed.

NEW YORK, Aug. 22.—"Women assemble in your thousands and parade your wants before the eyes of New York." Such was the proclamation sent out by the women of "Brownsville," in Brooklyn, after a meeting held yesterday.

Over 1500 women are out of work in this locality owing to the dulness in the tailoring industries of New York. Several ways and means were discussed to show the number of women and children who suffer in the prevailing distress. There were, it was said, at least 20,000 girls in this city who would participate in the parade.

A long march was out of the question, but if they decided to parade with the men at the forthcoming demonstration they would be able to fall in at some point of the line and go to Union square to be addressed by woman speakers.

The utmost enthusiasm prevailed and it was arranged that one or two women should visit New York and rouse the women there by means of a printed proclamation.

TWO WERE KILLED.

Battle Between Citizens and Railroad Employes in Pennsylvania.

MAHANOY CITY, Pa., Aug. 22.—A terrible battle took place at Gilberton, near this place, this morning. Last night the citizens of Gilberton tore up the tracks of the Schuylkill Traction company because that company failed to comply with the borough ordinance.

This morning the company, with a large force of men, all armed, attempted to relay the tracks under the supervision of Assistant Superintendent Amore.

A battle followed in which James Parfitt and William Hughes, citizens, were killed, and Evan Davis and Richard Amore, assistant superintendent of the company, seriously wounded.

Will Connor was also shot in the hand and foot. Others are reported injured and the wildest excitement prevails.

Receiver Asked For.

BOSTON, Aug. 22.—Application was made this forenoon in the supreme judicial court, before Judge Barker, for the dissolution of the well known Summer street house of Weil, Dreyfus & Co., doing business in men's furnishing goods. A receiver was also asked for. It is understood that the firm is entirely solvent, and that all creditors will be paid in full. The announcement of this action of the firm will be a surprise in business circles.

Knox Abduction Case.

NEW BEDFORD, Mass., Aug. 22.—The Lena Knox abduction case was quickly disposed of in the district court this morning. Whelock G. Tilton, the girl's uncle who was arrested yesterday, appeared before Associate Justice Milliken and waiving examination was placed under $1000 bonds for his appearance before the grand jury.

Held For Murder.

BOSTON, Aug. 22.—In the South Boston court this forenoon, before Judge Fallon, Edward F. Phinney was arranged charged with the murder of Edward M. Shine on Saturday night. He pleaded not guilty, and after two policemen and Mrs. Shine had testified Phinney was held without bail for the superior court.

GAVE SPURIOUS CHECK.

Polished Stranger Takes in the Attleboro Traders With Bad Paper.

ATTLEBORO, Mass., Aug. 22.—A polished stranger came into town Saturday. He called himself Mr. Tate. He made a few visits to the stores and finally brought up at the Gem bargain store on North Main street. Here he bought goods to the amount of $25 and presented a check in payment.

This check, which purported to be certified, was for $57.75, and was drawn on the Citizens' National bank of Towanda, Pa.

Tate was given the change, and he left the goods in the store, saying that he would send his carriage for them. As no carriage came an investigation was made, and last night it was learned that the check was spurious.

Tate visited numerous other places and tried to pass other checks, but did not succeed.

Business Starting Up.

AMESBURY, Mass., Aug. 22.—The Hamilton woolen mills, employing 800 hands, started up yesterday after a week's shutdown. The Merrimac hat company also began work yesterday, after being closed for some time. This company employs 570 workmen. The resumption of work by these corporations is hailed with delight by the people here generally.

Vermont Methodists In Camp.

RICHFORD, Vt., Aug. 22.—The Missisquoi Valley Methodist camp-meeting began in Sheldon today and will continue a week.

NEWS IN BRIEF.

Speaker Crisp announced the make-up of the committees.

Gladstone moved the cloture on the home rule bill for Friday next.

The schooner Ethel Swift was wrecked off Narragansett Pier, R. I.

The Connecticut National Guard encampment has opened at Niantic.

John F. Cole was arrested at Great Barrington, Mass., for robbing his employer.

Milo Fullard of Baldwinville, Mass., was held up and robbed by two masked highwaymen.

The plan of paying employes in currency orders by North Adams (Mass.) manufacturing firms finds favor.

The annual encampment of the New Hampshire Veterans' association opened at The Weirs yesterday.

J. K. C. Sterwood has been appointed receiver of the Philadelphia, Reading and New England Road company.

Captain N. E. Gould of the Chatham (Mass.) life saving station leaves the place and announces that he will never return.

It is reported that Treasurer McCartin who had more than $1,000,000 due the Choctaw Indians in his possession, has failed.

The Abington (Mass.) electric road made a move to cross the Consolidated tracks at Rockland and trouble was only averted by an injunction issued in Boston.

The First Congregational parish of Pittsfield, Mass., at a special meeting, unanimously voted to concur with the church in extending a call to Rev. William V. W. Davis of Worcester at a salary of $4000 and parsonage.

Maverick Bank Cases.

BOSTON, Aug. 22.—Mr. Asa Potter must stand trial Sept. 11. Judge Putnam has decided that both the motion for continuance and for delay must be overruled. The court gives Mr. Potter a week's delay beyond date asked for by the government. The Maverick bank cases are on again.

Old Citizen Dead.

BENNINGTON, Vt., Aug. 22.—Hon Chauncey S. Rumsey, one of the oldest and most respected citizens of Rutland county, died at his home in Castleton yesterday. He was 86 years of age, and has resided in Castleton since 1877.

Steamer In Quarantine.

VIENNA, Aug. 22.—The steamship Millfield, which sailed recently from Braila, Roumania, is detained at quarantine, off Malta. There have been six cases of cholera and two deaths aboard her.

Depositors Will Be Paid In Full.

SAN MARCOS, Tex., Aug. 22.—The First National bank suspended payment yesterday by order of the directors. Notice is given that the depositors will be paid in full as soon as they can realize on paper, of which there is more than 2 1-2 times the amount required.

Has Eleven Knife Wounds.

LOWELL, Mass., Aug. 22.—Patrick Gillan, who it is alleged was stabbed by Peter Burns last night, has 11 knife wounds in his body. He was removed to St. John's hospital. Burns is to have his examination before Judge Hardy Thursday.

Receiver Has Been Appointed.

CHICAGO, Aug. 22.—A receiver has been appointed for the Quincy & Crandall company, dealing in railway supplies. The company is unable to meet its obligations. Assets are put at $125,000, and liabilities at $100,000.

ITALIANS BITTER.

Loud Demonstrations Against the French.

MORE SHOUTING FOR VENGEANCE.

Mayor of Rome Asks People to Trust the Government.

ROME, Aug. 22.—Some 500 workingmen tried to start an anti-French riot late yesterday afternoon, but were charged and dispersed by the police. Several were wounded and many were arrested.

The mayor of the city has issued a manifesto, in which he exorts the people to remain calm and trust the government for the satisfaction of their demands.

The minister of the interior has sent orders to all prefects to do their utmost to maintain order and prevent personal injury to French citizens.

In Genoa anti-French demonstrations were in progress throughout the evening. The rioters burned an omnibus and many street booths. Twenty of them were arrested.

In Naples, several collisions between police and anti-French agitators took place last evening. The people were marching in the streets shouting for vengeance on France.

The Italians in a factory here have struck because a few Frenchmen are among the employes, and refuse to return before the Frenchman shall be dismissed.

ANOTHER AMERICAN GIRL.

Florence Pullman Engaged to Marry Prince Von Birstein.

NEWPORT, R. I., Aug. 22.—The friends of Prince Isenberg von Birstein, who was at Newport most of last summer, have had news that his engagement to Miss Florence Pullman, daughter of George M. Pullman, the Chicago millionaire, has just been announced. Miss Pullman has been staying at Elberon with her mother.

Prince von Berstein is about 30 years old and of medium height. His shoulders are broad and he is quite bald, but wears yellowish side whiskers. He is of very high rank, being the great-grandson of Maria Theresa of Austria.

Miss Pullman is a very charming girl, clever and vivacious. The residence of the Pullmans is one of the finest in Chicago, and Mrs. Pullman is noted for her entertainments. The Pullmans are as lavish of expenditures as any of the multimillionaires, and during their last visit abroad are said to have fairly astonished even the Parisian modistes and milliners.

RIVAL CAMPS DISAGREE.

Collision Between Russian and Finnish Troops Near Wilmarstrand.

LONDON, Aug. 21.—The St. Petersburg correspondent of the Times says: Finnish newspapers report that several rather serious collisions between Finnish and imperial Russian troops have taken place this summer at the camps near Wilmarstrand.

In former years the two camps were some distance apart. This year they were brought near each other in the interest of the russification of Finland.

The Russian minister of war has sent a commission of generals to Finland to investigate the trouble.

Taxes Discounted For Cash.

SOUTH FRAMINGHAM, Mass., Aug. 21.—The Marlboro city council has authorized the following discounts to be made on taxes: Five per cent on all paid on or before Aug. 25; 4 per cent on those paid on or before Sept. 15; 3 per cent on all paid on or before Sept. 30. This action was taken in order that the city might realize on its taxes, and not be obliged to borrow money to meet current expenses.

Rent Reduced Also.

BOSTON, Aug. 22.—The Steel Edge Stamping & Retinning company of Millis has notified their employes of a reduction of 10 per cent in their wages, taking effect yesterday. On account of this, Henry L. Millis, a large property owner in town, has notified his tenants of a reduction of 10 per cent per month in rent of all those employed in the steel edge factory and occupying his houses.

Regrets the Feeling.

PARIS, Aug. 22.—Signor Ressman, the Italian minister to France, called upon Premier Dupuy today and informed him of the feeling aroused in Italy by the Aigues-Mortes affair. At the same time, however, he expressed regret that such bitter anti-French manifestos had been issued in Italy and that the French consulate at Messina had been attacked and injured by rioters.

Ticket Office Robbed.

AMESBURY, Mass., Aug. 22.—A very bold theft was committed Monday at the East Kingston, N. H. depot on the Boston and Maine railroad. The thief broke into the ticket office while the agent was away and secured about $30. As he was leaving the building he was seen by two gentlemen, who gave chase, but were unable to capture him.

Cholera Concealed In Galicia.

VIENNA, Aug. 22.—The newspapers here complain of the Hungarian government having concealed the existence of a cholera center in Marmaros, a district bordering Galicia. Dispatches from Constantinople says that cholera spreads rapidly in Smyrna city where the fresh cases already number 20 and the deaths 14 daily.

THE PROMPTER.

John Drew has returned from his long European vacation.

Playwrights and actors have a penchant for naming their country seats after their most successful plays.

That old veteran, "The Streets of New York," will once more be sent on tour, with Frank Kilday in the stellar role.

Edmund Collier has been engaged as leading man in Robert Downing's company, which will play in repertory this season.

It is estimated that within a year there will be $3,000,000 invested in music halls and kindred amusements in New York city alone.

The prominent American theatrical managers do not boycott native authors. They simply ignore all but about half a dozen of them.

R. E. Graham will not produce "The Stockbroker," but will instead star in a new "comedy" entitled "After the Ball" during the coming season.

Robert Drout, author of Effie Ellsler's successful play "Doris" is less than 34 years old. Besides being a playwright he is an actor of marked ability.

The coming season of grand opera at the Metropolitan Opera House, New York, promises to be the most brilliant in the history of that famous "temple of art."

Mrs. Frances Hodgson Burnett will make an effort to duplicate the success of "Little Lord Fauntleroy" with a new play which she hopes to finish before New Year's day.

A playwright recently offered a very good lurid melodrama to several well known managers for $100 and did not succeed in selling it. Two years ago such a play would readily have brought 10 times that price.

WHITE CITY WAIFS.

A score of big peacocks have been brought to the Wooded island. To prevent them escaping they are tethered to pegs, but when they become accustomed to the place they will be set free.

Theodore N. Ely, chief of motive power of the Pennsylvania railroad and under whose care the John Bull locomotive was restored, has assumed full charge of the Pennsylvania railroad exhibit at the World's fair.

Miss Margaret Windeyer is the only woman appointed by a foreign government as a commissioner to the World's fair. She is the daughter of Sir William Windeyer, the senior puisne judge of the supreme court of New South Wales.

One of the objects of art in Tiffany's exhibit is a silver vase 31 inches high and 17 inches in diameter and weighing about 64 pounds. Around its broadest part is a belt of enameled magnolia flowers, white, purple and green, and underneath this are branches of goldenrod in actual carved gold.

FIGS AND THISTLES.

A fool carries his name in his mouth.

It is easy to be, but hard to appear to be.

If you want to get happiness, try to give it.

Self deception is one of the most deadly of all dangers.

There is no easy place anywhere on earth for a lazy man.

Every man is a hypocrite who prays one way and lives another.

There are two ways of telling a goose—by its gabble and its walk.

Nothing will do more to improve the looks than sunshine in the heart.

Running down another is only another way of trying to praise yourself.—Ram's Horn.

Forcibly

"Do I bore you?" asked the mosquito politely as he sunk a half inch shaft into the man's arm.

"Not at all," replied the man, squashing him with a book. "How do I strike you?"—Truth.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 22.—In the outside market call money is quoted at 8 to 10 per cent, and time money is nominally 6 per cent.

He would be an acute psychologist who could satisfactorily analyze the shifts of sentiment in the stock market. Without any apparent improvement whatever in the business and industrial conditions of the country, and without any material change in the monetary situation, the pessimism of three or four days ago has been succeeded by an optimism which extends even to the room traders. In a general way, perhaps, it may be said that this better feeling is the result of the more encouraging tone of the reports which come from Washington.

The placing of Bland at the head of the coinage committee, it was feared, might be misinterpreted in Europe. But London came this morning without any change, so that it is believed that the appointment is received there, as the street here is disposed to look at it, as a matter only of courtesy, though in view of the serious conditions here, a questionable courtesy.

This better feeling, of course, has made the shorts rather nervous about their outstanding lines. Their associates are not slow to see this or to take advantage of it. Every effort on their part to cover is made the basis of a rally. So that it may be said that the large short interest is the immediate cause of the present strength of the market. There was practically no investment buying yesterday. There is apparently very little of it today.

The local market opened fairly strong, though the succeeding quotations were somewhat irregular. Sugar and Distilling and Cattle Feeding were the early features. Sugar started off at the final sale of yesterday, 7¾, and advanced to 78½, while the preferred was ¼ stronger at 78½. Atchison likewise was strong, opening ¼ up at 18⅜ and advancing to 18, with a later decline of ¼. The seconds were 1 up at 28. Chicago, Burlington and Quincy opening at 77¼ was ¾ stronger, and advancing to 77½ was ⅝ up. Union Pacific advanced from 18¼ to 18½. General Electric played only a minor part during the first part of the day. It opened at 41¼, ¼ up, weakened to 40¼ and rallied to 41. The 4s weakened ¼ to 39¼. Local railroad securities were dull, though steady. Old Colony however, declined 2 to 168, while Boston and Maine advanced 1 to 142 and Fitchburg preferred 1 to 72. New England is advanced 1 to 182.

Oats opened easy today at 23½c for cash; 23½c for August; 24@24½c for September; [illegible] for October, [illegible] for May.

Pork opened little firmer today; prices ranged mostly at $12.70 for cash; $12.70 for August; $12.70@12.80 for September; $11 95 @12 15 for October; $12.70@13.00 for January.

Lard opened easy today at $8.25 for cash; $8.25 for August; $8 [illegible] for September; $7.[illegible] for October; $7.70 for January.

Short ribs opened easy today at $8.00 for cash; $8.00 for August; $7.[illegible] for September; $7 [illegible] for October

CHICAGO, Aug. 22—3 p. m.—Wheat closed rather easy today at 61⅛c for cash; 61⅛c for August; [illegible] for September; [illegible] for December.

Corn closed nearly steady today at 38c for cash; 38c for August; [illegible] for September; [illegible] for October; [illegible] for December; [illegible] for May.

Oats closed steady today at 23½c for cash; 23½c for August; [illegible] bid for September; [illegible] for October; [illegible] for May.

Pork closed firm today, at $12.80 for cash; $12.80 for August; $12.90 for September, $12.90 asked for October; $12.80 for January.

Lard closed rather easy today at $8.20 for cash; $8.20 for August, $8.25 asked for September, $8 asked for October, $7.90 for January.

Short ribs closed rather irregular today at $8.07 for cash, $8.07½ asked for September; $7.75 asked for October.

New York Cotton Market.

NEW YORK, Aug. 22.—Cotton steady; uplands, 7 5-16c; Orleans, 7 9-16c; sales, 180 bales. Futures closed steady; sales 164,800 bales. August, 7.[illegible]; September, 7.[illegible]; October, 7.29c; November, 7.[illegible]; December, 7.[illegible]; January, 7.[illegible]; February, 7.[illegible]; March, 7.48c.

THE ATTORNEY.

1839—An imperial decree abolished trial by jury within the bounds of the Austrian empire.

1853—Students for the English bar required to pass a regular public examination, said to be very rigid and of wide scope.

1856—An international code agreed on by Great Britain, France, Austria, Russia, Prussia, Turkey and Sardinia.

1859—The John Brown trial in Virginia for murder and insurrection.

1861—The United States gave its adhesion to the international code of 1856.

1863—The publication of the English Year Books, or volumes of legal reports, beginning about 1292 began to be printed at the expense of the British government.

1864—Salmon P. Chase of Ohio appointed chief justice of the United States supreme court.

1865—A reproduction by photograph of the finest extant copy of Magna Charta printed by the British government. The original manuscript is lost.

1865—Trial of Harold, Mary E. Surratt, Payne, Atzerodt, Spangler, Mudd, Arnold and O'Loughlin for conspiracy to assassinate President Lincoln. The four first named were hanged, the others sentenced to hard labor in the Dry Tortugas.

1866—The London Law Journal was established in London.

1866—Trial by jury begun in Russia, it is stated, "as an experiment."

1867—A professorship of international law was established at Cambridge by a bequest of Dr. Whewell.

1868—Pharmacy act passed by parliament to regulate the sale of all poisons.—St. Louis Globe-Democrat.

THE JEWELER.

Diamond ornaments to twist around the knot are a variation of the tiara.

A new adjustable diamond ornament is a long vine of diamonds with buds of pink coral.

The dragon fly in jewels seems to be having a brief hour, likewise that August songster, the grasshopper.

White ostrich feathers for the hair have light loops of diamonds up the stems and sparkling among the filaments.

A slender jug of beaten silver with a gun, gamebag and game around its neck is a recent trophy that is more artistic than trophies usually are.

An interesting star was recently seen. It had a half dozen long rays of emeralds. Between them on two different places were single diamonds in five point star settings.

Drapery pins of long irregular loops of gold, set at intervals with diamonds, have been introduced. These were first seen in solid diamonds. It is an especially graceful shape.

Some fine specimens of Indian jewelry are shown, especially in bracelets. A peculiar detail is 10 heavy tubular forms, like excrescences with colored opaque stones sunk in the ends.

The three feathers of the Prince of Wales have been prominently used in handles of large bonbon and berry services of silver and silver gilt. This is probably due to the royal wedding.—Jewelers' Circular.

THE PEDAGOGUE.

Harvard, the oldest American university, was attended by 2,969 students last year.

Two hundred and fifty graduates of American colleges are in European universities preparing for educational work in this country.

Columbia is following in the footsteps of the University of Pennsylvania. Beginning in October, 1894, she will lengthen the course of her medical school from three to four years.

David S. Muzzey of Lexington, Mass., who was graduated this year with honors from Harvard, has been appointed professor of mathematics at Roberts college, in Constantinople.

The four richest of the women's colleges in this country—Vassar, Wellesley, Smith and Bryn Mawr—received about $6,000,000 in gifts of every kind during the first 20 years of their existence.

Professor D. C. Thomas, for the last 12 years president of the state normal school in Mansfield, Pa., has been tendered the presidency of Adrian college, in Adrian, Mich., and it is understood will accept the position.

THE CONDENSER.

It takes 70 men to make a knife.

An ordinary piano contains a mile of wire.

There are gold washings in almost every part of Idaho.

Germany has an army of 8,000,000 agricultural workers.

A dozen varies in number in different trades from 12 to 30.

American women are growing taller, while men are getting shorter.

The nations richest in horses are the Argentine Republic and Uruguay.

The coalfields of India cover 35,000 square miles, one-half the size of Missouri.

Of 1,000 men who marry, 332 marry younger women, 579 marry women of the same age, and 89 marry older women.

Australia has extreme heat in summer. A scientist says that matches accidentally dropped on the ground there were ignited.

THE CHURCH WARDEN.

There are 10,460 churches in the Dominion of Canada.

Dr. Talmage received $600 for a two hours' lecture at the Atlanta Chautauqua.

In Colorado there was not a single Baptist church 40 years ago. Now there are 80 churches and 5,000 members.

Rev. M. M. Vancleve, a Baptist of Crawfordsville, Ind., has been preaching for more than 50 years. During that time he has married 760 couples.

The Southampton (Mass.) Congregational church celebrated its one hundred and fiftieth anniversary recently. It was founded in 1743 by Jonathan Edwards and Samuel Hopkins.

Dr. John Hall's church, Fifth avenue, New York city, has 2,436 communicant members. Its contributions last year amounted to $147,068, of which $90,749 went to benevolences.

There are 47 Chinese temples in the United States, valued at $62,000, claiming 100,000 worshipers. Forty of these temples are in California, four in New York, two in Idaho and one in Oregon.

A Disappointment.

Jeannette—I'm sorry I went to the seashore.

Maude—Why?
Jeannette—I got tanned almost black.
Maude—Well?
Jeannette—And it all came off coming home.—Chicago Record.

A Result of Hot Weather.

Chaperon—Girls, one of the gentlemen who goes with us to the theater tonight is a widower who wishes to marry again. He is a nice man.

The Girls (in one breath)—An ice man! I'll take him.—Life.

NORWICH AND VICINITY

CITY NEWS

Truckmen removed the mutilated trees from the Laurel Hill park Tuesday afternoon.

The Atwood Machine company of Stonington is filling an order received from Moscow, Russia.

Harvey Chapman, Esq., is making a number of improvements on his house on Laurel Hill avenue.

The Montville Sunday School union will meet at the Baptist church Leffingwell Town, Sunday, Aug. 27, at 4 o'clock p.m.

On Friday the steamer Ella will omit her trip to and from Mystic Island and Watch Hill and will make an excursion to Camp Morris.

Superintendent Plummer of C. B. Rogers & Co. is having the company factory and foundry put in thorough repair for the fall work.

Many young fellows are beating their way to camp this week, and the railroad section men report daily finds of battered hats which have blown off as their owners steal rides on freight trains.

The electric lights at the croquet grounds will be lighted for evening play for a month. Willie Andrews defeated N. F. Meech Monday in a game of twenty minutes, with only three plays of his ball.

An itinerant peddler passed through Main street, Tuesday afternoon, and announced in a voice that would have done credit to Paul Revere: "After the ball, the cat came back, and all the other popular songs cheap."

Judge Crump was present at 11 o'clock Tuesday morning at the session of the criminal court of common pleas. No cases appeared on the docket, so the court adjourned, without day, after the jury was paid off.

The officers of the steamer Block Island are talking of giving a moonlight excursion Friday night to Camp Morris, and will have plenty of concert and dancing music on board. Also fireworks and other attractions.

A Broadway tailor was calling in a friendly way on another man of the cloth Monday afternoon, when he made a sarcastic remark about the latter's religious shiftings. Before he knew what was happening he was kicked from the store. It is said a civil suit will follow.

Two dogs came racing through Market street the other day, and the first one, a huge Newfoundland, darted between the legs of a business man and rolled him into the gutter. The canine then continued his mischief making by upsetting the little daughter of a Water street grocer.

The Spicer Memorial library is about finished both exterior and interior and the grounds about it are now to be set in order. While the residents of Mystic look with pride and pleasure upon that elegant building, there is a melancholy recollection of the generous founder whose untimely death cut short his activities in this direction.

It is reported in Boston, upon what seems to be good authority, that Lucius Tuttle, vice president of the New York, New Haven & Hartford railroad, has been offered and will accept the presidency of the Boston & Maine road at $25,000 a year, a lift of $10,000 a year over his present salary.

Dr. W. G. Anderson of Yale college, director of the Chautauqua School of Physical Culture, says that physical training is in its infancy in America, "general interest in the subject having arisen only in the last six years." Dr. Anderson will be remembered as having given a course of lessons in this city during the spring.

Billings is an old Norwich name, so doubtless many hereabouts will be interested in knowing that the annual reunion of the Billings family will be held at the American house, Boston, on Wednesday, August 30. All who bear or have borne the name of Billings or are descended from those bearing the name, are invited to be present. The historian, Charles Billings of Canada, is expected to be present and report progress. Dinner will be served at 1 o'clock. Those who intend to go should notify John D. Billings of Cambridgeport, Mass.

Grand Surf at the Beaches.

The steamers Ella, Gypsy and Block Island made their regular trips Tuesday. The Block Island landed over nine hundred at Watch Hill and carried a large crowd to Block Island. She was over an hour late on her return trip. There was a heavy sea and a grand surf at the beaches.

The Byrnes Brothers Entertained.

The Blackstone Hose company entertained the Byrnes Brothers in their parlors Tuesday evening. About fifty members and friends were present. Refreshments were served very plentifully, and Frank G. King's orchestra graced the occasion with lively music.

To the guests was left the initiative for merry making. Mr. L. C. Mettler, the famous mimic, told side-splitting, dialect stories by the hour, to the great amusement of all. The Americus quartette rendered during the evening many charming songs and responded several times to encores. It was an evening of hearty fellowship and pleasure for the firemen and their guests.

SUMMER TRAVELERS.

Where the Summer Days Are Spent.

Mr. and Mrs. Thurston B. Barber of Plain Hill left Tuesday morning for the world's fair.

Mr. A. J. Adams has returned to Palmer, Mass., after spending a week with Mr. R. S. Robbins and family.

W. G. Abbot, G. K. Abbot and Louis Richards left on Monday night for the world's fair for three weeks.

John A. Morgan of Greeneville is at Pleasure Beach for an outing of a few days.

Francis Donahue is rusticating in the country, as a respite from his duties at Noyes & Davis'.

Miss Alice E. Gardiner is at her home on Prospect street, after studying the exhibits at the World's Columbian exposition for three months.

Miss Belle Beadle of Newington is visiting friends in town.

Mrs. George F. Coates is visiting Mrs. S. H. Bentley at Niantic.

Miss Addie Spicer of Hopkinton City has been spending a fortnight with friends in town.

Miss Cora Fletcher of Norwich, in company with Mr. Arnold of Worcester, Mr. Lewis Stillman of Brooklyn and Mr. John Tanner, Jr., of Westerly are guests of friends at Quonocontaug Heights.

Mr. and Mrs. Frank Prosser of Mystic are visiting friends in Ashaway.

The Rev. William A. Jackson and his sister, Mrs. William H. McEnroe of New York, are guests of Mr. and Mrs. Tarrant on Boswell avenue. The reverend gentleman is a brother-in-law to Dr. William H. McEnroe of New York and to the Hon. William Bourke Cockran. Dr. McEnroe will visit Norwich on Wednesday and remain until Sunday. The many friends of the Rev. Father Jackson are delighted to see him again in Norwich after two years' absence.

Mrs. S. S. Foss and son of Norwich are visiting C. N. Andrews of Willimantic.

Miss Elizabeth H. Parker is visiting Miss Ella M. Lathrop after a week at the Hydes cottage, Block Island.

Mrs. Frank A. Mitchell is with friends at summer resorts near Providence.

Miss Lizzie Browne of the Boston store is spending her vacation at Block Island.

Miss Ellen Hill, an honored and successful teacher in the Fourteenth street public school, New York city, is visiting her sister, Mrs. H. H. Roath, of Hamlin street.

Mr. Elmer E. Page, agent of Shetucket and Falls companies, and Mr. Chas. Amos Johnson are spending a week in Canada looking over the Canadian mills.

Miss Annie Tarrant has returned from a pleasant outing to Block Island.

Miss Alice F. Griffin of the Roath Avenue school, who was granted leave of absence from her position during the winter term and has spent the intervening time with friends in Kansas, expected to start for home on the 21st inst., tarrying briefly in Chicago for a visit to the World's fair.

Miss Mamie Connor of Main street is visiting friends in Brooklyn, N. Y.

A charming group of children, the Chesebro' family from Brooklyn, are being entertained by Mrs. Charles H. Davis of Laurel Hill avenue.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A LARGE MORTGAGE RECORDED.

Over a Quarter of a Million for the Quinebaug Electric Co.

A mortgage of $300,000 of the Knickerbocker Trust and Loan company was recorded in the town clerk's office Tuesday. The description of the properties included in the loan covered twenty-five type-written pages. The document was also recorded in Preston and Lisbon, towns in which some of the company's property is located.

Three hundred, fifty years, six per cent. gold bonds of $1,000 each will be issued to cover the mortgage. The company have permission to erect a dam near the tunnel twenty-two feet higher than the Greeneville dam, and will distribute power by electricity to surrounding towns for mills, electric roads, lighting, etc.

The New State Map.

It was expected that the new state map, which has been in process since 1890, would be ready for distribution from the state library in July. The printing is now in progress at Washington. There are thirty-three plates, and the length of the map is not far from nine feet when placed in position. But the idea will be to arrange the plates in portfolio, making a handsome atlas. A wall map, giving the same facts and details as the plates, which will be four and a half feet in length, will be printed.

A Reduction of Wages.

Notices were issued Tuesday by the Vermont Central road that a reduction of wages of from 10 to 25 cents a day upon all the hands employed on the New London Northern branch had been ordered and would take effect on Thursday, August 24.

A Keeley Cure Patient Found Drowned.

WORCESTER, Mass., Aug. 22.—The body of Frederick V. Sibley of North Brookfield, aged 28, was found floating in Dashway pond, East Brookfield, this morning. He is believed to have committed suicide, being despondent from the inefficacy in his case of the Keeley cure which he took at North Conway last April. He leaves a widow and two children.

Large Tool-Making Concern to Resume.

PROVIDENCE, R. I., Aug. 22.—The Browne & Sharpe Manufacturing Co., one of the largest tool-making concerns in the country, will resume operations on Monday, after a shut down of four weeks.

Will Not Start Up as Expected.

WARE, Mass., Aug. 22.—Four cotton mills in this town, employing 1,800 hands, with a pay roll of $3,000 a day, that have been shut down for nearly a month, and were expected to start up the 28th will not do so, owing to the continued dullness of trade.

Girl Bathers Drowned.

NEW HAVEN, Conn., Aug. 22.—Two girls named Splain and Walker were drowned in the Quinnipiac river about 2 30 this afternoon. They were bathing in the river at the time. The girls were about 12 years old.

Action for Foreclosure on Railroad Property.

NEW YORK, Aug. 22.—The Farmers' Loan and Trust company has begun an action for foreclosure of a mortgage of $3,800,000 held on the property of the New York & Northern railway from 155th street to Brewsters. The mortgage was given on October 1, 1887.

DIED.

BATES—In Preston, Aug. 21, Sarah Emily Nickerson, wife of Nathan H. Bates, aged [illegible] years.

Funeral this (Wednesday) afternoon at 2 o'clock from her late residence, Hamilton avenue, Preston. Relatives and friends are invited to attend. Burial at Preston City.

HUMES—In this city, Aug. 21st, Betsey, wife of Charles L. Humes, in the [illegible] year of her age.

Notice of funeral hereafter.

CONNECTICUT NEWS IN GENERAL.

Railroad Collision at Hop River—"Kid" Farrell Captured.

IN RECEIVERS' HANDS.

Wallace & Sons, Copper and Brass Goods Manufacturers of Ansonia.

NEW YORK, Aug. 23.—Wallace & Sons, manufacturers of brass and copper goods at Ansonia, Conn., with offices at No. 29 Chambers street, this city, have been forced to suspend on account of the hard time and their affairs have been placed in the hands of receivers. Thomas Wallace of Ansonia, treasurer of the company and Robert M. Thompson, president of the Copper company, have been appointed receivers, both in this state and in Connecticut on the application of John B. Wallace, the secretary and Uri T. Hungerford, the manager in New York. Wallace & Sons are one of the largest and oldest concerns in their line. The business was established in 1848 in Ansonia and was incorporated in 1853, with a capital stock of $100,000. It is a close corporation, the stock being held by the Wallace family and Mr. Hungerford. They have large rolling mills, wire mills and factories at Ansonia. The actual cost of the plant and machinery, it is said, exceeded $1,000,000, and the property is unencumbered. They employ from 1,000 to 1,400 hands at the mills. The mills were shut down last week but resumed again on Monday. The company could not meet a note for $35,000, which fell due on Tuesday, and notes to the amount of $50,000 fall due before September 1, and the balance of the notes out mature in the next two or three months. They were unable to make collections from their customers on account of the stringency in the money market and the exceptional tightness of the money market. The liabilities are placed at $875,000, of which $450,000 is on open account, nearly all of which are past due, and $425,000 on notes. The nominal assets are put down at $2,000,000, of which the plant and machinery was valued at $1,000,000, book account $100,000, which are supposed to be good, and merchandise $100,000, of which about $5,000 is in this city.

"KID" FARRELL ARRESTED.

Willimantic's Chief of Police Captures a Manchester Burglar.

WILLIMANTIC, Conn., Aug. 23.—Captain Hillhouse performed another clever piece of work Wednesday which further demonstrates the fact that Willimantic is a bad place for criminals to come to, as they always run into a snag. The trouble was in Manchester and the troubled was Dennis Farrell, familiarly called "Kid" Farrell.

It seems that Farrell, who is about 26 years of age, and an accomplice broke into Wood's wholesale beef establishment Tuesday night and succeeded in making way with a large quantity of beef and other articles. The discovery was made early in the morning and the accomplice was arrested before he had a chance to leave town. Farrell, however, made his exit and it was supposed he boarded a freight train for Willimantic. Sheriff Hall came down and informed Captain Hillhouse of the particulars and gave a description of his man. All incoming trains were eagerly watched, and they were numerous after the wreck had been cleared away on the New York & New England railroad, which occurred about a mile and a half above this station.

The train in question came along about 3 o'clock in the afternoon, and Captain Hillhouse espied a suspicious character standing on the rear of the caboose. He hurriedly drove down town and got out of the wagon at the Bridge street crossing, Sheriff Hall going into the flagman's shanty so as not to be seen. As the train came along Captain Hillhouse jumped on the platform and grabbed his man before he had time to say "Jack Robinson." At the query, "Is your name Dennis Farrell?" the fellow replied, "Not by a d—d sight." Pretty soon he saw Sheriff Hall in the distance and said, "Yes, that is my name."

He was taken to the Church street cooler, where he was locked up until 5 o'clock, at which time he was delivered over to Sheriff Hall and taken back to Manchester. No doubt Farrell will give Willimantic a wide berth if he gets into trouble again.

KILLED BY A STREET CAR.

A 4-Year-Old Boy Run Over at Bridgeport—Driver Arrested.

BRIDGEPORT, Aug. 23.—Alfred Morgenstern, aged 4 years, son of Samuel Morgenstern, was run over by a street car on Main street, this morning, and instantly killed. The wheels passed across his ribs, crushing them. Driver Sherman Cate was immediately placed under arrest and taken to the police station.

Witnesses say the boy was running to catch the [illegible] platform and was thrown under the wheels. When Mrs. Morgenstern saw the lifeless body of her child in the drug store to which it had been removed, she was crazed with grief, and returning home, tried to end her life by taking arsenic, but was prevented by relatives. The driver is held for manslaughter.

The Late Bishop McMahon.

HARTFORD, Conn., Aug. 23.—The body of Bishop McMahon was brought to this city at 11.50 this morning. There was quite a crowd at the depot. The priests present marched with the hearse to the bishop's residence. Mass will be said in the cathedral at 10.30 tomorrow morning by Archbishop Williams. The sermon will be preached by Bishop Bevins of Springfield. The Knights of Columbus, of which the bishop was the state chaplain, will attend the services in a body.

Miss Anna Orr Still Missing.

NEW HAVEN, Aug. 23.—For a time today it was reported that Anna Orr, the missing Bridgeport girl, had been discovered here. The rumor arose from the fact that her brother, Charles Orr of this city, consulted a clairvoyant here yesterday and was told that the missing girl's body lay at the bottom of a well. She failed to locate the well, however, and Orr concluded it was in the vicinity of New Haven. A remark he dropped gave rise to the rumor. Mr. Orr said this afternoon that he had as yet secured no definite trace of his sister.

Reunion of 20th Connecticut Volunteers.

NEW HAVEN, Conn., Aug. 23.—The surviving members of the Twentieth Regiment Connecticut Volunteers held their 28th annual reunion at Stewart's pavilion, Savin Rock, today. Fully 500 members were present aside from as many more guests of the occasion.

IN CONGRESS.

The Senate.

WASHINGTON, Aug. 23.—Among the bills introduced in the senate this morning was one by Mr. Pasco (dem.) of Florida as a substitute for the minority bill of the finance committee proposing silver coinage at 20 to 1.

The substitute proposes a commission of three citizens of the United States to ascertain and report before January, 1894, the intrinsic relative value of gold and silver, and that on that report the secretary of the treasury shall fix and determine the ratio that they might legislate intelligently.

The resolutions offered yesterday by Mr. Pfeffer inquiring of the secretary of the treasury as to the conduct of national banks in refusing to pay promptly, in currency, the checks of their depositors, was taken up, and a motion to refer it to the committee on finance was made by Mr. Hoar. Mr. Hoar said that in a time of popular distress and panic the comptroller of the currency should not be compelled to drive the national banks up to the strict letter of the law. The president had appointed as comptroller of the currency a man believed by him to be a clear-headed, capable man, who had not been a banker, or speculator, or dealer in credits, and this officer had not thought it best, whenever any national banks had failed to comply with the strict and extreme letter of the law in dealing with their customers, to bring them up to the rack.

Mr. Voorhees, chairman of the [illegible] committee, favored the reference [illegible] and promised that it would not [illegible] in the committee.

Mr. Kyle argued against the reference which, he said, would only mean the burying of the resolution.

Mr. Hill opposed the reference and insisted on the adoption of the resolution directly by the senate.

The question of seating Lee Mantle of Montana was taken up.

Mr. Hawley argued in favor of the resolution. The debate was closed by Mr. Hoar in favor of the majority report.

Then the vote was taken on the substitute offered by Mr. Vance declaring Mr. Mantle entitled to the seat. It resulted yeas 35, nays 30. So the substitute was agreed to, and the senate adjourned.

The House.

The house met at [illegible] o'clock this morning, and the silver [illegible] was opened at once by Mr. C. W. Stone (rep.) of Pennsylvania, who spoke for repeal and adjured members to disregard partisan feeling in dealing with the subject.

Mr. [illegible] of New York pleaded for unconditional repeal, and comparing silver to a faithful servant fallen into bad habits, held that nothing would suffice to restore it but the gold cure.

Mr. Fitch (dem.) of New York followed in the same line.

Mr. Dalzell (rep.) of Pennsylvania contended for the repeal of the purchase act, and ascribed the difficulties of the present situation to democratic hostility to the tariff.

Mr. [illegible] (dem.) of New York announced his intention to vote against each and every substitute offered by the gentleman from Missouri (Mr. Bland), and to cast his vote for the unconditional repeal of the purchasing clause of the Sherman act.

Mr. Turner (dem.) of Georgia favored the repeal bill, but he also favored the free coinage of silver at the highest ratio that had been suggested.

Mr. Coffin (dem.) of Wyoming and Taylor (rep.) of Tennessee spoke in favor of free silver.

Mr. Walker (rep.) addressed the house in favor of the Wilson bill and in advocacy of the unconditional repeal of the purchasing clause. His friend from Illinois, Mr. Cannon, had just asked to what feast we, as republicans, were invited. He would say to the gentleman, that the republicans had been complaining for many years and were now complaining that the feast that the democratic party provided was not a feast fit for their attendance, but if it had provided a feast fit for their attendance he was willing to go, to go willingly, and he proposed that the democratic party certainly had done so in its proposition to repeal the purchasing clause of the Sherman act.

Mr. Maguire of Pennsylvania spoke in opposition to the unconditional repeal of the Sherman law, and protested against hasty action.

Mr. Bell of Texas spoke in favor of the free coinage of silver.

Mr. Hicks of Pennsylvania, while advocating the Wilson bill, attributed the present depression to the fear of democratic tinkering with the tariff.

The house then took a recess.

Examination of Teachers.

Lilian H. Conant for the Fall district, Marguerite E. Vetter, Mary L. McLaughlin and Catherine F. Coughlin for Greeneville, were examined with satisfactory results this week by the town board of examiners, Franklin H. Brown, Joseph T. Fanning and Supt. N. L. Bishop.

Misses Conant, Vetter and McLaughlin are of the Normal department, and Miss Coughlin of the general department of the Free Academy.

William F. Manning.

William F., second son of the Rev. E. A. Manning, died in Reading Saturday at the age of 33 years. He was long connected with the Estey Piano and Organ company until failing health drove him to the south, where he rallied sufficiently to get a fine start again in business, but in February last severe hemorrhages led to utter physical prostration and he was barely able to reach his father's home. And so another young man is struck down in his prime, but leaving behind him a host of friends.—[Boston Journal.

Mr. Manning formerly lived in this city and moved from Norwich to Massachusetts. He was a nephew of William D. Manning of this city.

Death of George D. Jerome.

George D. Jerome died at his home in Montville, Monday, at the age of 77. He was born on Plum island, Feb. 8, 1816. As a youth he worked in Waterford. He bought a farm in Salem in 1838, and wedded Miss Hannah Darrow of Montville. A year later he bought a farm in Montville and has since lived in that place.

He has been a faithful member of the Baptist church, with his wife, for fifty-seven years, and has been a deacon since 1843. He was in politics a zealous republican. He was a man of pleasing personal qualities and was respected by all who knew him.

He had four children. Henry G., married Eliza Starr, and has four children, Idalla and Albert, Frank of this city and Louis; Amelia J., married Dr. W. S. C. Perkins and has two children, Florence A. and Charles H.; Julia W., married David A. Starr; Albert E., who died several years ago.

THE THIRD DAY AT CAMP MORRIS.

The Sea Coast Battery in Working Order—Shells Fired.

VISITORS ON THE GROUND.

Troubles at the Mess Houses Adjusted—Other Camp News.

CAMP MORRIS, Aug. 23.—I don't believe there was ever so quiet a night in camp as last night. In ten minutes after taps there was hardly a ripple of laughter to disturb the quietness of the camp. It was so noticeable that it has been the subject of general remark today.

As to the condition of affairs in the Third, the remarks of Captain Crowe, adjutant of the Fourth, tells the story. He, with Col. Frost, made a tour of the ground, and on their return the adjutant said that he thought the quarters were either empty or the troops had made a mistake in the time and thought it was Sunday.

Capt. Howard of Co. C, officer of the day, also said that he found the camp very quiet, and had no trouble in his whole round of duty during the night. There is but one interpretation to be placed upon this condition of things and that is that the men are becoming more imbued with the idea that the military camp at Niantic is a place for work and not for play; that they are employed by the state, receive regular wages and in return are here to take their work and instruction the same as though they were working for a private citizen or corporation. There is no reason why they should not understand it in that light. It is the same as any contract of employer and employe, and should be as faithfully fulfilled. To be sure there are shirkers; they will be found in every employment, and they are found here in liberal numbers, but when found out they are brought up with a round turn, and have only extra duty and arrest to console themselves with. That's right. Colonel Tyler is emphatic in his refusal of passes to the men. They are here at the expense of the state, to do the state work, and nothing but extreme necessity or urgency will get the colonel's signature.

One thing is certain, if the men will do their part Colonel Tyler will do his, and will have one of the best if not the best regiment on the field.

The routine duties of the camp, company drill, guard mount, and battalion drill were performed this forenoon under a cloudy sky but in a balmy atmosphere. At noon the skies became overcast and for an hour there was a smart shower. It did not, however, interfere with the work of the afternoon.

Major Albee had his sea coast battery in working order today and fired a few shells. His detail are taking hold of the drill in an intelligent manner.

The hospital corps have some peculiar calls and always respond. Last night at midnight the boys were called up to take a man from the guard line to the hospital. The guard took a tumble while on duty and his comrade thought he was sick, but the corps thought different and took him to the guard house where he slept off his drunken stupor and awoke this morning in time to take his medicine from his superiors.

The Y. M. C. A. tent has been liberally patronized by letter writers. Over 1,100 letters were written and stamped in the tent yesterday afternoon and evening.

The soldiers enjoyed a pleasing entertainment last evening, consisting of singing by a colored quartette from one of the separate companies; address by the Rev. Joseph H. James, formerly of Norwich; song service, etc. A large audience was present.

The competition drill for the Tyler trophy, held now by Co. C, will take place tomorrow afternoon. Judges, Lieutenants Reid and Chase of Fort Trumbull.

There are no organizations on the field that do better work, are more faithful to duty or get more enjoyment out of the camp than the two separate companies under command of Capt. Lathrop, senior officer. They keep to themselves, are gentlemen and play good ball.

Among the visitors on the ground today are Gen. Brown of the Maryland militia, Capt. Borian and Quartermaster Henry G. Bisbock of the Eighth New York regiment, Prof. J. H. George, Daniel Lee, John Crawford and B. P. Learned of Norwich, Capt. Curtiss of the Massachusetts militia. Col. Murphy, temperance orator arrived today and is the guest of Col. Cheney of the governor's staff. He is down for an address at the Y. M. C. A. tent tonight.

The first brigade formation of the week was this afternoon at 4 o'clock. This was a change from the regular order of duty. Gov. Morris will arrive from New Haven tomorrow afternoon, and will be met at the station by his staff and the Second regiment and escorted to the executive headquarters. Later he will witness a brigade parade.

All troubles at the mess houses have been adjusted and the men seem to be satisfied with their food and service. Major Godfrey, surgeon of the Fourth took his meals with the men today to see that they were served according to contract.

In the Third Pattison has his service well in hand and is putting up a satisfactory bill of fare.

Bridgeport Man Released on Charge of Pool-Selling.

BRIDGEPORT, Conn., Aug. 23.—Polo Player Conway, who was recently arrested in New York for skipping a bond and escaping from a sheriff, was discharged today in the city court because the item was defective. Sheriff Hamilton immediately seized him on a second warrant, sworn out by his former bondsman, Alderman Charles Lee, and an exciting struggle ensued. Lee scored Captain Birmingham because he would not assist the sheriff, and the captain censured the alderman for becoming bondsman for gamblers. Conway was finally released.

Switchman Instantly Killed.

NATICK, Mass., Aug. 23.—Joe Bennett, of Fall River, a brakeman on the Boston & Albany railroad, caught his foot in a frog on the Saxonville branch this afternoon and was killed instantly. He was switching coal cars and the whole train ran over him.

Large Telephone Cables.

The telephone cables which enter the new telephone exchange in the Carroll building contain 104 copper wires, and are each enclosed in a lead pipe one and a half inches in diameter, and approach the exchange under ground instead of overhead. The exchange will be completely furnished in new light wooden furniture, and the switch-board will be much larger than the one now in use, and of the latest improved pattern.

ITS REPEAL CALLED FOR.

Massachusetts Board of Trade Call for Action on the Purchasing Clause.

BOSTON, Mass., Aug. 24.—At a special meeting of the executive council of the Massachusetts board of trade today, the following was adopted:

Whereas, The extra session of congress was called by the president of the United States in purpose to a demand that prompt action should be taken relative to the repeal of the purchasing clause of the Sherman law. The seriously depressed financial and industrial condition is believed to be largely due to the lack of timely legislation, and it is difficult to find justification for the delay of congress in taking action upon a matter which is so essential to the welfare and prosperity of this great nation; therefore

Resolved, That we hereby petition congress to immediately and unconditionally repeal the silver purchasing clause in the so called Sherman law.

Resolved, That a copy of these resolutions be forwarded to the members of the United States senate and to the Massachusetts members of the United States representatives.

RAILROAD COLLISION.

Two Locomotives and a Number of Cars Broken Up.

WILLIMANTIC, Conn., Aug. 23.—Two freight trains on the New York & New England railroad collided at Hop River about 1 o'clock Wednesday morning, causing a bad wreck, both engines and a number of cars being demolished. All of the train hands on both trains jumped just in time to save themselves with the exception of Conductor Keller, who was in the caboose and received several bruises by being thrown the length of the car.

The blame is attached to the operator at Andover, who fell asleep and let the train bound east go on its way without orders. Both trains should have passed at Hop River. It was about 12 o'clock Wednesday before it was possible for trains to pass.

Ocean Steamers.

At New York—Havel from Bremen, Teutonic from Liverpool.

At London—Paris from New York.

HOME WEDDINGS.

Crocker—Williams.

A pleasant home wedding was celebrated at the residence of Edgar Williams in Putnam Wednesday noon, the contracting parties being his daughter, Bertha Emily Williams and Edward Hosmer Crocker of Norwich.

About fifty relatives and friends were present, and gave the couple a pleasant send off through a shower of rice, for the afternoon train for Boston. They received a large number of pretty and valuable presents. The Rev. F. D. Sargent was the officiating clergyman. Mr. Henry Spooner of Putnam was best man and Miss Hattie Corning of Beverly, Mass., the bridesmaid.

Perkins—Ray.

At the home of the bride's mother, Mrs. Susan M. Ray, 108 Laurel Hill avenue, at 1.30 Wednesday afternoon, Miss Lucy Byram Ray was united in marriage to Mr. Austin Freeman Perkins, by an uncle of the groom, the Rev. P. G. Wightman of Branford. A company of fifty of the intimate friends and relatives of both families witnessed the ceremony.

Benjamin H. Palmer, Jr., and Geo. W. Hamilton officiated as ushers.

The bride's gown was white silk with train and trimmed with lace. She carried a bouquet of white roses. The ceremony was performed in the bay window of the parlor, which was decorated with potted flowers. Benjamin [illegible] and served a bountiful collation at little tables in the parlor and on the veranda.

The gifts were numerous and costly. From her mother the bride received a priceless heirloom of the family, a double amethyst in the form of a pin, surrounded by pearls.

Mr. and Mrs. Perkins left on the 4 p. m. train south, and after a two weeks' tour will return to make their home with Mrs. Ray on Laurel Hill avenue. Both are deservedly popular in church and society circles throughout the city.

COMPULSORY PATRIOTISM.

New London Selectmen Have no Money for Flags.

For the past few days it has been an open question whether the board of education or the selectmen of New London would be required to furnish American flags that by a new law must surmount all public school buildings there on or before the first of October.

Monday afternoon the opinion of City Attorney Brandegee was rendered, and he decided that according to the provisions of the law the board of selectmen will have to perform that duty. As the board has no money of its own except what is paid out from the miscellaneous fund monthly, and as the latter is pretty short just at present and will be so until the beginning of the new fiscal year, the selectmen will have to provide the flags and ask for an appropriation to pay for them at the annual city meeting the last Monday in September.

Five school houses must be provided with national flags there, only three having been provided with them by private subscriptions.

STOLEN SULKY.

Found in Possession of a Norwich Man.

Sheriff Hawkins returned from Norwich Monday evening, says The New London Day, after having located the sulky that was stolen from Hubbard Young by Albert Rogers, a few days ago.

The sheriff found that Rogers had disposed of the vehicle to a farmer living near the fair grounds for an open-faced silver watch and $1 in money.

The gentleman who purchased the sulky bought it in good faith as Rogers told him a pitiful story about his horse dropping dead and that he needed the money to reach home.

The Norwich man, who is superintendent of a Sunday school, and of exceptional character, took off the wheels, put on a new pair and made several other necessary improvements, and had it out in his barn when Sheriff Hawkins reached the place.

He promptly turned the sulky over to the officer and Wednesday forenoon the sheriff returned him the watch.

It is understood that Rogers stands ready to plead guilty to the charge of theft when arraigned before the police court next Monday.

A DECREASED ONION CROP.

Yield in West and Northwest Much Below Average.

OPENING PRICES.

Quality of Crop Excellent in New England and Central New York.

SPRINGFIELD, Mass., Aug. 23.—The New England Homestead's annual investigation as to the onion crop shows that in the west and northwest the yield is very much below the average. In the northern Ohio onion fields, there is an excellent crop against a very poor one last season. Central New York has a good yield compared to a short one last year, but in Orange county, the yield is averaging only 125 bushels against 350 bushels last year, making a total production of only some thousands of bushels less than last year. The crop is a fair one in the coast districts, but light in Central Connecticut, good in the great Southport onion region, and barely as much as usual in the Connecticut valley. The quality of the crop is excellent in Ohio, central New York, and New England, but poor in Orange county and New Jersey. Prices are opening at from 75 cents to $1.25 per bushel; in Orange county, 70 to 75 cents; while further west, prices range from 60 to 80 cents.

THE SPRINGFIELD RACES.

Interesting Events—4,000 People in Attendance—Corinne Wins 2.28 Race.

SPRINGFIELD, Mass., Aug. 23.—The second day of the grand circuit races on Hampden park was even more successful than the first. There was an attendance of 4,000 people and the track was in good condition and the races were interesting. They were somewhat long, however, and the free for all pacing, which was the last event on the programme, was continued after four heats had been gone until 1.30 o'clock tomorrow, on account of darkness.

The free for all race was the surprise of the day, for Hal Pointer, who was looked upon as a sure winner in straight heats, only escaped being distanced in the last heat by a technicality. The gelding took the first heat with ease, his only two opponents, Blue Sign and Manor Wonder breaking badly in the second heat, Hal broke badly in the back stretch and came in third, while in the third heat he won handily.

So sure were the judges of his taking the next heat that they waived the distance penalty for the other horses, in order to allow Hal Pointer to go ahead by himself and break the track record. On the back stretch, however, Blue Sign showed a great burst of speed and forged ahead of the Village Farm horse, who immediately went to pieces and Geer could not get him on his feet in time to avoid being distanced.

Hal Pointer was so much the favorite at the pool boxes that he was held out of the betting and on second heat one man [illegible] $67 in the mutuals by taking the field against him, the sum said to be the [illegible] largest ever won on a mutual in New England.

The 2.28 stake race was also finely contested, being won by Corinne in the last three of a five heat race.

Connecticut Manufactories to Start Up.

MIDDLETOWN, Conn., Aug. 23.—The superintendent of the [illegible] company's factory in Portland states that the factory will start Monday next. As many hands will be put on as are necessary to make goods absolutely [illegible]. He expects to employ the full force before many weeks, and prospects are looking brighter.

E. K. Hubbard, president of the Russell Manufacturing company is reported as saying his factories will start week after next.

Misrepresented Himself.

NEW HAVEN, Conn., Aug. 23.—A prepossessing man of 34, glib of tongue, registered at the New Haven house a day or two ago as Col. E. B. Fairbanks of Boston. He represented himself as head of the big Fairbanks Scale concern and endeavored to negotiate a loan. The hotel people suspected him of crookedness before he had "worked" them to any great extent, and the "colonel" skipped the town. The fellow answers the description of a famous hotel beat, and the police of New England cities have been warned to look out for him.

The Law on Finding Dead Bodies.

The Connecticut statutes provide that when a dead body is discovered the finder must forward a report to the medical examiner in the town in which the body is found, or in his absence to the nearest one in another town as soon as possible.

There are other laws concerning the finding of bodies which most people know nothing about. Many people think they should apply to the medical examiner for the pay for finding a body. The medical examiner is not authorized to pay any such reward. The statutes say the coroner may pay the sum of $5 or any part of it that he thinks right.

THE "SEA SERPENT'S" CARGO.

Block Island Flatfish Couldn't Live in Stamford Sewage.

The celebrated fishing sloop "Sea Serpent," Capt. Theodore Davis, arrived home Saturday, says The Stamford Advocate, after a two week' fishing cruise off Block Island's sea-girt shores. The party carried home with them, in the fish well, about 800 pounds of fine flatfish, which were kept alive and seemed to thrive in the receptacle which the captain's ingenious industry had constructed for that purpose. Unfortunately the captain decided to bring his living cargo into the canal, where, it appears, the change from the ozonic waters of the open sea to the fluid which meanders in the canal at low tide was too much for the finny prisoners. They all died in one night, after having traveled in comparative comfort all the way from Block Island. It was a rather unfortunate ending of a voyage which in other respects had been successful and pleasant, and which had made it plain that the "Sea Serpent" is a mighty good boat in all weathers.

A DISGRACEFUL FIGHT.

Two Well-known Stonington Men Come to Blows.

A row of the most disgraceful character took place at Stonington Point Tuesday. The combatants were Mr. Charles S. Ryon, a well-known liveryman and dealer in horses, and Mr. Nelson Niles, a man who has been in his employ for most of the time for the past thirteen years.

The row commenced between 7 and 8 o'clock in the morning, in front of the livery stable of Mr Ryon, on Elm street From words the men soon came to blows, and they fought with desperation. A crowd assembled and the men were separated, but not until the scene of battle was marked by blood and the men well covered with gore.

Mr. Ryon retreated to his house on Main street, and the row would have been over but for the disposition of Nelson to renew hostilities. This caused him to go to the home of Ryon and storm his castle. Mr. Ryon's two sons were at home, and with other assistance they ejected the infuriated intruder, and in the squabble outside Nelson was thrown to the ground and held until the arrival of Constable Gilmore, who took him to the lockup and confined him in a cell.

A trial of the case will follow as soon as legal proceedings can be instituted. As both of the men are possessed of considerable money an exciting legal battle may follow the [illegible].

A BURGLAR AT BLOCK ISLAND.

Jewelry Stolen from the Hotel Manisses.

The wicked burglar has waded across the intervening waves and reached the peaceful and bucolic shores of Block Island. On Sunday there was a room robbed at the Hotel Manisses. Mrs. Julia Keefe of Providence lost a valuable gold watch and Mrs. Meuder of New York $400 worth of diamonds. There was not suspicion enough against anybody in particular to warrant an arrest until Monday afternoon, when two young men and a woman left the island on the steamer Mount Hope for Newport and Providence.

The fellows had been employed as bell boys at the Ocean View house and their female companion had the appearance of being a servant girl. The three repaired to a stateroom as soon as the boat left Block Island and were not seen again until a landing was made at Newport, where the woman hastily left the steamer. The young men remained aboard and mingled with the other passengers during the rest of the trip. The pair had been seen about the Manisses house on the day the theft was committed and their actions on the Mount Hope aroused the suspicions of two of the passengers, C L. Burdick and Dr. Cooney, both of Providence, and friends of the two women whose property had been stolen.

Officer Downey was on the boat and at the request of Dr. Cooney he arrested the two bell boys, neither of whom evinced any surprise when they were told they must go to the Central station when the boat arrived. Dr. Cooney and Mr. Burdick accompanied the officer with his prisoners to the station in order to identify the stolen property, but the suspects, if they had taken the jewelry, had gotten rid of it, and they were discharged. The police are confident that the woman who got off at Newport took the watch and the diamonds with her.

It is also reported that last week a large quantity of jewelry was taken from the guests at the Ocean View house.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

A SACRED SPOT.

The Wightman Burying Ground in which the Founders of Old New England Families [illegible] Buried.

One of the interesting spots that may be found anywhere in New London county is "The Wightman Burying Ground," situated in the town of Groton, about three miles northwest of Mystic and two miles from Upper, or as it now called, Old Mystic.

It would be difficult to describe its location so that a stranger could find it, but any of the old inhabitants within a radius of five miles will direct the inquirer so that by the exercise of some care he will be able to find it, and if possessed of a love for what is ancient will be repaid for any trouble he may have had in finding it. Here are buried the founders of many of the oldest families in the county, many of whose descendants are now scattered not only throughout Connecticut, but the country from its most eastern border to the Pacific ocean.

Some of the descendants not many years ago formed a society, called "The Wightman Burying Ground Memorial Association," cleared up the old burial lot, which had become overgrown with sumac and weeds, repaired the stone walls which surrounded it, fixed the old iron gates so that they may be opened and shut, smoothed the grounds and erected a neat and tasteful monument to the memory of the Rev. Wightman, the first Baptist clergyman west of Pawcatuck river, who for forty years or more preached to the people of the neighborhood in a "meeting house" situated directly in front of the burying ground.

Here, once a year, on the third Saturday of August, this society meet and hold exercises commemorative of their ancestors. It was the good fortune of the writer to be present at the meeting held on the 19th instant, when about fifty people who can trace their descent from some of these settlers met at this sacred spot to do homage to their ancestors. Here are buried the founders of the Wightman, Burrows, Gallup, Stark, Haley, Culver, and others, of the oldest families in eastern Connecticut.

Some of the representatives present on the occasion were of the tenth generation in descent from the original founder of the family in America, and no one of them with a drop of blood in his veins that had not come down from the time of the American Revolution or a more remote period in the history of New England, and which constitute the blue blood of America.

At the close of the exercises an exceedingly interesting and instructive paper upon Capt John Gallup and his descendants was read by Charles P Stark, Esq., of Providence, R. I., one of his descendants, which should be published, not only for the benefit of the Gallup blood, but for the public generally.

REPEAL ASSURED.

Situation Looks Brighter For Anti-Silverites.

SKY IS CLEARING IN THE SENATE.

May Become a Question of Endurance in That Body.

WASHINGTON, Aug. 23.—Although the president is several hundred miles away he is kept fully advised of the silver situation in both houses of congress by Secretary Carlisle and confidential friends. Secretary Carlisle has from the beginning taken the lead in the contest for the repeal of the silver purchasing clause of the Sherman act. He has assured the president in the strongest terms that the repeal of this clause of the act of 1890 will be carried in the house as soon as a vote is reached early next week.

A careful canvass has been made by the friends of the administration in that body. They find that the 16 to 1 will receive a larger vote than any of the other propositions. It has been thought that the 20 to 1 ratio would receive the largest vote, but a number of Democrats and all the Populists, together with the solid Republican vote, will vote against the latter proposition. The letter of Secretary Carlisle, exhibiting by statistics the impracticability of a change of ratio and the enormous expense attending it, has greatly weakened the case of the advocates of a change of ratio. They begin to realize that their cause is lost in the house and an attempt will be made to get

Under Cover by Some Other Route.

In reference to the senate, a careful canvass has also been made there. The Republican leaders, Allison, Sherman, Hoar, Lodge and Hawley, have submitted a list to Secretary Carlisle of 26 Republican senators who will vote for the unconditional repeal. The administration managers already have 19 Democratic senators pledged and only require six more in order to give them a clear majority. There are six or eight more Democratic senators from the South and West, which number includes Mills of Texas, Call and Pasco of Florida, White of Louisiana and White of California, who can be counted upon when a square vote is reached on unconditional repeal. There are other senators who stand ready to aid the administration if their votes are needed, but who prefer not to disclose their attitude unless it is necessary to ensure the passage of the measure.

The only question now is as to when a vote can be reached in the senate. When it is discovered that the extreme silver advocates have no support in delaying movements they will probably abandon their contest. If, however, they should still persist and carry their factious opposition beyond a reasonable limit the friends of the administration, backed by the Republican vote of the senate will give notice that on a day fixed a vote shall be taken and that

No Amendment Will Be Permitted

until the final vote is reached. It will then become a question of physical endurance. As the anti-silver people and friends of the administration comprise the younger and more vigorous members of the senate, the silverites, who are generally old and infirm, will soon have exhausted their energies and will be compelled to "throw up the sponge."

Since Speaker Crisp announced the committees of the house there has been considerable speculation as to the program of the house and of congress when the present order covering the silver debate has been exhausted. The feeling that an early adjournment of the special session is possible has been strengthened within the last few days.

Chairman Wilson of the committee on ways and means was asked to give his views upon

The Probabilities of Legislation

as connected with his committee, and replied: "I can only speak for myself. The committee has not yet held a meeting, and, of course there has been no opportunity for consultation. My own opinion is that the committee will prepare a general tariff bill in accordance with the declarations contained in the platform adopted at Chicago.

"Will there be any business transacted by the house after the silver purchase repeal bill has been passed, assuming that it will be passed?"

"Mr. Johnson has introduced his bill to provide for the exchange of bonds and currency on demand, but that can be attended to while the senate is considering the bill we send them. There is nothing else in view that I know of."

"If there be nothing to engage the attention of the house, why not an early adjournment?"

"I think it quite probable that the congress will find itself in a position to adjourn somewhere about the middle of September, until the date for the beginning of the regular session."

No Appropriations at This Session.

In talking about the work of the appropriations committee, Chairman Sayres made similar observations. He was asked when he expected the estimates for 1894-95 to be furnished the committee. "They cannot be prepared," he answered, "until after the expiration of the first quarter of the current year, which will be on the 30th of September. The financial officers of the various departments take the business of the first quarter of a year as a basis for the estimates of the succeeding year."

"Then you will have nothing to suggest to the house for some time after the silver debate is finished?"

"No, I think it will be the policy of the house after the vote on the repeal bill has been taken to adjourn for three days at a time pending action by the senate, and be ready to adjourn some time next month until the regular session. In the interim the committees on appropriations, ways and means, and banking and currency can remain at work, and have a series of completed measures relating to tariff, finance and expenditures ready for the consideration of the house when it comes together again in December."

Verdict Against a Railroad.

NORFOLK, Va., Aug. 23.—A verdict was rendered yesterday in the United States court in the case of Walter D. Oakman, receiver of the West Point Terminal Railway and Warehouse company vs. the Richmond and Danville company to recover indebtedness. The case having gone by default the jury rendered a verdict in favor of the plaintiff for $2,736,674.

Boomers Suffer by Floods.

GUTHRIE, O. T., Aug. 23.—A number of Cherokee strip boomers, camped in the Arkansas valley flats, were driven out Monday by a sudden rise of the river, losing their wagons, teams, tents and other belongings. It is feared that several of them were drowned. A family which attempted to ford the Salt Fork is reported to have been swept away.

Presumed to Be Drowned.

FAR ROCKAWAY, N. Y., Aug. 23.—William Gill of Boston, who was head waiter in Murray's Ocean Pavilion here has not been seen since Monday night. Early yesterday morning his clothes were found on the beach. It is presumed he went in bathing and was drowned.

NEEDHAM'S FIREBUG.

Attempts to Burn the High School Building—Reward for His Conviction.

NEEDHAM, Mass., Aug. 23.—An attempt was made to burn the high school building at about 1 o'clock this morning, but was frustrated owing to the energy of Chief Whittemore of the fire department.

Mr. Whittemore's house is located nearly opposite the rear of the high school building. He happened to be awake at the time the fire started, and looking out of the chamber window was surprised to see the steps in the rear of the schoolhouse blazing briskly.

A lot of old papers was piled up against the steps, and had evidently been burning but a short time. A tin pail containing kerosene was also found. After putting out the fire an officer was summoned to watch the building. The schoolhouse is valued at $30,000.

This is the fourth fire to occur within a month. The first occurred on the night of July 21, and from the nature of the blaze it was very evident that it was the work of an incendiary. The building destroyed by the fire was located in Highlandville, and was a new building about to be used as a steam laundry. This building and contents, valued at $9000, was a total loss.

The next fire occurred just a week after the Highlandville blaze, and again the work of a firebug was evident. This time the building chosen was Kingsbury block, one of the largest business blocks in town, and located in the very center of the business portion.

This fire was started in some old kerosene barrels in the rear of the block. The building and contents, owned by some half a dozen firms, was valued at about $30,000.

By energetic work of the fire department the building was saved and the damage limited to about $10,000.

The last fire, previous to the blaze of this morning, was at Charles River Village and was the most disastrous of all. By it the Waban paper mills, valued at $40,000 were totally destroyed.

The national board of fire underwriters has offered a reward of $200 for the conviction of the parties who set the first fire, and the local authorities will take active measures to secure the arrest of the firebug.

The fact that each fire has occurred on a Thursday morning seems to prove that all of the fires are the work of the same person.

DESERTED HIS FAMILY.

Herbert Davis Missing and His Wife and Baby Destitute.

NORTH ATTLEBORO, Mass., Aug. 23.—Herbert Davis of this town is missing. Davis has been for some time employed by the Attleboro & North Attleboro Electric Light company. About a week ago he told his wife that he was going out for a few hours to make a call. He dressed himself in his best clothes, and bidding her and his baby goodby, went down the street. Since that time he has not been seen. Davis has been married about a year.

Yesterday Mrs. Davis went to John Q. Hennigan, one of the selectmen, and asked that aid be given her as she and her baby were starving. It is said on good authority that Davis has abandoned his family, and has gone west with another woman. Mrs. Davis is heart broken, and says she knows no reason why her husband should leave her.

Her story is that she met Davis about a year ago. At that time he was employed as an electrician at Attleboro. After a short courtship they were married, and her husband had always been good to her.

A few months ago she heard that he was paying attention to a young widow. She gave no credence to the stories at that time, but now she thinks that her husband has eloped or else has been foully dealt with.

WITH DRAWN SWORDS

Viennese Police Charged the Roughs, Cutting and Arresting Many.

VIENNA, Aug. 23.—Thousands of roughs gathered last evening near Wagemann's factory in the Favoriten quarter and jeered and stoned the police, who have guarded the building since the recent strike of the employes began.

The police charged twice on the mob without drawing swords, but were repulsed, and several policemen were injured by stones. The latter then charged with drawn swords. The roughs held their ground until many had been cut and several arrested. They then retreated slowly, still fighting. The crowds that gathered when news of the conflict got abroad occupied the Favoriten quarter well into the night. Several fights and small riots had been reported at 10 o'clock and the police were still charging the crowds.

Peruvian Cabinet May Resign.

NEW YORK, Aug. 23.—The Herald's cable dispatch from Lima, Peru, says: There was a stormy session Monday night in the chamber of Deputies. Members of the cabinet were asked to explain the numerous violations of the constitution by the suppression of newspapers. Their explanations were not satisfactory. The session was continued yesterday, and was attended by many stormy scenes. It is probable that the members of the cabinet will resign.

RIOTERS IN COURT.

Trial of the Railroad Men Concerned in the North Abington Fracas.

ABINGTON, Mass., Aug. 23.—This morning Division Superintendent John C. Sanborn, Detective Christopher B. Bailey and Roadmaster Bryant of the Old Colony division of the New York, New Haven and Hartford Railroad company were placed on trial as an outcome of the arrests made at the riot at North Abington last week Wednesday. The trial is being held in the Second district court [illegible]

Judge Walter M. Bouve of Hingham is sitting on the bench, the regular occupant Judge George W. Kelley of Rockland, be a director in the electric road company, which was interested in the war, not being available. The New York, New Haven and Hartford officials are represented by Charles F. Choate Jr., counsel of the road In order to enable the witnesses, court officers and reporters to get in, the sheriff had to clear the courtroom, but it was immediately filled again. William Coughlin, counsel for the town, looked after its interests.

Methodists at Sterling.

STERLING CAMP GROUNDS, Mass., Aug. 23.—The annual gathering of the Methodists of the Boston and north Boston district is now in session. Monday's rain somewhat interfered with the arrangements. This morning Rev. Dr. Skene of Cambridge preached, and at 2 o'clock Bishop Mallalieu.

Valkyrie Starts For America.

TORQUAY, Eng., Aug. 23.—Lord Dunraven's yacht Valkyrie sailed for New York this morning. She left the Cowes at 6 o'clock, and at that time a fresh breeze was blowing. The prospects were that she would have to beat out of the English channel.

Cholera in Rotterdam.

ROTTERDAM, Aug. 23.—Two cases of cholera and one death from the disease have occurred in this city.

WHIP AND SPUR.

Hulda, 2:08½, looks like the coming trotter.

Sea King, 2:25½, is only 13¾ hands in height.

A. Death is the peculiar name of an Australian jockey.

The jockeys at Melbourne have formed an association for mutual protection.

R. S. Veech, owner of Princeps, is a candidate for representative in the Kentucky legislature.

Frank Caton has been engaged to drive the bay stallion Winterset, 2:24½, in Russia, and has gone there.

The Ketcham farm string have won over $10,000. Miss Lida and Nyanza have been sent home for a vacation.

Teach the foals to eat crushed oats before weaning them. Then they will not lose strength on being taken from the dam.

"A good rule is never give a horse a full feed on a change of work nor full work on a change of feed," says The Horseman.

Peter the Great, the noted California 5-year-old race horse, has been sold to Albert Cooper for the reported price of $15,000.

C. J. Hamlin's Eric Chimes, 2:19¾, has been renamed Ara Chimes, as the former name was already borne by one of the get of Chimes.

Four winners of the American Derby were by Kentucky bred horses, four by California bred horses, and one each by horses bred in Illinois and Tennessee. Isaac Murphy rode four winners.

THE JEWEL CASKET.

The sheaths of swords bid fair to rival the hilts.

A diamond necklace had festoons of oval turquoises set with small diamonds.

The slenderest sort of crescent, almost 3 inches from tip to tip, is made with pearls.

A large cut glass bowl for powder has a shallow cover of lusterless silver gilt on which the powder puff is to rest.

Coral is coming into use for hatpins. Some handsome ones have been seen with carved coral heads 1½ inches long.

The ever adjustable serpent, with jeweled eyes, is coiled at the heads of some of the new pins. These are made very ornamental.

Roman gold lockets with smooth faces and raised gold edges have been brought out in numbers. The center is left smooth for a monogram or has some device in which colored stones or diamonds are set.

English women are going in for diamond belts. Lady Brooke and Lady Londonderry have both appeared recently in magnificent zones in keeping with their tiaras. Another new feature is a turquoise collar.

There is a fancy for large jewels en cabochon. Emeralds and sapphires have been seen thus in numbers. In the handsomest brooches a large smooth round stone is set in diamond forms and another pear shaped forms the pendant.—Jewelers' Circular.

THE TYRANT FASHION.

Blue serges are yielding their popularity to black, brown, green and red.

The fashion of wearing hats with lace flounces drooping over the brim is much in favor in France.

Old fashioned mull embroideries, such as our grandmothers made their capes of, are used this season for fichus.

The prettiest scarf mantelets are made of accordion plaited black silk muslin, with long stole fronts, confined with a jet buckle.

Most fascinating are the new belts of a kind of gold tissue interwoven with many colored silks and drawn through an old paste buckle.

Speaking of white hose, to which, it is said, Dame Fashion has committed her wayward feet, one can buy white silk hosiery with lacework fronts for the modest sum of $85 a pair.

The latest thing for underskirts is the Japanese material called awa cloth. It comes chiefly in white, almost covered with dark blue figures. It has almost no perceptible weight, washes nicely—in fact, has everything to recommend it except beauty.—New York Home.

WAYSIDE GLEANINGS.

In Austria laborers who have passed the age of 60 may claim from the government a pension equal to one-third of the daily wages they received during their working years.

Fine silk has been manufactured from cobwebs, but the industry is impracticable, since there are not flies enough to feed the enormous number of spiders which the business would require.

The moisture in the climate of England affects everything so greatly that the very rocks grow softened, and with ordinary penknives people can cut their initials in all the old bridges and churches.

In an old coffer in Japan, shrouded with white silk and molding into decay, are the oldest dresses in the world. It belonged to a thirteenth century empress and is preserved in a temple near Yokohama.

The human hair is absolutely the most profitable crop that grows. Five tons of it are annually imported by the merchants of London. The Parisians harvest upward of 200,000 pounds, equal in value to £80,000 per annum.

ELECTRIC SPARKS.

Wheatstone patented his system of alphabetical printing telegraph in 1841.

To illuminate London entirely with electric light would require an initial expenditure of at least £4,000,000.

No authenticated case of injury to eyesight through the incandescent electric light has ever been recorded.

It is said that Thomas A. Edison is still perseveringly engaged in experimenting on the line of obtaining electricity direct from coal.

Nearly 91 per cent of the vessels using the Suez canal last year were able to pursue their journeys uninterruptedly at night by using the electric light, the percentage in the three preceding years having been 89.21, 82.50 and 71.74 respectively.

SCIENTIFIC SCRAPS.

The earth's atmosphere weighs 5,340,000,-[illegible]

If you were on the moon, the earth would appear to be 64 times larger than the sun does to the residents of our globe.

Professor Holden says that the cavity represented by the largest spot on the sun is sufficient to take in the whole of our planet without touching the sides.

To the residents on other planets, that is of course providing there are such beings, our earth is a bright blue—this on account of the cerulean hue of our atmosphere.

A little kerosene oil rubbed briskly over the spots on dark clothing will brighten the garments and remove the stains almost like magic. The kerosene will evaporate quickly and leave no stain.

Coffee stains should come out if treated before the cloth has been laundered. Rub the stain with a mixture made by dissolving the yolk of an egg in a little lukewarm water. Wash with clean warm water, and the stain will vanish with it.

HOOD'S SARSAPARILLA.

Swellings in the Neck

Grateful for Permanent Cure by Hood's Sarsaparilla.

"I cannot praise Hood's Sarsaparilla enough. For twelve years I have been troubled with scrofula and swelling of the glands in the neck. I consulted several physicians and took many medicines. My neck was also operated upon at the Mount Sinai Hospital, but this did not give me any permanent improvement. One day I read in a paper about Hood's Sarsaparilla, and on trying a bottle I found it was doing me good, so I took two bottles more. The swelling has entirely disappeared, and I am as healthy as anyone in the city. Anyone who should see my picture two years ago and now, would notice

Hood's Sarsaparilla Cures

marked improvement." THOMAS FARNSWORTH, 66 Willett St., New York city.

HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal. 4 augl9daw

WOMAN'S WORLD.

AN ECONOMICAL YOUNG WOMAN.

Details of a Summer Wardrobe and How a Clever Girl Made It Herself.

I have read so much about wardrobes for summer that I want to tell you about mine.

In the first place, I am not going to give prices, for if you belong to that great class of self supporting women who visit the retired little dining room of the Margaret Louise home you will say, as one of my friends there said to me, "When I want to dress up, I just go home and put on a clean shirt waist."

Perhaps I envied her freedom. But if you belong to the still larger class, who are obliged to dress well on slender purses and keep up "appearances," you will appreciate how one of them does it.

I am my own milliner and designer. In that lies the secret of good dressing—originality and the selection of good materials in plain, quiet colors. Being a reddish blond, I favor dark blue and gray for street wear, pale blue and pale pink for the evening and white for general use.

I buy every article with a view to its matching something else, and often one piece looks as well with an odd bit as with the original costume. This affords great variety.

My staple dress is the popular Eton of dark blue, and the vests for it are my own make and design, and have at least the merit of being unlike any you ever saw.

My favorite vest is of pink crepe de chine, made of my last winter's kerchief. I ripped and gathered it into a pink satin ribbon empire belt, with a large rosette to join it in the back. It is drawn into tiny frills at the neck with pink baby ribbon and falls into a soft bunch of white lace of odd pattern. Then I have a white silk vest made of a jabot of lace and cuffs to match. It was a guimpe, but it washed and made me a change for state occasions. And I risked a collar. Another vest is a demure little affair made of gray crepe de chine, with velvet collar and yoke, and is drawn into a pointed belt by means of a steel and lavender buckle. I had challis left over from my best gown, so I made a fourth front and thought I had enough. It is surprising how much can be made from nothing with only half a trial.

As I am a walker and a country girl, I need a pedestrian skirt of ample length, and for that I have a three summers' supply of shirt waists, white and gingham. There is the first draft on my income, the laundering.

My boating and carriage dress is of heavy bedford cord, blue and white. But the crowning glory of my wardrobe is my reception dress. It consists of a skirt, a square cut waist, very sort, and a guimpe. The materials used are challis and crepe de chine; colors, pale blue and white; pattern, dainty flower spray. An empire belt of folds of crepe de chine and challis conceals where the waist fails to join the soft, round, full skirt. Frills and ruffles of lace outline the low, square neck and short puffed sleeves. The crepe de chine, gathered at the neck and waist with blue baby ribbon, forms the full undersleeves and clinging jacket.

My chief item of expense is my gloves, for wherever I am, city or country, I insist on being perfectly gloved, and I cannot make them.—Edine T. Howard in New York Recorder.

The Monument of a Famous Teacher.

The memory of Miss Lucy M. Green is fresh in the minds of all who had the good fortune to be her pupils. Born at Worcester in 1810, she came to this city in 1851, and a few years later succeeded to the principalship of the school for girls founded by Mrs. Esther Smith. For 30 years thereafter "Miss Green's school" was perhaps the most famous private educational institution in this country. It numbers among its graduates women known in literature, art, science and society.

Retiring from the school in 1880, Miss Green spent the remainder of her life in quiet beneficence and died on May 8 last at Worcester. Some years ago the L. M. Green association was formed among her old pupils to maintain in her honor a summer home for self supporting women. That home is to be her monument, and those who directly or indirectly are indebted to Miss Green's school can show their appreciation of her work in no better way than by contributing to the continued support of that home.—New York Sun.

An American Woman In Turkey.

Mrs. Cookesley, late of San Francisco, has been traveling in the east with her husband, Captain E. A. Cookesley. While visiting in Constantinople Mrs. Cookesley received a command from the sultan to paint a portrait of his son, a little fellow of 7 years. The American woman executed the commission so much to the sultan's satisfaction that he conferred the Order of Chefakat upon her and presented her with the appropriate emblem, a large star studded with diamonds and valued at $500. Mrs. Cookesley was obliged to decline an order to paint the portraits of several of the sultan's wives and daughters.—Woman's Journal.

Preserved Whole Peaches.

Peaches and sugar of equal weight are put into the layers, as in the case of cut peaches, set over the fire, and a pint of water to each four pounds of fruit and sugar is added. The sirup is brought to a boil, which continues for half an hour, when the peaches are taken carefully out and put on a flat dish in the sun. The sirup is boiled down till it is thick and clear, when the peaches are put back and boiled till they look clear, when the whole is ready for putting into the cans, which are sealed when cool.—Good Housekeeping.

Coming London Fashions.

So far as can be judged from the gowns prepared with a view to the events of the autumn season, the change in fashion all points to a return to simpler form. Trimming on the skirts is all flat and in many instances is placed from waist to hem, with a far prettier effect, especially to shorter women, than in bands around.—London Telegraph.

Disadvantages of Rouge.

As the girl who paints cares nothing for the ethical argument against rouge and is not to be intimidated on the score of health, she can be impressed only by showing up the disadvantages of rouge as a beautifier, and certainly it has most glowing disadvantages. What, for instance, could be more undesirable than to have a color which does not come and go unless upon withdrawal to the boudoir or a plunge in the surf?

The midsummer maiden rarely weeps in public, so that the question of fast color is not to be considered on that score, but assuredly the possessor of a hand painted cheek must be haunted by the dread that something will happen to it, confronted as it must be by the perils of perspiration or weather. It must be like fearing that one's wig will come off in company. But the inability to regulate is the most serious difficulty in the case. There are times when every cheek should blush upon short notice.

How embarrassing it must be to fall away in a dead faint, with cheeks blushing like a peony and betokening the bloom of health! And as to painting the lips, which is also affected at this time, why that is simply preposterous. "Paint" on the midsummer maiden's lips! Think of it! But perhaps she knows the weakness of men when they see "paint" to touch it and ascertain if it is dry.—Southern Pleasure Seeker.

Senator Stanford and Womankind.

Senator Stanford attested in two noble instances the high regard in which he held womankind. His respect for woman in general he recorded by giving her equal rights with men in Stanford university. His regard for her in particular he showed by his will, in which the great bulk of his fortune was left absolutely to his wife. A great many people are interested—some of them vitally—to see whether these two important actions will work together for good. Practically Mr. Stanford bequeathed Stanford university to his wife.

It is true he left the university about $2,500,000, but that is far from being a large enough sum to keep the institution running on the scale on which it is conducted now.

Happily Mrs. Stanford's interest in it has always been quite as lively as her husband's. Yet it has happened before now that the man and wife who have been one so long as both have lived have turned out to be a different one after the man has died.—Harper's Weekly.

The Dress of British Dames.

The average British dame or damsel cares far too little for the fit of her garments. She does not seem to understand the graceful lines of a well cut corsage; still less the necessity of having those lines follow those of her figure. It is not necessary that a dress should fit tightly to fit well, but when it bulges at the back and wrinkles under the arms, is too short waisted in one place and too long waisted in another, the effect, even of a gown in satin or of velvet, is utterly disastrous. But its English wearer dons it and is content therewith.

Then, too, in regard to the latest fashions, the English woman either refuses to adopt them at all or else so exaggerates them that she out-Herods Herod. I met only a few weeks ago two charming English ladies at a formal dinner party. Their dresses were of very handsome material and perfectly fresh, but they were both made with flat, tight fitting, short sleeves that are as much out of fashion as are green barege veils.—Lucy Hooper in Home Journal.

Women In Men's Clothes.

The two women in Yates county who wrote to Governor Flower for permission to wear trousers in order to facilitate their farm work only succeeded in puzzling the chief executive and his clerks and putting the law officers of the state to some trouble in studying over the code.

Assistant District Attorney Cohn says the laws of this state on the subject are that persons are forbidden disguising themselves or masquerading in public, but it would be a sad twisting of the statutes that sought to forbid a woman from the orderly wearing of any decent costume that seemed best to her. But other states are not so liberal and enlightened. Some commonwealths deny absolutely this much to be desired privilege to the sex. Missouri compromises. In that state a written permission from the governor entitles a woman to wear with impunity a man's dress outside of cities of 10,000 inhabitants or over.—Albany Argus.

Not Afraid of Wetting, but of Freckles.

As we were threading our way among the dense cluster of islands near Gananoque a canoe shot out into view. A young man in a bathing rig was paddling, and in the stern sat a young lady attired in a fashionable summer suit, with a red parasol over her head. They paddled directly toward us with the greatest recklessness, and all on board our crowded boat were greatly alarmed and rushed to the side nearest the canoeist with the certain expectation of witnessing a dire catastrophe. As soon as the steamer swells struck the canoe she went bottom side up, and both occupants disappeared. A cry of horror went up from all on board the boat, which was in a moment after changed to one of astonishment and shouts of laughter as the young man and maiden reappeared—he pushing his boat toward shore and she complacently treading water with parasol over her head to keep off the sun.—Cor. Utica Observer.

Mrs. Mackay's Dinner.

On Saturday night Mrs. Mackay, the silver king's wife, gave a big dinner of extraordinary magnificence in combined honor of the Duke of Edinburgh and Mr. Bayard, the new American embassador. The dinner was for 40, and at it were all the most presentable and gilded Americans in London, and that delightful blending of aristocratically named English folk in which the Yankees delight. This practice sometimes leads to dire results, as in the case where an American invited Lord Mar and Killie and Lord Mar to dinner. The two families have been in deadly feud for centuries over disputed honors, but they had been asked, said the hostess, "so, being relations, they were sure to be pleased to meet," and she of course sent down the wrong one first because he had two titles.—London Woman.

The Work of a Higher Being.

He (after the proposal)—I hope you don't think I've made a fool of myself, Miss Penelope?

She—Oh, no. (A pause.) You know I am not an atheist.—Truth.

FOR LITTLE FOLKS.

Children's Floral Parade.

An interesting event which took place recently in London was the children's parade in Regent's park. The prizes were distributed by the Princess Mary of Teck. These prizes, you must know, were given for the prettiest and most original designs, in which flowers are largely used, and children and animals played the chief parts.

Many of the ideas were carried out all by the children, and the result in every case did credit to their imaginations and clever fingers. For instance, what could be more charming than a sedan chair covered with pale green, decorated with garlands of ferns and white and yellow flowers, and bearing inside it the quaintest little maid, with satin gown and patch on cheek and feathered hat? The chair was carried by two tiny footmen in green and gold, and looked exactly as if it had all stepped out of some old picture of stately bygone days. To this design was awarded the first prize as being the best in the whole exhibition, but as the lovely procession passed slowly by the dais on which sat the Duke and Duchess of Teck and Princess May I thought each design more beautiful than the last.

I am sure I could not describe half of them to you if I tried, but I must speak of the double mail cart, covered entirely with white lilies; of the Roman chariot, beautifully decked in brown and red, that held a youthful Roman adorned with a laurel wreath and was accompanied by a band of attendants; of the sweetest gray pony whose saddle and trappings were all of roses; of the model yacht outlined in flowers, and with the pennant and name woven of red, white and blue blossoms.—Pall Mall Budget.

Mabel's Grandpa.

Mr. Bennet is a bright and well preserved old gentleman, but to his little granddaughter, Mabel, he seemed very old indeed.

She had been sitting on his knee and looking at him seriously for some moments one day when she said, "Grandpa, were you in the ark?"

"Why, no, my dear!" gasped her astonished grandparent.

Mabel's eyes grew large and round with astonishment. "Then why weren't you drowned?"—New York Recorder.

A Small Boy's Bank Account.

John Martin, aged 13 years, who lives in Brooklyn, started in business as a newsboy about a year ago on a capital of 5 cents borrowed from his mother for that purpose. Since then, although he attends school mornings, he has by strict attention to business and practical commercial ability been able, after buying his own clothes and making his mother a present of an armchair, to deposit over $80 in the bank.—Exchange.

Little Joe Smith, Violinist.

Master Joe Smith is a small violinist. He is a good violinist and a good boy. As can be seen in his picture, he is a little fellow, but he has a big heart, and the work he has done for The Evening World's sick babies' fund is out of all proportion to his size. He got up a grand entertainment for the fund at the Jacksonians' clubhouse, in which his father, George Smith, who acted as stage manager, assisted him.

The entertainment was a big success, and Master Smith handed in a check for $48.80. Professor Springer kindly gave the services of his orchestra; Mr. A. Teschner played the piano, which was donated by the Steinway company, and Frances Milhaiser, 9 years of age, sold 80 tickets for the affair. The tickets were 10 cents each. Master Smith's violin playing captured the house.—New York Evening World.

A Brave Little Boy.

A little colored boy in Liberty county, Ga., 10 years old, distinguished himself recently by jumping into a pond to pull out a white child who had fallen in. As the negro boy couldn't swim, both had to be pulled out by some one else. But he was just as brave.

A Little Boy With a Very Large Head.

Eddie Johnson, a Kentucky boy, who is 2½ years old, weighs 85 pounds and is regarded as the largest child of his age in the state. He wears a man's hat and a 8½ shoe.

A Sunday Scene In Central Park.

Winding paths leading out of the Mall in the Central park were crowded Sunday with "young men and maidens, old men and children," all faring peacefully and enjoying the smell of the flowering shrubs and the sight of sunshine and shade upon the green slopes. Past a great, fragrant syringa bush came the twisted figure of a hunchback, whose feet also were deformed. He moved slowly and painfully, but his face was bright, and he was having fun in spite of his limitations. He talked and laughed with a half grown boy by his side. A group of three young men with flashy clothing and dirty hands came along. The largest of the three slapped the dwarf's head rudely and sent his hat spinning upon the grass. The hunchback uttered a cry of pain and astonishment. His assailant roared with laughter.

A stocky young man, with his hands in his pockets, was strolling leisurely down the path. As the bully passed him he planted a blow in the bully's face. The man was lifted off his feet and tumbled sprawling on the gravel. He arose, hot with wrath, and turned to see what had hit him. The stocky one stood in his tracks, with a look of placid contentment on his face. The bully took one glance and ran away. The hunchback stared in wonder. The stocky one resumed his stroll. Three girls who had seen the interview waved their handkerchiefs at him and smiled.—New York Times.

Nebuchadnezzar's Doorstep.

In the Egyptian and Assyrian gallery of the British museum and in close contiguity to the Hittite monuments and the bronze gates of Shalmanezar may be seen an object of more than ordinary interest—a very common looking bronze doorstep from the great temple of E-Lagil at Borsippa, a suburb of Babylon. This doorstep, ordinary as it appears, is of great historical value, as it not only has the name of King Nebuchadnezzar inscribed upon it, but also mentions his restoration to health and power. It is no doubt a native offering and an object of great antiquity.—Philadelphia Press.

The Legendary Adam and Eve.

To the Scriptural account of the creation and fall of Adam and Eve the Jewish writers of the Talmud have added many curious particulars. According to these mythmongers, Adam, when first created, was a "giant of giants," as far as stature goes, his head reaching into the heavens and his countenance outshining the sun in all its splendor. In one place they tell us that "the very angels stood in awe of the man which God had created, and all creatures hastened to worship him." Then the Lord, in order to give the angels some idea of his power, caused a deep sleep to come over Adam, and while he was in a comatose condition removed a portion of every limb and bone! The first man thus lost a part of his colossal stature, yet he remained perfect and complete. Next, the first "helpmeet" for the lord of creation was created in the person of Lilith, who forsook Adam to become the "mistress of the air and the mother of demons."

After the departure of Lilith, Eve was created and married to Adam in the presence of Jehovah and the angels, the sun, moon and stars dancing together to the angelic music rendered. Then the supreme happiness of the human pair excited the envy of even the angels, and the seraph Sammael tempted them and finally succeeded in bringing about their fall from innocence. Adam lived as a penitent on the very ground now occupied by the temple at Mecca, and Eve in a cave on the side of Mount Ararat, where, after a lapse of 200 years, she was rejoined to Adam.—St. Louis Republic.

Locusts Devouring Locusts.

In the summer of 1888, in which the excessive heat and drought had brought about the nearly entire disappearance of vegetation in a good part of the country and more particularly in the broken country of Banda Oriental, I had occasion to make a journey from San Jose to Mercedes. At one place, Las Piedras, at which the diligence stopped, I noticed great numbers of locusts of the species Pezotettix vittiger, Pezotettix maculipennis and Pezotettix arrogans, which covered the ground and rocks.

My attention was attracted by the fact of seeing around one locust a number of other individuals of the same species, which were eating its soft parts even while it was yet alive and protesting vigorously. I saw different attacks, in which the conquerors, two or three at a time, got hold of the weaker members of their own kind, throwing them over and opening the abdomen in order to devour the entrails, these being the softer and more savory portions, since they still contained some of the vegetable food. Cannibalism here appeared in its lowest development, and the numerous remains of those which had been eaten bore witness to the extent to which the process had been carried.

In the face of facts of this character, it seems certain that nothing is sacred in nature when the prolongation of life, for the sake of the preservation of the species, is concerned.—Carl Berg in Natural Science.

The Power of the Tongue.

Go with me to the halls of Yale and listen to Chauncey M. Depew speak with clean cut phrases of wisdom, salted with sentences of wit. Come back to the city and find him delivering an oration on the Centennial in the presence of a vast multitude of witnesses, tone and style and manner and figures totally different. See him at the dinner of the New York Press club, where 200 bright witted, clever headed, nimble fingered, honest hearted men applaud to the echo his pertinent, his suggestive, his eloquent sentences. Jump thence to the superb Auditorium in Chicago, where 15,000 yellers and shouters and tooters surround the 400 or 500 delegates assembled there to nominate a presidential candidate.

See how they listen. Watch as they applaud. Tell me that Chauncey M. Depew, bright, clever, experienced as he is, could be the force, the factor in affairs, the distributer of ideas he is without what St. James would call an unruly evil! The fact is, a tongue, like everything else, has its upper and lower, its good and its bad, its sweet and its sour.—Howard in New York Recorder.

Effect of the Earth's Motion on Big Shot.

That the earth's motion has an appreciable effect upon artillery fire, deflecting the projectile from a straight course, may be news to many and as such would probably seem a novel notion. It has, and the exact nature and extent of the effect is an important point of study with artillery experts. An English army expert told of the results of many interesting experiments along this line in a paper read before the Royal Artillery institution. Firing from north to south there is a divergence of projectiles to the left, due to the earth's rotation, and firing due north the divergence is to the right. The extent of the "pull" varies at different points of the earth's surface and with projectiles fired at different speeds and elevations. In England a deflection of five inches is found to occur with the projectile of a 13 pounder in a 4,000 yard range.—New York Sun.

Satisfying Vanity.

"It's lovely to have a small bit of vanity," said a little woman, tying her bonnet strings before the glass.

"That's a very unorthodox sentiment, my dear," laughed the looker on.

"Do you think so? I am not so sure of that," meditated the little woman, beginning to put on her gloves. "I should not be able to face the people I have to see today nor accomplish the mission I have in hand if I was not sure that my hat is becoming, my gown well fitting and the other details of my dress irreproachable. I know I do look well, and therefore people like to see me. So I can please them and get what I want. Candidly, is that vanity? There may be some other name for it."—Exchange.

Not Confined to One City.

I am something of a kicker myself, but I take off my hat to the nervous individual who hailed me on the street yesterday with:

"Say! Louisville is a healthy, handsome city of beautiful homes, lovely women, brave men, fine horses and good whisky, but in no other city half or one-fourth its size in the universe are so many nuisances permitted as in this one. Just think that the citizens are aroused from their beds in the early hours of the morning when sleep is sweetest, victims of sickness and disease are disturbed almost in the very arms of death, and all day long people in the streets are in danger beating the drums of their ears burst, and not an effort made to put a stop to the pandemonium of unearthly noises in our streets. The charcoal man's Comanche yells, the stale vegetable, fever producing peddler's howls, the parrot tongued peddler of no-account bananas, the ol-rags ol' i'on collector, secondhand fruit distributers, big bells in advertising wagons, milk bells, scissors grinders' bells—all adding to one common bedlam of unending noises upon our principal business and residence streets. The sick are disturbed, the healthy annoyed, and yet day after day we never make an attempt to protect our right to live in peace."—Louisville Courier-Journal.

The Woman and the Rose.

A traveler stopped at a little cabin in the Georgia woods. He wore a white rose on his coat—one that a little girl had plucked and pinned there as he was leaving home.

A woman entered the cabin. She stood and gazed at the rose a moment. Then, darting forward, she tore it from the stranger's coat and stamped it on the rude floor.

"Why did you do that?" asked the stranger leaping to his feet.

"Hush!" said a man who was sitting near. "That's my wife, an—an—she ain't right here"—tapping his forehead. "We had a little girl once, with blue eyes an hair like a sunset. She wandered off among the roses one day—lost, lost!—an when we found her she was where the roses grow, an they was creepin over her. An the wife there went mad, an now she says the roses stole the child an hid her away from us forever, an she goes about an tramples them—just like she did the rose there on the floor!"—New York Recorder.

People Who Forget Umbrellas.

"Oh, that's nothing," said the clerk as he gathered up the abandoned umbrella; "we find them here every day."

It was in a railroad office, where people came and went every few minutes. And it was raining too.

"Now, you'd think," he continued to an amused gentleman, "that anybody who had sense enough to come in when it rains would have enough left to take their umbrella with them if they didn't want to go in, wouldn't you? But they haven't. There may be reason for a chap going away and leaving his cane on the counter, but I can't exactly place those who deliberately go out into the rain and leave a silk umbrella behind them. Yes, they come back sometimes—sometimes they don't. There must be something in the fact of buying railroad tickets. You see, they are not used to traveling. Buying a railroad ticket is an event to them. They show that by the questions they ask. They have their minds gorged with the important details of the proposed journey, the time the train is to start, the time it gets there, the connections, the checking of baggage and all that sort of thing, and they haven't room for umbrellas and canes and packages. It's the same on the cars."—New York Herald.

The First Sight of Gibraltar.

The first sight of Gibraltar is, I think, disappointing. It means so much, and so many lives have been given for it and so many great ships sunk by its batteries, and such great powers have warred for 1,300 years for its few miles of stone, that its black outline against the sky, with nothing to measure it with but the fading stars, is dwarfed and spoiled. It is only after the sun begins to turn the lights out, and you are able to compare it with the great ships at its base, and you see the battlements and the mouths of cannon and the clouds resting on its top, that you understand it. And then when the outline of the crouching lion that has faced all Europe for a hundred years comes into relief you remember it is, as they say, the lock to the Mediterranean, of which England holds the key.

And even while you feel this and are greedily following the course of each rampart and terrace with eyes that are tired of blank stretches of water some one points to a low line of mountains lying like blue clouds before the red sky of the sunrise, dim, forbidding and mysterious—and you know that it is Africa.—Richard Harding Davis in Harper's Weekly.

ARE YOU BILIOUS?
THEN USE
PARSONS' PILLS
"Best Liver Pill Made"
Positively cure BILIOUSNESS and SICK HEADACHE, all Liver and Bowel Complaints. Put up in Glass Vials. Thirty in a bottle, one a dose. They expel all impurities from the blood. Delicate Women find great benefit from using them. Sold everywhere, or sent by mail for stamps. 25 cts.; five bottles $1.00. Full particulars free. I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

JOHNSON'S ANODYNE LINIMENT
FOR INTERNAL AS MUCH AS EXTERNAL USE.
ORIGINATED
By an Old Family Physician.

NORWICH MORNING BULLETIN.
Established 1858.
NORWICH WEEKLY COURIER.
Established 1796.

Subscription rates, MORNING BULLETIN—By mail or carrier, $6 a year; $1.50 a quarter; 50 cents a month; 12 cents a week. Single copies 2 cents.

Subscription rates, WEEKLY COURIER—50 cents a year; 25 cents for six months in advance. Single copies 2 cents.

THE MORNING BULLETIN (Six Pages) is the largest, oldest and most complete morning paper published in Eastern Connecticut. At $6 a year it is also the cheapest.

THE WEEKLY COURIER (Eight Pages) is the best weekly issued in Eastern Connecticut.

Advertising rates furnished on application in the business office. No cuts or electrotypes inserted in either paper.

To guard against mistakes, advertisements should be sent in manuscript. We cannot be responsible for errors that occur in messages received by [illegible]

Yearly advertisers are limited to their own immediate business, and their contracts do not include Wants, To Let, For Sale, etc.

All news letters should be addressed to THE MORNING BULLETIN; all business communications to THE BULLETIN COMPANY.

Money orders and checks should be made payable to THE BULLETIN CO.

All communications must be signed. Anonymous letters or news items will not be read, but thrown into the waste basket.

No manuscript preserved or returned, unless stamps are enclosed fully to prepay postage.

Entered at the post office at Norwich, Conn., as second class mail matter.

The Bulletin.

Norwich, Thursday, August 24, 1893.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

OLD SOLDIERS, ATTENTION!

After the experience of a few months with Hoke Smith as secretary of the interior, the old soldiers do not look in confidence to the south for just treatment; but they have reposed some confidence in Cleveland. They have reason no longer to do so. As they glance at the committees appointed by Speaker Crisp, they will notice that the pension committee has got to be a southern affair. With Charles L. Moses of Georgia for chairman, assisted by John S. Henderson of North Carolina, William Atkinson Jones of Virginia, Henry C. Snodgrass of Tennessee, Marcus Clairborne Lisle of Kentucky, and Champ Clarke of Missouri. All are southerners born. Henderson was in the confederate army, and Champ Clarke will be remembered for a coarse and disgraceful speech made in New York a few weeks ago, which even the New York democracy were ashamed to endorse. These are the men the democratic administration turn the veteran pensioners over to for consideration. If there is a democratic veteran in this country who feels grateful to his party for placing his interests in such hands, we do not believe he will be found in Connecticut.

DEEPLY BEREAVED.

The Catholics of the state of Connecticut are deeply bereaved by the death of the Rt. Rev. Bishop McMahon of Hartford. His death was so sudden and unexpected that it is all the more poignant to the church of which he was the head.

As the head of the Catholic church Bishop McMahon's energies were severely taxed, for he has ably directed the church in its growth in this diocese, and churches, schools and convents have sprung up, and the church has steadily advanced in wealth and numbers since he has been at its head. He was highly cultured and manifested wisdom and good judgment in his direction of the affairs of the diocese.

As a man and a citizen Bishop McMahon stood high with the people of Hartford. He was a loyal American and followed the fortunes of the Union on the field during the rebellion. He not only preached the gospel and practiced charity; but was courteous and kindly to all, and won the respect and good will of the people.

He was esteemed in Hartford for his many fine personal qualities, and his death will be sincerely mourned by those who knew him personally, without regard to denominational lines.

NEW ENGLAND LEFT OUT.

When the honors were distributed in the house Monday the south was awarded the lion's share. The chairmanships of committees were wonderfully and "democratically" distributed! Three came to New England, of which Connecticut received one. Massachusetts was left out; but as President Cleveland is fishing in Massachusetts waters, he undoubtedly thinks that is an all-sufficient honor to confer upon that state.

Twenty representatives from the eastern, middle and western states were made chairmen of committees; but most of the important places went to representatives from southern states, twenty-nine of whose members were placed at the head of committees.

There is no question that the south is in this administration, occupying a relation to the chief executive something like that of the white elephant to the king of Siam. The claim is made that President Cleveland approved of the list of committees as made up, and the New Englanders who have been so charmed with the man that they lost sight of his hydra-headed party, must feel proud of the result of their work. The situation is all theirs. They must feel very much like the man who awoke in the night and found a snake in bed with him.

TOBACCO GROWERS' COMBINATIONS.

It is a good sign to see the Connecticut tobacco growers trying to produce rain by sending up into the sky dynamite bombs attached to balloons for the purpose of forcing showers and saving their tobacco crops. What they can want of Connecticut tobacco under the policy of the present administration, if it carries out the platform pledges of its party, we cannot see.

They probably have as much faith in the combination to prevent the great reduction proposed in the tariff upon tobacco as they do in the one to produce rain. The fear of drouth and free trade agitates their bosoms because both may effect their pockets. On the 27th of September the tobacco growers of the nation are to meet in convention at Washington to oppose the unfavorable tariff legislation proposed by the democratic party. They are in favor of McKinley protection instead of democratic ad valorem rates, which is 229 and 481 per cent. against 40. Quite a difference!

It is estimated that the democratic scheme would increase the imports of tobacco over twelve millions of dollars a year, and that not only means cheaper prices for tobacco but the throwing out of work of thousands of American cigar makers. If the ad valorem tariff is adopted the land now used in raising tobacco will have to be used for raising something more valuable.

There is little doubt that drouth has in it much less danger to tobacco-raisers than the tariff for revenue only. While the democratic tinkerers are at work upon the tariff the tobacco raisers will try to keep the republican tariff plank from being punctured and made too leaky to be useful to the tobacco raisers of the country.

EDITORIAL COMMENT.

The Navahoe's speed seems to be like the ability of some men—greatest when it is least serviceable.

The democrats call the Sherman law "a cowardly makeshift" and then do all they can to prevent its repeal.

The Massachusetts democrats are getting into gear for a thrashing in November. In matters of "reform" they are lying low!

The Hon. Larry Neal, democratic candidate for governor of Ohio, has been "left" seventeen times. He wouldn't know what to do if he should get there.

The New York Tribune declares "the party in power is a southern party with a northern tail. Men at the north who consent to be democrats, thereby consent to let the south do their willing and thinking, and to sneeze when the south takes snuff!"

There will be fifty thousand or more people gathered on the borders of the Cherokee Strip on September 16, when it is opened for settlement, and the 6,000,000 acres available for homesteads will be rapidly taken up. The spectacle of 25,000 people each securing a farm of 160 acres in a few days can be witnessed in no country but this!

The Norwich friends and acquaintances of Lucius Tuttle of the Consolidated road are pleased to hear of the flattering offer made to him by the Boston & Maine, to become its president. It is an evidence of his great ability as a manager. The Connecticut papers are regretting the prospect of his departure and the Boston papers manifest much pleasure at the prospect of his return to "the hub."

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

Of Course.

The parts of the president's message which are least democratic have been most generally approved, naturally enough.—[Cleveland Leader.

Mutual Assistance.

Not in this generation has there been such an illustration as the present depression affords for the necessity of capital and labor holding together for their mutual good.—[The Newark Advertiser.

They Would all Suffer.

If the deluded silver men of this country were permitted to have their own way they would be conscious of their mistake very soon. Their silver would bring no more than now, but they would see the country convulsed by financial agonies which would affect them also.—[Chicago Tribune.

Wind and Water.

Now a long pull, a strong pull and a pull altogether for honest money and free trade, a wet sheet and a flowing sea, and a wind that follows fast.—[Louisville Courier-Journal.

Greater Than His Master.

Donaldson, who was the president of eleven banks and trust companies in Iowa and Kansas and left not a dollar behind in any of them, was an expert practitioner in the Zimri Dwiggins school of finance, and seems to have succeeded better than Dwiggins himself.—[Boston Journal.

The Bank Circulation Bill.

It is estimated that $20,000,000 now and $20,000,000 more a little later, will be added to the volume of the currency by the passing of this bill. It ought to be made a law without delay. Relieve the people first, and talk about free coinage and international ratios afterward.—[New York Press.

No Difference of Opinion.

One poll of the senate on the silver question gives to Vice-President Stevenson the casting vote. Probably it isn't so close as that, but if it is there is every reason to believe that Adlai will be found on the right side. He lately informed an anxious inquirer that there was no difference of opinion in the present administration on the financial question.—[Boston Herald.

A Vigorous Speech.

If anybody can discover in the speech of Senator Morrill a sign of the eighty three years that weigh upon him, beyond the evidence given of a rare accumulated experience, he will be a very acute individual. The venerable Vermont statesman is still able, apparently, to discuss public questions with the virility of a man of fifty.—[Springfield Republican.

The Leaven Working.

The leaven of good sense is working in the south. We notice with commendation that Representative McCreary is to vote for repeal, and that General Catchings, who is one of the strongest men on the democratic side, has come out strongly for better times.—[The Cincinnati Commercial Gazette.

Embarrassing to Democrats.

It is easy to say that the hard times are caused by lack of confidence. It is harder for any good democrat to explain why confidence is lacking.—[The Milwaukee Sentinel.

A Sectional Allotment of Committees.

There has never been a more offensively sectional allotment of committees than this, not even in the old days of rampant southern sectionalism. But that was to be expected. In giving to the north a candidate for president, the states which furnished him all the certain votes required for his election did not intend to part with the power which their domination in the democratic party entitles them to claim. They have asked and taken only what is their right. A sectional party governs, except as its conduct may be modified by the need of some northern votes. In the house the clock has been put back to 1853, and forty years have been expunged from history.—[New York Tribune.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

About Our Finances.

If any of our readers desire to study the question of finances, these books will help them:

Bolles' "Financial History of the United States," volume 3, book 2, chapter 5; Paris Monetary Conference of 1867; Senate Doc., Fortieth Congress, second session, No. 14, of 1878; Senate Doc., No. 58, Forty-fifth Congress, third session, of 1881; Annual Cyclopedia for 1881; "Bimetallic Standard;" reports from United States Consuls, No. 57, December, 1887; Fawcett's Gold and Debt," Howe's "Monometallism and Bimetallism;" Walker's "Money," part 1, chapter 12-13; Jevon's "Money and the Mechanism of Exchange," chapter 12, and "Investigations in Finance," chapter 18; Laughlin's "History of Bimetallism in the United States;" Senator Sherman's speeches; the recent Monetary Conference, by President Andrews, in the last Political Science Quarterly. The general question is discussed in the current Review of Reviews. There is an elaborate bibliography of the question in Laughlin's edition of "Mill's Political Economy." For magazine literature on the subject consult Poole's Index.—[New Haven Leader.

They make one feel as though life was worth living. Take one of Carter's Little Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable, and these little pills cure both.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

Groves of orange rich in perfume,
With their odors freight the breeze;
SOZODONT, in beautiful fragrance,
Cannot be surpassed by these.
Teeth by it are snow white rendered;
Take no substitute if tendered.

We think we can cure a bad case of Backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters than by any other application, and after the Backache is cured you can still wear the plaster without discomfort for two or three weeks or longer. This combination of Smart Weed and Belladonna [illegible] any pain or [illegible] Price 25 cents. [illegible]

DISCOVERED PLOTS.

Uprising in Venezuela and Columbia Planned.

PLOTTERS ARE UNDER ARREST.

Simultaneous Revolts Proposed—Papers Lay Bare the Conspiracy.

NEW YORK, Aug. 23.—A Panama cable dispatch to the Herald says: Documents found on the persons of Dr. Perez, national leader of the Liberal party of Colombia, and General Modesto Garces who was arrested in Bogota, and Dr. Manatos, who was arrested in Barranquilla, give the details of the proposed revolutionary movements against the governments of Colombia and Venezuela, and fully confirm the stories cabled.

They form a valuable supplement to the documents seized when the Liberal headquarters were captured in Cali, and together completely expose the revolutionary conspiracies.

These documents show that a general revolution was planned, and that there was to have been

A Simultaneous Uprising

in all the states against the administration of President Nunez and Vice President Caro.

Luis Ortigosa, a Spanish merchant in business in Buena Ventura, was expected to play an important part in the plans of the conspirators.

Through his operations it was proposed to smuggle 6000 rifles, with which the rebels on the coast were to have been armed. These troops were to have been placed under the command of General Santofimio, and with them it was proposed to capture Cali, overrun the Cauca valley, and march on Bogota.

News has just been received from Bogota that General Santofimio has been arrested in Ibague. Additional documents concerning the revolutionary plots were found in his house.

MISSION MANAGER ARRESTED.

John F. Harkins in Trouble Charged With Assaulting a Boy.

PAWTUCKET, R. I., Aug. 23.—John F. Harkins, manager of the [illegible] mission, who has frequently been mixed up in street fights, is at present under arrest on the charge of assaulting a lad named Robert McCarrick, a respectable young resident of Central Falls.

Harkins, in a fury, mistook McCarrick for a man who had disturbed his meeting, and brutally assaulted him with a monkey wrench, and then bit his left thumb almost to the bone. The boy was so badly hurt that the services of a doctor were required to sew up his wounds.

Harkins has been a source of trouble to the city ever since he started his mission.

VICTORY FOR THE FARMERS.

Court Orders Elevator Company to Give Them Their Wheat.

NEW YORK, Aug. 23.—A special from St Paul, Minn., to the Times says: The celebrated case involving the Northern Pacific Elevator company, a large number of New England banks and several hundred farmers of North Dakota and northern Minnesota came up before Judge Williams of Arkansas in the United States circuit court yesterday. An application was made by Receiver Forbes for an order allowing him to distribute to the farmers the wheat which they had actually delivered to the elevator company upon the return to the company of its receipts.

This application was objected to by the New England banks and other creditors of the company, who held warehouse receipts as collateral security for notes, because it gave the owners of wheat receipts a preference over the holders of warehouse receipts.

Judge Williams granted the application upon the ground that, as to the wheat received from the farmers, the elevator company was a bailee, and legally bound to return the wheat upon the surrender of the receipts; while as to the warehouse receipts, delivered as security for money, the elevator company was practically a chattel mortgageor; and if it issued the receipts without being in possession of the wheat, it had committed a fraud, or if it had wheat on hand at the time it issued the receipts and subsequently disposed of the same, it had misappropriated the wheat.

The company has borrowed about $1,100,000, and has issued warehouse receipts to secure the same to the amount of 1,750,000 bushels. The shortage in the wheat is about 800,000 bushels.

COMMERCIAL DIVISION SCHEME

Favored by Only Three Western Governors—All Others Oppose It.

NEW YORK, Aug. 23.—The World prints opinions from a number of western governors upon the proposition of the Kansas officials for a commercial division of the United States.

The World telegraphed to each of the governors of the western states these questions: "First, what do you think of the petition of Kansas officials for a commercial division between the west and east? Second, what would be the result of the proposed convention of governors to consider this?"

Governors Stone of Missouri, Lewelling of Kansas and Pennoyer of Oregon, favor the convention. The others heard from oppose it.

Governor Lewelling suggests that if free coinage fails, the Mexican silver dollar be made a full legal tender.

Governor McGraw of Washington says any man who proposes a secession of states is as much of a traitor to the flag of freedom today as he was in 1861.

Governor Knute Nelson of Minnesota expresses the same sentiment. Governors Colcord of Nevada and Crounse of Nebraska have no sympathy or confidence in the scheme.

Governor Horace Boies of Iowa says it is unwise and does not think any considerable number of governors would attend such a convention.

DEATHS FROM CHOLERA.

Dispatches From Abroad Indicate That the Scourge Is Spreading.

ROME, Aug. 23.—There were nine fresh cases of cholera in Naples Monday and six deaths; seven fresh cases on Tuesday and five deaths.

Deaths from cholera are reported from Oviglio, Roccaverano and San Giuliano-Vecchio.

A dispatch from Bucharest says: No cholera exists here. At Soolina, the epidemic spreads rapidly. The mortality is exceptionally large.

According to a dispatch from Vienna, the mayor of Szolnok, Hungary, where cholera is epidemic, has been suspended from office in view of his responsibility for the fatally bad sanitary condition of the whole district under his supervision. The cholera has now spread to the county of Szabolcs, Hungary.

Business Part of Town Burned.

ATLANTA, Aug. 23.—Fire has destroyed the business portion of the town of White Plains, Greene county. Loss about $50,000.

CHECKS DATED AHEAD.

Western Railroad Tries to Pay That Way and a Strike Follows.

TERRE HAUTE, Ind., Aug. 23.—The Evansville and Terre Haute monthly pay car reached this city yesterday, a week late. In place of cash the envelopes contained bank checks dated Sept. 11, and this notice:

"The scarcity of currency and the refusal of New York banks to ship currency and the inability to convert drafts and bills of exchange in the west, compels us this month to pay in checks dated Sept. 11. It is believed the present condition, which makes this necessary, will soon pass away, and by next month we will be able to return to our former practice of paying in currency."

The men tried to discount the checks with merchants, but failed. The switchmen struck last night as a result of the payment with checks, and all traffic is at a standstill in the yards.

Boat Upset—Two Were Drowned.

EAST PEPPERELL, Mass., Aug. 23.—A boat containing a fishing party from this town, consisting of Declan O'Hern, Thomas Foley, A. Lakin and a man named Robinson, was upset while fishing on Rocky pond, Hollis, N. H., at 3 o'clock this morning. O'Hern and Foley were drowned. Lakin swam to the shore and Robinson clung to the boat and was rescued. The bodies have not been recovered. The pond will be dragged today.

Duke of Ernst Dead.

BERLIN, Aug. 23.—Duke of Ernst of Saxe-Coburg and Gotha, died at midnight last night at his castle at Reinhardsbrunn in Coburg. He married May 3, 1842, Princess Alexandrine, daughter of the late Grand Duke Leopold of Baden, and succeeded to the throne of the duchy on the death of his father, Jan. 29, 1844. The duke being childless the throne now falls to the Duke of Edinburgh, the second son of Queen Victoria.

Timothy Lacy Found Dead.

TAUNTON, Mass., Aug. 23.—Early this morning the body of Timothy Lacy, whose age was about about 60, was found in the back yard of a house in Whittenton. The police are of the opinion that Lacy, who was an employe of the Taunton Electric Railroad company, came to his death from alcoholism, as he had a bad record.

Received Fatal Injuries.

EAST BRAINTREE, Mass., Aug. 23.—Leroy, the 10-year-old son of Albert Delano, while playing on a staging at J. F. Shepard & Son's coal wharf last evening, fell a distance of 40 feet into the hold of a vessel which was lying at the wharf. He received internal injuries which will probably prove fatal.

Elliott Elected Captain.

NASHUA, N. H., Aug. 23.—The contest for captain's commission of company C, Second regiment, New Hampshire National Guard has ended by Orderly Sergeant W. J. Elliott winning.

The Volunteer at Boston.

BOSTON, Aug. 23.—The yacht Volunteer arrived at Lawley's, City Point, at 9:15 o'clock today in tow of the tug Right Arm. She will be repaired and put in condition.

County Clerk Gone.

DENVER, Aug. 23.—Will R. Perry, ex-clerk of the county court has disappeared, and it is believed that there is a shortage of fully $20,000 in his accounts.

More Anti-French Riots.

ROME, Aug. 23.—The acting prefect has forbidden all public gatherings and the collecting of crowds on street corners or in open places. Last evening crowds rioted in the streets of Naples and Turin and tore down French signs and threatened French residents. The Tribuna prints an interview with ex-Premier Crispi, in which he refers to the massacre as a "most unfortunate affair, likely to delay indefinitely the reconciliation of France and Italy."

Mail Bags Cut Open.

BRADFORD, Vt., Aug. 23.—The baggage room at the depot was entered last night. The mail bags were taken to a freight car, cut open and the letters opened and checks and money removed. The loss is thought to be small as there is no registered mail on the night trains.

Damage From Forest Fires.

BALDWIN, Wis., Aug. 23.—Forest fires were raging on all sides of Woodville yesterday. Four hundred men fought them all day. The damage cannot be ascertained at present, but it is large.

Wisconsin Bank Suspends.

MILWAUKEE, Aug. 23.—The Bank of Plainfield, owned by H. N. Drake, suspended yesterday. No statement of the liabilities and assets has yet been given out.

NEWS IN BRIEF.

Hon. John J. Bell of Exeter, N. H., is dead.

Pilmmer outpointed Dixon in a four-round bout at New York.

A man suffering with rabies bit two women at Stoneham, Mass.

A big falling off in the coal business is reported by Boston dealers.

Quincy's (Mass.) total valuation is $16,686,071, and the tax rate $15 [illegible]

Certificate holders of the Order of the Solid Rock will receive 70 per cent of their money.

There are indications that President Cleveland and family will leave Gray Gables next week.

An attempt will be made to have the Yale-Harvard football match played on the Waltham (Mass.) bicycle park.

The maritime provinces were swept by a destructive hurricane. Great damage was done to shipping along Nova Scotia's coast.

Miss Margaret Twombly of Rochester, N. H., while in the passenger station at Portsmouth, N. H., was taken violently insane.

A syracuse inventor is to testify in Actor Curtis' case. He claims to have witnessed the tragedy and to have been shot at by the murderer.

Mrs. Fred Lelands of Chester Depot, Vt., fell through a scuttle into a cellar, striking on her head and shoulders. Her recovery is doubtful.

Lucius Tuttle, vice president of the New Haven railroad, was elected president of the Boston and Maine Railroad company, to enter on his duties Oct. 11.

The body of Frederick V. Sibley of North Brookfield, Mass., was found in Lashway pond, East Brookfield. He is believed to have committed suicide.

The 37th annual camp meeting of the St. Johnsbury district Methodists opened at the grove at Lyndonville, Vt., under the leadership of Presiding Elder Hamilton.

United States Consul Bowman is coming to this country with an important letter to President Cleveland on the attitude of China toward this country under the Geary law.

George Woodman, claiming residence in Erie, N. Y., was lodged in Exeter (N. H.) jail, having been held in $200 for the theft of the money drawer and $30 at the Kingston (N. H.) depot.

Morning Fire at Nashua.

NASHUA, N. H., Aug. 23.—A gas jet set fire to Alderman J. N. Gulliett's residence on Canal street this morning and completely gutted the inside. Loss, $2000.

LOVED NOT WISELY.

The Remarkable Infatuation of Belle Mason.

MOURNS LOSS OF A GIRL FRIEND.

Begs to Be Her Domestic That She May Keep Her in Sight.

HAMILTON, O., Aug. 23.—A remarkable case of perverted love on the part of a highly respected young woman exists in this city.

Fifteen years ago the firm of Mason, Lane & Dyer was known far and wide as one of the most flourishing manufacturing industries of the day, but the demise of this corporation has always been considered one of the strangest incidents in the history of Hamilton.

Dyer shot himself. Lane made himself known by preferring charges against John G. Carlisle, secretary of the treasury, and Job Mason followed the example of Dyer by killing himself. The widow, four daughters and one son, Elizabeth, Anna, Molly, Belle and Joseph, were left with a comfortable inheritance.

Belle, the youngest and prettiest, now 18 years of age, a pronounced brunette, remained at the old homestead with her mother. Several years ago she manifested

A Liking For a Girl Companion

and as the years passed this affection became so definite that it developed at times a peculiar spells.

Finally her companion married a well-known young merchant of this city, and was established in her own home. This proved a crisis for poor Belle, who allowed the thoughts of her friend's marriage to so prey upon her mind that while in a state of abject frenzy she suddenly left home.

Nothing definite could be learned of her whereabouts by the frightened relatives, until Belle appeared at her late companion's new home. Here she begged and pleaded that she might be allowed to do the servant's work—anything to keep the

Object of Her Love In Sight.

This, of course, was beyond reason, and Belle returned home where she appeared rather indifferent about the episode, venturing no explanation and remaining in a passive mood. Still brooding over the lost object of her affection, the hysterical spell again violently broke out last Thursday morning.

Belle locked herself in the parlor and all day refused a particle of nourishment. Six o'clock came and Mrs. Mason, becoming exceedingly uneasy, inquired [illegible] the cause of her strange action.

The daughter, turning to her parent, said, "Mother, goodby; I'll never see you again," and with these words departed to her room, and, as Mrs. Mason supposed to bed.

Morning dawned, but no Belle appeared, and the mother instituted a search, discovering that

The Daughter Had Disappeared.

She ran frantically to the neighbors, firm in the belief that Belle had committed suicide.

All day yesterday was employed in the search, and at night Belle was found at the home of her girl friend on Third street. As on similar occasions she proffered no explanations, but returned to her home.

The behaviour of Miss Belle has been the all absorbing topic of conversation among certain circles, who alone were acquainted with the facts for many months.

Prior to the return of Belle Mrs. Mason sought assistance at police headquarters. Here she said Belle had threatened to commit suicide by drowning. On the mother's cheek was a bruise where Belle, while in her strange mood, had struck her.

Monasteries Ordered Sold.

NEW YORK, Aug. 23.—The Herald's correspondent at Guayaquil reports that an order has been issued by the Bolivian government, directing the archbishop to sell the monasteries and invest the proceeds in government securities.

Burglars at Foxboro.

FOXBORO, Mass., Aug. 23.—Burglars entered the houses of S. W. Crook and William Clark yesterday, taking two gold watches and some money from Crook's house. Nothing valuable was missed from Clark's house.

Railroads Consolidate.

SPRINGFIELD, Ills., Aug. 23.—Articles of consolidation of the Peoria, Decatur and Evansville Railway company, and the Chicago and Ohio River Railroad company were filed yesterday. The consolidated road is to be known as the Peoria, Decatur and Evansville Railway company and the capital stock is $6,500,000.

THE STARTER.

Vassar, 5-year old trotting record 2:21¼, has gone to pacing.

There is talk of covering the Stockton kite track with asphaltum.

There have only been a few really great brood mares, and every one meant a fortune to the owner.

His Highness will not be seen on the track any more. His owner has decided to retire him to the stud.

Robert Pool, who drove Dan Wilkes the first heat of a race at the recent New Britain (Conn.) meeting, is 88 years old.

Kalamazoo business men are looking for a site for a mile track to take the place of the old course, which is to be cut up into building lots.

Horsemen of central New York are talking of forming a lake circuit to include Ithaca, Auburn, Seneca Falls, Geneva, Canandaigua and Penn Yan.

A number of horses have been operated on this year to cure roaring. The operation consists in removing the arytenoid cartilage and vocal chord.

Chemical analysis of the loco weed common in the southwest and supposed to madden the animals that eat it shows that it contains no narcotic properties.

Saladin, 2:05¾, now holds the champion race record for pacing stallions and is only one-quarter second slower than Direct, who holds the fastest of all records made by a stallion in harness.

Taking casts from a living horse is something new in the sculptor's line. William Partridge of Milton, Mass., is modeling an equestrian statue of General Grant and makes use of a live horse.

The Horseman says an owner should exercise as much skill in selecting a blacksmith to shoe his horses as in buying the horses. A careless man can do more harm in 10 minutes than a mechanic can remedy in a month.

Who He Was.

Huggins—Do you know that poor fellow who asked me for a trifle?

Kinsam—No. Who is he?

Huggins—He is the man who wrote "The Battle of Life and How to Win It."—Tit-Bits.

The oldest wooden building in the world is a church at Borgund, in Norway. It was built in the eleventh century and has been protected by frequent coverings of pitch. It is of fancy Romanesque design.

THE DRESSMAKER.

Making a lining up crosswise of the goods is said to prevent stretching.

Shoulder seams should be notched in the middle and then pressed open.

Stitch bodice seams with silk. Never use cotton, unless on cotton gowns, unlined.

The bones in princess dresses should extend down about the same distance as if it were a short basque.

BOSTON PRODUCE MARKET.

BUTTER—Butter is very quiet, with prices fairly sustained. At a special meeting of the chamber of commerce Tuesday it was resolved that "All bills for butter, cheese, eggs and beans shall be due and collectable within 10 days from date of purchase, instead of 30 days as heretofore, and if not paid in 10 days interest shall be charged at 10 per cent per annum. This rule shall take effect Oct. 1." A paper is in circulation for signatures of members of the trade who will agree to live up to this arrangement.

BEEF—Beef is well sustained on the best steers, but there is a surplus of poor to medium beef, with the market easier on such beef. Choice fancy steers, [illegible]; prime, [illegible]; good, [illegible]; light, [illegible]; extra heavy hinds, [illegible]; good, [illegible]; light, [illegible]; heavy fores, [illegible]; light, [illegible]; backs, [illegible]; rattles, [illegible]; chucks, [illegible]; rounds, [illegible]; rumps, [illegible]; rumps and loins, [illegible]; short ribs, [illegible]; loins, [illegible].

CORN—Corn is easier to arrive and this market is easier, though there is very little offering. No. 2 yellow to arrive is quoted at [illegible]; with No. 3 yellow at [illegible]. The spot market is easier with steamer yellow sold at [illegible]. The quotations are at: Steamer yellow, [illegible]; No. 3 yellow, [illegible]; steamer mixed, [illegible].

HAY—Hay is firmer, with good to choice hay quotable at [illegible]. Straw is quiet at $14 @15 50 for rye straw, and at [illegible] for oat straw. Millfeed is firm at: Sack spring to arrive, $16 50; sack winter, $17 [illegible]; sack spring middlings, $17 75; sack winter, $18.

MEAL—Corn meal is easier following the easier position of corn. Bag cornmeal is quoted at [illegible], with barrel meal at [illegible]. Oatmeal is quoted at [illegible] for ground, cut and rolled.

OATS—Oats are easier, with clipped to arrive at [illegible]. The spot market is easier at: Clipped, [illegible]; fancy, [illegible]; No. 2 white, [illegible]; No. 3 white, [illegible]; clipped, mixed nominal, [illegible].

POTATOES—Potatoes are steady at: Rhode Islands, $2 75; natives, $2 [illegible]; Jerseys, $2 [illegible]. Sweets sell at [illegible] for ordinary to good, and at $2 75@3 per bbl for the best.

EGGS—Eggs are moving a little better, with the quotations at: Western, [illegible]; Michigan, [illegible]; provincial, [illegible]; eastern and northern, [illegible].

FLOUR—The flour market is dull, on the slightly easier position of wheat. Still the quotations for this market are not changed.

MUTTON AND LAMB—Muttons and lambs are dull, with the market easy. Quotations are the same as noted yesterday.

PORK—The pork market is quiet and unchanged. Lard is quiet, with the market easy.

THE STOCK MARKET.

Dealings in Leading Securities in Boston and New York.

BOSTON, Aug. 23.—In the outside market call money is quoted at 6 to 10 per cent, and time money is nominally 6 per cent.

The necessity of the bears to reduce some of their short stocks and the desire of the bulls to realize their profits are the two controlling factors in the present stock market. According as one or the other of these factors prevail prices rise or fall and the tale of the ticker is without particular significance or interest. The reports from Washington continue encouraging for ultimate repeal. This fact, with the increasing receipts of gold here, gives a hopeful tinge to the conversation of bankers and the habitues of the street, though financial and industrial [illegible] as yet.

General Electric preferred was the weakest stock on the local list this morning at the opening of the market. The final sale yesterday was 13 shares at 65. The opening this morning was 64, with a subsequent jump to 66 and a later decline to 63. The common started off ½ down at 36 and slid to 35¼. Atchison fluctuated about 18¼, ¼ above yesterday's final sale, while the [illegible] were ¼ stronger likewise at 65. Chicago, Burlington and Quincy was subjected to considerable pressure along with the Grangers. Opening ⅝ down at 75, it declined to 73. The 7s held steady at about 111¼, the opening being at 112, and the convertible 5s were unchanged at 94. Sugar was weaker at the start, the common opening ⅝ down at 75¾, rising to 77¼ and declining to the first figure, while the preferred was down ¼ to 78. In local railroad shares Boston and Maine gained at 148, while New York and New England weakened ¼ to 18¼ and Fitchburg preferred ¼ to 71¼.

Chicago Provision Market.

CHICAGO, Aug. 23.—9 p. m.—Wheat opened nearly steady today, at 61c for cash; [illegible] for August; [illegible] for September; 66c for October; [illegible] for December.

Corn opened easy today at 37¼c for cash; 37¼c for August; [illegible] for September; [illegible] for October; [illegible] for December; [illegible] for January; [illegible] for May.

Oats opened steady today at [illegible] for cash; [illegible] for August; [illegible] for September; [illegible] for October; [illegible] for May.

Pork opened irregular today; prices ranged mostly at $12.10 for cash; $12.10 for August; $12.10@12.00 for September; [illegible] for October; $12.15 for January.

Lard opened easy today at [illegible] for cash; [illegible] for August; [illegible] for September; [illegible] for October; $7.00 for January.

Short ribs opened easy today at $8.25 for cash; $8.05 for August; [illegible] for September; $7 [illegible] for October.

CHICAGO, Aug. 23—1 p. m.—Wheat closed easy today at [illegible] for cash; [illegible] for August; [illegible] for September; [illegible] asked for December.

Corn closed easy today at [illegible] for cash; [illegible] for August; [illegible] for September; [illegible] for October; [illegible] for December; [illegible] for May.

Oats closed easy today at 2[illegible] for cash; [illegible] for August; [illegible] bid for September; [illegible] for October; [illegible] for May.

Pork closed quietly today, at [illegible] nominal for cash; [illegible] nominal for August, $12.05 bid for September, $12.10 bid for October, $12.30 asked for January.

Lard closed quietly today at [illegible] for cash; [illegible] for August, [illegible] asked for September, [illegible] asked for October, $7.05 for January.

Short ribs closed quietly today at $8.05 for cash, $8.05 for August, [illegible] for September; $7.20 for October; $6.90 for January.

New York Cotton Market.

NEW YORK, Aug. 23.—Cotton quiet and steady; uplands, 7 [illegible]; Orleans, 7 [illegible]; sales 513 bales. Futures closed firm; sales [illegible] bales. August, 7.[illegible]; September, 7.[illegible]; October, 7.[illegible]; November, 7.[illegible]; December, 7.[illegible]; January, [illegible]; February, [illegible]; March, 7.[illegible]; April, 7.[illegible].

WOMAN'S REALM.

It is said that Mrs. Cyrus W. Field might easily be mistaken at first glance for a schoolgirl. She is petite and vivacious.

Mme. Lebaudy, widow of the great French sugar refiner, who left her a fortune of $30,000,000, lives in a small house at St. Cloud and spends about $1,000 a year.

Miss Fessenden, a progressive young woman of Massachusetts, has been actively engaged recently in advising New England girls not to marry "moderate drinkers."

Mrs. Frederick H. Benedict (nee Virginia Coudert) of New York, when at Homburg before her recent marriage was spoken of as the most beautiful American girl there.

Miss Pauline Whitney, daughter of ex-Secretary Whitney, though reputed to have more spending money than any other young woman in New York, dresses very plainly and wears no jewelry worth mentioning.

Miss Clara Barton, so famous as the head of the Red Cross society in this country, began her career almost by chance. At the outbreak of the civil war Miss Barton was a copying clerk in the patent office at Washington.

The two daughters of the late Banker E. P. Bergamini of New York, have surrendered their private fortunes to pay the debts of their father. They will be left penniless and will support themselves by music teaching and stenographic work.

Lizzie Francks, who years ago traveled with Barnum's circus for many seasons as "Titania, the Fairy Queen," and always drew crowds because of her diminutive stature, is now an inmate of a Philadelphia almshouse and has been since Aug. 28, 1877.

Miss Jean Ingelow, though in the sixties, pursues her amiable hobby of botanical study and flower cultivation and keeps up her benevolent custom of giving three times a week dinners to 12 poor persons freshly discharged from the hospitals of London.

Mrs. Marion Todd, whose latest literary work, "The Railways of Europe and America," has been recently published, is a New England woman by birth, but has passed most of her life in the west. In 1881 she was admitted to the bar in San Francisco and built up a practice there.

Ruth Brown Thompson, oldest daughter of Osawatomie John Brown of Harper's Ferry fame, is now living on a ranch near Pasadena, Cal. She is a woman under medium height, perhaps 70 years of age or more, but she does not show her age and looks younger. Her skin is soft and white as a girl's, and her mild blue eyes are full of expression.

ODDITIES ABOUT DEW.

By the allwise provision every plant and inch of ground which needs dampness is adapted for collecting dew.

Dew never falls, in the general acceptation of that term, it being always formed upon the surface of the material or substance upon which it is found.

Dew does not form on the surface of vast bodies of water. On the contrary, the surfaces of ships which traverse the ocean have never been known to be dampened by it.

Dewdrops are always round or spheroidal in form, because every portion of each drop is equally balanced, no one part of the surface being farther from the center than another.

The reason that dew is rarely or never observed in the close, sheltered streets of cities is because the buildings are exposed to the radiation of each other, thus maintaining a temperature uniform with the air.

Mist never becomes dew, because the chill of the air is so rapid that vapor is condensed faster than it can be deposited, and, wrapping the earth in a sheet, as it were, prevents further radiation of heat from the earth.—Chicago Herald.

AMONG THE WHEELMEN.

A. A. Zimmerman is one mile international bicycle champion.

Charles Murphy has been declared a professional by the L. A. W.

When a racing man is in fine shape in England now they say "he is terribly fit."

Three deaf and dumb cyclists of Pittsburg have been touring through Pennsylvania.

Two cyclists were fined respectively $25 and $50 for pedaling in forbidden streets in St. Petersburg.

The famous English tandem team, R. J. and A. F. Ilsley, have ridden at the rate of nearly 35 miles an hour.

P. T. Powers of the National Cycling association declares that professional bicycle racing has thus far proved a success in America.

J. J. Farley, who joined the professional ranks at Troy, N. Y., races merely for the fun of the thing. He is worth from $50,000 to $75,000.

N. E. Kaufman, the champion trick bicycle rider, is out with a challenge to compete with any rider in America for $500 or $1,000 a side.

A few lumps of beeswax wrapped each in a bit of old linen and put in the folds of a white satin gown will keep it from turning yellow.

"I DO NOT EAT PASTRY!"

How often you hear this expression, and the explanation that usually follows: "I am troubled with dyspepsia." The explanation is not far to seek. In the past Lard has been used as the principal shortening in all pastry, the result —dyspepsia. The dyspeptic need no longer be troubled, providing

COTTOLENE

is substituted for lard in the preparation of all food. It is composed strictly of highly refined vegetable oil and beef suet. When used as shortening, it produces wholesome and healthful pastry. Physicians and expert cooks indorse it. Refuse substitutes.

Send three cents in stamps to N. K. Fairbank & Co., Chicago, for handsome Cottolene Cook Book containing six hundred recipes, prepared by nine eminent authorities on cooking.

Cottolene is sold by all grocers.

The subscribers, commissioners on the assigned insolvent estate of the Norwich Opera House Company, a joint stock corporation of said Norwich, give notice that they shall meet at the office of William H. Shields, in said Norwich, on the twenty-ninth day of August, 1893, at 10 o'clock in the forenoon, for the purpose of hearing and deciding on the claims of those creditors of said estate, who, by the decree of the court of probate for the district of Norwich, passed on August 22d, were allowed to present their claims to the undersigned after the original limitation thereof had expired.

WILLIAM H. SHIELDS,
SHERMAN R. HOBBINS,
Commissioners.
aug24d

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 22d day of August, 1893.

Present—CHAS. W. CARTER, Judge.

Estate of Jane G. Thomas, late of Norwich, in said district, deceased.

George D. Coit of Norwich appeared in Court, and moved that an instrument purporting to be the last will and testament of said deceased be admitted to probate, administration be granted upon the estate of said deceased.

Therefore ordered, That said application be heard and determined at the Probate Office in Norwich, in said district, on the 25th day of August, A. D. 1893, at 9 o'clock in the forenoon, and that said George D. Coit give public notice to all persons interested in said estate, by advertising in a newspaper having a circulation in said Probate District, to appear if they see cause, at said time and place, and be heard relative thereto, and make return to the Court.

Attest— CHAS. W. CARTER, Judge.
aug24d

AT A COURT OF PROBATE HELD AT Norwich, within and for the District of Norwich, on the 23d day of August, 1893.

Present—CHAS. W. CARTER, Judge.

Estate of Sarah Young Burr, late of Granby, P. Q., deceased.

Ordered—That six months from the date hereof be, and the same are limited and allowed for the creditors to bring in their claims against said estate, and the Administrator, Henry W. Burr of Newton, Mass., directed to give public notice to the creditors of said estate to bring in their claims within said time allowed, by posting the same on the public sign-post nearest the place where the deceased last dwelt within the same town, and by publishing the same in a newspaper having a circulation in said district, and return make to this Court of the notice given.

Attest— CHAS. W. CARTER, Judge.
aug24d

AT A COURT OF PROBATE HELD AT Colchester, within and for the District of Colchester, on the 22d day of August, A. D. 1893.

Present—E. E. CARRINGTON, Judge.

Estate of Joan H. Greeley, late of Colchester, in said district, deceased.

Lizzie C. Greeley of Colchester, appeared in Court, and moved that administration be granted on the estate of said deceased alleged to be intestate.

Therefore ordered, That said application be heard and determined at the Probate Office in Colchester, in said District, on the 29th day of August, A. D. 1893, at 2 o'clock in the afternoon, and that said Lizzie C. Greeley give public notice to all persons interested in said estate, by advertising in The Norwich Morning Bulletin, a newspaper having a circulation in said Probate District, to appear, if they see cause, at said time and place, and be heard relative thereto, and make return to the Court.

Attest— E. E. CARRINGTON, Judge.

Subscribers who fail to receive it by that time will confer a favor by reporting the fact to the Bulletin Co.

The Weather Today.

Indications for Connecticut: Easterly wind, high on the coast, cooler.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

NORWICH AND VICINITY

CITY NEWS.

The United States district court adjourned to September 19.

The Saratoga excursion took from this city Wednesday morning 146 persons.

B. Peckham has sold his meat business on West Main street, to Benjamin Bist.

Janitor Fields is repainting and whitewashing the cells at police headquarters.

The German Lutheran Y. P. society will go to Mystic Island today on the steamer Ella.

The Vermont Central railroad will sell excursion tickets to Lake Pleasant on Saturday of this week.

Three iron poles for the electric road were placed in position on Shetucket street Wednesday afternoon.

Middletown people are coming to New London on Sunday next, making an excursion on the City of Richmond.

Ira Lewis of Jewett City appeared on the street Wednesday with a pair of fine strawberry roan horses weighing 3,300 pounds.

The fifteen feet of water in historical Beach pond, Voluntown, has been reduced to eleven feet by the recent drought.

St. Joseph's Literary Sodality will entertain the Byrnes Brothers at the club's comfortable quarters in Doyle's block on Friday evening.

Elmer Battey of Moosup excites the envy of neighboring farmers by displaying a German cucumber which weighs two and three-fourths pounds.

A private fire alarm box will be placed on a pole near the hospital buildings this week. The call will be fifty-three. On the grounds are located three hydrants.

The four faces of the city hall clock are ninety inches in diameter. At night they are lighted by electric lights, within long funnels, the inside of which is painted white.

The telephone service in the city was interrupted last night by some atmospheric disturbance, the wires in the city being of little service, and communication with other places being entirely cut off.

There are seventy prisoners incarcerated in the jail at New London at the present time, just one more than there are cells to hold them. They begin to think that a new jail is needed there.

Peace meetings will be held in Mystic grove the last three days of this month. Several of the prominent peace advocates to the World's Fair Peace congress will be present and will review their experiences at Chicago.

The poles of the electric road are usually set 125 feet apart. The work of placing those on Laurel Hill avenue will begin Wednesday. The holes are made of a uniform depth of six feet.

Employes of firms and business men on Franklin Square should not entertain the notion that the watering troughs were built to wash dirty brooms in, nor cuspidores. Decent animals protest against such a use being made of them.

Tomorrow evening the steamer Block Island will make a moonlight excursion to Camp Morris at Niantic, leaving at 7 o'clock. The Hopkins & Allen band will accompany the party and there will be an orchestra for dancing, which will be free.

A barber in town placed a gaily painted pole, indicative of his calling, before his shop and warned off hungry horses with strong stomachs with the sign: "No Hitching." A wag scratched out the H.

All the mills in Greeneville will shut down Friday night and the water will be drawn from the canal. Contractor F. B. Durfey is to widen the canal below the bulkhead and his excavations will keep the wheels idle for a week.

Abram Geer of Norwich has been granted an original pension. Mr. Geer was for many years an honored resident of North Stonington and later of Westerly. The Tribune is glad to note his richly deserved good fortune.—Westerly Tribune.

A wagon came around the Otis street corner into Franklin street Wednesday morning at too sharp an angle, overturned and the driver was thrown out and struck his head. The wagon righted again and the horse sped up the street. The injured man was carried away in a passing carriage.

The steamer Martha brought a large and pleasant party to this city from Stonington Wednesday noon. The excursion was under the auspices of the J. T. Trumbull Woman's Relief Corps. After riding on the electric cars and admiring the various scenic petals of the Rose of New England they departed down the Thames at 3 30 o'clock.

Mr. Tuttle's advancement, says the Boston Journal, to the presidency of the great Boston & Maine system is not unexpected. There will be general satisfaction that the choice falls upon such a thoroughly capable and experienced man, and one who for so much of his career has been closely identified with New England railroad interests.

A dog belonging to Benjamin Allen was acting strange, Tuesday, and his master tied him up. Wednesday morning the animal became violent, attacked every one who approached him and frothed at the mouth. Officer Matthews was requested to shoot him, which he did. The dog was a valuable shepherd.

The annual demonstration of the Grand United Order of Odd Fellows will be held in Bridgeport September 6. Lodges from all over the New England and middle states will be present to participate in the big parade in the morning. A $15 prize is to be awarded to the lodge making the best appearance. Another prize of $25 will be awarded to the best drilled patriarchy, and a number of other things of interest are to be competed for.

With the increasing popularity of tennis the very pleasant game of croquet, says The Ansonia Sentinel, which has not been in vogue for several years, has been somewhat of a back number. Interest in it is now undergoing a revival, however, and in scores of places about town it is having a big run on pleasant evenings. *There is a combined indolence and pleasure about the game* which recommends it above others to the tired head of the family on arriving home from work.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

SUMMER TRAVELERS.

Where the Summer Days Are Spent.

Mrs. John Leighton is at home from an outing at Block Island.

A party of Norwich people are camping on Pine island, near Bushy Point.

Mr. and Mrs. Isaac York of Westerly are visiting friends in Norwich.

Rev. Mr. Rankin and family of Philadelphia are visiting in Greeneville.

Miss Bertha Hirsch has returned from a five weeks' outing at Crescent Beach.

John Jack of the Ferry street station is spending his vacation in New York.

Mrs. Charles Sears has arrived home from a two weeks' visit to Philadelphia.

George Ashby of Norwich has been visiting Samuel Packer and wife of Mystic.

Mrs. J. Q. Conant of Leominster, Mass., is visiting Mrs. George Henry of Prospect street.

C. D. Browning and wife went to Providence Wednesday morning for a short outing trip.

Helen Jillson and Mrs. Mary Rogers of Preston are visiting friends at Westbrook and Essex.

Miss Alice Richmond of North Grosvenordale has been visiting Mrs. H. G. Ransom of Norwich.

The Rev. Father Crowle of Wallingford, formerly of this city, is on a two weeks' vacation to the world's fair.

Miss Jennie Stevens of Middletown has returned to her home after a month passed with Miss Belle Rathbone.

Mrs. Minnie Hedley Vaughn, whom local musicians will remember, has been visiting friends in Danielsonville.

Mrs. Fred B. Manning of Providence, R. I., has been visiting Mrs. John Devine, 96 Chestnut street, for a few days.

Mrs. J. Horace Jones of Mt. Vernon, N. Y., is visiting the family of her father, Mr. Rufus Sibley, on Warren street.

Rev. H. R. Rankin, wife and child of Philadelphia are with Mrs. Rankin's mother, Mrs. Charles F. Sears of Central avenue.

Mrs. S. E. Murray, accompanied by her daughter Mary and sons William and Edward, are visiting Mrs. I. E. Roath of 24 Elm street, Preston.

Mr. M. B. O'Connell of Westerly, who has a number of relatives in this city, started for Fenlon Falls, Canada, this week to visit his brother, the Rev. J. B. O'Connell.

Mrs. George Elliott and children of Fairmount street are visiting Mrs. Elliott's mother and sisters in Pawtucket, where they will finish the month.

Miss Grace Newton left for her home in Brooklyn on the boat train Wednesday night. For eight weeks she has been the guest of Miss Mazie V. Caruthers.

Frank Gillander, for many years a draughtsman for the Millstone Granite company, Waterford, will remove to Philadelphia this week.

Miss Carrie E. Hopkins, principal of the Roath avenue school, starts for Block Island today to complete her vacation, having already had a pleasant outing to Montreal.

Mr. Charles Peale and family started for Chicago and the World's Columbian exposition Wednesday evening. They will be the guests of Richard S. Peale, the Chicago publisher.

Mrs. Geo. S. Cahill and children of Brooklyn, N. Y., have returned home after a stay at Block Island. Mrs. Cahill is a sister of Mr. Thomas B. Leahy of this city.

Francis and Robert O. Neff of New London have been appointed delegates from this state to the National Veterans' association, to be held in Indianapolis next month.

Mr. E. B. Gager, secretary of the Kinnear & Gager Co. of Columbus, O., is in town on business. Mr. Gager is a native of Windham county, and in his boyhood days attended school in Norwich.

Misses Pearlie and May Plunkett, daughters of ex-Senator Joseph D. Plunkett of New Haven, and both well-known in this city, are the guests of the family of P. H. McMahon of Waterbury.

Mr. F. H. Woodworth is at Camp Morris for a few days. Mr. Woodworth is an old militiaman, and years ago was a member of the Light infantry. Until within a few years he has been hospital steward.

Mr. and Mrs. Frank Fanning and child, Mr. Waydock, Miss Katie Farrell, all of Brooklyn, N. Y., and Miss Mamie E. Connor of this city have been forming a pleasant party at Narragansett Pier.

Mrs. Jerry Denny, who has been spending the summer with her mother on Fountain street, will remain in this city until Labor day, when she will join Mr. Denny, who plays in Boston, and they will leave for San Francisco.

The Middletown Tribune says that Miss Kate Chapman of Saybrook and Miss Richmond of Norwich, both former teachers in the Gildersleeve high school, were in Middletown Tuesday and attended the picnic on Gildersleeve Island.

Mr. Wm. Fairbanks, so well and favorably known in local insurance circles, will remove to Buffalo about Sept. 1, to assume charge of the Prudential Insurance company's important business. Mr. Fairbanks' son-in-law, Mr. Goode, is also interested in Buffalo enterprises.

The Rev. C. H. Oliphant of New Jersey, formerly pastor of the Congregational church at Mystic, will preach there for three Sundays in September during the absence of the pastor, the Rev. J. R. Danforth.

Mrs. Cuthbert Harrison Slocomb, widow of the late Gen. Slocomb and mother of Countess di Brazza, was among Norwich visitors Tuesday. Mrs. Slocomb is occupying her summer home on Groton Heights this season.

The Battle Play.

E. C. and D. D. Butler, who took part in the local croquet tournament last week ending in a tie, will play off the same on their grounds at their home in Middletown in the near future. An experienced referee will be present and the public will be invited to witness the playing of these two experts.

A Bunco Man Makes $200.

A bunco man in Putnam Tuesday worked the old nut-shell racket upon the people called together by Hunting's circus and menagerie, and took about $200. Three men from Ballouville are said to have lost $75. No arrests were made, although the gambling law was openly violated.

A Prize Winner.

At the Demorest medal contest in Willimantic, Tuesday evening, the first prize was won by Miss May Jordan, with special mention of Miss May Turner. The second prize was also awarded to Miss May Jordan. The committee of award were Van Buren Wheeler and Minnie Barker of New London and Mrs. S. B. Luce of Niantic.

"Eight Bells."

The athletic actors and pantomimic artists, Brothers Byrne, will appear at the Broadway theater next Monday.

This season's production of "Eight Bells" will be marked by a number of new tricks, embodying some of the most wonderful mechanism known to stage art. The success of the enterprise everywhere last season guarantees "Eight Bells" a fixture in popular favor.

Mistaken for Pirates.

The supposed piratical schooner reported off Millstone Point turns out to be the flat-bottomed schooner Mystic Valley on the peaceful mission of rockweed gathering. She has been lying in Shaw's Cove a long time and has just been fitted up for the business mentioned. The two young men working on her wonder what there is about them and their craft that would lead fresh water sailors to conclude they were pirates.

City Court—Kelleher, Judge.

Sheriff Morgan made his first arrest Tuesday night. He found a Montville citizen asleep on the steps of D. B. Sullivan of Water street. When the man was waked and started off he toppled over. A wagon was called and the drunken man carted to the station. He gave his name as William Duggan. Yesterday morning he was fined $5 and costs, $12.88, and was sent to jail to work out the sentence.

Adolphus and Mary Paloquin of Taftville were acquitted of the charge of keeping a disorderly house.

Boston Excursion.

The New York & New England railroad excursion to Boston including trip to Nantasket Beach or admission to the League base ball game, Boston vs. Cleveland, will take place tomorrow. Special train leaves Norwich Union station at 6 30 a. m., Jewett City 6.55 a. m. Returning, special train leaves Boston 7.15 p. m. for above stations. Tickets good going and returning only on special train August 25, and returning by regular trains August 26. Steamers leave Rowe's wharf, Boston, for Nantasket Beach 10 45 and 11 30 a m., 12 30, 1.30, 2.30 and 3 40 p. m.

Labor Day Preparations.

Hartford labor organizations will have a big parade and picnic on Labor day, with games and a concert. The chief marshal of the day will be Thomas F. Mahon.

New Haven linemen are considering the advisability of parading on Labor day, owing to trouble which some of them have recently had with Superintendent Baker of the Southern New England Telephone company. At present there is more trouble with linemen in that section than in any other part of the state, owing, it is claimed, to the superintendent's efforts to get non-union men.

MARRIED.

WILLIAMS—CROCKER—In Putnam, Wednesday, Aug. 23d, at the residence of the bride, by the Rev. F. D. Sargent, Bertha Emily Williams and Edward Rosmer Crocker of Norwich.

PERKINS—RAY—In Norwich, Aug. 23, by Rev. P. G. Wightman, uncle of the groom, Austin Freeman Perkins to Miss Lucy Byram Ray.

DIED.

HUMES—In this city, Aug. 23, Betsey Berwick, wife of Charles L. Humes, in her 86th year.

Funeral from her late residence, No. 88 Boswell avenue, this (Thursday) afternoon at 2 o'clock.

JEROME—In Montville, Aug. 21, George D. Jerome, aged 77 years 6 months.

Funeral this (Thursday) afternoon at 2 o'clock, from his late residence.

?? QUESTIONS —AND— ANSWERS ??

Q—What is Cottolene?
A—A clean and healthful fat for cooking purposes.
Q—Of what is it composed?
A—Beef suet and refined vegetable oil.
Q—What are its advantages?
A—It costs less than lard and a less quantity is required to produce satisfactory results.
Q—Why was it originated?
A—To supply a demand for a cooking fat to take the place of lard.
Q—Is not lard always satisfactory?
A—Many people are prejudiced against the fat of swine.
Q—Where can I be supplied with Cottolene?
A—Nearly, or quite all dealers in groceries sell Cottolene.
Q—What have you to do with Cottolene?
A—I supply the retail trade direct from the manufacturers.

NEW ENGLAND DAMAGED

The Great August Gale Destroys Much Property.

CORN FIELDS LAID LOW.

Very Severe at New Haven and New Britain.

DAMAGE AT CRESCENT BEACH

Yachts and Naphtha Launches Ashore—Havoc at Hartford.

HARTFORD, Conn., Aug. 24.—Thursday's southeaster struck this city early in the morning and as the day wore on the gale increased, blowing at times at the rate of fifty miles an hour. In the city the wind played havoc with the trees, and the streets were literally covered with the torn-off boughs. Fruit trees were stripped and the ground strewn with apples, pears, peaches, etc.

The spire on St. John's church waved and reeled in the blast, and spectators looked to see it go down; but it held its place. Large trees were torn up by the roots, in places all about this part of Connecticut. One or two were uprooted in Hartford.

Few railroad trains arrived up to 1 o'clock p. m., and they had a wild time of it—one losing its smokestack, a few miles south of this city, by a tree crashing down upon it.

As for the electric and telegraph wires, they were badly crippled, in all directions. The banks and brokers had a quiet time, for once.

The rainfall at Trinity college was 1.26 inches.

Damage at Crescent Beach.

NIANTIC, Conn., Aug. 24.—Niantic bay was a solid mass of foam and white caps this morning. The sea broke over with great force at Crescent Beach, and a large number of yachts and naphtha launches, which were exposed to the full strength of the gale dragged anchor and came on the beach. Some of them are in bad shape, especially those which were dashed on the rocky shore.

Terrific Gale at Rockville.

ROCKVILLE, Conn., Aug. 24.—The most terrific wind and rain storm for many years prevailed here last night and this forenoon.

Soon after 7 o'clock this morning the wind increased in violence and blew a hurricane, twisting big limbs off from trees and doing much damage.

Great damage is reported to the tobacco crop in Ellington, Somers and other neighboring towns. The fruit was also greatly damaged by the storm. Many apple and pear trees were almost completely stripped of their fruit.

Severe at New Haven—Wires Down—Vessels Ashore.

NEW HAVEN, Conn., Aug. 24.—The gale set in about 9 o'clock this morning and increased in violence every hour. At times the wind reached the proportions of a hurricane and it was dangerous to venture on the streets. Huge trees were blown down and uprooted, and telegraph and telephone wires were broken and twisted in every shape. This morning the public works department sent out a large force of workmen to clear the streets of the fallen trees. Many of the streets were impassable owing to big elm trees which had been uprooted and thrown across the road. Wall, Pearl and [illegible] streets suffered badly.

In the harbor, despite the few break waters, the storm kicked up a furious sea which played havoc with the yachts and larger vessels anchored there. Of the 200 merchant vessels which sought refuge in the harbor last night, many dragged anchors and were high and dry on the mud flats this morning. The yachts of the New Haven Yacht club also fared badly, and many of them drifted from their moorings and were more or less damaged. The tide this morning was the highest in years, and the wharves and docks were submerged.

Corn Fields Laid Low at Essex.

ESSEX, Conn., Aug. 24.—The storm in this vicinity last night and this morning did much damage to crops and fruit trees. Some large fields of corn are laid low and apple trees have been stripped of their fruit.

Schooners in Peril at Saybrook.

SAYBROOK, Conn., Aug. 24.—The schooners anchored here were dragging their anchors this morning, and moving up the river, but it is believed they will not reach the big railroad bridge before they fetch up, as the gale promises to abate. A yacht dragged ashore in front of the Pease house, this morning, but several other small yachts at anchor have held all right, although pitching under with every sea.

Strikes New Britain With Great Fury.

NEW BRITAIN, Conn., Aug. 24.—The wind and rain storm struck New Britain with great fury. Between 1 and 2 o'clock this morning the rain began to fall with increasing vigor until it became a downpour. The wind blew a stiff breeze for some time and finally developed into a gale. Blinds were wrenched off their hinges, awnings were torn off their fastenings and loose shingles were sent flying through the air in all directions. This morning showed the force of the storm in the many broken limbs of trees that were lying on the streets. Many a stout elm or beech bent its towering form before the power of the wind. A number of the telephone and fire alarm wires were broken.

Wallingford People Nervous.

WALLINGFORD, Conn., Aug. 24.—The storm which broke out here shortly before 8 o'clock this morning increased in intensity steadily and at 9 o'clock was raging with fearful violence. Trees were uprooted and snapped in two. The streets were flooded and buildings were shaken like reeds. There is no telegraphic communication north of here and all wires are down to the south. The storm at 10 o'clock showed signs of abatement and the residents are less nervous.

Ferryboat Aground at Middletown—U. S. Mail Wagon Demolished.

MIDDLETOWN, Conn., Aug. 24.—The most violent storm that has visited Middletown and vicinity for years began about 1 o'clock Thursday morning. When it began, the wind was blowing moderately from the southeast, but gradually it increased to a gale. It began playing havoc with the trees about the city, scattering limbs in every direction and rendering some thoroughfares practically impassable. Telephone and telegraph wires were soon demolished, making the service absolutely useless.

The ferryboat Brownstone, while attempting to cross the river, was blown ashore on the west side of Willow island, where she remains. Owing to the strength of the gale it is impossible to make any attempt to get her off. She is resting on soft bottom and will probably not be much injured.

The river front is strewn with small craft, including rowboats, sailboats and steam yachts. Some of them are badly injured. George Sweet's handsome steam yacht Minnie May was blown ashore about 8 o'clock this morning, but was only slightly damaged.

Charles Davis was riding up Center street in a covered grocery wagon, when it was seized by the wind and deposited in a dooryard, scattering the contents promiscuously. The United States mail wagon capsized at the depot and was demolished; also a large wagon owned by the Adams Express company. A son of J. W. Strock was blown from a buggy and somewhat injured, although not seriously.

AT OTHER POINTS.

Storm the Worst on the Atlantic Coast for Years.

NEW YORK, Aug. 24.—The path of the storm that swept along the northern Atlantic coast last night is strewn with wreckage of every conceivable description. Not for years have the elements wrought such destruction to property. Reports are very meager and general in character, and it is impossible to estimate with accuracy what the total loss to property will be.

The storm started at an early hour last evening on the New Jersey coast and swept northeast along the coast line at a fearful velocity. The wind attained a velocity of over 70 miles an hour at times, and the irresistible current carried everything before it. Houses were blown down, trees uprooted, boats wrested from their moorings and driven on to dangerous ledges and shores, and for miles inland the path traversed by the storm is marked by wreck and ruin.

The storm increased in violence rapidly. The wind held to the northeast, and accompanying it was a terrific rain storm. The water appeared to be swept along near the surface of the earth in perfect clouds, and many towns and cities in the line of the storm were completely inundated.

The storm is the most severe line gale experienced on the eastern coast since 1879. There were a good many coasting vessels off the shore last night, and it is possible that there may have been numerous marine disasters during the fury of the storm.

So far as the reports from different sections indicate, the loss of life, if any, has been very slight. No fatalities have thus far been reported, but as communication with towns and cities within the district has been shut off, nothing very definite can be learned.

The streets in the upper section of New York city were flooded this morning, and are strewn with uprooted trees. In Central park the damage to trees and shrubs has been very great. The water in some of the streets in New York were so deep that boats could be floated in the thoroughfares.

In Brooklyn many of the avenues are impassable, owing to fallen trees. In many instances large elms and oaks were torn from the earth and carried through the air a distance of many feet.

A large number of buildings were damaged, but in the present chaotic condition of the telephone and telegraph wires in the devastated territory renders it impossible to give any clear account of the damage to structures.

The telegraph and telephone services have not been so completely crippled for years. All, or practically all, the wires out of New York are useless. There is just one wire, a long distance telephone, that connects Boston with this city. The business in the offices of the telegraph companies has been practically suspended.

The telegraph and telephone companies have extra corps of linemen working in every direction, repairing the damage to the wires.—[Long Distance Telephone to Boston Herald.]

Five Vessels a Total Loss at Narragansett Pier—Loss, $25,000.

PROVIDENCE, R. I., Aug. 24.—Four pontoons and a schooner that were in tow of a Merritt Wrecking company steamer went ashore about two miles north of Narragansett Pier at an early hour this morning. All of the vessels are a total loss, and the diver, William Coolan of Staten Island was entangled in the wreckage and drowned. The tow was coming to this city to raise a sunken barge, and broke apart off Whale Rock Light about 2 30 this morning. There were nine men on the crafts, eight of whom succeeded in getting ashore, much cut and bruised. The pontoons are valued at $6,000 each, and the schooner, the Rapidan, was worth $7,000. They were dashed to pieces on the rocks in a short time. The storm was one of the wildest the Rhode Island coast has experienced in several years.

Fishermen Suffer.

GLOUCESTER, Aug. 24.—Fishermen arriving report the storm as very severe. Schooner James S. Steele had her decks swept, lost bulkwarks, seven dories and 400 fathoms of cable, and was otherwise damaged. Schooner Otis P. Lord lost her mainmast head.

Yachts Ashore.

NEW BEDFORD, Aug. 24.—The gale of last Monday was nothing compared with that which struck on here at an early hour this morning. The wind increased in velocity with each hour.

Some fifteen yachts are in the upper harbor, and all have put out triple anchors. Several yachts dragged and went ashore near the clubhouse, but only slight damage is reported, and towboats were kept busy placing these pleasured craft in safety.

Electric Car Passengers Panic-Stricken.

BOSTON, Aug. 24.—The blowing out of a fuse on an East Cambridge bound South Boston electric car, near Craigie bridge, about 10.15 last night, caused somewhat of a panic among the passengers, and Mrs. Rogers of 9 Second street, East Cambridge was injured.

The car was going at rapid speed, when suddenly a loud noise was heard, followed by a flash, and the flame and smoke seemed to envelop the car. The car was crowded with passengers, most of them women, and they jumped off, terror-stricken. Mrs. Rogers in jumping fell to the pavement, bruising her hand and arm and sustaining other injuries. She was assisted to her home.

Street railway officials, who were quickly on the scene, stated that no danger could have resulted to any of the passengers had they kept their seats.

Nearly 90 Indictments Reported Against Windy City Gamblers.

CHICAGO, Aug. 24.—A sensation was caused yesterday by a sudden indictment of gamblers. At the instance of State Attorney Kern 87 indictments were found.

A FEW TENTS FLAT AT DAYLIGHT.

The "West India Hurricane" Plays Tag at Camp Morris.

DRENCHED MILITIAMEN.

How the C. N. G. Weathered the Gale—Gov. Morris Today.

CAMP MORRIS, Aug. 24.—According to the statement of an old citizen here in Niantic the gale which has been in progress for the past twelve hours is the most terrific known for years, and the amount of damage done the greatest. There was no sign of such a storm last night at "taps" when the lights went out.

The day closed Wednesday with lowering skies, and in the evening a heavy mist fell on the camp, but aside from a gentle breeze there appeared to be no indication of the hurricane which came upon us about midnight. The wind came from the northeast and the old weather prophets predicted a wet day, but that was all, and the troops turned in with a feeling that perhaps the weather would be such as to partially cut down some of the duties of the coming day. But late in the night the rain came down in torrents accompanied by fierce lightning with a gale blowing across the bay from the southeast. Those who could sleep did not mind the gentle breezes as they flapped the flies of the tents with loud reports. But about 3 a. m. the gale seemed to reach its height, and when we opened our eyes to the fact that there might be such a thing as being uncovered we made a break for it and prepared for the ascension of our top hamper to realms of infernal darkness. I have packed a grip before now with some rapidity, but a look at my extension this morning would convince any one that the record was broken. We were ready to go when the tent poles gave out, but did not know where to go to. It did not take long for the campers to get on the outside. They found, however, that Capt. Cornell and his men had done good work when they put up the tents, and very few of them went down. It was amusing to see the unlucky ones crawling from under the dripping canvas which had caught them while asleep and enveloped them in the watery folds. It is to the credit of those who were up that they should think of our old chaplain first. When his quarters were reached he was found dressed, his chattels packed and ready for the train—or ambulance. He had his shoulder braced against the broken center pole of his tent and for a long time had thus stood and kept his quarters right side up.

Major Fox's boy came running down the street in fear and told us that "the major's front door had blown in."

The chaplains of all the regiments were early in service rendering assistance wherever they could.

Captain Cornell had a gang at the Y. M. C. A. tent driving pins and tightening the guys to keep from a repetition of Sunday's storm.

On the other side there were several tents flat at daylight. But the damage was all made good very quickly after daylight, and the men find comfortable homes again. Constant watchfulness was required, however, to keep the tents in position, as the gale seemed to increase rather than to abate, and it blew so hard at 7 o'clock that it was almost impossible to keep one's feet, much less make headway.

The ground permitted an attempt at company drill and the brigade turned out, but the breeze was too strong, and the troops returned to quarters and waited for guard mount, which took place at the usual hour, after which came battalion drill by the Third, the other three regiments getting excused.

The force of the gale, however, was seen more at Niantic village and along the beach, where heavy damage was done. The camp was nearly deserted at 10 o'clock, the men having gone to the village to witness the devastation wrought to the water craft.

Those who went early saw a large schooner, the James H. Bayles, Capt. Chase, for New York, go ashore just east of the long wharf, and sloops, fish boats and yachts come ashore all along the beach. Several of the small sail boats were saved, but the large craft soon broke up. The Bayles had her side stove soon after going on and is rapidly breaking up. A large four-masted schooner, lying out some distance, seems to be dragging her anchor and is nearing the beach.

A tremendous sea is running and the breakers are so heavy as to occasionally come upon the track of the railroad. The tops of masts can be seen in several places where small crafts have gone down at their moorings, and the wharf opposite the Morton house has been destroyed.

The chief attraction for the onlookers early in the scene was the dangerous position of two men who were in a small sail boat. They stuck to her till the last minute and then took to the small boat, and in their efforts to reach shore were several times near being engulfed by the waves, but they held on and "pulled for the shore" and were finally rescued exhausted by a boat which put out to their relief. Their sailboat went to the bottom, soon after the men left her.

The force of the gale spent itself at noon, but the wind did not go down until night. We who were on the ground during the gale of Sunday night thought that was something of a breeze, but as compared with the one last night and today it was a mere summer zephyr, and we don't refer to it now except as a something that kept us in mind of what the day was and what the wind might have been had it got down to business.

After the brigade review last evening the Second regiment was massed in front of Col. Doherty's quarters, and Col. Doherty in a pleasant little address presented the chaplain, Capt Twichell, with an elegant gold watch and chain as a token of affection from the entire membership of the regiment. In receiving it the chaplain took occasion to say that this was probably the last time he would appear in camp with them as their chaplain.

The competitive drill for the Tyler cup was postponed, as the judges did not put in an appearance.

This afternoon very few visitors were on the ground to see the battery drill and artillery movements.

Governor Morris did not arrive at camp today, but will be here early Friday morning.

Death of Col. Frank W. Whittlesey.

MIDDLETOWN, Conn., Aug. 24.—Col. Frank W. Whittlesey died at his residence on Court street at 10.30 this morning, aged 66. He was a veteran of the late war and had a brilliant army record. He participated in the battles of Bull Run and Malvern Hill. He was twice wounded. He was the first provost marshal appointed in a southern state. He was a member of Mansfield post, G. A. R.

FASTEST YACHT AFLOAT.

She is the Columbia and is Owned by a New York Man.

PHILADELPHIA, Aug. 24.—The steam yacht Columbia, which was launched here yesterday, is intended to be the fastest pleasure craft in the world. The Cramps some months ago undertook to build a crack yacht for J. Harvey Ladew of New York.

Under the agreement the Columbia was planned 180 feet on load-water line by 22 feet beam and 13 feet moulded depth, her trial draught of water being ten feet and her corresponding displacement 436 tons. She is powered by a four-cylinder triple expansion engine of about 1,500 indicated horse-power under forced draught, and the Messrs. Cramp guaranteed her to develop 18 knots an hour over the course of the American Yacht club, from Larchmont to New London, a straight-away run of 80 knots.

The Columbia is, in proportion to her displacement, the highest powered private steam vessel in the world, and all her appointments and fittings are of the most modern and approved character. Her electric light plant, in particular, presents certain features of excellence not hitherto applied to marine work.

It was hoped to have the yacht in commission in time for the international race on September 26. Delays occurred, and it is expected now that she will be delivered to her owner in New York complete early in October.

THE "YELLOWS."

Essex Peach Trees Ordered Destroyed—Laden Trees Condemned.

ESSEX, Conn., Aug. 24.—Peach growers here are much exercised over the visit made this week by Inspector Hubbard, who ordered the destruction of some of the best and thriftiest trees in the orchards. It is claimed that it is not the yellows that ails some of the trees condemned, but the dry weather. At Representative E. W. Griswold's orchard eleven trees were condemned, most of them laden with ripe fruit. At Charles Bonsall's orchard sixteen trees were ordered to be cut down and at Heber Scovill's, whose orchard is situated near the Valley railroad station, seven trees were condemned.

The owners of the orchards claim that they have been to too much expense and trouble to raise the trees, and now, as they begin to bear fruit, they will have to be destroyed. It will be the means of discouraging farmers from planting fruit trees.

SPRINGFIELD RACES POSTPONED.

Knocked Out by the Storm—Programme Goes Over for Day.

SPRINGFIELD, Mass., Aug. 24.—The Hampden park races have been postponed until tomorrow because of the storm. The full programme for today will be carried out Friday, and Friday's races will take place Saturday. The track is likely to be heavy for the remaining days of the meeting.

Fire at the Hartford Cab Company Stables.

HARTFORD, Conn., Aug. 25.—At 2 o'clock this afternoon an alarm from box 24 called the fire department to a blaze in the stables of the Hartford Cab company adjoining the American hotel. The fire was started in the hay and straw loft, directly above the horses. The cause of the blaze is unknown, but it is suspected that a couple of cross wires set the fire to the hay and straw.

All the horses and carriages were taken out before any damage was done to them. The hay and about three tons of straw were destroyed. The loss will not amount to a great deal. The property was insured.

Tug Burned During the Gale.

MIDDLETOWN, Conn., Aug. 24.—About 9 o'clock this morning, when the gale was at its height, fire broke out on board the tug J. Warren Coulston, lying at the dock at the foot of Center street. An alarm was sent in, but the firemen were unable to do much toward saving the boat. The machinery, and in fact everything except the hull, is practically ruined. The crew barely escaped. They lost everything they had on board except the clothes they wore. When they retired at 10 o'clock everything was apparently all right. The loss will reach several thousand dollars, and is covered by insurance.

Father and Three Sons Barely Escape Drowning.

HARTFORD, Conn., Aug. 24.—Joseph P. Smith of this city and his three sons had a narrow escape from drowning early this morning in the Connecticut river. They were returning home from a fishing excursion and during the gale their boat was capsized. Their escape was a miraculous one and was only effected by the coolest kind of proceedings on the part of the father and sons.

Employes of Louisville & Nashville Inclined to a Strike.

NEW YORK, Aug. 24.—A Nashville dispatch says:

Indications continue to multiply that there will be trouble on the Louisville & Nashville railroad unless it recedes from its announced purpose to cut wages for an indefinite time.

HOW BISHOP M'MAHON'S

Successor Will Be Chosen by the Bishops.

Now that the diocese of Hartford is without a head it may be interesting to know how Bishop McMahon's successor will be chosen. The diocesan "consultors" (members of the bishop's cabinet) and the "irremovables" (parish priests holding their pastorates by the good-behavior tenure, and not merely at the bishop's pleasure) will meet and prepare a list of three names to be submitted to the holy see. The list is in this form:—

J. Smith, dignis.
T. Brown, dignior.
F. Robinson, dignissimus.

The priest described as "dignissimus" (worthiest) is the first choice of the majority; the "dignior" (worthier) is their second choice; the "dignus" (worthy) is their third choice. The list will be forwarded to the metropolitan of the province of which the diocese of Hartford forms a part—Archbishop Williams of Boston.

The archbishop will convene the surviving bishops of the province, who will prepare a similar list of their own. It may contain all the names on the Hartford list in the same order or in a different order; it may contain one or two of them: it may contain none of them.

Both lists will be forwarded to Rome, and Rome in due time will appoint the new bishop and issue letters apostolic for his consecration. He may be one of the three men named by the bishops; he may be one of the three named by the priests; he may be a man not named by either. He may be a priest of this diocese or of some other diocese. The holy see is not limited nor conditioned in its choice, and its choice is final.

FATAL ACCIDENT AT WILLIMANTIC.

John Sheehan's Life Crushed Out by a Falling Elevator

AT LINEN CO.'S SPOOL SHOP.

Several Ribs and Left Arm Broken and Otherwise Injured.

WILLIMANTIC, Conn., Aug. 24.—John Sheehan, aged 21 years, who lives with his father, Michael Sheehan, at No. 23 Temple street, started to his work at the Linen company's spool shop with a light heart Thursday morning, little dreaming that it was his last morning on earth, but the events proved that the grim messenger death was just as inevitable as ever, and now the poor unfortunate young man lies cold and stiff at Undertaker Killowrey's establishment.

He was employed by C. G. Billings, superintendent of the spool shop, and had occasion to go to the elevator about 9 30. He was on the lower floor and the elevator was in one of the upper stories. He started the elevator down and the next seen of him he was lying on the floor crushed and bleeding. Dr. Wm. Perkins was telephoned for as was also Medical Examiner Dr. C. J. Fox. Nothing could be done for the young man and he breathed his last in a short time. It was discovered that aside from a horrible scalp wound and other disfigurations of his head, several ribs were broken, left arm broken in two places and otherwise injured. Death was attributed to concussion of the brain.

Just how the accident came about is not known, but one supposition is that a spool caught between the elevator and the side of the well, and as the cable continued to unwind the elevator suddenly dropped and caught the young man before he could realize his perilous position. It is supposed he was looking up the well to see where the elevator was when he was struck. Medical Examiner Fox deemed an inquest unnecessary in justice to all concerned, and after delivering the body over to Undertaker Killourey, he telegraphed to Coroner A. G. Bill of Danielsonville, who will come to Willimantic at 9 o'clock this (Friday) morning and hold the inquest in the town hall. Judging from all accounts, no blame can be attached to either the company or any of its employes.

Colored Democrats Convene.

WASHINGTON, Aug. 24.—The conference of the national negro democratic associations begins today.

The conference is held to bring together all factions of the negro democracy, and to formulate plans for state campaigns.

A Conflagration Raging at St. Louis.

ST LOUIS, Aug. 24.—The Western brass foundry, corner of 6th and Walnut streets, has just been destroyed by fire which is still raging.

The Standard theater and other valuable property is threatened. The loss will be very heavy.

Powers Brothers have today choice Block Island bluefish, small Greenwich clams, lobsters, salmon, halibut, etc.

Murphy & McGarry invite the public to call at their store and examine their stock of men's and children's clothing.

The Manhattan Clothing Co. advertise the celebrated castbustem pants. Also bargains in suits. See advertisement.

Everything that the traveler needs in the way of trunks, bags, straps, etc., can be found in great variety at the store of Alling Brothers.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

An Old Courier.

Mr. George Charvano of Greeneville is the fortunate possessor of a copy of THE NORWICH COURIER dated January 15, 1817. Needless to say its coarse, yellow paper and frayed edges are in striking contrast to the bright, clean, wide-awake issue of which it was the forerunner. It is brimful of interesting, old-time items, however, not the least striking being an advertisement headed "Plainfield Meeting-House Lottery," and a conspicuous notice of the running away of an apprentice girl named Sally Thayer, aged 16. Whoever would return her was promised "one cent reward and no charges paid." It also contains poetry of interest, and an article on the proposed changes in the national flag.

PRESIDENT LUCIUS TUTTLE.

He Accepts the Call to the Boston & Maine and will Assume Control Oct. 11.

Lucius Tuttle, president-elect of the Boston & Maine, was married in Norwich in October, 1875, to Miss Estella N. Martin. Mr. Tuttle was born in Hartford, March 11, 1846, and entered railway service as a ticket clerk in August, 1865. For two years he was general ticket agent at Hartford of the Providence & Fishkill, subsequently becoming general passenger agent of the N. Y. & N. E., a position which he held for a year. From 1879 to 1885 he was in the employ of the Eastern R. R. first as general passenger agent, then assistant to the general manager. Later he served as general passenger and ticket agent of the Boston & Lowell,—from '85 to '87, transferring in the latter year to the Canadian Pacific R. R. as passenger traffic manager in Montreal.

In 1889 Mr. Tuttle was appointed commissioner of the passenger department of the Trunk Line association, holding the position about a year. From there he went to the N. Y., N. H. & H., as general manager. He will enter on his duties as president of the B. & M., Oct. 11. The salary tendered him is $35,000 a year.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

FURIOUS GALE

A Southeaster That Broke a Twenty Years' Record.

Trees Uprooted—Limbs Twisted Off—Streets Barricaded.

Telegraph and Telephone Communication Cut Off—Steamers Kept at Their Wharves.

The northeasterly storm that broke upon this region Wednesday afternoon gave no sign of the furious southeasterly rain and blow that was following in its wake, and it was only when the slumberers were awakened at 3 o'clock Thursday morning by the roar of the winds and downpour of the rain that they realized that an August storm of unusual fury was sweeping over this region of country.

The early risers found that the storm had blown over trees and twisted large limbs from shade trees in all parts of the town, some of the streets being barricaded with debris.

The great elms on East Main street were twisting and writhing in the wind, and the street beneath was littered with limbs and foliage, some of the limbs being as large as a man's body. One of these large limbs fell with such force upon the live trolley wire that it broke away the guard wires and carried the trolley to the ground.

When the first electric car from Greeneville came to the city it could not pass through East Main street on account of the broken limbs, and this trolley wire, with its 500 volts of electricity sending artificial lightning over the adjacent limbs and foliage, sizzling and snapping as it went, and giving off brilliant sparks as a symbol of its power.

Street Commissioner Burton and Mr. Osborne, the electric light station man and Superintendent Shaw and his men were all at work there for an hour or two picking up the limbs, clearing the broken and dangerous limbs from overhead, untangling the wires and getting the hot and sizzling live wire into place and replacing strong guard wires beneath the trolley, and soon had the line in safe and running condition.

Axes were carried on all the electric cars at and at several places where trees or large limbs of trees had fallen across the electric car tracks they were cut away for the cars to pass.

The tremendous winds of the morning wrenched from some of the stateliest trees of Norwich mighty limbs and uprooted shade trees that had withstood the squalls and fury of a half century of storms.

Shutters were twisted from their hinges, fruit blown from the trees, and the crops and the flowers in the gardens were laid low, and everywhere the crushing effect of the gale was apparent.

Central avenue, from the top of Schofield hill, was strewn with branches and was a continuous carpet of green. Above Hickory street a mighty oak tree was split in two, but fell without any damage.

Near the residence of Henry M. Durley a tree was snapped off near the ground by the wind.

A tree fell on North Main street, just below Second street. At the head of Second street one of the elms that form the beautiful bower to the church was uprooted, shortly after 6 o'clock, and fell with a crash on the house of G. I. Henry. His daughter, who had been sick all night, was made dangerously ill with terror. No damage was done to the house, and a gang of men worked all morning hewing down the mighty trunk.

Near the First Baptist church, Fairmount street was blockaded by a fallen tree. A large elm near Dunham street, and another near the home of Rufus Marshall on West Main street were blown down and hindered travel. A handsome elm on the River avenue side of Laurel Hill park lost its best branch during the night.

In front of ex-Consul Ruggles' residence on East Broad street a fallen tree barricaded the highway. In General William G. Ely's yard a handsome shade tree was despoiled of all beauty by the loss of a huge limb.

At the Rock Nook home a veteran ash tree of 75 years, three feet in diameter toppled over into the yard.

An apple tree in the W. W. Backus hospital grounds was torn up, and in the old city cemetery a willow was laid low.

A pretty shade tree was blown over in front of Mr. George D. Coit's on Broadway and another in front of the residence of Arthur H. Brewer on Broad street.

In the garden of Mrs Charles Spaulding on Broadway a large apple tree, a plum tree and a vine entwined shade tree were wrenched from the soil.

It is useless to try to enumerate the trees torn up by the roots in this vicinity. More than a thousand were probably uprooted in the track of the gale in Eastern Connecticut.

The excursion boats did not leave their wharves and all communication with the outside world by telegraph and telephone was cut off.

The trains were all late and the mails from New York did not reach the city till 6 o'clock in the evening.

At New London.

The velocity of the wind, as measured by Observer Lazenby, was 50 miles an hour, and at Block Island the gale blew at a 90-mile-an hour gait.

The harbor was a lively spot. Low hanging, gray clouds blotted out the Groton hills, and the wind-swept river was an inhospitable place for the anchored yachts, sloops and schooners, as with bare spars they rocked wildly upon the white capped waves.

The City of New York left her wharf only to anchor down stream. The Summer Girl and Munnatawkett remained creaking and straining at their docks, and the anchored Manhansett also see-sawed in her place, the tossing waves up to her guards.

The Col. Ledyard came over from Groton side because her captain considered the New London pier safer, only to spend an hour in landing, and to tear her slip to pieces, and bump up and down in the fierce sea with broken windows, and demolished sides.

The electric cars were running during the day and over a thousand people went down to see the breakers.

The New York steamers found the sound the roughest in years. The New York just before reaching Bartlett's reef lightboat parted her port rudder chain and for a time was at the mercy of the waves.

Capt. "Clev" Gorr, who was in command, was equal to the emergency, and after firing several guns to notify the residents on shore that he needed assistance, he put his men to work and succeeded in temporarily connecting the chain. He then made his way slowly and surely reaching his dock in safety.

While the New York was battling with the waves, Charles Bard of Norwich, a cottager at Eastern Point, called up Agent Prentis by telephone and the latter was about to set out with tug Gertrude of the Thames Towboat company, when the New York was observed making her way into port.

There were many collisions in the harbor and a great many small anchored boats were blown from their moorings and cast upon the shore.

Trees were uprooted and blown down in several sections of the town, one in front of Mrs. H. S. Chappell's, corner Federal and Union streets, one on the Mason lot, Jefferson avenue, and another in front of the old umbrella factory, Hempstead street.

The telegraph wires were down in all directions and no communication from stations along the railroad could be had beyond Niantic.

Ten Vessels Ashore Near Niantic.

At Niantic Thursday morning the scene was indescribably grand, having been wild and terrible all day. One schooner which went ashore during the night lies with a broken back going to pieces, and in the bay a big three master is thumping away on the bottom.

The Morton house wharf is pretty nearly gone, and the oldest inhabitant can recall no such sea as has been rolling in all the morning. Ten sloops are reported ashore between Niantic and Crescent beach.

At Watch Hill.

The surf at Watch Hill was beyond description. It broke along the bathing beach shore at such a height as to completely envelope the steamer Block Island's wharf, which stood the fury of the surf all day without apparent injury. The sea swept the bathing beach clean of sand, and it is now only a mass of huge pebbles.

The sea on the outside ran high and broke far upon the beach. Two gentlemen who were walking on the beach and marvelling at the grandeur of the scene were surprised when a large bluefish was tossed high and dry upon the sand. They captured him and he weighed nine pounds.

A look-out was kept for wrecks at Watch Hill but not one was to be seen between Lighthouse point and Noyes' beach.

At Westerly.

The storm was the most severe one for many years. The trees suffered badly, and many limbs were broken from the trunks. On Elm street it was almost impossible to get along, there were so many branches in the road. Some of the electric light wires were also blown down. The large tree at the corner of Canal and Pleasant streets was completely split in two.

The boats to Watch Hill ran all day and were crowded with passengers who went to see the breakers. The fire wall between the West Side Woolen Co.'s mill and Maxson & Co.'s planing mill was stripped of a portion of its covering of tin.

At Willimantic.

During the severe wind storm Thursday morning billboards, chimneys, trees, outbuildings, etc., were blown over and much damage done.

Damage at Stonington.

Stonington harbor was filled with boats Thursday morning, all of them having been driven to shelter by the storm. Among the yachts was one having on board Dr. R. P. Keep, George Palmer and Robert Perkins, who had set out for a cruise the day before. The man in charge of the boat waked them early in the morning with the intelligence that an anchor chain had broken and the boat was dragging the remaining anchor.

All of the party gathered on deck while the storm carried the boat along the flats and the captain forced her bow on a ledge. Here the boat was wedged in, and by means of a rope from shore all were safely taken to land in a rowboat.

Several sloops were damaged and a schooner beached in the upper harbor. No boats went to Watch Hill on Thursday.

STONINGTON POINT.

City Cousins—Bluefish Nearby—The Selectmen to Pay Out $7,000—Obstructions Being Removed from Pawcatuck River.

The steamer Watch Hill took a large party on a moonlight sail Tuesday evening. The excursion was under the supervision of the Stonington Free Library, and was a thorough success.

Antoine Williams caught a ten pound bluefish near Watch Hill reef Tuesday, and our fishermen now feel encouraged to think there will soon be plenty nearby.

The borough still retains its full quota of summer guests, the place being taxed to the full extent of its capacity to entertain. Many of the visitors are "city cousins," who will pay for their entertainment in like kind next winter.

The sloop Island Belle encountered a heavy gale off No Man's Land, Monday, and had her mainsail badly torn. She made the harbor here in a badly demoralized condition.

The velvet factory here is working full time, and have large orders ahead which will keep the machinery in motion for several months.

The selectmen have voted to call in and cancel town orders to the amount of $7,000. There is a surplus of $14,000 now in the treasury.

Mr. J. B. Moore of New York is spending his vacation in the borough.

Mr. Eugene Edwards of Chicago is at the parental mansion.

The United States steamer General Warren with barge A. R. Vrooman, in charge of Inspector McManus, are now engaged in removing obstructions from the Pawcatuck river, between here and Westerly.

A FINE OYSTER SET.

Good All Through the Sound and on All Kind of Prepared Bottom.

Oyster cultivators feel very jubilant at the fruitful condition of their grounds. The set is capital. Never in the history of the business has there been such a fine outlook for Connecticut seed producers. From Port Chester to Branford the examination of the oyster beds made within the past few days by growers show that the shells and beds are completely covered with spat. So prolific is the seed that even where North river crushed stone and Long Island pebbles have been used in catching spawn the beds are literally covered with signs that the set is taking.

The unusually good set is attributed to the hot weather coming just in the right season of the year when the oysters began to make the spawn.

A peculiar feature about the set is the fact that all the beds are covered with seed, no matter what kind of stuff was used in cultivating the acquaintance of the spawn. Those who have used crushed stone at $1 a ton or pebbles at 50 cents a ton, have equally as promising a set as those who have covered their grounds with oyster shells, scallop shells, and dredgings.

FURY OF THE BLAST!

Cuts Off New England From the Outside World.

TELEGRAPH WIRES ALL LAID LOW.

The Officials Call It a West India Hurricane.

BOSTON, Aug. 24.—The department of weather at Washington designates this storm as a west India hurricane.

Whatever it may be, or wherever it may have come from, there is every indication that the storm has done a great amount of damage on the southern New England coast, and as soon as the wires are in service the details of the ravages by wind and rain will make interesting if not altogether agreeable reading.

There is not a telegraph wire connection with New York from this city, and the Long Distance telephone people say that while they have wires direct to New York the capacity of their service is only about one-half as great as under fair weather conditions.

The Boston weather bureau did not receive any communication from Washington this forenoon by reason of the destruction of the wires, but from intelligence transmitted from Washington yesterday, it would seem that the storm of wind and rain is still south of us, and its full force may be expected later in the day. What Bostonians may reasonably expect to experience during the next 23 hours is

The Tag End of a Hurricane.

At the Boston weather bureau, in the postoffice building, J. W. Smith, the assistant in charge, this morning says the hurricane was first sighted off Cape Hatteras, well out to sea, at 8 a. m. yesterday, when the lowest pressure noted was at Wilmington, N. C.

News from New York, or, in fact, all points south of Boston, is very meagre, and it is supposed the storm has been felt in all its fury on the sound and the coast in that vicinity.

At the Western Union office the wires are reported all down south of Springfield, Hartford and New London, the last wire to New York giving out at 8 a. m.

Trees have been blown down on the wires between Albany and Springfield, Boston and Taunton and Providence and Pascoag, and this being the case the natural inference is that the

Force of the Storm

has been felt most severely in Rhode Island and Connecticut.

They report the eastern wires "O K," and also have connection with Albany, Montreal and all points north.

The postal telegraph company have not a single direct connection with New York and their only communication with the metropolis is by cable by way of Canso, Cape Breton, the landing place of the Atlantic cable.

Their last New York wire gave out at 4 a. m. Montreal, Buffalo, St. John, N. B., and all points north and east are still [illegible]

WIND BLEW A GALE.

Rain Fell in Torrents—Providence Streets Covered With Water.

PROVIDENCE, Aug. 24.—One of the severest storms had here in a long period struck this city at 4 o'clock this morning and the wind for hours blew a gale. The rain fell in torrents and streets were covered with water up to the sidewalks.

The damage is much greater than during the storm of the earlier part of the week. Reports of ruined crops, washouts and stripped fruit trees are coming in from every direction. The gale on Narragansett bay was terrible at times, and at 7 o'clock this morning navigation was at a standstill and continued so for several hours.

The Block Island steamer could not come over, and the New York steamers were all delayed. There was great damage to telegraph service from Providence south, and the service to New York was all broken up from an early hour till 10 o'clock.

Some large plate glass windows on the principal streets were blown in and smashed by the gale. On Fruit hill two barns were unroofed, and in South Providence a vacant house was blown off an embankment.

An unfinished dwelling house was also blown to pieces. The shade trees all over town suffered greatly and in exposed places many were stripped of branches.

In the Pawtuxet valley the storm was a flood and the river is booming. Several mills which closed because of water will now start up.

PICNIC IN A STORM.

Over Four Thousand Children Have an Outing at Providence.

PROVIDENCE, Aug. 24.—Over 4000 poor children of this city and its suburbs were given a free excursion and clambake down Narragansett bay today, the result of a popular fund of over $1000 raised by a local paper.

The rain fell in torrents during the morning and the wind blew a gale, making navigation difficult and dangerous for the excursion boats. An attempt was made to postpone the event because of the storm, but the crowd of children was so great and persistent at the police headquarters that Mayor Potter gave the word to go ahead with the excursion and have another one the next fair day, if necessary to accommodate the number of children. The excursion boat left Providence at 10 a. m. amid the wildest storm in a long time in the bay. At Crescent park the whole 4000 were fed at one sitting.

INSIDE THATCHER'S ISLAND.

Unknown Lumber Laden Schooner Waterlogged and at Anchor.

GLOUCESTER, Mass., Aug. 24.—Schooner Star of the East, which arrived here today, reports passing this morning a lumber laden schooner waterlogged and at anchor inside of Thatcher's island.

No signals of distress were shown, although two men were seen standing on top of the deck load. As the schooner's boat was gone it was thought that the crew had gone to Rockport for assistance.

It was blowing quite heavy from the east, with a high sea and the name of the disabled vessel could not be made out.

REPORTS ENCOURAGING.

Condition of the Dry Goods Market Improved and Demand Greater.

BOSTON, Aug. 24.—The condition of the market for dry goods is no worse than it was, and in some ways it might be called better. The reports from the leading jobbers here are more encouraging, and there has certainly been a better general demand for goods at second hands. The movement in fall goods is more active. Buyers still move cautiously and do not buy much more than they actually need, but they buy more frequently, and there have been more of them operating than formerly. The advices from other markets are also more favorable. At New York the jobbing trade is more active and there is more confidence shown.

The worst stage of the depression is thought to have been passed. From the west and south come reports of more activity in jobbing circles. As yet the agents and commission men have not felt the improvement. Their trade is reported as quiet and with a large amount of machinery still idle, but they must soon experience an enlarged call for goods if the jobbing trade is only decently active. The financial situation continues unsettled but there is a more encouraging tone. Money can be obtained a little more freely than has been the case for several weeks. There is a better feeling also, in regard to the action of congress on the silver question, and a repeal of the obnoxious clauses of the Sherman law is confidently expected at an early day. On the whole, therefore, there is a better market generally for dry goods with the outlook brighter.

The movement in staple cotton goods at first hands has been light. The production is very moderate, as most of the mills are wholly or in part shut down. The demand from jobbers has not amounted to much as they have not yet been forced to buy in any amount. The export demand has been very fair.

HELD FOR GRAND JURY.

Benjamin C. Hosford in Court for Shooting His Wife.

GLOUCESTER, Mass., Aug. 24.—Benjamin C. Hosford of Westfield, who attempted to take the life of his wife in this city on Aug. 3, by shooting her, was brought from Salem jail today and arraigned in the police court. Mrs. Hosford was so far improved that she was able to be present.

City Solicitor Russell conducted the case for the government, while the prisoner appeared without counsel. City Marshal Sylvester offered to furnish him a lawyer, but he refused.

Mrs. Hosford was the first witness. She said she was married to Hosford three years ago at Westfield, and lived at several places with him. She came to Gloucester two weeks previous to the shooting, and lived at Winslow S. Webber's house. Her husband came there one night to see her and induced her to take a walk into a remote part of the city. They talked for some time. Hosford wanted her to go back to live with him, but owing to the bad treatment she had formerly received, she refused.

He then said: "D—n you, you will live with no one else," and fired at her, the bullet striking her on the chin. She turned to run and he continued firing until he emptied his revolver, the five shots taking effect.

Officer Marsh testified to arresting Hosford, who said he had come here to do this job, and that he wished he had killed his wife. During the testimony Hosford sat unconcerned and refused to answer questions put to him by the court. He was held for the grand jury in $10,000.

WOULD EJECT HIS FATHER.

An Aged Saco Jeweler Will Be Driven From Home by His Son.

SACO, Me., Aug. 24.—Charles O. Gerrish, a jeweler, and one of Saco's oldest citizens, is the defendant in an action brought by his only son, William L. Gerrish of Portland, who seeks to eject his father from the homestead, of which the deed is held by the son.

The elder Mr. Gerrish formerly owned one-half of the house and his wife the other half, but the entire property is now deeded in the son's name. The father's lease expired March 15, but as he wished to have ample time in which to change his place of abode, the lease was extended to July 1, since which time the writ of forcible entry has been pending.

Charles O. Gerrish is a brother of Dr. Gerrish of Portland, formerly a member of the state board of health. An attempt was recently made by the brother and son to send him to the insane hospital, but the Saco municipal officers declined to issue the commitment papers.

CHARGED WITH INCENDIARISM.

George S. Ayer Will Be Tried at Session of Court in Fitchburg

FITCHBURG, Mass., Aug. 24.—It is believed that the case of the commonwealth vs. George S. Ayer, now of Hartford, Ct., charged with incendiarism, will be tried at the sitting of the superior court now in session here. Although no indictment has yet been reported, it is understood that one was drawn.

The case will cause a great sensation in the towns of Brookfield and Sturbridge, where young Ayer and his wife have a large circle of friends. The defendant says he is entirely innocent of the charge.

Ayer is about 25 years of age. He is a son of Rev. Charles L. Ayer of Stamford, Conn. For about seven years prior to the fall of 18[illegible] he lived on the large farm owned by his father, located in the westerly part of Sturbridge on the stage road from Fiskdale to Brookfield, and about two and a half miles northwest of Fiskdale.

The buildings on this farm, consisting of a large 3-story brick house, a barn and a shed, were entirely destroyed by a fire on the morning of Sept. 21, 1892, between midnight and 2 o'clock in the morning. Stock, tools and furniture were all burned, including two horses and about a dozen cattle. The value of the property was $7500.

Ayer is at work in a grocery store in Hartford Ct. He is fully aware that he has been indicted, and will surrender himself to the authorities shortly, it is stated, and will plead to the indictment in this city at the present term of the court. Before criminal proceedings had been begun, a civil suit had been projected against the insurance companies, and the law firm of Buck & Eggleston of Hartford had been retained by the Ayres.

Ayer was in Worcester last week, and as soon as he learned of the case being presented to the grand jury, retained Frank P. Goulding to defend him.

REDUCING THE FORCE.

Central Railroad of New Jersey Drops Large Number of Its Men.

NEW YORK, Aug. 24.—The traffic on the Central railroad of New Jersey has decreased to such an extent that it has withdrawn one of its large tugs, of which it used two at night for the towing of floats across the river. One of the night drill engines in the yard, used for drilling freight cars, has also been taken off and its crew dropped. One night drill engine is able to do all the work.

The movement of coal has nearly ceased, scarcely any arriving. In ordinary times from 90 to 100 cars of coal of 20 tons each were towed up the North and East rivers on floats every night. This reduction of force throws out a large number of men, most of whom reside in Jersey City.

Vermont Horse Breeders' Meeting.

HANOVER, N. H., Aug. 24.—The ninth annual meeting of the Vermont Association of Road and Trotting Horse Breeders to be held at White River Junction, Aug. 29, 30, 31, promises to be the grandest exhibition of fine bred horses ever seen in New England. There will be over 700 horses on the grounds, and over $6000 will given in stakes and premiums.

Music at Claremont.

CLAREMONT, N. H., Aug 24.—The ninth annual musical festival of the Western New Hampshire association will be held here next week, beginning Monday, Aug. 28, and closing Friday, Sept. 1. Dr. H. R. Palmer will be the conductor.

A FULL HARVEST.

Seems like a feller'd ort 'o jes' today
 Git down and roll and waller, don't you know,
 In that air stubble, and flop up and crow,
Seein sich craps! I'll undertake to say
There's no wheat's ever turned out that away
 Afore this season! Folks is lawless, though,
 And too fergitful, 'caze we'll ort 'o show
More thankfulness! Jes' looky hyonder, hey?
 And watch that little reaper wadin thoo
That last yaller hunk o' harvest ground—
 Jes' natchur'ly a-slicin it in two
Like honeycomb, and gaumin it around
 The field—like it had nothin else to do
 On'y jes' waste it all on me and you!
  —James Whitcomb Riley.

THE VERGE OF DEATH

There was great excitement at Newall's ranch.

Miss Rose Newell was coming out from the east to visit her father, and the employees of the ranch, with three exceptions, were on the tiptoe of expectancy.

Those three exceptions were old Barton and his wife and James Lyall, or Deacon Jim, as he was more commonly called.

The morning of the day on which Miss Rose was to arrive the cowboys, with the exception of Deacon Jim, spent two hours or more in making preparations for the event.

Deacon Jim alone appeared in his ordinary everyday clothing.

"Why don't you fix up, deacon," some one asked, "and do the honors of the occasion?"

"I don't propose to make a fool of myself," Jim replied, "by parading before Miss Newell like a circus clown. I'm not so anxious to show off what little clothing I own, and I guess she's seen better many a time.

"Humph! Have you fellows got an idea that Miss Newell is going to take any notice of you? It's hardly likely she's going to come out here and get dazzled by such common cow punchers [illegible] a lot of gaudy trappings. I ain't fool enough to make a spectacle of myself and give Miss Newell a chance to laugh at me, you bet!"

When the carriage bearing Miss Rose arrived at the ranch, the cowboys, with the exception of the deacon, stood about the door, each one "with his best foot forward," anxious to be seen by the young lady and hopeful of making an impression on her heart.

That night when Jim came in from the plains they gathered about him, intent on singing the praises of Rose's loveliness.

"I tell you, deacon," Anson said, "you just ought to seen her; I never saw a woman so beautiful in all my life."

"I don't doubt her beauty," the deacon replied, "but what good would it have done me to have seen her? She's not going to care anything for us."

"Maybe you know about that," said Anson, "and maybe you don't. If you had seen her smile when she saw us, you might think differently from what you do now."

"Yes, and she was looking right smart at me when she smiled!" cried Ab Johnson. "I noticed that."

"Humph!" said Anson. "She was looking as straight at me as she could look."

"She wasn't!" exclaimed Ab angrily.

"Hold on now," said Jim. "It isn't worth while for you to fight over that. I can easily believe that she'd 'a' smiled, whichever one of you she was looking at, [illegible] she saw the clothes you had on. It was enough to make her [illegible] I'm sure."

Ab and Anson muttered something, then went away, and the subject was dropped.

From that time on they viewed each other as rivals and were never on good terms again.

A month passed.

Miss Newell proved a very sensible young lady, and though she had grown up under the influences of the highest refinement she adapted herself readily to her new surroundings.

She treated her father's employees with the kindest consideration, laughing and chatting with them with perfect freedom, little suspecting what stress they placed upon every word and every ripple of laughter that fell from her lips.

Anson and Ab both grew more sanguine and hopeful as the days went by, and each in his own heart came to feel assured that he was winning his way into Rose's love.

Deacon Jim had continued on from the first in the even tenor of his way.

He never thrust himself forward at all—never made any effort to gain admission to Rose's society, but if anything rather seemed to avoid her.

A change had come over the deacon too. Always serious, he had become almost melancholy.

He liked to mope about alone or sit for hours gazing thoughtfully into space.

He was in love, though he tried hard to conceal the fact from himself, and for all the world would not have admitted it to any one else.

One morning when the men were preparing to begin the work of the day a dispute arose between Anson and Ab, and as it grew warmer and more bitter the former said:

"When I become a partner on this ranch, you'll go, Ab Johnson, as sure as shooting. I won't have you here."

"When you get to be a partner?" sneered Ab. "When I get to be a partner, you'll go, and don't you forget it."

"You a partner!" Anson said mockingly. "Why, Rose Newell wouldn't have you if you were the last man on [illegible]"

"My notion is you'll both see that you are making fools of yourselves," old Barton observed. "Miss Rose will never have either of you. If I had to name anybody on this ranch that she was most likely to marry, I'd say it was Deacon Jim."

There was a universal roar of laughter at that last remark, and every one seemed to think it a good joke.

"Why," said Anson, "the deacon don't stand a ghost of a show. He ain't shined around her a bit, and they never take any notice of each other, scarcely. You're off, Barton—away off. Jim ain't in it at all."

That day Rose rode with her father across the country, and late in the afternoon was returning alone to the ranch.

When within two miles of her destination, she was aroused from a drowsy reverie by a rushing, surging noise that came suddenly up from behind her like the onsweep of a great storm.

She listened an instant, glanced back, then uttered a cry full of terror.

A little distance away she saw a great herd of cattle in full stampede, sweeping down upon her in one mighty, irresistible mass.

On over the level prairie the horse sped, and on, on, in the rear came the surging sea of horns.

One mile was thus run and part of another, and the girl, bending low over the horse's neck, urged the animal to a still greater speed, while a hope of escape came to her heart.

But at that instant the horse stumbled and fell to its knees, and she was thrown forward to the ground.

The horse recovered its footing and sped away.

She arose, looked about her in a daze of wonder, saw the herd almost upon her, and in a hopeless despair attempted to run, but with a cry of pain she sank down helpless.

She had sustained a sprain and could not support her weight.

She heard the cattle as they swept up nearer and nearer over the hard, dry [illegible].

Another minute would bring them upon her.

She shuddered and covered her face with her hands.

Then she felt a pair of strong arms about her.

She was lifted up and set upon a horse's back.

A man sprang quickly in front of her to the saddle, and planting his spurs in the animal's side swept away at full speed.

There were a few minutes of uncertainty, a few minutes fraught with terror, alternating with hope and despair.

Then it was over, and amid a wild shout from the assembled cowboys the horse halted at the ranch while the herd swept by but a few yards away.

It was Deacon Jim who had saved Miss Newell's life, and everybody agreed that he had performed a brave deed.

Even Anson and Ab admitted that.

Jim, however, considered his act of very little consequence except for the result, and he did not like to hear it men[illegible].

The next morning Miss Rose sent for Jim, and blushing and trembling he went to her room.

She was lying on a couch looking more beautiful than he had ever seen her be[illegible].

She thanked him profusely for her rescue, and showed not only by language but by her looks how truly grateful she was.

How the deacon ever came to say it no one could surmise, and even he could never account for such boldness and audacity.

"Miss Newell," he said, "to do you a service is a glorious reward of itself. To save your life, believe me, is a privilege worth living for."

Then, blushing at his own temerity, he arose to leave the room, but she held out her hand to check him.

Soon it became noised about that the deacon and Miss Newell were to be married in a few days and that the deacon was to become a half owner of the ranch.

This information was not pleasant to Anson and Ab, but bitter as it was they had to swallow it.

"I can tell you how it came about," said old Barton. "She's a girl of sense, and it is not what a man says or the way he looks that takes with her, but it's the way he does. Jim won her by his actions, which appealed to her heart, while you chaps tried to win her by your dress. If it's clothes a girl wants to marry, she can beat taking you fellows all hollow by going to a clothing store and buying a suit."

"Blamed if I don't believe she could!" said Anson.—Boston Globe.

Slavery in Siam.

Slavery in Siam has been abolished in name, but it can never be abolished in fact, for the slaves have no means of supporting themselves outside their masters' houses. Every member of the Siamese upper classes can fetter his servants or throw them into prison without any kind of trial or permission being necessary. One morning I went to call upon one of the ablest and most enlightened of the ministers, a man who has been to Europe, and who once actually got into serious trouble for trying to instigate a sort of woman's rights movement in Siam. I made my way by mistake into a part of his grounds [illegible] visitors were not expected, and I found a slave fastened down to the ground in an ingenious kind of pillory in which he could not move hand or foot, while another slave tortured him with severe strokes of a bamboo rod at the word of a member of the family in order to force him to confess to some misdeed.—Contemporary Review.

Curious Marriage Presents.

One New Jersey clergyman received for a marriage fee in a monogramed envelope a bridge toll ticket of the value of 2 cents. Another got something neatly wrapped in paper. He took it to a grocer, told him that it was a wedding fee, that he had not opened it and did not know what it was, but would give it to him, "sight unseen," for a watermelon. The grocer agreed, the dominie seized his melon, and the grocer found in the paper a silver 3 cent piece. One groom, as he passed out with his bride, threw into a workbasket an old pair of gloves, saying to the minister's wife that she might have them. The minister's wife looked at them with scorn and contempt. A few days later, however, wishing to do some gardening, she thought the despised old gloves might be useful after all. She attempted to put them on and found a difficulty. In every one of the 10 fingers there was a $5 bill.—Trenton True American.

A Ring on His Hands.

"Is Harkins worrying over the fact that Miss de Rione jilted him?"

"No; but it annoys him exceedingly to think that the ring she gave back was purchased at her father's store and paid for, too, by Jove!"—Harper's Bazar.

[illegible]

Miss Azure Hughes—I emphatically deny that the educated woman is ashamed to admit her age.

Giglamps—But all the same I notice she doesn't put her college year after her name.—Vogue.

AN INCIDENT IN REAL LIFE.

Showing How Unpleasant People Can Make Themselves by Their Talk.

I stepped upon a Broadway car at the lower end of Broadway and rode in it along that fast changing highway as far as Nineteenth street. At the corner of Chambers street and Broadway a man of perhaps 40 and a woman not more than 25, he carrying a huge portmanteau, a collection of wraps, two umbrellas and a cane, she leading by the hand a 3-year-old baby, joined the partially crowded patronage already seated. A cloud of dissatisfaction rested upon the brow of the man. The frown of an already born rumpus fast unfolding into fruitage made forbidding and ugly the comely countenance of the woman. Her nervous disposition made itself known to every one in the car and particularly to the little boy as she yanked the child by the arm into the seat beside her. After a moment's silence the woman said, "You might have known how it would be," to which he responded, "Well, I might have known, but I didn't, so shut up!"

Another passenger entered the car at that moment and stumbled over the port[illegible].

"Hang that bag!" said the man.

"If I were you, I would keep my cussing for home," said the woman, and so on and on and on.

The ensuing half hour was passed by these two in a strain which would have done credit to the most pronounced hag in the dirtiest quarters of a third rate fish market. The little boy, thank heaven, went fast asleep. Much of the conversation between the two was inaudible save to the three or four people in immediate contact with them, but every once in awhile the shrill voice of the female bird soared into upper altitudes of defiance, making discordant the entire atmosphere and attracting the attention of nearly a score of people. They got out at the corner of Fourteenth street and Broadway and entered a cab—he sullen, ejaculatory and profane; she keyed up to G in alt, defiant, shrewish, chock full of scold.

Well, what of it? It is not such a very uncommon thing for man and wife—for lovers even, for daily intercourse—to quarrel and to vent serpentlike hisses from the unruly members that wag with curious motion as they distill poison from bitter and jaundiced hearts. It is not so uncommon, I admit, but isn't it always suggestive? I thought as I looked at the man, with a good, square, clean forehead, well marked brows, a clear skin and an air of self poise, that he was hardly doing himself justice. Save that his hands were rude and rough and that his boots were country made, that his portmanteau was considerably older than the ordinary hill and that his umbrella looked as though it might have been utilized by Mrs. Noah when she came from the ark, he was a man of the world in appearance.

And the woman had a pretty face. Her hair was parted in the middle, as women's hair should be, and revealed in its old fashioned brushing a tiny ear, not so small as to indicate utter selfishness, but, on the other hand, not so large as to rival a genuine Saddle Rock oyster in its vulgarity. Her eyes were brown, soft at that; her teeth were regular and clean; her dress was neat, her hands and feet well clad, and an occasional pat upon the boy's shoulder as he lay nestling against her, fast asleep, indicated the feminine nature, the affectionate tenderness of the mother.

Listening under the circumstances was not rudeness. It was compulsory. I sat next the boy. Some of his banana skin ornaments my coatsleeve until this moment. As he lay semicoiled up I noticed the copper nails in the bottom of his shoe and the copper toe upon the same. The group was easily and perfectly within my vision. As word after word fell redhot I thought: How odd this all would have sounded in that shell-like ear five years ago. How strange it would have seemed to the lover had he heard it or had it been suggested to him that ever it could be possible for him to hear such language from such lips.—Howard in New York Recorder.

Reclaiming Old Rubber.

Crude rubber is worth from 40 to 75 cents per pound, and yet a pound of hose or packing costs very much less. This would be hardly practical if it were not for the advances that have been made in the art of reclaiming or recovering rubber, which can be done at the total cost of about 5 cents per pound. There are several large factories in the country devoted solely to this purpose, and a great many manufacturers do recovering on a small scale at the cost of the production of new goods.

[illegible] goods are placed in large tanks at the place of reclaiming. A solution of muriatic or sulphuric acid and water is poured upon the waste, and the whole set to boiling by a system of steam pipes passing through the tank. After 10 or 12 hours' boiling the cotton fiber, which is found in all rubber manufactures and which is the serious drawback in the reclaiming process, disintegrates and falls into a powder, and there is no difficulty then in the use of the waste.—New York Telegram.

Leigh Hunt's Breakfast Bouquets.

Leigh Hunt, that early day esthete, declared breakfast to be the meal of all others when the poetic influence of a table posy was most to be desired. He would bring in a few clover heads or sprigs of grass culled from beneath the protecting bars of a park railing or city square if he could find nothing more beautiful, and with these to look at his fancy took him roaming out into boundless green fields and pastures new.—Chicago Tribune.

How Some Girls Walk.

Some girls walk gracefully. They make "good time" over the pavement, but their movements are not abrupt nor awkward. There is no apparent effort in their locomotion. Some girls are now affecting a man's stride. The imitation is a ludicrous failure. Other girls are trying an odd kind of turn of the shoulders that gives to their appearance a top wobble and a lower swing.—Exchange.

Getting Even.

Artist—Miss Brownie-Brown-Brown, who is to marry a prince, won't let us have her photograph for publication.

Editor—She won't, eh? Tell the foreman to use one of those cuts labeled "Before Taking."—New York Weekly.

EYEBROW AND NOSE.

How Character May Be Studied From Features of the Face.

The "rainbow of peace," as the eyebrow has been called, and the eyelids are treated of at considerable length as being among the most expressive, animated and mobile features of the face. In fact, so highly are they extolled that one is almost forced to think that a person possessed of nothing else but a pair of symmetrical eyebrows could easily express his desires or his emotions, no matter how complicated these might be. Highly arched brows are said to denote vivacity and brilliancy, but not the power of profundity that are allied to the more level kind. Regularly curved eyebrows are said to express cheerfulness; square, deep thought; irregular, fickleness, versatility, excitability; raised at the inner corner, melancholy; joined over the nose, an unsettled mind.

Andamantius likened individuals with thick eyebrows which met over the root of the nose to swine. This might by some be considered actionable, but these would do well to remember that Andamantius is no more. Thick and bushy eyebrows are supposed to denote strength and energy on the part of their possessors, while the contrary development indicates delicacy, refinement or merely weakness, which is hardly a satisfying diagnosis. A lack of eyebrows is not considered a sign of mental strength. The eyebrows and the eyelids are on terms of close intimacy, and the form of the former is connected with the opening of the latter. Only in the romantic novel are black eyes to be found. By those who have studied the question deeply four primary shades of color are recognized. These are brown, green, blue and gray, and each of these has five tones.

It is considered a somewhat singular fact that the rarest of all noses is that found in the middle of the face, and taking 100 noses at random one will not find on an average more than three in which the bridge of the nose descends perpendicularly from a straight line drawn exactly between the eyes. A well proportioned nose, according to most authorities, should take up one-third of the profile, measured from the commencement of the hair to the tip of the chin. Napoleon used to say that a long nose meant a long head; therefore the longest headed club in London should have been that whose members were elected for the length of their noses, the chairman having the longest nose and the hall porter none. A long nose is generally considered the mental superior of a short one.

Hogarth classified noses as angular, aquiline or Roman, parrot beak, bulbous or bottle, straight or Grecian, turned up and snub. Other kinds, which may be added or not according to taste, are mixed and broken. An unduly red nose does not necessarily indicate that the wearer is a toper. It may be due to tight lacing, indigestion or emotionality of temperament. There are also other ways of explaining the trouble. The smile is purely human, as brutes are unable to elevate or depress the corners of the mouth as a means of expression. As is the case with almost every other feature of the face, physiognomists are found who claim that the lips are of all features the most susceptible of action and the most direct indices of the feelings. These champions of the mouth maintain that every shade of feeling can be described by the lips with more facility than by any other feature.—Pall Mall Budget.

After Due Consideration.

In Illinois there is an old law on the statute books to the effect that in criminal cases the jury is "judge of the law as well as the facts." Though not often quoted, once in awhile a lawyer with a desperate case makes use of it. In one case the judge instructed the jury that it was to judge the law as well as the facts, but added that it was not to judge of the law unless it was fully satisfied that it knew more law than the judge. An outrageous verdict was brought in, contrary to all instructions of the court, who felt called upon to rebuke the jury. At last one old farmer arose.

"Judge," said he, "weren't we to judge the law as well as the facts?"

"Certainly," was the response, "but I told you not to judge the law unless you were clearly satisfied that you knew the law better than I did."

"Well, judge," answered the farmer as he shifted his quid, "we considered that p'int."—San Francisco Argonaut.

One Woman's Courage.

A story is going the rounds of a little woman who was seated behind a gorgeously dressed beauty at a theater in the metropolis whose balloon sleeves completely hid the stage from the victim in the rear. She sat on first one foot, then the other, but in vain; no glimpse of the play could she get. After a whispered conversation with her husband came the tragedy. Without a word of warning that wee woman quietly rose, gently but firmly laid her hands upon the winged shoulders of her obtrusive neighbor and pressed her green and red ruffles as far down as they would go. People who saw the operation gasped at the transformation. The victim wisely accepted the situation and remained in subjugation until the "Prodigal Daughter" ignominiously returned to the fatted calf.—New York Recorder.

When you make a mistake, don't look back at it long. Take the reason of the thing into your mind and then look forward. Mistakes are lessons of wisdom. The past cannot be changed. The future is yet in your power.—Hugh White.

The first military order issued by General Grant, dated July 2, 1861, and appointing Colonel E. T. Dawson quartermaster of the Twenty-first Illinois, is in possession of Colonel Dawson, who is said to have refused $2,000 for it.

The last words of John Locke were, "I have lived long enough, and I am thankful I have enjoyed a happy life; but after all look on this life as nothing better than vanity."

The largest private collection of minerals in America is supposed to be that of Clarence L. Bement of Philadelphia. Its estimated value is $125,000.

Duval, the Paris anarchist, said he should like to shake somebody's hand before he died, and that was all, but his sentence was commuted.

What a Young Man Did.

A college graduate had hardly received his diploma before he was compelled to face poverty and family disgrace. His father, who had been reputed to be wealthy, was an embezzler and a fugitive from justice. His mother and sisters were entirely dependent upon his modest earnings in a broker's office.

He had planned taking an advanced course of professional study in architecture. His ideal occupation had to be abandoned. He was in love with a charming girl, but ceased to visit her since marriage was out of the question. An opportunity for a year's travel in Europe at a friend's expense was given up.

Year after year he maintained a hard, bitter struggle to make a living at uncongenial employment for his mother and sisters, to support his father abroad and to overcome prejudice caused by the family disgrace. He became a successful business man, but was prematurely gray at 40. His life was haunted by the ghosts of his youthful hopes.

Such lives do not furnish material for exciting stories. They are dull and prosaic, but are nevertheless heroic. To give up all that is dear to youth and to be loyal to family obligations sometimes is a crowning triumph of unselfishness.—Youth's Companion.

Many Ministers Present.

Ex-Secretary Lincoln, while United States minister to England, wished to get into Westminster on the occasion of a special service there. Archdeacon Farrar had told Mr. Lincoln to go to the east door of the cathedral to avoid the crowd and to inform the usher that he was the American minister, so that he could be conducted at once to the archdeacon's pew. When Mr. Lincoln sent in his name and title, the usher came out and said, with surprise, "For gracious' sake, how many American ministers are there?" It seems that several gentlemen of the cloth had each deftly made his way into the church by informing the usher that he was an American minister.—San Francisco Argonaut.

What Could He, Indeed?

A group of women in China got hold of a fashion magazine from the United States. After examining it carefully for some moments one of the number said to a missionary who had been talking to them against "foot binding:" "China women pinch foot. You say China woman vally bad. Melican woman not pinch foot. Melican woman pinch here," laying her hand on her waist. "Life here, life not in foot. Melican woman vally much more bad than China woman." What could the missionary say?—Louisville Recorder.

Five Years' Bank of England Paid Notes.

The stock of paid notes for five years in the Bank of England is about 77,745,000 in number, and they fill 13,400 boxes, which if placed side by side would reach 2¼ miles. If the notes were placed in a pile they would reach to a height of 5½ miles, or if joined end to end would form a ribbon 12,455 miles long. Their superficial area is rather less than that of Hyde park. Their original value was over £1,750,626,600 and their weight over 90½ tons.—London Tit-Bits.

Followed Plenty of Advice.

A Connecticut farmer who wished to paint his barn asked all his neighbors what would be the best color. He accepted the advice of every one of them, and there never was a barn that showed as many colors as this one when the work was done.—New York Times.

A Siamese Ceremony.

The removal of the topknot of a Siamese prince, which indicates that he has reached manhood, is accompanied by imposing ceremonies which last several days. The governors of all the provinces are expected to be present with gifts.—Philadelphia Press.

THE SOUTH RIDES AGAIN.

The south is not to blame for being elated. It hasn't been in the saddle politically since the days of James Buchanan until now. It has captured over half of the chairmanships of important congressional committees, has throttled the pension bureau and the pensioners, and is riding over the north in its old ante bellum form. It is sitting in the saddle with both feet in the stirrups and with the bridle in hand. The mule looks a bit jaded. Its forelock is braided and tied up with a pink ribbon, but there isn't brush enough on the end of its tail to kill a Jersey mosquito. The northern democrats salaam before him like the Hindoos before a sacred bull. He belongs to the party as well as the rider, and must be received in due form. The northern democrats expected more, but for the sake of victory and peace they have accepted less. The south has captured most of the consulates, most of the congressional places of influence and honor, most of the cabinet offices, most of the commissionerships, and New England's democracy has ceased even to feebly protest against it. The south is in the saddle and the coon is up a tree.

MURPHY AT CAMP MORRIS.

Francis Murphy, the temperance orator, is at Camp Morris. He was as well received as any distinguished citizen would be. The newspaper alarm which followed the announcement he was to be the guest of Col. Cheney seems to have been without cause. It is not as some correspondents write: "Murphy is here, but there is no temperance in it!" for where Murphy is temperance cannot be left out. He is a great advocate of temperance principles and an example of temperate living. Murphy stands for temperance wherever he is. He is at Camp Morris as the guest of an individual, and probably will not speak, unless invited, upon his favorite theme which is opposed to many of the soldier boys' favorite beverages; but if he speaks at all he will not let the aim of his life "be hid under a bushel." It would not harm the soldiers if they should happen to hear one of his special talks; but they will not have to hear one unless it is so ordered. Francis Murphy is a man who observes the proprieties, and he can be entertaining without posing as a reformer; but he talks for a purpose if he talks at all, and that is to help his fellowmen. Should he speak all may be sure that he will say something pleasing which will be worth remembering, and which will work for good in the future lives of some of those who hear him.

THE PROFESSIONAL LOAFERS.

These are trying times for the professional loafers as well as for the workingmen. They do not know exactly what they shall do. They do not earn anything, but they consume considerable, and depend upon artful ways to get the living which "the world owes them." The generosity of the workingmen is their sole reliance to support certain luxurious habits. They can't drink wine or beer, or smoke good cigars if he gets short of cash. They can hang out at the saloon, talk chipper, look trustful, genial and companionable, but they can't get trusted. They can't get treated as much as they could when they could hear the whirr and the buzz of the wheels of industry. The workingman who always treated is getting short of cash himself. He isn't treating, and the loafer is in danger of being evoluted above his station by compulsory abstinence. He is going home thirsty and sober at night, but he feels as though the world was against him. He favors free coinage, free beer, free lunch, and wonders why his millenium isn't in sight as well as Lieutenant Totten's. If things do not change life will soon become to him not worth living.

SPEEDY JUSTICE.

The officials of Massachusetts do not loiter with cases of petty criminals, whatever they may do in capital offenses. The Abington riot case reached the district court in that place on Wednesday and the three officials of the Old Colony road who defied the authority of the town officials and created a riot last week, were found guilty of riotous conduct and sent to the house of correction for one month. They were a superintendent of division, a detective and a roadmaster. Under the circumstances they did not consider it worth their while to appeal and gracefully submitted to the incarceration and disgrace. No men ever deserved to be punished more than they, and it is gratifying to know that in one state in the Union violators of law with a corporation back of them can be almost as speedily convicted and sentenced as a drunkard or a chicken thief.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

EDITORIAL COMMENT.

Congressman Walker pronounces the demand for the free coinage of silver a rebellion against human progress.

The Chautauquans grow faster than the ailanthus tree. They have added 400 circles to their educational growth the past year.

If congress could blow out as quickly as a furious southeasterly gale, the country could stand the breeze, for what it did it would have to do quickly.

The Valkyrie is on her way to America from Europe but the American cup defender has not yet been selected. It looks as if the Vigilant would be awarded the place of honor

There is talk now that congress will adjourn by the middle of September. If it would promptly do its duty it would find no difficulty in getting away September 1.

Wonder what Carter Harrison will do when the congress of religions meets in Chicago? That is something not in his line, and he won't be able to tell whether to call out the police or the fire department.

When the president pulls up a Buzzard's bay scorpion, all horns and fury, he must be reminded of Uncle Jerry Simpson, as he reviews his message on the silver question!

The Boston Globe thinks: "It makes a difference to a man whether his salary gets raised or razed." Under the democratic change 900,000 workingmen have had their salaries razed! The democratic party will find out that it does make a difference!

The Springfield Union must believe in faith cure. It says: "Let's all believe that the financial situation is improving. That will help!" Wonder, if we should all believe one-dollar notes would rain down to the amount of $30,000,000 to take the strain from the currency, if that would help, too!

"There was a congressman," says The New Haven Palladium, "commonly known as the watchdog of the treasury. Where is that alert canine of the national finances now?" That dog has a fit of despondency. His owner's name is not on his collar so he does not dare to appear, lest he should be mistaken for a dog that is mad!

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

VOICE OF THE PRESS.

Those We Welcome.

A gang of foreign longshoremen in Jersey City struck the other day because they "would not work with Americans." They swore that they would not return to work until all the Yankees employed on the piers were discharged. It is scarcely necessary to say that these fastidious aliens are still gentlemen of leisure.—[Boston Journal.

A Unit for the Country.

It is worth while to place on record now the fact that senators and representatives from New England, without distinction of party, are in favor of the Wilson repeal bill, and are ready to vote for it as soon as the opportunity is afforded them. On minor questions all these congressmen usually vote with their party associates, but on great issues like the one now pending they and their constituents ignore partisan considerations and cast their votes as a unit for the greatest good of the country.—[Worcester Spy.

If It Was Only!

Have you thought what a pity it is that the working people and others who were inveigled into the endowment associations had not taken the advice of the insurance commissioner of the state and left alone those unsound institutions, which have robbed their victims of many millions? If the money thus invested was only now standing to their credit in some good savings or co-operative bank, how happy many thousands would now be!—[Fall River News.

Shortest May Be Best.

It may turn out that some of the best speeches on the silver question will be made under the five-minute rule. It is a mistake to suppose that forceful speeches must be long ones. The reverse of this is more often true.—[Boston Journal.

As It Was and As It Is.

On July 16, 1892, the cotton manufacturers of Fall River voluntarily agreed to raise the wages of all their hands 3½ per cent. and decreased the hours of labor one hour per week. In August, 1893, the same [illegible] mill managers propose to reduce wages 10 per cent. This is a specimen of the "change."—[Springfield Union.

The Difference.

The difference between Senators Vest and Voorhees is apparent rather than real. Both of them want free coinage, but Voorhees is willing to sweep away the Sherman law first and take his chances of getting what he wants afterward, while Vest will take no chances, but insists on simultaneous action.—[Boston Journal.

A Needed Revival.

Our esteemed religious contemporary, The New York Sun, was worrying the other day over the non-appearance of the revival of religion which always heretofore followed close on the heels of hard times. Another revival that is sadly needed in some parts of this country is a revival of patriotism. Either Topeka, Kans., or Denver, Col., would be a mighty good place for it to break out and spread from.—[The Courant.

Silverite Secession Talk.

It need hardly be added that secession talk founded on a sectionalism of the pocket book is the most dangerous kind. It may for the present be powerless but it will not die by one defeat in congress. It was not until the slavery issue became more than sentimentalism and grew into sectionalism of the pocketbook that it was feared as a serious menace to the union. The analysis of the causes behind the new sectionalism carry their own lessons to thoughtful Americans.—[Waterbury American.

As It Was in '37.

The New York Herald of May 3, 1837, in talking of the evils which had brought about the crisis, said:

"The present evils which afflict the country are the joint production of all parties and all classes. They have been produced by overbanking, overtrading, overspending, overliving, overdashing, overdriving, overreaching, overcheating, overborrowing, overeating, overdrinking, overpaying, overdinning, overthinking, overplaying, overriding, overtippling, overfiddling, overacting of every kind and description, except overploughing, which alone is the corner-stone of society and the foundation of civilization."

THE Y. M. C. A. AT [illegible].

A New Tent—Better Accommodations and More Entertainment.

The Y. M. C. A. tent on the camp ground at Niantic has become one of the recognized institutions of the military department of the state. Its moral value has been thoroughly established by a two years' trial. The authorities have recognized its worth and good influence, and this year have purchased and erected a large new tent at an expense of $450. It is 50x76 feet in size, giving much more space than the one used the past two years. The facilities of entertaining the troops have been increased proportionately. A large circulating library is to be found in the tent contributed by individuals, papers, magazines, and other literary matter of a moral tone can be found on the tables, while innocent games of all kinds are there for the amusement of those whose inclination turns in that direction. Tables are arranged and supplied with pen, ink and paper to accommodate those who wish to write letters home, and the correspondent can get his stamp and have his letter posted with no trouble to himself. A large barrel stands inside from which everyone who enters can get a drink of pure, cold water. Religious services are held daily to which all are invited, and many attend and enjoy. All these things are furnished at the "Reading and Recreation Tent" of the Connecticut Young Men's Christian association gratuitously, and by the sanction and recommendation of the state of Connecticut under control of the military authorities.

Henry A. Hazen says that the construction of tight balloons must be the first step toward proper exploration of the air. It is hardly probable, he says, that a balloon has been constructed in this country which will not leak 25 per cent. of its gas in twenty-four hours. On the other hand, a balloon has been built in France of goldbeater's skin which has leaked less than one-half of one per cent. in twenty-four hours. In other words, if the former balloon could just keep afloat two days the latter would not give out for 100 days.

They make one feel as though life was worth living. Take one of Carter's Little Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system.

A Wonderful Machine.

There is no doubt that man is a fine mechanism, but like every other machine he wears out by friction. It is said he is born again every two or three years. His body is virtually re-made from food. To retard this making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time to recuperate. The process of making anew is so accelerated by purging with BRANDRETH'S PILLS that a new man, as it were, may be made in two or three months, and the change in the mechanism is such that the worn out part is replaced by the new without the usual running down of the entire machine. You don't have to stop for repairs. Purge away with BRANDRETH'S PILLS the old, diseased and worn out body. They are purely vegetable, absolutely harmless, and safe to take at any time.

If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable, and these little pills cure both.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

We think we can cure a bad case of Backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters than by any other application, and after the Backache is cured you can still wear the plaster without discomfort for two or three weeks or longer. This combination of Smart Weed and Belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional [illegible] and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It contains neither opiates nor dangerous drugs.

WHO IS SANDERSON?

Question Asked By Numerous Business Concerns.

SHERIFF HAS CHARGE OF STORE.

But the Head of the Concern Cannot Be Found.

BOSTON, Aug. 24.—Who is E. F. Sanderson? Is there any such man as E. F. Sanderson? If there is an E. F. Sanderson, where is he? Those are questions that a number of Boston and New England merchants are asking and would like very much to have answered. In the meantime the store of E. F. Sanderson & Co, at 1154 Tremont street is in the hands of a sheriff and a sheriff's keeper sits at the receipt of customs and takes what little cash comes in. There seems to be an interesting story in connection with the opening of this store, which has resulted in a probable loss of several thousand dollars to merchants who sold the firm goods.

The firm opened its store early in the summer and began to advertise as wholesale and retail dealers in doors, sashes, blinds, window glass, hardware, paints, oils and plumber's supplies, and since that day merchants in those lines of trade have had occasion to regret that the firm started up.

The Auxiliar & Wilson Manufacturing company of New York sold the concern $800 worth of stock on credit and is now suing for the bill, the firm having an attachment on second, a first having been put on by parties represented by Lawyer W. H. Preble, who says that the goods after being bought were shipped at once to a railroad station and sold for

Less Than They Were Purchased For.

The Pike Manufacturing company of Pike Station, N. H., received an order for a lot of whetstones, hoces, etc., and taking the firm to be E. P. Sanderson & Co., looked them up in Bradstreet, found them rated high and sent the goods. The promptness with which this order was filled evidently pleased the new concern for it at once replied with another liberal order. This time the name of the firm was noticed and Bradstreet was requested to give its rating. The reply made by the mercantile agency was that Sanderson came from Portland, and George Brown, one of the partners from Burlington, Vt., that F. E. Sanderson another partner appeared to be an important factor in the business management. That the latter stated that the firm had a cash capital of $10,000 equally contributed, and the partners individually owned

Timber Lands in Maine and Vermont.

No more goods were sent after the report by the mercantile agency, but in a few days an attorney for the Pike Manufacturing company placed an attachment on the stock of the firm, it being the eighth writ which had been served by Deputy Sheriff Keller. It was not a difficult matter to make out a writ and put a keeper in the stores, but when it came to finding E. F. Sanderson, that was another matter. He could not be found and has not yet put in appearance.

Counsel for the attaching creditors have been each approached by E. A. Duggan, an attorney at law, who says that he represents Sanderson, but admits that he has not seen his client, although he offers to accept service of the writs for Sanderson. Mr. Duggan says that one Francis Sullivan, who appears to be a person of importance at the Sanderson store is "manager" for the Sandersons,

But is Not a Partner.

There are some of the creditors who think that Mr. Sullivan has an interest, but they are not sure of it.

Although there are claims aggregating several thousands of dollars for goods sold them, there are not goods enough in stock to pay a heavy dividend in case of a sale. The sheriff will be asked today or tomorrow to sell the goods and stop the expense of keeping, which, with the rent, is quite an item.

Mr. Duggan has offered to have an assignment for the benefit of the creditors made, but before such an assignment would be operative the cost of the attaching creditors would have to be paid and the pending actions discontinued. It is probable that the way out of the dilemma will be the filing of a petition in insolvency by some of the creditors.

McCloskey Goes to Jail.

MALDEN, Mass., Aug. 24.—Thomas McCloskey, the alleged safe burglar, who was arrested in Boston several days ago, and who attempted to escape by sawing off the bars to his cell at the Joy street station, Boston, was arraigned before the district court here today. He was charged with several attempted safe robberies. He waived examination and was held in $4000 for the grand jury. In default of surety he was committed to the Cambridge jail.

Lost His Fingers.

BOSTON, Aug. 24.—James Troy, 22 years of age was riding on the front platform of an electric car in the Charlestown district this morning about 6 o'clock when his hat blew off. In his anxiety to recover his property he hastily jumped from the platform, getting off the platform backwards. He fell to the ground and as the car was moving at a fair rate of speed the wheels passed over the fingers of his right hand.

Circuit Races Postponed.

SPRINGFIELD, Mass., Aug. 24.—Owing to the storm the circuit races at Hampden park have been postponed until tomorrow. It was clearing up at 12 o'clock, but the management deemed it best not to handicap the best card of the week with a heavy track. The horses will be called at sharp 1 o'clock Friday.

That Fighting Missionary.

PAWTUCKET, R. I., Aug. 24.—The trial of Missionary Harkins, for making an assault with a dangerous weapon, was continued in the district court for one week, owing to the absence of Prosecuting Counsel Carroll. There was another row at the Rescue mission last night, as usual.

No Trains From the South.

SPRINGFIELD, Mass., Aug. 24.—No trains having arrived from the south since 11 o'clock last night, it is surmised that the delay is caused by washouts or a railroad accident, but no information on the matter can be obtained from the railroad people here.

Carter Harrison to Wed.

CHICAGO, Aug. 24.—Mayor Carter Harrison is to be married some time in September. The lady is Miss Annie Howard of New Orleans. She is about 32, and is said to be worth about $2,000,000. Mayor Harrison is 68 years old and this will be his third marriage. He has three children, all older than Miss Howard.

Robert Cutts Pierce.

PORTSMOUTH, N. H., Aug. 24.—Robert Cutts Pierce, one of the best known citizens, died this morning shortly after 2 o'clock at his residence on Miller avenue, aged 82 years. He was the youngest son of Joshua Winslow and Emily Sheaf Pierce, and was born at Greenland, Jan. 8, 1810.

NO LONGER A TRUST.

Sugar King Havemeyer Discusses Sugar and the Tariff.

BOSTON, Aug. 24.—"I am merely on my way to the White mountains," said Theodore Havemeyer, the New York millionaire sugar king to a newspaper representative last evening, at the Vendome. Mr. Havemeyer came up from Newport with his family yesterday afternoon, and will proceed at once to the Profile House, where they will spend some time at that delightful hostelry. It is uncertain where he will go thereafter. Mr. Havemeyer was cordial, but not talkative.

"The sugar trust is no longer a trust," said Mr. Havemeyer smilingly. "It is now a company, conducted as other companies are, on business principles. We have absorbed the large refinery in Philadelphia, formerly owned by Claus Spreckels. That, indeed, was done by the trust before the formation of the present company. We have refineries elsewhere, but this is one of the largest."

Mr. Havemeyer did not think it probable that the present congress would accomplish much with the tariff. It must first look to the purpose for which it was called together, and that is distinctly to relieve the monetary situation through immediate action regarding the silver bill. The country will not at this time bear subterfuge or delay. But, if it reaches the tariff, congress will take wise action, for William L. Wilson, present chairman of the ways and means committee, can be depended on to take a conservative and intelligent course.

"I know Mr. Wilson, and think he is a strong man," said Mr. Havemeyer.

"In what manner any action taken by congress regarding the tariff may effect sugar, depends, of course, on whether specific action is taken on the bounties now existing or not. Sugar plantations in Louisiana are now profitable by reason of the large bounties given. It may prove a question for consideration whether the industry is yet on its feet to the degree which would justify congress in removing its protecting hand.

"As it is not a great while ago since the large bounties began, it would seem to many that it might not be wise, when such wide interests are involved, to withdraw the fostering hand too soon."

The newspaper man gathered that Claus Spreckels is still the doughty opponent of the eastern sugar interests. Whether the latter was behind the agitation for the annexation of the Sandwich islands or not, he would certainly have profited enormously by their annexation. The islands falling under the long hand of the powers in Washington would at once have enabled those owning the sugar plantations to avail themselves of the bounty offered by the United States for encouraging its cultivation.

By reason of the cheap Chinese, Japanese and native labor there, the present profit, joined with the bounty would have made the sugar men a pretty penny.

"I do not believe," said the ruddy millionaire, "that the Democrats want free trade. They want protection just as well as the Republican party, and will probably merely reduce the tariff. The best men of both parties are probably agreed in deciding a moderate tariff the best thing for the country."

WEBFOOT CHAMPIONS.

Contest For the Honor Arranged Between Two Rival Yacht Clubs.

MARBLEHEAD, Mass., Aug. 24.—The Corinthian Yacht club baseball nine has arranged for a game on Thursday next with a nine representing the Hull Yacht club.

The game will be played at the Congress street grounds and there are rumors that outside talent will be rung in by both nines.

The Corinthians claim the webfoot championship of Massachusetts, having already defeated the Prestons and other nines which claimed to play the game.

Heavy Rains and Wind.

LOWELL, Mass., Aug. 24.—A severe storm raged here this morning, a heavy downpour of rain being accompanied by a high wind, which blew down huge trees in different parts of the city, and in Middlesex Village the wires of the fire department and some of the telegraph wires.

Malachi and Maggie Acquitted.

BOSTON, Aug. 24.—Malachi Watson and Maggie Crowley were acquitted in the Dorchester district court this morning of the charge of assault on Watson's wife, whose death appeared by the autopsy to be due to natural causes.

Buffalo Calls for Police.

BUFFALO, Aug. 24.—A call for police reinforcements has just been sent in from East Buffalo. The unemployed Poles have stormed the market and are rifling the booths.

Child's Dead Body Found.

BOSTON, Aug. 24.—The dead body of a male child, 3 or 4 days old, was found early this morning in the rear of Dover street. It was taken to the city hospital morgue.

NEWS IN BRIEF.

Governor Boies was renominated by Iowa Democrats.

The Boston and Novia Scotia Coal company was granted a surety.

Tufts college has established a medical school for both sexes in Boston.

The gasgipe layers' strike at Boston is ended, the strikers having given in.

Wallace & Sons, brass manufacturers of Ansonia, Conn., have suspended.

Israel Leavitt, who stabbed Warren Spaulding at Harmony, Me., is under arrest.

W. P. Wentworth was arrested for stealing funds of the Victoria Hotel, New York.

Edward Savage, out of work and starving, stole a horse at Lowell, Mass., and got caught.

The McCollum institute alumni celebrated the 6th anniversary of the school at Mt. Vernon, N. H.

The Massachusetts state board of trade passed resolutions demanding the immediate repeal of the Sherman act.

The senate refused to seat Lee Mantle appointed a senator by the governor of Montana, by five majority yesterday.

Henry Snell, a Boston druggist, 24 years of age, has married Miss Hattie Madison, who is one of the "1492" company. She is considered quite a beauty.

Division Superintendent Sanborn, Roadmaster Bryant and Detective Bailey of the Consolidated road were sentenced to one month in jail for riotous assault at Abington, Mass.

Surgeon General Wyman of the marine hospital service received a telegram from Surgeon Hutton at Brunswick, Ga., stating that a third case of yellow fever had developed there.

Jack Dempsey, the pugilist arrived at Racine, Wis., last night. By his antics he soon convinced everybody he was insane. His wife will make an effort to get him to Chicago.

The tone of the piano improves when the instrument is moved from the wall of the room.

REGISTRARS SUED.

Did Not Allow Women to Vote in Deerfield.

MARY E. FISHER THE PLAINTIFF.

Claims Damages of $500 for Being Deprived of Her Rights.

DEERFIELD, Mass., Aug. 24.—A volcano which has been smoking in Deerfield for some time has at last broken out, and the upheaval is along with the town division question for supremacy in the popular discussion. This is the suit of Mrs. Mary E. Fisher against three of the four registrars of voters of Deerfield, in which she claims damages of $500 for not being allowed to register as a voter for the school committee last fall. Mrs. Fisher is only one of nearly 100 women who were refused the same privilege, and the case is brought to test the women's rights in the matter. This is the story of the trouble leading to the suit:

The contest for the positions on the school board was to be a close one, and the women becoming interested in the question, decided to take advantage of their privilege of voting. When the registrars held their first meeting at the North End, several women went to register, but were refused on the ground that the law required each woman to file a certificate with the assessors before she could register as a voter.

The Women Demurred,

but without avail, for one of the board of registrars had written to the secretary of state on the matter, and had received an answer which he construed as upholding his claim that the women must file certificates with the assessors.

By the time the registrars held their meeting at South Deerfield the board had received new light in the matter, which proved that they were in error. When the women of the South End came to register, however, they were refused, on the ground that it would not be fair to allow them to vote when the North End had been refused. And so no woman's name appeared on the

Voting List of Deerfield Last Year.

The question in dispute has been settled and the suit is not brought to determine the proper interpretation of the law in regard to the point, but for the purpose of recompensing the women for the loss which they claim was sustained by the refusal to allow them to register. The statement that the town would defend the registrars is erroneous, for they are not agents of the town, but simply officials, and in that capacity are alone responsible for their acts.

The three registrars who become defendants in this suit are Henry Wait, Alden Briggs and Edwin C. Coles. Henry S. Childs, the fourth member of the board, is fortunate in not having excited the feminine wrath, which has brought this visitation upon his brethren.

HYDE PARK VISITED.

Burglars Break Into the Postoffice and Attempt to Blow the Safe.

BOSTON, Aug. 24.—The Hyde Park postoffice was broken into some time last night and an unsuccessful attempt was made to blow the safe open. The burglars forced an entrance through the rear door, doing considerable damage to it.

They made upon the rolltop desk of the postmaster, Sam Mosely, and after turning everything upside down they turned their attention to the large government safe in the office. After boring holes and inserting the powder the attempt was made to blow it open. The charge did not do its work. Only a small portion of the door was broken. They then tried to pry the door open but the slight explosion had made the door tight.

None of the mail was disturbed, as it is probable the burglars were frightened away. When Postmaster Mosely reached the office this morning, he notified the postoffice inspectors in Boston. Inspector White started for Hyde Park at 9 o'clock. It is reported that if there is a loss it will be small.

FAMOUS HORSEMEN.

Trainer Charles Marvin was once a sailor.

J. W. Knox, the noted turfite, once dealt in glassware for a livelihood.

Hiram G. Smith, the well known horseman, formerly was a grocery man.

John A. Morris made a great deal of his money out of the Louisiana lottery.

M. F. and Philip Dwyer were butchers before they became rich and famous on the turf.

Mr. Spiers, who owned and trained Major Domo, was educated and studied for the ministry.

Marcus Daly of Montana has made millions mining copper and is called the "copper king."

James R. Keene, who has such a successful stable this season, is a famous Wall street plunger.

J. B. Barlow and J. W. Mercer, who are now well known on the turf, taught school before they took to racing.

W. B. Jennings and A. J. Joyner, the latter being Mr. Belmont's trainer, were brought up to mercantile life.

C. W. Williams, the famous horseman who owned and trained Axtell and Allerton, was a telegraph operator.

Pierre Lorillard's business is manufacturing tobacco into various marketable forms, and racing is his pastime.

Jim Murphy, a western trainer, learned the cabinet maker's trade and only took up horse training because his health was bad.

THE DINNER TABLE.

Bread must be freshly cut.

Soiled plates and dishes should be removed from the right.

Tablecloths must be laid without wrinkles and perfectly straight.

Carvers must be treated with [illegible] respect as if they were razors.

A dining room must be free from dust and at a pleasant temperature.

Everything relating only to one course must be removed before serving another course.

A meal must never be announced until everything is in readiness which is needed or may be needed.

A waitress is responsible for the proper heating of dishes and plates before they are brought to the table.

The sharp edges of knives must be turned toward the plate. Bowls of spoons and tines of forks must be turned up.

Everything which admits of choice must be placed at the left. Everything which does not admit of choice must be placed at the right.

In clearing the table food must be removed first; then soiled china, glass, silver and cutlery; then clean china, glass, silver and cutlery; then crumbs, then carving cloths.—New York Commercial Advertiser.

The dome of the new observatory now in the course of erection at Greenwich will be made of papier mache.

CURIOUS CULLINGS.

A dying man may be burned with redhot irons and yet not feel the least pain.

In Saxony nobody ventures to wipe the fingers on the tablecloth lest the hands become covered with warts.

At the Belding Bros. silk works, Northampton, Mass., there is a well 3,700 feet deep that is perfectly dry at the bottom.

The Hebrew Talmud says that when Adam was created he was a giant, his head reaching into the heavens and his countenance outshining the sun.

In Dutch Guiana the women carry upon their persons all the family savings in the shape of heavy bracelets, anklets, necklaces and even crowns of gold and silver.

In Westphalia and Saxony the unfortunate mortals who happen to be beaten with a broomstick firmly believe themselves doomed to die of consumption.

The flags to be hoisted at one time in signaling at sea never exceed four. It is an interesting arithmetical fact that with 18 variously colored flags, and never more than four at a time, no fewer than 78,642 signals can be given.

BOSTON PRODUCE MARKET.

BEEF—The beef market is firm on the best steers, with light cattle easy. Quotations are at: Choice fancy steers, [illegible]c; prime, [illegible]c; good, [illegible]c; light, [illegible]c; extra heavy hinds, [illegible]c; good, [illegible]c; light, [illegible]c; heavy fores, [illegible]c; light, [illegible]c; backs, [illegible]c; rattles, [illegible]c; chucks, [illegible]c; rounds, [illegible]c; rumps, [illegible]c; rumps and loins, [illegible]c; short ribs, [illegible]c; loins, [illegible]c.

MUTTON AND LAMB—Muttons and lambs are dull, and the market is easy. Veals are very well sustained, however: Choice spring lambs, [illegible]c; common to good, [illegible]c; poor and ordinary, [illegible]c; Brightons, [illegible]c; yearlings, [illegible]c; muttons, [illegible]c; choice heavy Brightons, [illegible]c; choice eastern veals, [illegible]c; common to good, [illegible]c; Brightons and fancy, [illegible]c.

OATS—Oats are reported a little firmer, to arrive, though clipped were offered by some shippers at [illegible]c. Others were asking [illegible]c, and up to [illegible]c for fancy. The spot market is steady, with the quotations at: Clipped, [illegible]c; fancy, [illegible]c; No. 2 white, [illegible]c; No. 3 white, nominal, at [illegible]c; clipped, mixed, nominal, [illegible]c.

FLOUR—Flour is rather quiet, on the easy position of wheat, but some of the millers are very firm. Some of the largest milling concerns in the country are declining to sell flour to arrive, unless the pay is at once advanced in currency. They will sell for immediate delivery, [illegible]

POTATOES—Potatoes are steady, with the market at: Rhode Islands, $2 75 per bbl; natives, $[illegible]; Jerseys, $[illegible]; eastern bulk, [illegible]c per bushel; northern and New York, [illegible]c. Sweets sell at $[illegible] for ordinary to good; and at $[illegible] per bbl for the best.

CORN—Corn is steady, with No. 2 yellow, to arrive, at [illegible]c; and No. 3 yellow at [illegible]c. The spot market is steady, with sales of steamer yellow at [illegible]c. The quotations are at: Steamer yellow, [illegible]c; No. 3 yellow, [illegible]c; steamer mixed, [illegible]c.

CHEESE—Cheese is quiet and steady, with the market at: Northern full creams, [illegible]c; fair to good, [illegible]c; western choice, [illegible]c; fair to good, [illegible]c; sage [illegible]c. Liverpool is quoted at [illegible] for white and at [illegible] for colored.

HAY—Hay is firmer for good. Straw is dull. Bran is very firm: Good to choice hay, $[illegible]; rye straw, $[illegible]; sack spring bran, to arrive, $[illegible]; sack winter, $[illegible]; sack spring middlings, $[illegible]; sack winter, $[illegible].

BUTTER—The butter market is dull, though prices are reported steady to firm. What the result of today's market will be is something of a question. The quotations are not yet changed.

EGGS—Eggs are steady, with the market at: Western, [illegible]c; Michigan, [illegible]c; provincial, [illegible]c; eastern and northern, [illegible]c.

MEAL—Cornmeal is steady at $[illegible] for bag meal, and at $[illegible] for barrel meal. Oatmeal is very quiet at $4 [illegible]@4 70 per barrel.

PORK—Pork provisions are reported a little firmer. Tea is quiet, however, and quotations are not changed.

THE STOCK MARKET.

Dealings In Leading Securities In Boston and New York.

BOSTON, Aug. 24.—In the outside market call money is quoted at 6 to 10 per cent, and time money is nominally 6 per cent.

The bond market presents some rather anomalous features just now. Slower to yield to sudden pressure, it is slower to recover after any short strain, though in the long run its recovery is steadier than that of the stock market. Yet now, in the face of the better feeling and more hopeful view of the future, instead of holding steady, if not advancing, railroad bonds are actually declining. This of course has a serious bearing on loans in which bonds figure so largely as collateral. Only yesterday a discrimination of 1 per cent was made in New York between bond and stock collateral, in favor of the latter.

The explanation would seem to be that necessity forces holders of this class of securities to offer them for sale. Further, that investors have not returned to the market as yet. This, despite the repeated statements that have been made as to the good buying of securities for putting away. The bargain hunter has been in the market. He, however, buys with the intention of selling later, and as the profit promises to come sooner and be larger in stocks, he buys stocks. He differs from the speculator in that he buys and pays for his stock and actually takes it away from the market, whereas the speculator carries his purchases with his broker on margin. The bargain hunter, then, has been in the street, but not the bona fide investor, that is, in any large numbers. The result is that there is no one to take bonds, and the offering of them forces prices down. This in turn shakes out the collateral in outstanding loans, which again forces still larger amounts of such securities on to the market. The result of all this is the present liquidation in bonds and the phenomenon of declining bonds and appreciating stocks.

With the telegraphic communication between this city and New York broken, the Boston stock market this morning was isolated. The result was a practical cessation of business. Such sales as were made were in local specialties which the shift of sentiment in Wall street could not affect. Boston and Maine started off at yesterday's figures, 147, but weakened to 146, while Old Colony opened 1 up at 166, though dropping subsequently to 165½. West End railway was down ¼ to 52, Bell Telephone 1 to 178, and Pullman 1 to 144. General Electric opened at yesterday's figures, 38¼, but sold to 37¾, while Atchison weakened from 15 to 14¾.

THE TATTLER.

Henry Villard has retired from active connection with railroads.

Congressman Tom L. Johnson of Cleveland began life as an errand boy and janitor. Now he is a millionaire.

Mr. Josiah Quincy, according to the Boston Journal, "works like a mole in the ground, or with the frozen dignity of a glacier."

Elia Rodda, a Turk, quarantine interpreter at the port of New York, can talk nine languages, but cannot write. He gets $1 a day.

Sir Cecil John Rhodes, prime minister of Cape Colony and the richest man in South Africa, made most of his enormous fortune in the diamond mines of Kimberley.

J. Beaver Webb, the naval architect, who is of English birth, has made New York his home since the Genesta, which he designed, was brought here to race with the Puritan.

Mommsen, the eminent German jurist, will on Nov. 8 celebrate the fiftieth anniversary of his doctorate, and representative European students are arranging for a fitting commemoration.

Hon. George S. Boutwell, when elected governor of Massachusetts, was the youngest person ever elected to that office. Now he is the senior ex-governor of the state as well as the oldest in years.

Before Mr. Drexel went abroad it had been arranged that his youngest son, George W. Childs Drexel, should be associated at an early day with Mr. Childs in the management of The Public Ledger, and this plan is to be carried out.

The Duke of Westminster in his youth bore so close a resemblance to Cruikshank's picture of the famous boy burglar that his college mates nicknamed him "Jack Sheppard," and by this name he is still known among chums of his own rank.

Albert Snider, a grandson of millionaire "Lucky" Baldwin of San Francisco, has enlisted as a private in the United States cavalry. He says he likes the army and means to study for a commission. His grandfather approves of his action.

Lord Cromer, the British diplomatic agent at Cairo and the real ruler of Egypt, is a very interesting Englishman. It is his habit to read Homer in the original Greek for half an hour after breakfast every morning, and his afternoons are given up to lawn tennis.

T. Hollis Wilson of Lake City, Minn., is said to be the counterfeit presentment of President Cleveland. He was born in the same year as the president, and by a singular coincidence his wife was Frances Folsom Beggs of Faribault. Mr. Wilson weighs 218 pounds.

The most active member of the Beecher family now living is the Rev. Thomas K. Beecher, pastor of the Park church in Elmira. He is a tall, broad shouldered man, 69 years old, with a plentiful brown beard, now tinged with white, and is fond of billiards, bowling and tricycling.

Dr. William Everett, who goes to congress as Henry Cabot Lodge's successor, is remarkable for his extreme mildness of manner and affability on the one hand, and for the intensity of his wrath when he "goes it," to which latter condition he has been described as "a cyclone with tornado [illegible]."

THE CRANK.

The wives of Siamese noblemen have their hair cut "snapper" fashion. It stands up straight and fierce about an inch long.

According to tradition, Egypt was governed by the gods and the souls of the departed before it passed under the rule of mortal kings.

The Spaniard, however courteous he may be, never invites a guest to dinner. In Italy, too, the privacy of the family is seldom invaded at the dinner hour.

The Arabs have a superstition that the stork has a human heart. When one of these birds builds its nest on a housetop, they believe the happiness of that household is insured for that year.

The Tombstone (A. T.) Epitaph is edited by an Englishman named Coffin and published by a man named Sexton. The publisher declines advertisements of undertakers, but inserts death notices gratis.

When once filled in, a Moslem grave is never reopened on any account. To remove the faintest chance of it being thus defiled a cypress tree is planted after every interment, so that the cemeteries resemble forests more than anything else.

Nassum [illegible]oghabghab, who has charge of the Turkish village at Chicago, is a Presbyterian minister and serves in that capacity when at home.

At the exhibit of British Guiana at the World's fair is to be found Adolphus Daniel, an Arrawac Indian, born and reared in that country. His intelligence and his excellent English render him popular with visitors to the Agricultural building.

FINE ARTS.

NORWICH AND VICINITY

CITY NEWS

Company C of Rockville has its full complement of men at Camp Morris.

The surf will be worth seeing at Watch Hill and Ocean Park this morning.

H. H. Appledown of this city has a Connecticut cent, coined in 1785, dug up in his garden.

The Rev. Joseph Hooper of St. Mark's Episcopal church, Mystic, preaches his farewell sermon Sunday.

Friends of Mrs. Eliza Lamb of Union square will regret to hear that she is so ill as to require a doctor's care.

This is Governor's day at camp, and if the weather is fair Eastern Connecticut will be represented by a large crowd.

Yesterday was the date for the launching of Barge No. 11 of the big barges being built at Palmer's ship-yard, Noank.

Teams are carting away the stone foundation of the historical old Moss house, for so many years a landmark of Westerly.

Many of the members of the Norwich colony at Eastern Point were detained on the Groton side of the river by yesterday's storm.

Grant H. Ames of The Westerly Sun and Miss Hattie M. Coon were married in Westerly by the Rev. S. H. Woodrow on Wednesday.

Arnold W. Latham of Noank and Miss Mary E. Saunders of Mystic were married in the latter city by the Rev. Henry Clarke on Wednesday.

A steam engine was unloaded at the Bailey corner Thursday at 4.30 p. m. It will be used in raising the walls for the new bank building.

G. W. Noyes, Emma Hull of Lebanon and Edna Newell of South Coventry will teach the public school in the latter town during the coming year.

Mrs. Elizabeth R. Penhallow, widow of Daniel Penhallow and mother of Mrs. H. B. Smith, died in New London, Wednesday, at the age of 88.

The croquet tie was to have been played off in Middletown Thursday afternoon, but it is more than probable that the gale blew the contest into next week.

A special meeting of the Rose of New England Wheel club was held Wednesday evening, and committees for the tournament at the fair grounds were completed.

Mother Bailey council, a new branch of the Connecticut Daughters of Liberty, was instituted in New London Wednesday evening, with a membership of twenty-six.

Arthur Whitford of Webster, for a number of years on the Norwich division of the road, has been promoted to be conductor of the way freight, says The Worcester Spy.

Tuner Bartlett of Springfield, Mass., has finished cleaning and tuning the organ of St. Patrick's church, and has put it in pitch for the use of Organist Frank Farrell during the coming season.

The colored Odd Fellows of New England will hold a parade at Bridgeport on Sept. 6 to celebrate the semi-centennial of the foundation of their order. Ten Connecticut lodges will be represented.

Mr. Archibald Mitchell of this city was one of the participants in the four days' tournament of the Keystone Target company at New London, Wednesday, taking second money in the "Ten singles" shoot.

Business depression is affecting the freight traffic on the Pawcatuck river. Tugs and coal schooners are idle, and the granite company is storing up paving blocks which no one seems to require just now.

Ex-Governor Waller has accepted an invitation from J. D. Toomey of Bridgeport to address a meeting in that city next month, when resolutions will be adopted urging the release of Irish political prisoners now confined in English prisons.

A traveler did not pilot his wagon across the car track on Franklin square at the proper angle Thursday evening, and the right front wheel struck the rail and collapsed. The occupants were thrown out but did not land in a serious way.

For camp week this is considered an exceptionally poor week for the Niantic hotels. The entire season, for cottages as well as hotels, has been far below the average. One of the largest hotels which accommodates two hundred has at no time had more than sixty guests, even with a reduction in rates.

Owing to the storm the steamer Ella will not make an excursion to Niantic today, but will make her regular excursion to Watch Hill, and on her return will leave New London for Norwich at 5.30 p. m., or after the arrival of the excursion train from Niantic.

Moonlight excursion tonight on the steamer Block Island to Camp Morris. The boat is chartered by her officers, and they will see that the same good order is maintained as on similar excursions on the Block Island. There will be plenty of concert and dance music on board. The boat leaves at 7 o'clock.

Mr. Coburn, who is so well known as the popular and successful evangelist, who by his faithful work shown in his series of revival meetings held last winter in the Central Methodist Episcopal and Central Baptist churches has made so many friends in this city, will address the Y. M. C. A. wharf meeting at 4 o'clock Sunday afternoon.

The Connecticut Baptist Bible School union will hold their annual conference at Crescent Beach next Wednesday and Thursday. Among the speakers promised are Thomas E. Murphy, the Rev. George M. Stone, D. D., and the Rev. E. B. Montgomery. Free conferences and discussions are looked for on practical topics.

The Danbury News says: "F. M. Baldwin returned home from Norwich, where he had been in attendance on the National Croquet tournament. He came out third in the second division, winning six games and losing three. In view of the fact that Mr. Baldwin had no opportunity to practice before he went to Norwich his standing is remarkably good."

The storm caused a bad washout Wednesday night at Mount Vernon on the New York division of the Consolidated road, causing a derailment of a freight train early Thursday morning and no trains were able to get by the wreck, the road being completely blocked until late in the afternoon. The New York papers were not received at all in this city.

Capt. George R. Case, of the internal revenue office in Hartford, says: "I am somewhat surprised at the increase in the consumption of beer and spirits this year over that of last year for the past two months, in view of the financial stringency. According to the receipts at the office, 1,274 more barrels of beer have been drunk during June and July this year than last."

The lives of the liquor men at Essex, says The Middletown Herald, are made miserable by the advent in that place of a woman who has been engaged by the temperance people to spy on violators of the liquor laws. She is young, dashing and dresses richly and in the latest style. She seems to have plenty of money and is making temperance converts daily. A correspondent writes that she is a "Lulu."

Two well-known young society men and a Boston friend took the large pleasure boat Shetucket from the Chelsea boat house Thursday afternoon. They raised the sail and breasted the billows, made high by the storm. A squall struck the boat as they were tacking and they had not even time to say "Oh!" before they were bathing in the Thames. It was a long story to right the boat and get to shore. At least one of the youth purchased some cough drops after changing the raiment that was clinging to his manly form.

The ball game on Saturday next, on the Moss street grounds, promises to be an interesting one. The makeup of the teams will be as follows: Clippers—Counihan, c.; Driscoll, p.; Lucy, 1b.; Shea, 2b.; O'Brien, 3b.; Manchester, ss.; Fogerty, lf.; Moore, cf.; Hayes, rf. Westerly—Tuckerman, lf.; Robinson, 2b.; Kennedy, p.; O'Toole, c.; Moore, ss.; Baker, 3b.; Shackley, 1b.; McClarren, rf.; Clancy, rf. The Norwich men will probably come by boat and bring a large crowd with them.—[Westerly Sun.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Brothers Byrne.

The Brothers Byrne, in "Eight Bells," have made a splendid reputation for themselves and this successful piece. It is their intention and ambition to keep it up in point of excellence and completeness in detail so that the public can have nothing but words of praise.—[Exchange.

At the Broadway theater Monday the 28th inst. Seats are for sale today.

A NARROW ESCAPE FROM DEATH.

Mr. W. W. Collins Severely Injured by a Heavy Iron Ring.

Mr. William W. Collins had a narrow escape from instant death Thursday afternoon. He was passing a huge ring of iron that leaned against the wall of the Collins foundry and the jar shook it. The ring, which weighs half a ton and was seven feet in diameter, toppled over on him and struck him on the back of the head. He was knocked over with a terrible blow, and in falling his forehead hit the edge of a tram car.

Mr. Collins was rendered insensible, but soon recovered consciousness, [illegible] the ring and was assisted to his office.

Dr. Brewer was summoned and found a deep incision on the forehead, running down over the left eye. On the back of the head the ring had scraped the skin clean to the bone.

It took thirty stitches to close the wound. The strong skull fortunately caught the force of the blow, and unless inflammation sets in the injured man will be well in a few days.

THE MONEY FLOATED.

A. W. Fitch Recovers the Money He Dropped Overboard.

Mr. A. W. Fitch of Norwich, Conn., while fishing off the Fishers Island shore near the "Hummock," on Wednesday, Aug. 16, lost his wallet overboard, containing bills to the amount of $90 together with papers of much value. Mr. Fitch, not discovering his loss until after landing later in the day, had no expectation of seeing his property again. About twenty-four hours later, Gilbert Simon, a well known resident of Westerly, residing on the Watch Hill road, says The Westerly Sun, was also fishing in the same waters, although some three miles from the place where Mr. Fitch had been. Seeing a leather book floating in the water, fisherman like he raked it in, and upon examination found $90 in bills, and several papers, indicating that the package belonged to A. W. Fitch, a party unknown to him, residing in Norwich, Conn.

Now "Gib," instead of treating his leather find like the rest of his catch—skinning it and throwing its hide away—wrote to A. W. Fitch referred to, and told him all he knew about catching leather fish, and even invited him to come on and examine the specimen. Wednesday Mr. Fitch having received the invitation, came to Westerly, described the property and "Gib" just forked over the whole catch, not even keeping a scale for bait. It is needless to say that Mr. Fitch returned to Norwich rejoicing that his pocket book fell into the hands of Gilbert Simon of Westerly, an honest man, but seemed to regret that he was unable to [illegible] force a $20 bill upon him for the [illegible] rendered.

SUMMER TRAVELERS.

Where the Summer Days Are Spent.

Mr. E. W. Bishop is home after a pleasure trip to Marlboro.

Miss Gertie N. Harris spends the rest of the week at New London.

Mrs. Jerome Burdick has returned home after a week's visit in Athol, Mass.

Miss Margaret L. White of this city is visiting friends in Mechanicsville, N. Y.

Mr. H. A. Tirrell is in town, after passing most of his vacation at Cape Cod.

William H. Kneeland and wife of Columbia are among recent visitors to town.

D. P. Dunn of Willimantic returned from a visit to Hartford and Springfield.

Miss Jessie Stuart has returned from a five weeks' visit to friends in New Haven.

Mr. and Mrs. Hallenstein of Springfield, Mass., have been visiting friends in Preston.

Attorney Samuel Wood and family of Westport are visiting friends in Stonington.

Mrs. James A. Brown is visiting her daughter, Mrs. Charles M. Cole, of Newport.

Mr. J. H. George of this city was among the visitors to Camp Morris Thursday.

Mr. P. J. O'Connor of the West Side was in New London Thursday on business.

Miss Lizzie Roebuck of Taunton, Mass., is visiting Miss Carrie Scott of Spring street.

Mrs. Berkley of California, formerly Miss Lillie Ward, is visiting North Stonington.

Crescent Beach people are entertaining Miss Alice Hills and Miss Pascall of Westbrook.

H. E. Bennington and Fred M. Moulton of Willimantic are spending the week at Block Island.

Mrs. S. G. Browsley and daughter of Newark are visiting Mr. John Gager of Scotland road.

Miss Annie E. Hebard of Norwich will join friends in Willimantic for a trip to the world's fair.

Mrs. James F. Lord of Mechanic street, Westerly, has been entertaining Mrs. Sadie Moran of Norwich.

Miss Carrie Calden has returned from a six months' tour of western cities and a visit to the World's fair.

Joseph Mitchell of Franklin street is spending a few days in East Hampton for the benefit of his health.

Mr. George Stetson and Louis Stetson of New Haven, are with relatives in Greeneville, their former home.

New London, Woodstock, Boston and Springfield Adventists are camping at Tylerville on the Connecticut.

Mr. M. C. Higgins, superintendent of the Metropolitan Insurance company, left town on a business trip Thursday.

Dr. Andrew J. Gilroy of Bridgeport, whose relatives live in Norwich Town, left Wednesday for the world's fair.

Charles McKiernan of Frank street and Miss Bertha Wood of Edgewood avenue, New Haven, are visiting in Niantic.

Dr. J. A. Rockwell and wife and Miss Mary Rockwell arrived home Wednesday night, after an absence of a year in France.

Miss Katie Griffin of Norwich, with her sister, Mrs. Samuel McGovern of New York, are visiting Mrs. Oscar Cook of Westerly.

Mr. and Mrs. Asa Backus, Mr. C. B. Woodworth and Mr. Norris S. Lippitt were among the travelers shoreward Thursday.

William H. Eagles and daughter have returned from a two months' visit to Nova Scotia. Mr. Eagles is very much improved in health.

Ex-County Commissioner Crandall rode into town on the gale Thursday, and was calling upon old friends and telling of his exploits with swordfish.

Miss E. E. Carlisle of the Normal department of the Free Academy is being entertained by Miss Alice E. Reynolds of 185 Main street, West Haven.

Miss Mamie O'Brien of Branford returned home yesterday, after a five weeks' vacation pleasantly spent with her cousin, Miss Mary Harris of this city.

Mrs. Fannie Brown and Misses Belle and Mamie Brown of this city are visiting Mrs. Zorn of New Haven, who is also entertaining Miss May Peck of Danielsonville.

Mr. James L. Coffee and family left town some time since for Colburn, Canada. Leaving his family in that city, Mr. Coffee made a trip to Detroit and Chicago, and is now at Eddystone, in the provinces.

C. B. Ware of New London, past grand master, was one of the prominent Connecticut Odd Fellows present at the annual meeting of the New York grand lodge in New York Monday.

Miss Jennie L. Spencer, who has been spending the month with friends at White beach, Niantic, returned to that pleasant resort Thursday. Miss Spencer had made a brief visit to town to attend the Perkins-Ray wedding on Wednesday.

City Court—Kellogg, Judge.

Michael Scanlon, for intoxication, was sentenced to 30 days in jail and ordered to pay the costs.

The charge of breach of peace against James Connor was put over until today. Bonds were placed at $100, and as they were not procured, he was placed in a cell.

Ingenuity of a Convict.

There is a curious exhibit in Woodworth & Small's drug store. Inside a bottle is a skillfully constructed representation of the crucifixion. The cross, ladder and spears, one with a sponge, are made of wood. The bottle is filled with water to keep the framework from drying up and falling apart. This work of art was made by a prisoner in the New London county jail.

DIED.

CAREY—In Norwich, Aug. 24, Margaret Carey, only child of John and Mary Carey, aged 8 months, 4 days.
Funeral from the residence of her parents, No. 22 Forest street, Friday afternoon at 2.30.

HOLMES—In Willimantic, Aug. 23, Mary A., widow of the late Dwight E. Holmes.
Notice of funeral hereafter.

CANTWELL—In this city, Aug. 24, Miss Maggie Cantwell.
Notice of funeral hereafter.

NANCY HANKS' MILE AGAINST TIME

The Record Made by Stallion Nelson Last Fall Broken

AT HAMPDEN PARK.

Sixteen Thousand People Attend the Grand Circuit Races.

SPRINGFIELD, Mass., Aug. 25.—Today was probably the greatest in the history of the grand circuit races at Hampden park. The track records for trotting both in competition and against time were broken and the competition pacing record equaled, while the crowd was the largest for years, probably numbering 16,000 people.

The greatest attraction of the day was Nancy Hanks' mile against time in 2.08¼, which, considering the rather loose track and the strong wind, was one of the mare's best of her remarkable performances. Quarter 32, half 1 03¼, and three-quarters 1.36¼ were the sectional times. She would have been able to have gone the mile in at least 2 05 under better circumstances.

The mare was brought out to the grand stand quite early in the afternoon and warmed up by several trips around the track, but was not finally sent away until about 4.30 o'clock. When she went down the stretch for the start she broke just before the wire was reached, when the running horse, Artist, was started up behind her.

On second trial she got off finely and went the whole mile without skipping or breaking, her last quarter in 31¾ being her fastest time. Her mile breaks the track record made by Nelson last fall in 2 11 and is the fastest ever trotted in New England.

The free for all trotting race was only second in interest to the exhibition of Nancy Hanks, being strongly contested throughout. It was won by Walter E., who was a big favorite at the pool boxes and sold at $100 to $5. The first heat was won by Little Albert, Walter E breaking badly on the home stretch. The fourth heat was especially fine, a terrible battle being fought on the home stretch by Walter E., Nightingale and Phœbe Wilkes. The first three heats in the race were below the track competition record, made last year by Walter E. in 2 14¼, the time in the [illegible] heat being 2.11¾, which now stands as the best mark.

The free for all pacing race, which started the day, went to Hal Pointer, by his winning three straight. His time, 2.10¼, equaled the track record in competition made last year by Grant's Abdallah.

Nellie McGregor won the 2.19 class in straight heats, although Myrtle led at the pool boxes. Nellie McGregor lowered her record from 2.19¼ to 2 16¼ in the first heat.

Nemaline won her first race in straight heats in the three-year-old stake race, getting a mark of 2.23¼. At the end of the races the pool boxes were raided by the local authorities.

Illicit Liquor Seller Captured.

CLINTON, Conn., Aug. 25.—John Buell, who was arrested some weeks ago for selling liquor on a sloop on the Connecticut river at Essex, and who skipped away from Constable James L. Pratt while released to secure a bondsman, was quietly arrested at his father's residence here at a late hour Wednesday by Constable Edwin H. Wright and two assistants. Buell was handed over to the Essex authorities, who will probably hire a man to go in search of a bondsman this time.

A Cigar Manufacturer Given Judgment.

HARTFORD, Conn., Aug 25.—A mandate from the circuit court of appeals confirming the decision of Judge Shipman in the case of Charles C. Hubbard against Charles Soby, cigar manufacturer of this city, was filed with the clerk of the United States court today. Mr. Soby is given judgment against ex-Collector of Customs Hubbard in the sum of $2,555 15. This is the case in which Mr. Soby protested duties on Sumatra tobacco. This was the first case under the new tariff law.

A Jolly Fishing Party.

BUZZARDS BAY, Mass., Aug. 25.—The president's catboat carried a precious and at the same time a jolly party down Buzzards bay this afternoon. Besides the president there were Governor Russell, Joe Jefferson, Secretary Lamont and A. H. Wood. When the party left Gray Gables the wind blew very strong and a heavy sea was running. Skipper Wright put in plenty of reefs, thereby avoiding a wetting for his passengers. All had a splendid time and enjoyed a delightful sail.

Pool-Sellers Arrested at Hampden Park.

SPRINGFIELD, Mass., Aug. 25.—The pool-sellers were arrested today for the first time in 25 years for horse trotting on Hampden park. Morse and Hardie, auction pool-sellers, James Clancy who runs the mutuals, and Charles Hurrick, bookmaker, were taken, but released on bail of $300 each, furnished by D. Esser who is a stockholder in the association. It is expected that they will plead guilty in the morning and pay the fine.

Fight Between Armed Political Parties in Mexico.

EAGLE PASS, Tex., Aug. 25.—A fight took place yesterday between armed bodies of opposing political parties at Puerta del Armeo, near Nadores, Mexico. The Galanists were the aggressors, but were repulsed with severe loss. The total number killed on both sides is 45. A report reached here of a battle between the federal [illegible] and the Cardenas men on the road from Santa Rosa to Abasola, in which [illegible] men, mostly soldiers, were left dead upon the field.

IN CONGRESS.

The Senate.

WASHINGTON, Aug. 25.—The event at the capitol today was the speech by Senator Hill, who made a long and carefully prepared address on the silver question.

There were those, Mr. Hill said, who did not wholly agree with the president in his diagnosis of the malady now affecting the body politic, and who did not hastily join with him in the rosy conclusion that the financial millenium is to come the moment the Sherman law is removed. There were some who had given the subject attention who believed the cause of the present depression was deeper and beyond the Sherman bill, and that its foundations were laid in the evil hours of 1873, when the country unwittingly laid aside the financial policy that had been its guide since the foundation of the government. The existing financial disturbance Mr. Hill found, was attributable to three distinct causes.

First, it was the natural and inevitable result of many years of real or fictitious prosperity.

Second, some portion of the present panic could be traced to a concerted effort on the part of the monometallists to produce it in order to discredit silver.

Third—But no matter what else may have contributed to the present financial conditions, it would not be denied that the silver purchase law had been, at least in part, and possibly the most largely, instrumental in producing existing complications.

Mr. Hill did not believe that the simple repeal of the Sherman law would at once restore abundant prosperity, but that many years would be required to recover from the present disturbance. He compared his course in failing to declare for repeal with the president's course, and in failing to refer to it until this late day. He was a bimetallist, and stood for free coinage at a proper ratio. Had the Sherman law been repealed at the last session, or in special session on the 5th of March, the United States would have escaped the present panic and precluded the closure of the Indian mints. Independent free bimetallic coinage of the United States was not consistent with the counsels of monetary science. While repeal would not bring parity it would facilitate it by bringing that new fangled monetary theory—gold mono-metallism, begotten in the embrace of ignorance with rapacity at last an equivocal and crucial test. The permanent remedy for our financial difficulty was to return to the bimetallism that existed prior to 1873.

Mr. Hill favored the increase of the national bank circulation as proposed in the pending bill.

Continuing, he said he regarded the question of ratio as not timely and of the least consequence, but if changed at all it should not be enlarged but diminished to 15½, the Latin Union ratio. He should refuse to follow the footsteps of any administration that sought to place the democratic party in a false position and lead it into the very camp of the enemy. The president must rely upon republican votes to carry out any such suicidal policy. He did not believe, however, that any such course would be taken by the president by his own volition or even under the inspiration of indiscreet advisers, until clearer evidence shall be furnished than now exists. He depicted hasty action in the formation of a definite financial plan and predicted the failure of the attempt to impose a gold standard on India. Meanwhile the prompt repeal of the Sherman law was demanded as a measure of temporary relief.

Let us legislate upon the financial question, said Mr. Hill, and then next December resume the consideration of a permanent system. His distinguished colleague and himself would cheerfully vote for the repeal bill "unawed by power and uncorrupted by federal patronage." He predicted the passage of the bill by the senate and that the republic would weather the present storm.

At the conclusion of Senator Hill's speech he was heartily congratulated by many senators.

Senator Stewart of Nevada followed with a free silver speech, denouncing the pending bill as a measure destructive of silver.

The bill would not pass, Mr. Stewart said. No senator could vote for the unconditional repeal of the silver purchasing clause without violating his promises to his constituents. At the suggestion of Mr. Vance unanimous consent was given, that the vote on the Mantle case shall be taken at 2 p. m. on Monday next. The senate then adjourned.

The House.

WASHINGTON, Aug. 25.—The second day of the five-minute debate on the silver bill began at 10 o'clock this morning, in the house, and will probably not end until midnight. Mr. Pendleton (dem., Texas), and Mr. Bowers, (rep., Cal), spoke in favor of free coinage; and Mr. Dockery (dem., Mo), and Mr. Moon (rep., Mich), spoke for bimetallism; and Mr. Cobb (dem., Ala), opposed unconditional repeal.

Mr. Burrows (rep., Mich), advocated repeal and opposed free coinage. By unanimous consent he was permitted to speak for forty minutes.

Mr. Marsh (rep., Ills), opposed the Wilson bill and favored the free coinage of silver.

Mr. Compton (dem., Md), spoke for unconditional repeal; and Mr. Money (dem., Miss), against the repeal.

The rules of the house were reported by Mr. Catchings of Mississippi, and without being read they were ordered printed.

Mr. Simpson of Kansas asked unanimous consent to consider a motion authorizing the speaker to appoint a committee of five members to investigate the allegation that certain banks were not paying their checks and to inquire into the conduct of Secretary Carlisle and Comptroller Eckels.

The speaker ruled that the resolution was not in order, and the house took a recess.

At the evening session, Mr. Hermann (rep.) and Mr. Branch (dem.) spoke against the Wilson bill and in favor of free coinage of silver.

Mr. McKeighan of Nebraska and Mr. Doolittle (rep) approved the Wilson bill.

Mr. Hulick (rep.) of Ohio advocated bimetallism and charged the present depression to the democratic party.

Mr. Payne, republican, New York, said he would vote for the repeal of the purchasing clause of the Sherman act.

Mr. Taylor, democrat, spoke for bimetallism.

Mr. Brawley, democrat, advocated the Wilson bill. Mr. Breckenridge, democrat, Arkansas, said he would under the circumstances vote for the repeal of the purchasing clause.

Mr. McRae (dem) attributed the depression to the evils of the McKinley tariff.

Mr. Dolliver (rep) advocated the Wilson bill, although he believed that the real cause of the trouble that was now around us was the distrust in industrial firms and a revolution was at hand.

The house then adjourned.

GOVERNOR'S DAY AT CAMP MORRIS.

An Episode During Brigade Parade—Conflict of Authority.

A RUNAWAY BATTERY.

Interesting Story of the Last Day on the Tented Field.

CAMP MORRIS, Aug. 25.—As was predicted yesterday the wind went out to a gentle breeze, the skies cleared in the evening, and a bright moon shining on the camp gave us one of those glorious evenings we read about in prose and poetry. The light wind lasted until about 10 p. m. when it died out entirely and left the camp as quiet as a summer morning. Very little noise was noticed in the streets during the evening, the boys evidently husbanding their resources until this evening when they will break loose and "let her go for all she's worth!"

This morning opened bright and hot, and gave indications of the scorcher, which before guard mount at 9 a. m. set every one to perspiring.

To offset the intense heat and cool the fevered brows of the citizen soldiers a delightful breeze came out from the west and tempered the atmosphere for the remainder of the day. The contrast from the opening of Thursday was so great that everyone felt happy and confident that "Governor's day" would prove a great success.

The routine duty of the camp was entered into with spirit by the men, and stragglers and shirkers were noticeable from their absence. The surgeon call brought but very little business to Major Lapierre and his assistant, Lieutenant Thompson. The surgeon is an important officer in the regiment and the surgeon of the Third is always ready when called upon; but the boys have taken such good care of themselves this year that the surgeon's occupation is not a remunerative one. Major Lapierre does not find fault about that. In fact, he is perfectly satisfied with the condition of things.

Quartermaster Stark issued ammunition this morning, and at company drill, as well as on battalion drill, the movements were accompanied with the drill in skirmish firing. With the infantry, the artillery and sea coast battery firing there was noise enough to satisfy all who came to see mimic war, and to frighten all the old farm horses on the ground.

The drill was curtailed this morning as the brigade had to get ready to form to receive Gov. Morris, who was booked to arrive at 11 a. m. Major Albee had his detail at the sea coast battery at work early, and threw a large number of shells into the air over the bay, which delighted the large crowd of spectators. The major is an old army officer, bluff in speech and command, but a polished gentleman, and ready at all times to show and explain to the civilian everything connected with his service. One of the first orders he gave his detail at the battery was that citizens who visited the battery should have a chance to see all there was to be seen. He says the citizens pay the bills and they have a right to see the show. The major is very popular with the camp, and one of the best horsemen on the ground.

At 11 a. m., the time for the governor's arrival, there was a large crowd upon the ground, but not large as compared with the visitors of former years. The Second regiment formed, and, preceded by the governor's staff, marched to the station, where they met and escorted to his quarters the commander in chief. Gov. Morris is in poor health and unable to appear on horseback, therefore rode in a hack to the camp, accompanied by Capt. Withered, U. S. A., and his private secretary.

The brigade had formed to receive him and accorded to the commander-in-chief all the honors due his rank. On arriving at his quarters Gov. Morris held a reception for a short time, at which his staff and many prominent citizens of the state were presented to his excellency.

There was a large attendance today of the prominent men of the party of which the governor is the representative, and they called and paid their respects. Among them were State Treasurer Marvin H. Sanger, Lieut. Gov. Cady, Railroad Commissioner Alexander Robertson, Selectman Thurston B. Lillibridge, Joel W. Webb and Clerk of the Senate C. W. Comstock.

After the [illegible] the officers of the Third assembled at Col. Tyler's headquarters for the purpose of filling the vacancy of lieutenant-colonel. The ballot resulted in the choice of Col. George M. Cole, now of brigade staff and formerly captain of Co. I. The election seems to be a satisfactory one to most of the officers. The ballot stood 18 for Cole, 9 for Major Fox and 1 blank.

Promptly the call was sounded for the brigade formation for review and parade. Every available man was in his place. It was terribly hot, but the troops fought nobly, and the review by the governor and the parade were successfully accomplished, and evidently enjoyed by the vast crowd of spectators who had gathered since noon.

One of the most noticeable features of the parade this year was the new service of the signal corps which appeared on wheels. Every one of the thirty-six members of the corps kept his 'cycle in position, and take them in rank presented a fine appearance. The marching of the companies was noticeable for perfect lines, proper distances and systematic turns.

Battalion drill followed, and powder was burned in a sufficient quantity to satisfy all. The duties of the day wound up with brigade parade at 5 o'clock.

Among those seen on the ground today was ex-Col. Ericson of the First, who was warmly greeted by his old comrades.

Major Albee was inspector of quarters this morning, and found the Third in fine shape and expressed regret that he should have to make two companies down five each.

Mr. Murphy, the temperance orator, was present at the meeting in the Y. M. C. A. tent last evening and made a stirring address to a very large audience. Tonight the entertainment will be conducted by Company E of the Fourth, under the management of Capt. Burpee.

Mr. and Mrs. James Duggan and Mrs. Richard McCloud and daughter of Durango, Colo., were the guests of Gen. Cassidy today.

Commissary General Jameson is the one officer at executive headquarters who carries heavy responsibilities with him. He looks out for the food which is daily served to the men. He is constantly on the watch to detect any breach of contract on the part of the caterers, and has a daily inspection of the meats and vegetables brought upon the ground.

In his reports he always gives the Third a clean bill for the mess house, commends the cooking and cleanliness of the kitchen and mess house. In his inquiries he has found the men of the regiment very well satisfied with their food.

The companies of the brigade which intend to illuminate tonight have their preparations well along, many of them causing considerable curiosity among the visitors.

During the parade one of the men in the Second fell from sickness, and was taken up by the hospital corps. The case was an urgent one, and Major Lapierre sent the ambulance with Hospital Steward Bevin. The driver of the ambulance was ordered to stop, turn round and leave the field. This he did not do, but obeyed the surgeon's order. Col. Burpee of the First put him under arrest and lodged him in the guard house. The case was reported to Colonel Almy, who asked for an explanation from Colonel Burpee, and was told that it was none of his business, and that if the driver was ordered released he (Colonel Burpee) would not release him. The case was reported to Surgeon-General Cassidy. What the outcome will be remains to be seen. In military, as everywhere else in emergency cases, the ambulance has the right of way.

During the Gatling gun drill this afternoon, the horses of the First regiment became unmanageable and ran up the field to the quartermaster's department where they were separated from the gun, but with caisson attached dashed into the crowd. The rider retained his seat until the horses were thrown, when he escaped uninjured. No casualties resulted owing to the admirable action of the rider. The members of the battery were so elated over the affair that they took him on their shoulders and gave him quite a whirl.

LOUIS NORTON FOUND

Rescued From Drowning by the Life Guard on the Jersey Coast.

ATLANTIC CITY, N. J., Aug. 25.—Faint cries for help coming from the surf were heard breaking in among the spiles of the wooden pier here last night. They attracted the attention of Chief of Police Aldridge and Life Guards Jones and Mills, who were standing on the board walk near the foot of Tennessee avenue. The guards saw that it was a man struggling, and leaping in, in their citizen's clothes, they pulled the drowning man out at the risk of their lives.

He was clad only in shirt and trousers, and was with difficulty restored to consciousness, when he told the following remarkable story, which New Haven people have verified so far as the starting point is concerned.

The man's name is Louis Norton, a clothing dealer, 26 years of age, residing at New Haven, Conn. On last Friday week, while out bathing in a row-boat, on the Long Island sound, his boat was boarded by two Italians from a lugger near by. They rifled his clothes, taking about $400 in money and valuables. When Norton remonstrated, they knocked him senseless, carried him aboard their boat and bound him hand and foot. After scratching his name off several trinkets which he asked them to restore, they returned the keepsakes to him.

They kept him prisoner till the following day. Norton only saw two men, and they Italians, one of them spoke fairly good English. On the second day the men put a lot of goods in their row-boat and pulled off to shore, evidently to dispose of them.

While they were absent Norton managed to release himself, cut the anchor rope of the lugger and sailed off before the wind. Being unable to manage the lugger he was at the mercy of the winds. He failed in trying to attract the attention of passing vessels, but as the boat was well provisioned he did not suffer in this respect.

The next morning he ran into the storm that has been devastating this coast and the lugger was wrecked. Clinging to a plank he was washed ashore as stated above.

Norton telegraphed his uncle, A. O. Norton, 56 Church street, New Haven, this morning and persons from New Haven came to Atlantic City and recognized him.

[The story of his leaving New Haven on August 11 to hire a boat to go to Black Rock for a bath has already been told in these columns. Since that time nothing had been learned of him, and it was supposed he was drowned.]

Identified by His Father.

WEST HAVEN, Conn., Aug. 25.—A. O. Norton, father of the Louis Norton, who was washed ashore at Atlantic City yesterday, has identified his son by sending such messages to him that the young man had to prove himself by his answers. The young man was near at hand to Atlantic City when his father telephoned the crucial dispatch and settled all doubts by promptly replying, "Tell my father I'll be home very soon and play 'Ernani' on the piano for him." As this is known to be the boy's favorite opera, his father gladly conceded there was no mistake in the identity of the young man. Norton senior did not go to Atlantic City tonight.

BISHOP M'MAHON'S SUCCESSOR.

Priests Talked of as Fitted for the Vacancy.

A writer on the Meriden Journal, speaking of a possible successor to the late Bishop McMahon being chosen from among the priests of this diocese, has the following to say relative to priests well known in this part of the state:

"Up in New Britain is Rev. Michael Tierney, a most talented priest.

"In Hartford there is Rev. Thomas W. Broderick of St. Peter's, formerly of Meriden, the almost constant companion and confidant of the late Bishop McMahon, who probably knew more of his methods and plans than any other priest in the diocese. He is conceded to be well equipped for the place.

"Over in New London is one of the brightest, brainiest clergymen in this or any other diocese and who would be an honor to the dignified position—Rev. Thomas P. Joynt of St. Mary's Star of the Sea church, and fifteen years ago a popular curate of St. Rose's church."

The Otis Library.

The Otis library is a busy place during these hot days. The demand for summer reading has increased. So much so that the average daily output of books is 260.

Miss Anna G. Rockwell's services are still required, and that lady who is so admirably equipped in book matters generally is still a member of the library force. Misses Greenwood and Crandall are also at their desks, and Mrs. Robinson's return from Chicago is only a matter of a day or two. Librarian Trumbull has had no regular vacation, but took a day's outing to Block Island Friday.

During the morning the reading room is shady and cool, and has usually a generous complement of visitors.

THE FULL PLANT WILL START UP.

Merrimack Print Works, Employing 2,600 Operatives,

NEXT MONDAY MORNING.

There Will Be No Cut Down of Wages Now Nor in the Fall.

LOWELL, Mass., Aug. 25.—The full plant of the Merrimack mills print works, and all employing 2 600 operatives, will start up next Monday morning on full time and run permanently. It is not anticipated that any future developments will affect them. There is still better news. There has been a conference of Lowell mill treasurers and the decision is that there will be no cut down of wages, either now or in the fall. The other mills shut down will probably follow the Merrimack and start up.

KEYSTONE CLUB SHOOT.

The Fourth and Last Day's Events at New London.

NEW LONDON, Aug. 25.—The fourth and last day's shoot of the Keystone club's annual tournament opened this morning with a good attendance of noted shots.

The programme consisted of six events as follows:

No. 1, ten singles. First money won by Thomas of Bridgeport and Heikes; score 10; second, Cady, Beckwalter, Dickey, Buckbridge, Rockwell, Bristall and Van Dyke, 9.

No. 2, fifteen singles, amateur rules. First money, Mitchell, VanDyke, Dickey, and Anthony; score 15; second, Todd, Jones and Heikes; score 14.

No. 3, twenty singles, novelty rules. First money, Rockwell of Bristol; score 19; second, J. Wolstencroft, Jones, Van Dyke, Todd, W. Wolstencroft and McMurray, 18.

No. 4, state championship race, twenty-five singles, teams entered from Massachusetts, New Jersey and Connecticut, five men each. Won by Connecticut: score 111, New Jersey 103, Massachusetts 105

No. 5, one hundred singles, individual championship of the United States and a diamond ring, 25 entries. Won by John W. Connor of Knoxville, Tenn., score 96; W. W. Boston, 95; F. E. Bennett, 94; McMurray and Van Dyke, 93.

No. 6, fifty singles, championship team race between east and west, won by the western team, score [illegible], eastern 261.

WALLACE & SONS' FAILURE.

Ansonia Brass Works to Start Up Next Month.

ANSONIA, Aug. 25.—Thomas Wallace of this place and Robert M. Thompson, who were appointed receivers for Wallace & Sons, the brass manufacturers, who recently failed, have qualified and will at once proceed to take an inventory. It is probable that the mills will resume operations on Monday, September 4.

A MISSING MAN.

Henry Brown of Central Village is Being Hunted Up.

Henry Brown of Central Village left his home about 3 o'clock Wednesday afternoon with his rifle, telling his wife he was going out to shoot woodchucks and see a friend about three miles distant. He was last seen about 4 o'clock of the same day apparently all right.

Searching parties have been working in all directions, and have found the rifle loaded leaning against a post about one and a half miles west of where he was last seen.

Brown is about 48 years old, weighs two hundred pounds, square built, five feet ten inches in height, black hair. He is quite bald, and wears a long, heavy black mustache. He had on when he left a soft black felt hat, blue checked jumper and overalls, and number nine shoes.

It is thought that he has lost his mind and wandered away.

Mirth and Music at Gales Ferry.

The Yale boat house at Gales Ferry was the scene of a merry party Friday night. A number of young ladies, among whom the leading spirit was Miss Grace Palmer of Uncasville, gave a social and dance to Messrs. Buckingham, Reynolds and Trafton of Norwich who are camping in the Columbia boat house. The house was very prettily and tastefully decorated.

The affair opened at 9 o'clock with a grand march led by Miss Palmer and her brother Edward. This was followed by a programme of sixteen dances, which included all of the latest society tunes. An elaborate lunch was served by the young ladies at about midnight. Mr. Edward Palmer and Mrs. C. D. White of Tucasvill and Mrs. Perrin of New York were the chaperones. Guests were present from Brooklyn, New York city, Hartford, New London and Norwich.

On the River by Moonlight.

The steamer Gypsy took 100 C. C. W.s of the Central Baptist church and their friends for a moonlight excursion Friday night. The sail down the river and out of New London harbor to the light ship was delightful and romantic with the full moon. Part of the excursionists were landed at New London and took the electric cars to Ocean beach. The affair was admirably managed and the happy songs of the party floated over the bright water on the sail home.

THE GALE ON MOUNT WASHINGTON.

Wind Blew at the Rate of 180 Miles an Hour.

MOUNT WASHINGTON, N. H., Aug. 25.—Early yesterday morning a heavy northeast storm set in, and by noon the velocity of the wind was over 160 miles an hour.

Early in the evening the wind shifted into the northwest and rose until 9.30 this morning, when it reached its maximum, not less than 180 miles an hour.

The Summit house trembled from top to bottom and a chimney went with a crash, but no great damage was done.

It was the most severe gale that has taken place in mid-summer within the last seventeen years, and extended all through the White Mountain region.

New Points Against Dr. Graves.

DENVER, Aug. 24.—County Attorney I. N. Stevens returned to-night from the east, where he has been consulting the witnesses in the Graves case.

"I secured new evidence," he said, "and direct evidence at that. It comes from Massachusetts, and will assist in showing conclusively the guilt of Dr. Graves of the charge of poisoning Mrs. Barnaby. We will have all of the former witnesses on hand, and will be ready to give the case a thorough, exhaustive examination. I have no doubt that the county commissioners will stand the expense of the trial."

Fifth Ticket Office Burglary.

WOODSVILLE, N. H., Aug. 25.—The ticket office of the Concord & Montreal railroad at Bethlehem was broken into last night, and the contents of the money drawer and ticket case were overhauled. Loss unknown.

Five stations have been broken into in this vicinity within a month.

Will Be Cremated.

ROCKVILLE, Conn., Aug. 25.—The body of Miss Jennie L. Loomis, who committed suicide in Tolland by shooting herself, has been placed in a vault in Rockville. It will be taken to Baltimore, Md., for cremation.

Attleboro Tanners Assign.

ATTLEBORO, Mass., Aug. 25.—The old established firm of William Cooper & Co., tanners at South Attleboro, assigned to Henry W. Gallagher today. The assets are over $200,000, and liabilities only $70,000.

Orange cake and orange bars at Mrs. Chapman's bakery, No. 7 North Thames street.

Gen. Lew Wallace's new book, "The Prince of India," is for sale by Noyes & Davis.

Hough calls your attention to two special drives and would advise you to take advantage of both.

Cranston & Co. have received "The Prince of India," by Gen. Lew Wallace, author of "Ben Hur."

Fine specialties in neckwear, half-hose, negligee and dress shirts; prices as low as the lowest at Smith & Gilbert's.

George W. Kies & Co. invite the ladies to call and see their French kid button boots, which they have reduced in price.

Try Reid's ice cream. Sold by N. D. Sevin & Son. Made from pure cream, and is just the thing to take home, as it will keep hard one hour.

Cottolene, Worcester salt, London parlor matches are specialties with L. A. Gallup, wholesale grocer, but he carries also a large and full line of general groceries, including tea, coffee, spices, etc.

Public services will be conducted at the Central Baptist church on Sunday by Rev. William Coburn. He will preach morning and evening and conduct an "after meeting" at the close of the evening service.

Parties in want of furniture, carpets or wall paper will find it to their advantage to call and examine the large stock of N. S. Gilbert & Sons, which they are offering at low prices. See advertisement.

Saturday shoppers who are in need of parasols, underwear, men's furnishings, hosiery, small wares, etc., and desire to reap a rich harvest for a small investment should attend the Saturday sale at Porteous & Mitchell's. See advertisement.

NORWICH AND VICINITY.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

City Court—Kellogg, Judge.

James Connor was tried for a breach of the peace and fined $3 and costs, $12 88.

Thomas Donahue of Worcester for intoxication was fined $1 and costs, $7 68.

Silver Dollars.

The Willimantic Chronicle comments upon the fact that silver dollars of the coinage of 1878 are the most conspicuous pieces of money in Norwich circulation, and says, "A great many were spread about town last week and they are still there. They are circulated to a great extent, as no one cares about handling the clumsy coin and every one seeks to pass them off. A singular fact is that all of them are apparently brand new, indicating that they have been hoarded somewhere, and were only brought forth when currency was at a premium."

A Humane Movement.

Admiral Foote post, G. A. R., has voted to appoint a committee of five to inquire into the matter of erecting a number of cottages for the veterans of the Soldiers' home at Noroton. The idea is to provide homes where the wives of these old soldiers can live with their husbands. Many of the veterans are invalids, and while good nurses are provided them, it goes without saying that the nursing of a wife would be preferable. The plan is recommended by General Pierpont, Adjutant-General Thatcher and others.

HE GOT THERE.

A Swede Who Lost Flesh to be a Policeman.

Olof Oleson, a good-natured, rotund Swedish resident of Fair Haven, recently presented himself as a candidate for admission to the New Haven police force. Olof tipped the scales at 260 pounds and was told that he exceeded the weight required by sixty pounds. He at once began a severe system of training, which reduced his weight in one week to 200 pounds. He was to appear before the board of police surgeons for examination one afternoon last week and his anxiety increased when the scales showed that his 200 pounds still remained with him.

He had only four days left, but he struggled so valiantly with his flesh that his friends began to fear for his life. Sea baths, dumb-bell exercises and fasting were indulged in more liberally than ever and on the morning of his examination he had but four pounds to reduce. Then he started for his private track at East Rock and ran till noon. Without stopping to eat dinner he appeared at the police headquarters and to the astonishment of the police surgeons tipped the police scales at exactly 199½ pounds. That night Olof's name was among those placed on file for reference.

THE PEACE MAKERS.

Acceptances and Regrets from Eminent People—Robert Treat Paine's Reply—Grover Cleveland's Regrets by His Private Secretary.

Mr. Levi W. Crouch of Norwich is one of the most active promoters of the interests of the Peace society, which holds its annual meeting in Mystic grove next week. He is endeavoring to arrange for the Gypsy or some other steamer to convey the forty or more people who will attend from this vicinity.

Among the favorable replies to invitations to be present received by Mr Crouch is one from Amos Parker Wilder of The New York Commercial Advertiser, who promises an informal address on Wednesday along the line of "Brothers All, by Race United;" also one from James H. Earle, of the Boston "Contributor."

Among the large number of greetings, acknowledgments, letters of regret, etc., are replies from Robert Treat Paine of Boston, who says among other things "Just now I feel deeply the wrong that our country has done to the Chinese by the Geary bill. Today's newspapers (August 22) contain a message from China to President Cleveland, couched in language so just, so magnanimous, so moderate, that China puts the United States to open shame in comparison."

Private Secretary Thurber replying for President Cleveland says: "The president directs me to acknowledge the receipt of your favor of the 19th inst., and to thank you for the invitation to attend your convention. He regrets, however, that his engagements are such that it will be impossible for him to attend your annual gathering, but on this account he is no less thankful for the thoughtfulness and consideration which prompted your courteous invitation."

Albert Shaw of The "Review of Reviews," Wm. H. Arnoux, S. S. Hour, James M. Beck of Philadelphia, the Rev. C. W. Morrow, Cullen B. Foote, and Wm. H. Hall of the Connecticut Sunday School association, Yung Wing of Hartford, John Clark Ridpath, who is detained in New York by the publication of a new book, Mrs. M. E. Gleason, the temperance worker, S. H. Browne of the Columbia, S. C., "Neighbor," A. F. Foster of the "Day Star," and David Hill of the Richmond, Ind., "Christian Arbitrator" are among those who have sent regrets.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

DROWNED IN THE SHETUCKET.

The Sternfeld Brothers Perish in Consequence of a Drifting Cask.

Two men were drowned in the Shetucket river, just below the Preston bridge, at 4 30 o'clock Friday afternoon. They were brothers, Samuel Sternfeld, aged 32, and Solomon Sternfeld, aged 21.

The younger man saw a cask floating by his house on Talman street and, stripping off his clothes, swam out to get it. He became exhausted and called for help to his brother on the shore. Without stopping to take off his clothes, the brother plunged in, reached the drowning man and, tying a handkerchief about his neck, started for shore.

The load was too great for him, though he was a powerful man, and he called to men on the bank to come to his assistance with a boat. It was some time, however, before one reached the spot, and both men had disappeared.

Three boats provided with poles and grappling irons were fitted out, as soon as the drowning became known, and in a few minutes the older man was caught and brought to the shore. Coroner Park ordered the body moved to the old battle ground and thence sent home. The other body was found at half-past six.

The young men were Jews and came to this country from Kouvno, Prussia. The younger had been here four months and was unmarried. Samuel, the elder was a naturalized citizen, having resided here for six years. His young wife, who is in a delicate condition, saw the whole affair and is nearly crazed with grief. The men were both employed as weavers in the Shetucket mill.

THE SARATOGA EXCURSIONISTS.

A Wet and Breezy Trip—Entertainment Enough—A Good Time.

The Saratoga excursionists arrived home at 1 o'clock Friday morning, tired but satisfied with the trip. The scenery by the railroad was charming, especially along the Deerfield valley and among the Berkshire hills. Hoosac tunnel, four and three quarters miles long and lighted by 1,500 electric lights was a wierd scene as viewed from the rear of the train. Very noticeable was the Deerfield river, placid on the upward journey but angry and surging after the storm when the train passed by on the homeward way. At Williamstown the spires of the college building emerged from the thick foliage which hid the buildings themselves. One or two of the beautiful society lodges could be seen on the hill and also the great summer home of Proctor, of Ivory soap fame, which has just been completed at a cost of hundreds of thousand of dollars.

In Saratoga the excursionists found enough hotels to suit their tastes and purses. A ball was given at the Grand Union and a handsome painting called "Genius of America," formed a side of the ball room, and represented a cost of $75 000.

Congress park and the Pompeian house were visited by many Norwich people. In the latter are art galleries, antique displays, Mt. Vesuvius represented, and the panorama of the demolition of Pompeii. The excursion was a success and gave pleasure to all who took the outing.

A DAY FOR PRAYER.

Hartford Ministers Planning to Petition Governor Morris.

Hartford ministers are planning to send a petition to Governor Morris to appoint a special day for prayer and fasting to relieve the country in its present condition. One minister said in regard to the matter: "As a general rule I am not in favor of uniting religion with the government, but in this instance I consider the suggestion a good one. I believe that good would result and there certainly would be no evil.

"Such matters as those which are now causing such grave concern throughout the country are placed in the hands of the government for settlement because the people of the country believe the government to be honest. I think that anything like partisanship should not be allowed to enter in the settling of this matter. The best results are what are wanted and these must be obtained honestly.

"Yes, I believe that a day of prayer would be beneficial. It might help to restore confidence, but what we want more than confidence is decency. It is just such men as are drawing their money from the banks and putting it down in their pockets that are causing this trouble. It is a case of where every man is putting his hand on the ark again. It is selfishness to my mind more than anything else that is causing the present stringency."

EASTERN CONNECTICUT.

PUTNAM.

Hired a Bicycle for Two Hours and Did not Come Back.

One day this week a young man of good address, entered the jewelry store of George O. Shaw. His errand was to hire a Columbia wheel, to enable him to go a little distance beyond Brandy hill and make a collection. He said he would return in about two hours, but his two hours has run into three days, and at the present writing has not returned. The young man although a stranger, seemed familiar with names and places in this vicinity. He introduced himself as a drummer, and no doubt has worked the same trick in many other towns. No clue has thus far been obtained of the whereabouts of the unknown thief.

Mrs. F. H. F. Ballou and daughters, Addie and Emma, who have been visiting Miss Mamie Johnson and Miss Bessie Burt, start today for their home in Fitchburg.

Miss Bessie Carlin is sojourning at her home in New London.

The mills in the upper village stopped four hours on Friday. Cause, low water.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

Sunday Services.

First Congregational Church, Norwich Town, the Rev. Charles A. Northrop, pastor. Preaching services at 10.30 a. m. Sunday school at 12 m. Evening service at 7 o'clock, in charge of the Y. P. S. C. E. The Rev. Cyrus Hamlin, D. D., veteran missionary, formerly in Turkey, will preach.

LAYING THE WIRES.

Tariff Talk Now Prominent at Washington.

LINE OF ACTION NOT TAKEN.

President Cleveland and Secretary Carlisle Will Be Consulted.

WASHINGTON, Aug. 25.—The change in the chairmanships of the ways and means and appropriation committees was made after a general talk among the leaders of the Democracy in congress, and not at the instance of the president and Secretary Carlisle, as has been asserted. In the conferences among the Democratic leaders it was deemed wise to adopt a new line of policy concerning tariff reform and public expenditures. In order to accomplish this, the substitution of new men was regarded as essential. The course of Mr. Springer and Mr. Holmans in the last congress was not satisfactory to the party on these subjects. The incoming of a Democratic administration in connection with a congress entirely in harmony with the executive, demanded new men. It is now proposed to commence at once in this new line of legislation in conformity with the Chicago platform. The president and secretary of the treasury will cooperate with the labors of both these committees.

The tariff measure which is to be prepared forthwith will be in entire accord with the well known views of President Cleveland and the policy enunciated by

Chicago Convention in its Platform.

Chairman Wilson's views are entirely different from those of Mr. Springer on tariff reform. During the last congress, when Mr. Springer was on the tentative line of revision, which included at least a dozen different measures, Mr. Wilson favored the preparation of a general bill, but his suggestions were not heeded. As a result it is now claimed no advance was made in the direction of a revenue tariff.

It has not yet been fully determined whether the bill will be a tariff for revenue only or one with incidental protection. Before anything definite shall be determined in this direction Chairman Wilson will have a conference with President Cleveland and Secretary Carlisle. Their wishes in the premises will be the line of action pursued by the majority of the committee. There are many Democrats

In the Eastern and Middle States

and some in the west who think that it would not be policy to attempt a very sweeping tariff reform with a general reduction of duties with the industrial interests of the country in their present condition. This wing of the party does not propose to encourage any very radical departure from old lines until they can see their way clear under more favorable conditions.

It is well known that President Cleveland's idea is to go ahead at once on the line of free raw materials and upon this make corresponding reductions on all manufactured articles in which these raw materials are used. If the president and Secretary Carlisle adhere to this idea when Chairman Wilson confers with them the

New Tariff Bill Will Be Based

on that line. Chairman Wilson says that the Democratic members of the committee will hold frequent conferences for the purpose of mapping out a line of revision in the direction advocated by the Democratic party. He regards the allusion by the president in his message to his original intention to call congress together in September for the revision of the tariff, as an intimation that this subject will be brought forward as soon as the silver question is out of the way. The chairman, therefore, intends to have the tariff revision bill ready for introduction and reference at the earliest possible moment after the adoption of the new rules.

DEPEW WEARS A SMILE

Received a Letter Notifying Him He Was Heir to a Million.

NEW YORK, Aug. 25.—Sitting in the big president's room at the Grand Central station yesterday, Chauncey M. Depew wore a smile of contentment. On greeting him the exclamation would not be repressed: "Why, Mr. Depew, you look as if you had fallen heir to a fortune." Mr. Depew looked sharply at the speaker and then launched out into some of his inimitable stories.

Finally he added: "You told me when you came that I looked as if I had fallen heir to a fortune. It seemed like mind-reading. Here's something like it—read this."

Mr. Depew handed over a letter which had come in yesterday morning's mail. It read thus:

New York, Aug. 23, 1893.

MY DEAR MR. DEPEW—Just 13 years ago today I found myself in a position in which many others have likewise been—where the possession of a little capital altered the whole course of my life and placed me on the road to prosperity.

I sought the assistance, at the time, of many friends, so-called, but it remained for a stranger to aid me and eventually make my fortune for me. I was loaned $300 only, with that amount I succeeded in raising other capital, with which I carried through an invention for crushing sugar cane.

Today I possess on the island of Cuba a sugar plantation and two tobacco plantations. Their estimated value is $2,000,000.

I have just made a flying trip to this city for the purpose of drawing up a will through my lawyer here, in which it is my intention to leave one-half of my entire possessions to the man who assisted me with $300 13 years ago. I am suffering from an incurable ailment which is liable to end my life at any moment.

The man who loaned me the $300 which led me into the path of fortune was yourself.

I shall take great pleasure in calling upon you if my health permits. At present I am confined to my room. Yours in gratitude,
PAUL HARTCHER.

"Before accepting congratulations," continued Mr. Depew, "let us wait a while. I have no recollection of Mr. Hartcher or of the incident of the loan, but I have made hundreds of them without making any memorandum and I tried to reckon up how much I had invested in that way. As near as I can figure I have paid out in my lifetime in the way of loans about one-tenth of my income."

GOVERNOR'S BED SEIZED.

Experience of Illinois' Executive in a Failing Chicago Hotel.

CHICAGO, Aug. 25.—The bed in which Governor Altgeld of Illinois was sleeping was seized by a deputy sheriff yesterday. The governor was staying at the Windemere hotel. The hotel went into the hands of William G. Stevens as receiver, and at 1 o'clock a. m. yesterday attorney Isaac Mayer, accompanied by a deputy, pounded on the door and entered the governor's chamber.

The governor, who had been asleep, raised his head and called out, "Hello, Mr. Mayer, what do you want of me at this time of night?" "Nothing very much," responded the attorney, "simply the bed you are sleeping on." The governor smiled. "You can take it," he said. "I can just as well sleep on the floor."

"The sheriff has instructions to take the bed on which you sleep," exclaimed Mr. Mayer, "but if you will constitute yourself the custodian of the property, we will not disturb you." The governor laughed again, dropped down on his pillow and murmured: "All right, good night!" He was soon asleep.

The Windemere Hotel is one of the most fashionable establishments in the World's fair district. The assets are said to be about $400,000, and the liabilities less. The hotel cost $900,000.

HATCH HAS CLEAR FIELD.

Mayor Knowlton Withdraws From the Race For Bank Commissioner.

CONCORD, N. H., Aug 25.—Mayor E. J. Knowlton of Manchester, who has been considered as easily leading in the race for the vacancy in the office of bank commissioner was in town this morning, and in response to an inquiry as to the outlook, stated that he had withdrawn in favor of John Hatch of Portsmouth. He stated that he had been earnestly importuned to take this step by friends of Mr. Hatch, and had done so at their solicitation.

Mr. Hatch is an attorney, ex-representative, and while he practices law at Portsmouth his home is at Greenland. Now that Mr. Knowlton is out of the way, it is understood that Mr. Hatch will have the undivided support of the Democratic members of the council, and his selection is looked for. The matter will be decided next Tuesday.

WILL FORM A UNION.

Striking Longshoremen Will Carry On Their War On Organized Basis.

NEW YORK, Aug. 25.—The bitter war of the longshoremen waxed fiercer yesterday. Superintendent Byrnes watched developments of the riots which were not longer [illegible].

Early in the day a gang of Italian laborers was brought from Brooklyn, where they had been recruited by the boss and on Mulberry bend. As they reached the ward line pier a crowd of 400 strikers gathered on the opposite side of the street and watched closely.

The first assault was committed about the same time. Two Italians were seen coming down Roosevelt street, when suddenly the crowd swept across the street like a wave. The Italians fled with the terror of death stamped upon their blanched faces.

They were soon overtaken by the mob, and kicked and [illegible] until a policeman came at the double and rescued the men. Soon after two Italians were pounced upon, but one of them flashed a stiletto and covered the escape until they reached a patrolman, who took them in safety to an elevated railroad station in Fulton street.

During this time a crowd of several hundred men heard that 25 Italians were at work on pier 15. The granite paving blocks were up at this point, and the men seized them and commenced a heavy bombardment of the men at work.

Several Italians were struck, and in a body they rushed for the barge and took shelter on the pier. A squad of policemen had to guard the bulkhead while the men resumed work.

In the afternoon a wagon load of Italians was brought over from Williamsburg by the Mallory line people. The wagon was soon the center of a goodly crowd, who sprang upon the axles and the wheels and began to punch the Italians. The police soon came to their rescue, however.

It is stated that the longshoremen will soon form a union and plans have been formulated to carry on the present strike on an organized basis.

SECRET CONFERENCE.

Large Mill Owners of New England Talk Over the Outlook.

FALL RIVER, Aug. 25.—It is understood that Thomas E. Brayton of the Union mills went to Boston yesterday to represent Fall River treasurers in a conference of large mill owners in New England. What was done will be kept secret until the next meeting of manufacturers is called.

The yarn that Fall River mill men are being used as a cat's-paw by other New England manufacturers is declared to be false by the treasurers interested. They say they have everything to gain and nothing to lose by a combination with other manufacturers. Whether other places reduce wages or not, it has been decided by some treasurers that a curtailment on the wage roll must be made before they run their mills on the present prices for goods. They will stave off a reduction if business improves, but as they now feel, a reduction will be made before November.

Fire Sweeping the Prairie.

MOMENCE, Ill., Aug. 25.—The most extensive prairie fire that has ever visited this county is sweeping the region southwest of this city. It started about noon yesterday on the line of the Chicago and Indiana Coal railroad, six miles from here and has swept over several thousand acres. It has already crossed the state line and swept around in the direction of Lake Village, Mich.

Lighting Boston Streets.

BOSTON, Aug. 25.—Mayor Matthews has signed contracts with the Bay State Gas company, giving to that company the lighting of the streets in South Boston, Dorchester, Roxbury and the city proper. The contracts run three years from July 2, 1893, or until a new agreement is made. The city is to pay 10 per cent less than is charged to other consumers in those districts.

For Monatiquot Cup.

WEYMOUTH, Mass., Aug. 25.—A race will be sailed by the Monatiquot Yacht club Saturday afternoon off Fort Point, North Weymouth. The race will be for the Monatiquot cup, which has been offered by a prominent member of the club, to be sailed for by all yachts enrolled in the club without regard to classification.

Another Ticket Office Robbed.

WOODVILLE, N. H., Aug. 25.—The ticket office of the Concord and Montreal railroad at Bethlehem was broken into last night, and the contents of the money drawer and ticket case overhauled. Loss unknown. Five stations have been broken into in this vicinity within a month.

Roofer Electrocuted.

BOSTON, Aug. 25.—Thomas Wall was instantly killed at 11:30 o'clock this morning by contact with a live wire. Wall, who is a young man of 30, was employed as a roofer. This morning he was engaged at work on the roof of the building on Washington street. A live wire extended across the building within reach of the workman. Wall, thoughtlessly or accidentally, took hold of the wire, and the powerful current rushed through his body. Death was instantaneous. He was immediately taken to his home.

Vitriol Thrower In Court.

LYNN, Mass., Aug. 25.—Theresa Hyson, the young woman who threw vitriol in the face of George Begenson, her one-time lover, on Thursday afternoon, was arraigned before the district court this morning, charged with assault by throwing vitriol. She refused to make any statement and was held in $800 for a further hearing Saturday.

Actress Weds a Lord.

LONDON, Aug. 25.—Pelican, just out, announces the marriage of May Yohe, the American actress, to Lord Hope. The marriage was kept secret until a few days ago, when it was announced to some intimate friends.

HOOD'S SARSAPARILLA.

Almost Blind

With Humor and Inflammation in the Eyes

"My little boy fell from his high chair, injuring his nose, and severe inflammation appeared in his eyes. He grew worse and worse until we feared he would lose his sight entirely. Medical advice and various medicines failed to benefit him until, hearing the good Hood's Sarsaparilla had done for others, we concluded to try it. I must say Hood's Sarsaparilla worked like a charm. While taking two bottles the inflammation gradually disappeared, his eyes grew stronger so that he could bear the light. He was soon

Hood's Sarsaparilla Cures

completely cured." Mrs. J. H. Purcell, Favorite Place, 500 South St., Piqua, Ohio.

will receive prompt attention. aug19d

The Bulletin.

VIOLETS IN THE GRASS.

The blue wild violets in the grass,
They smile up at me as I pass
The tender hue of April skies.
They mind me of my baby's eyes,
My bonnie little laughing lass
Amid the violets in the grass!

The bonniest babe was ever born!
Her tresses like the tasseled corn,
Her mouth the sweetest half blown rose,
Her laugh the merriest breeze that blows!
Her eyes, what could their blue surpass?
Not e'en the violets in the grass.

Ah me! how plain I see her stand,
Her feet sunk in them, and her hand
Eager to pluck them all for me,
Her face aglow with baby glee,
Her fingers hidden in the mass
Of blue wild violets in the grass!

Again I see her, laid at rest,
The violets nestling in her breast,
The waxen fingers, white and cold,
Still clasp them in their patient hold,
But knew not now, alas, alas!
The touch of violets from the grass!

Soft cradled on a sunny slope,
Watched by twin angels, Faith and Hope,
My pretty baby sleeping lies
And as it were her own sweet eyes
Smile up to greet me as I pass
The blue wild violets in the grass.
—Katharine Fenetitis in Youth's Companion.

THE ELLA NOBLE.

"I was only 19 years old when I shipped the first time," said my friend, the old sailor. "The craft was a brig called the Swallow, and she was bound for the west coast of Africa, having a cargo of cotton cloth, boots and shoes, rum in casks, needles, brass kettles, cutlasses, old muskets and other stuff that could be readily traded for gold dust, nuggets and ivory with the natives. In those days, more than 40 years ago, fortunes were made in this trade, but times have changed since then.

"We had another object besides trading, for we were instructed to look after the schooner Ella Noble, which had sailed for the very locality to which we were bound and had never returned. What had become of her was a mystery, for although she was spoken when within a day's sail of the African coast no further tidings had come from her, and it was feared she had met with some fatal disaster.

"The crew were mostly made up of the roughest men found in shipping offices and along the water front, for the voyage was not a desirable one, as there was sure to be no little risk of life and the food could not be the best procurable by any means. I was not at all favorably impressed by my messmates, but my head was full of foolish notions about the romance in a cruise to Africa, and I was more than eager to go. Some of the romance faded when I was put on salt rations and compelled to do the duty of a common before-the-mast sailor.

"The captain was a brutal fellow, as he needed to be in order to command such a crew and keep them in subjection. He had a voice like a foghorn and a scowl that was black as a thundercloud. The first mate was a Spaniard named Corello. He had a fiery temper and a heavy hand, but I fancied him more than the skipper.

"For some reason Corello seemed to take a liking to me, and I afterward had cause to thank my good fortune this was true. He was not nearly so hard on me as he might have been, although I felt that my lot was quite hard enough.

"It was not long after leaving port that I observed queer actions among the sailors. There was a great deal of muttering, and sometimes I would espy some of the men with their heads together talking in low tones. I did not like this, and so I told the mate about it. He looked at me queerly, saying guardedly:

" 'Have caire. Zose men no like a tattler. If my hear you tell t'ings, some time you get'— He finished by drawing his finger across his throat in a significant manner.

"From that time I felt sure there was trouble brewing, but I remembered the warning and was careful to keep my mouth shut. My dislike for the captain increased, and I actually grew to detest the man after I saw him knock down with a marline spike a sick man whom he had ordered aloft, but who was unable to mount the ratlines.

"During the first part of the voyage the captain and Corello got along well enough, and we had sighted the African coast when they had their first quarrel. The skipper attempted to bully the Spaniard, as was his custom with the regular men, and Corello flared up in an instant. Hot words followed. All at once the master grabbed up a light running block and flung it at the mate's head.

"The aim was true enough, but Corello dodged. Then the skipper caught up a belaying pin and started for the Spaniard. I saw a flash of steel, and Corello fell back against the main hatchway, a knife in his hand. With a Spanish oath he swore he would cut the captain's heart out if an attempt was made to strike him with the belaying pin.

"For a little time the two men looked straight into each other's eyes, and then the captain's hand fell. I expected he would order that Corello be seized and put in irons, but he did nothing of the kind. Instead he retired to his cabin, and I saw a singular smile playing about the mate's mouth, while I fancied there was a burning power in his black eyes.

"That night Corello came to me as I stood my watch. He touched me lightly on the arm, whispering:

" 'I save you. Don't you be scare when the time come.' Then he was gone.

"I felt that a mutiny was threatened, and I was in doubt about what to do. I did not join the mutineers, and I had about determined to report my suspicions to the captain when I was relieved from the watch. As I was going forward I saw two forms and heard the voice of Corello saying:

" 'Not this night. Tomorrow.'

"This relieved my feelings somewhat, and I dared not attempt to arouse the skipper then, as I knew he would make a terrible racket about it, so I went to my bunk. I didn't sleep much, but the night passed without further incident.

"Morning found us becalmed at the mouth of a large river. The sun came up red and scorching, making the water shimmer like burnished silver. Not a breath of air rippled the surface of the sea or fluttered the canvas we spread. By 9 o'clock a sort of bluish gray haze crept over the sky, but the heat was none the less oppressive.

"The captain walked the deck and raved. 'Do you know where we are?' he snarled at Corello. 'The natives who inhabit this country are cannibals! What if they should take a fancy to attack us now? We'd all be served in soup and roasts.'

"The skipper seemed to blame the mate, and in less than three minutes another row had begun. This time the master did order Corello to be seized and ironed, but the order was not obeyed. Not a man moved to carry out the command. Instead the sailors stood scowling at their captain.

" 'What's this?' he roared, his face growing black. 'Do you refuse to obey me? By h—l, this is mutiny!'

" 'We are sick of you,' calmly said Corello. 'We serve you se way ze crew of ze Ella Noble was serve. Grab him, lads!'

"The skipper snatched out a pistol and retreated a few steps, swearing to blow out the brains of the first man who tried to touch him. I saw a Portuguese creeping catlike up behind the man, and I knew the brig would soon be in the possession of the mutineers unless some unforeseen occurrence prevented.

"At this very instant Bildad Downes, a cockeyed old tar, shouted:

" 'Canoes puttin off from shore loaded with blackskins! There's piles of 'em, an they're all armed. We're in for a fight!'

"In one instant the mutiny was over. Every man realized our peril, and they jumped to the rail to get a look at the approaching canoes. Downes had told the truth. A regular war party of the cannibals were coming off to attack the brig.

" 'Muskets and cutlasses, men!' thundered the captain. 'Train the gun on 'em and blow 'em out o' the water!'

"Our only chance was to fight, and that chance was really a slim one, as we were badly prepared for such an encounter. Our heavy gun was a rusty old thing, and it was doubtful if it would do much execution. But we were not destined to fire a shot.

"Suddenly a great cry went up from the throats of the natives, and the canoes sat motionless on the glassy water, while the black faces of their inmates were turned upward.

" 'Great God! Look there!'

"The sailor who uttered the cry pointed almost directly overhead, and there we saw a most astounding spectacle. A two masted schooner turned bottom upward seem to hang suspended in the air amid the bluish haze that overspread the sky! Every sail was set, but they hung idle like our own, as if she was also becalmed. We could look directly upon the deck, but not a living thing seemed stirring about her. She was deserted.

"But the most singular part of it all is that I could read her name, and I swear she was the lost schooner Ella Noble.

"In a few moments she began to fade from view. Dimmer and dimmer grew her outlines, and she was finally swallowed up and lost in the haze. When we looked at the cannibals, every canoe was scooting for the shore as fast as paddles could send them. Those natives were the worst scared lot you ever saw, and we had no more trouble with them.

"I suppose it is easy enough to account for the vision of the vessel in the sky by calling it a mirage, but sailors are mighty superstitious, and there were some sober men on the Swallow after that. No further offer at mutiny was made, and everything moved smoothly to the end of the voyage.

"But we didn't find the Ella Noble, and she has never been heard of since."—New York Dispatch.

A Detail In a Government Office.

It is the popular impression that the smaller affairs of government are very loosely run and that in any of the departments are opportunities for fat pickings by any man not overscrupulous. As evidence of the incorrectness of this theory one of the treasury department employees relates an incident of the first day of Mr. Carlisle's administration. Secretary Foster had occupied one chair at his desk for a long time, and, as men will, had become attached to it. He expressed a desire to take it with him. "Certainly," said his successor, "take it along." It was more easily said than done. First an order was necessary; then the chair was to be accounted for to the official who has such matters in charge; then it was to be paid for. It was a valueless piece of furniture. As a short way out of the difficulty the appraiser was sent for. He eyed the wreck over and said it might be worth $2 to anybody who wanted it very much.

"All right," said the new secretary. Then he put his hand in his pocket, pulled out a $2 bill, paid the official and presented the chair to his predecessor.—Washington Post.

An Old English Law.

The archives of the port of Southampton, England, contain a curious naval law of the fourteenth century. The document holds the captain of a vessel responsible for the value of the goods lost if his vessel is wrecked on any voyage begun in spite of the opinion of a majority of the crew that the wind was unfavorable.—Kate Field's Washington.

A Para-dox.

Gentleman—I want to buy a pair o' rubbers.

Boston Salesman—We don't keep para rubbers, sir.

Gentleman—Well, then, smarty, I want a pair of rubbers.

Salesman—Thank you, sir, now you are talking. What size?—Boston Courier.

The King of Siam.

The king of Siam must have been a Buddhist priest, and to become a priest one must renounce all worldly honors. Hence after Chulalangkorn had once been crowned he renounced his office and became a priest for 21 days, after which he was again crowned.—Philadelphia Press.

The Horse Knew What Was Needed.

A remarkable exhibition of instinct was exhibited by a horse at Oil City one day last week. Sunday night the horse was brought into the stable lame, and the stablemen thought it was from a sprain. They were rubbing the leg with liniment Monday morning, when the horse broke away from them and ran into a blacksmith's shop in the neighborhood. Here he wheeled up to the horseshoer and lifted up his lame leg. The man examined the leg and foot and found that an improperly driven nail had penetrated into the quick of the foot. The shoe was reset, and the horse returned to the barn.—Chicago Herald.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 27. Comment by Rev. S. H. Doyle.

Topic.—Continual witnessing. Acts xxvi, 22; Ps. xxxiv, 1-4.

Less than a year ago, Oct. 23, 1892, we had for our topic, "Witnessing For Christ." The topic at that time was general, embracing all the phases of Christians as witnesses for Christ and His gospel. The topic before us, however, is limited to one phase of the subject—namely, continual witnessing. In the illustrative references we have set forth several profitable characteristics of continual witnessing.

1. How may we continually witness for Christ (Acts xxvi, 22)? Paul attributes his ability to God. "By God's help" he says he has been enabled to stand and witness continually for Christ. God is the true source of constant witnessing. He prolongs our lives. He fills us with the proper disposition. He surrounds us with the necessary opportunities. It is therefore expedient for us to pray to our Father that He will bless us with all these necessary qualifications.

2. What are we to continually witness (Acts xxvi, 22)? Again Paul may be our model, for he witnessed "none other things than those which the prophets and Moses said should come to pass." Paul limited his witnessing to divine truths, as God had revealed them through His inspired prophets. We should limit our testimonies to the same. That which has no sanction in the divine word should form no part of our witnessing. It is not tradition and men's opinion that will affect men, but divine facts and truths. The Bible should be the source of our instruction, and our facts, and our witnessing will then be effective; otherwise it will not.

3. To whom should we continually witness (Acts xxvi, 22)? Paul witnessed continually to all—"to small and great." To all men we should be constant witnesses. The rich are not to be shunned because of their riches, or the poor because of their poverty, the wicked because of the opposition to divine truths; or the indifferent because they may mock the sacred things of God. To all men everywhere we are to faithfully bear witness for Christ, with the object in view of leading them to Him as their Saviour.

4. Why should we witness continually (Ps. xxxiv, 1-4)? In this passage we have an outburst of the psalmist in praise to God. "I will bless the Lord at all times. His praise shall continually be in my mouth." So it should be with all. Why? Because God's mercies and blessings to us are continuous, hourly and daily. Therefore we should witness to His goodness at all times.

—Bible References—Isa. lxiii, 7; lix, 19; Ps. cxix, 1-8; Mal. i, 12; Luke xxiv, 48; Acts i, 8; ii, 32; xiii, 14; xiv, 22; Gal. iii, 10; Eph. v, 20; Col. iii, 17; I Thess. v, 18; II Thess. i, 3; I Tim. iv, 16.

Pleasant Words For Endeavorers.

Such a tour of the world as Dr. Clark has made is a memorable and cheering sign of the times. It is one of a thousand proofs that there are now no foreign lands and that there can be no more hermit nations. The world hereafter must be healed or poisoned very much as a whole. Let us rejoice in the assured conviction that Dr. Clark's work in the Y. P. S. C. E. is helping in a priceless way to heal the world. He has nowhere taught any erratic or perverse doctrine, but has borne faithful witness to the organizing and redemptive truths and institutions of a scholarly and evangelical faith and life. After their prolonged fatigues and perils of travel, let us welcome home Dr. and Mrs. Clark not merely as Americans, but as crowned cosmopolitans of Christian Endeavor. God grant that the hands of the young Christians of all nations may be so locked together around the planet as to draw the whole world into His bosom and make the sound of His heart beats the marching song of all the ages.—Rev. Joseph Cook.

Boys In Bombay.

Life is much pleasanter for the boys in Bombay, or indeed in any part of India, than for the girls. When the boy first comes into the world, he is welcomed with great joy. His father is delighted, and his mother is proud and happy. I don't suppose the little baby knows much about this himself, but when he grows older he soon learns what an important member of the family he is.

If you Endeavorers could only see the boys in Bombay, the Mohammedan boys and the Parsee boys and the Mahratta boys, if you could realize that they are all your brothers, I am sure you would want to do all you could to help them. One thing you can all do—you can pray for them, and perhaps you can give some of your money to help them. It costs so little to support a boy in one of the mission schools. I am sure you could all do something toward it. Will you not do what you can?—Mrs. F. E. Clark in Golden Rule.

Put a Prayer Under.

There are some loads for the back, and some that must be lifted and carried with the hands. It tires the arms and makes the back ache when the loads are heavy, and if some one comes along who will put his shoulder under or lift with his hands, what a comfort and relief it is!

A young girl was once carrying a market basket that was much too heavy for her strength, and another girl, in passing, noticed it and said, "Let me help you." Then she took hold of the handle and lifted half of the load. It was easy to carry after this. The young girl who was overworked never forgot the kindness of this stranger.

But there are weights that can never be carried in this way. They rest upon the heart. The load may be fear, anxiety or care. It may be a heavy sorrow. How can one help another to bear such burdens? Ah, there is a way. Put a prayer under the load—that presses.—Selected.

Will Keep on Endeavoring.

Some apprehension is expressed in England lest the Endeavor society should become identified with the Boys' Brigade and similar movements which are denounced in many quarters in England as fostering the military spirit and as tending purely to secularism. While the Endeavor movement sympathises with every good cause our friends in England and America need have no fear that it will not keep strictly to the legitimate religious and spiritual purposes for which it was organized and in keeping to which it has been so blessed.—Exchange.

THE SUNDAY SCHOOL.

LESSON IX, THIRD QUARTER, INTERNATIONAL SERIES, AUG. 27.

Text of the Lesson, Acts xxvi, 19-32—Memory Verses, 22, 23—Golden Text, I Cor. i, 24—Commentary by the Rev. D. M. Stearns.

19. "Whereupon, O King Agrippa, I was not disobedient unto the heavenly vision." Some two years after the last lesson Felix was succeeded by Festus, and Paul was still a prisoner. The high priest and the Jews soon made mention of Paul, the prisoner, and asked that he might be brought to Jerusalem for trial, hoping to kill him on the way (xxv, 2, 3). They were compelled, however, to appear against him at Cæsarea, and it was then that Paul appealed to Cæsar, which necessitated his being sent to Rome. Meantime King Agrippa and Bernice visit Festus, and he tells them of Paul and of his appeal to Cæsar, but that he has no definite accusation against him, upon which Agrippa desires to hear him. Paul is now before Agrippa and Festus and the chief captains and principal men of the city, and has gotten as far in his story as his conversion on the way to Damascus and his consequent readiness to obey his new Master's orders. See II Sam. xv, 15; Isa. i, 19, and take heed.

20. "That they should repent and turn to God and do works meet for repentance." He began at Damascus, then at Jerusalem and so on in all the world, preaching these things. Compare I Thess. i, 9, 10; Titus ii, 11-15, and see how he insisted on these things. We are all by nature against God.

21. "For these causes the Jews caught me in the temple and went about to kill me." It does not seem possible that people would hate a man and even try to kill him just for being good, but the hatred of Joseph by his brethren, and of Daniel by his fellows, and of Paul by the Jews simply prove the enmity of man against God, and it was fully shown out in the persecution and crucifixion of the Lord Jesus.

22. "Saying none other things than those which the prophets and Moses did say should come." By the help of God he continued witnessing to small and great, reasoning out of the Old Testament, as we call it, concerning Jesus (chapters xvii, 2, 3; xxviii, 23). Jesus himself taught that all Scripture referred to Him (Luke xxiv, 27, 44). Philip preached Jesus to the Ethiopian from Isa. liii.

23. "That Christ should suffer, and that He should be the first that should rise from the dead and should show light unto the people and to the Gentiles." The suffering and death of Christ are seen in Gen. iii, 15; xxii, 2, with Gal. iii, 16; Ps. xxii, 1, 16; Isa. liii, 5, 6, and elsewhere. His resurrection is referred to in Ps. xvi, 10, with Acts ii, 27; Isa. liii, 10; Hos. vi, 2, etc., while His being a light to the nations is seen in Isa. xlii, 6; xlix, 6, etc. Although all was so plainly foretold, the Jews shut their eyes to the true significance of these things and would not hear of a suffering Messiah (John xii, [illegible]).

24. "And as he thus spake for himself Festus said with a loud voice, Paul, thou art beside thyself; much learning doth make thee mad." He that departeth from evil is accounted mad (Isa. lix, 15, margin). The prophet is a fool; the spiritual man is mad (Hos. ix, 7). Jesus himself was repeatedly told that He had a devil (John vii, 20; viii, 48). If we make Christ our center, we must of necessity be eccentric in the eyes of others and seem to them to be beside ourselves.

25. "But he said, I am not mad, most noble Festus, but speak forth the words of truth and soberness." Paul knew whereof he affirmed and realized that he was speaking in the hearing of a greater than Festus or Agrippa. He had no ambition to please men (Gal. i, 10; I Thess. ii, 4), but he did desire to please Him who had called him (II Cor. v, 9, and II Tim. ii, 15). And he had a great ambition to win men to Christ (I Cor. ix, 22) and to magnify Christ in his body whether by life or death (Phil. i, 20).

26. "For the king knoweth of these things, before whom also I speak freely, for this thing was not done in a corner." When the high priest asked Jesus of His doctrine, He said, "I spake openly to the world; I ever taught in the synagogue and in the temple, whither the Jews always resort, and in secret have I said nothing" (John xviii, 20). The story of Jesus of Nazareth was known far and wide, but it was to the great majority simply a story of "one Jesus, who was dead, whom some affirmed to be alive" (Acts xxv, 19). It is not much more to most people even now.

27. "King Agrippa, believest thou the prophets? I know that thou believest." One of Paul's mottoes was, "Believing all things which are written in the law and in the prophets" (xxiv, 14). Jesus' rebuke to the two disciples was, "O fools and slow of heart to believe all that the prophets have spoken" (Luke xxiv, 25). Surely the Lord God will do nothing, but He revealeth His secret unto His servants the prophets (Amos iii, 7); therefore if we care anything about the secret of the Lord we will surely study prophecy.

28. "Then Agrippa said unto Paul, Almost thou persuadest me to be a Christian." The R. V. makes Agrippa say, "With but little persuasion thou wouldst fain make me a Christian." Herod heard John the Baptist gladly and did many things; Felix trembled under the Spirit's words through Paul, and now Agrippa is moved, but nothing lasting ever came of it in either case as far as we know. The word preached does not profit unless mixed with faith in those who hear it (Heb. iv, 2). We have great need to take heed of the evil heart of unbelief, and to take heed how we hear (Heb. iii, 12; Luke viii, 18).

29. "And Paul said, I would to God that not only thou, but also all that hear me this day, were both almost and altogether such as I am, except these bonds." It was not liberty that Paul sought, nor personal comfort, except as he could use them for the glory of God, but he did always and everywhere seek to win men to Christ. Whether they were rulers like Agrippa, Festus or Felix, or public servants like the jailer at Philippi, or slaves like Onesimus, he regarded not their circumstances, sought not their favor, despised not their poverty, but most earnestly coveted their eternal welfare.

30-32. "This man doeth nothing worthy of death or of bonds. This man might have been set at liberty if he had not appealed unto Cæsar." These three verses of our lesson tell of the private conference of the king, the governor, Bernice and they that sat with them when they had retired from the public assembly after Paul had finished his testimony. The two sentences I have quoted give their decision, and as we read them we find like a tubing that Paul had not appealed unto Cæsar. But when we read chapter xxiii, 11, "The night following the Lord stood by him and said, Be of good cheer, Paul, for as thou hast testified of Me in Jerusalem so must thou bear witness also at Rome," we are compelled to be still and see God working out His own purpose in His own way.

Streets Versus Presidents.

A little Buffalo miss, when asked by her schoolteacher to name the presidents of the United States in order, began glibly, "Washington, Jefferson, Madison, Monroe, Adams, Watson, Ensnis"—Here she was checked by the teacher, who remarked that she seemed more familiar with the streets of her native city than with the presidents of her country.—New York Times.

PRETTY GOOD EVIDENCE.

How a Doubting Thomas of a City Editor Was Satisfied of the Truth.

He was very fat and a reporter on a paper in Pittsburg. For some time the city editor had been gradually becoming impressed with the opinion that some of his reporters were shirking and were not using that diligence and energy in gathering facts concerning assignments given them to cover that should be characteristic of them. In fact, he was in that frame of mind in which he was harassed with grave doubts every time a reporter said that a man he had been sent to see was not in or refused to talk.

One evening when this impression was running strongly within him there came a rumor that Harry Oliver, the big iron man, had failed and had made an assignment. The fat reporter was sent out to see Mr. Oliver. He returned with the information that the house was shut up tight, and that repeated rings had failed of any response. Mr. Oliver's house was up one of those high hills that would impart bloom on the cheeks of all its girls but for the smoky atmosphere.

The city editor looked at the fat reporter, and then he was ready as a good Quaker to solemnly affirm his belief that the hill leading up to Mr. Oliver's household had never been climbed. He was neither slow nor delicate about asserting this belief and dispatched the reporter again on the same mission with directions not to return without some evidence that he had actually been at the Oliver residence.

Later in the night the fat reporter came in puffing and blowing. Under his arm was a big package neatly wrapped in a newspaper. He reported a second failure to arouse any of the supposed inmates of the Oliver house, and a second time the city editor was incredulous. "There," said the fat reporter, with emphasis, "there, does that satisfy you?" and he banged down on the table his package. Unfolding it in a bewildered way, the city editor exposed the contents, a great silver plate inscribed "H. W. Oliver, Jr." The fat reporter had rung the door bell unavailingly and had then unscrewed from the family mansion the name plate on the door.—Washington Post.

A Grace Church Window.

By nothing can the prevailing state of taste be more accurately gauged than by the monuments erected in churches and other public places. In the dark periods which every now and then come in art church monuments erected by the loving but mistaken friends of the dead have been often horrid monstrosities. It is good to note a decided advance in this respect here in New York. In some of our churches exquisite windows, rivaling in the delicacy of their tones those to be found in the old churches of the continent of Europe, have been placed. Now it is announced that another door, set in a carved doorway, is to be placed in Grace church by the family of the late Charles Griswold Langdon. This will make each entrance to the church represent a memorial to some former member of the parish. The good thing about a window or a doorway is that in each case there is a design to improve the church rather than satisfy that individual pride which is so manifest in the case of so many mural and statuary memorials.—New York Sun.

Some Magnificent Wedding Cakes.

Some very costly wedding cakes have been made in the royal kitchen of her majesty the queen. That provided for the Princess Beatrice's wedding was said to be worth £300. It weighed 800 pounds, was 9 feet in height and 3 feet in diameter. Six months were occupied in modeling the ornaments, among which were 1,800 sprays of sugared leaves of ivy, roses, honeysuckle and other plants. It was conveyed to Osborne in a special van and required 12 men to handle it.

The one provided for the marriage of the Princess Louise with the Duke of Fife was also made by the queen's confectioner and was a most magnificent and costly cake. The cake made for Count Munster's wedding was said to be of great cost. It stood on a handsome silver plateau. It weighed over a hundredweight, and was built in two tiers, overtopping everything else in the room where the breakfast was held.—London Tit-Bits.

Modern Education of Children.

To bring the child into contact with facts, to guide him in classifying and labeling these facts for himself, becomes the teacher's first and chief duty, in obedience to the sound principle that development of powers is gained by their exercise only. From this point of view education is conceived of as a natural process extending from the cradle to the grave, with nature as the chief teacher and the mother as the first assistant, whose work is carried on by the schools and the experiences of life.

In this natural process of education, ideas come before expressions, whether the idea be the child's first conception of color and form or the profoundest abstraction of a philosopher, and its principles are therefore applicable to education in all grades from the kindergarten to the university.—Professor William M. Aber in Popular Science Monthly.

DR. JOHNSON'S SPECIALTIES.

JOHNSON'S ANODYNE LINIMENT

UNLIKE ANY OTHER FOR HOUSEHOLD USE.

Was originated and first prescribed by AN OLD FAMILY PHYSICIAN in 1810. Could a remedy without real merit have survived over eighty years?

Generation after Generation Have Used It.

For INTERNAL as much as EXTERNAL use. It is Soothing, Healing, Penetrating. Once used always wanted, and dealers say "Can't sell any other kind."

Every Mother should have Johnson's Anodyne Liniment in the house for Croup, Colds, Sore Throat, Tonsilitis, Colic, Cuts, Bruises and Burns, Sore Pain, Cramps, Inflammation in Body or Limb. Cures Coughs, Asthma, Catarrh, Bronchitis, Cholera Morbus, Por[illegible] Muscular Rheumatism, Lame Back, Stiff Joints, Strains, best remedy made. Inhale for Nervous Headache. Full particulars sent free. Sold everywhere. Price 35 cents. Six, $2.00. If you can't get it send to us. I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

Mrs. Hodsdon, of Haverhill, N. H., After Months of Tedious Suffering, Finds Relief.

Of Interest to Many of Our Readers.

Haverhill, N. H.—In many cases physicians have pronounced as incurable, disease of the skin and blood, but in the case of Mrs. Hodsdon, she abandoned the old school method and had barely used three bottles of Dr. David Kennedy's Favorite Remedy, when she was cured of her affliction.

In October 1890, and for nearly a year after, Mrs. Hodsdon suffered constantly day and night from a diseased ankle bone. She had always been troubled with Salt Rheum, which aggravated the diseased leg. Prescriptions and medicines of all sorts were used, but with no benefit.

Dr. Kennedy's Favorite Remedy was suggested and used, and it did for Mrs. Hodsdon that which it had done for thousands of others, drove the poison out of the blood and healed the ulcerous sores, and restored Mrs. Hodsdon to health and strength.

Favorite Remedy cleanses the blood, and strengthens the nerves. In cases of Salt Rheum, Scrofula, Boils, Ulcers, Tetter or sores, it cures where all else fails. aug25waS

THE TEETH OF THE LAW.

The "peach-yellows" legislation has roiled up the peach-growers of most of the counties in the state, and in many instances they are appealing to the state board of agriculture to see if they cannot be relieved from the orders of the deputy commissioners to destroy their trees. The disease is found to be more prevalent in Windham county than in almost any other county in the state, and strange to say, there is less fuss made there than in some other counties where the number of trees ordered destroyed is very much less.

The result of the deputy commissioners' work shows that such a law was necessary; and the refusal to comply with the orders of these officers will only result in the further application of the law, the penalties of which are severe, and from which the offenders cannot escape.

The disease is traceable to the fungi, as are potato rot and fruit blights, and these flowerless and despoiling parasitic plants are to fruit trees and fruit about what glanders and epidemic diseases are to animals. It is necessary that heroic measures should be taken to hold the "yellows" to the minimum, for these fungi cannot, probably, be wholly exterminated. The "teeth of the law" pinch hard, and the wound is hard to bear; but it is done in the interest of the state, and these decrees for the destruction of the diseased trees should be obeyed.

This law can be no more easily resisted than any other wholesome law on the statutes; and it can be obeyed at less cost than it can be resisted. There is no doubt that most of the peach-raisers will promptly comply with the orders of the deputy commissioners, unless the board of agriculture find a mistake has been made and [illegible] them.

THE UNEMPLOYED.

The problem which is at present confronting the authorities of the large cities is what is to be done for the mass of unemployed who will soon be dependent upon public charity if work is not provided for them. The situation is quite as grave for the idle men and women as it is for those who are more fortunate, for it is not an American trait to desire to be fed with soup at the public expense if work can be done to earn that, or better fare.

These people will have to be fed, or they will become dangerous. They are not worse than other people, but want, starving families and a condition of utter hopelessness, make men violent and dangerous. There is no excuse for any number of people being allowed to fall to the border of starvation before a helping hand is reached out to them. There is not a city in the country that could not improve its beauty and healthfulness by a generous outlay of money, and in times of crisis and suffering it is wiser and better to expend thousands of dollars in promoting the interests of the people than to be obliged to spend thousands in putting down riots, feeding a horde of beggars and maintaining in prison men who would have been self-maintaining and orderly had not circumstances made them mad and violent.

It is probable, should the times remain dull, that the large cities will make special appropriations for public works and thus hasten contemplated improvements and keep the people fed, industrious, and comfortable.

WAGES AND THE TARIFF.

The Boston Journal in an article upon this subject Friday said: "The point in which American workingmen are at present vitally concerned is not whether protection advances wages, but the converse of this, namely, will free trade reduce wages? Upon this point, that eminent tariff reformer, David A. Wells, in an interview in The New York World the other day, in answer to the question, Will tariff reform reduce wages? said:

> Yes. Wages, like everything for sale, have been forced to a high standard that cannot be maintained.

So also The New York Evening Post says frankly that under the present circumstances reductions in wages "are hardly to be avoided." Again, The New York Commercial Bulletin, excellent tariff reform authority, said some time ago:

> Those who have taught workingmen that a reduction of tariff does not mean a relative reduction of wages have adulterated a great reform with very paradoxical doctrine; but we doubt whether they have succeeded to any great extent in misleading their pupils.

While the Herald is discussing this question, we should suppose it would interest its wage-earning readers if it would explain this statement, which it made editorially, June 24, 1892:

> Rise in wages is directly opposed to the principles of free trade, which means that, in the present system of industry, goods should be produced where they [illegible].

These eminent democratic authorities do not seem to agree with "the boy journalist of Connecticut."

IN SELF-DEFENSE.

The call is already out for a meeting of colored lawyers at Chattanooga, Ga., on Oct. 10, to discuss the question of the better protection of the negroes of the south from lynch-law and persecution to which no other class of citizens is subjected.

The conference is to be composed of this professional class and they will strive to devise some legal ways to put a stop to the burning and lynching of colored men and boys by mobs of angry, and often misguided, citizens.

The negro race has shown its ability to advance mentally and materially in the past twenty-five years, by its increase of wealth from one hundred and twenty millions to two hundred and forty millions, and its list of pupils, which in the schools of the south, number one and a quarter million. They have two hundred and fifty lawyers and seven hundred and forty-nine doctors, and the possibility of their holding such a convention as this, counts also for their intellectual progress.

In this effort they deserve the sympathy of all classes of people, for the cause in which they are engaged is a just one, and it should triumph.

IN A NUTSHELL.

A recent issue of the New York Tribune, contained an illustration, which is a singularly concise explanation of the "lack of confidence" which pervades the country.

It was a pastoral scene. Uncle Sam, as a shepherd, was looking at his large flock of sheep, who were running around with every evidence of terror and dismay.

Slowly crawling over the wall was depicted the democratic Tammany tiger, who, seeing the confusion in the herd, exclaimed: "What are they all running for? I have not hurt any of them yet!"

EDITORIAL COMMENT.

Refrain of the American cup: "The Navahoe is not my Joe!"

The hurricane was all right, but it didn't fit Horace Johnson's "figgers."

Emma *Goldman* is out of place as an anarchist! She ought to be president of a [illegible]

The West Indian cyclone was a wrestler. Three hundred New Haven clams went down before it.

The editor of the Ram's Horn says: "Those who receive their religion for nothing pay for all they get."

The heavy ironsides and dynamite projectiles are the loud advocates for peace. They are so freighted with doom that they are making war unpopular.

The Connecticut national guard has had more weather experience than tactics the past week. It is educational. The boys will come marching home today.

The democratic papers are shouting, "Boom business and stop hoarding money!" But they are not saying anything against that revolutionary and business destroying Chicago platform. When they take in this scare-crow business will start up again!

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

THEY'LL SOON BE BALKING.

Of silver ratios free-coinagites are talking—
They're killing time—they'll soon be balking!
'Tis a knotty question, don't you know,
How to make a silver dollar go!—
To keep "cart-wheels" up to the low ratio—
They're killing time—they'll soon be balking!
For the shut-down mill—the empty till—
Have given the nation a frightful chill!
But for free-coinage they'll throw their heft;
And, don't you know, they'll then get left!—
Of silver ratios free-coinagites are talking!—
They're killing time—they'll soon be balking!

VOICE OF THE PRESS.

Manufacturers Agreed

The manufacturers of Philadelphia have no doubt as to what is troubling business. They believe that dread of free trade has quite as much to do with it as dread of free silver. Therein they agree with the manufacturers of New England.—[Boston Journal.

The Old Sailors' Superstition.

If there's any truth in the old sailors' superstition that to be lucky ashore is to be unlucky at sea, Lord Dunraven's successes on the turf seem to foretell defeat for the Valkyrie.—[Boston Herald.

Republicans Afterwards.

It should not escape attention that the handful of nominal republicans in congress who support free coinage are silver men first and republicans afterward. They are especially weak-kneed on the tariff issue. One and all of them seem to have a natural affinity for free trade. The strong protectionists on the republican side in Washington are equally strong for honest money.—[Boston Journal.

An Honest Democrat's Opinion.

In an able speech on the unconditional repeal of the Sherman silver law the Hon. Ashbel Parmelee Fitch of the Fifteenth New York district gives us an illustration of patriotic statesmanship, which, we feel sure, his illustrious colleague from this city will make haste to follow. Read his words:

> I am frank to say, Mr. Speaker, that in such an emergency as this—an emergency unforeseen at the time when the platform was made, and for the occurrence of which it did not provide—that the wording of a platform would never frighten me out of giving relief to the hundreds of thousands of people who are unexpectedly drifting toward bankruptcy or are deprived of a chance to labor. As between the demand of a political platform and the united demands of the workingmen and the business people, who are in sore [illegible] serious danger in my district, if I had to make the choice I should let the platform go.—[New York Press.

The Norwich Weekly Courier is the best weekly newspaper in New England at 50c a year.

MINERALS ALONG SHORE.

Pink Sand at Ocean Park—[illegible] at Fishers Island—The Painted Stones of Plum Island.

The mineralogist finds pleasure strolling along the beaches of the sound and the adjacent islands. The pink or rose-colored sand at Ocean Park, New London, gave rise to a report that loads of garnets had been washed ashore there. The brilliant sand quickly attracts the attention of a collector, but a microscopical examination shows that the brilliant colored sand is pulverized rose quartz, and in it are many tiny garnets of a dirty brown color. Along the beach may be picked up pebbles of white, smoky and rose quartz and a few tiny agates.

At Plum Island there is a beach called "The Painted Stone Beach" on account of the great variety of pebbles lying there. This beach is strewn with pebbles of milk white and rose quartz, separate and mixed, which in the water are as brilliant and variegated as a bed of flowers. There are cart-loads of striped pebbles, agates, chalcedony, and quartzes of every color lying in piles along the shore, and the collector always finds something rare as a reward for careful search.

The stone strewn beaches of Fishers island reward the patient collector with a variety of agates and good specimens of chalcedony, but a knowledge of minerals is needed to find them, as every striped rock along the shore is not an agate, as many collectors have learned by a disappointing examination after the pebbles had been carried many miles. An interesting feature of the beach beyond North hill is the great boulders of feldspar which represent the work of the glacial period.

There is much to interest the collectors of minerals on all the beaches along the Sound.

Quinine retails at all sorts of prices in this town, and even at the lowest it is profitable to the druggist. It is most commonly sold in two grain pills, as prescribed for malarial diseases, and these pills cost per dozen all the way from 6 to 20 cents, and perhaps higher. As the dozen pills, if honestly made, contain exactly one penny worth of the drug, the price varies from $1.20 to $4 per ounce. It is a long while since quinine was worth the latter price.

They make one feel as though life was worth living. Take one of Carter's Little Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

"How to Cure All Skin Diseases."

Simply apply SWAYNE'S OINTMENT. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT.

If you are nervous or dyspeptic try Carter's Little Nerve Pills. Dyspepsia makes you nervous, and nervousness makes you dyspeptic; either one renders you miserable, and these little pills cure both.

Groves of orange rich in perfume,
With their odors freight the breeze;
SOZODONT, in healthful fragrance,
Cannot be surpassed by these.
Teeth by it are snow white rendered;
Take no substitute if tendered.

For Over Fifty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP."

We think we can cure a bad case of Backache quicker with one of Carter's Smart Weed and Belladonna Backache Plasters than by any other application, and after the Backache is cured you can still wear the plaster without discomfort for two or three weeks or longer. This combination of Smart Weed and Belladonna is a great hit, and it is hard to find any pain or ache that will not yield to it. Price 25 cents. Sold by druggists everywhere.
